GUARDSMEN FIRE ON RUM-RUNNERS

Illegal Operators Rescued Men From Niagara River and Then Open Fire.

BUFFALO, July 11 (Canadian Press).—United States Guardsmen, in order to comply in the strictest sense of their duties last night were obliged to shoot at three men who had only a few minutes before rescued them from the Niagara River. The guardsmen had captured a motor boat carrying contraband ale across from Canada to the States. Just as the revenue boat had overtaken the ale boat it became embedded in the weeds and called on th captive boat for aid. The crew of the ale runner had a short conference and acceded to the request by towing the Government boat to shore. Once on shore, however, the prisoners made a dash for liberty in the darkness. The coast guardsmen opened fire at the fugitives, who escaped.

SCHOOL REPORT.

MARMORA, July 9. Midsummer promotions—

MARMORA PUBLIC SCHOOL

Promoted to Fourth Class.—Sarah Hart (hon.), Aletha Vincent, Marjorie Graham, Grace Laird, Iva Phillips, Harold Nobes, Jack McInroy, Earl Naylor, Hugh Phillips, Nellie Davidson.

Uncle Wiggily

To-day's Bedtime Story

By Howard R. Garis

UNCLE WIGGILY AND HOPPER'S BOAT.

(Copyright, 1927, by McClure Newspaper Syndicate.)

Walking slowly along the bank of the brook one day, Uncle Wiggily heard a voice shouting:

"Help! Help! I'm drowning!"

"Dear me! It isn't any fun to drown!" thought the rabbit gentleman to himself. "I must help whoever it is. Still I had better make sure this isn't the Weasel and Bear trying to play another trick on me by slinging mud."

So Mr. Longears peered up over the top of the tall weeds that grew along the edge of the brook, and he saw none of the bad chaps. But out in the middle of the stream he saw a bug floating along in the water, squirming with his legs.

"What's the matter?" asked the rabbit.

"Can't you see!" was the answer. "I fell in and I will drown unless some one helps me out."

"Oh, I'll help you all right," kindly offered the bunny and then, taking up a tree branch that lay on the ground, the rabbit thrust it out into the brook where the bug could get hold of it. A moment later the half drowned little creature was crawling out on the bank. He was covered with mud and water, but would soon dry out in the warm sun.

"What is your name?" politely asked Uncle Wiggily, for he could not see exactly what kind of a bug the creature was on account of the mud which partly covered him.

"My name is Grass," was the answer as the bug stretched first one wet leg and then another out in the sun.

"Excuse me for saying it, but Grass seems a queer name," said the bunny. "Are you Grass Green or Grass Pinks or Blue Grass of Kentucky?"

"Neither one," answered the bug. "I am Grass Hopper. I am so excited, on account of nearly being drowned, that I almost forgot my name. But that's it—Grass Hopper—and you may call me Hopper if you like."

"Thank you, I shall do so," said the bunny. "It is too bad that you fell into the brook."

"Oh, I didn't fall in—I jumped in," answered Hopper.

"You don't mean to tell me you jumped in on purpose?" cried Uncle Wiggily, sorry he had wasted his time on such a foolish chap.

"Oh, no, I didn't jump in on purpose," answered Grass Hopper. "You see I wanted to get on the other side of the brook, and as there is no bridge here and no boat I was forced to jump over."

"Oh, do you mean you jumped all the way across the brook, to the other again?" asked the rabbit.

"No! No! I didn't!" laughed Hopper, who was now almost dry. "But the brook was wider than I thought and I did not jump hard enough or far enough. So I fell down in the middle of the water. But I am going to try again!"

"What!" cried Uncle Wiggily. "Are you going to jump in the brook again?"

"How funny! Of course I'm not!" buzzed Hopper. "I mean I am going to try another jump, but this time I will go so hard and far that I shall land safely on the other side. You watch me!"

"I'll watch," said Uncle Wiggily. And to himself the rabbit said: "He may fall in again. If he does I'll be here to fish him out."

Surely enough when Grass Hopper jumped again, he splashed into the water and the bunny had to poke him out.

"But I almost reached the other bank that time!" panted Hopper, when he was again drying in the sun. "The next time I'm sure to do it."

"You don't mean to say you are going to try another jump!" said Mr. Long ears.

"Of course I am!" buzzed Hopper. Once more he took a long breath and gave a big jump when he was quite dry. Uncle Wiggily thought surely Hopper would reach the opposite bank. But alas! No! Into the water once more flopped poor Hopper and he was almost drowned before Uncle Wiggily could fish him out.

"But I must get over to the other side!" panted Hopper.

"Then you must go over on the ferry boat," said the rabbit. So he called for Mr. Poke, the mud turtle gentleman, who acted as ferry boat in the brook. The turtle came swimming slowly along, the top of his shell sticking out of the water. On the turtle's back Hopper perched himself and then, high and dry, he was ferried over the brook and reached the other side without falling in and getting wet.

"Thanks for the boat ride, Mr. Poke. And thank you, also, Mr. Longears for helping me," buzzed the Hopper as he soared away amid the green grass. So the bunny and turtle were happy because of the help they had given.

ENTRANCE EXAMINATION RESULTS

The Public and Separate schools of the city prepared for examination 328 candidates, of whom over 90 per cent were successful.

A.—Passed on Recommendation.

Vernon Armstrong, Jack Allison, Harry Anderson, Doris Armstrong, Dorothy Allen, Adelina Anthony, Garth Braund, Faith Boorman, Russel Barton, Hazel Bradley, Lottie Beatty, Leslie Batterson, Isabel Brown, Edward Brown, Lillian Bettes, Ernest Bathgate, Hector Bousfield, Marjorie Baldry, Francis Blair, Zeruah Blodgett, Myer Cherney, Ruby Colmer, Marguerite Cowan, Grace Comstock, John Clayton, Josephine Carson, Howard Cunningham, Ralph Clark, Helen Cole, Robert Cathcart, Louis Chester, Isabel Cragg, Harold Chadwick, Clifford Cadd, Irene Cox, Audrey Crary, Maisie Cowan, Ethel Cooke, Robert Cunningham, Jean Cox, Stanley Clarke, Fred Caravaggie, Louie Corbett, Margaret Coursey, Madeleine Curtin, Jack Davern, Irma Darling, Gordon Dearborn, Virginia Deyell, Helen Davis, George Doukas, Helen Dawson, Geraldine Dunford, Ruth Doxsee, James Duffus, Joseph Dempster, Thelma Dalton, Mary DeForge, Ivett Delorme, John Driscoll, Olive Elcombe, Minnie Ebbs, Edward English, Douglas Fraser, Chrissie Forest, Fred Ford, Ernest Found, Eileen Fisher, Bernice Flynn, Audrey Grimison, Elsie Gates, Betty Goldie, Mary Griffin, Barbara Gray, Michael Gahagan, Harry Gainey, Isobel Glover, Grace Griffin, Marcella Garvey, Emmett Guerin, Tom Hatley, Dorothy Henderson, Ivan Hagerman, Arlie Herron, Doris Herald, Gwen Hewett, Margaret Heaslip, Kenneth Hetherington, Minnie Hodson, Willie Hurst, Mildred Holden, Alberta Hall, John Hickey, Thomas Hickson, Helen Hayes, Gertrude Huot, Marjorie Hallihan, Eileen Irwin, Norman Inch, Bertha Inch, Grace Irwin, Lily Jenkins, Kathleen Jones, Elsie James, Douglas Kelly, Mary Kirkwood, Freda Kilcher, Irene Killingbeck, Donald Lillico, Gordon LaPlante, Constance Legon, Stuart Mackey, John Mark, Alethe Mills, Gordon Millen, Willie Masters, Donald Muir, George Merrett, Neil Mackenzie, Dan Mulvihill, Bernard Murdock, Josephine Menogue, Carmen Martyn, Patricia McClellan, Grace McCannan, Jack McWilliams, William McFadden, Aileen McCoy, Agnes Masterson, Hugh McCullough, Norman Nesbitt, Marguerite Noble, Ruby Panter, Marion Pilling, Bruce Payne, Muriel Preston, Gwendolyn Pinn, Dorothy Pitchford, Carrol Perrin, Beverley Payne, Irene Parsons, Merton Pearse, Betty Pilling, Catherine Poulos, Ernest Reynolds, Helen Robertson, George Robertson, Lilah Ruiter, Donald Reid, Dorothy Routly, Herbert Rye, Margaret Rogers, Fern Rahmel, Geraldine Riley, Mary Ryan, Gordon Smith, Gwen Sorby, Gladys Sage, Ruth Sutton, Arnold Sanderson, Henry Shepherd, Jack Smith, Pearl Smith, Molly Siegel, Hazel Scharizza, Annie Swistelnieff, Margaret Schooley, Robert Shaughnessy, Gladys Thompson, Berwyne Tillcock, Blanche Thompson, Pearl Thomas, Albert Turcott, Dorothy Theobald, Mary Thomas, Mary Vance, Helen Veitch, Arthur Watson, Isabel Weddell, Allan Worsencroft, Floyd Wagar, Margaret Warne, Max Warne, Billie Widdess, Vera White, Frank Weart, Robert Wyllie, Adeline Wigg, Hugh Waddell, Marion Warboy, Gertrude Wright, Winnifred Wood, Lilian Wesley, Jack Whaley, Agnes Weyer, Florence Young, Gerald Young.

LOCAL IMPROVEMENT NOTICE.

Take Notice That:

1. The Council of the Corporation of the City of Peterborough intends to construct as a local improvement a sewer on O'Carroll Avenue between Benson Avenue and a point 200 feet westerly and intends to specially assess a part of the cost upon the land abutting directly on the work.

2. The estimated cost of the work is $799.00 of which $240.00 is to be paid by the Corporation. The estimated special rate per foot frontage is $1.50. The special assessment is to be paid in thirty annual instalments.

3. A petition to the said Council will not avail to prevent its construction, but a petition against the work or the manner in which it has been undertaken, may be made pursuant to section 9 of the Local Improvement Act, to the Ontario Railway and Municipal Board, by a majority of the owners representing at least one-half of the value of the lots which are especially assessed therefor.

S. R. ARMSTRONG, Clerk.

CLEMENCEAU NEARING END OF BUSY LIFE

'Tiger of France' Unable To Shake Off Effects of Cold.

VERY FEEBLE NOW.

Great French Statesman of War Years is 86 Years of Age.

PARIS, July 11 (United Press).—Enfeebled by age, Georges Clemenceau has developed symptoms which make his friends doubtful that his long and arduous career will continue much longer. For more than two weeks the "Tiger of France" has been unable to shake off the effects of a cold, and the weight of eighty-six years has enchained his once firm steps and enslaved his once keen mind.

So serious was Clemenceau's condition last night that friends and relatives came to his little apartment in the Rue Franklin. Albert Clemenceau, his brother, and Mme. Jacquemare, his daughter, slept all night in the apartment. They left together in a taxi at 7.30 a.m. today, probably indicating that the former Premier was feeling better this morning.

It was reported that a few days ago the "Tiger" turned to his cook and said, "My father died when he was 86. I do not think that I will live to be much older."

Clemenceau arises but infrequently. A brief tottering walk in his apartment, and then he returns to bed or sits in an arm chair, immediately dozing off.

He is losing his memory.

"Tiger" Reported Dead.

PARIS, July 11. Canadian Press.—A report that "Clemenceau is dying" was spread through the parliamentary lobbies to-day, and resulted in the quick descent of several deputies and friends of the war premier upon the modest little house in the Rue Franklin, where the "Tiger" dwells while in Paris.

Clemenceau received them himself. He said that he was just recovering from an attack of grippe, but declared that the report that he was dying was "slightly exaggerated."

Dr. Laubrey, who is Clemenceau's regular physician, said that he expected that his charge, who is 86 years old, would leave for his country home in Vendes, within a few days, as is his custom at this time every year.

BLACKHEADS

Blackheads go quickly by a simple method that just dissolves them. Get two ounces of peroxine powder from your druggist, rub this with a hot, wet cloth briskly over the blackheads—and you will wonder where they have gone.

SALESMAN WANTED

We have a vacany in this territory for a man to represent us. Financial experience, while not essential, preferred. Preferably a man with a car. This is a splendid opportunity for a man to establish a profitable connection with the oldest bond house in Canada.

Apply by letter only, giving full particulars, to

SHOWS ARRIVE LATE AT NIGHT

Work of Setting Up Great Number of Tents Takes All Day.

OPENING TO-NIGHT.

The two long heavily loaded sections of railroad cars of Miller Bros.' Exposition Shows arrived in the city late last night from Kitchener. The first section of 18 cars arrived at 10.30 p.m. and was followed by the second section of 17 cars a half hour later. At daylight this morning the work of transporting the vast amount of paraphernalia to the Fair Grounds was begun and all day the show grounds presented a scene of great activity as the "Tent City" was placed in position for to-night's grand opening.

The Miller Show is the largest organization of the "week stand" tented class to visit Canada this season. Judging from press reports from cities in Ontario which it has already played this season the attractions are both novel and meritorious. The Midway has twenty paid attractions and seven massive riding devices of the most up-to-date character. Among the feature attractions are The Aquatic Show, the largest water spectacle ever carried by a travelling exposition, with a half score of girl and men swimming and diving champions; "The Follies Revue," a miniature Broadway musical revue with

LOCALS

AN OMISSION.

In the account of the Lily Lake festival held last week it was omitted that the piano was kindly loaned for the occasion by Heintzman Hall.

DON'T MISS IT!

Every Tuesday, Thursday, and Saturday, if the letters get through on time, Paul Adams will tell readers of The Examiner about the battlefield, where Canada fought—as they are to-day. dtf

STILL NEED OF VISION TO MAKE CANADA GREAT

Rev. David Wren Stresses Planning of Statesmen of Sixty Years Ago.

THE DREAMERS.

Wonderful Things Done By Men Who Possess Intellectual Vision.

The vision of sixty years ago that planned railways when there were no passsengers or freight in sight for them that built canals when Canada had only the ships of her dreams, that laid out boundaries of provinces when there were few people to fill them, was still necessary, Rev. David Wren, of Trinity church, told the members of the Rotary Club to-day at the weekly luncheon, if Canada was to profress as she should during the cycle of years now beginning.

The speaker, who was introduced by Rotarian Adjutant Frank Ham, delivered a most eloquent and inspiring address, taking as his subject "What Do You See?" There were diferent kinds of vision, he pointed out. First, physical vision, which saw the trees and flowers, the material things. Then there was spiritual vision which enabled one to see the things that were not material and, and finally intellectual vision, the vision of the dreamer, out of whose imagination came many of the great developments in this world's history. Upon this last kind of vision Rev. Mr. Wren spoke at greatest length, dwelling upon what the world owed to the men of imagination, the dreamers whose dreams came true.

In this connection he stressed upon the vision of the statesmen and the builders of Canada sixty years ago, and emphasized the need of similar vision as the Dominion launched out into the next decade of her history.

Rev. Mr. Wren's eloquence was very much appreciated, not only by the members of the Peterborough Club, but by visiting Rotarians and other guests who were present in unusual numbers at to-day's luncheon.

A delightful feature of the programme was contributed by Mrs. M. Perry of New York, whose rich pure voice was admirably displayed in two most enjoyable numbers.

HARDILL HOLDS ROTARY HITLESS

Kiwanis Juniors Win Play-off Game For the City Title.

FOURTEEN STRIKE-OUTS.

Playing behind a steady pitcher on Friday evening, Kiwanis defeated the Rotary Juniors by the score of 18—1. Jeff Hardill, the twirler for the victors, pitched a no-hit game and had fourteen strike-outs chalked up to his credit. This game was the play-off for the City League Championship.

SACRED CONCERT GIVEN BY LADIES

Good Attendance at Legion Hall on Sunday Evening.

The sacred concert held in the hall of the Canadian Legion on Sunday evening by the Female Voice Choir, had an attendance of between two and three hundred patrons, and provided an excellent programme of music for the audience, besides helping to augment the fund for a worthy cause. The ladies were warmly applauded for their efforts, the Female Voice Choir, under the leadership of Mrs. R. Bugg, giving several well-rendered numbers, assisted by soloists in vocal and instrumental music and recitations.

At the conclusion of the programme, appreciation of the Choir's endeavours in helping along many splendid causes in the city, and the generous nature of the assistance afforded by them, was voiced by Mrs. J. Mills, president of the Ladies' Auxiliary to the Canadian Legion, and Mrs. W. R. Morris, who occupied the chair for the occasion.

The programme opened with the Doxology, followed by the choir singing "Hark, Hark, the Lark"; a vocal solo by Mrs. F. Rathbone, "Home at Last"; a violin and piano duet by Miss Chrissie Milby and Mr. W. White; a vocal solo by Miss E. Harrison, "Little Pink Rose"; the Female Voice Choir, in "Sweet and Low"; a vocal solo, "My Prayer," by Mrs. G. F. Jackson; a reading by Mrs. Bert Nicholls, "Blly's Rose"; a vocal solo by Miss Minnie Allen, "A Perfect Day"; a violin and piano duet by Messrs. Tilt and B. Nicholls; a vocal solo by Miss Stella Brady, "The Same Old, Dear Old Place"; a piano solo by Miss Chrissie Milby, "The Harmonious Blacksmith"; and a concluding number by Mrs. Foster and the choir, in "Nearer, My God, to Thee," with an illuminated cross and the choir in white, in tableau effect.

WEDDING BELLS.

GRAHAM—PURVIS

A very quiet wedding was solemnized on Saturday morning by the Rev. J. L. Harton; at the home of the bride's parents, Mr. and Mrs. H. S. Purvis, 471 Albert Street, when their eldest daughter, Thelma, was united in marriage to Mr. Geoffrey Graham of this city. Miss Inez Gilman, R.N., of Almonte, Ontario, acted as bridesmaid, and Mr. George Snowdon of this city as best man.

TOBIN—HARPER.

A pretty wedding was solemnized at the rectory of the Immaculate Conception Church, on Wednesday, June 29, when Vernabell Harper became the bride of Thomas A. Tobin. Rev. James Guiry officiated. Attendants were Miss Kathleen Guerin and Mr. James Butler. After the ceremony a buffet luncheon was served at the home of the bridegroom, Mr. and Mrs. Tobin leaving later on a trip to Niagara Falls and Buffalo. They will reside at 193 River Road.

BRITAIN WILL ACCEPT LIMIT ON CONDITION

If U. S. Agrees To Restrict Number of Big Cruisers to About Ten.

COST REDUCTION.

Saving of Fifty Millions Sterling From Proposed Limitations.

GENEVA, July 11 (Canadian Press). — It was announced in authoritative British circles this afternoon that if Great Britain and the United States could agree to limit the number of 10,000-ton cruisers to about ten, Great Britain would be prepared to accept the maximum total tonnage figure of four hundred thousand tons which the United States delegates have insisted upon since the opening of the tripartite naval conference.

The idea in back of this plan, according to the Canadian Press correspondent, was that if only a small proportion of the tonnage were expended upon larger cruisers, such as the United States delegates demanded, Great Britain would have enough tonnage left to maintain the number of small cruisers which she regards as necessary for the needs of the British Empire.

REDUCTION IN COST.

LONDON, July 11 (Canadian Press). — The British limitation proposals, if adopted by the tripartite conference at Geneva, would lead to a reduction in expenditure of nearer fifty million than forty million pounds sterling shortly, Sir Austen Chamberlain, Foreign Secretary, declared in the House of Commons to-day.

It was unthinkable, he declared, that Great Britain should enter into a new race with the United States in naval armaments.

PLANS LONGEST HOP.

German Will Try Non-Stop Flight, Berlin To San Francisco.

BERLIN, July 11. Canadian Press. —Otto Koennecke, a famous German war ace, plans to hop off about September 1st on his projected non-stop flight from Berlin to San Francisco. He will fly a Caspar bi-plane, fitted with a single water-cooled motor.

IN POLICE COURT.

William Pearson pleaded guilty this morning to having liquor within his possession without a permit under the Government Control Act of Ontario and was fined $100 and costs of $9.75, or one month's imprisonment.

He was also charged with an infraction of the Inland Revenue Act, in that he made beer without getting a permit from the Inland Revenue officer. To this charge he pleaded not guilty and the case was remanded for one week.

Thomas Wynn pleaded guilty to not stopping at a stop sign and also to speeding, and was fined $10 in the first case and $25 in the second. On the night of June 30, Wynn failed to stop at the corner of Rubidge and Charlotte Streets. A car was coming east on Charlotte at the time, and because Wynn committed a breach of the law, the other car was forced up on the south-east curb, where it struck a tree and the stop sign, causing $175 damage to the car.

Mrs. Mary Jane Annis was fined $10 for drinking liquor on Friday, July 9.

Madden Taylor was fined $100 and costs for having liquor without a permit. Taylor entered a plea of not guilty and was defended by J. A. O'Brien.

In this case J. A. O'Brien moved for a dismissal as he claimed the mere smelling of the contents within a bottle was not sufficient evidence to convict a person of having liquor. Magistrate Langley ruled that when a witness goes into a box and swears that he has sufficient knowledge to know whiskey and that he can tell when he smells it, that is sufficient evidence. Provincial Constable Maker had sworn that he had smelled the contents of the bottle which was found on Madden Taylor when he was arrested and he called it whiskey.

Mrs. Annis, when being called to give evidence in this case, said she was visiting with a cousin of hers at Curve Lake, and had come into Peterborough, where she found Taylor. She drove around with him for a while, and then he got out at the corner of Aylmer and Brock Streets and told her he was going to get some liquor. When he came back he told her he got a bottle of liquor at Akey's. She said each of them had one drink on Charlotte Street, and then they were arrested by Constable Maker and Inspector Reid as they passed the police station.

Noah Taylor, a young Indian, pleaded guilty to assaulting ex-Chief Joseph Whetung on Monday, July 4, at Buckhorn. He said he struck Whetung one blow when he was intoxicated, and the next day Martin Knot cleaned up on him for his hitting the old chief. He was fined $5.00 and costs.

He also pleaded guilty to being intoxicated in a public place, and was fined $10 and costs.

OBITUARY.

MRS. MARY MOYNS

A funeral service for the late Mrs Mary Moyns will be held tomorrow in the Salvation Army Temple, conducted by Adjutant Frank Ham.

A group of swimming and diving girl champions with the big Aquatic Show with Miller Bros.' Exposition Shows, which open a week's engagement at Peterborough Exhibition Park to-night. The diving contingent is headed by Pauline Black, Pacific Coast fancy diving champion. The high diver is Captain Earl McDonald, who does a 93-feet back dive into a tank but 6 feet deep.

Wheat Harvest Will Be Under Way In Two Weeks

CHICAGO, July 11 (Canadian Press). — Wheat took an early downward swing to-day, influenced by predictions of escape from serious black rust damage, if the weather continues favourable. Minnesota reports said the harvesting of advanced fields should be under way within two weeks. Opening ⅝c off to 1⅛c up, wheat prices hardened a little, and then turned lower. Corn, oats, and provisions were comparatively firm, scoring general gains.

Toronto Trading Quiet Strength Is Indicated

TORONTO, July 11. Canadian Press. — Trading continued quiet on the Toronto stock exchange to-day, but price movements generally indicated further strength. International Nickel was the most active of the listed issues and in keeping with the general trend advanced ½ to 62. King Edward Hotel scored the widest gain of this section, when it sold up three points to 40. Atlantic Sugar gained 1½ points to 26; Brazilian moved up 1 point to 163; Canada Steamship Lines, 1 point to 89, and B. C. Fishing preferred ¾ to 82¾.

Imperial featured the banks with an advance of 5½ points to 232 with trading in ten shares.

Northern Bakeries was a feature of the unlisted when it gained 7-8 to 28 7-8 in active trading. Imperial Oil was up ¼ to 44 while BA oil gained 1-8 to 24¾. The distillery stocks were featureless

Mining Market Trend Is Irregular To-day

TORONTO, July 11 (Canadian Press).—A mixed price trend prevailed on the market of the Standard Mining Exchange to-day. There were a number of material gains, but these were generally offset by noticeable declines in other sections of the list. Lake Shore was an outstanding strong feature, selling up 50 cents to 19.50, in fairly heavy trading. Teck Hughes was also strong at 8.26, a gain of 10 cents. Hollinger moved up 5 cents to 18.35, Wright-Hargraves 2 to 5.55, Amulet 5 to 2.45, Noranda 3 to 22.50; and Central Manitoba Gold 2 cents to 1.50. Nipissing recorded the greatest decline when it dropped 25 cents to 5.70. Dome Mines was also weak at 7.35, a drop of 15 cents. Keeley was off three cents to 1.02; Mining Corporation 5 to 3.10, and Area ½ to 44.

DIED

MOYNS.—At the home of her daughter, Mrs. W. H. Peryer, 606 Bethune Street, after a long illness, Mary Georgina, beloved wife of Albert E. Moyns on Monday, July 11th, 1927.

Funeral Service from the home of her daughter, Mrs. Norman Moore, 350 Smith Street, on Tuesday, July 12th, at 2.30 p.m. and also at the Salvation Army Temple, Simcoe Street, at 3 p.m. Interment at the Little Lake Cemetery.

FILM IS MADE OF DELIVERIES TO EGG CIRCLE

Government Officials Take Pictures of Proceedings at Campbellford.

ENGLISH LINE CIRCLE.

Success of Association Has Come Since Re-organization in 1923.

Campbellford was the scene of unusual activities during last Saturday afternoon, July 9, when Ontario Government officials from the Trenton studio quietly arrived and proceeded to film the system of egg deliveries at the English Line Circle receiving station. Egg deliveries are made by the members twice each week, and the business has grown to such an extent that considerable difficulty is experienced in regulating traffic during the rush, this often necessitating the service of a traffic policeman. The film obtained on Saturday is to be included in a series which is being prepared by the Ontario Government for the World's Poultry Congress at Ottawa.

The history and progress of this Circle is interesting. It was among the first to be organized in Ontario, and during the first few years operated with more of less satisfactory results. It accomplished considerable for which it never received full credit. While its operation built up a high standard of quality and secured high prices, it simply resolved itself into a stabilizing influence and price setter for the immediate district. It was the target for opposition and criticism which oftentimes threatened its very existence.

Owing to the fact that local dealers followed up with corresponding prices, it was very hard for some of the producers to realize the actual conditions and often blamed the management for not being able to pay higher prices than any competitor. The Circle got into a rut. Members would come and go, and the volume vary accordingly. It was not until the spring of 1923 that definite steps were taken to remedy conditions.

Entire System Re-organized.

At the annual meeting held in March, 1923, the whole matter was thoroughly gone into. F. H. Buker, district poultry promoter for Eastern Ontario, was present and outlined a policy for future operations. He submitted a definite constitution, by-laws and marketing agreement which would establish a definite business system on a sound basis. There was considerable discussion and a great deal of hesitation on the part of the producers before they could bring themselves to sign a binding contract. This system, however, was finally adopted and sixteen actual members signed on the dotted line.

The executive experienced some difficulty in securing a manager who was qualified for the work and who appreciated the effort being made. In this important matter they were very successful, and in engaging Thomas H. Rowe, they combined courtesy, business ability and outstanding salesmanship. The first shipment was made on April 12, 1923, from the sixteen members.

FINAL REPORT ON WAR CLAIMS DUE IN MONTH

Commissioner Reports Only a Half Dozen Are Still Outstanding.

7 MILLIONS NEEDED.

Likely Payments Will Be Made From Dawes Plan Funds.

OTTAWA, July 12. — H. J. Friel, K. C., commissioner, who is preparing a report on claims for war reparations, returned on Sunday from England and his final report is promised next month. There are only half a dozen of these outstanding now.

In an interim report presented some weeks ago, Mr. Friel, dealing with the awards already made and estimating those which remain, expressed the view that the aggregate would be about seven and a half million dollars.

No. U. S. Payments.

The department is being bombarded with demands for payment of the awards so far made, and many are of the impression that in the United States all similar claims have been liquidated. Inquiry discloses that no payments have been made there, although when they are it is likely to be in full. In Great Britain the awards average about ten per cent. of the claims except in some necessary cases, where they are paid in full. No money will be paid in Canada till parliament makes the appropriation, but it is intended to do this next session, after the cabinet has passed upon the report.

Probably the Canadian share of the Dawes plan payments, being regularly made will be utilised for this purpose.

Bandit's Advice Taken By Victims

WASHINGTON, July 12 (United Press)—A gunman demanding the cash of the French Line local office told employees: "Don't be frightened girls." Mrs. Rebecca Sanford wasn't. She arose, went to the open safe, slammed the door shut, and started to call the police.

The bandit fled.

IDEAL WEATHER FOR CAMP LIFE

Boys at Rotary Camp Enjoy Several Outings During Week.

VISIT EEL'S CREEK

No more delightful days can be imagined than those spent by the boys of the Rotary Y.M.C.A. camp. With the return of real weather, the camp has struck a regular stride and every hour is filled to the brim with those things that delight a boy.

On Friday the whole camp went by water to Burleih, stopping en route at Juniper Island. After a swim the main party set out overland for Kawartha, following scout signs, which led to a message hidden along the road.

Saturday an early start was made for a picnic at Eels Creek. So much impressed were the boys that it has been decided to return and spend the day there next Saturday.

Sunday is always a fairly quiet day in camp, and only he necessary duties are performed. Chapel service was held on the dining hall verandah when the theme, Confidence," as typified in the swimming periods, was related to the Jesus way of life.

Each morning chapel service is held at 9.30 when a part of Jesus' Measure of a Christian" is studied.

The boys have decided that a good raft would be a worthwhile addition to the camp, and so are searching the shore for logs and boards with which to make one. The chute which was blown over by the gales is now in use again.

During the week Bob loss was declared the checker champion of the camp after a keenly contested schedule.

Monday afternoon will see the commencement of practice work in the swimming and boating tests. Class periods of instruction will be taken by the camp together and then followed by individual coaching, with the tests on Thursday afternoon of this week.

The boys' camp is not operating to the full capacity, and those on the grounds invite the boys of the city and district who desire a good time to come to camp.

Swimming Tests.

—Grade I. Swimmer—

1.—Pass boating test.
2.—Swim 75 yards fully clad—boots, trousers, shirt.
3.—Remove clothing in water.
4.—Swim 100 yards free style.
5.—Swim 50 yards back stroke, 50 yards breast stroke.
6.—Dive to bottom in front of dock and recover an object.
7.—Clearly demonstrate artificial respiration.

—Grade II. Swimmer—

1.—Pass boating test.
2.—Swim 50 yards fully clad.
3.—Swim 75 yards free style.
4.—Swim 25 yards breast stroke.
5.—Swim 25 yards back stroke.
6.—Take deep dive.
7.—Clearly demonstrate artificial respiration.

—Grade III. Swimmer—

1.—Swim 50 yards free style.
2.—Swim 25 yards breast stroke.
3.—Demonstrate artificial respiration.

Boating Test.

(Answer Each Question)

1.—How to enter and board a boat?
2.—In case changing places is absolutely necessary, how is it done?
3.—If a paddle is lost overboard, what is done? What not done?
4.—In rough weather how does one cross a stretch of water?
5.—If alone in a canoe, what is the proper position of the paddler?
6.—Give a practical demonstration with oars and paddles?

GERMAN SHIPS VISIT DANZIG

Warships Greeted By Bands Playing Deutschland Uber Alles.

HARBOR DECORATED.

DANZIG, July 12.—(United Press.)—For the first time since the war, two German warships arrived at the free city of Danzig to-day. The vessels, Hessen and a Torpedo Boat T-190, will remain on a five-day visit. A bes flagged harbor welcomed the gaily decorated ships and shore bands played "Deutschland uber alles."

English is being taught over the radio in Japan. Recently the instructor, in a lecture on politeness said the best way to learn such expressions was to bump into English speaking persons in the street, then bow smilingly and remark "I beg your pardon."

UTILITIES WILL SUPPLY WATER OUTSIDE LIMITS

Commissioners Follow Lead of Council in Providing Sewer Service.

OPPOSE PRINCIPLE.

Tendency To Build Up Suburbs Instead of Vacant Lots in City.

The old question as to whether those who live outside the city limits will be given water came up at the meeting of the Peterborough Utilities Commission yesterday afternoon. The commissioners believe the matter rests in the hands of the City Council, and if they give those residents sewer connection then it is up to the commission to supply the water; but it would appear that the members of the commission for the most part are against anything that will build up the outskirts of the city at the cost of the vacant lots inside the city boundaries.

A letter was received from the De Laval Company, cancelling their power contract, as they propose to shut down for two weeks in August.

Permission was granted to the employees of the Commission in the electric light department to join with the other employees from Central Ontario at a picnic to be held at Presqu'ile on July 22nd.

It was decided that the bill rendered the Jubilee Committee would stand, as it represented the cost of power used, and not the cost of labor involved in putting up the electric fixtures for the celebration.

The agreement between the Commission and the Hydro-Electric Power Commission of Ontario under which the local commission sells its rural lines in North Monaghan, Smith and Otonabee to the Ontario Commission, came up for discussion.

Several minor changes were made and the agreement sent on to the Ontario body for acceptance.

The amount involved is a little over $31,000.

CONSULS TO AID BRITISH FIRMS

Will Collect Information on Trade Conditions in Foreign Countries.

TO PREVENT LOSSES.

LONDON, July 12 (United Press).—A new scheme to assist British exporters has been completed by the Government. It provides British manufacturers with a guarantee against loss through the granting of credit to foreign importers by placing at their disposal a service of trade information to assist them in judging to what extent trade is worth cultivating with any particular country or individual firm in that country.

It is realized that the British manufacturers has often been handicapped by fear that the foreign importer with whom he trades may be unable to pay for the goods shipped him, more especially as he cannot spare the time to get this information for himself.

British consuls and trade agents will co-operate under the new scheme in an attempt to revive Britain's export trade.

'QUAKE KILLED AT LEAST 300

Great Damage Done Yesterday in Trans-Jordanian Villages.

DAMAGE IN PALESTINE.

CAIRO, Egypt, July 12. — Canadian Press.—An eye witness who arrived here to-day by airplane from Trans-Jordania said that three hundred people were believed to have been killed in yesterday's earthquake.

Describing the damage at Maan, Arabia, the eye witness said that most of the houses that were damaged had collapsed completely, while a mosque in course of construction was badly damaged.

The movements of the earth lasted 40 seconds and were quite visible in the surrounding lava beds, the effect being terrifying. Many persons were killed at Amman, Palestine, witness said, while others were killed at Rudd and Ramleh, as well as in various villages in Transjordania.

LIPTON RESIGNS.

Gives Up All Active Part in Management of Business.

LONDON, July 12. Canadian Press. —Sir Thomas Lipton, the famous yachtsman, who founded the business of Lipton, Limited 50 years ago, at his own request has been relieved of all active management of the business and has accepted the office of president of the company for life.

Admits Still Blast Killed Family of 8; Pennsylvanian Faces Manslaughter Charge

READING, Pa., July 12. — Mark R. Fehr, whose wife and seven small children perished in their farmhouse at Bernville early yesterday morning in a fire following the explosion of a moonshine still, will be formally charged with involuntary manslaughter if he recovers from his injuries and burns, District Attorney David E. Mauger said to-day.

Fehr, from his hospital cot, withdrew his earlier statement that a coal oil stove had exploded and started the fire. He admitted that a still housed in the basement was responsible, but denied that he had a hand in its operation.

He had rented the basement of his secluded home to two foreigners, but was not aware of their movements or operations, he said.

Fehr and Angelo Consulio, who is also in the hospital, jumped from the second floor of the burning house after vainly trying to rescue the others. Consulio has refused to answer questions.

Eight prisoners from the Berks County Jail spent yesterday at the Fehr farm digging in the ruins for the victims' bones, which will be buried in a common grave. It was estimated that 2,500 automobiles stopped at the farm during the day after a thousand or more sightseers had been kept off the premises by the police yesterday afternoon.

FOUR CHILDREN LOSE LIVES HOME IS DESTROYED BY FIRE

Sad Tragedy Occurs at Farm Home Near Whitney, Ontario.

DAUGHTER NEAR DEATH.

Father at Church Being Married to His Third Wife.

RENFREW Ont., July 12.— (Canadian Press.)—While Joseph Lacombe was at church being married, to his third wife, four of his children were burned to death when their farm home at Whitney, near here, was destroyed by fire yesterday. Yvonne Lacombe, 18, who has mothered the family since the death of Lacombe's second wife, three years ago, was the heroine of the day and is lying at death's door at Whitney Red Cross Hospital, suffering from burns. Yvonne was to have been married next week.

The dead are: Alice, 11, Bella, 9, Edna, 7, Isadore, 5.

The injured—Yvonne, 18, seriously burned, Fred, 16, broken leg and burns.

Early this morning, Joseph Lacombe, accompanied by a daughter, Elizabeth, and a son, John, started out for town—this was his wedding day. The rest of the family was asleep. Before leaving he lit the kitchen stove.

Hurled From Window.

An hour later, at the time when the wedding ceremony was taking place, Yvonne arose, replenished the fire and went out to feed the chickens. A short time later she saw smoke issuing from one of the bedroom windows. Rushing in, she awoke Alice and Bella and carried them to a window. The children were overcome by the smoke and before Yvonne could lift them to the sill, she was hurled out of the window by a smoke explosion. Picked up by neighbors, she was rushed to hospital. Her clothing had been burned off her and parts of her flesh were burned to the bone. Fred Lacombe, trapped in an attic room, jumped from the window and broke his leg.

Bodies Recovered.

In the meantime, the father, all unsuspecting the tragedy, returned home with his bride. The four charred little bodies were later recovered.

PLUNKETT HELD WITH 10 OTHERS

Suspects in O'Higgins Murder Protest Against "False Charge."

ARE REMANDED.

DUBLIN, July 12. — (Canadian Press).—George Plunkett, son of Count George Plunkett, was one of the ten men who appeared in court to-day, charged with conspiring to murder Kevin O'Higgins, Vice-President of the Free State Council, who was assassinated on Sunday. Plunkett, who has been arrested several times previously on charges of being involved in Republican activities, and the other men were arrested last night. They were remanded in custody until Monday. All protested against being arrested on what they called an "obviously false charge."

SENDS ULTIMATUM.

American Commander Orders Rebel Leader oT Lay Down Arms.

MANAGUA, Nicaraga, July 12. — Canadian Press. — Major G. D. Hatfield, commanding the United States Marine Corps here, has sent an ultimatum to the rebel leader, General Sandino, who has been occupying the United States mine at San Fernando, to lay down his arms at El Ocotal, at 8 o'clock on the morning of July 14.

Keeper of Cemetery Hangs Self in Vault

MIDDLETOWN, N.Y., July 12. —(United Press.)—Seth B. Ralston, keeper of the Wall Mill cemetery, near here, was found by his wife yesterday, hanging by a dog chain in the receiving vault. The body was still warm. He left a note indicating that he had long contemplated taking his own life, and leaving all his property to his wife. Mr. Ralston had not been well during the last month. He had also grieved over the death of a son killed in a Panama railroad wreck six years ago.

SECOND ATTEMPT RESULTED IN DEATH

Thomas Scott Dies as a Result of Injuries Received on June 29th.

Thomas Scott who recently made the second attempt to take his life within a couple of weeks died in Cobourg hospital on Friday as a result of injuries received when he threw himself in front of one of the Port Hope - Peterborough buses. He was being taken to Cobourg to stand trial on charge of assaulting his wife and family and also attempting suicide, by Constable Walter Rowland of Bethany, when he attempted suicide.

Scott on Sunday, June 19th attacked his wife and two daughters with an iron bar, severely injuring the three. He was later arraigned for preliminary hearing in Bethany and asked to be tried by a judge.

While being taken from Bethany to Cobourg he attempted suicide by throwing nimself in front of he bus while the constable was fixing a tire. He was severely hurt internally and was removed by ambulance to Cobourg hospital, where he died.

His remains were removed to Pontypool for burial which took place on Sunday. The funeral was one of the largest ever held in that section of the country. The service was held in McRae's United Church and interment in the cemetery adjoining the church.

The deceased had lived in that part of the country all his life and was widely known and had a host of friends. He leaves a wife and eight children. After his death a jury was empanelled at Cobourg which viewed the remains and adjourned until Friday, July 15, at 7.30.

DELEGATES TRY FOR NEW ANGLE

Seek Solution of Problem of Limitation of Cruiser Fleets.

STUDY BRITISH PLAN.

GENEVA, July 13 (Canadian Press).—"We are in a bunker, nothing but a niblick can save us," was the golfing metaphor employed today by a Japanese member of the committee which has been charged with going over the new British proposals for cruiser limitation now befors the three-Power Naval Conference.

This committee worked well into the night trying to approach the problem from some new angle, but finally separated agreeing to have another try today. While finding a number of conciliatory suggestions in the British proposals the United States doubt whether they will really be efficacious in the direction of effective limitation if they only extend to 1931, as suggested. Such a plan, the United States delegates believe, entails the possibility that the "lid may be off," after 1931 for a renewed race in cruiser construction.

CANADIANS WIN KOLAPORE CUP AT BISLEY

Third Year in Succession That Canada Has Captured This Trophy.

BY THIRTEEN POINTS.

Defeated Many Teams From England aind Other Parts of Empire.

BISLEY CAMP, England, July 12.—(Canadian Press.) — The Canadian team won the Imperial Kolapore Cup at Bisley to-day by thirteen points. This was the third year in succession that the Canadians defeated teams from England and other parts of the Empire in the greatest rifle match of the National Rifle Association meeting.

Shooting valiantly, the Canadian team defending the Imperial Kolapore Cup after being ten points down in the first distance, came back at the second range to score 389 out of a possible four hundred and go into the lead over England by three points. Scores at the second distance, five hundred yards, Canada 389, England 376, India, Jersey and Guernsey 375 each.

Canadian team was ten points behind the English team after the first distance of three shots for the Imperial Kolapore Cup, the greatest team event of the Bisley meet, today. Scores at the first range were: England 379, Canada 369, India 363, Guernsey 358 and Jersey 354.

The Canadan team has won the cup twice in succession and is defending it.

PORT HOPE MAN GORED BY BULL

Injuries Prove Fatal To D. L. Floro—Dies Next Day.

ANIMAL WAS PEACEFUL.

PORT HOPE, Ont., July 12. — D. L. Floro, 21-year-old son of Mr. and Mrs. L. Floro, of Osaca, near Port Hope, died yesterday morning from injuries received when he was gored by a bull on his father's farm at five o'clock on Sunday night.

Floro was engaged in bringing cows from a pasture field when a seemingly peaceful bull charged him. His cries for help were heard by a younger brother, and the injured man was taken to his house.

Dr. R. P. Forrest, of Port Hope, was summoned, and on investigation it was learned that he was suffering from internal injuries. Besides his parents, four brothers and one sister survive. The body was brought to Port Hope, whence it will be shipped to Toronto for interment on Wednesday morning.

FIVE STORMS ON PRAIRIES

Two Million Acres of Grain Affected—Hail Damage Heavy.

MUCH GLASS BROKEN.

REGINA Sask., July 12. — Canadian Press. — As telephone and telegraph reports are obtained from the various sections of the province the first estimates of damage done by Saturday's storms indicate they were very conservative. Five distinct storm centres are reported, with nearly two million acres of crops affected; thousands of window panes smashed, granaries blown about fields, one barn demolished, and one person killed by lightning.

Information sought from hail insurance agents throughout the storm struck areas as to the total acreage affected verified the first reports, and in some cases the total damage was increased.

It is impossible to get an estimate of what the damage will total, but the insurance companies are preparing to make payments of more than a million dollars.

This is far from representing the total loss in the province as hundreds of farmers did not carry any hail insurance.

AVIATOR IS SAFE.

Captain Laurence Arrives in Halifax Some Hours Latae.

HALIFAX, July 12. Canadian Press —Captain Lawrence, of the Royal Canadian Air Force, who left Ottawa yesterday for Halifax in a small moth type aeroplane, to join the Hudson Bay party here, reached the city safely this morning. Some anxiety had been felt when he failed to arrive last night.

Crown Prince's Son Gets Term In Jail

COLOGNE, July 12. —(United Press.)—Harry Domle, the 23 year old Latvian adventurer, whose escapades in 1926 while posing as the oldest son of the former Crown Prince of Germany, attracted world wide amusement, has been sentenced to seven months' imprisonment.

CAMPAIGN OF DEATH FEARED

O'Higgins Outrage May Be Only the First—Suspects Arrested.

IRELAND IN MOURNING.

DUBLIN, July 12. — The Irish Free State's sorrow over the death of Kevin O'Higgins, its vice-president, yesterday was blended with a spirit of vengeance towards his assassins.

But absence of any definite clues to the murderers who shot down O'Higgins as he was on his way to mass on Sunday provided no basis for the active antagonism along party lines, and his political enemies united with his friends in condemning the crime.

Police were assigned to search the houses of persons who might have tried to gain private revenge against O'Higgins, who was responsible for many executions when he was Minister of Justice.

Meanwhile, officials prepared to cope with any reprisals in case the assassination should have an unpleasant sequel.

NINE SUSPECTS ARRESTED.

DUBLIN, July 12 (Canadian Press). —While the Irish Free State mourns the death of Kevin O'Higgins, the Government is making every effort to find and punish his assassins. Civic Guards made nine arrests in Dublin yesterday of men suspected of complicity or in the actual murder. They will be arraigned in the Police Court to-day.

No new light, however, has been thrown on the motive for the crime. The Republican leaders have publicly repudiated responsibility for it.

On all sides expressions of horror at the crime and sorrow over the loss of a great statesman and lover of his country are heard.

Professor John MacNeill was the principal witness at the inquest yesterday. His testimony was purely a formal recitation of the tragedy as he witnessed it. The medical testimony proved that any one of the many body wounds was sufficient to cause death, and Professor MacNeill said he realized the moment he approached the stricken minister that the wounds were mortal.

Condemns Crime.

The jury returned a verdict of wilful murder, and added a rider condemning in the strongest terms the cruel crime, and trusting that the murderers would be brought to justice.

Before the body of the Minister, clothed in the habit of Our Lady of Carmel, was removed from the home at Black Rock to the Mansion House for the lying-in-state, there was a poignant scene. Timothy Healy, the Governor-General, came to pay his last respects. Bowing his head over the bier, the Governor was met by the trembling and weeping widow, whom he embraced and sought to console in her distress.

Huge reverent crowds watched the transfer of the body to the Mansion House, most of the women dressed in black and many weeping. All heads were bared as the sad cortege passed into the temporary death chamber. A Civic Guard of one hundred men was stationed outside the building. President William T. Cosgrave was at the head of this mournful procession; he was followed by the Governor-General and the members of the Government and both Chambers of the Dail Eireann.

The State funeral will be in similar lines to those accorded Arthur Griffith and Michael Collins in 1922.

THE WEATHER

During the past few days the temperature has been somewhat higher, rising each day to about 83 degrees. The nights are also becoming warmer, last night's lowest point being 63 degrees. A heavy thunderstorm which passed over about daybreak this morning gave rain to .27 of an inch.—W. P.

North Huron Contest Writs Out This Week

OTTAWA, July 12.— Writs will be issued this week for the North Huron by-election, due to the death of John W. King, M.P. The election date will probably be around Aug. 22. The information obtainable here points to a potential field of six candidates. Liberals have nominated Archibald Hislop, the Progressive candidate is Mr. Bicker, while Mr. Allan of Wingham has announced himself as an Independent. Conservatives are reported to be divided between H. W. McEwan, their candidate last year, and George H. Spotton, candidate [illegible] page.

FOREIGN POLICY DISCUSSED BY BRITISH HOUSE

Sir Austen Chamberlain Rebutts Suspicions Suggested By Labor Member.

DEFENDS LEAGUE.

Hope Geneva Conference May Be Step Forward in Naval Limitation.

LONDON, July 12.—(Canadian Press).—The raising of the question of secrecy and sectional agreements in foreign affairs by Arthur Ponsonby, laborite, in behalf of the Opposition in the House of Commons yesterday gave Sir Austen Chamberlain, secretary for foreign affairs, an opportunity to discuss the whole field of foreign policy and to touch upon the Geneva conference.

Declaring it unthinkable that Great Britain should enter into a naval armament race with the United States, as the idea of war between the United States and Britain was outlawed in the very soul of every British citizen, Sir Austen said: "I hope and believe that from the Coolidge conference may come proposals which will mark a real step forward in the limitation of naval competition, and that, encouraged by that example, a new stimulus may be given to the larger international conference, which is proposed to consider not merely naval, but land and air armaments."

It was obvious, he said, that he could not enter into a detailed argument or exposition of the British case under consideration at Geneva but he added, "I can say that the British delegation went there with a carefully thought out plan for the further limitation of naval armaments to the extent of the proposals our delegation was prepared to submit may be measured perhaps by this single fact that for years to come they would mean a reduction, if adopted by the others, of naval expenditure, which we should otherwise have to incur, of a sum near £50,000,000 than £40,000,000.

Rebutts Suspicions.

The Foreign Secretary's speech was largely devoted to rebutting suspicions of the foreign policy suggested by Mr. Ponsonby and in defending the valuable work of the League Council. He gave the governmental benediction to any diplomatic attempts to outlaw war between any of the great powers and the United States and warmly repudiated Opposition accusations of ulterior motives in his interviews with Premier Mussolini of Italy and other foreign statesmen.

"For heaven's sake," he exclaimed, "don't hold it as a matter of suspicion that the ministers of two friendly States meet and discuss affairs of common interest."

It was a mischevious policy, he said, to suppose that because two countries were friends their friendship must necessarily be pointed against others. It was that occasion in the minds of German Statesmen which was largely responsible for the great war, and he added gravely:

"It is a tragedy to see the same obsession, driven out of Germany, now taking root in another great and neighboring country."

Incidentally the secretary reiterated his denial that the British government was attempting a great international anti-Russian bloc.

Discuss Naval Questions.

With reference to the naval conference at Geneva he said: "As to the question of total tonnage, which is looming large in the press, to my mind and that of the government the question of total tonnage, and that alone, will by itself be ineffective to check armaments or secure further limitation unless some other limitations are put on the number of ships which have the most aggressive character and which are proper accompaniments and parts of a great fleet.

"Mere total limitation of types will not lead to reduction of naval competition, but will involve the parties concerned in still further extension and still further expenditure.

"When it is possible to put the government's proposals fairly, there will be no doubt as to their reasonable character, or the government's sincerity in seeking to derive the greatest possible relief for our own people and those associated with United States conference. We can only move with other parties. We are only seeking to secure special protection which is vital to an empire so peculiarly situated as ours on the lowest scale we can arrange with other naval powers, so that their burdens and ours may be lightened and that the menace of war, if there is a menace of war, will be automatically reduced."

In conclusion Sir Austen said: "We are seeking to avoid quarrels for ourselves. We are seeking, where we can do so properly and usefully, to smooth the path of others, to reconcile their feuds or differences, or help them to reconcile them. We base our policy on supporting the league and on an appeal to the league in the last resort, with the single purpose to secure peace not only for ourselves but for the world."

ADMISSION Including Supper 40c, Children 20c

SACRED HEART SOCIAL AND SUPPER TO-NIGHT BEGINNING AT 5 P.M

Band Concert by Rangers Band Gold Coin and Prizes

AARON SAPIRO IS SATISFIED WITH APOLOGY

Settlement of Libel Suit Out of Court Is Now Possible.

PURPOSES FULFILLED.

Says He Has No Desire To Cause Ford Any Embarrassment.

CHICAGO, July 12. — Aaron Sapiro—"just an accident of destiny in the vindication of the Jewish people" as he describes himself—is completely satisfied with Henry Ford's published apology for what Ford's Dearborn Independent has said about the Jews.

So satisfied is he, in fact, that he said after returning home from Western Canada, that he believed his million dollar libel suit against Ford and the Dearborn Independent, would be settled out of court.

"The retraction, apology and recantation have fulfilled the purposes of the suit, so far as the main intention is concerned," he said. "I certainly have no desire to cause Mr. Ford any embarrassment whatsoever, and I mean that to apply from all standpoints."

Surprise to Counsel.

Mr. Sapiro, a Chicago lawyer,whose activity in agricultural economics and co-operatives drew the editorial fires which kindled the libel suit, said that negotiations for an out of court settlement were conducted "over the heads" of Mr. Ford's counsel. He said he believed a public retraction was a bigger surprise to Senator James A. Reed, of Missouri and Stuart Hanley of Detroit, Members of Ford counsel in the suit, than to any others concerned.

Not Just Business.

"My counsel and I were in negotiations for several months to bring about the main result, dealing directly with Mr. Ford," Mr. Sapiro said.

"We always felt certain that just what happened would occur if Mr. Ford would give the matter the attention required.

"So far as any business concern being an element in this impulse, I think nothing could be further from the fact. Mr. Ford has been enlightened, and being enlightened, has taken the obvious step to make amends."

DOUBLE MURDER MYSTERY FOUND

Dismembered Corpses of Two Women Picked Up in New York.

NEW YORK, July 11 (Canadian Press). — The trail that started on Saturday with the finding of parts of a woman's legs in Battery Park had led to-day to a double murder mystery and the arrest of the man suspected. Additional parts of a woman came to light bit by bit over the week-end, the trail finally leading to a Brooklyn house, where the dismembered body of another woman was found. The victims of the double murder were Miss E. Brownell, 60, and Mrs. A. Bennett, 48.

The police are holding Ludwig Lee, 38, janitor of the house where Miss Brownell lived. He stoutly protested innocence after twelve hours' questioning.

While the police were working on the case, a plumber found two bundles in a dark cellar containing the dismembered portions of a man's body. The police believe the victim had been dead for several months.

Dies of Injuries Received In Fire

VANCOUVER, B.C., July 12 (Canadian Press).—Death toll of the holocaust at the Royal Alexandra Apartments Friday afternoon mounted to eight when Mr. Harper, well known Vancouver broker, died in St. Paul's Hospital yesterday from injuries received in the fire.

Mr. Harper was badly burned about the face, but was more seriously injured by the smoke in his lungs.

Mrs. Grace Luckhart left last night for Toronto with the bodies of her two children: Jean, 12, and Grant, 10, who were burned to death Friday in the fire. Her only remaining child, Ted, 14, will accompany her.

CROP REPORTS SHOW INCREASE

Wheat Makes Strong Recovery From Low Condition of Month Ago.

SHORT FRUIT CROP.

WASHINGTON, July 12 (Canadian Press).—Winter wheat made a strong recovery from the low condition of a month ago, according to the Department of Agriculture's July crop report, and the present indicated production, 579,416,000 bushels, is 42,000,000 bushels more than forecast then. The principal increases were in Kansas and Nebraska.

The indicated production of spring wheat, 274,218,000 bushels, was recorded as about 70,000,000 bushels more than last year's crop and 22,000,000 bushels more than the average of the last five years.

This year's indicated total wheat crop was placed at 853,634,000 bushels, or about 22,000,000 bushels more than produced last year. Stocks of wheat on farms on July 1 were relatively low, being 27,339,000 bushels, compared with the five-year average of 29,913,000 bushels.

An eleven per cent increase in the white potato acreage was quoted with all late potatoes showing increases, and a total crop of 393,000,000 bushels was indicated. That is 37,000,000 bushels more than produced last year.

Short Fruit Crop

Very short crops of most fruits were indicated, with apples appearing likely to be the smallest crop in 20 years with the exception of 1921, and peaches at about two-thirds of last year's production.

The shortest corn crop in 26 years was indicated in the report which forecast a production of 2,274,434,000 bushels. The figure is almost half a billion bushels below the average production of the last five years.

Low corn prices in 1926, together with unfavorable planting conditions were held responsible for a decline of more than five per cent in acreage in the north central states, which was partially offset by increased corn planting in the south. The corn crop was reported late in nearly every state.

WHAT, NO ROUGE?

MUSKEGON, Mich., July 12.—The choir at the Swedish mission here was unable to sing during a recent revival campaign. Because they dressed in modern fashion, with short skirts, rouge and bobbed hair they were forbidden by the evangelist to take part in his services.

NINE YEARS ON MOTOR

CINCINNATI, O., July 12.—Alfred Schmitker, automotive inventor, says he has completed work on an air-cooled motor weighing only 200 pounds and having only 38 major parts. He worked nine years perfecting the motor.

ORANGE LODGES HOLD SERVICES AT MANY POINTS

Campbellford Brethren Parade to St. Andrew's Presbyterian Church.

SPLENDID SERMONS

Rev. A. B. Caldwell Addresses Brethren at Marmora Church.

CAMPBELLFORD, July 12. -- No. 36, L.O.L., accompanied by a number of True Blues and lady True Blues, together with brethren from Polmont, Stanwood, and Codrington Lodges, attended divine service in St. Andrew's Presbyterian Church on Sunday morning, when Rev. James Grier, B.A., delivered an eloquent discourse on Christian Liberty.

Taking for his text Galatians 5, 4: "Stand fast, therefore, in the liberty wherewith Christ hath made you free," the reverend gentleman said:

"These are familiar words to every serious student of the New Testament. They are familiar, also, to every Orangeman who has proceeded as far as the Blue degree. Paul has been making an eloquent plea for the freedom of the believer in Christ from all ceremonial law. Some there were who said that Christ was a Messiah to the Jews only, and in order that the Gentiles might come under His saving power they must, in addition to becoming Christians, perform all the rites and ceremonies of the Jewish law. Be a jew first, then a Christian.

"Paul takes up a position of vehement opposition to such Judaisers. He shows that the law ,that is, the Old Testament, with its rules and sanctions, failed to make men righteous because it did not supply a principle of life, but rather paralysed men's hearts by its rigorous demands."

At the same time, said the preacher, it had its uses, and fulfilled a purpose . It educated and disciplined men for a better revelation; it made them realise their sin, it caused them to feel their bondage, and so prepared them to become sons of God.

The Gospel of Christ, on the other hand, brought men a new principle of life. That principle is faith. Through it the righteousness is obtained which the law could not give. It unites a man to Christ, whose righteousness is thereby imparted to him, for Christ lives in him and he in Christ. He is justified by faith in Christ as he could not be by works of the law; indeed, said the preacher, the effort to live by the law only weakens his spiritual life by slackening his hold upon Christ.

The Gospel supplies the spiritual principle ,even the moral motive power, lacking in the law. The impulse derived from the indwelling Christ leads men to love their fellows; to renounce the works of the flesh and to bring forth the fruits of the spirit. How could they think, asked the speaker, of subordinating such standards to the necessity of ritual observance and ceremonial law? "We are not children of the bondwoman," cries Paul, "but of the free." "Stand fast, therefore, in the liberty wherewith Christ hath made you free."

The preacher said he had chosen his text because of its suitability to the purpose and occasion of their meeting. We, too, need to be reminded of certain primary facts concerning our careers as men under obligations; as men whose forbears caused noble records to shine for ever on our page of history; and as men who do homage to a great Person Whose expiring moments were poised on "a green hill far away, without a city's walls."

"Steadfastness" was the first lesson taught by the text. Converts are exhorted to be stedfast against the teachings that would make the cross of Christ of none effect. To the Christians at Corinth Paul finds it necessary to say, "Watch ye, stand fast in the faith, be strong." And to the Phillipians he passes along this word, "Stand fast in one spirit, with one mind striving together for the faith of the Gospel"; while a little further on in the same letter he says, "Stand fast in the Lord, my dearly beloved." Of the church at Thessalonica Paul says, "For now we live, if we stand fast in the Lord," and in a second letter to the Thessalonians, in referring to the working of an anti-Christ, he encourages them with these words, "Therefore, brethren, stand fast, and hold the traditions which ye have been taught, whether by word or by epistle."

The outer complexion of society, said the speaker, has changed since Paul's day, but inherently it presents the same opposition to good, the same persecution directed against those who hold convictions firmly ,and the same seductive influence in drawing men away from the truth. And modern society would do well to learn the lesson of steadfastness.

Few men win our admiration more than the man who, once having seen the light and having determined what is the right path, cannot be turned aside either by bribe or threat of violence. We are living in the days when it would seem almost a virtue to change with the ebb and flow of popular opinion, to bend to every breeze, and to re-echo, without

WANTED — FIREMAN, WITH THIRD CLASS CERTIFICATE. APPLY [illegible] BURN MILLS. 3d-11-1941

Pay Farewell Visit To French Village

VER SUR MER, France, July 12 (Canadian Press).—Commander Richard E. Byrd and his companions, Noville, Acosta, and Balchen paid a farewell visit yesterday to the little village of Ver Sur Mer, where their plane America, made its first landing in Europe ten days ago, and the entire village turned out to welcome them.

"I know you are tired of champagne, so I have made you a cup of tea," was the greeting of Mme. Coiffier, the lady of the house where Byrd slept his first few winks after the hectic Atlantic crossing.

The aviators are really tired men, and they appeared to relish Mme. Coiffier's home-made tea and genuine homely welcome better than the speeches and sparkling wines of the recent official gatherings.

BOY ESCAPES AT WRONG TIME

Papers For Parole Arrive at Reformatory Next Day.

STILL AT LARGE.

GUELPH, Ont., July 12. — John Kelly, aged 21, of Toronto, water boy for the "bull gang" at the Ontario Reformatory, made a big mistake when he made a dash for liberty over the week-end. Papers granting his parole were received by officials at the "Farm" yesterday.

Kelly had served eleven months of a twelve to twenty-four months term for theft in Toronto, when he made his get-away. Had he not made his dash he would have been a free man. As it is, he is at large—a fugitive with the police of the entire country anxious to lay him by the heels — and with a penitentiary sentence hanging over his head.

A cordon of guards was thrown around the entire district and spent all night combing the country in the vicinity of Moffat for the young fugitive. Evidently he slipped through their fingers and managed to reach some point farther away. Officials at the institution are confident that he will be back in custody in the course of a day or so.

NO QUOTA LIKELY AGAINST CANADIANS

U. S. Official Says the Trend Across Line is Toward Restriction.

MONTREAL, July 11.— (Canadian Press.)—Although the general trend in United States' immigration matters might be towards tightening entry rules, there was little chance of Canadians being placed under quota and thus restricted in their movements acros sthe border, Hon. Milton Shreve, Erie, Pa., chairman of the United States' Sub-appropriations Committee, for State, Justice and Commerce and Law stated here. The sub-committee reached Montreal last night and after a day spent travelling along the Quebec-Vermont border in investigation of alien smuggling and other problems which the Department of Labor hold require bigger appropriations for more guards and border patrols.

OBITUARY.

MRS. ALEX CALDER.

NORWOOD, July 12.—Mrs. Alex Calder, a former well known and highly respected citzen of Norwood passed away on Sunday last at her home in Toronto. The deceased had been in poor health for a long time and her death was not unexpected. The many Norwood friends of the bereaved family extend deepest sympathy. Interment was made in Toronto.

MRS. GEORGE DERMITT.

NORWOOD, July 12.—Mrs. George Dermitt passed away at her home in Toronto the first of the week. The deceased was a resident of Norwood a number of years ago, and lived in the house on Pine street now occupied by Mr. W. Chamberlain.

In Peterborough Churches

ST. PETER'S CATHEDRAL.

Following out the series of sermons at St. Peter's Cathedral on the Ten Commandments, the third commandment was considered yesterday morning by His Lordship Bishop O'Brien. "Remember that thou keep holy the Sabbath day. Six days shalt thou labour and do thy work," was the double commandment given to Moses. God did not intend that man should spend all his time in eating and drinking and sleeping. He was commanded to labour for six days and then to keep holy the restful seventh day.

Day by day we can offer up our actions and our work to Almighty God, thus making our labour meritorious in His sight. The great tragedy in life to-day is that man is measuring his success by the number of dollars he makes. Our work is not merely to make money. The time will come when there will be a reversion to the proper order of things, and we will measure our success by the amount of work we have done for God. Let us do our duty in whatever state of life we find ourselves placed, whether it suits us or not. Let us be honest and upright and honourable in the execution of our daily tasks. But God sets apart one day for rest. In the cycle of days established by the Almighty Himself, it was made an absolute necessity that there should be one day of rest. The Jews were particularly careful in their observance of the Sabbath, and even their travels were measured to conform with it, so that a saying among them for a very short trip of about a mile and a half was to call it "a Sabbath day's journey." Under the new dispensation, Sunday became the holy day of the week instead of the seventh day, for "Sabbath" really means "Saturday," and is now a misnomer when applied to our Sunday.

Sunday is really a prophetic symbol of the great rest which we shall enoly in the kingdom of God. The negative side of its observance is in keeping it as a day of rest, but the positive side is in making it a day of pious thought and meditation and prayer, in thinking upon the goodness of God and our own relationship to Him. We may visit our friends and visit the sick, and we may indulge in a certain amount of lawful recreation, because the proper idea of the fulfillment of the commandment with regard to Sunday is not in making it a day of Puritan rigour and blue laws, which tend to make people slaves, but rather in uniting our hearts with God, in prayer and devotion to Him.

"We should not be satisfied with attendance at morning mass on Sunday, nor even with a weekly Communion, but we should try, if possible, to spend some extra time in visiting the church and in intimate converse with the Almighty. And we should endeavour at all times to make sure that we are able to attend Sunday mass when we decide on where we shall spend our vacation."

COUNTY ENTRANCE RESULTS

Following are the results of the Junior High School Entrance Examinations at the different centres of the County of Peterborough.

Of 337 candidates who presented themselves, 226 were successful. It is worthy of note that of the 111 failures, only three reached the total of sixty per cent on the aggregate but failed to make the required forty per cent in some subject. Two of these failed in arithmetic and one in spelling. The others all fell short on the total.

Statements of standing will be mailed to those who filed, and the certificates of successful candidates will be sent them in time for the opening of schools in September.

The county prize for the highest standing goes to Robert R. Spence of Lakefield Public School.

Apsley.

10 candidates—8 passed.

Mary Campbell, Edna Woodbeck, Harold Campbell, William Everett, Christina Roberts, Mabel Woodbec, Pearl Winters, Vera Young.

Cordova Mines.

20 candidates—2 passed.

The following candidates were successful: Mabel Allore, Edgar Bush (H), Bruce Beckwith, Elma Cassidy, Olive Cassidy, Charles Collins, Margaret Collins (H), Raymond Cossin, Madeline Courneyes, Clayton Delle, Kathleen Doran (H), Thelma Hanlon, Thomas Graham, Thomas Hanley (H), Anette Longevin, Elizabeth Laughlin, Leslie Leal, James Maloney, Donald McCrea (H), Mavis McGuire (H), Margaret Roshotte (H), Lila Revelle (H), Evelyn Reynolds (H) Joan Rashotte, Phillip Rivers, Dorothy Sager, Maida Sills, Ruth Sills (H), Madeline Simmons; Edna Sullivan (H), Alma Trudeau, Ernest Wallace, Hilda Varty (H), and Hilliard Varty (H).

AT MARMORA.

MARMORA, July 12.—Entrance results for Marmora Centre announced on Friday, are as follows: Douglas Airheart (Hon.), Donald Bailey, Cecil Baker, Earl Blakely, Marjorie Bonter, Mary Boyd, (Hon.) Clayton Burkett, Clarissa Caverly, Alphonse Clemens, Frances Crawford (Hon), Margaret Donnelly Michael Finnegan, Margaret Flynn, Smith Fraser, Blanche Gibson, Jean Gladney, (Hon.) Homer Hewitt (Hon.), Jack Hickey, Thelma Holland, Norma Jackson, Murvis Jones, George Kennedy (Hon.) James Linn (Hon), Edna McKeown, Marjorie McKeown, Jack Moore, Roma Mumby, Jos. O'Neill, Percilla Quinlan Clifford Robertson, William Shannon, Roy Smith (Hon.), William Smith, Jim Thompson, Russell Wells, Jessie Williams (Hon).

Of this list, seventeen were prepared by E. C. Prentice, principal of the Marmora Public School, five of them being Senior Fourth and twelve Junior Fourth.

BANTING GOING ON ARCTIC TRIP

Will Leave on Beothic For Polar Regions This Week.

REASON UNKNOWN.

TORONTO, July 11 (Canadian Press).—With the intention of accompanying the annual Federal Arctic expedition, Dr. F. B. Banting, discoverer of insulin, will leave Toronto this evening for Nova Scotia. The expedition will leave Sydney, N.S., the latter part of this week, bound for the Polar regions, in the steamer Beothic.

Dr. Banting has made a careful effort to maintain secrecy as to the purpose of his inclusion in the party, though it is understood he will endeavor to further some branches of research work he has now under way in his laboratory at the University of Toronto.

SEEK ABOLITION OF DOUBLE TAX

British Industrialists Ask For Single Tax on Trade Incomes.

LEVIED AT RESIDENCE.

LONDON, July 11.—(United Press.)—The vexed question of double taxation, which occupied much time at the Imperial conference, has been moved a state further by the attempt of British and German Industrialists, who have been in conference, to have the matter taken up by Rt. Hon. Winston Churchill, Chancellor of the Exchequer.

In this connection the Federation of British industries has sent a letter to the Chancellor urging the government to carry on the work of the recent Geneva Economic Conference by opening negotiations with the various European States for the abolition of double taxation. The British and German industrialists are agreed that the right to levy such a tax should rest with the country in which the owner of a taxable income resides.

Were this principle adopted in Anglo-Canadian trade, it would mean that Canadian firms doing business in Britain would only be compelled to pay the Canadian income tax if the profits were distributed among Canadians and not the British income tax.

The industrialists are also approaching the governments of other countries with a view to creating a general opinion in favor of the mooted abolition and naturally if Churchill makes any concessions in the case of Germany, he would have to extend the principle to the British Dominions.

POST'S BED BUG POISON.

Post's Bed Bug Poison is composed of carbonic acid, Methyl Hydrate and Corrosive sublimate. When this preparation is used according to directions, it is sure death to bed bugs, cockroaches and insects of all descriptions. Two or three applications are all that is necessary, but as it is very poisonous, this preparation should be kept out of reach of children.

Hilarious Comedy, "The Patsy," Coming at the Chautauqua

Barry Conners' great comedy, "The Patsy," which will be a feature attraction at the coming Dominion Chautauqua here, was originally called "Love Lessons." It tells the story of Patsy Harrington, a charming little miss who loves her big sister's discarded beau. She asks him how to go about winning the man she loves, and he, being appropriately handsome and dumb, teaches her the six sure-fire ways to win a man's love, thereby becoming a pest of male Beatrice Fairfax and weaving his own toils, to the huge delight of the audience.

"The Patsy" will be presented here by a skilful cast of New York

ORANGE LODGES

(Continued from page one.)

discrimination, the watchwords of the crowd.

It pleases me immensely, said the preacher, to note how steadfast the average man is in his obedience to the laws governing our common good. Here the noxious weed laws of Saskatchewan and Alberta made a fitting illustration.

Referring to certain historic figures the preacher asked, "Are we the true successors of the men and women who were willing to die a martyr's death for their faith? We keep not the faith by the waving of banners, nor by an annual celebration, nor even by regular attendance at Lodge meetings. We are the spiritual sons of men like Huss and Wycliffe, of Luther and Zwingle, of Calvin and Knox, only when we stand fast in the same spirit, loving the truth so much that nothing can make us deviate from the path its beacon-light marks out."

Continuing, the preacher dealt with liberty as it applied to those who had lived under laws and ordinances and the keeping of fasts, and expressed the thought that when one stressed these things they tended to belittle the efficacy of Christ and to make the cross of Christ of none effect.

After a contrast of the laws of the land as they are to-day and as they were a few hundred years ago, and showing that in every instance somebody had to pay the price to change the conditions, the preacher concluded: "This is the way of life that as Orangemen we are pledged to follow. To this we are bound to lend our influence if we would be true to our vows. Show me a man who has merely gone into the Orange Order as far as the Blue degree, and I shall show you a man that I would naturally expect to assist his minister in whatever phase of church work his talents can render service. Show me a man who listened attentively to the Scripture reading that evening he got his Blue and I will show you one who has turned his back upon the works of the flesh—adultery, fornication, uncleanness, lasciviousness, idolatry, witchcraft, hatred, variance, emulations, wrath, strife, seditions, heresies, envyings, murders, drunkenness, revellings, and such like, and is now expected by God's grace to bring forth the fruit of the spirit—love, joy, peace, longsuffering, gentleness, goodness, faith, meekness, temperance. These are the outcroppings of the spirit of liberty in Christ. "Stand fast, therefore, in the liberty wherewith Christ hath made you free."

ROYAL YEAST CAKES
For Perfect Bread
NOTE:
If you take YEAST for your health, try this: Soak a ROYAL YEAST cake over night in tepid water with a little sugar. Stir well, strain and drink the liquid. Delicious when taken in orange juice.

SERVICE AT PONTYPOOL.

PONTYPOOL, July 12.—L.O.L. 82 held its annual church parade Sunday, July 10th to the United church at 7.00 p.m. The parade was led by Orono Regimental Band and was marshaled by Brother John Payne, D.D.M. A great many Orangemen were present.

After the service a concert was given by the Band after which lunch was served.

MARMORA SERVICE.

MARMORA, July 12.—Marmora L. O. L. 319, augmented by visiting brethren from Springbrook L. O. L. 442, Wellman's Corners, Nickle, Havelock and Stanwood L. O. L.'s and visiting sisters from Sentinel L. O. B. A., with Harmony L. O. B. A. and L. T. B. 177, paraded to St. Paul's Anglican Church on Sunday afternoon for divine service.

Upwards of seventy were seen in the procession. Appropriate hymns chosen lent to hearty congregational singing.

An inspiring sermon was delivered by the rector, Rev. Bro. A. B. Caldwell, on the words, "That in all things He might have the pre-eminence," choosing "The Pre-eminence of God" for his subject. He remarked: "You have gathered together today as soldiers and faithful servants. The faith for which you stand believes firmly in the primary of Christ and the pre-eminence of God. We see the primary of Christ in His incarnation, in His taking our nature without sin. It is also seen in the all-embracing efficacy of the self-sacrificing nature of Christ.

"In the apocalypse, we see Christ seated upon a throne, not standing by an altar, thus signifying the truth of His own words after making His sacrifice, 'It is finished.'"

There can be no lawful deduction, the preacher asserted, from the worship we should be offering to Jesus Christ.

Rev. Mr. Caldwell further referred to the soul's privilege of direct and personal access to God in Christ and the supreme regard all should hold for the Holy Scriptures, that they be given their rightful place in the education of the young.

Adjourning to the Orange Hall after service, short addresses were given by local and visiting sisters and brethren.

STIRLING BRETHREN PARADE.

STIRLING, July 12. — The members of Loyal Orange Lodge, No. 110, and friends, accompanied by the lady members of L.O.B.A., attended the annual divine service in St. Andrew's Presbyterian Church on Sunday at 2.30 p.m., when the minister, Rev. A. N. Reid, B.A., was in charge. The following order of service was carried out:

Prelude by the choir.
Call to service by the minister, with the congregation standing.
Invocation prayer.
Psalm—"O God, our help in ages past."
Responsive reading—Psalm 90, 1-13.
Hymn—"Blest be the tie that binds."
Second lesson—Acts 9.
Solo—MCrs. R. W. Meiklejohn.
Prayer, ending with Lord's Prayer in unison.
Announcements and offertory.
Voluntary.
Doxology—"Praise God from Whom all blessings flow."
Offertory prayer.
Anthem.
Hymn—"The King of Love my Shepherd is."
Sermon—"The Fine Art of Brothering an Apostle."
Prayer.
Hymn—"Fight the good fight with all thy might."
Benediction.
"God Save the King."
Silent prayer.
Postlude.

The sermon was basen on the text, Acts 9, 17, and the minister chose to entitle it, "The Fine Art of Brothering an Apostle." The suggestion was taken from Annanias brothering the Apostle Paul. Annanias, although of insignificant birth and standing, was able to encourage and brother Saul of Tarsus, who afterwards became the great preacher, St. Paul.

The preacher divided his subject into three parts: 1st, Be yourself and not try to imitate another in trying to be a brother to another; 2nd, do your own duty, which will, 3rd, culminate in fine words.

In concluding his sermon, Mr. Reid stressed the idea that every member of the Order should brother his Lodge, his church, and the community as well. If the points as brought out by the preacher are lived up to by those present, the community represented by the large congregation present will be the better off by the service being held.

The Orangemen, over one hundred strong, were led in the march to the church by the Pipe Band from Frankford, composed of the bass and snare drums and three pipers. The organist was Mr. Pearson, of Campbellford, who is organist of St. Andrew's Presbyterian Church there.

During July and August only one service each Sunday will be held in the Presbyterian Churches of Stirling and West Huntingdon, alternating morning and evening. Next Sunday it is to be held in Stirling at 11 a.m.

AT ROSENEATH.

ROSENEATH, July 12.—On Sunday morning at 11 o'clock the members of L.O.L. No. 261 marched in a body from their lodge room and attended Divine service in the United Church. A goodly number of members were present and the congregation was so large that the church was filled to capacity.

Rev. Bro. Beckel of Castleton conducted the service and administered to his fellow lodge members and their friends a most helpful and earnest address, taking for his Scripture lesson, James 1, chapter 1.

Mr. Beckel reviewed the wonderful history of the founding of Orangeism and the events of the rising tide of Protestantism in the days of William of Orange. He spoke of the truths of the Orange belief and said that many drift away and at times were not as faithful to their fellows as they might be.

Their duty to God should lead them to be examples of Christian faith, both to their home and community. In conclusion, Mr. Beckel advised that Orangemen should be most patriotic, be faithful with greater love and fellowship between men, live Christian lives, and love and honor the Lord Jesus Christ.

The choir rendered excellent music for the occasion. Mrs. Albert Nill sang a beautiful solo, which was very impressive and blended with the service.

WESTWOOD CHURCH HOLDS FESTIVAL

Strawberry Social in Connection With Anniversary is Success.

WESTWOOD, July 12.—The strawberry festival held on Wednesday evening in connection with the anniversary services of the United church was very successful, in spite of the disagreeable weather.

Owing to the weather conditions supper was laid in the former Methodist church instead of on the lawn as customary.

The program following was held in the Town Hall with Rev. S. H. Moyer as chairman.

A pageant entitled "When Miss Canada Comes of Age" by twelve girls representing Miss Canada and pages, and the nine provinces was both interesting and appropriate. Those taking part were: Miss Canada, Lillian Mortlock; pages, Leta and Della Drummond; Quebec, Mary Brackenbridge; Ontario, Helen Graham; Nova Scotia, Edith Douglas; New Brunswick, Vera Hie; Manitoba, Helen Clysdale; British Columbia, Mary Cameron; Prince Edward Island, Florence Cameron; Alberta, Helen Brackenbridge; Saskatchewan, Ada Warner.

A solo, "Land of Hope and Glory" was well rendered by Mrs. R. C. Brackenbridge and piano and violin solos by Mrs. Moyer and Mr. Grant Brackenbridge of Peterborough were much appreciated.

On Thursday evening a ten-cent supper was served and a social time spent.

CAMPBELLFORD NEWS.

CAMPBELLFORD, July 12. — Rev. James Grier, B.A., was in Hastings yesterday.

Miss Reta Cochrane, who has been visiting at Niagara Falls and Toronto for the past two weeks, returned home yesterday morning.

Rev. Mr. Reied and his mother were in town over the week end.

Mr. and Mrs. T. S. Baker leave tomorrow on an extended trip to Rochester, N.Y. They will be accompanied by Mrs. Baker's mother, Mrs. O'Connor, and on their return home will call at Syracuse for a visit with Dr. Fred O'Connor, brother of Mrs. Baker.

Bear Cats and Canucks will please take notice that the next game will be pulled off at the Fair grounds on Thursday afternoon at 3 o'clock. This is to decide which team will be outfitted first with baseball caps. There will also be two prizes given that day for home runs. Don't forget to bring your smile along with you.

NORWOOD SCHOOLS.

NORWOOD, July 12.—The Presbyterian Sunday schools, Keene, Westwood and Norwood, held their annual picnic at Birdsall's Landing, Rice Lake, on Wednesday. In spite of the unfavorable weather a good time was enjoyed by the large number present.

The Sunday schools at Elgin and Wildman's and of the United Church, Norwood, held their annual picnic at Birdsall's Landing on Friday last. A large crowd was in attendance and a good time was enjoyed by all. Two booths were on the grounds and practically everything they had for sale was sold.

A soft ball match between teams from the Elgin and Wildman schools resulted in a victory for the latter.

The white population of the world is estimated to increase at the rate of about 3,000,000 every year.

NUGENT INSPECTOR FOR THIS DISTRICT

Nugent inspector—24 Madoc Man To Be In Charge of Liquor Law Enforcement.

BELLEVILLE, Ont., July 12. — W. T. Nugent, who was for some time inspector under the O.T.A., with headquarters at Madoc Village, North Hastings, has been appointed as a general inspector under the Liquor Control Board. Mr. Nugent's district is No. 2, and consists of the following counties: Ontario, Victoria, Haliburton, Peterborough, Northumberland, Durham, Lennox and Addington, Frontenac, Renfrew and Prince Edward.

SOME BIG FISH

Anglers at Marmora Have Made Some Good Catches.

MARMORA, July 12.—Since the season opened for maskinonge catches of 15-pound, 18-pound and 25-pound fish have been reported. Quite a number of small lunge and a good sized bass have been taken in local waters.

OBITUARY

MRS. V. M. MIDDLETON.

Died in Peterborough, on Monday, July 11th, 1927, Victoria McKee Middleton, in her 79th year. Her late husband predeceased her in October of 1926. The late Mrs. Middleton was a life long member of the George St. United Church. She leaves to mourn her loss two daughters: Mrs Ed. Preston Selwyn, Ont. and Mrs. Harry Seabrooke, city; and two sons: Rev. Ernest W. Middleton, Holley, N. Y., and Mr. Sidney Middleton, city.

The funeral will be held on Wednesday, July 13th, at 3.30 p.m., from the residence of her daughter, Mrs. Harry Seabrooke, 310 Maitland avenue, and proceed to the Little Lke cemetery with the Rev. Mr. Wren officiating.

QUIET AT TSING-TAO.

LONDON, July 12 (Canadian Press). — A reuter despatch from Tsing-tao, in the Province of Shangtung, says that two thousand Japanese troops have arrived there from Darien, and that the situation is quiet.

BORODIN THREATENED.

HANKOW, July 12 (Canadian Press). — The guards of the Russian, Michael Borodin, adviser to the Cantonese Government here, had to fire into the air to-day to break up a rush by wharf coolies on the building in which Borodin's office is located.

Early-morn pep all day!

"Cause, healthful breakfasts tell their own story. You just have more pep and vigor all day long! What a glorious start Kellogg's Pep gives the day! Golden-rich flakes of whole wheat—full of wonder flavor!

Pep peps you up! It's rich in energy. Contains vitamins and mineral elements. Makes for vigor and vim! Pep is really "health in a package"!

A wonderful food for children. Pep contains enough bran to be mildly laxative. Tends to prevent constipation.

Give all the family plenty of Pep and see how peppy they'll be! Serve it with milk or cream. And add honey or fruits for extra deliciousness. Fresh or canned. Pears, bananas, prunes or raisins. Your grocer has Pep!

TUESDAY, JULY 12, 1927.

THE CHANGING TWELFTH.

The Twelfth fo July, the anniversary so dearly beloved by Orangemen, is being celebrated in Cobourg today, and the local and district brethren took part on the walk" down by Lake Ontario.

With the advent of the general use of the motor car ome of the enjoyment has gone out of the occasion; at east the old days when the lodges did most of their travlling by special train and went in a body to the scene f the celebration seem to have disappeared forever.

Nowadays many of the Orangemen travel in little roups in motor cars, and do not get together until their odges are marshalled for the parade, and while this nethod may be more convenient, some of the socialibility as passed out at the same time.

Peterborough will be able to see a portion of the elebration this evening when the local lodges will parade on their arrival from Cobourg.

CHANGING PLACES.

Three lives were lost in two different boating accilents over the week-end because one of the cardinal rinciples of safety on the water was neglected.

In both cases the occupants of a small boat attempted to change places, with the result that their craft was apsized.

It cannot be too strongly emphasized that the feat f changing places is an operation that is most dangerus in the case of canoes, and is very risky even when it s attempted in a rowboat.

If it becomes necessary to change, then the only safe ourse is to go ashore to make the shift, and failure to lo so has been responsible for a large number of drownngs.

Two of the Sunday victims were new arrivals from England, who probably had no idea of the danger inolved.

Most of the newcomers are tempted to go boating, nd in all cases their friends should warn them of the ecessity of being careful at all times, and most particularly about this practice of changing places in a boat which even experts cannot accomplish without a certain amount of danger.

Carefulness pays whether on the water or ashore.

THE PETERBOROUGH EXHIBITION.

Directors of Peterborough's Industrial Exhibition are settling down to the grind of the last couple of months' preparation for the big fair.

An exhibition of the magnitude of the Peterborough Industrial cannot be worked up in a few weeks; in fact, no sooner is the event over for one year than preparation for the next begins, and for many of those connected with the management a good deal of their time, almost the year round, is given over to activities on behalf of the Exhibition.

Few organizations anywhere have a more zealous or a more enthusiastic squad of workers than that connected with the local Exhibition, and their only reward is a sense of satisfaction at a job well done and a feeling of pride as they watch the development of the big fair from year to year.

The Exhibition of 1927, as a result of the improvements to the grounds and the roofing of the whole grandstand and of the amplification of the programme in many departments, threatens to reach a new level of success.

The Directors can look forward to two more months of hard work, but beyond that looms up a splendid triumph that will make their efforts seem well worth while.

THE LONDON FLIGHT.

Some sixty Canadian airmen have already made application to be given the honour of attempting the London, Ont., to London, Eng., flight, which is to be staged in the near future.

Canada produced some of the cleverest and most daring flyers who took to the air during the World War; in fact, Canadians formed a large percentage of the personnel of the Royal Air Force, and such airmen as Barker and Bishop were numbered among the greatest aces produced by the war.

So far as skill and courage and endurance go, there is not a doubt in the world that among the sixty who have volunteered there are many aviators quite capable of making the flight successfully.

The whole thing seems to hinge upon the mechanical equipment provided, and unless the flyer who is finally selected is furnished with an aeroplane powered like those used by Lindbergh, Chamberlin and other of the successful trans-Atlantic aviators the attempt will have only an outside chance to succeed.

No doubt, however, this feature is being attended to, and the Canadian who tries to wing his way "from the heart of Canada to the heart of the Empire" will have the best possible equipment with which to hazard the long air voyage.

CANADA'S OPPORTUNITY.

"Our future expansion will be at a more moderate pace."

This is the key-note sentence in an important article on American business growth appearing in a leading United States bank publication.

Other equally significant statements are these:

"The United States has now reached a fair degree of economic maturity.

"A policy of restrictive immigration will tend to reduce the relative speed in the growth of population.

"Agricultural expansion will be slower.

"In the field of manufacture also some moderating in the swift pace of industrial expansion seems to be in progress."

In these statements lies much promise for Canada. The United States has reached economic maturity. It no longer seeks fulsome expansion, but rather only steady growth—consolidation of its commercial and financial forces.

Immigrants, capital—anyone or anything seeking an outlet for creative effort—will find the greatest opportunity in Canada in the next generation.

The article from which the quotations were made were written by Robert M. McIsaac, of the National Bank of Commerce of New York, and appears in the "Commerce Monthly" published by that institution.

HAPPY RESULT OF THE JUBILEE.

The Confederation celebration has done the Dominion a supreme service. It directed the attention of the whole world in a dramatic way to the progress and achievements of Canada, to her national status, and her international prestige and importance. Everywhere Canada has been given a gratifying degree of publicity, and the wide diffusion of information about this country should have practical results. Canada has been benefitted also in another way. The outpouring of national sentiment and pride engulfed party divisions, and in particular it swamped the anti-Canadianism which shamed us by its outburst at the close of the Imperial Conference.

The famous report upon which the Prime Ministers of the Empire put the seal of official approval revealed a state of mind among a class of Canadians which invited the ridicule of other British countries and made patriotic Canadians doubtful for a time whether the Dominion had deserved self-government. It is now seen that the spirit expressed in the attacks upon the Imperial Conference was neither deep-seated nor widespread. It was almost confined to a coterie in this Province, and its leading newspaper exponents, The Toronto Mail and Empire, The Toronto Globe and The Toronto Telegram, were prompted in part by animus against the King Government. Canadians who were amazed and angry at these animadversions can now regard them with amused contempt. The chorus of denunciation which greeted the Prime Minister upon his return from Westminster subsided as quickly as it arose. There was a feeble echo of it in the opposition in the House of Commons from the principal spokesman of the city of Toronto to any official recognition of the sixtieth anniversary of Confederation and to any expenditure for the purpose, but it died away before preparations for the celebration began.

The jubilee would have been worth while if it had accomplished nothing more than the side-tracking of Canadian colonialism. It is too much to hope that it has been uprooted, but the jubilee has proved that it is no longer a serious force. It is impotent when it measures itself against Canadian sentiment.—London Advertiser.

THE TITLES QUESTION.

Following the example of a number of other newspapers, The St. Catharines Standard takes advantage of the decision of the Government to confer the title of "Honorable" upon Lieutenant-Governors for life to renew the demand that the entire titles question shall be re-opened to the end that the practice, which came to an end as the result of the celebrated Nickle resolution, shall be revived. Since Parliament voted in favor of that no-titles resolution, not a single knighthood, baronetage, peerage or other honor within the gift of His Majesty the King has been bestowed upon a Canadian at the request of the Canadian Government, and The Standard asks whether men who arise in the future of the type of Macdonald, Laurier and Cartier, as well as Gouin, Borden and Drayton, are to be deprived of the recognition to which their services to the state will entitle them.

Therein lies the very crux of the titles question. No person would have any quarrel with a renewal of the practice of granting titles to Canadians provided the recipients were worthy of such preferment, and provided the title was not an hereditary one. But experience has shown, in Canada as well as in Great Britain, that men quite unworthy of elevation above their fellows have been made knights and baronets and lords to the possible exclusion of others whose services, not being political ones, have gone unrecognized and unrewarded. Parliament asked His Majesty to confer no further titles upon Canadians simply because the country was heartily sick of the manner in which such titles had been bestowed. Revival of titles upon their former basis would provide no safeguard that the abuses which characterized their bestowal would not be repeated. If it was possible to restore titles with the assurance that they would be received only by those who have earned them through meritorious services to their country, there would be, we believe, almost complete unanimity of feeling in favor of such a course being pursued. Unfortunately, however, there is no such assurance, and for that reason public opinion, in spite of the missionary endeavors of a number of publications, still inclines towards the tenor of the Nickle resolution. It is a distinct libel upon many of those who supported that resolution, by the way, to imply, as The Standard does, that they were inspired by un-British motives. They voted, without regard to party ties, in favor of the resolution because they believed that calling a halt to the reckless bestowal of titles, some of them hereditary ones, upon Canadians whose services failed to approximate the honors received was the best thing that could be done for their country. These gentlemen were by no means confined to the ranks of the Progressives or to the group under the leadership of Mr. Woodsworth which The Standard classes as "un-British." They came from all parties and they embraced all ranks and classes of the national community.

There is no general demand at the moment for a return to titles in Canada. Few people, save those who hope to gain greater social prestige from the possession of a handle, are losing much sleep about the matter. The country seems to be getting along quite nicely without any additions being made to the numbers of sirs and lords that it possesses. And the public, we believe, would much prefer to regard the great men of the country as plain "Mister" than as Sir Somebody-or-other or Lord So-and-so of such-and-such a place. Far better than an indiscriminate granting of titles we like the plan advanced by the Royal Society of Canada for the establishment of a body, patterned after the French Academy, to which admission would be given only those persons who have rendered conspicuous service to their country after discussion of their claims by a competent and independent jury. The carrying out of such a scheme would assure honor being done where it is due.—Brockville Recorder and Times.

EDITORIAL NOTES AND COMMENT.

Scores of Canadians want to try the trans-Atlantic flight. The spirit of adventure always calls loudly to the young men of this country.

With the harvesters' excursions and an invasion of Conservative delegates, the West will no longer be able to claim that it is being neglected by the rest of Canada.

After sizing up the number of cars from that State seen here every day, there is a natural curiosity as to who is looking after Ohio these days.

Ontario folks will soon have to have a license to cut their front lawns.

It looks as if the time is coming when girls will have to put on some extra clothes to go in bathing.

CATTLE, GRAIN AND PRODUCE

Peterboro—Toronto—Montreal

TORONTO LIVESTOCK.

TORONTO, July 12.—With a heavy run of over 4,000 cattle, and a spell of warm weather in sight, the market yesterday opened slow, except for the choicest pickings of well finished butcher steers. For the medium and common quality and unfinished offerings, the demand was, and last week's general condition are likely to be repeated with a considerable carry over acting as a drag on the market for the balance of this week. Anything of finish and good quality is selling readily at steady prices.

Calves steady to firm.

Lambs generally 50c to $1.00 lower than the best for last week.

Hogs slightly firmer and quoting yesterday 15c higher.

Choice grass butcher steers and choice dry fed steers sold steady from $8.25 to $8.75. General run of good to choice butcher, grassers $8.00 to $8.75. Plain common, $6.50 to $6.75. Good stocker type, $6.50 to $7.00.

Lambs lower at $13.50 tops.

Hogs firmer at $9.90, select off cars, $9.00 select, f.o.b.

Receipts.

Union Stock Yards—Receipts, 4,208 cattle, 665 calves, 600 hogs, 764 sheep and lambs.

Hogs, off cars, selects	9.75 ....
Hogs, selects, f.o.b.	8.85 ....

MONTREAL GRAIN AND PRODUCE

MONTREAL, July 12 (Canadian Press).—The trade in grain yesterday was dull, the demand being only for odd lots. Similarly, the market for Spring wheat grades of flour was quiet, although the feeling generally was steady. With reference to winter wheat, flour dealers stated that Ontario millers in some cases asking an advance of 10 cents a barrel and offering sparingly, with the result that prices here are well maintained.

The millfeed and rolled oats trade is firm, with a steady demand for immediate consumption. There is no change in the market for baled hay.

The egg trade is somewhat easier due to the prevailing warm weather and to the fact that supplies coming forward are more than equal to the demand. The market for undergrades is not so firm.

In sympathy with the higher prices paid at the close of last week, a stronger feeling prevailed in the cheese trade and prices were marked up ½ to ¾ cent. The export trade however, continues quiet.

The butter trade is dull with liberal supplies in sight and a steady accumulation of stocks on spot. Trading was confined chiefly to broken lots. Prices are unchanged.

Grain Quotations

Oats, Canadian Western, No. 2, 75c.
Oats, Canadian Western, No. 3, 71½c.
Oats, extra No. 1 feed, 70½c.

Eggs, fresh extras, 38 to 40c.
Eggs, fresh firsts, 35c.

CHICAGO GRAIN

CHICAGO, July 12 (Canadian Press).—Announcement of 4,242,000 bushels increase of the domestic wheat visible supply total did a good deal yesterday to depress the wheat market. Correct belief also prevailed that the United States Government crop report yesterday afternoon would prove bearish. Closing quotations on wheat were unsettled, 1¼ cents to 1¾ net lower, with corn showing ⅝c to 1¼c advance; oats unchanged to ¼ off, and provisions varying from 25c decline to a rise of 12c.

United States Government crop figures turned out to be more bearish even than had been looked for. The official report indicating a probable yield of 854,000,000 bushels compared with private estimates averaging 820,000,000 bushels. Downturns meanwhile in the price of wheat started as soon as trading began, weather conditions pointing away from any immediate danger from black rust and some reports saying that much of South Dakota would altogether escape rust injury, no matter what happened hereafter. Current advices said further that harvesting of advanced fields in Minnesota would be under way within two weeks and that prospects for Manitoba and Saskatchewan are better in early fields than at this time last year.

It was correctly assumed in advance that the Government report on corn would be bullish. Moreover the general run of comment yesterday from unofficial crop experts was pessimistic. Oats were relatively firm owing to fears of damage by recent hot weather.

Most deliveries of provisions were steady.

STERLING EXCHANGE

MONTREAL, July 12 (Canadian Press).—Sterling exchange rates were quoted here yesterday as follows:

Demand $4.85⅞.
Cables $4.86¼.

PICNICS RAINED OUT

Weather Conditions Spoil Sunday School Outings in North Country.

APSLEY, July 12.—Adverse weather conditions have spelled disaster to the annual church picnics to date. Glenelda United church was the first picnic in the district a week ago, when it rained heavily all morning, but cleared in the afternoon. On Thursday last, St. George's church, Apsley, had too fine weather, the thermometer reaching 92 degrees in the shade, the attendance consequently being very slim. In spite of the extreme heat, at 4 o'clock a soft baseball match was played off between Apsley and Chandos, with an half hour interval for recuperation between the sixth and seventh innings. Score, Apsley 52, Chandos 15. About sundown the children of the Sunday school regained enough pep to indulge in a few races; proceeds of the picnic amounted to $45.

St. Paul's, Lasswad, fared worse on their annual picnic at Methuen, when it began to rain just before dinner was served and continued all afternoon. In spite of the rain, those who came to dinner stayed 'till supper was served, and a number of races were run. The day was a great disappointment financially, as it was hoped that enough profit would have been made to pay for the renovating of the church which is now in progress, instead of which it is doubtful whether expenses will be met.

The following were the prize winners in the races: boys, Harry Carl, Donald Carl, Little boys, Everett Whitmore, Neil Whitmore; little girls, Goldie and Ruby Nesbitt; girls, Violet Whitmore, Lola Nesbitt; tots' race: Russell and Marjorie Bullied; ladies' race: Ellen and Annie Steen; married ladies, Mrs. Bullied, Mrs. A. Davis.

Apsley had no Diamond Jubilee Celebration on July 1st, the only bit of life seen in the village being a stream of tourists' cars passing through to the fishing grounds.

Special thanksgiving services were held on Sunday at all the churches in the Anglican Mission, Mr. Spence conducting five services during the day.

L.O.L. FESTIVAL.

Havelock Orange Band Holds Successful Strawberry Social.

HAVELOCK, July 12.—The Strawberry Festival, under the auspices of the L.O.L. Fife and Drum Band attracted a large crowd to the Orange Hall lawn on Tuesday evening.

While the supper was being served the band, which is composed of nearly all young boys under the leadership of Mr. J. Kinnaird, played a large number of selections in a very creditable manner, the audience heartily applauding each number.

Short speeches were delivered by Rev. G. E. Lougheed, Mrs. S. McGill, W.M. of the Lady McGill L.O.B.A., Mr. R. Sanderson, W.M. of Havelock L.O.L. No. 326, and Mr. J. Kinnaird.

The proceeds amounted to about fifty dollars and will go towards purchasing uniforms for the band.

The refreshments were all supplied by the ladies of the L.O.B.A.

C.N.R. EARNINGS.

MONTREAL, Que., July 12.—(Canadian Press).—The gross earnings of the Canadian National Railways for the week ending July 7, 1927, were $4,812,964 as compared with $5,226,002.48 for the same week of 1926, a decrease of $413,038.48 or eight per cent.

Lands added to the world's acreage of farms in the period from 1850 to 1900 amounted to 500,000,000 acres.

INSTITUTE MEETING.

Mount Pleasant Branch of Women's Institute Hold Monthly Meeting.

ROSENEATH, July 12.—It was with much pleasure that the Woman's Institute met at the home of Mrs. Mary Brown, better known to the villagers and community as Aunt Mary Brown, the oldest member of the institute, and with 44 being present at the meeting was evident to our aged member, who is nearing her eighty-second year, that her invitation was greatly appreciated with the society and friends that were present.

The president, Mrs. Lottie Nichol, presided, and opened the meeting in the usual manner with the singing of "The Maple Leaf." The minutes of the June meeting were read and approved on motion of Mrs. Andrew Brown and signed by the president.

A letter was read from the Federated Woman's Institute asking for help to pay a doctor where medical aid is very scarce in the far north of Northern Ontario. The amount asked for was granted.

Mrs. Lily Turner reported on the sign-boards for the village and that they were being prepared and would be ready for use in the near future.

Lunch committee for August will be Mrs. G. Ingham, Mrs. A. Brown, Mrs. (Dr.) Hershey and Mrs. L. Turner; programme committee, Mrs. Albert Halstead and Mrs. M. Davey.

There is always loyal support for those who give their talent for the pleasure of others in these meetings and the programme rendered was much enjoyed. A reading by Miss Berenece Brown, entitled, "So Gentle and Kind." Mrs. C. W. Varcoe read a very loyal paper on "Canada." Mrs. M. Davey brought an excellent report from the district meeting held at Elmview in June. It conveyed many views of how to make the Woman's Institute more interesting, how to raise money and be more entertaining. She told of birthday remembrances, old and ancient photograph contests, garden exchange and numerous other methods of helping each other to gain some help through the Woman's Institute. Also, a splendid suggestion was a fruit and jelly wshoer in the fall for the use of the sick committee during the winter. Mrs. Davey's report was both interesting and beneficial. The programme continued with a humorous reading by Mrs. Lily Turner, entitled "Cooking For a Husband." Mrs. Orra Varcoe gave a paper on "Confederation," which was very patriotic and full of historic interests. Mrs. J. Robins was last on the programme and gave the gathering a hearty laugh with her reading entitled "The Nagging Habit."

A vote of thanks was then tendered the hostess, after which lunch was served and the usual social chat for a half-hour or more.

The August meeting will be at Mrs. James A. Brown's.

CLAIMS NEW RECORD.

South African Runner Covers 100 Miles in 14 Hours, 45 Minutes.

BULUWAYO, S. Rhodes, I.A. — Canadian Press. — Arthur Newton, a South African long distance runner, claims to have established a new amateur world's record by running one hundred miles over a course in fourteen hours and 45 minutes. The distance was officially measured and official time keepers were employed.

CONFIRMATION AT DOURO CHURCH

Large Class Presented for Holy Rite at Hands of Bishop O'Brien.

DOURO, July 12.—On Sunday afternoon at four o'clock the sacrament of confirmation was administered to a large class by His Lordship, Bishop O'Brien of Peterborough. The village was in gala attire with streamers and flags and a beautiful arch of evergreens in front of the church, in honor of His Lordship's visit. The priests who accompanied His Lordship were Fathers Finn and Corkery of Peterborough, and Father McAuley of Ennismore.

After an extended examination of the children as to their knowledge of Christian doctrine, the children advanced to the railing with their sponsors, and the sacrament of confirmation was administered to the eighty-six children of the class. They presented a pretty picture. The girls were all dressed in white, with wreaths and veils.

The usual pledges were asked of the children and given with good will.

An inspiring instruction was given to children and grown-ups by His Lordship, with special reference to the confederation ceremonies. He said we should thank God that we belong to a country where civil and religious liberty is given to all. We have much to be thankful for; also in living in a section of the country where crop failures are unknown. His advice was also to be more progressive in farming and marketing methods, in making homes more comfortable, etc.

—is the scientific insecticide that was developed at Mellon Institute of Industrial Research by Rex Research Fellowship

"Dad has passed away, I'll have to leave"

THIS LAD must leave college with his education uncompleted. His life's plans are all wrenched asunder. Before he is fitted for it—he must go out and look for a job.

His father wanted to give him a good education. But, he failed to take steps that would have guaranteed that his son's start in life would be amply provided for — whether he himself lived or passed away.

Have you a son or a daughter whom you would like us to protect from such a disaster? We'll make a bargain with you whereby we will pay over to your son—or to you on his account—at a stated time, any amount of money you decide will be required. If you should die before that time, the money will be paid immediately to him or to his guardian.

Thus your boy will be sure of his chance in life. He deserves it, doesn't he?

It's a duty you should perform now—while you are insurable. 298

WOMEN'S PAGE

SOCIETY

Mr. and Mrs. J. K. Hughes have opened their summer home at Chemong Park.

Mr. W. G. Morrow and the Misses Morrow art at their summer cottage on Juniper Island.

Miss Grace A. Yonge, of Lakefield, is spending some time with friends in the city.

Miss Norah Shevlin spent the week end with Mrs. J. D. Tully and Mrs. J. M. Heard at Chemong Park.

Dr. and Mrs. C. C. Cragg have taken Dr. Carmichael's cottage at Chemong Park, for the summer.

Miss Ted Pammett, of the staff of the Fuller Brush Company in Montreal, spent the week end with her parents, Mr. and Mrs. Robert J. Pammett, 228 Carlisle avenue.

Mr. Harold Frost, manager of the Bell Telephone Company in Sudbury, and Mrs. Frost, have returned to their home after spending some time with the former's parents, Mr. and Mrs. W. C. Frost, 542 Aylmer street.

Mr. Reginald Cresswell, of Akron, Ohio, is the guest of his aunt, Mrs. T. C. Yonge, Regent street, Lakefield.

Mr. and Mrs. C. H. Ackerman and family are at Picton.

Rev. J. H. Dudgeon, formerly of the First United Church, Port Credit, and Mrs. Dudgeon, have arrived in the city, where Mr. Dudgeon will assume the pastorate of St. James' United church.

Mrs. N. Fine has returned home after spending a pleasant holiday with friends in Kingston.

Mrs. Elizabeth Robson, Mrs. N. C. Porter of Norwood and Miss T. C. Robson of the Toronto Public school staff, spent the week end with Mrs. Robson's brother, Mr. Donald MacNaughton, of Otonabee.

The following letter has been forwarded to Dr. T. W. H. Young, who was recently elected as president of the College of Physicians and Surgeons of Ontario. It is written by Lansdowne Lodge Number 25 of the Sons of England Benefit Society, and signed by the secretary, W. G. Shiner: "Dr. T. W. H. Young—Dear Sir and Brother—The members of Lansdowne Lodge extend to you their hearty congratulations on having attained the highest position that can be attained by a physician in this province, viz., President of the College of Physicians and Surgeons in Ontario. We recognize this position is one that must be merited before it is awarded and it is a signal honor to yourself that you have been elected to that position. As a citizen of Peterborough and as a member and past officer of our Lodge, your election has brought a measure of honor to the city of Peterborough, also to Lansdowne Lodge of the Sons of England. We congratulate the College of Physicians and Surgeons on their choice of a president, and we trust you will be able to fill that office throughout the period for which you have been elected."

About seventy members of the Ontaro Secondary School Teachers' Federation met at the King Edward Hotel Toronto, last night for a banquet and dance. Among the guests at the head table was Mr. H. R. H. Kenner, Principal of Peterborough Collegiate Institute.

Mr. Ralph Knox left on Sunday for Hamilton, where he is attending the convention of the Grand Lodge of Ontario, Knights of Pythias.

Miss C. J. Green of Toronto is the guest of Mr. and Mrs. A. McCall, 435 Bolivar Street.

Mr. and Mrs. Percy Hooper and children; Miss Agnes Logan, and Mr. Fred Green are taking a motor trip to Prescott and Montreal. In Montreal they will meet Miss Alice Logan, who is returning from a year spent in England.

Miss Janet Moffatt of Detroit is spending two weeks' vacation with her parents, Mr. and Mrs. Peter Moffat, 176 Smith Street East.

Mr. and Mrs. J. Gemmell have opened their summer home at Chemong Park.

Mrs. Charles Hill and daughter Lois, of Toronto, are visiting friends in the city.

In the account of the family reunion of the descendants of Hon. T. A. Stewart and Mrs. Stewart, held here last week, Miss Dunlop of this city was credited with the authorship of the book, "Our Forest Home," from which various excerpts were made. This collection of letters and correspondence which threw much light on the early life of the pioneer settlers was made by the late Mrs. A. C. Dunlop. The homestead of the Stewart family in this district, where they and their descendants lived for nearly half a century, was named by them as "Auburn," when they built the first house there.

Mr. James O'Ray of Napanee is spending a week with his son, Dr. D. J. O'Ray and Mrs. O'Ray, Rubidge Street.

Miss Gladys Churchill of Windsor is the guest of her aunt and uncle, Mr. and Mrs. W. Hoggar, Lansdowne Street.

Mr. and Mrs. Neil Tobin are spending a few weeks at Marmora.

Rev. J. E. Todd and Mrs. Todd are spending their holidays at their cottage at Southampton, on Lake Huron.

The name of Miss Margaret Flowers, who acted as accompanist, was inadvertently omitted from the account given The Examiner of the sacred concert provided by the Female Voice Choir in the Canadian Legion Hall on Sunday evening.

Miss Marguerite Hopper, R.N., of Pembroke, Ontario, left for Toronto today, en route for her home, after spending the past week with Dr. and Mrs. A. H. Allen, Charlotte Street.

HOROSCOPE

The Stars Incline, but do not Compel.

Wednesday, July 13, 1927.

(Copyright, McClure Newspaper Syndicate.)

This is rather an uncertain day, according to astrology, which finds that many aspects are unfavorable.

For men who carry responsibility there may be many far-reaching problems that are exceedingly puzzling.

Judgment of both men and women may be unreliable under this sway, for there may be a strong inclination toward the personal point of view.

Deception is supposed to be easy, while this rule is dominant and much treachery in the management of financial matters is forecast.

Banks and large business institutions may suffer heavy losses, owing to dishonesty and misrepresentations.

Scandals far-reaching and affecting prominent persons may be prevalent in the next few months when evil report will be widely circulated.

Again great extremes will be apparent in human nature, for while crime will continue to flourish, supermen and superwomen are to be evolved to meet supreme crises in world affairs.

Music and the arts are to benefit greatly through large endowments in the United States. An era of great American artists is foretold.

Although this is the thirteenth it is read as especially lucky for lovers and even for weddings.

Theatres and places of amusement will benefit from unexpected causes, it is prophesied.

Saturn is in an aspect supposed to increase love of money and to encourage mercenary motives.

Women should be lucky in financial matters to-day, which is read as presaging profit through marriage.

Persons whose birthdate it is have the augury of an eventful year that will test many friendships.

Children born on this day may have broad sympathies and wide interests all through life. They should be taught the value of concentration.

GIRLS IN BUSINESS

A Series of Five Messages

By CYNTHIA GREY

No. 3.—DON'T BE TOO DAMNED EFFICIENT.

"She's too damned efficient."

I almost endowed Vic Moore for life when he said what I had been aching and itching and yearning to say about Emma Ames ever since I invaded the office where Emma worked.

Emma's never-failing efficiency always made me want to tear my hair or rage through Emma's orderly office kicking waste baskets out the window and shuffling Emma's neat files like a deck of cards.

There was something about Emma's office perfection that made us mere human mortals more conscious of our shortcomings. Emma submitted smugly that her entire working day, week, month, year, her whole life, was budgeted.

Emma allowed herself 20 minutes for rising, doing her exercises, and dressing; 20 minutes for breakfast; 35 minutes for purchasing a paper and getting down town; 10 minutes for rearrangement of hair, washing her hands, and hanging up her wraps after entering the office.

Emma never stopped to talk or laugh during the working day. Her efficiency budget would not permit it. We, who worked with Emma for several years, never got to know her even as well as the night cleaning women who were leaving the office as we entered every morning.

Emma had never stayed even one-quarter of a minute over her allotted lunch hour in the seven years of her employment! Nor that much after closing time!

A Howling Success.

Now, according to the business schools who had created Emma, she could have been a howling success! But the truth of the matter was that her employer's explosion of "she's too damned efficient!" was only echoed by every man in the office.

"She makes me actually afraid to even leave the office for a business conference, she looks at me so accusingly," said her boss. "I'm getting to actually hate my job because Emma's there. And I haven't got the nerve to fire her! She's so sure of herself; so sure she's all that a business woman should be. I'm not equal to facing the incredulous amazement in her face if I should fire her! I could never make her see that being too efficient has made her a pest and a thorn in the flesh!"

I admit that this Emma sermon may not fit many cases in the business world. I admit that hundreds of bosses probably sigh for more Emmas in their offices. Perhaps there are not many girls who need to be warned against being office automatons instead of breathing, flesh-and-blood personalities. But on the other hand, I know there are enough and too many.

I, myself, invading various offices often for the convenience of the office boss himself, have been so chilled and repelled by these desk automatons who seem to regard my entrance as an invasion of their rights of privacy in the citadel, that I have been tempted to run home and let the old interview he wanted to give go to the Dickens!

To-day's business everywhere is much more free and easy than it was in the days when business schools were teaching girls that employers would tolerate a woman in their offices only so long as she was but an invisible cog in the machinery.

I admit there was much sterling sense in this dictum both for those days and these. I admit that, perhaps, too many business girls to-day, having been given an inch have taken a mile, and are too much "at home" in office hours.

The Personal Touch.

But I do earnestly believe that this is a day when the personal touch rules in the whole business world and when a really efficient business woman recognizes this and is clever enough to adapt herself to each and every office personality and incoming visitors.

The much laughed at three-hours-for-lunch-club is often and generally doing more actual successful work than in office hours. Friendships and social contacts play a powerful part in to-day's business world. Lots, stock, real estate and insurance are sold at lunch. One picks up from one's friends not only "prospect" names but invaluable information as to the course of human affairs.

The biggest real estate deals ever turned have been made because somebody's stenographer knew that her stenographer friend's boss was in the market.

No, being "too damned efficient" nowadays gets you nowhere! Live fully outside office hours and office walls and you can give your boss more—providing you have the sort of boss who can see it that way!

Ah, there's the rub! Many of them must be taught!

SAINT and SINNER

By ANNE AUSTIN

(Continued from Saturday).

But when she was actually in Cherry's room in the hospital, all thought of Cherry's baby was for the moment wiped out of Faith's mind. She had eyes only for Cherry, and it was Bob's warning pressure on her arm that prevented her from running to the bed and crying out her dismay and love. For the Cherry that lay, so tiny under the smooth white counterpane, would have wrung tears from the eyes of her worst enemy. The little heart-shaped face was as pale and wan as if Death, which had hovered over her for hours, had not made up his mind to pass her by.

"Faith? Bob?" Her voice was a faint whisper, and one tiny hand fluttered upward from her breast, then dropped heavily, unable to support its own weight. "Didn't die," she gasped, a grin tugging feebly at the corners of her ashen mouth. "Fooled 'em."

Faith dropped to her knees beside the bed, cuddling Cherry's limp hand against her own warm neck. "You are going to be all right, darling. Brave, wonderful little Cherry!"

The special nurse, Miss Savage, whose broad, gentle, bespectacled face belied her name, had risen from her chair beside Cherry's bed, a fleecily wrapped little white bundle cradled in her arms.

"Look—at what I did!" Cherry's faint voice became a little stronger with pride, as her tired eyes moved slowly to take in the nurse and the bundle. "Wanted—a girl. Wouldn't know how—to dress—a boy."

Faith laughed through her tears as she tiptoed around the bed, Bob's hand in hers, for the first sight of Cherry's baby.

"It's a fine little girl. Not quite five pounds, but she makes up in quality what she lacks in quantity." Miss Savage smiled, as she gently lifted the fold of blanket which covered the midget face.

"Oh, Cherry! Or, Bob! She has hair just like Cherry's!" Faith breathed ecstatically. "Isn't she darling? Oh, I want to hold her!"

And with Cherry and Bob looking on, smiling at her, Bob with tears in his eyes, Cherry with a new light of mother-love dawning in her wan face, Faith took her niece and held the small bundle to her heart. The tiny eyelids, in the rose-red little face, fluttered uncertainly, then a pair of astonishingly large brown eyes gazed dimly upward.

"She has eyes just like yours, darling," Bob, hovering over them, as if he were the father, pointed out exultingly.

"Isn't she—adorable?" Cherry gasped, and Faith, tearing her gaze from the miracle in her arms, saw that her sister's eyes were filled with tears and that a faint flush of pride and happiness had stained the death-like pallor of her cheeks.

Bob went to her then, bending over her to lay his lips gently against her forehead. Cherry's hand went up weakly, passed uncertainly over the crisp waves of his chestnut hair, then dropped limply to the counterpane.

"Sweet old Bob!" she gasped. "You'll—let us—stay?"

"Stay? Of course, you blessed little idiot! I'd like to see you try to leave and take my niece with you!" Bob scolded her, his voice husky with tears.

And while Faith stood at the foot of the bed, Cherry's baby cradled in her arms, she saw her husband lay his lips upon her sister's quivering mouth, saw Cherry's hands, electrified, rise to clasp Bob's face and to hold it against hers. For a brief moment, in which she seemed to be spinning dizzily, her heart was pierced by the rapier of jealousy. Then Cherry's baby suddenly stretched itself in a comically thorough yawn. It was then that Faith's passion for Cherry's child sprang full-grown into her heart, driving out, for the moment at least, every torturing doubt of her sister and her husband.

(To be continued.)

WHIPPING CREAM.

A little gelatine added to the cream for whipping will make it whip faster and make the finished product have more volume.

HINTS ON ETIQUETTE.

1. Does anyone have chaperones anymore?
2. When is a conventional society girl considered adult enough no longer to need a chaperone?
3. Must chaperones be married women?

The Answers

1. Yes, well-brought up girls do.
2. When she is in her middle twenties.
3. No. Any dignified older woman will do.

WHO WROTE THIS ?

1. "Nature is a revelation of God;
   Art a revelation of man."
2. "To-morrow's fate, though thou be wise
   Thou canst not tell, nor yet surmise."
3. "Hope springs exulting on triumphant wing."
4. "God has given you one face, and you make yourselves another."
5. "Illusion is brief, but repentance is' long."
6. "Who seeks for aid
   Must show how service sought can be repaid."
7. "My right eye itches, some good luck is near."
8. "Thus 'tis with all, their chief and constant care
   Is to seem everything but what they are."

WITH VEGETABLES.

Beet cubes added to the water in which vegetables are cooked gives them a rich satisfying flavor.

Special Summer Hygiene

For Safe Wearing of

Sheerest Frocks

By ELLEN J. BUCKLAND
Registered Nurse

WITH Kotex, women now wear the thinnest summer frocks; motor, dance for hours; in safety and peace-of-mind. It ends the uncertainty of old-time "sanitary pads" by being *5 times more absorbent.*

It ends, too, another serious problem by *deodorizing.* It ends, too, the problem of disposal. For one discards Kotex as easily as tissue; no laundry, no embarrassment.

Eight in 10 better-class women have discarded old ways for this *true and certain* scientific protection.

Obtain Kotex at any store. But be sure you get *genuine* Kotex, the ONLY sanitary pad filled with *Cellucotton* wadding, the world's super-absorbent.

KOTEX

No laundry—discard like tissue

It Pays To Buy Dependable Puritan Maid Silk Stockings

Why?

Because after years of experience and experiment in the making of hosiery our factory superintendents and operators, as well as dyers, can justly claim to know as much about their business as anybody anywhere.

Because they are always on the look-out for new ideas, new helps, new methods for improving the Puritan Maid stocking and in adding to quality whilst taking from the expense and thereby taking from the selling price for our customers.

PURITAN MAID

THE HALL STORE

GARDEN PARTY WELL ATTENDED

Ladies of Christ Church in Charge of Successful Social.

AT CAMPBELLFORD

CAMPBELLFORD, July 12. — The ladies of Christ Church entertained at their annual garden party on the Parish Hall grounds on Friday evening.

Notwithstanding the fact that this party was postponed from the previous evening, on account of rain, a large number were present to enjoy the many good things provided for their entertainment.

The Northumberland Regiment Band was present and furnished lively music for those who indulged in liquids dispensed by Mr. Lawrie, or tried their luck at the fishing pool conducted by Mrs. Tinney. The many booths were nicely arranged, and were well patronized.

The booth convenors were: Refreshments, Mrs. Newson; Fortune Telling, Miss Bonnycastle; Soft Drinks, Mr. Lawrie. Red Hots, Mrs. Nelson Lloyd; Fish Pond, Mrs. Tinney; Candy, Mrs. Ed. Tait; Flowers, Miss E. Bedford; Ice Cream, Miss Muffitt; Wheel of Fortune, Mrs. Will Smith, Mrs. West and Mrs. Free; Side Show, Mrs. Jenkins, Mrs. Lawrie and Miss Maynard. The general convenors were: Mrs. Archer and Mrs. Fred Linton.

A most intetresting program, which no doubt spelled much time and attention to rehearsal was nicely carried out in the hall. To the music of "O Canada," the curtain was raised on a group of three which presented a very pretty picture: Mrs. Jack Linton, as Britannia; Mrs. Geo. Goffin, as Canada; and Sergt.-Major Johnston, in warrant officer's uniform.

A laughable sketch was given by five boys and five girls, who, standing behind a black curtain, neck high, sang a verse of a song, then by simply lowering their heads and raising their hands, to which boots were attached, made it appear that they were singing the next verse while standing on their heads. Those taking part in this sketch were: Basil Linton, Stewart Anderson, Jack Bygott, Morley Baker, James Heptonstall, and Misses Muriel Linton, Maud Light, Lillian Poulton, Lea Watering and Hilda Southern.

The man in search of a wife was given a bit of valuable information in a tableau in which Mr. A. J. Jenkins was reader.

The actors and actresses were: Dr. Watson, the bachelor; The Summer Girl, Miss Agnes Moore; Golf Girl, Miss Isabelle Bygott; Belle of the Ball, Miss Francis Bonnycastle; College Girl, Miss Beatrice Baker; Girl Guide, Mrs. Marshall West; A Little Widow, Kathleen Bygott; Tennis Girl, Evelyn Bonnycastle; Society Girl, Miss Runions; City Girl, Miss O'Neil; Nurse, Mrs. Lawrie. The Bride, Miss Dorothy Linton. The parts were well taken and the costumes were decidedly pretty and the make-up not far from natural.

That the ladies of Christ Church spared no effort in the arrangements of the Garden Party was the opinion of all who had the pleasure of attending.

SEEK DENTAL SERUM.

CHICAGO, July 12.—That dentists soon may be injecting serums to prevent tooth decay is the prediction of a specialist here, Dr. C. N. Johnson, who is experimenting on such a preparation. Tooth decay, he says, is the most common ailment known.

FOREST FIRE RAGES IN NEWFOUNDLAND

Six Houses and Two Stores Are Already Destroyed.

ST. JOHN'S, Nfld., July 11 (Canadian Press). — Six houses and two stores have already been destroyed by the forest fire raging on the northern side of Gander Bay, in the Fogo District, and reported to be advancing along a three-mile front, threatening the settlement of Carmanville and a large part of the district. Fire fighters have been rushed to the scene.

If you are over-worked, run-down and care-worn; if you lack the ambition, nerve force and endurance to make your life a success—don't let another day pass before starting this guaranteed 20-day test of Double Strength Erbac. If not more than pleased with results, the test will not cost you a penny.

CHOIR CONCERT WELL ATTENDED

Entertainment at Downeyville Hall Proves Great Success.

FINE PROGRAM GIVEN

DOWNEYVILLE, July 11. — On Thursday evening the hall was crowded to hear the entertainment put on by the members of St. Luke's choir. It was a very fine entertainment and the members of the choir are to be congratulated on their success. Every number was good and the attention given by the large number went to show how it was appreciated.

Mr. Paul McGuire acted as chairman and won rounds of applause for his witty sayings and humorous selections. The following is the program:

Opening chorus, "All Together," by all.

Chairman's address.

Solo, "My Irish Rose," Gerald O'Neill and "Get Away, Old Man—Get Away."

Quartette, Anchored, by Messrs. Frank Milloy, Daniel Costello, William and Martin Herlihey.

Recitation, "Kelly's Dream," Albert Carroll.

Recitation, "Kelly's Dream," Albert Carroll.

Solo, "The Barefoot Trail," and "Molly Maloney," by Mrs. Joseph Guiry.

Sextette, "High, High Up in the Hills," by Misses Mary Morrissey, Fanny Costello, Dorothy McGuire, Marjory Murray, Grace and Loretto Harrington.

Solo, "Where Did You Get That Hat," by Clare Harrington.

Chorus, "Canada Jubilee," by all.

Solo, "I Don't Think So," and "Home, Sweet Home," by Angus Twomey.

Duet, "The Pilot Brave," by Messrs. Martin and William Herlihey.

Duet, "Annie Laurie," by Mrs. Leo Harrington and Mrs. Pat Perdue.

Closing chorus, "Home Again," by all.

The accompanists for the evening were Mrs. W. C. Herlihey, Mrs. Pat Perdue and Miss Loretto Harrington.

After the programme the hall was cleared and a few hours were spent in dancing. Hooper's orchestra from Lindsay furnished the music.

CAMPBELLFORD NEWS.

CAMPBELLFORD, July 12.—Charles Davidson and family have returned from a two week vsit at Ottawa.

A large party of American tourists arrived in town on Sunday night en route to Cole's cottage at Crow's Bay.

Mr. and Mrs. Jack Linton and Miss Muriel Neal, of Kingston, motored to Cobourg, where they were guests at the Hess mansion.

Hastings defeated Campbellford in a fast game of hard ball on Saturday afternoon. The score was 11-8. Campbellford is trying to prove to the world that a baseball team does not require to practice and is making a sorry mess of it.

Hydro defeated St. Andrew's in one of the best games of soft ball of the season. The score was 8-7.

Miss Mabel Anderson of the Civil Service, Ottawa, is visiting in town.

Rev. Ernest Harston, L.L.B., spent Friday afternoon with the Tuxis Square boys who are in camp at Presqu'ile. Mr. Harston reports the boys as looking fit and enjoying themselves.

He was greatly interested in their troop softball games. Their camp fire and sing-song period is described as being both entertaining and instructive. Rev. Roy Pickard is camp director and song leader. On the evening Mr. Harston was in camp, Mr. Kelly, of Warkworth, gave a very interesting talk on "Bird Life," and Rev. Mr. Daniel gave an instructive talk on "Loyalty to the Flag." There are 75 boys in camp, 14 from here.

Several of the churches were plunged into darkness on Sunday night when something went wrong at the power house.

Master Bennett Morton, of Assumption College, is spending his vacation with his aunt, Mrs. J. E. Burks. Besides being the silver medalist of his year, Bennett also captured a scholarship. Being only 15 years of age, he is forced to wait a year before he can enter the University.

St. Andrew's Sunday school will hold theeir annual picnic at Crow Bay on Friday, July 15. Arrangements are being made to make this the biggest and best picnic in the history of the Sunday school.

YOUNG'S POINT

YOUNG'S POINT, July 11.—Rev. F. Mason of Montreal was the guest of the Rev. R. T. C. and Mrs. Dwelly at the rectory over the holiday.

Miss Katheline Young is at home for the holidays, the guest of her father and mother, Mr. and Mrs. Ed. Young.

Mr. and Mrs. D. Darling of Peterborough visited at the home of the latter over the holiday.

Miss Mildred Charlton, who has been away teaching, is visiting at her home in the village.

Miss Mary Walsh, R.N., of Rochester, is at present the guest of her father and mother, Mr. and Mrs. James Walsh.

Mr. and Mrs. Percy Stenner of Peterborough spent the holiday at the home of the latter in the village.

A number of local people attended the strawberry social at Selwyn on Tuesday night. Among them were: Mr. R. A. Charlton and daughters, Marie and Mildred, Mr. and Mrs. Percy Hockaday, Messrs. F. Hockaday and T. Windsor, Mr. and Mrs. A. Duggan, Mr and Mrs. A. Wilson and Miss Daisy Wilson.

The tourist season has opened here and many American license plates are noticed on the cars in the village.

Mr. W. G. Morrison of Lakefield was in the village on Wednesday.

Mr. and Mrs. George Wilson of Buckhorn passed through the village on Monday enroute to Burleigh Falls.

Mr. and Mrs. Robert Northey of St. Catharines visited with friends in the village over the holiday.

Guests at the Katchewanooka Inn during the week were: Mr. and Mrs. J. C. Bennett, Mr. and Mrs. A. R. C. Wakely, Mr. and Mrs. Ed. Lee, Mr. and Mrs. Montgomery and Miss Doris Montgomery, Mr. and Miss Rennie, all of Toronto; Mr. and Mrs. O. W. Brown, Miss Mary Brown, Mr. and Mrs. R. Northey, Miss Dorothy and Master Cliff of St. Catharines; Mr. H. Horrox, Miss Marion Horrox, Birchcliff; Miss A. Hutchinson, Miss G. D. Meikle of Toronto, and Mrs. Stratton, Scarboro Bluffs.

The guests at the Lakeview House were: Sam Henderson and wife, Toronto; Howard Cox, Toronto; Misses Helen Patterson and Kitty Soothing, Toronto; G. Duncan Law, Toronto; Arnold Ebcaks, Toronto; Miss Bunny Montgomery, Toronto; Messrs. E. V. Smith, Art Hafley, Alex Smith, Bob Grant of Toronto; Miss Sharpe of Toronto.

ABILITY TO SWIM SAVES FIVE LIVES

Two Young People Help Companions To Reach Upturned Boat.

BRANTFORD, Ont., July 12.—Five young people had a narrow escape from drowning over the week-end, the ability to swim possessed by Miss Elsie Chamberlin, Brantford, and Dean Zavitz, son of the well-known O. A. C. official, preventing a tragedy. Zavitz, who is a Turkey Point summer cottager, started out to swim from the point to the United Church summer camp at Normandale. He was followed for safety by a boat containing Miss Elsie Chamberlin, Master Douglas Lee, Brantford, Miss Edith Hunter, Durham, and Ralph Carter, of this city. The lake was calm at the start, but a breeze sprang up and Zavitz failed to make the distance. He asked to be taken aboard, and the four in the boat got on the one side to allow him to climb the other. In spite of the precautions, the boat upset, and all were thrown into the water. Miss Chamberlin could swim, Carter only enough to keep himself above water, the others not at all. The two swimmers gave aid to the non-swimmers to reach the boat, and then set off for the shore, a good distance away. This they reached safely, though nearly exhausted, and a boat was sent out from Normandale and a rescue effected. The five participants were all in need of medical attention, but are doing well.

38 INJURED IN INDIAN RIOT

Moslem Paraders Force Way Through Hindu Procession at Kolhapur.

TENSION GREAT.

BOMBAY, July 11 (Canadian Press).—A critical situation has been created at Kolhapur as a result of a riot between Moslems and Hindus there yesterday, during which thirty-three Moslems and five Hindus were injured.

Trouble started when a Moslem procession in connection with religious celebrations forced its way through a Hindu religious procession. The mob was controlled without resort to firearms, but intercommunal tension is acute.

VETERAN STEEPLEJACK BUSY REPAIRING ST. ANDREW'S TOWER

George Campbell Has Been Climbing for Forty Years.

STARTED IN SCOTLAND

Has Had Only One Accident in Long Career—Now Over 60.

Canada's oldest steeplejack, George Campbell, of 169 London street, employed by A. Alex McLeod, is at present engaged in the work of pointing the bricks on the tower of St. Andrew's church.

Decayed bricks on the tower are taken out and replaced by new ones or if the deterioration is not too great, the cracks are repaired with cement which gives a new lease of life.

Mr. Campbell, who is a sexagenarian, is a man of Napoleonic stature. For the long period of forty years he has been carrying on his "lofty" calling.

An Argyllshire Highlander by descent he was born in Glasgow and after completing his education at the school of the Highland Society, he was apprenticed as a slater. Until he was 16 years of age, Mr. Campbell wore no other garb than the kilt. Besides being an excellent craftsman, he soon gave evidence of "having a head for climbing and took to steeplejacking, about the only trade or profession in the world in which ladies have not made their mark.

During his long career, Mr. Campbell has worked on all the highest steeples and factory stalks in England, Scotland, and Ireland, including the Townsend stalk in Glasgow which is 468 feet high. As showing the improvement in methods since he first started climbing, he points out that instead of the ten feet ladders with sockets now in use, the ascent used to be made either by getting up gear by means of a kite or by using spikes. If 100 feet was spiked in 1 1-2 hours, it was considered excellent work.

In reply to a question as to whether he had ever met with mishap in the course of his employment, Mr. Campbell said that the only injury he received was while working on the ground at the felling of a high chimney in Glasgow.

Two different methods are used in Great Britain in felling high chimneys. In Scotland a stalk is laid low by removing about four courses of bricks at the base, half way through. By this method, the stalk is brought down in much the same way as a high tree. In England the greater part of the brick work at the base is removed and replaced with wood saturated with an inflammable material, which is then ignited. The latter method is considered unsatisfactory, particularly if there are buildings nearby, as one can never tell in what direction the stack may fall.

One of the most delicate operations on which Mr. Campbell was ever engaged was that of straightening an eighty feet chimney stack which was fully two feet off the perpendicular. Favored with propitious weather, Mr. Campbell and two fellow workers completed the job in three weeks thus accomplishing a piece of surgery on bricks and mortar which was unique in many ways.

Mr. Campbell besides winning distinction in his trade, achieved considerable publicity through his skill as a clog and stepdancer and in his younger days appeared as a professional in many music halls in Great Britain. He came to Canada over a year ago.

Cuticura Comforts Tender Aching Irritated Feet

Bathe the feet for several minutes with Cuticura Soap and warm water, then follow with a light application of Cuticura Ointment, gently rubbed in. This treatment is most successful in relieving and comforting tired, hot, aching, burning feet.

Sample Each Free by Mail. Address Canadian Depot: "Potter-Icon, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c.

Cuticura Shaving Stick 25c.

HAVELOCK LODGE HOLDS DECORATION

Good Turn Out of Oddfellows for Annual Memorial Service.

HAVELOCK, July 12.—Sunday was the annual Decoration Day of the Havelock Lodge I.O.O.F., when they paraded from their lodge room to Maple Grove cemetery to decorate the graves of their departed brethren. The Marmora. Communitey Band headed the procession and the members of the I.O.O.F. had with them visiting brethren from Marmora and Campbellford. Cars conveyed the members of the Dorcas Rebekah Lodge to the cemetery where they joined in the procession and assisted in the ceremony by decorating the graves of their departed sisters.

A large crowd assembled in the grounds for the service which was very beautiful and appropriate to the occasion. The band led the service of praise and the hymns sung were "Abide With Me", "O God Our Help in Ages Past" and "Blest Be the Tie That Binds." A quartette, "The Soldiers Rest" was rendered by Messrs. R. Campney, G. W. Chiles, Wallace Denike, and V. J. McBurney.

The following graves were decorated: Mrs. J. Frost, Mrs. J. McKay, Mrs. J. Barlow, Mrs. P. J. Hill, Arthur V. Fuller, Stephen B. Clark, George McMillan, Robert Beatty, Milton Neal, Henry Kelsh, Herbert P. Quackenbush, Albert T. Cousens, Jesse Campney, Samuel J. Higley, William Leng, J. V. A. Coon, Orville Parcels, John Thompson, Charles Warren, Garnet Barlow, Robert Bannon.

Deceased brethren of other lodges: Elmo Patterson, P. J. Hill, Almore Haig. Buried overseas: W. A. McMullen.

After the decoration service an address was given by Rev. G. E. Lougheed, B.A., who was wearing a veteran's jewel of the Order. In his address which was an inspiration to the members of the Order Mr. Lougheed said in part: "My first word is to congratulate you for all you have done and for all you are doing and I am proud of the Oddfellows as a Society and proud of the lodge in Havelock in that you have so well organized yourselves. The work you are doing is an inspiration to others to come and join your Order."

In referring to the three links F.L.T. in the chain of Oddfellowship, Mr. Lougheed said: "After an occasion like this we must have greater friendship and greater love for each other. There is such great room for us to be more friendly and for greater love and I commend you in this work of friendship and love which is fulfilling the law of Christ."

In emphasizing what had been done the speaker gave the following quotation from Abraham Lincoln. On the field of Gettsyburg Lincoln said: "We cannot dedicate, we cannot consecrate, we cannot hallow this ground. The brave men who have struggled here have consecrated it far above our power to add or detract. It is for us, the living, rather to be dedicated here to the unfinished work which they have so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us that from these honored dead we take increased devotion to that cause for which they gave their best, fullest measure."

"We are on the battlefield of life," Mr. Lougheed said, "and the work of those who have passed beyond has fallen on you."

He concluded by thanking the Order for the honor of addressing them and wished them prosperity in their work here and over all the Dominion.

~his liver ~the organ that made him a quitter

—Sluggish liver is not a light matter. How many tragedies of home and business life can be traced to Auto-intoxication (self-poisoning), Biliousness and Constipation, so common in these days of haste and improper diet, especially where people work indoors!

To correct these ailments and restore the stomach, liver and intestines to healthy activity, take one or two of Dr. Norvall's Stomach and Tonic Tablets at bedtime. They will give you speedy relief and tone up the system in general.

Price 25 Cents for 60 doses. Ask your dealer and if he does not keep them in stock, write direct to us and we will mail them Postage Prepaid to any part of Canada at 25 Cents a bottle, 5 bottles for $1. Insist upon getting

Dr. Norvall's Stomach and Tonic Tablets

REPORT CHIANG IS ALLIED WITH PEKING FORCES

Agreement Made To Withdraw From Shantung To Attack Hankow.

VICTORY FOR NORTH?

White Russian Mercenaries Said To Have Captured Hsuchow Fu.

LONDON, July 12.—(United Press.)—Conflicting reports of activities in the Chinese war reached London in newspaper despatches yesterday. The Tienstin correspondent of the Daily Express quoted authorative Chinese sources as declaring that the Peking government had reached an agreement with Chiang Kia-Shek, moderate Nationalist leader whereby Chiang would withdraw his invasion from Shantung province in order to attack the radical Nationalists at Hankow, their capital.

Chiang's toorps, it was added, had practically evacuated Shantung.

It was also declared that the northerners had recaptured Hsuchow Fu from the Nationalists, and that motored cars manned by White Russan mercenaries, under the Northern General Chang Ching Chang had entered the city.

SWAIN FAMILY HOLDS REUNION

Many Members Gather at Burketon for Annual Picnic Meeting.

SOME FROM CAVAN

CAVAN, July. — The fourth annual gathering of the Swains was held at the home of Mr. and Mrs. Arthur Vancamp of Burketon on Thursday last. The weather was very unfavorable the first part of the day but it did not prevent a large number from being present.

Amongst those who attended were Mr. and Mrs. James Douglas Mr. and Mrs. William Tinney, Mrs. Margaret Staples, Mr. and Mrs. Robert Hooton, Mr. and Mrs. J. C. Swain, Helen and Fred, Harry McArthur, Manson Cathcart, Miss Audrey Cathcart, and Miss Minona Cathcart, all of Cavan; W. J. Swain, of Grand View, Man. Miss Jennie Swain of Lindsay; Mrs. William Breen of Ingersoll; Will Clark of Banner; Stephen Dundas of Ingersoll; Mrs. Will Ruddick of Ingersoll; Mr. and Mrs. F. Werry of Enniskillen. Mr. and Mrs. William VanCamp and family of Blackstock; Mr. and Mrs. Stanford Swan of Burketon, Mrs. Milton Sanderson of Birch Cliff; W. Swain and H. VanCamp of Timmins, besides some fifty more from other points.

BURNBRAE NEWS

BURNBRAE, July 12. — Rev D. A. and Mrs. McKenzei, and Mrs. Johnston, visited frineds in Cobourg this week.

Mr. Rockwell of Chicago is visiting his mother.

Mr. Stewart of Guelph, was a recent visitor at the home of W. A. Milne.

Mr. and Mrs. Morrison of Deloraine, Manitoba, were the guests of Mr. and Mrs. John Oddie last week.

The Mission Band met on Friday, at the home of W. H. Little. There was a splendid missionary programme and refreshments were served.

The Ladies' Aid Society of St. Andrew's Church met last Thursday at the home of John Little. Over forty were present There was an excellent programme of music and readings. Dainty refcreshments were served and a pleasant social hour was spent.

Arrangements were made for the annual garden party which will be held on Thursday, August 4th, on the public school grounds

Pa Buzz picks a nice camping place

FLIES and mosquitoes—a nuisance in camp or at home! Kill them at once, with Flit.

Flit spray clears the house in a few minutes of disease-bearing flies, mosquitoes, bed bugs, roaches, ants and fleas. It searches out the cracks where insects hide and breed, destroying their eggs.

Flit kills moths and their larvae which eat holes. It will save your clothing, furs and rugs. Clean and easy to use. Will not stain.

Flit is the result of exhaustive laboratory research. It has replaced old ineffective methods. Fatal to insects but harmless to mankind. Recommended by Health Officials. Buy Flit and Flit sprayer today. For sale everywhere.

Bethany and Raybestos Tied 3-3 in League Fixture

RAYS OUTHIT BY VISITORS

Staples Turns in Nice Twirling Performance—Tight in Pinches.

MASTERSON GOOD.

Bethany and Raybestos failed to reach a decision in their game at Exhibition Park last evening, the score reading 3 to 3 at the end of seven frames of mighty interesting baseball. The visitors outhit the Rays and were just as good on the defense, Staples turning in a nice twirling performance. He was good in the pinches and got out of a large size hole in the second when, with none out and the bases loaded, he retired the homesters without a run.

Masterson put over his best pitching since joining Raybestos, and he was given fine support by Second Baseman Hillier, who accepted seven chances without a slip, and also hit for a perfect batting average.

Snappy fielding by Jack Baird and Hillier disposed of Bethany in the first, Reynolds getting the only base on his single to middle.

Raybestos scored in their half. After two were gone, Hillier doubled to middle, made third, and tallied when a wide pitch went through Reynolds.

Hillier and Oscar Nicholls retired Bethany in the second.

Staples refused to back down when Baird's single and two passes filled the bags. He handled Johnston's tap to the box and caught Baird at the plate. He repeated on Masterson's roller and stopped Maudsley. He then fanned Rogers.

Bethany tied it up in the third. McGill singled to left, only to be forced by Dawe. The latter was neatly sacrificed by G. Staples and hit home by Reynolds.

Rays forged ahead in their half. Nicholls was safe when the shortstop booted a grounder. Hillier singled into left and Harry Corrin looped one back of second to score Nicholls. Baird flew out to first and Maudsley grounded out Staples to Dawe. Hillier was caught between third and home and was finally tagged by Reynolds.

A lone single by Ryley was Bethany's best in the fourth. Reybestos went out in a row.

Bethany retired in order in the fifth and Raybestos lost a chance when Hillier, who had singled and had stolen second, was caught off the bag on a nice play by the pitcher to G. Staples.

The sixth saw Bethany take the lead. Reynolds scratched a hit and made second when the ball got away from Johnston. Price fouled out to Rogers, but R. Staples singled to short centre. Prospects looked good with Ryley at bat but he sent a fly to Nicholls. Heaslip, however, produced the necessary with his drive into left to score Reynolds and Staples. Tom Staples go on through an interference by the catcher, and McGill fanned.

A timely single by Conners saved the day for Raybestos. Corrin fouled out to Reynolds. Baird's grounder went through McGill and he stole. Maudsley fanned. Conners hit, Baird home and Johnston fanned.

Masterson fanned the side in the seventh, after Jimmie Johnston dropped a throw off Dawe's grounder to Hillier.

Staples also made quick work of the Rays. He struck out Masterson and Rogers and took Nicholls' short fly.

Pugilists Training For Elimination Bout

NEW YORK, N.Y., July 12—(Canadian Press).—Jack Dempsey and Jack Sharkey who will mingle it on July 21, the second in the hope of crashing the former heavyweight champion, the first in the hope of crushing the most noteworthy aspirant for heavyweight bays, were not at it yesterday. Both pugilists knocked a couple of men down.

Sharkey cut loose with some nifty tricks and greatly distressed Johnny Urban, Pittsburgh light-heavy, and Leo. Gates, a Mohawk Indian.

Dempsey working out furiously at Saratoga Lake, knocked out an Indian named Chief Metoquah and technically knocked out Marty Gallagher of Washington, D.C. Dempsey showed small mercy on the boys who were feeble at the end of their two rounds with the ex-champion.

SWIMMING SIMPLIFIED

LEARN TO FLOAT ON WATER IN STARTING TO SWIM
By James A. Lee.

Showing how to practise gliding. The photograph at top shows the correct form in gliding, and the photograph on the side shows the position to take to shove off.

The first step in swimming, gliding motionless on the surface in prone position, teaches the correct position for swimming the crawl.

Stand with back to any upright surface which affords a resting place for one foot. Bend one leg at knee, resting other at pool side. Stoop forward from the waist, head hear surface with arms thrust forward at water level, palms down and hands touching.

As a deep breath is taken, push off with upraised foot and stretch to full length. The body should form a straight line from fingers to toes.

Hold this as long as possible. If you need air or start to sink, lift the head, press downward with both arms and lower one leg like you were stepping forward.

The push should result in a glide of several yards.

After a few glides, try moving the legs up and down alternately so that as one rises the other drops. Keep legs straight but relaxed. Keep feet pointed pigeon-toed. Make movements rather fast, in an easy thrash. Don't let the feet lift the water.

When you perfect the leg movements, try the arms. Thrash them forward.

Don't try to do too much at first, but perfection of this exercise, although one may not realize it, should result in the ability to swim a few yards after the first lesson.

TO-MORROW: Arms in Crawl Stroke.

YANKS GAIN EVEN BREAK

Defeat Tigers 8-5 in Final Game —29th Homer for Gehrig.

SENATORS WIN 3-2

NEW YORK, July 12.—(Canadian Press).—The Yankees gained an even break in their Detroit series by winning the final game yesterday by 8 to 5. Lou Gehrig made his 29th home run of the season off Stoner with none on base in the seventh and went into another tie with his Yankee teammate, Babe Ruth. Pat Collins, Yankee catcher, hit for the circuit in the fifth. The League leaders did most of their scoring in the sixth when Ruth walked, Gehrig doubled and a series of singles followed.

Bucky Harris, Washington manager stole home in the tenth inning of yesterday's game at Cleveland with the run that gave the Senators a three to two victory over Cleveland thus making it six straight from the Indians. Washington bunched hits in the first inning to score two runs off Buckeye, but Cleveland tied it in the seventh. In the tenth Harris singled with one out and Speaker walked. Goslin flied to right which sent Harris to third. With Judge at bat Speaker dashed toward second and Grant, forgetting all about Harris threw to second to head off Speaker and Harris scored without opposition.

Daring base running by Bill Barrett enabled Chicago to defeat Boston 7 to 6, taking three out of the five game Chicago series. After the locals had taken an early lead, the Red Sox bunched hits and drove Blankenship off the hill in the eighth inning whereupon Jacobs forced in the tying run. After two were out in the ninth Barrett singled and stole second. Hoffman's throw was wide and Barrett went to third and scored when Flagstead fumbled the ball in centre field.

The Philadelphia Athletics found Vangilder for fourteen hits yesterday and won at St. Louis 7 to 6 to take three out of four games of the series. Cobb got three safeties, including a homer with a man on. The Browns knocked Quinn out of the box by scoring four runs in the second inning.

CAMPBELLFORD BEATS COBOURG

Wins Four Out of Seven Events in League Match.

IN TENNIS LEAGUE.

The following are the results of games at Campbellford in the Central Ontario Lawn Tennis Association:

Men's Singles — C. Weston vs. M. Chilton, 6-2, 6-1. Event for Campbellford.

H. Free vs McCook Miller, 3-6, 7-5, 6-3. Event for Campbellford.

Men's Doubles — W. Henson and C. Watt vs. Dr. F. Drewry and D. Parker, 3-6, 3-6. Event for Cobourg.

Ladies' Singles — Miss J. Weston vs. Miss M. Hayden, 7-5, 6-1. Event for Campbellford.

Ladies' Doubles — Miss E. Ferris and Miss Irene Davidson vs. D. Crozier and Miss V. Chelton, 2-6, 1-6. Event for Cobourg.

Mixed Doubles — H. Beatty and Miss L. Smith vs. Dr. Jamieson and Mrs. Jamieson, 1-6, 2-6. Event for Cobourg.

Mixed Doubles — J. H. Bell and Miss V. Shore vs. E. Butler and Miss E. Wilmott, 6-4, 1-6, 6-3. Event for Campbellford.

Campbellford won four out of seven events, making 17 out of a possible 21 out of three games played.

FRENCH GOLFER LEADS IN PLAY

Crowning Achievement of Day in British Open Golf Championship.

MELHORN HAS 73

ST. ANDREW'S Scotland, July 12.—(Canadian Press).—The crowning achievement of the day, which was crowded with incident, was the young French professional's great round and Bill Mehorn's 73, which gained them the respective leaderships of the old and new course contingents. Golias holed his mashie shot for a three at the third and thereafter played superably until the ninth when he took three putts. He was out in 34, however. He took six at the 14th and found his only bunker of the round at the 16th. He is 29 years old and assistant to Arnaud Massy, of Paris.

Among the tragedies of the day was a nine by Percy Allis, who, when he was two under fours at the 15th, put two shots out of bounds on the next hole.

Britishers in Danger.

Many well-known Britishers are in the danger zone as a result of their scores yesterday. Arthur Havers and George Duncan, with 81 and 80 respectively, will probably not qualify unless they are favored by better weather today and turn in cards low enough to balance their rather high efforts yesterday. The old school did well, J. Braid getting a 76 and J. H. Taylor and Harry Vardon 75 and 77 respectively. Doctor Tweddell, the amateur champion, and Storey, the internationalist, were the best of the amateurs, but Roger Wethered's 82 requires some wonderful golf today to qualify.

Scores of leading Britishers on the old course were:

C. Cadd, Brancepeth Castle, 72 Nolan, Port Marnock, Ballantyne, Sherwood Forest, 73; Robert Harris, Percy Boomer, Sanderson, of Bradford, Brambridge, of Grimsby, Jarman, of Ravensworth, 75; Len Holland, Gerrard's Cross, Van Dyk, Holland, 76; W. Torrance, Edinburgh, John Caven, Cochrane Castle, Soulby, Belfast, 77; George Gadd, Roehampton, Fred Robson, Goodenbeach, 78; Sandy Herd, 79; Percy Allis, formerly of Wanstead and now of Berlin, 80; Len Nettlefold, Australian champion, 80; R. Whitcomb, James Sockenden, 81.

Scores on the new course were: Frostick, St. George's Hill H. Jolly, Foxgrove, T. Barber, Buxton, T. Cotton, Langley Park, Storey, 76; Vickers, Heswall, A. Thomson, unattached, Tweddle, Stourbridge, 76; Perkins, 77; Mark Seymour, St. Leonard's, Jack Smith, Wentworth, 81; Gordon Lockhart, Gleneagles, 83.

Saturday's fixture is the semi-final of the G. N. Gordon soccer cup between the Quakers and the Thistle at King Edward Park. Kick-off at 3 o'clock. These two teams met last season in the final of this competition but failed to declare a winner. Whoever wins this game will play the Masseys in the final. John Warde will referee.

In another two weeks, the real battle will take place between the League leaders, Masseys and the Quaker Oats, who intend gaining two points, which will make the League standing on an even basis, thereby compelling the Masseys and Thistle play for the championship; if the Quakers fail to win, then the Masseys get the silverware.

An interesting visitor at a recent game was Bert Mason, who played left full back for the fast moving C.G.E. team a few years ago. He has given up the pastime now, owing to an injury, but he renewed many acquaintances.

Recently, in a soccer game in the city, we overheard a spectator commenting on an offside decision. He rightly stated that an attacking player exactly alongside, say, an opposing back, with the goalkeeper the only other player between them and the goal-line, is offside; and so he is, because only the goalkeeper (one player) is nearer the goal-line, and the law says: Two players must be nearer the goal-line to make the attacking player on-side. If the defending back is exactly alongside the attacking forward, then the former is not nearer the goal-line than the latter, and the latter is off-side.

Soccer fans will be interested to know that Hugh Richmond, the most prolific goal-scorer in the City League two years ago, occupied the outside-right position of the Timmins eleven against the touring Scots.

Question: What is a linesman's position when running the touch line? —Laws.

Referee's chart reads: The linesman should point with his flag to the place where the ball went into touch. . . . Let the linesman give his decision. All the claiming will not alter it, unless the referee shall see fit to interfere.

Civilized life reached its first stages in 5000 B.C., soon after the disappearance of the Ice Age.

Only one person was killed by accidents to trains on railways in Great Britain during 1925.

Andrew Kay, pro of Lambton Golf Club, Toronto, who was expected to annex third place in the game against the British Ryder team at Montreal, was done out of the bulk of his prize money by a golf rule, under which he was disqualified for searching more than five minutes for a lost ball at the eleventh hole. The decision of the R.C.G.A. committee to enforce the ruling has caused a great deal of discussion in golf circles.

HYDRO BEATS MILL 26 TO 10

Takes Big Lead in First Inning, Increasing It Through Game.

MILL OUT OF RUNNING.

CAMPBELLFORD, July 12.—Another defeat for the Mill marked the Hydro vs. Mill softball game last night. With the first inning ending 10-4 in favor of the Hydro players, it was uphill work for the Mill to make a fair showing, although they tried hard to do so; the best they could do, however, was only 10 runs to the Hydro's 26. Although the Mill's number is up at the League headquarters, they keep right on playing the game—just to show that they are good sports.

The line-up last night was as follows:

Hydro—Saunders, c.; Johnston, p.; DeCarrol, 1b.; Cowell, 2b.; Watt, 3b.; Tinney, s.s.; Long, r.f.; Free, c.f.; Adamson, l.f.

Mill—Reid, c.; Boudouin, p.; Montgomery, 1b.; Cochrane, 2b.; Runions, 3b.; Blake, s.s.; Bell, r.f.; Stalker, c.f.; Booth, l.f.

Score by innings:
Hydro.... .. ..10 01042270—26
Mill.... .. .. 4 10003002—10

Umpires—Ibey at the plate; Massie on the bases.

Subsidies will be granted to heads of families in Spain who have eight or more children dependent upon them. There are in Italy 10,000 families with ten children or more each.

LEAFS TROUNCE ORIOLES 15 TO 5

Alexander Banished and Fined $50 by President Solman.

BIRDS MAKE ERRORS

TORONTO, July 12.—The Leafs made it three straight from Baltimore yesterday batting Beard and Henderson hard and getting the decision in the easiest style imaginable by a score of 15 to 5. In rolling up the fifth in a row O'Hara's crew played an inspired brand of ball, Spencer tripling with the bases full and Styles driving to deep left also with the corner clogged. The most resplendent clout of the day, however, was Hargrave's line drive over the right field fence deep down with the bases filled. The Birds quit under punishment and the last few frames were colorless. Alexander was banished for throwing his bat into the stand when he was the victim of a bad guess on a third strike. President Solman fined him $50 for his offense.

The Bisons extended their winning streak to seven straight at Buffalo when they crushed the Reading aces under a ten to nothing score. Andy Cohen led the attack with a home run over the left field fence in the sixth inning, driving in two ahead of him. "Lefty" Proffitt afforded one of his best pitching performances of the season, yielding only five well-scattered hits.

Newark defeated the Stars at Syracuse by a score to 12 to 3 in the fourth game of the series. The game was called in the eighth on account of a thundershower, and later resumed. Syracuse made a belated spurt in their half of the ninth but it was cut short. Williamson and Peel hit hard for the Stars, the former making two home runs.

Jersey City-Rochester postponed, rain.

SPOOK DRIVES CAR.

AUBURN, N.Y., July 12.—The story of the "Legend of Sleepy Hollow" is being re-enacted here in modern dress. A driverless roadster has been reported to police by many motorists. They say the car tears over the highways with its lights on, its horn blowing, but apparently with

Mosquito bites can be treated with tincture of iodine, a weak solution of ammonia, or iodine and glycerine mixed.

TAKE OPENER FROM PHILLIES

Cardinals Gain Half a Game on Leaders by 7 to 0 Triumph.

GAME POSTPONED

NEW YORK, July 12.—(Canadian Press).—The St. Louis Cardinals gained a half game on the idle Pirates and Cubs yesterday by opening a series at Philadelphia with a 7-0 triumph over the Phillies.

The Chicago-Boston game, the only other schedule contest, was postponed on account of rain.

Grover Cleveland Alexander blanked the Phillies with four widely scattered hits and did not permit a man to advance beyond third base.

Frankie Frisch, leading base stealer of the National League increased his total for the season to 25 by twice stealing second base. Heinie Schuble, the Cards' new shortstop, starred in the field by accepting eleven chances without an error.

28 Miles at the Twin Cities

Port Arthur and Fort William—head of the lakes—the spout through which pours the wheat from the West—greatest grain ports of the world. Over $60,000,000 invested in grain elevators. Over 28 miles of grain elevator belts. And every dollar of that investment depends on the belts to keep earning. No wonder the belts are chosen with care. No wonder Goodyear is proud that many miles of this belting are Goodyear Belting.

Belts to Keep Canada's Life-Blood Flowing

CANADA'S *life-blood* is grain. Our people depend on it for prosperity. It must move steadily from our golden farms to the markets of the world. It must be handled and stored at grain elevators.

And vital to grain elevator operation is belting—such as Goodyear builds. Elevator belts are the arteries along which grain flows. If the belt stops, the grain stops. Millions of bushels slow down. Millions of dollars worth of plant lie idle.

What a sweeping endorsement for Goodyear, then, is the fact that time and again where you find a giant grain elevator, there you find Goodyear Grain Elevator Belts. Just as in every other industry, where belt reliability, efficiency and lowest last cost are vital, Goodyear is chosen.

And the answer is not far to seek. *Goodyear Belts are always designed for the job they must handle. They are belt-users' belts—not belt-makers' belts. They are not made the easiest way, but the way you need them made.*

Whatever your belt need—from 6" to 60"—transmission, conveyor, elevator—*ask Goodyear.* Ask the nearest Goodyear Industrial Goods Dealer or the nearest Goodyear Branch to send a man.

LOCK WORKS STARTS BASEBALL LEAGUE

Assemblers Defeat Fitters in First Game of the Schedule.

The Inter-shop League of the Peterborough Lock Works started its schedule games last night at James Stevenson Park, the Assemblers defeating the Lock Fitters by 9 runs to 5. Gordon Connors pitched for the Assemblers, Morrocco catching. Guerin pitched for the Lock Fitters, with Collins catching. Umpires were Shannon and Brady. President Charles Westbrook promises the baseball fans that some very good games will be played in this league, and hope the fans will turn out to encourage these boys. A schedule is being drawn up and the next game will probably be on Friday, July 15, at 6 p.m. sharp.

Thursday Half-Holiday

DURING

July and August

There will be no deliveries of Bread on Thursday afternoons except when Thursday is preceded by a public holiday.

FIRST HOLIDAY, THURSDAY, JULY 7TH

We trust all our customers will co-operate with us in order to give our salesmen the half holiday.
Those desiring bread may obtain it at the bakery at any time.

DELORO COMING SATURDAY FOR A GAME HERE

Intermediate Champs Will Meet Senior Petes in Great Battle.

VISITORS STRONG.

But Petes Are Confident of Taking Them Into Camp Here.

The Deloro team, Intermediate champions of Ontario, and at present leading the Bay of Quinte League, will be here on Saturday to battle with the Petes at James Stevenson Park. A week or so ago the Deloro outfit beat Manager Swanston's team 9 to 5 at Deloro, and they expect to repeat on Saturday. They will find the Petes a different looking outfit on this occasion. The home crew are determined to take a fall out of the cocky smelters, and from the way they performed against Oshawa they should be able to turn the trick. It will, however, be a great battle, and should provide the fans with an interesting afternoon's sport.

OTTAWA MAN WINS TROPHY

Fires 18 Consecutive Bullseyes in Times Shot-off at Bisley.

DEFEATS FULTON.

BISLEY CAMP, Eng., July 12. — (Canadian Press).—In one of the finest tie shoot-offs ever witnessed on the old Bisley ranges, Lieut. K. R. McGregor, Ottawa, won the Times silver trophy to-day. He fired against Sgt. A. G. Fulton, King's prize-winner of last year, A. Cooks, London, and Sgt. Major Hawkins of the Scots Guards. Cooks and Hawkins dropped out early, but McGregor and Fulton kept steadily plugging in bull's eyes until seventeen had been shot consecutively. Then Fulton dropped his bullet to the inner, leaving McGregor with the trophy and the National Rifle Association gold badge.

STUDENT SHOWS RECORD SPEED

Business College Boy Writes 62 Words a Minute Without an Error.

A sample of what application and correct methods can achieve, has just been demonstrated by a pupil of Peterborough Business College. George Lang, of Fraserville, started in as a student of that institution just eight months ago. The other day he made a record of 62 words a minute on a typewriter for fifteen minutes without a miss-struck key. Allowing for words of an average of five letters, and spaces between, this was at the rate of 6 strokes every second. As this speed was kept up for fifteen minutes, without a single error, it stands as one of the best records yet made by a Peterborough Business College student.

In speaking of this case, Mr. McKone, principal of the College, said that Mr. Lang has made remarkable progress in the comparatively short time of eight months, and if he followed it up would undoubtedly develop into a high-class expert.

LAWN BOWLING

The following games are scheduled for to-night:

Chenhall vs. French.
Martin vs. Freeman.
Cairns vs. Allan.
Taylor vs. Bennett.
Curvin vs. Sedgewick.

Results of games played last night:
Bacon 16, Cairns 15.
Sedgewick 15, Wyllie 10.

REGINA JUNIORS HERE MONDAY

Manager Jack Deannard's Kiwanis Juniors will get a real test of their ability on Monday next at James Stevenson Park, when the touring Regina Juniors will be here. The Regina team is making its second tour of the East, and has been creating a very favourable impression. The admirers of the Regina club claim it to be the strongest junior aggregation in the Dominion, but the local Kiwanis players are quite confident they can take the visitors. It should be a great game.

Dempsey Ducked At Swimming Race

HAGUE, LAKE GEORGE, N.Y. July 12.—(Canadian Press.)—Jack Dempsey, heavyweight boxer, had a ducking to-day when a section of a platform on which he was standing collapsed, dropping about a hundred persons into two feet of water. Dempsey started the marathon swim here to-day. There were one hundred and forty-nine entries who started a twenty-four mile grind for a ten thousand dollar prize.

HERE'S TO YOUR HEALTH

BY DR. FRANK McCOY

The Fast Way to Health

©1926 McCOY HEALTH SERVICE - LOS ANGELES - CAL.

STRENGTH FROM WALKING.

Those who are longing for more strength often overlook the fact that real endurance can only come from the use of exercises which build vitality through a systematic repetition of such exercises. Occasionally lifting a heavy weight may demonstrate the large size of a muscle, but the size is no indication of the endurance of that muscle. Many people are born with a tendency to grow large muscles, but frequently these same persons do not possess vitality of a sustaining nature.

Professional athletes soon learn that general bodily endurance is the thing to be desired, even above proficiency in the art or science of sport, itself. How often you have read of some promising athlete who died suddenly of an acute disorder. This is because he neglected to develop lasting endurance. All athletes must discover the indispensable need for continued endurance if they aspire to the championship class.

It is advisable for everyone to become interested in some branch of athletics —to encourage in themselves a desire to succeed in gaining physical victories and, at the same time, receive the benefit from such exercise in the building of vim, vigor and vitality. The complaint is too frequently made that one does not have the time. This objection is a ridiculous one, for an hour a day given over to physical culture will add many years to anyone's life and, consequently, give him much greater returns in pleasure and profit over a long lifetime.

The best type of exercise to take is one which will increase endurance and be enjoyable at the same time. If only one hour a day can be spent in exercising, there is no kind of exercise which will be as pleasing and beneficial as walking. One can easily walk from three to four miles in an hour. There is something almost magical in the vitality which can be developed in an hour's walk.

Those who are not accustomed to walking for so long a period will do well to start with a fifteen minute walk the first day, and gradually increase the time and distance each day. A good plan is to take your walk shortly before dinner in the evening. Start with the fifteen minute walk the first day and increase the time only a minute daily no matter how much you feel like walking longer. If you follow this plan, you will never become exhausted from your walk and the increase in distance and time will be so gradual you will always be eager to walk further each day. Stick to the minute a day increase and in forty-five days you will be covering four miles, and feel full of "pep" at the finish.

After returning from the walk take a cold shower bath, relax for a few minutes, and then change to some fresh clothes before dinner. Try these suggestions if you have been enervated and all tired out recently. If you seem to be "all run down," the walking regime will "wind you up" in a short time. Don't just read what I am telling you and throw your paper down without determining to start to-morrow on the schedule I have outlined for you.

Questions and Answers.

Question: A. S. L. writes: "Please advise what treatment to use for broken capillaries on the face and neck. Skin very fine, without pimples or blackheads."

Answer: Twice daily treat the face by rubbing it with ice. Hold the ice for fifteen or twenty seconds over the place where the capillaries are broken, then move it to the next location, and so on, using about a five-minute treatment in all. The cold of the ice will strengthen the capillaries and make them grow smaller.

Question: Irene L. writes: "I am very interested in your writing and have subscribed to the paper so I will not miss any of them. May I ask you to explain the difference between rheumatism and neuritis?"

Answer: I consider the cause to be practically the same in rheumatism as in neuritis. With rheumatism, the toxemia locates in the muscles or joints, while in neuritis it gathers around the nerve trunks. The treatment in both these troubles consists in eliminating the toxemia responsible.

Question: Effie B. writes: "What kind of bread do you advise for Melba toast? And just how is it made?"

Answer: Slice white bread one quarter of an inch thick, allow to dry over night or even longer, and toast in a moderately hot oven, until golden brown all the way through. Butter at the table as eaten.

CYRIL TOLLEY TAKES LEAD

Former British Amateur Champion Leads in Golf Tournament.

AT ST. ANDREW'S.

ST. ANDREWS, Scotland, July 12. —(Canadian Press.)— Cyril Tolley, the former British amateur champion, was leading in the qualifying rounds in the British open championship with 144 this afternoon.

Bobby Jones shot a fine 71 to-day in his second qualifying round in defense of the British open golf championship. This equalled the lowest card turned in for the opening round yesterday.

Bill Mehlhorn soon after turned in 146 for two days' play, which was the leading United States' qualifying score.

Jim Barnes, of New Rochelle, N.Y., to-day led early as a qualifier in the British open golf championship with 153 for his two days' play.

BRITISH OFFICER IS REPRIEVED

Commander Was Killed For Good of Regiment Is Lieut. Duffield's Statement.

GIBRALTAR, July 12. Canadian Press. — Lieut. A. C. Duffield, who was sentenced to death last June for killing his commanding officer, Col. James Fitzgerald on April 7th, has been reprieved, it was officially stated here to-day.

At the hearing on April 7th, Lieut. Duffield entered a plea that he had killed the commanding officer for the good of the regiment.

"Since our arrival at Gibraltar," he said in a statement, "the commanding officer had given up all ideas of soldiering, and it is better that one man should die than a whole regiment be ruined."

SIXTY-TWO DEAD; MANY INJURED

As Result of Earthquake In Territory North of Jerusalem.

JERUSALEM, July 12. — Canadian Press. — The latest official reports from Naplus, which is 30 miles north of Jerusalem, give the earthquake casualties of 62 dead and 250 injured. At Pamleh, 12 persons were killed and 25 injured, while at Ludd 30 persons were killed and 70 injured.

A report from Nablus stated that most of the casualties took place when the bazaar collapsed. The work of recovering was begun immediately.

FILM IS MADE OF DELIVERIES

(Continued from page 1.)

The new system provided for an advance price equal to the local market prices, all the profits to be divided later. By December 31, membership had increased to forty-five, and eggs to the gross value of $4,899.59 had been sold. After paying the regular market prices as an advance, the Circle accumulated $661.47 in actual cash profits. This was given to the members, apportioned according to the number of dozens shipped by each.

While a great many of the members had been in various organizations in the past, this was their first experience in receiving actual cash dividends. Had all the forty-five members shared equal, the average profit would have been $14.70 for each. At different times during the season the receipts graded as high as 91 per cent. extras.

Steady Progress Made.

Steady progress is being made since reorganization. Several improvements have been made from time to time in order to minimize the work for members. The stamping system was changed for something far better and more effective. Just recently another improvement was introduced in the form of a supply of small egg crates for use in automobiles. Through the introduction of these, members are enabled to deliver their eggs without the former worry of blemishing valuable cars.

Everything is being done to make the system agreeable and profitable. As a result of the changed conditions there has been a gradual, healthy growth. The membership is now 150 and last year's gross turnover amounted to $19,581.88. The annual cash dividends during the past four years have ranged from $661.47 to $1,279.40.

It is doubtful if many producers realize what has been accomplished in building up a sound egg marketing business at Campbellford. There are still producers in the district who scarcely know of the existence of this Circle, much less of the system employed. There has never been any canvass for membership, nor should this be necessary. The Circle is owned and operated by the producers themselves and no extra expense in any way is attached to assistance and advice from Government officials. Neither is there any expense to the Circle for the educational film recently taken. Outside of the overhead expenses for management, the members receive every cent their eggs are sold for.

The Executive, while being very modest, has every reason for considerable pride. There is no secrecy whatever in connection with the system employed. Full information is available to any producer in the district at any time. If anything further in the way of improvement is to be found, it is safe to say that the English Line Circle will be among the first to find it out and adopt it.

Three distinct varities of British mosquitoes carry bacteria.

WOMAN THROWN THROUGH GLASS

Mrs. W. Anderson, of Smithfield, Hurt in Car Accident.

NEAR BELLEVILLE.

BELLEVILLE, Ont., July 12.—Mrs. William Andrews, of Smithfield, suffered very serious injuries on Foxboro Highway yesterday afternoon when she was hurled through the windshield of a car.

Rev. Mr. Glover of Smithfield was driving north and met Col. W. Marsh coming south. In the effort to avoid a collision both turned to the centre of the road and Mr. Glover's car was overturned. The Marsh car went into the ditch, Marsh suffering a slight concussion. Mrs. Andrews was riding in the front seat of Glover's car and her head was forced through the windshield. Her neck was cut. She was taken to the hospital.

PRICE SETTERS' PICNIC SUCCESS

First Annual Outing of C. G. E. Department Held on Saturday.

WATER SPORTS HELD

A very enjoyable outing was had, at the home of S. O. Shields at Clarady, on the Otonabee river by the Price Setting Department of the Canadian General Electric Company Limited. About thirty of the men with their wives and friends participated.

The water sports started promptly at two o'clock, consisting of:

Mixed swimming race for men, won by W. T. Fanjoy.

Mixed swimming race for women, won by Mrs. S. O. Shields.

Canoe race (paddling while amidship), won by S. O. Shields.

Canoe tilting, won by W. T. Fanjoy.

Canoe crab race (paddling while sitting astride the bow) won by H. F. Ryan.

Water race mixed double, won by (1) George H. Burchill (2) S. O. Shields.

Mrs. S. O. Shields, who has won many prizes in swimming in Winnipeg, gave an exhibition of swimming and diving, to the pleasure of all those present.

Those present enjoyed aquaplaning behind the "Harmony", owned by A. J. McLeish, "Kildona", owned by S. O. Shields, and "Marco Polo", owned by Rupert E. Knox.

Frank Merrett excelled in all of the water sports, particularly the canoe tilting in which he assisted in putting George Hillier in the water.

After partaking of a very fine spread, in the form of a strawberry social, put on by the ladies, and assisted by Mr. George Burchill, chef, the following land events were entered into by all:

Potato race, won by (1) Miss Muriel Dorris (2) Mr. Perry Edwards.

Soda biscuit eating contest, won by (1) Mrs. Harold Foster, (2) Miss Anna Simpson.

Three-legged race, won by (1) Tom Pacey and Miss Marjory Buyers, (2) William Stewart and Miss Marjory Evans.

Obstacle race, won by (1) Mrs. Ernie Hubel (2) Mr. H. F. Ryan.

Doughnut eating race, won by (1) Miss Margaret Buyers, (2) Mrs. Tom Pacey.

This race was one of the most contested events of the whole day, and it took two dozen doughnuts to decide the winners for first and second place.

Peanut race, won by (1) Miss Winnie Melton (2) Miss Grace Griffin.

Ladies' ball throwing contest, won by (1) Miss Anna Simpsom, (2) Mrs. W. T. Fanjoy.

Men's nail driving contest, won by Mr. Ernie Hubel, engineer of the "Marco Pola", who has had some very valuable experience the last three months.

Official starter and judges of the events, S. O. Shields, and R. E. Knox.

The prizes were distributed by Mr. Harold Foster, and Mr. W. Meagher.

The committee in charge of the affairs:

Finance—George Hillier.
Publicity—Perry Edwards.
Refreshments—Miss Margaret Buyers, and Miss Muriel Dorris.

After singing God Save the King everyone adjourned until next year, as they intend to make this an annual affair.

The Price Setting Department was organized August 1926, by R. E. Knox, efficiency engineer, and has taken an active part in all sports, and has representatives on all the teams in the Engineering League.

OTTAWA SKIP WINS TROPHY

Defeats Kingston Quartette in Finals at Bowling Tournament.

16 RINKS ENTER.

KINGSTON, Ont., July 12. Canadian Press. — Skip A. E. Hurd of Ottawa, won the Kingston Confederation Jubilee trophy, at the tournament at Queen's bowling club last night, defeating Skip J. F. McMillan of Kingston, in the finals by 24 to 5. The first day of the tourney saw six Ottawa rinks, one Belleville, one Brockville and about ten Kingston rinks entered.

Theatres

AT THE REGENT.

"EASY PICKINGS" IS TENSE MYSTERY.

Anna Q. Nilsson and Kenneth Harlan Head Cast in Gripping Drama Due at the Regent

Do you like mystery? Does your spine tingle deliciously as trap doors creak and strange figures steal through the gloom?

If you do you will be thrilled by "Easy Pickings," First National's new mystery drama, coming to the Regent Theatre to-morrow.

Anna Q Nilsson is featured and there is romance and comedy as well as mystery in this picture which Geo. Archainbaud directed and which was produced under the management of Frank Griffin.

The plot centres about an eccentric man of wealth who is slain. Strange manifestations in the old home of the deceased supply plenty of excitement. The heroine poses as an heiress. Part of the time she is disguised as a boy. There's love interest, and Zack Williams as the colored servant supplies much merriment.

In the same cast are such favorites as Kenneth Harlan, Philo McCollough Charles Sellon, Billy Bevan, Zack Williams and Gertrude Howard.

Napoleon House, in New Orleans, to which friends of the famous general planned to take him after effecting his rescue from St. Helena, is offered for sale. Napoleon died before the rescue could be accomplished.

Golfer Hits Stone, Breaking His Wrist

STAMFORD, Conn., July 12. — United Press. — John O. Brotherhood, playing an iron shot on the New Canaan country club golf course struck a hidden rock with his club and the impact broke his wrist.

Smoother and Better than Ever!

Jhurning the Breath

1927 by NEA Service — by Ben Lucien Burman

(Continued from yesterday.)

THIS HAS HAPPENED

Attempts have been made on the life of ELISE MARBERRY, an American girl owning considerable property near the little town of PORTO VERDE, in west central Brazil. Several mysterious deaths have occurred, but so far she has escaped harm, due to the shrewdness of her cousin and protector, VILAK, a curious mixture of American and Oriental blood and a student of criminology.

Vilak has been trying to persuade Elise to leave Porto Verde, letting him stay behind with his friend, LINCOLN NUNNALLY, an elderly American chemist, to solve the mystery. She finally agrees, but her departure is prevented by threat of floods. Messengers ride through the country-side warning the natives. Vilak suggests they go to the house of GAYLORD PRENTISS, a recluse and a forbidding man and an enemy of Elise's, whom she suspects of a knowledge of the conspiracy against her. She agrees it is their duty.

Vilak learns the flood warning is a ruse to get Prentiss out of his house and so informs him. The party is besieged by an armed force in a stone tower next to Prentiss' house. Vilak disperses the enemy by dynamiting a dam and causing a real flood. When the water recedes they discover Prentiss is gone.

The next day, TINKY, Elise's two-year-old orphaned nephew, is kidnaped for the second time. A native reports Prentiss has been seen with a baby. The trail leads into the jungle and, with native trackers, they pursue. Calamity overtakes them. Some of their reliable natives are hurt and two of their white friends are fever victims. Treachery exists in their ranks.

Nunnally, Elise and Vilak finally emerge from the jungle and presently come to the outskirts of a strange settlement, looking from a distance like the ruins of an Inca city. As they approach the town they are overcome by gas, evidently released on them by hidden watchers.

NOW BEGIN THE STORY

CHAPTER XXXIX.

When Vilak recovered consciousness he was lying on the floor of a narrow stone-walled room, bare of furniture. As his brain quickly cleared, he attempted to rise. The effort was futile; he was bound head and foot with heavy leather thongs.

But the movement had caused him to turn his head and he saw that he was not alone in the stony chamber. Nunnally, also trussed up in a similar fashion, lay on his back a few feet away. Elise, however, was not to be seen.

After a glance at the old man, which showed that he was still unconscious, Vilak rolled to one of the narrow slits built in the wall to serve as windows and looked out.

From the rows of adobe-and straw huts which he could see stretching out below, he concluded that he was on a corner of the artificial mound he had noticed from the mountain. A stone path ran by his windows. On it he could see no one. But at the base of the mound, fifty or sixty feet below him, ran a broad highway, and this was swarming with life.

It was a life little different in essentials from that of which he had been a part at Porto Verde, he reflected, as he saw oxen dragging creaking carts, naked children tormenting howling dogs, and two women arguing passionately over a broken water-jar.

Most of the inhabitants were dressed in the same fashion as the wilder Indians near Porto Verde, the men with breech clouts at their waists, and a rounded stick or stone in their ears, the women naked or with a short cloth apron.

Though at the distance it was rather difficult even for Vilak's keen eyes to make out the exact color of their skins, they seemed to range in shade from the red-brown of the American aborigines to the shining black of the negro laborers on Elise's fazenda. Only one stood out by the brilliancy and picturesqueness of his costume. He was obviously a priest, for the swarming women and children made haste to clear a way for him when they passed. Round his otherwise unclothed body he wore a girdle of brilliantly dyed cloth; on his head was a circle of green parrot feathers.

A slight murmur from the direction where the old man was lying caused Vilak to turn his head quickly. Nunnally had awakened.

"Well, they've caught us all right," Vilak grunted, when the other's bewilderment at his new surroundings had ceased. "One of your nice sulphur compounds did it. Considerate of them not to let us lie there until we strangled to death, at least. Wonder how long they're going to keep us waiting here? And what the devil have they done with Elise?"

The bone-tipped end of a spear was momentarily framed in the window aperture, then disappeared. Vilak looked outside again. "That's our sentry," he muttered. "Kinky-haired and almost pitch-black. Met'n him anywhere in the Sudan or Congo, or Alabama or Mississippi for that matter. These are Inca ruins that we're in, all right, but the people occupying them are as far from Incas as anything I've encountered. Probably found these old buildings and began living in them, that's all.

"Judging by those I've seen so far, they're as much of a mixture as the natives around Porto Verde, varying degrees of negro and Indian and possibly a little Spanish or Portuguese thrown in. I'm generally strong in favor of racial mixtures, but this looks like a bad one. Many bad, rather degenerate faces."

The spear-end was framed in the window again. The old man crawled forward to look. "He is . . . er . . . black . . . quite black, isn't he?" he stammered. "How do negroes come so far out here? The black race isn't . . . er . . . native to South America."

"Of course it isn't native. But that hasn't prevented it from spreading all over the continent, just as it has in the southern states. The ancestors of these chaps were undoubtedly African slaves Pizarro brought over to work the Inca gold mines and who ran away to the mountains to escape his terrible cruelty. Judging by the ornaments I've seen a few of them wearing, they probably think they're the pure and direct descendants of the original Incas. Easy to get that idea when they're living in Inca ruins all the time. Many far brighter races do it. The Slavs, who form such a large portion of the present population of Greece, will swear to you that they're the undefiled progeny of the great Athenians."

He ceased speaking as a step sounded outside the door of a grotesquely carved wood at the other end of a narrow room. A wooden door creaked, the door opened and a man strode inside. Small, well-built, he was clad in white linens and brown puttees. His skin was dark, but it was the darkness that comes to a white skin after long exposure to the tropical sun; his nose was long and thin, his mouth sensitive and small. On his upper lip was a small, carefully trimmed mustache. He gazed at the prisoners smilingly.

Nunnally, whose glasses had been shattered when he fell on the road to the mountain, screwed up his gentle eyes to peer blinkingly at the newcomer. Then he gave a gasp of astonishment. It was D'Albentara, the suave, courtly engineer who had been in charge of the railroad gang at Porto Verde.

He strode toward the prisoners. "Ah, amigos," he murmured in his soft, perfect Portuguese. "It is indeed different now than when I have seen you before. Yes. Is it not so? I am sad when I see you like this, tied with ropes upon the ground. It is not good to lie tied with ropes upon the ground. But this way, helas, must it be.

"I wish, whatever happens, that you will not think too ill of Carlos D'Albentara. Though you will die very soon, I wish you will not think too ill of him. What he does, this Carlos D'Albentara—myself, is it not so, cavalhieros?—he does because it is business. All business, business, business. A word which you as citizens of that great United States should well understand, cavalhieros. I do not dislike you. No, rather, I like you much. Much. But you have interfered with my plans. And so, like a stone which lies on the tracks of a great railroad, you must be rid of. Business, amigos, always business."

He adjusted the flowered cravat in his white linen collar. "And in this same way of business, Senhor Davis, I would ask you most graciously, what have you done with my ring which you have stolen? I have searched carefully your clothes, and looked at the two rings on your finger, but I find it nowhere."

Vilak gave a slight shrug of his pinioned shoulders.

D'Albentara stroked his dapper mustache. "You will not tell me? No? Very well. It makes little difference. It is but an ornament. Of little importance. I shall not die, nor will the sun cease from setting if I do not obtain it. Yet, if you had restored it to me, I might have made your . . . death, perhaps easier, perhaps quicker. But enough of talk. It is now time to go to see the ruler . . ." He smiled wryly as he spoke the word. "The ruler of this fair city which you honor with your presence. The ruler of whom I am but a humble servant and lowly advisor."

He clapped his hands. Two negrito-like kinky-haired Indians, such as might be encountered any evening strutting out of the shabby moving picture theater at Porto Verde, stalked inside. Each carried a bone-tipped spear and a copper dagger. They untied the cords about the legs of the captives, permitted them to rise, then followed with them behind D'Albentara along a ruined stone corridor.

Soon they turned and halted before a great wooden door on which were carved hundreds of suns in the form of stiff, conventionalized human faces. The door swung open from the inside. D'Albentara disappeared beyond it. The guards roughly seized the two captives, stripped off their puttees, shoes and socks, and thrust them barefooted after the Portuguese.

Vilak glanced swiftly about him. They were in a great stone chamber, a chamber which hundreds of years before must have thrilled the beholder with the massiveness of its long, angular lines, and the beauty of its exquisitely wrought detail, but which now gave Vilak only a sense of wreck and desolation. For half of the lofty stone columns which had once stretched in a double colonnade from one end of the great edifice to the other had entirely disappeared, while those which remained were blackened with dirt or obscured with thick growths of vines; great holes were in the huge, crumbling walls and the gray thatch of the roof which showed signs of recent renewal.

In one corner a whole section of the structure, walls, columns, and stone pavement, seemed to be gradually sinking into the ground. Nor did there remain any of that profuse gold ornamentation which so characterized the Inca civilization and had so aroused the cupidity of the invading Spaniards.

There was lavish gold work, however, on the raised stone seat or throne at the end of the room where the building was still roofed and walled, and on this was sitting a figure so ludicrous that Vilak's pronounced sense of humor would have caused him to laugh aloud had he not realized that the act would be instantly fatal.

(To be continued.)

"The Georgia Minstrels," one of the feature shows with Miller Bros. Exposition Shows, playing all this week at the Fair Grounds. The minstrel show has a personnel of twenty-five dusky performers, men and women, and a red hot jazz band and orchestra. All the members are of the real "Way Down South" type and present a fast, clean and funny performance. The featured comedian is Joe Doakes, a really clever artist, who was for several years the featured "comic" of the Rusco and Holland Minstrels. "The Georgia Minstrels" is considered in carnival circles as the best show of its type on the road.

Lyrics Of Life

(By Douglas Malloch.)

LUCKY LINDY.

Lucky fellow, Lindy was—
Flew to Paris without pause.
Lindy flew, and this is why:
Lindy knew the land, the sky,
Weather good, or bad, or fair,
Understood the upper air,
Night or day, or sun or rain,
Knew the way to fly a plane,
When to dip, and when to climb,
Saving ship and saving time.
Wasn't he the lucky kid?
Wasn't it lucky that he did?

Lucky fellow, Lindy was—
Lucky fellow just because
He was strong in ev'ry limb,
Nothing wrong inside of him,
He was fit for such a flight,
Had the grit to make the fight,
Had the nerve to face the gale,
Not to swerve, and not to fail,
So he gained the people's cheers—
He had trained, of course, for years.
Wasn't he the lucky lad?
Wasn't it lucky that he had?

BESCO SCHEME TURNED DOWN

Shareholders Refuse Re-organization Suggested By Managers.

75 PER CENT. NEEDED.

HALIFAX, July 12. Canadian Press Press. — Official figures read at the adjourned meetings of the first and second preferred shareholders and common shareholders of the British Empire Steel Corporation showed that the scheme of reorganization suggested by President Roy Wolvin, had failed of endorsement by the second preferred shareholders, but had been endorsed by the first preferred shareholders and the common shareholders.

Old Established Business Moving To New Quarters

Roland Denne Leaving George Street For His Own Block on Water Street.

One of the oldest established businesses on George Street conducted by one of the younger generation of business men, is changing quarters to-day. Roland Denne is moving his flour, feed, and seed grain store from the Bradburn Block on George Street to quite a commodious and up-to-date store in his own block on Water Street, just opposite the Market Square. The store backs into Mr. Denne's warehouse, where he carries a large stock, and he feels he will be able to serve his customers more efficiently. The bringing together of the store and warehouse gives him a very complete plant.

Mr. Denne has occupied the store he is leaving for a quarter of a century, and after he leaves, the block will not just look quite the same for some time to come.

Out of the 932 London policemen accidentally injured while on duty during the year, 115 were bitten by dogs.

DISTRICT DEPUTY INSTALLS OFFICERS

Two Local I.O.O.F. Lodges Hold Big Installation Ceremonies.

The following officers of the two local lodges of the Independent Order of Oddfellows were duly installed into their respective offices for the term ending December 31, 1927, by District Deputy Grand Master R. J. Martin, assisted by the members of the District Committee No. 44, I.O.O.F.

A hearty vote of thanks was tendered the installing officer and his suite, after which the members adjourned to the dining room, where ice cream, lemonade and cake were enjoyed by the large number of members present for the ceremony.

WEATHER FAVORS ORANGE PARADES

Thousands Will Walk To-day in All Parts of Ontario.

TORONTO, July 12 (Canadian Press).—Favored in most districts with ideal July weather, the 237th traditional anniversary of the Battle of the Boyle was celebrated to-day in the cities, towns and villages of Ontario with the usual parades, picnics, and other demonstrations. The public celebrations were preceded in most cases by early morning meetings of the various lodges to initiate candidates and transact other business.

In this city, Dominion headquarters of the Loyal Orange Lodge, the strength of the annual parade was estimated at between ten and twelve thousand men and women.

TESLA PREDICTS ELECTRIC PLANE

Operated By Motor Receiving Power From Earth By Wireless.

COMING SOON, HE SAYS.

NEW YORK, July 12.—(Canadian Press.)—Nicola Tesla, inventor of the alternating system of power transmission, in an interview on his 71st birthday, predicted that aeroplanes would circle the world soon by light electric motors, receiving their power by wireless transmission from generating stations on earth.

MAKE IT A "SAVE A DAY" JOURNEY AND SEE IT ALL BESIDES.

Number Nine, the Trans-Canada, leaves Union Station, Toronto, every night at eleven. It is the longest distance, all-sleeping car train in the world, and it saves a day each way between Toronto and Vancouver.

On shorter trips, such as Toronto-Winnipeg, Winnipeg-Calgary, and Calgary - Vancouver, its schedule means only one business day on the road. While it is Canada's most distinctive and luxurious train, there is no extra fare. It goes through the world famous resorts, Banff and Lake Louise, by day—is Canadian Pacific super-standard all the way. Any Canadian Pacific Agent can make reservations for you. 12,18

Wonderful Hemlock Slabs "Dry."

WEDDING BELLS.

HAMBLIN—LAW.

A very quiet wedding was solemnized at Calvary Presbyterian church, Cleveland, Ohio, on Saturday, July 9, 1927, of Thelma Law and Gordon Hamblin, son of Mr. and Mrs. Arthur Hamblin, 287 Dalhousie street. After the wedding ceremony a buffet luncheon was served at the home of the bride's parents, Mr. and Mrs. J. J. Hutt. Later the happy couple left on a trip to Peterborough.

OBITUARY

MRS. CHARLES E. MAXAM.

KINGSTON, Ont., July 12. — Canadian Press. — Following a week's illness the death occurred here last night of Anna Francis McKim, wife of Charles E. Maxam. The deceased was a lifelong resident of this city.

Mrs. Raymond Bennett Peterboro, is a step daughter.

HANNAH WATKINS.

The death occurred yesterday afternoon, July 11th, of Hannah Watkins, 74 years of age. The deceased has been ill for the past three years. She was born in England, coming to reside in the city about sixteen years ago, and has lived with her son for the past five years. Her husband predeceased here eighteen years ago.

She leaves to mourn her loss three sons, Charles Watkins, of Toronto; Joseph and Albert William of Peterborough. Also one daughter, Mrs. B. C. Mason, of Toronto, and one sister in England.

The funeral will take place on Wednesday afternoon from the residence of her son, 227 Princess street, at 1.30 o'clock. Interment will be made at the Little Lake cemetery, with the Rev. Mr. Mills officiating.

OPERATIONS START.

Steam Shovel Commences Excavating For Basement at Collegiate.

John IMitchell & Sons, of Toronto, who recently secured the contract to build the addition to the Collegiate Institute, commenced operations this afternoon. A large steam shovel was put to work excavating for the basement.

AROUND THE CITY

At 4.40 this morning a small frame tool shed caught on fire in the northern part of the city at the gravel pit, necessitating a call for the Fire Department. At 7.54 a.m. a chimney fire at 27 Crescent street was extinguished by chemicals.

GRADUATION GIFTS

If your Boy or Girl have been successful in their examinations, give them something that will last and be appreciated for their efforts. JEWELLERY is the Ideal Gift for this occasion.

Come in and see our beautiful line of Gifts, and at Very Moderate Prices.

Here are a few of them that are very useful:
—Wrish Watches, $4.00 up.
—Pen and Pencil Sets. $3.50 up.
—Pocket Watches, $5.00 up.
—Chains, $1.50.
—Pocket Knives and Combs, 50c.
—Beaded and Mesh Bags, $4.95.
—Umbrellas, $3.50 up.
—Signet Rings, $3.00 up.
—Birthstone Rings, $1.00 up, Etc.

There is a great variety of Gifts that you would do well to see. Your inspection heartily welcomed.

Government Crop Report Gives Wheat Setback

CHICAGO, July 12. — (Canadian Press.)—Owing largely to the United States' government crop report proving more bearish than was looked for, wheat prices underwent a sharp early setback to-day. Besides, field advices from the west continued to indicate only limited damage from black rust. Opening 1 3-8 cents to three cents lower, wheat showed but little power to rally. Corn displayed firmness at starting, unchanged to ¾c off, sagged a little more and then scored gains. Oats were easier. Provisions held steady.

TORONTO MINING MARKET.

TORONTO, July 12. — (Canadian Press).—Noranda and Wright Hargreaves and Lake Shore provided the feature price movements on the Standard Mining Exchange to-day. The former stock moved abruptly forward in the early trading to 23.90 but receded later to 23.25, a gain of 65 cents. Wright Hargreaves soared to the high of 5.90, a gain of 45 cents. Lake Shore continued to show strength, selling up to 20.00, a gain of 30 cents. Castle Trethewey was a strong feature at 80, an advance of 4½ cents. Nipissing recovered somewhat from its liquidation and moved forward 25 cents to 5.95. Teck Hughes gained two cents to 8.42. McIntyre recorded the greatest decline of the session when it dropped 50 cents to 25.50. Mining Corporation eased five cents to 3.10, as did Towagmac to 3.45 and Conarium to 3.25.

NEW YORK STOCKS.

NEW YORK, July 12 (Canadian Press).—Prices again rose in spirited fashion in the Stock Market to-day, influenced by good crop reports, sustained investment buying and the usual flock of rumors of new combinations in the railroad and industrial fields. With large blocks of Sears-Roebuck and Montgomery Ward again being eagerly purchased, the moth-eaten rumor of consolidation of the two companies often denied was trodden forth again to do service. A number of weak spots persisted, including Mack Truck, Barnesdall A, Foundation Company and Electric Refrigeration, the last named sagging to 13, a new minimum. Collins and Aikman also was heavy, coincident with the announcement of the offering to-morrow of new preferred stock. Profit-taking made inroads on some of the pivotal shares in the early after noon, notably Baldwin, which sold off from 244, its record price, to 240.

CAVAN PERSONALS

CAVAN, July 12.—H. I. Seymour has spent the past few days in Ottawa.

Miss I. Hunter and Mr. Vernon Hunter attended the strawberry festival held in Centreville on Thuraday evening.

Miss Jennie Swain of Lindsay has been the guest of her sister, Mrs. Wm. Tinney, for the past few days.

Messrs. James and Edward Keegan, Mrs. Margaret Staples and Miss Ruth Keegan visited friends in Mariposa this week.

Officers from 14 foreign countries will train at U.S. army schools or with American troops during 1927.

LOCK COMPANY NOT TO ENTER BIG MERGER

E. H. Howson, Local Manager, Issues Denial of Statements Made.

REPORT FALSE.

Report Says Five Canadian Factories Are Considering Negotiations.

The Peterborough Lock Manufacturing Company is not contemplating entering any merger of lock manufacturers, as had been recently announced by a Toronto financial journal. Issuing this denial this morning "without any mental reservations," Ernest H. Howson, manager of the works, characterized the report as being absolutely without foundation.

The report stated that negotiations were under way having for their object the merging of the interests of five of the six factories in Canada engaging in the manufacture of locks and similar builders' hardware: it being understood that the sixth factory which is the Canadian branch of a large U. S. concern, was unlikely to consider the proposed amalgamation.

It was further stated that some of the companies believed that certain economies would be effected and that other advantages would accrue from the pooling of interests.

RALPH DAVIS FOUND GUILTY

Is Sentenced To Eighteen Months in Ontario Reformatory.

FOR HOUSE BREAKING.

Sentence of eighteen months confinement in the Ontario Reformatory was passed on Ralph L. Davis today by His Honor Judge E. C. S. Huycke, in the County Judges' Criminal Court, who found Davis guilty of breaking into the home of H. E. Tillcock, 525 Bolivar Street, on June 7. Crown Attorney G. W. Hatton, K.C., prosecuted; F. D. Kerr, K.C., appeared for the defence.

A pathetic feature of the case was that accused's wife gave birth to a baby, her fourth, only two days ago.

Mrs. Tillcock gave evidence that while visiting a friend on the other side of the street, she saw a wheel lying in front of her house, and that when she entered she noticed a man leave her kitchen, pass out by the back, jump over the fence and come round to the front to get the wheel. When asked to explain his presence, he told her that he was a fireman and had been sent by Chief Gimblett to examine her house, to see if the chimney was on fire. Later, at the police station, she identified Davis as the man in question. Eleven dollars and fifty cents, the property of a boarder were missing from a drawer.

Detective Sergeant W. Meagher said that Davis was brouht before Mrs. Tillcock in the police station, and that she identified him, and also recalled the facts of the case in the presence of the accused, who made no reply.

Denies Statements

Accused, who entered the witness box, described in detail his movements on June 7, declaring that he did not set foot on Bolivar Street on that date nor did he ride a bicycle. He admitted being in trouble before, once in connection with an attack on a girl under 16, for which he was punished, and being in court of a charge of false pretences, on which he got off.

This latter admission was corrected by Mr. Hatton, who pointed out that in June of the present year, a few days before the date of the offences charged, Davis was convicted of obtaining groceries by false pretences, being given suspended sentence after restitution had been made.

His Honor in passing sentence, expressed some sympathy for the parents and family of the accused. If Davis had had a good previous record, His Honor said, he might have allowed him to go on suspended sentence. But his record was not clean. The community had to be protected.

The sentence calls for 9 months determinate and 9 months indeterminate detention, which means that if accused's behaviour is good during the earlier period, he may be released some time during the latter portion.

A second charge is proceeding against Davis this afternoon.

CHARLES LEGUIRE APPEALS JUDGMENT

Alleges County Court Had No Jurisdiction in His Case.

TORONTO, July 12. — (Canadian Press.)— Charles Leguire, sentenced by the County Court of Peterborough to four years on a charge of conspiracy to defraud has filed notice of appeal to the Divisional Court here. Leguire alleges that the County Court had no jurisdiction and that if there was any fraud, it was in Montreal. He declares that the prosecution was undertaken for the collection of a civil debt and that his sentence was excessive.

BIRTH.

TATE.—To Mr. and Mrs. R. A. Tate, Omemee, at Nicholls Hospital, on Friday, July 8, a son.

MARSHALL.—To Rev. and Mrs. David F. Marshall, Formosa, Japan, (nee Maude Acklson), on June 10, 1927, a daughter, Lorina Maude.

JOLLY JINGLES By Graham Hunter

Erosion of Falls Is Being Studied

NIAGARA FALLS, Ont., July 12. —The erosion of the Horseshoe Falls is being carefully studied by the Niagara Falls Park Commission, and recommendations will be made to the Special International Committee concerning the problem.

The possibility of diverting some of the extremely heavy flow from the apex of the cataract to the thinly covered spots is the object. Notice of the expropriation of the "ship yard" property along the boulevard, near Bridgeburg, has been given. The property comprises eleven acres, and is owned by the Canadian Foundry Company. Purchase of the property will make the continuance of the boulevard along the river a possibility.

READS FUTURE FROM PYRAMID

Wynn Says Forecast of Disaster For July 11 Was Fulfilled.

WAR AHEAD.

CHESHAM, England, July 12 (Canadian Press). — July 11th marked the end of the "Spirit of Locarno" at Geneva, says Rev. Walter Wynn, the Prophet of the Pyramids, recalling his forecast of disaster for that day.

Mr. Wynn, who reads the world's future in the great pyramid at Giza, issued a warning in March to beware of July 11, saying: "An event will take place which will greatly accelerate chaos and cause all the nations of the world to share in intensified preparations for war."

Discussing his prediction to-day, Mr. Wynn declared that the murder of Kevin O'Higgins in Dublin gave the disarmament conference at Geneva "a glorious diplomatic and welcome chance to adjourn indefinitely, bringing the obvious farce to an end." He added, "The nations will now go their own way, doing their own thinking, and making war preparations until May 19, 1928, the next crucial Pyramid Day."

King Edward Scores Greatest Gain On List

TORONTO, July 12. Canadian Press — International Nickel featured quiet but firm market on the Toronto stock exchange to-day, and in trading of more than 2000 it advanced ¾ to 62¾. King Edward scored the greatest gain of the list when it advanced 2 points to 40. Massey Harris was an active feature and in keeping with the general trend moved up ¾ to 36. British Columbia Fishing issues were both firm, the common gaining 7-8 to 19 and the preferred ½ to 83½. Cosmos Imperial Milling was in demand at 26¼, a gain of 1¼. Brazilian Traction was a weak spot declining one point to 162. Dominion Stores dropped ½ to 79½. G. and W. was the only distillery stock to record an advance; it sold up ¾ to 54. The oil stocks were generally firm.

MORAL: DON'T STEAL AN ALARM CLOCK.

DETROIT, Mich, July 12. — Into a department store walked two men. They looked like customers, but they didn't buy anything—merely looked around. They paused at many a counter, fingering, looking, passing on.

Finally they turned to walk out the door. Just then the shrill clatter of an alarm clock came from a pocket of one of the men. He blushed, tried to muffle the sound. A detective approached; the man broke into a run. He was cornered and arrested for stealing the clock. For thirty days he will need no clock—only a calendar.

Trading rights of the Moravian church in Labrador have been sold to the Hudson's Bay Company. The church had maintained missions and posts in Labrador since 1771.

LARGE CROWDS VISIT MIDWAY

Hundreds Witness Death-Defying Stunts of the High Divers.

MANY FEATURES.

The Miller Shows, the largest midway ever showing in Peterborough, got well under way last night at the Exhibition Grounds to a large crowd of Peterborough citizens and suburban residents. "And it was a midway!" Tent after tent faced spectators, displaying the wonders of the world. Small children with a hot-dog in one hand and a cone of frozen custard in the other, stared awe-eyed at huge banners waving gently in the wind, telling of the great show about to commence inside, depicting two-headed children and fat men weighing over 700 pounds.

Crowds who witnessed the death-defying stunts of the high divers who dived from a one-hundred-foot ladder while in flames, will remember the sight for some time. The stunt man held a lighted brand to his gasoline-soaked body and dived into a six-foot tank of water below. In this tent also beautiful bathing beauties kept the people entranced with their perfect dives into the crystal pool.

"The Follies" show attracted many persons, old and young alike, where beautiful artist's models posed and sang in an amphitheatre of beauty and modesty.

Seven "rides" on the grounds kept the youngsters busy for the evening, taking seats in the "caterpillar" or the "dodgem," far more exciting than the merry-go-round of other days, although this machine also had its many patrons.

"The Wall of Death," an exhibition in itself, showed daring and skilled riders driving their small automobiles at break-neck speed around a circular wall, twelve feet from the ground.

Thousands are expected to attend to-night and for the remainder of the week, for these shows are almost unequalled as a midway in the whole world.

SUSPECT RESISTS LONG QUESTIONING

Ludwig Lee Refuses To Confess Murder of Two Women.

NEW YORK, July 12.—(Canadian Press.)—Ludwig Lee to-day had successfully withstood since Sunday the almost continuous barrage of questions fired by relays of detectives, who believe him guilty of hacking to pieces the bodies of Sarah Brownell, 69, and Mrs. A. Bennett, 48, in the Brooklyn rooming house where he was janitor. The District Attorney said it did not really make much difference whether Lee confessed or not. "I am confident," he said, "that we have a case strong enough to convict him now."

CITY LODGES VISIT COBOURG

Several Hundred Orangemen Leave Peterborough For Annual Walk.

290TH ANNIVERSARY.

Several hundred members of City and District Orange Lodges left this morning by train, automobile and motor bus for Cobourg, to take part in the huge parade there in celebration of the 290th anniversary of the Battle of the Boyne.

The members of the Wellington Lodge of Nassau divided into two equal portions—one half going to Cobourg and the other to the procession at Bowmanville.

The Peterborough members with few exceptions journeyed to Cobourg. It may be recalled that at the great procession of July 12, 1923, Peterborough furnished the largest contingent.

On their arrival home this evening, at 7.30, the lodges will parade along George Street, dismissing on Market Square.

The police have forbidden the parkin of cars on Market Square tonight.

TAXI DRIVER STEALS CAR

Attempted To Escape To United States in J. Fontaine's Automobile.

LEFT YESTERDAY.

Kenneth Baillas, former taxi driver for Stinson's Auto Livery, and for the past two weeks driver for J. Fontaine, and Harry Ellis, also a Peterborough man, are to-day on their way home, accompanied by Detective Carey of the local force, after their arrest last night at Bridgeburg, N.Y., for stealing a car yesterday morning from the Fontaine Livery, Hunter Street.

These young men evidently thought, according to police reports, that they could cross the border and escape to the States with the automobile. When the Dodge sedan was missed from the livery yesterday morning Mr. Fontaine immediately reported to the police station that his driver, Baillas, had stolen a Dodge sedan.

A wire was sent to the border line and the men were arrested by officials there, just as they were crossing into the United States. Detective Carey left this morning for Niagara Falls to bring the men back to face a charge of theft in the local Police Court.

TWELFTH ENDS WITH PARADE THROUGH CITY

Procession Along Leading Streets Is Grand Finale Of Big Day.

CHANGE MADE.

Disbandment On Market Square Instead Of George Street.

Making a spectacular finish to an outstanding day, a large section of the Peterborough contingent of the Orange procession which assembled at Cobourg yesterday celebrating the 237th anniversary of the Battle of the Boyne, marched in parade through the principal streets of the city last night on the arrival of the train from Cobourg.

Headed by their bands, the members of the lodges marched to the Market Square, where they were reassembled. Some of the members, evidently thinking they had had sufficient marching for one day, fell out and went to swell the crowds of onlookers who lined the streets, but nearly 500 members—432 to be exact, consisting of 268 men, 102 women and 62 children—elected to go on the march through Peterborough, which has so long been the grand finale of "Twelfth" processions in which local lodges took part.

Four flute bands and one brass band furnished the music as the procession marched from the Market Square, along Water Street, down McDonnel Street, south on George Street, to Charlotte Street, returning to the Market Square, where the parade was disbanded, instead of on George Street as in previous years.

The change was dictated by a desire to avoid any congestion of traffic on the principal artery of the city.

Close on one thousand members of local and district lodges journeyed to Cobourg yesterday. Lodges which took part in the procession were the Royal Scarlet Chapter for the County of West Peterborough, the Black Knights of Ireland Preceptory, Diamond Lodge No. 80, Col. Sanderson Lodge (Downer's Corners) No. 321, Wellington Lodge, Nassau, No. 457, Lord Nelson Lodge No. 2440, the Duke of Manchester Lodge No. 50, and three ladies' lodges, Vimy Ridge L.O.B.A. No. 244, the Eastern Star and the Star of Bethlehem.

Although some of the more elderly members of the procession showed signs of weariness after the march earlier in the day, the parade presented a pleasing spectacle as it passed along George Street, the ladies, looking delightfully cool and attractive in their uniformly white dresses and red sashes, comihg in for the greater share of the applause from the large crowd that had patiently awaited the arrival from Cobourg.

Application Accepted For Atlantic Flight

NEW WESTMINSTER, B. C., July 13 (Canadian Press).—Sidney Mowatt's application to enter a London, Ontario, to London, England, airplane flight for $25,000 has been accepted, according to a telegram received yesterday from the Mayor of London, Ont., by the City Council.

Will Defend Title As Champ Sculler

VANCOUVER, B.C., July 13.—(Canadian Press).—Major Goodsell will defend his title as world's champion sculler against H. A. Barry on Labor Day, September 5, here. The match, as recently arranged, will be rowed over a three-mile course on Burrard Inlet off Port Moody. Goodsell is already in Vancouver and has commenced training for the champ pionship event.

FLOWING LAVA FILLING BOWL

Floor Of Great Crater Of Kilauea Being Covered With Molten Rock.

NO DANGER OUTSIDE.

HILO, Hawaii, July 13 (Canadian Press).—The lake of lava from Kilauea crater, which began eruption last Thursday, is steadily building to new levels on the floor of the eight-mile-wide pit, as lava from the cones spreads in spirals about the hardening surface. Kilauea is the largest active volcano in the world, and its fire pit, Halemaumau (House of Everlasting Fire) is presenting a spectacular display. The fire put is situated in the centre of an eight-mile wide bowl in the earth, and lava is flowing so freely that the large bowl is partially covered. Unless the bowl overflows, which is extremely unlikely, since the walls are three hundred feet high, there is no danger, and the beautiful display of molten rock can be safely watched from a point on top of the walls.

LAUNCH CAPTURED LOADED WITH ALE

Vessel Will Be Destroyed By Cleveland Customs Officials.

CLEVELAND, Ohio, July 13 (Canadian Press).—The launch, Anna A. with a cargo of two thousand cases of Canadian ale, estimated to be worth forty thousand dollars at current bootleg prices, was captured by Customs officials when it docked here today. The crew of about twelve men escaped. The boat will be stripped of engine and equipment and blown up to prevent it getting into smugglers' hands again.

INDUCTION SERVICE BEING HELD FRIDAY

New Pastor Of St. James Church To Be Installed In Office.

An induction service for the purpose of inducting the Rev. J. H. Dudgeon to the new pastoral charge of St. James United will be held on Friday, July 15th, at 8 o'clock, in St. James' Church.

The service, which is impressive and inspiring, will be in charge of the Chairman of the Presbytery, the Rev. R. F. Stillman of Norwood. The sermon will be delivered by Rev. J. Archibald. The charge to the congregation and minister will be given by the Rev. S. H. Moyer. Local ministers will also be present and assist in the service.

DIRECTS AIR SERVICE.

Captain W. R. Maxwell, director of the Ontario Provincial Air Service, who is one of the 28 Canadian airmen interested in the project of London, Ontario, to London, England, flight next month.

2 CONVICTIONS IN FOUR HOURS

Ralph Davis Gets Two 18 Months' Sentences.

RUN CONCURRENTLY.

Two convictions within four hours were yesterday recorded against Ralph Davis.

Found guilty on a charge of housebreaking early yesterday afternoon, Davis was sentenced by Judge E. C. S. Huycke, in the County Judges' Criminal Court to eighteen months in the Ontario Reformatory. Later in the afternoon, Davis was given a similar sentence, to run concurrently with the first, on being found guilty of entering the house of E. Puttick, 592 Gilmour street.

Crown Attorney G. W. Hatton prosecuted. F. D. Kerr, K.C., acted for Davis.

The sentence calls for nine months determinate detention and nine months indeterminate, which will permit of Davis being given his freedom sometime between the ninth and eighteenth month provided his conduct in the Reformatory is satisfactory.

Evidence of Davis having entered the house was given by Mrs. Puttick, and by Mrs. Wareham, a neighbor of the Puttick family. Mrs. Wareham called to Mrs. Puttick that she had seen a man enter her house. Mrs. Puttick then entered and found Davis in the back kitchen.

Admitting that he had actually entered Mrs. Puttick's house, Davis, in the witness box and through his counsel, Mr. Kerr, offered an explanation which was not accepted as convincing by His Honor. He stated that his presence in that neighborhood was to be accounted for by the fact that he was looking for work. He had been told, he said, by a man named Henderson, whom he first met four years ago, that a person named Morrow living on Weller street, three doors from Monaghan road wanted a man to look after his lawn and garden. He was not acquainted with the neighborhood and in looking for Mr. Morrow's house he passed an opening which he thought might be Weller street. He went up a lane, jumped a fence and knocked three times at the back door of the third house from Monaghan road. Getting no answer, he opened this door—it was a screen door—and knocked at the door on the inside. He got no answer and he was just about to walk away when a lady opened the door. She threw up her hands and screamed. He asked if Mr. Morrow lived there. She answered, "There is no Mr. Morrow here. Get out." He lost his head and went away. He was so scared that he ran part of the way.

His Honor said that Davis' ambition seemed to be to do what he ought not to do. It was a good thing for prisoner that he was caught before he had gone too far. It was beyond His Honor's comprehension to understand how a man with a wife and four children could allow himself to do what Davis had done.

Peoples' houses could not be permitted to be subjected to invasion by sneak thieves. Accused would be released between 9 and 18 months from sentence. If he resumed his evil work on being released and was brought again to court he could look for no leniency. His Honor declared that if Davis were again convicted by him, the full limit of the penalty prescribed by the law would be imposed. Davis was getting his last chance.

VETERANS OPPOSE REMOVING BODIES

Would Leave German War Prisoners Lying Among American Soldiers.

DENVER, Colorado, July 13. United Press. — A storm of disapproval over the proposal to remove the bodies of three German war prisoners from war graves among the American dead at the Fort Lyon, Colorado, government cemetery, comes from ex-service men's circles here.

"Let by-gones be by-gones and permit the dead to rest in peace," said W. Harry Dunn, state adjutant of the American legion, when told of the proposal of T. V. Keenan department commander of the veterans of foreign wars for Colorado and Wyoming.

Dunn's stand did not change when told that Keenan had explained his proposal by wishing to set the German graves apart so that they could be more easily identified by those wishing to pay them reverence.

"The war is ten years past; old wounds have started healing; why break them open again?" he asked. "Three prisoners were put in a hospital there through no fault of their own. They died and were given decent burial. Let them remain where they are."

Augustus, in the document attache to his will, mentioned that he had exhibited 8,000 gladiators and 3,510 wild beasts.

"Lily Rash" is an eruption of the skin caused by contact with the juice from the stems of flowers, chiefly narcissi, hyacinths, daffodils and tulips.

Newspaperman Requested To Stop Whispering Sees Compliment In His Honor's Obiter Dictum That "A Reporter Ought To Have More Sense"

Perhaps the acoustic properties of the Court Room of the County Buildings are not so bad, after all. During the hearing of the second Davis case yesterday afternoon, His Honor Judge Huycke issued no fewer than three stern reprimands—to a lawyer, a detective, and a newspaperman—for whispering in court. His Honor's ire was aroused particularly by the offence of the scribe. "A reporter ought to have more sense," he said.

The average newspaperman is usually confident that his job calls for more brains than does that of either lawyer or policeman, and the ink-spillers are naturally gratified to have this opinion confirmed from the Bench.

ORANGEMEN OF THIS DISTRICT OBSERVE "GLORIOUS TWELFTH"

Great Walk Held In Cobourg By Lodges From Many Centres.

39 LODGES IN LINE.

Canada Is Theme Of Many Of Speakers Who Address Members.

COBOURG, July 13.—To the skirl of the pipes, the blare of brass, and the chirp of the fife, nearly 2000 Orangemen, woman, boys and girls, moved off from Victoria Park at 1.45 with marked military precision.

Resplendent in uniforms of Orange blue and white with an added array of colour given by the red, and white parasols carried by some of the ladies' lodges, the brilliant uniforms of the Cobourg Kilties, and the ribbon bedecked banners, the great column swung into line to lively airs from bagpipes, brass bands, and fife and drum corps.

Thousands of citizens, American tourists and visitors from surrounding towns lined the streets and cheered the different lodges as they passed by. In the business section, King and Division Streets, the sidewalks held a solid mass of humanity, and the cheering, to the accompaniment of hundreds of auto horns knew no bounds.

Chief Marshall, A. F. Hall, on a spirited dappled gray charger headed the parade. He was followed by the standard bearer and behind the colors were the speakers of the day in a decorated motor car. Then came, in their allotted postions in the line of march, thirty Orange Lodges, True Blue Lodges, Ladies' Lodges, and Juvenile Lodges; one bagpipe band, three brass bands and a score of fife and drum bands, the bands being placed at convenient intervals.

Among the lodges on parade were Cobourg 127 F. Navin, marshal; Roseneath 261, C. W. Varcoe, marshal; Baltimore, 52, Fred Hie, marshal; Codrington, 1363, Joseph Campbell, marshal; Brighton, 186, Peter Beislet, marshal; Coldsprings, 514, W. R. Munifie, marshal; Castleton, 554, Elburn Hoover, marshal; Queen's Own (Emily), 294, Harry Jackson, marshal; Vimy Ridge, 244, Peterborough, Sister DeLong; the Young Canadian, 80, (Peterboro) M. Dunlop marshal; J. W. Bell Memorial Lodge 1175, (Peterboro); North Emily, 952, Irwin Sanderson, marshal; Campbellford, 36, George Phillips, marshal, Reaboro, 829; James Naylor, marshal; Omemee 113, Gordon Bradley, marshal; Frankford, 240; Duke of Manchester, 50, (Peterboro), Stanley Cummings, marshal; Wellington, 457, (Douro), Clarke Brown, marshal

Many ladies lodges and juvenile lodges associated with the above named lodges were on parade.

Prizes Awarded.

Trenton ladies' lodge was awarded the prize for the best showing of ladies' lodges on the line of march.

Campbellford True Blue Lodge captured the prize for the best showing made by the men's lodges. The prize in each case was a beautiful Union Jack. The flags were presented by Rev. Dr. Boyle.

Mrs. William Hubble of Trenton, who acepted the prize for her lodge, expressed her thanks for the gift, as as well as for the honor in her lodge being selected for the prize from among so many very worthy contestants.

George Phillips, on behalf of the Campbellford True Blues, upon receiving the flag, made a very neat speech promising to safeguard well the valued prize.

Just prior to the parade Cobourg Kiltie band, under command of Capt. J. H. Goldring, paraded to the war memorial in Victoria Park where a brief address was made by Rev. Dr. T. S. Boyle, rector of St. Peter's Anglican Church. "These men have died to save the Empire, and the Empire's freedom, and we ought to strive to work for that same cause." A beautiful wreath was then carried to the monument by S. F. Navin, marshal of Cobourg L.O.L., 127, and was placed on the monument by Master Wesley Burk.

When the parade had returned to Victoria Park had been dismissed 90 per cent. found their way to the water front or some sheltered nook, away from the broiling sun, under which they had marched for one hour and thirty minutes so that only a few hundred people listened to the able speakers of the day. Col. Boggs acted as chairman.

Mayor McGuire.

Mayor McGuire extended a very warm welcome to the visiting lodges, spoke of the loyalty of Orangemen to the British Empire, and stated that he hoped that Cobourg would be again chosen for their celebration.

Major Belford.

Major Belford, who was brief in his remarks, spoke of the danger that is threatening Canada from Russian Communism, and of the need of English-speaking Canadians and French-Canadians getting together and under standing each other. He said the Orange Order was founded upon the great rock of personal liberty. We ask French-Canadians, said the speaker, to respect our rights, and we should respect theirs.

M. E. Maybee.

M. E. Maybee, M.P., congratulated the Orange lodges upon the success of the day's celebration, and thought the great gathering of Orangemen was a fitting climax to the Diamond Jubilee celebration. The speaker said that as a citizen of this great Dominion he was proud of the way in which Canada has prospered.

Canada has prospered, said Mr. Maybee, far beyond the expectations of the Fathers of Confederation. With our great natural resources and strong manhood, nothing can stop us from becoming the greatest people in the world. That we have got to get away from the provincial idea, and work together for the good of all, was stressed by the speaker.

W. G. Graham.

W. G. Graham, ex-Mayor of Lindsay, who was received with great applause, expressed the pleasure it gave him in speaking in response to the welcome extended by the Mayor and Council. He said he was more than delighted with the reception, and the beautiful surroundings for the holding of a celebration.

On behalf of the Orangemen, he expressed thanks for the cordial welcome. Concluding, Mr. Graham paid a glowing tribute to the late Sir Sam. Hughes. He was glad to belong to a country that turned out such a great statesman.

Rev. Dr. Boyle.

The Rev. Dr. Boyle made a record for a short address, when he pointed to the soldiers' monument and said that it was the duty of every Orange-

Disarm Factions In Sugar Strike

BRISBANE, Queensland, July 13 (Canadian Press).—The police have combed the cane fields and disarmed all the cutters and pickets. It is believed this action will have the effect of checking the warfare between the opposing factions in the sugar strike.

Fall Out of Plane While Making Survey; Accident to Three Men Occurs in Clouds

WINNIPEG, Canada, July 13 (A.P.). — Three members of a Manitoba aerial photographic survey party were killed near Fairford, Manitoba, yesterday, when in some unexplained manner they fell from their machine a distance of about 1,000 feet.

The dead are Flight Officer W. C. Weaver of Melfort, Sask., pilot in charge; A. T. Hardley, photographic mechanic, of Locre, Man.; F. H. Wrong, Surveyor of the Topographical Survey Branch, Ottawa.

Eyewitnesses say the plane entered a cloudbank. Lost to view for several minutes, it later was observed following an erratic course through the clouds. The watchers were suddenly startled to see three men come hurtling through the air and the machine follow in a nose dive to earth.

The body of Flight Officer Weaver was recovered in a badly mangled condition near the shore of Lake Manitoba, at Hilbere. The body of one of the others was also recovered.

IRELAND PAYS LAST RESPECTS

Half Million People Watch Funeral Cortege Of O'Higgins.

MANY BREAK DOWN.

DUBLIN, July 13. — (Canadian Press).—Dublin was a city of hushed silence to-day as the body of Kevin O'Higgins, assassinated Vice-President of the Free State Council, passed through streets lined with great crowds of mourners. The body was taken from St. Andrew's Church, where solemn requiem mass was celebrated, and was then carried to Glasnevin Cemetery. So solemn was the procession that women wept as the body was carried by and scores fainted from emotion and the heat of the day.

It was estimated that half a million Irish people, paying their last tribute to the stricken Vice-President, watched the draped gun carriage which carried the body through the streets. The music and funeral marches of the bands in the procession added a solemn note and brought tears to the eyes of many spectators.

NO DIFFICULTY WITH STICKERS

Chief Newhall Has Had No Complaints About Covered Windshields.

WOULD STOP ABUSE.

Chief Newhall refuses to share in the alarm that has been manifested in Montreal and elsewhere at the number of attachments and stickers that are appearing on the motor cars of the province. "We have received no complaints of that nature," said the Chief, "and we are not taking any action in the matter."

"Of couse if a driver had his windshield plastered all over with stickers in such a way as to obstruct his vision, that would be a different matter, for the Highways Traffic Act lays it down that the driver must not allow his view to be blocked by anything on the windshield. But, so far as Peterborough is concerned, there has been nothing of this nature to cause misgiving."

Questioned as to the ornamental radiator caps in use here, the Chief replied that there was none that were likely to cause trouble. In one case a man appeared with an illuminated sign on the front of his car, but was speedily ordered by the police to take it down.

The Chief agreed that a fancy iron bar sticking out inches from the front of a car, would be dangerous, and pointed out that a pedestrian when struck by a motor is often thrown in such a way as to bring his hand in contact with the radiator. "No cars with such caps are reported here," said the Chief.

There is no law in Ontario to prevent putting attachments or stickers on automobiles, says Frank G. Stinson, Secretary of the Peterborough branch of the Ontario Motor League, but in some of the United States these must first be approved by an inspector of the Motor License Bureau Mr. Stinson, however, points out that the indiscriminate plastering of stickers on the windshield would clearly be a violation of Sub-Section 12 of the Highways Traffic Act, which prescribes that the driver shall have an uninterrupted view through the windshield.

"The practice of carrying an excessive number of stickers is not looked on with favor by any motor club in this country," said Mr. Stinson. "We have a little round sticker which we give to our members, but never would dream of encouraging the putting of a large number of stickers on the windshield.

"To block the vision of the driver is sheer insanity. If a driver got into an accident and it were proved that his windshield was unduly covered with stickers, he would be held responsible. The sweet rule of moderation," concluded Mr. Stinson, "points to the safe and sane way."

CHINA PROTESTS TROOP LANDING

Wants Japanese Forces To Withdraw From Shantung Cities.

MERCHANTS COMPLAIN.

PEKING, June 13. —(Canadian Press). —Peking Government, following a verbal protest by the Foreign Office to the Japanese delegation on Monday, has sent a note to the Japanese legation in which it demands the immediate withdrawal of troops from Tsinganfu and Tsingtao in the Province of Shantung. The note also demands the recall of any further troops sent to those cities and expresses earnest hope for a satisfactory early reply.

The greyhound is the fastest dog. One of them once ran a quarter of a mile in 25 2-5 seconds.

Protest Reduction Jap Fishing Licenses

VANCOUVER, B.C., July 13. — (Canadian Press). — A protest against the reduction in the number of fishing licenses granted Japanese in British Columbia has been made to the Department of Marine and Fisheries at Ottawa by Japanese fishermen who, it is stated, are planning to test the matter out in the courts, to the extent of even carrying the matter to the Privy Council.

ANCIENT CITIES HOMES OF DEAD

Nablus, In Samaria, and Other Towns Visited By Earthquake.

AT LEAST 250 DEAD.

JERUSALEM, July 13. Canadian Press. — Nablus, the ancient Samaritan centre and other towns in the Holy Land, appear like cities of the dead, say reports which reached Jerusalem to-day of a disastrous earthquake which rocked the region on Monday.

The latest official reports of casualties place the dead in Palestine at more than 150, and in Trans-Jordania at one hundred The total injured is given at more than 500. Unofficial figures are much higher, some estimates of the dead touching one thousand.

400 Bodies Found.

JERUSALEM, July 13.—(Canadian Press). — Four hundred bodies of victims of the earthquake in Palestine on Monday have been recovered from debris in Palestine cities and villages. According to a list of casualties compiled by the authorities the number of injured was placed at 450.

TAR SPLASHED ON ORANGEMEN

White Clothing of Many Marchers Bears Marks of Road Covering.

BAD ON HIGHWAY,

Judging from the remarks of local Orangemen, motorists journeying from Peterborough to Cobourg found the road, in parts at least, far from being conducive to an enjoyable trip, on account of the recent tarring of both sides of the highway.

The stretch between Frazerville and Ballieboro, especially in the immediate neighbourhood of these two places, comes in for unqualified censure from Past County Master E. F. Reid. Describing the condition as "terrible," Mr. Reid says that the white dresses of many of the ladies and the dress shirts of the men were completely ruined by the tar thrown out by the passing of the vehicles. On his journey homeward, Mr. Reid turned east at Ballieboro and travelled by way of Bensfort Bridge, thus avoiding the tarred road, except for a distance of about one hundred yards.

Owners of motor cars, in despair of cleaning the adhering tar from the wheels and sides of their vehicles, are indignant at the fact that the tar was spread over both sides of the road, instead of treating one side sufficiently in advance to permit of its being well hardened before commencing operations on the other side.

Alderman W. J. Hancock stated that he had heard numerous complaints to-day from those who travelled on the road yesterday. Mr. Hancock considers himself fortunate in escaping the inconveniences which other participants suffered by journeying through Frazerville and Ballieboro. He left the city on Monday to visit some friends in Lindsay, travelling from that town through Port Perry to Cobourg for the celebration. In Cobourg he learned of the lamentable state of the road and governed his returning arrangements accordingly.

The opinion is freely expressed that the matter should not be allowed to rest, and that inquiries should be set afoot to apportion the responsibility.

Royal Trust Company Named As Liquidators

HALIFAX, N.S., July 13 (Canadian Press). — The liquidation of the Dominion Steel Corporation, Limited, was ordered yesterday by Mr. Justice Chisholm, of the Supreme Court of Nova Scotia, and the Royal Trust Company was named as liquidators.

The announcement of the decision featured the special general meeting of the British Empire Steel Corporation called for the purpose of considering the non-approval of the scheme suggested by the management for the re-organization of the enterprise, and President Roy M. Wolvin subsequently announced that an appeal would be entered and a request was made for a stay in the execution order.

CRUISER FLEET ALREADY LARGE NEWS ASSERTS

London Paper Attacks Claims Of Brititsh Naval Experts.

TRADE CAMOUFLAGE.

Empire Now Has More Cruisers Than Three Rivals Together.

LONDON, July 13. —(United Press) —Sharply criticising Britain's cruiser demands at the Geneva Conference, the Daily News to-day pointed out that England's cruiser strength is already seven vessels under the combined cruiser strength of the United States, France, Japan, and Italy.

"Undoubtedly the scattered position of the British Empire," the editorial continues "necessitates a substantial fleet but it is absurb for the "British naval experts to try to justify this amazing preponderence on grounds of protection of trade rountes."

The trade route protection argument, it added, "is not an excuse but a camouflage for cruiser building."

LONDON, July 13. —(United Press) —Canada's part in the tripartite naval conference at Geneva has been under review here and while it is recognized that the presence of Hon. Ernest Lapointe, the Canadian delegate, has been most helpful, there is a feeling among members of the Government that Canadian opinion might have been utilized to show the American representatives just what Great Britain's insistence on adequate naval defence means.

The declaration of Winston Churchill that Britain must consider the safety of her trade routes and the question of feeding her huge population, was addressed to the United States, and is generally applauded today, particularly his argument that as the population of Britain has less than seven weeks supply of feed available, the country's cruiser strength cannot be permitted to fall below a certain proportionate safety line.

Opinion here in the matter is gradually hardening and there is a tendency to believe that the United States naval policy is dictated, not like the Brittish from consideration for the protection of trade, but from the pardonable but dangerous desire to insist upon inevitable naval prestige with Britain solely because she can afford it.

In this connection, Churchill's phase—"I don't believe the power of the purse ever settled or will settle the fate or destitny of mighty nations and communities"— is being considerably stressed.

Gibson Denies Report.

GENEVA, July 13. — (Canadian Press).—Hugh Gibson, chief delegate from the United States to the Tripartite naval conference, this afternoon denied to newspaper reporters that the United States delegation ever demanded the right to build twenty-five ten thousand ton cruisers.

Session To-Morrow.

Delegates to the conference to-day decided to convoke a plenary session to-morrow.

To-morrow's plenary session was arranged, it was learned, in order that assurance can be given that negotiations are continuing in the friendliest manner. The atmosphere at Geneva was most friendly, although the meeting which was held to-day did not result in any agreement on the cruiser problem, the Japanese insisting that they must have real limitation.

NEWSBOYS GUESTS AT MILLER SHOWS

Admitted To All Shows on Producing Badges. Girls There Too.

The newsboys of The Examiner were the personal guests of the Millers Shows at the Exhibition Park last night, the boys having free passes to all the shows on the grounds. And they had "a swell time." The youngsters, for the most part, stayed in one group and went the rounds of the Midway together, casting favorable comment or otherwise on the different amphitheatres as they passed along. It was certainly their night, and they made the most of it, caring for nothing but making the night, through the kind generosity of the Miller Shows, one of success and happy memories after it was all over. "Newsboys" indicate members from both sexes and the girls joined equally with their small friends or brothers in having "the time of their lives." These shows are gaining more and more popularity as the week goes on, and the crowd on the grounds last night indicates that they are meeting with public approval.

THE WEATHER

Yesterday's highest temperature was 84 degrees. The lowest last night was 62 degrees. Much warmer conditions prevailed yesterday in Toronto and the western portion of the province. In the Queen City it was 91 degrees. A heavy wind and thunderstorm prevailed at London, Ont., last evening, and considerable damage was done.—W. P.

WOULD MEAN INCREASE IN NAVY BUILDING

To Maintain Ratio Established At Washington For Capital Ships.

NO DECISION MADE.

Possibility U. S. And Britain Might Sign Treaty For Themselves Alone.

GENEVA, Switzerland, July 13.—(Associated Press).—Japan may not sign the Tripartite Naval Treaty at all, if the total cruiser tonnage goes as high as 400,000 for Great Britain and the United States. Such is the announcement coming to the Associated Press). No definite decision has been made by the Japanese delegation, however, and before such a fateful decision would become a fact the Japanese would refer the question back to Tokio. But the present tendency of the Japanese delegates is understood to be distinctly against affixing Nippon's signature to such a document.

Acceptance of such a cruiser tonnage would mean an extensive increase in naval building for Japan, to maintain the ratio established at Washington for capital ships. At least the diplomatic members of the Japanese delegation are convinced of the impossibility of returning to Japan with a treaty, which to them means, not reduction, not even limitation, but expansion of armaments.

This development in the situation is taken to indicate that too little attention has been paid to the fact that Japan is one of the participants in the conference and that the parley is not confined to Great Britain and the United States.

Two Possibilities.

The revelation of Japan's attitude leads to two possibilities. The first is that the United States and Great Britain might sign a treaty for themselves alone—a project, which, it is believed on good authority, would meet with no objection from the Japanese.

The second possibility is that once this bilateral treaty was signed, Japan and the United States might proceed to negotiate between themselves a special treaty establishing a ratio in the strength of cruisers, destroyers and submarines.

The Japanese would have nothing to say about this second hypothesis. There exists, however, a distinct relation between these two possibilities. It comes about this way. The Japanese feel that if the Tripartite Conference fails as a three-cornered parley, and the United States and Great Britain sign a bilateral accord, establishing parity between the Anglo-Saxon powers in all types of warships, it would be a fair assumption that the United States would not build up to the British strength, notably in cruisers.

Should this assumption prove to be a fact, it is argued that Japan could make a special treaty with the United States which would not entail increased Japanese construction.

Mean Additional Construction.

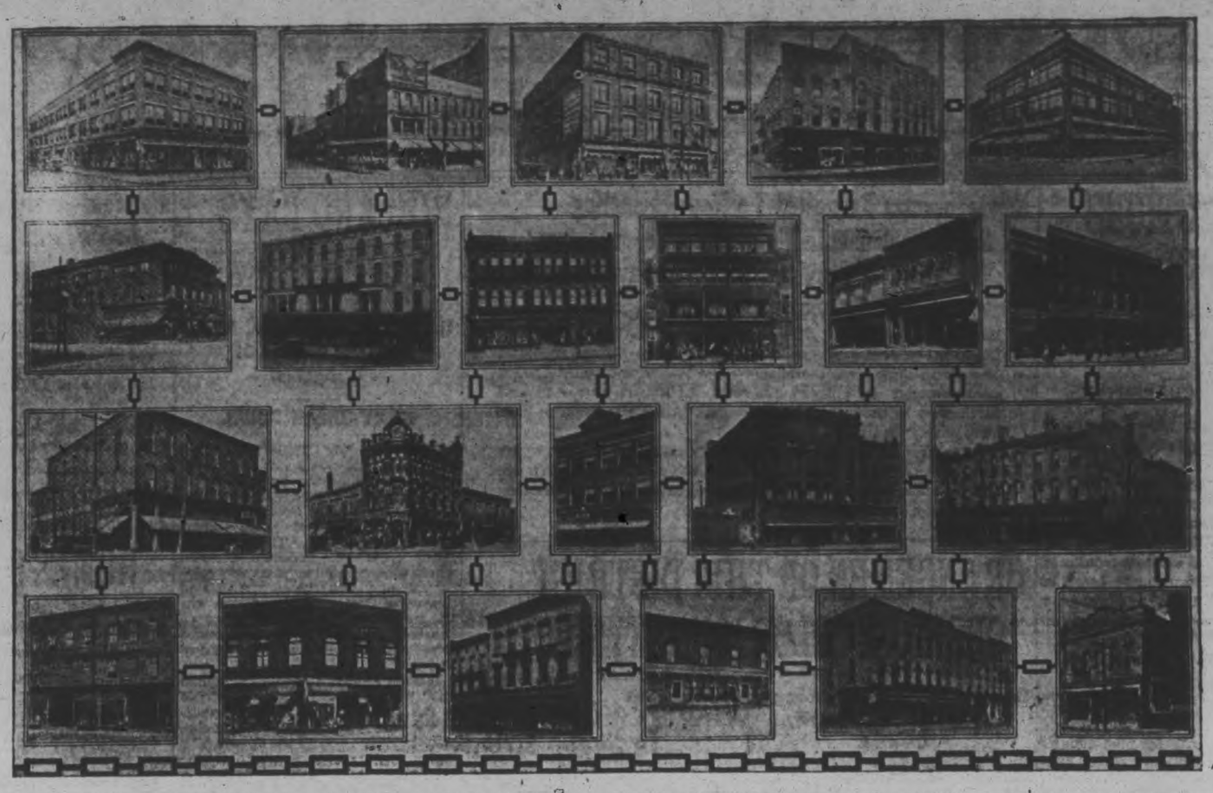
If the United States naval strength is kept considerably below Great Britain's it is contended that the Japanese could have a 60 or 70 per cent. proportion with the United States without expansion of her present navy. The Japanese spokesman pointed out last night that if the Japanese signed a treaty giving 400,000 tons in cruisers to the United States and Great Britain, it would involve the construction of an additional 100,000 tons in cruisers for Japan at the proportion of 70 per cent.

Another fundamental Japanese objection to high cruiser tonnage is that under the British plan cruisers would be divided into two categories, one of 10,000 tons, the other of 6,000 tons or less. Restricting the displacement in the second category to 6,000 tons would be displeasing to the Japanese because it would be impossible to mount 8-inch guns on them. It is believed to be equally objectionable to the United States for the same reason.

It is learned that the Japanese have informed the British that they are utterly opposed to 400,000 tonnage.

The committee of junior delegates which has been struggling valiantly with the cruiser problem has not unearthed the magical formula which spells success.

CANADIAN DEPARTMENT-STORES LIMITED



Above are shown the twenty-two stores which have recently merged to form Canadian Department-Stores Limited, perhaps the most important mercantile movement that Canada has experienced in many years.

These are all old and firmly established businesses, situated in most of the principal distributing towns and cities in Ontario, with one in Montreal, who have combined under one executive management composed of five prominent Canadian merchants, Mr. R. A. Beamish, North Bay, Mr. A. Robinson, St. Catharines, Mr. C. M .Reid, Belleville, and Mr. Chas. Austin, Chatham, with Mr. H. G. Rennie, formerly Assistant General manager of the Robert Simpson Company, Toronto, as President and General Manager.

They have consolidated to reduce the cost of doing business and buy in much greater quantities.

While the chain store idea has developed to tremendous proportions in the United States, this is the first consolidation of department stores which has taken place in Canada and it's progress will be noted with interest.

WRIT HELPS KEEP POLE SITTER ON LOFTY POSITION AT BUFFALO

Injunction Prevents Removal With Fire Hose By Police.

CLAIMS HE IS FLAG.

Code Requires Lowering Of Emblem Only In Case Of Rain.

(By United Press).

BUFFALO, July 13.—Alvin (Shipwreck) Kelly, former world's champion flagpole sitter, who is in training here for an attempted comeback, was buoyed up by an injunction yesterday and rival flagpole sitters contended it wasn't fair.

"It's just like tying yourself on with a rope," one of them contended.

The injunction, however, was Kelly's only alternative to submitting to an attempt of police to drive him down with a fire hose.

Mayor Frank X. Schwab ordered Kelly down yesterday, contending he was a menace to public safety, because pedestrians looked at him instead of watching oncoming motor cars. Police ordered him down. Kelly politely proposed that they come up and get him. The police demurred but got a fire hose and prepared to wash him off the pole.

Kelly, fluttering in the breeze from the Andrews building flagpole, indignantly cited the code of the flag, which, although it requires the appendages of flagpoles to be lowered when it rains, have no provision for washing them down with a fire hose. A flag, Kelly contended, is anything on a flagpole; therefore, technically, his status was that of a flag. And the police didn't show him the respect due an emblem in his position.

Injunction Out.

Supreme Court Justice George Pierece issued a temporary injunction restraining water from the police fire-hose from wetting Kelly, or whatever it is injuctions do. A hearing on whether the writ should be made permanent was scheduled for to-day.

Meanwhile, the police rested on their hose.

Rivals Doing Well.

Kelly is not attempting a championship sit. He plans to remain on the pole only seven days and seven hours. Later he hopes to attempt to regain the championship which he lost to Spirer Haines, who sat for 386 1-2 hours on a flagpole in Denver. Meanwhile, Joe Powers is flagpoling in Chicago and has only three days to go to break Haines' record and become champion.

"Kelly is in good condition and may be able to regain his title, but just the same he isn't the sitter he once was," the wise guys at the flagpole were saying to-day.

"He'll never be the same Kelly he was when he knocked out Willard at Toledo."

France Burns 19,000,000 Francs in Bonds Voluntarily Surrendered to Aid the Franc

PARIS, July 13.—Nineteen million francs in securities yesterday went up in smoke on the altar of the recovering franc.

Solemn ceremonies accompanied the burning of these obligations, which took place in the great blast furnace in the Government Mint, officials of the State in formal dress officiating. The securities thus destroyed were those turned over to the Government by the holders as a voluntary contribution to aid the recovery of the franc which opened a year ago when the financial crisis was at its worst.

Many people brought to the Government bonds and State securities they owned, voluntarily surrendering the benefits of these holding to aid the franc on the exchange market. These obligations have been duly cancelled from those subscribing to the international debt, and it remained only to destroy the documents.

Characteristically, the French Government officials made this into a ceremony and the cremating of these papers was conducted with the greatest solemnity.

N. A. IMRIE AT CHAUTAUQUA

Noted Publicist and Educator to Speak Here.

"Working Together for Billions" Will Be Subject of Tremendously Interesting Discussion.

Norman Allan Imrie, noted publicist and world traveler, has been secured to speak here at the coming Dominion Chautauqua on the vital topic of "Working Together for Billions."

Captain Imrie is a Canadian. He received his education in Canada and

Capt. Norman Allan Imrie

the States and is a tireless traveler and a keen student of history and world politics.

His lecture gives a stirring, forceful analysis of many world problems that are burning issues today. Moreover, he has the rare ability to introduce a sparkling vein of humor which entertains his audience so that laugh follows laugh in quick succession.

Captain Imrie, after three years' service in the World War, in 1920 became a member of the faculty of the well-known Culver Military Academy.

OBITUARY

MRS. FRANK ROGERS.

MARMORA, July 13. — On Saturday afternoon, at Toronto, Victoria, wife of Frank Rogers ,of Marmora Township, passed away. Deceased, who had been ailing for some time, underwent an operation in Peterborough five weeks ago. On discharge from hospital, she went to Toronto to recuperate, but was taken worse, and again admitted to hospital, where she passed away, in her forty-fifth year. Besides her husband, she leaves to mourn her loss a large family of children.

The funeral took place on Monday afternoon at the United Church, Rev. C. J. Beckley officiating. Members of the Masonic Order acted as pall-bearers.

GOOD NAME IS DISPUTED

For quite a long time the white man has taken it for granted that the word "Muskoka" was derived from the name of the famous Indian doctor or conjurer Misquedoh; but one who takes as his authority the "Atlas", written by W. E. Hamilton Esq., has disputed this through the columns of the Press and claims that "as Amerigo filched the honor of sponsorship of this continent from Columbus, so the crafty conqueror Misquedoh (Clear Sky) has been chronicled as the god-father of Muskoka, in place of the undaunted chief tain Mesqua Ukee."

To those who know it, however, the Muskoka district will always be the land of "clear skies" and sparkling waters, and to these as to others who would this year make their first acquaintance with this most glorious and convenient holiday resort district, the Canadian Pacific Railway offers a very complete service. Write W. Fulton, District Passenger Agent in Toronto or ask any Agent for particulars and handsomely illustrated booklets and folders.

DELEGATES TRY FOR NEW ANGLE

Seek Solution of Problem of Limitation of Cruiser Fleets.

STUDY BRITISH PLAN.

GENEVA, July 13 (Canadian Press).—"We are in a bunker, nothing but a niblick can save us," was the golfing metaphor employed today by a Japanese member of the committee which has been charged with going over the new British proposals for cruiser limitation now befors the three-Power Naval Conference.

This committee worked well into the night trying to approach the problem from some new angle, but finally separated agreeing to have another try today. While finding a number of conciliatory suggestions in the British proposals ,the United States doubt whether they will really be efficacious in the direction of effective limitation if they only extend to 1931, as suggested. Such a plan, the United States delegates believe, entails the possibility that the "lid may be off," after 1931 for a renewed race in cruiser construction.

FEELS BETTER AND STRONGER

This is Charles H. Jenkins, 133 Ottawa St., Ford City, Ont., who says: "My Kidneys were weak—had to get up often at night—and my health in general became so affected that I felt bad and run down. Husky has strengthened and helped my kidneys splendidly and made me feel better and stronger in every way." This wonderful herb preparation, Husky, is recommended and distributed by good drug stores everywhere.

OLD MASTERS

There lived a sage in days of yore,
And he a handsome pigtail wore;
But wondered much, and sorrowed more,
Because it hung behind him.

He mused upon this curious case,
And swore he'd change the pigtail's place,
And have it hanging in his face,
Not dangling there behind.

And though his efforts never slack,
And though he twist, and twirl, and tack,
Alas! still faithful to his back,
The pigtail hangs behind him.

—William Makepeace Thackeray: A Tragic Story.

A scientific expedition in South America has discovered a tunnel three miles long and several inches in diameter, made and regularly used by ants.

South African Claims a World's Record For 100-Mile Run in 14 Hours 45 Minutes

BULUWAYO, Southern Rhodesia, July 13 (A.P.). — Arthur Newton, South African long distance runner, claims to have established a new amateur world's record by running 100 miles over a course from Gwelo to Buluwayo in 14 hours 45 minutes. The distance was officially measured and three official timekeepers were employed.

No world's record for running 100 miles is listed, according to The Associated Press, but the best recorded American track mark for the distance is well behind Newton's figure. In covering a total distance of 120 miles at New York on February 21-22, 1882, J. Saunders was timed at the 100-mile mark in 17 hours, 36 minutes, 14 seconds.

Harry Duell, Minneapolis truck driver, ran 90 miles in 13 hours, 15 minutes, last April a record for this distance which compares favorably with Newton's performance in South Africa.

CRISIS IN RUSSIA WILL COME DURING FIRST WEEK IN AUGUST

Chief Communist Committees Will Take Up Intraparty War.

CRITICAL QUESTIONS.

Disciplng Of Trotsky And Zinovsion. Poland Aggression Problem Faced.

MOSCOW, July 13. —Sunday of the first week in August will be a crucial date in Russian history because it is reserved for a joint plenary session of the Central Committee of the Communist Party and of the Central Control Committee, which will be called upon to make some of the gravest decisions the Bolsheviki have ever faced.

Actually the Central Committee is the supreme executive body in the former empire of the Czars because it is the supreme executive body of the Communist Party which governs that empire.

The Politburo, generally supposed to be supreme, is just a small group of leaders to whom the Central Committee delegates its powers for working convenience. Theoretically, at least, the Politburo's decisions require the approval of the Central Committee, and there have been occasions when that approval was nnt forthcoming and the decisions have been reversed.

The Central Control Committee is the supreme disciplinary body of the Communist Party on questions of party doctrine and conduct. It may be called the keeper of the party conscience. At the August session the members now abroad will be present, Kamenef, Rakowski and Krestinski, Ambassadors at Rome, Paris and Berlin, respectively, whereof the two former are reputed to belong to the intra-party opposition which the session will be called on to condemn once and for all by the expulsion of its leaders, Trotsky and Zinovieff, from the Central Committee.

Critical Questions to be Faced.

But there are other questions hardly less poignant than disciplining the two men who, after Lenin, have had the greatest claim in the eyes of the Russian people to the successful establishment of the world's first proletarian republic, whose long delayed reply to the peremptory Soviet demand for suppression on Polish soil will reach Moscow before the session is convoked.

Poland, more than ever to-day, to Russian eyes is the stormy petrel of Eastern Europe and is to Russian eyes the catspaw of British imperialism and British hate. Should the Polish question lose its acuteness, that will be the result of the successful intervention of the respective Foreign Offices, both of which are straining every nerve to reach a mutually satisfactory settlement.

There remains the basic question of England and the armed aggression the Bolshevikis believe she is preparing. Where, when and how it will come, no one knows, but that it will come every one believes.

Of all these questions, the fate of Trotsky and the opposition is primordial and the most important because the issue of that struggle, now brought to a head, everything else may depend.

A fortnight ago there were few in Moscow who would predict anything save the expulsion of Trotsky and Zinovief from the Central Committee which would have the effect of enormously hampering any renewal of their attack at the Communist Party congress next November.

New Antiseptic Becomes Popular

Affords prompt relief for sore throat and Tonsilitis

Ever since the discovery of germs, and their relation to disease, men of science have bent every effort toward the development of preventive measures for combating infections at their source.

The problem of securing a germicide which is strong enough to do this, but which will not harm the most delicate membrane, has been solved by the discovery of Dr. Chase's Every-Day Mouth Wash.

Although prepared primarily as a Mouth Wash, the healing and non-irritating qualities of this lotion make it an ideal general antiseptic. It can be used effectively in the nasal passages, throat, skin tissues, and for every purpose for which a healing lotion is needed.

For sore throat and tonsilitis Dr. Chase's Every-Day Mouth Wash is most effective in affording prompt relief. While it destroys the germs it is also delightfully soothing and healing to the delicate irritated linings of the throat.

It is a fine habit to rinse the mouth after each meal with Dr. Chase's Every-Day Mouth Wash. In this way the teeth and gums are kept in a healthy condition, the mouth is clean and antiseptic and you safeguard yourself against sore throat, tonsilitis and other germ diseases, most of which have their beginning in the throat.

Dr. Chase's Every-Day Mouth Wash, at all dealers or The Dr. A. W. Chase Medicine Co., Limited, Toronto.

MLLE HORTENSE VISITS SIR HUGH

Daughter and Son of Two Of Canada's Great Statesmen.

REMEMBERED AS BOY.

WINNIPEG, July 13. — Of all the events which have pressed upon Canada during celebrations of her Diamond Jubilee, there was nothing more romantic, nothing with greater appeal to the imagination and heart of the people than the meeting in Winnipeg on Monday of two children of the greatest of the Fathers of Confederation.

On Monday Mlle. Hortense Cartier paid a visit to Sir Hugh John Macdonald, who recently lost his right leg. The aged daughter of the great Georges Etienne called on the aged son of the great John A.

"I'm afraid I'm going to cry when I see Hughie," said Mlle. Hortense to her cousin Jacques, on their way to Sir Hugh John's home. "I remember him as a little red-headed boy. He was so full of spirit. Now we are both old."

AVIATOR IS SAFE.

Captain Laurence Arrives in Halifax Some Hours Latae.

HALIFAX, July 12. Canadian Press —Captain Lawrence, of the Royal Canadian Air Force, who left Ottawa yesterday for Halifax in a small moth type aeroplane, to join the Hudson Bay party here, reached the city safely this morning. Some anxiety had been felt when he failed to arrive last night.

ENNISMORE NEWS.

ENNISMORE, July 12.—Miss Agnes O'Connor, of Detroit, is visiting friends here.

Mr. and Mrs. M. Conway and daughter Nellie, of Windsor, were guests at the wedding of Mr. and Mrs. Leo Conway.

Mr. E. Sullivan and son Eugene, of Niagara, Mr. J. A. Hickson and Josephine of Lindsay, were visiting friends here on Wednesday of last week.

Mr. and Mrs. Garvey, of Downeyville, attended the funeral of the late Edward Perdue.

The many friends of Miss Grace Shannon, of Peterborough, are glad to hear she is recovering favorably after her recent operation in St. Joseph's Hospital.

Mr. and Mrs. Louis Schnitzler and little son Gerald and Mrs. Thomas O'Heron and family, of Toronto, and Gertrude Fitzpatrick, called on friends here on Tuesday.

Mr. and Mrs. John Flood, of Detroit, are spending a few days with the former's parents, Mr. and Mrs. Thomas Flood.

Mrs. B. Harrington and Mrs. R. Hickson were visiting the former's sister, Mrs. M. Ryan of Douro on Tuesday.

Brooms have been replaced by vacuum cleaners in the barracks of the French armies.

BRITISH PRESSMEN TO TOUR DOMINION

OTTAWA, Ont., July 13. Canadian Press. — The party of British newspapermen and their wives, that will arrive in Quebec on August 12th, will pay a visit to the Prince of Wales' ranch at High River, Alta., on Aug. 24th, according to word received from England yesterday. It is expected that the Prince and his brother, Prince George, will be at the ranch at that time, and that they will personally receive the visitors.

The party will be the most distinguished newspaper group that has visited Canada since the Imperial Press Conference in 1920.Newspapers from all over Great Britain will be represented. These include the Liverpool Post, Yorkshire Post, Birmingham Gazette, Dundee Courier, Bristol Times, Huddersfield Examiner Peterborough Advertiser, Swansea Post, Cardiff News, Bedfordshire Times and many others. The party will be headed by John S. King, president of the English Newspaper Society and will include such well known British newspapermen as Sir Richard Winfrey, Arthur Grime, A. Woodhead, John Buchan, Colonel, Grimwade, Hugh Mackay, Browning Lyne and T. T. Stanley. The purpose of the visit is to get first hand information regarding Canada.

Welcomed by Officials.

On arriving at Quebec the party will be welcomed by Premier L. A. Taschereau, the city officials, and newspapermen, and will be entertained by the Lieutenant-Governor at Spencerwood his official residence.

Premier Baxter will greet them in New Brunswick, and in Montreal Lord Atholston and the Mayor have charge of the programme.

At Ottawa the party will be received at Rideau Hall by Viscount and Viscountess Willingdon, and the Dominion government will also entertain in their honor. The party will proceed to the west where the various provincial governments, civic officials and newspapermen are combining in arragging attractive programmes. They will arrive back in Toronto on the morning of Monday, September 5th, after stopping in several mines in Northern Ontario, and will be the guests of the Canadian National Exhibition that day.

Breakfast! -come on boys!

MOTHER doesn't need to call twice. Jim and Terry are at the table in a jiffy. Summer holidays—carefree days—hikes, baseball, fishing. Jim's just passed the entrance and Terry is trying next year. Every morning a half-mile run before breakfast gives them an appetite like a bear's. When breakfast is ready, so are they.

A heaping dish of Quick Quaker and fresh milk—nothing so nourishing for expanding muscles and lengthening limbs.

Quick Quaker cooks in 2½ to 5 minutes. Doesn't heat the kitchen. Packages marked "Chinaware" contain a beautiful piece of fine table china decorated in blue and gold.

QUAKER OATS—*You have always known*

SOCIETY

Mr. and Mrs. J. J. Duffus and family are at their cottage in the Annex, Chemong Park.

• • •

Mrs. E. J. Wagar, Lock Street, is spending some time at Cedar Crest Camp, Varty Lake, Yarker, Ontario.

• • •

Mr. and Mrs. W. Belleghem have opened their summer cottage at Chemong Park.

• • •

Miss Anne Huycke has been spending the past week, the guest of Miss Anne Kemp, 158 Smith Street.

• • •

Mrs. E. Jenkins, 94 Gladstone Avenue, announces the engagement of her second daughter, May, to Mr. William H. Sickler, eldest son of Mr. and Mrs. H. Sickler, Rubidge Street, the marriage to take place the latter part of this month.

• • •

Four visiting ladies were in the city this morning "paring" the local golf course. They were Mrs. Rowe and Mrs. Whittington of Toronto, Mrs. Graydon of London, and Miss Hazlett of Hamilton. The actual playing, witnessed by quite a large gallery of local ladies, was done by Mrs. Graydon and Mrs. Whittington, the latter making the best score of thirty-nine. They were entertained at luncheon by Peterborough lady players, leaving later by motor for Lindsay, where they were to par the course this afternoon.

• • •

Mr. Edgar Burnham, of St. Petersburg, Florida, arrived in the city yesterday afternoon, after a hurried journey from the South, to be present for the funeral of his wife, who died at Chemong Park on Saturday.

• • •

A group of young men, Horace Griffith, Al. Grayson, Dorian McDonald, W. Collins, L. McDonald, I. Patterson, W. Jopling, and Bert Cowan, are occupying one of Mr. J. K. Hughes' cottages at Chemong Park.

• • •

Dr. Beer, of Toronto, is a guest of Dr. and Mrs. C. C. Cragg at Chemong Park.

• • •

Mr. and Mrs. Albert Benton, of Detroit, and daughters Beatrice and Dorothy, Mrs. Cliff Clarke of Belleville, and Mr. Thomas Benton of Sault Ste. Marie, Michigan, are in the city, having been called here by the death of the late Mr. George Benton, Senior.

• • •

Mr. J. Hampden Burnham left today to spend several weeks in New York State.

• • •

Mr. and Mrs. H. E. Tillcock, Bolivar Street, have taken Mr. James Long's cottage at Chemong Park for the month of July.

• • •

Mr. John McGrath left for his home in New York this morning, after spending the past week with Mr. F. Driscoll, in Ashburnham.

• • •

Mr. and Mrs. Badley, of Toronto, are at Mrs. J. Pope's cottage in Chemong Park for the month of July.

• • •

The weekly luncheon of the ladies of the Peterborough Golf and Country Club was held yesterday, with twenty-six ladies present. Mrs. J. W. McDermid was bridge hostess, the prize being won by Mrs. F. L. Roy. Miss Marjorie Hatton was in charge of the competition for approaching and putting, and won the contest.

• • •

Mr. and Mrs. Lou Ingram are occupying Mr. Archer's cottage at Chemong Park.

• • •

Mr. and Mrs. Archie Dunlop, of New York City, formerly of Peterborough, are at the Munro House. They are visiting friends and relatives in the city, and leave for Grafton on Saturday, to spend some time with Mrs. Dunlop's sister, Mrs. Clitheroe.

Mrs. Stanley Warren and son Allan, of Toronto, are spending the summer with Mr. and Mrs. Edward Doleman, 42 Edison Avenue.

• • •

Rev. Harold Young, of Toronto, was in the city to-day for the funeral of the late Mrs. Edgar Burnham.

• • •

Mr. and Mrs. T .C. Elliot are at their summer home at Stoney Lake.

• • •

Mrs. S. Mount Stephen, of Toronto, is the guest of her mother, Mrs. A. Nicholls, 909 Water Street.

• • •

Mr. and Mrs. Gordon Hamblin (nee Thelma Law), of Cleveland, Ohio, spent their honeymoon with the former's parents, Mr. and Mrs. Arthur Hamblin, 287 Dalhousie Street.

• • •

Mr. and Mrs. W. J. Squires and family, of Toronto, are at their summer home at Hatrick's Bay, Rice Lake, where they will spend the summer.

• • •

Rev. P. Galvin, of Downeyville, was in the city last evening for the annual social of the Sacred Heart Church Parish.

• • •

Dr. and Mrs. W. D. Clark and family spent yesterday in Bowmanville.

• • •

Mr. and Mrs. Edward Clark, of Cornwall, Ontario, left on Saturday for Oshawa, en route to their home, after spending the past week with their brother and sister, Mr. and Mrs. James S. Clark, 616 Union Street.

• • •

Miss E. J. Aldridge, Water Street, is spending a fortnight at Elgin House, Lake Joseph, Muskoka.

• • •

Miss J. B. Elliott, B.A., of the Brantford Collegiate Institute staff, has returned from a fortnight's trip to New York City, and will spend the remainder of her holidays with her parents at their summer cottage at Larkston Falls, Stoney Lake.

• • •

Mrs. M. Ashley and son, of Stirling, spent the week-end with Mr. and Mrs. James S. Clark, Union Street.

• • •

Mr. Dan LeBarr, son of Mr. and Mrs. J. W. LeBarr, Charlotte Street, left for Ottawa, where he has accepted a position.

• • •

Mr. Leo Picard has returned to Lansing, Mich., after spending a week with his mother here.

• • •

Mr. and Mrs. James Guiry and little daughter Edith motored to Detroit this morning to visit friends.

• • •

Rev. P. Butler, of Cobourg, was in the city last evening for the annual social and supper at the Sacred Heart Church grounds.

• • •

Mr. Harry Clark, of Stirling, spent the week-end with Mr. and Mrs. Jas. S. Clark, Union Street.

• • •

Little Bertille Hurley, the ten-year-old daughter of Mr. and Mrs. W. H. Hurley, of Norwood, has passed with honours her High School entrance examinations at Norwood. The clever little pupil is a granddaughter of Mrs. Hurley, Simcoe Street, and a niece of Rev. P. J. Galvin of Downeyville.

• • •

Mr. and Mrs. R. W. Davidson, Antrim Street, have opened their summer home at Chemong Park.

Miss Muriel McGinnis, of 141 London Street, accompanied by her mother, Mrs. H. G. McGinnis, of Omemee, left this morning for Toronto, where Miss McGinnis, who recently won the contest conducted locally by the Capitol Theatre, in conjunction with other Famous Players theatres throughout the Province, will be "Miss Peterborough" at the competition in Toronto. This takes place all week, between entrants from various towns and cities in Ontario, and about thirty young ladies are expected to be entered in the contest for the first prize, a trip to Hollywood, California, and an Overland Whippet car. Other prizes are a Whippen roadster, and cash prizes of $200, $100, with two last prizes of $50.00 each. The expenses of the winner of the grand award and her chaperone will be paid to Hollywood, where she will be given an opportunity to engage in screen contests. The expenses of all the young lady entrants are also paid to Toronto, with those of their chaperones, and they will be considered as guests of the Famous Players Corporation during their stay in the city. Each young lady will be greeted by Miss Lillian Scott, of the Publicity Department of the Famous Players Corporation, and will have a car and a chauffeur at her disposal during the entire time. They, with their chaperones, will have suites at the King Edward Hotel, and numerous social affairs are being arranged for them. The finals of the contest take place at the Uptown Theatre on Saturday evening of this week, when the prizes will be awarded.

• • •

Mr. Augustus Sawers is celebrating his birthday today.

• • •

Miss Myrtle MacDonald and Miss Cleo Fowler are in Toronto today.

• • •

Mrs. Ramsay, a vistor to this city, is celebrating her birthday today.

Evening Examiner Fashion

A Modish Costume

Exceedingly smart is this chic costume showing the effective use of two materials. The skirt has an inverted plait at each side and is joined to the bodice having a square neck, long sleeves gathered to wrist-bands, and a trim belt. The accompanying jacket is fashioned of the same material as the lower part of the dress and the contrasting material is used for the facing, cuffs finishing the two-piece sleeves, and laps on the set-in pockets. NO. 1584 is in sizes 34, 36, 38 and 40 inches bust. Size 36 requires 1⅞ yards 39-inch material for lower part of dress; 1⅝ yards 39-inch material for upper part of dress and trimming on coat; 1¾ yards 39-inch, or 1½ yards 54-inch material for coat. Price 20 cents the pattern.

The designs illustrated in our new Fashion Book are advance styles for the home dressmaker, and the woman or girl who desires to wear garments dependable for taste, simplicity and economy will find her desires fulfilled in our patterns. Price of the book 10 cents the copy.

HOROSCOPE

The Stars Incline, but do not Compel.

Thursday, July 14, 1927.

(Copyright, McClure Newspaper Syndicate.)

Many unfavorable aspects are seen by astrologers in to-day's configuration which reveals strongly menacing signs.

Again farmers are to register discontent, which may affect political plans, the seers foretell.

Added power for all who till the soil is indicated, for increase of food prices will inspire political action.

The rule is not a fortunate one for persons in high office, since envy and jealousy may develop enemies where friends were formerly counted.

Astrologers remind the public that they warned of plots and dangerous activities on the part of Russia and Soviet leaders immediately after the World War.

Under this direction of the stars there may be undue stress put upon race consciousness. The sway is supposed to encourage pride and prejudice.

The rule to-day is not a beneficial one for women who will find later, the seers declare, that they are going through a period of preparation for public service.

For the Pacific coast there is the augury of events that focus national attention and bring to its cities men and women of world prominence.

Increase in the birthrate is indicated, a sign that is of sinister meaning when other signs are analyzed.

Loss of population through war or disaster is supposed to be presaged when an extraordinary number of children are born to a nation.

Prophecy that certain cities and towns would be destroyed by fires or floods, made by astrologers, is to be proved even more convincingly than it has been in spring disaster, the seers foretell.

Persons whose birthdate it is may have unusual temptations in the coming year and they should be most cautious.

Children born on this day may be too good-natured and easy-going for their own good. They are likely to be exceedingly charming and talented.

WHO WROTE THIS ?

(Copyright, 1927, by The McClure Syndicate, Inc.)

1. "Nothing is there to come, and nothing past,
   But an eternal now does always last."
2. "One's outlook is a part of his virtue."
3. "But shapes that come not at any earthly call,
   Will not depart when mortal voices bid."
4. "A man is very apt to complain of the ingratitude of those who have risen far above him."
5. "Think all you speak, but speak not all you think."
6. "Lest men suspect your tale untrue,
   Keep probability in view."
7. "The kings of modern thought are dumb."
8. "Our sympathy is cold to the relation of distant misery."

NO SUGAR.

Never put sugar in prunes. If you cook them slowly they will be quite sweet enough with out any sweetening. Prunes and apricots are delicious cooked together, and a few raisins thrown in for good measure adds to the flavor.

SAINT and SINNER

By ANNE AUSTIN

(Continued from yesterday.)

Her baby was exactly three weeks old when Cherry came home from the hospital. Ten-year-old Joy, at the suggestion of Dr. Atkins, who had been concerned about her health, had been packed off, jubilant, to a girls' camp in the mountains. In place of her bed in Cherry's room stood a beautiful little crib, painted a pale green, with tiny clusters of pink roses.

Cherry surveyed her changed room with shining, golden eyes, then grinned a little ruefully at Faith. "I don't know what in the world I'm going to do with this little red-headed brat of mine. If she cries during the night I'll be perfectly helpless. The baby didn't sleep with me, you know—slept in the infants' ward, along with forty-leven other champion little squealers. But there was no chance of my getting somebody else's baby by mistake. Not with that hair of hers!"

She was holding the baby on her lap, and to Faith, looking on with fond, amused eyes, she seemed like a little girl playing with a doll—a particularly lifelike little doll, chosen because of its copper-and-gold fluff matching her own short, rioting curls.

"I'm going to keep her in my room for a few nights, until you're stronger," Faith decided suddenly.

"Oh, would you?" Cherry was pathetically relieved and grateful. "I—I feel so helpless. Isn't she a love, Faith? Did you ever see a more beautiful baby in all your life? Her precious skin is getting to be as white as milk. I do believe she's going to have a complexion just like mine," she added complacently. "With your eyes and my hair and complexion this little midget is going to grow into a heartbreaker, aren't you, you precious?"

When Faith called Bob from the living room, where he was browsing through the Sunday paper, to remove the crib from Cherry's room to their own, he gave her one long, level look, then shrugged his shoulders slightly. It was a look that said as plainly as words, "I might have expected this. You're going to be this baby's slave, spare Cherry all the bother and worry of raising her baby, spoil it and her, just as you've always spoiled Cherry—"

Faith flushed, but with Cherry looking on, the lids drooping with weariness over her golden eyes, she could not justify herself. And she wanted the baby. It had been a positive agony to give the child back to the nurse at the hospital. The very flesh of her arms ached in loneliness and almost terrifying desire for the feel of the tiny body. Now, as Cherry sat with the infant in her lap, fluffing the red-gold floss that was already long enough to show an enchanting curl, Faith felt an almost fierce jealousy. It was all she could do to keep from snatching the baby from its mother. She was passionately grateful to Cherry for her helplessness, which would give into her own hands the sole care of the infant, during the nights at least. There was only a fleeting fear in regard to Bob. Of course he would not like it just at first—having the baby in their hitherto sacredly private bed room, the only privacy they had managed to keep after the arrival of the family—but he would get used to it—he would love the baby, too, already loved it with indulgent amusement.

Bob, with rather a grim look on his face, carried the crib from Cherry's room.

(To be continued.)

GIRLS IN BUSINESS

A Series of Five Messages

By CYNTHIA GREY

No. 4.—CLOTHES AREN'T EVERYTHING.

It seems only a year or so since ministers and moralists and advisers and authors and their ilk stopped razzing the business girl for wearing silk stockings to work—or anywhere else for that matter!

Even to-day, either some prurient-minded soul or a lady of fashion who asks "how can you tell us from the working girl if we all dress alike?" speaks her little two cents worth about the working girl's silk stockings.

But on the whole the silken-sheathed calf is now accepted as casually as lipsticks, rouge, tomatoes and lettuce out of season, and automobiles on a $100 income!

Perhaps we really can't afford them, but it's so nice to live in an age with an exalted standard of living, and one might hunt many a moon with a high-powered microscope to find any female office inhabitant with cotton hose to-day!

Accepting silken hose whole-heartedly as we do, however, we admit that some phases of the business girl and her clothes do strike us as a problem, even if not a capital-lettered PROBLEM!

There was a time when business girls, unaccustomed to handling their own money, and rather generous money for merely personal adornment, lost their heads, didn't know how to dress, merely wanted to spend their money riotously.

As a result offices looked more like restaurants at the tea dansant hour. Earrings, necklaces, bracelets, jeweled hairpins, chiffon and georgette, low-necked, no-sleeved dresses, made offices most distracting to would-be workers.

This was the age when wives of husbands invaded offices, demanding that this sweet young thing and that sweet young thing be fired all because they feared the siren's lures as too potent for weak man.

Another Era.

But experience has taught the business girl much. To-day she dresses sanely and becomingly. Trim tailored dresses and suits are the piece de resistance of most offices. And worn-out evening gowns rarely grace the typewriter nowadays.

Girls, have realized that the major part of their lives is spent in the working world. Their clothes are bought primarily for that, with the result that the main criticism now of the business girl's dress is her carrying into play hours the working costume rather than the carrying of the play costume into working hours.

And just because good taste does so prevail in the realm of the business girl and her clothes to-day and because good taste means the spending of even more money than does poor taste, I wonder if to-day's problem centering about the business girl's clothes isn't the fact that she makes them too much her all-in-all, thus dwarfing her general well-rounded mental and spiritual growth?

How very few business girls look upon their money as anything but a purchasing agent for duds! Many of them live at home, not even paying board. They give mother a set of jade crystal salad plates for Christmas and a new handbag for her birthday, and that's that!

Their $100, $150, $175, $200 a month income can be spent on fur coats and nude hose and French perfume and marcels for self alone! And is!

My young friend, Margaret, told me when we were lunching a day or so ago, how she came to see the light:

"You know, for years," Margaret said, "our office gang went to lunch together and then raced through the stores hunting some fool gimcrack to buy. I wager that in the five years I've been working I've bought a thousand miles of ribbon, hundreds of silk stockings I didn't need, a ton of face powder, a water ank full of perfume, to say nothing of incense burners and atomizers and vanity cases and new mesh bags with a lipstick hidden in the fringe.

"Whenever I needed a really big thing like a dress or coat or pair of shoes I didn't have the money."

"Then Grace Marks came to the office. The other girls thought her queer. She didn't dress like a Queen of Sheba, but she dressed well enough and was neat and clean and attractive. She talked something besides clothes. She did amateur photography and she took swimming and dancing lessons.

A Good Example.

"Well, I got to going out to lunch with Grace. She rarely went shopping. Nearly always steered for the library or a book store or an art store. She was studying up on lace and pottery and she taught me about the fascination of finding real lace or knowing where a certain piece of pottery came from!

"I got to feeling like a perfect ninny! I'd never even looked at painted tiles and etchings and real lace or gone into a music store to listen to opera records on my lunch hour.

"I realized that since I began to work clothes and knick-knacks had been my one interest since I started to work, I had become an inane nincompoop.

"Grace said one day, 'I've seen too many middle-aged women without an interest in life to dare let myself stop developing hobbies and interests.'"

Grace and Margaret have the right idea. Clothes are necessarily and rightly a big interest of the business girl—but not everything!

And the average business girl is in danger of forgetting until she wails about "Betty Brown's taking a trip to Europe this summer. How in the world can she do it? She's never made any more than I have!"

But Betty Brown was not an office manikin, that's all.

PUDDINGS FOR DESSERT.

There is one thing in favor of puddings for dessert that makes the dish a trequen selection, and that is that the average simple pudding can be used for the little ones as well as the adult members of the family. Here are two recipes that have been found unusually delicious, and yet are simple to prepare and economical:

Why there is No Substitute for ENO

Because
ENO is recognized by the people of every nation as the finest, safest, and most pleasant laxative aid to good health. *ENO has many imitators—but no rival!*

Because
ENO first thing in the morning is the natural way to ensure internal cleanliness. *ENO has many imitators—but no rival!*

Because
ENO contains no purgative mineral salts, no sugar, no flavouring matter, nothing injurious. *ENO has many imitators—but no rival!*

Because
ENO is always the same perfect product, unvarying in quality, composition and purity wherever bought. *ENO has many imitators—but no rival!*

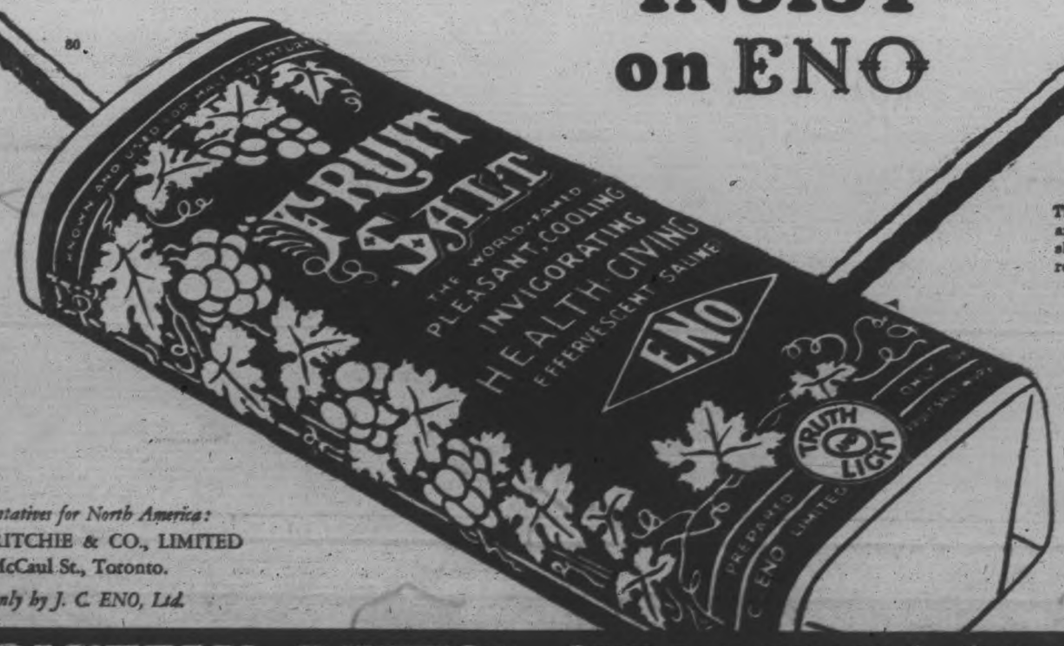
Because
ENO has triumphed over every test of time and usage—for nearly sixty years it has been the standard saline laxative among enlightened races. *ENO has many imitators—but no rival!*

Because
ENO has the world-wide approval of doctors, who are among the most regular users of "Fruit Salt." *ENO has many imitators—but no rival!*

Because
ENO is non-habit forming. Its action is safe and sure. *ENO has many imitators—but no rival!*

Because
ENO always produces a pleasant drink—sparkling, effervescent, cooling. *ENO has many imitators—but no rival!*

— So if you are offered a Substitute — Refuse it and INSIST on ENO



The words "Fruit Salt" and ENO, and the label shown on the package, are registered trade marks.

WEDNESDAY, JULY 13, 1927.

DRIVERS' LICENSES.

It is evident that a lot of motorists have only a hazy idea of the regulations in regard to the new drivers' licenses.

The impression seems to be general that if a person has driven a car more than 500 miles he is eligible for a license without being examined.

That conception of the legislation is wrong.

Unless a motorist has been driving for at least six months, it makes no difference how many miles he has covered, an examination is necessary before a license can be issued.

New drivers and old ones for that matter should not delay making application for licenses; the time is getting short, and once the police begin checking up the credentials will be necessary.

Motorists who have been driving at least six months and have driven at least 500 miles are in most cases being granted licenses without examination.

They, however, should understand that it is as easy to lose their privilege of driving as it is to get a license, and that for wild or recklessly driving their right to sit at the wheel of a car can be taken away from them—all will be, according to the statements of Ontario Highway Department officials.

FINE SHOOTING.

The fact that the Canadian team at Bisley has captured the Imperial Kolapore Trophy for the third year in succession will cause a general feeling of pride throughout the Dominion.

The Kolapore competition is the outstanding team contest of the Bisley programme, and is open to teams from Great Britain and the overseas Dominions.

Altogether Canada has captured this trophy twelve times, and the feat of the Canadian marksmen in winning the Kolapore for three years in succession is evidence that the all-round shooting ability of the Maple Leaf riflemen is able to successfully stand the test of Empire-wide competition.

In yesterday's shooting the Canadians were behind at the first stage, but their steadiness and accuracy at the other ranges enabled them to come from behind and make their record in this feature competition three straight wins.

In other contests individual Canadian marksmen have made an excellent showing, while a feature that is of much significance and interest is the fine shooting being done by the cadets from Hamilton, Ont., one of whom, Lieut. Matchett, is a former resident of Peterborough.

The work of these young riflemen indicates that Canada's Bisley teams of the future will continue to be strong.

USEFUL TRAINING.

That was an interesting bulletin from Camp Rotary in The Examiner last evening, interesting not only because of its general news, but particularly so because of the details given in regard to the swimming and boating tests that are being taken up as part of the camp routine.

It is evident that the boys who attend the Rotary Camp will gain something more than an enjoyable holiday under ideal conditions.

They should bring away with them knowledge that as Canadians living in a land of rivers and lakes should be of permanent value to them.

Three grades of swimming tests are laid down, and the boy who can qualify as a Grade I. swimmer can take of himself anywhere in and around the water.

It is especially satisfactory to note that in all three grades the boys must be able to demonstrate modern methods of resuscitation.

The technique of resuscitation as now practised is simple, but unfortunately only one adult in a hundred knows what to do in cases when it is necessary to induce artificial respiration, and undoubtedly lives have been taken that could have been saved had those on the scene known how to go about reviving the victim.

The boys at Camp Rotary are combining valuable knowledge with a lot of wholesome fun, and they will be better and more useful citizens as a result.

FROM THE WRONG ANGLE.

Several Ontario newspapers, commenting upon D. B. Hanna's statement that so far under the operation of the Ontario Liquor Control Act only 120,000 permits have been issued in Ontario, express surprise that such a small number could have succeeded in persuading the electorate to reject the Ontario Temperance Act.

Thus The Ottawa Citizen:

"One wonders how these 120,000 persons who took out permits were able to make such a tremendous racket as to induce a majority of the electors of this Province to vote for the repeal of the O.T.A. There has seldom been a case of a small minority influencing a huge majority, of the tail swinging the dog."

And The Toronto Globe:

"The amazing thing is that this minority should have been able to influence the electors of a Province of 3,000,000 people to change a law which, according to the highest authority, has made Ontario a temperate Province."

It would seem from these statements that The Citizen and The Globe have been studying the last election from a wrong angle.

If the repeal of the Ontario Temperance Act had depended upon the votes of those who wanted to drink liquor the Act would still be on the statute books.

Thousands of Ontario people who are total abstainers or who used liquor at rare intervals voted for Government control because they regarded the Ontario Temperance Act as a mistake, a measure wrong in principle and impossible in practice.

Such voters are naturally not flocking to become customers of Mr. Hanna's stores.

Some of them never will be; others are satisfied to know that if they want to buy liquor they have now the privilege of doing so legally and under decent conditions.

It was because such people resented legislation that deprived them of what most of the nations of the world regard as personal liberty that they turned down their thumbs for the Ontario Temperance Act—not because they wanted to see how much liquor they could consume once it was placed on sale.

The fallacy of lining up all the opponents of the Ontario Temperance Act as drinkers surely must be apparent to everyone by this time.

MR. FORD'S REPUDIATION.

As a result of the manufacturer's repudiation of his own magazine's articles, it is expected that a settlement will be made in Mr. Aaron Sapiro's million dollar libel suit against Mr. Ford. Much evidence in this suit was heard in Detroit a few months ago, but the hearing wound up in a mistrial owing to the indiscretions of a juror. It seems not unlikely, also, that another libel action, instituted by Mr. Herman Bernstein, a New York writer, will also be settled as a result of Mr. Ford's confession.

The Sapiro suit in Detroit served an excellent purpose. It threw the spotlight of publicity on Mr. Sapiro's excellent work for farmers' co-operative organizations, and the Dearborn Independent's attitude toward Jewish financiers. Indeed it is not too much to think that Mr. Ford's statement of yesterday is the direct outcome of that action and of the other one that is pending. If this is the case, the suits have been useful. Why any man or any publication should wish to attack the Jews or any other class of people as has been done, apparently, by the Dearborn Independent is beyond satisfactory explanation. Why any man should seek to raise a hand against his fellow-men who have never harmed him and who bear no ill-will toward him, is an unanswerable question. Intolerance, however, the greatest evil of this and all other ages, still rears its ugly head. There are societies in opposition to this and in opposition to that. Men band themselves together for the sole purpose, seemingly, of hurling insults at some other section of the community and of rendering life unpleasant for the other fellow. Many men are making their livelihood by trading in human hate. It is ghastly, but it is true.

Mr. Ford is usually spoken of as a kindly and well-disposed man. He is not of the type, one would think, to wantonly attack his fellow humans. Yet there is no denying that a paper owned by him and carrying his name, has achieved an international reputation for its attacks on Jews. The responsibility is Mr. Ford's. If he has no time to look at his own paper or to scrutinize the matter going into its columns, then he should not be in the publishing business. Perhaps it is but one more example of getting into an outside line for which he is not adapted, either by temperament or training. In the end, he may have taken the only course possible, but it will be distressing, to newspapermen everywhere, to see Mr. Ford "passing the buck" to the writers who work for him.

The Ford incident is not without its good points. If it has done nothing else, it has drawn forcibly to the world's attention the silliness, the futility, the cruelty, of hate campaigns. Racialism has been stressed out of all proportion to its importance. Men go strutting about with their heads thrown back and their chests thrown out, exclaiming, "I belong to the so-and-so race. We are the greatest people in the world. Everyone else is beneath us." And then someone else does the same thing and before long there is trouble. By what right can any race claim that it is superior to another? What nation has sound reason for getting up on a high horse and saying that all other peoples are its inferiors? By what line of reasoning can any sensible man arrive at the conclusion that he is of far greater importance than the man next door? What excuse can there be for a Gentile to look down upon a Jew or for a Jew to look down on a Gentile? Both are human beings. Both have the same souls, the same brains, the same bodies. Why should one be any better than the other?

Let us have tolerance. Let us away with prejudices, hates, suspicions, for they are the devil's instruments. —Border Cities Star.

EDITORIAL NOTES AND COMMENT.

25,000 peonies have been sent by the Canadian Government for free distribution in England. They should have saved a few bouquets for the Conservative convention.

Ottawa estimates place Canada's crop total as less than last year's. Let us hope the final revision shows that a mistake has been made.

London, Ont., man offers to pay $3,000 fare as a passenger in the London-to-London flight. He should understand that no stop-over privileges can be promised.

Six candidates are expected to fight it out in the North Huron by-election. Considering the campaign is to take place in the dog days, the seat should go to the candidate making the fewest speeches.

Canadian marksmen are making an excellent showing at Bisley. The present team seems to be one of the strongest sent over from this country.

Hogs, off cars, selects	9.75 ....
Hogs, selects, f.o.b.	8.85 ....

MONTREAL GRAIN AND PRODUCE

MONTREAL, July 13 (Canadian Press). — Some business was done in the local produce market here yesterday in Manitoba wheat, a few loads being entered for the United Kingdom. There was also some demand for ocean grain room for rye to Hamburg and Rotterdam, and engagements of several loads were made for July shipment at 9 cents per 100 pounds. The trade in the domestic market was limited. Millers yesterday reduced values for spring wheat grades of flour 10 cents per bushel in sympathy with the weakness in Winnipeg. There was no change in prices for winter wheat grades. A small trade was passing in both yesterday.

Shorts and middlings were strong in the millfeed market, and prices were advanced $1.00 a ton. This was attributed to a general scarcity of supplies, and the steady demand from both local and country buyers. The market in baled hay continued quiet.

There was no actual change in the egg trade, but lower grades were finding a good demand for small lots. Receipts showed a decrease over the corresponding day last week.

Business in the butter trade was exceptionally quiet, little interest being manifested by either local or outside buyers. Prices, however, are maintained.

Some exports of cheese to England were engaged for Monday at the recent rise in prices noted. The volume of business was not, however, large. The trade on spot is dull.

CHICAGO CATTLE.

CHICAGO, July 13 (Canadian Press). — Cattle receipts, 8,000; best heavy steers, $14.45; medium weight, $14.15; 937 pound yearlings, $13.40; yearling heifers up to $12.00. Largely $11.75 to $13.50 market on steers and yearlings, most heavy steers making $13.75 to $14.25; stockers, $7.25 to $8.50; qualified light kinds upward to $9.25 and better. Heavy sausage bulls up to $7.50; vealers back to recent high time at $13.50 to $14.00 mostly.

Hogs, 25,000; top, $10.10; bulk desirable 160 to 220 pound weights, $9.65 to $10.0; strictly choice 200 pound averages upward to $10.05; most 230 to 260 pound butchers, $9.00 to $9.65; 270 to 320 pounds, $8.70 to $9.10; few big weight butchers down to $8.60 and below; most packing sows, $7.60 to $8.00.

Sheep, 7,000; choice Oregon lambs, $14.85; bulk native lambs, $14.00; culls, $10.00 to $10.50; fat ewes, $5.50 to $6.50; desirable feeders saleable around $13.50.

CHICAGO GRAIN

CHICAGO, July 13 (Canadian Press). — Big selling yesterday on the part of the holders of the future deliveries of wheat brought about sharp breaks in price. Most of the selling was associated with the United States Government crop report indicating wheat yields much larger than were looked for. Closing quotations on wheat were unsettled, 2¼c to 3½c net lower, corn unchanged to ½c, oats 1¼c down, and provisions varying from 2 cents decline to a rise of 15 cents.

In addition to the bearish United States crop figures showing 27,000,000 bushels more winter wheat than was predicted a month ago, and 70,000,000 bushels more spring wheat than last year, yesterday's weather reports were of a sort to diminish fear of any widespread damage this season by black rust. Furthermore, export demand yesterday was slow, despite the unfavourable crop advices from France. As to the Canadian Government report, enlarged acreage shown was regarded about offsetting the lower present crop promise.

Corn derived strength from official confirmation that the 1927 corn yield is the smallest since 1903, and the crop condition at present is the lowest on record. Government figures on oats were construed as bearish.

Provisions tended upward.

A Thought For To-day

And I will say unto my soul, Soul, take thine ease, eat, drink, and be merry.—Luke xii:19.

A life of ease is a difficult pursuit.—Cowper.

MARMORA NEWS.

MARMORA, July 13.—Mr. and Mrs. C. H. Bickard and family are away on a fortnight's motor trip.

Mr. Jack Bond spent the week-end in Toronto.

Mr. and Mrs. Frank Leal motored to Peterborough on Saturday afternoon.

Mr. and Mrs. J. Hart were week-end visitors to Toronto.

Mr. and Mrs. Gordon Hunter, who have been visiting relatives in town, returned to Toronto n Sunday.

Mr. Edward Warren has purchased a new car.

Mr. Allan McGarvey is spending a few days in Toronto.

Mr. and Mrs. F. Hegman of St. Ola took dinner at Mr. Manley Lavender's on Sunday.

Messrs. W. Gray, A. Jones and W. J. Cottrell were among local Orangemen attending the service at St. John's, Havelock, on Sunday evening.

Messrs. J. Laud and G. Kerr spent Friday in Toronto.

Mrs. Albert Jones is spending a week with friends in Hamilton.

The family of Mr. M. W. Emmorey moved to town from Toronto on Friday.

Miss Dolly Butler of Toronto is spending holidays with her grandmother, Mrs. W. Pinner.

Mr. Thomas Bain of Detroit is spending a couple of weeks in town.

Mr. J. D. Dale is able to be around again after his recent illness.

Miss Evelyn Rice had the misfortune to cut her foot rather badly on Friday afternoon when bathing in Crowe Lake.

FATHER CURES CRIPPLE

NEW YORK, July 12.—Paralyzed since babyhood by infantile paralysis, Irving Frieman, 12, now is able to walk. When the best specialists gave up the case, Irving's father took a course in physio-therapy and gave treatments twice a day for years. Recently the boy took his first steps.

Tame rabbits are commonly kept without water, but drink eagerly when they have a chance. Most other rodents, including rats, are thirsty creatures.

WESTWOOD PEOPLE VISIT BALA CHURCH

Presbyterian Congregation Will Take It As Model For Their Own.

WESTWOOD, July 12. — A party from the Presbyterian Church here paid a visit to Bala on the Muskoka Lakes to study some features of the architecture of a church there, in the hope of securing some information which would be of use in the erection of the church at Westwood. The Presbyterian congregation, which has hitherto worshipped in the building of the Anglican church contemplates raising an edifice of its own.

The party, which was driven in a car belonging to Mrs. Campbell of Keene, consisted of the pastor, Rev. W. McCleary; Mrs. Cameron, who drove the car, Mrs. Wood of Toronto, Miss Campbell of New York, Allan Wigmore of Saskatoon, and W. Graham of Indian River.

Armed with the dimensions and plans of the church which they have taken as a model, Pastor McCleary journeyed to Peterborough and consulted an architect there.

BARN DESTROYED.

Fire Starts Near Straw Stack Burning Barn and Hay Crop.

CAMPBELLFORD, July 13.—David Wallace who lives about a mile north of the village, had the misfortune to lose his barn by fire on Sunday afternoon. The fire which started at about 4 p.m. was located at first in or near the straw stack. Part of this season's hay crop was burned as well as large quantity of last year's grain. A large crowd went out from the village but nothing could be done towards saving the barn and fortunately the wind was favorable so that the other buildings were not in danger.

The lawn social at St. Andrew's Presbyterian church last Friday night was a decided success, the proceeds amounting to $225.00, being the equal if not greater than on any previous occasion. The music for the evening was furnished by the Belleville Kilties' Band.

DIED BECAUSE OF BOB.

PARIS, July 13.—The daughter of Jean Viveau, 66-year-old sacristan of the Church of St. Martin Perigeux, bobbed her hair against the wishes of her father. The next Sunday, while the sacristan was playing on the bells, the music suddenly became a wild discord. Worshippers investigated, found he had hanged himself to the clapper of the largest bell.

CROP DAMAGE IN WEST NEAR TEN MILLIONS

Storms Of Past Week Cause Great Loss To Grain Growers.

BAD IN SASKATCHEWAN.

Loss in One Province More Than Five Millions. Little Insurance.

WINNIPEG, July 13 (Canadian Press). — Hail and storms generally, which have embraced practically the entire grain growing areas of Western Canada this summer, have already caused estimated damage of ten million dollars to the 1927 grain crop, according to the latest unofficial field surveys. The figure is based on reports of newspaper correspondents in the affected areas and crop experts on private inspection tours.

The brunt of the loss is borne by Saskatchewan farmers, who are faced with a loss ranging between five and eight million dollars, with the heaviest damage in the districts swept by storms of tornado proportions during the past week.

More than two million acres of grain are reported to have been within the recent hail zones. Many farmers suffered total loss, but the average is placed around 35 per cent. Only isolated districts in Manitoba have been touched by hail. Only about one in every four of the farmers whose crops were affected by storms carried insurance, in some of the districts never having experienced hail before.

BIG WALK HELD AT SPRINGBROOK

Orangemen of Centre Hastings Celebrate Twelfth in Traditional Way.

PARADE AND SPEECHES.

MARMORA, July 13.—The distinction was enjoyed by Springbrook yesterday of having the Centre Hastings County Orange celebration in its midst, twenty-six visiting lodges being welcomed by its L.O.L. No. 442.

This picturesque little village was invaded by about seven thousand visitors, and with its gay decorations and arches took on an appearance of a city suburb, for the while. To cope with the material wants of the crowd, the United Church shed and Orange Hall basement were converted into attractive dining halls, where the menu served was of unexcelled quality.

Marmora community band was engaged for the day, and headed the imposing procession which left Percy Mundy's grove at 1.30 to parade the main thoroughfare. Lodges marched in the following order: Campbellford L.O.L. 36, Sentinel 2322, Sentinel L.O.B.A. 129, Cooper L.O.L. 253, Harmony L.O.B.A. 600, Marmora L.O.L. 319, Malone L.O.L. 285, Queensboro L.O.B.A. 465, Queensboro L.O.L. 437, Eldorado 517, Hazard's Corners 1133, Madoc 160, West Huntingdon 300, Holloway 251, Premier L.O.B.A. 531, Downey L.O.L. 425, Tanner 509, Beulah 435, Stirling L.O.B.A. 655, Stirling L.O.L. 110, Thomasburg 131, Elliott 392, Victoria 94, Tweed 747, Bogart 1135, Wellman's Corners 172, Springbrook 442.

The humorous element in the procession was provided by Stirling L.O.B.A., who had as their mascot a prettily garbed and very dignified goat.

On the speakers' platform, in addition to Hon. J. R. Cooke, Reeve G. Bailey and County Master W. H. Scott, were no less than eight ministers of the Gospel: Rev. Messrs. B. F. Byers, Stirling; P. F. Gardiner, Springbrook; J. M. Whyte, Eldorado; A. B. Caldwell, Marmora; J. Creegan, Rawdon; W. Parker, Queensboro; W. P. Rogers, Tweed, and C. D. Daniel, Campbellford.

Following the singing of the Maple Leaf, led by the band, County Master Scott and Reeve Bailey welcomed the gathering with short speeches.

Hon. Mr. Cooke, speaking next, said that it was a striking tribute to the Orange Order that throughout the whole of the British Empire, where the Saxon race is predominent, the 12th of July is looked upon as a holiday. No other organization, he reminded his hearers, could on one occasion in the year draw out such huge crowds. The real reason lay in the fact that in the membership of the association the different Protestant denominations represented find a basis of union.

The need of union was never greater than to-day. Referring to the clause in the magna charta, it says: "The Church of England shall always be free," the speaker showed that at that time it meant the whole Protestant Church. Referring to the divisions of that Church to-day, he declared that signs were not wanting that a united Protestant church would be an accomplishment of the future. In spite of the differences there is one common object in view, and the Orange society, having the same object in view, should be a great factor in the effecting of union.

Rev. Mr. Whyte, in his address, touched upon liberty and freedom as advocated by the Order.

Rev. Mr. Caldwell drew attention to the significance of the celebration following in the wake of the jubilee, and among other striking remarks emphatically declared where the Order is there stands the Protestant faith.

Rev. Mr. Daniel voiced the fact that there was no enmity felt toward the Roman Church. He quoted words recently uttered by Major Belford: "We must come to understand each other better" referring to Protestants and Roman Catholics. Not until then, said Mr. Daniel, can we have a united Canada. He also drew attention to the fact that there were 10,000 Bolshevik Sunday schools in the country, as against one hundred of such schools ten years ago. Though this looked bad, let us remember that there are thousands yet who have not bowed the knee to Baal or Bolshevism. In conclusion, he announced a prospective inter-county celebration at Campbellford next year.

Rev. Mr. Gardiner, in a splendid address, referred to the cost of freedom as enjoyed to-day and enlarged upon the motto, "Live and let live."

Rev. Mr. Parker, the succeeding speaker, called his speech only an introduction to a speech. He referred to the principles of the Order as being such as any present would readily be in accord with.

Rev. Mr. Byers, the concluding speaker, said: "I believe the Roman Catholic Church has a right to its own religion. The Orange Order does not exist to annihilate the Roman Catholics." Rev. Mr. Byers condemned, though the conceding by Protestants to Roman Catholics a monopoly of the words, "priest" and "Catholic." Referring to Mexico, he said, "When you understand that 95 per cent. of the Mexicans are Roman Catholics, there must be something wrong somewhere when they are rising up there." Rev. Mr. Byers also gave his voice against re-marrying. In conclusion, he expressed his belief that the time would come when there would be a great merger of non-Romanists that would set forth a united front.

A vote of thanks having been accorded the speakers, the National Anthem was lustily sung.

A softball game on the grounds of Wesley Heath resulted in Springbrook men defeating Stirling men by 18 to 9. Heath and Danford were the home battery, while Broadwerth and Ross did service for the losers. Burkitt and Gibson obtained home runs for Springbrook in the second innings. The umpires were Mason at the plate and Heath on the bases.

Score by innings:

Stirling	0(4)00212— 9
Springbrook	1(11)0033x—18

JAPANESE VICE-CONSUL IN CANADA

Teiichiro Takahoma, Japanese Vice-Consul in New York, is visiting Canada with Mrs. Takahoma. He will stop off at Toronto, Ottawa, Montreal and Quebec, before returning to New York. He stated that no special significance attached to his visit.

LOCAL PYTHIAN HIGHLY HONORED

J. R. Knox Of Marathon Lodge Elected Grand Lodge Office.

YOUNGEST OFFICER.

Marathon Lodge, No 39, Knights of Pythias now has a Grand Lodge officer for the second time since its inception, in the person of J. R. Knox. Brother Knox attended Grand Lodge Convention in Hamilton as a representative of Marathon Lodge and was yesterday elected to the office of Grand Outer Guard, having for his opponents Brothers who have been members of Grand Lodge for a number of years and representing some of Ontario's strongest lodges.

Brother Knox joined the Order May 12, 1925. In October of the same year he was elected Chancellor Commander of the lodge. This office he has since held. The honor conferred on him has been well earned. His work of the past has been the means of lacing this lodge in the successful position that it now holds in the Grand Domain.

He also brings back the good news that Marathon Lodge received second place in the Domain for its percentage of increase in membership during the months of April and May.

In Brother Knox, Marathon lodge has the youngest Chancellor Commander who has held office in the Grand Domain of Ontario and by his election to Grand Outer Guard, he now holds the honor of being the youngest Grand Lodge officer in the Grand Domain.

The work of Marathon lodge for the past year received special commendation from the Grand Chancellor. It has been highly gratifying to see the Peterborough lodge swiftly growing to its place among the lodges in this great fratenal order. This year has indeed been very successful for Marathon Lodge and although meetings are suspended for the warm months of July and August, the Brothers anticipate opening again on the First of September with a class of fifty candidates for initiation.

The Pythian Order is growing rapidly from coast to coast in both Canada and the United States. This great order, founded on friendship, charity and benevolence, is carrying on a splendid work throughout this continent.

SHANGHAI, July 13. —(Canadian Press). — General Chamber of Commerce, representing several countries to-day sent a strong protest to United States Consul General Cunningham, as senior consul here, against allegedly illegal surtaxes, luxury taxes, and the increase in tonnage dues recently promulgated by the Nationalist Government.

GASOLINE THIEVES BLAMED FOR FIRE

Port Colborne Farmers Lose Two Cars When Garage Burns.

PORT COLBORNE, July 13. — A garage and two cars were completely destroyed by fire at Lorraine, a summer resort, near here, when gasoline thieves in some unknown manner set fire to one of the cars while they were stealing gasoline from one of the tanks.

The autos were the property of Jacob Rhora and his son prominent farmers, and were kept in a garage a short distance from the house. Rhora states that he had been missing gasoline from his car for two months and had at numerous times tried to locate leaks, not thinking that the gasoline was being stolen. The family was aroused at 4 a.m. by the barking of the dog, which was chained up at the rear of the house, and found their garage in flames.

Damage to the extent of $1,600, besides the price of the autos, was done. This is the first intimation that gasoline thieves were again working in this

OWNERSHIP OF BUILDING FIXED

Judge McGlade Arranges Adjustment Of Difference About Local Property.

His Honor Judge McGlade heard the last of the County Court cases in the claim of Nicholas Renzetti against John T. O'Connell, for a declaration that Mr. Renzetti was the owner of the two stores and two apartments in a block at the corner of Smith and Reid Streets.

Mr. Renzetti purchased a vacant lot at this corner from J. T. O'Connell some years ago and erected a building, and partly completed it, but went to Mr. O'Connell and borrowed money to continue the work.

A dispute took place between the two as to the amount advanced, and the terms, and this action was brought for a declaration that Mr. Renzetti was the owner of the buildings, subject to the loan made by Mr. O'Connell.

After the case had been contested all day, and His Honor Judge McGlade had suggested that it was a proper case for settlement, a settlement was arrived at between the parties.

Mr. Renzetti becomes owner of the buildings and Mr. O'Connell becomes entitled to an encumbrance for the amount of his advances, and each party paid his own costs.

R. R. Hall, K.C., appeared for J. T. O'Connell and the Hon. G. N. Gordon, K.C., for Mr. Renzetti.

Summer Weight Vests
Just the thing for summer wear; here in opera top and shaped shoulder styles. White only.. **25c**

ORANGEMEN OF THIS DISTRICT

(Continued from page 1.)

man to live for what those men had died.

Rev. Mr. Norton.

Rev. Mr. Norton said that he was proud that he was an Orangeman, that he had overcome the antipathy to the Orange Order by reading its constitution. He was always glad to be among loyal people, and he knew of none more loyal than the Orange people.

W. C. Mikel, K.C.

The address of the day was given by W. C. Mikel, K.C., ex-Mayor of Belleville. He congratulated the committee on the success of the celebration and the perfect arrangements and the successful carrying out of same.

The speaker thought that the Orange Order was greatly misunderstood by Protestants as well as others. It is a benevolent institution, which affords an opportunity for its members to provide for their families after death; it is also charitable, moral, and religious in its teaching.

The first constitution adopted contained the following provision: "Detesting an intolerant spirit, it admits no person into its brotherhood who is not well-known to be incapable of persecuting, injuring or upbraiding anyone on account of his religious opinions." Its principles are to aid and assist all loyal subjects of every religious persuasion by protecting them from violence and oppression. No human organization is founded on nobler principles.

It was organized first in England in 1688, after the arrival of William, Prince of Orange, who afterwards became King William the 3rd. It was established in Ireland in 1795, and has continued to spread over the Empire on the same broad and tolerant basis.

The need of the day, continued the speaker, is a better understanding—better understanding between East and West, between capital and labour, between English-speaking Canadians and French-speaking Canadians, and particularly between the various Christian denominations. The Orange Order has always stood for better understandings.

The Orange Order has no monopoly of loyalty, but it has always stood for loyalty to the Empire. We readily admit that the loyalty of the French-Canadian Roman Catholics of Quebec when the thirteen English-speaking Protestant colonies to the south revolted, kept Canada within the Empire along with the United Empire Loyalists. The thirteen English-speaking Protestant colonies revolted from the Empire, not because of taxation acts, as some now suppose, but because of the passage of the Quebec Act by the British Parliament in 1774 which gave the Roman Catholics of Quebec the right to their religion. England repealed all the other obnoxious Acts, but would not repeal the Quebec Act; therefore, the thirteen colonies which were strongly Protestant, revolted because they claimed in a petition addressed to the British people that England was establishing Popery on their borders.

Some thoughtless persons in the United States still talk of Canada becoming annexed to the United States. This will never be. There is more likelihood of parts of the United States becoming annexed to Canada.

The United States has now 125 million people. By natural increase that is the difference between the birth-rate and the death-rate, a normally healthy population without immigration will double in 25 years. Therefore the United States will have 250 million in twenty-five years and 500 million in fifty years.

Then living conditions in the United States will be somewhat intolerable, and this will be too large a population to be governed under one single Government. Consequently, the United States will break up into separate independent though friendly Governments. No doubt New York, Maine, and other border States will then join Canada.

Concluding, Mr. Mikel said, Canada need not spend money to get immigration. We might better charge everone who wants to come into this country one hundred dollars. The quicker this country fills up, the sooner will living conditions become as difficult and undesirable as in Europe. We will never have better or easier living conditions in Canada than we are having right now.

Softball Game.

After the addresses from the bandstand, a real game of softball was pulled off on the Victoria Park diamond as the conclusion of the day's entertainment. The C.P.R. and Cobourg played an almost errorless game, which ended in a victory for Cobourg.

The line-up:

C. P. R. — Steinburg, c; Bowler, p; Dr. Long, 1b; Cook, 2b; Towle, 3b; Larry, ss; Lewis, cf; McMillan, rf; Johnston, lf.

Cobourg — George Brook, c; Jack Stevenson, p; Dunk Niles, 1b; McGlade, 2b; Rollins, 3b; Dufton, ss; Foley, cf; Parkes Niles, rf; Alf. Brook, lf.

Umpires—Markie and Kennedy.

Score, 7-2 in favour of Cobourg.

Notes.

Bandmaster Wilburt Bertrand's juvenile fife and drum band was received all along the line of march with tremendous applause. The boys carried themselves well, and their uniforms, especially the cap decorations, were neat and attractive.

L.O.L. No. 50's brass band furnished delightful entertainment in the park after the parade. Bandmaster Wesley Boorman got his full share of applause from the thousands along the parade route.

F. T. WEBSTER, Ontario Land Surveyor, Registered Professional Engineer, formerly of Ottawa. Phone 2546.

Ladies Differ Widely Estimating Orangemen

Isn't it strange how opinions and estimates differ? By actual count, the number of those taking part in the Orange march through Peterborough on the return of the lodges from Cobourg last night was found to be 432—268 men, 102 women and 62 children.

Two young ladies watching the march past on George Street undertook to estimate the number.

One, after due cogitation, suggested about 900. The other gave out a much more modest computation—150!

WOOLER NEWS

WOOLER, July 13.—Melville Dudley has been engaged as teacher for the coming year at School Section No. 17.

Mrs. Margot Staples, Cavan, was called to Peterborough on Saturday morning on account of the death of her daughter, Mrs. Edgar Burnnam, at her summer home, Chemong.

Double Crispness Delightful Flavor

WHAT more desirable combination could you ask for in Corn Flakes than a delicious crispness which remains to the last flake at the bottom of the bowl—a delightful flavor which whets the summer appetite!

Get one of the red and yellow, wax-wrapped packages of Post Toasties from your grocer, or send post card for free test package. Shake some of the golden flakes into a bowl, add milk or cream and eat.. Note how these *Double-Crisp* Flakes remain crisp even when submerged in milk or cream — how delicious is the flavor of the toasted hearts of selected white corn from which Post Toasties are made. Make the milk or cream test now! Post Toasties are made in Canada.

Send postcard for trial package. Address: Canadian Postum Co., Limited, Dept. T-18- 35, Metropolitan Bldg., Toronto 2, Ont.

FIRE DESTROYS VALUABLE BARN

Gayton Kimbley Of King's Wharf Suffers Severe Loss.

LIVE STOCK LOST.

KING'S WHARF, July 13. — Fire caused by lightning, breaking out at 4.30 yesterday morning, gutted the barn of Gayton Kimbley, living two miles from here in Verulam Township. Mr. Kimbley was totally unaware of the danger threatening his property until he was called by telephone by neighbours, who informed him that the roof of his barn was aflame. The stormy weather at the time impeded the work of salvage, and a valuable team of horses, a large quantity of hay and oats, all Mr. Kimbley's poultry, and some machinery were destroyed.

The barn, which was a fully-equipped L-shaped structure, was remodelled only two years ago. The damage is only partially covered by insurance. No estimate of loss is as yet available.

Last September Mr. Kimbley lost a daughter who, along with three cows, was killed by lightning during a storm.

This morning around nine o'clock, another violent thunderstorm swept over the district.

HAVELOCK NEWS

S.S. No. 9, Belmont.

HAVELOCK, July 11.—The school picnic of S.S. No. 9, Belmont was held at Crowe Lake on Saturday afternoon, July 2nd. A large crowd turned out and everyone had a very enjoyable time. The afternoon was spent in sports consisting of races and a game of soft ball. Lunch was served about five o'clock.

NELSON TRIAL IS POSTPONED

Granted Until Session Of Manitoba Assize Court In November.

MURDER CHARGE.

WINNIPEG, Man., July 13 (Canadian Press). —Postponement of the trial of Earle Nelson, alleged "strangler," until the next session of the Manitoba Assize Court in November, was granted by Mr. Justice Macdonald here yesterday. Nelson was to to have been tried on July 26 for the murder of Lola Cowan, 14-year-old Winnipeg school girl, and Mrs. Emily Patterson, mother of two children.

Counsel for the defence requested delay of the trial on two counts. The first was that public opinion was at present in such an inflamed state, that the prisoner could not be assured of an impartial trial, and the second that the defence could not prepare its case in time for the original date set.

The postponement, Mr. Justice Macdonald declared, was granted with reluctance, and it was only in consideration of defence counsel's pleas of lack of time that the trial would be delayed.

"The accused should, in the public interest, be tried as quickly as possible, because if he is not guilty, the human tiger is still at large and should be run to earth. So long as this trial is delayed, so long will the police vigilance lie dormant and the lives of our womankind be in the state of unrest," Mr. Justice Macdonald asserted.

The jurist added that trials in Canadian Courts were not governed by public feeling, and that the postponement of the trial would not likely change the attitude of the public with respect to the savagery of the crimes.

Under Close Guard.

Nelson has been under close guard in the death cell of the Provincial Jail since his committal for trial on June 23 on the double charge of murder.

He was arrested near Killarney, Man., on June 16, after the police of Manitoba and Saskatchewan had sealed every avenue of retreat, following the strangling of the two Winnipeg women.

Nelson has been identified through Bertillion measurements and photographs as the "Dark Strangler" who left a trail of 18 deaths in at least half a dozen cities in the United States.

MARMORA PERSONALS.

MARMORA, July 13. — Mr. and Mrs. A. Leal and Mr. and Mrs. W. Vilneff, of Peterborough, spent Sunday with Mr. and Mrs. A. Bartlett.

Mr. and Mrs. Frank Gray visited Peterboro on Saturday.

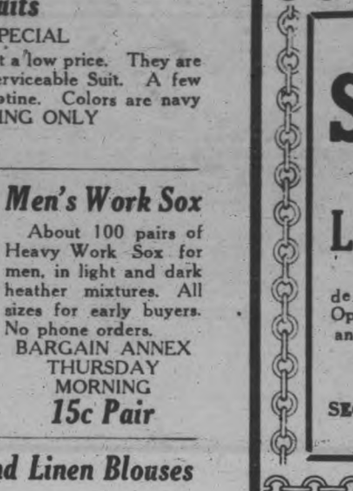
Mr. G. Emmorey, of Toronto, spent the week-end with relatives in town.

Mr. W. Williams motored to Peterborough on Saturday.

Mr. and Mrs. W. Mantle and family spent Sunday at the sand banks near Picton.

Mr. and Mrs. W. Foster and family spent Sunday in Frankford.

Mr. and Mrs. W. A. Sanderson and daughter Flora are away on a holiday trip to Barrie and other points.



The Atlantic ocean has not yet been conquered by air from east to west. Nungesser and Coli attempted it and the world is still wondering what happened to them. But the admitted danger has failed to daunt three British aviators who are expected to take off any day now from Calshot, near Southampton, for New York. The interpid fliers are shown above. Captain F. T. Courtney, pilot and commander, at left; Capt. F. W. M. Downer, navigator and radio operator, centre; and R. F. Little, flight engineer. At the lower left is Mrs. Courtney, an enthusiastic aviatrix, who recently accompanied her husband when he flew the plane he will use from Frederichshaven, Germany, to Calshot, a distance of 800 miles. The machine, a Dornier-Wall flying boat, is shown.

WOMEN'S INSTITUTE WAS ORGANIZED

Officers Are Elected For New Branch In Lakefield.

LAKEFIELD, July 13.—On Wednesday afternoon about a dozen members of the Warsaw Woman's Institute motored to the village and were guests of the Junior Institute, which met at the home of Mr. and Mrs. J. H. Payne. There were present also a number of ladies from the village and immediately surrounding country who were desirous of organizing a branch of the Woman's Institute in Lakefield.

The meeting opened with Miss Lulu Darling, president of the Junior Institute in the chair. The ladies sang the opening ode of the Institute, Miss Marjorie Frankish presiding at the piano. The secretary, Miss Edna Frankish read the minutes of the last meeting and called the roll. The young ladies then vacated their places and asked Mrs. David Miller and Mrs. Thomas Cooper to take them. Mrs. Miller briefly outlined the purpose of the Woman's Institute which takes up such matters as health, dress, habits, child welfare, community service, art, or anything else that comes into the community life. Creed and politics as politics are the only subjects barred from discussion and they are taboo because discussions would destroy the good feeling among the women of the community for which the Woman's Institute stands. The Institute is of great value in helping the newcomers and helps greatly in making Canadians of women of foreign birth. The superintendent of Woman's Institutes is Mr. Putnam who has held the position for many years, no matter what party is in power. Literature is easily procured and is a great asset to the work.

Mrs. Miller is district organizer.

Mrs. Cooper, who is a member of Federated Woman's Institutes, acted as secretary for the afternoon.

On motion of Mrs. Kingdom and Mrs. J. H. Moore a Woman's Institute was organized in Lakefield.

These officers were elected:

President—Mrs. J. H. Payne.

Vice President—Mrs. W. M. Graham.

Secretary-treasurer — Mrs. Leslie Harrison.

Directors—Mesdames Hugh Kidd, Armstrong, Howard Bullock and Kingdom.

Auditors—Mrs. A. E. Higgins and Miss Graham.

It was decided to meet on the first Wednesday of every month at 2.30 and the kind invitation of Mrs. Kingdom to meet at her home on the first Wednesday of August was accepted. The next meeting of the Junior Institute will be held in the Park on the same day, August 3rd.

The young ladies served afternoon tea at the close of the afternoon, after which a hearty vote of thanks was given to Mrs. Payne for her hospitality and to the young girls who did so much to assist the ladies in organizing and who kindly served tea.

Mrs. Miller and Mrs. Cooper gave their good wishes to the newly organized branch.

Among those present from Warsaw were: Mrs. D. Miller, Mrs. T. Cooper, Mrs. Weller, Mrs. C. Foster, Mrs. Wallace Anderson, Mrs. J. A. Crowe, Mrs. Theodore Douglas and Mrs. O. McIlvena.

The choir of George street United church, Peterborough, motored to the village on Thursday, the fancy work committee of Regent street Ladies' Aid served supper to them in the school room of Regent street church.

Mr. and Mrs. Ed. C. Ayling, Lakewood, Ohio; Mr. and Mrs. P. S. Hill, Cleveland, Ohio.

Mrs. McKay, Miss Isabel and Donald, of Antrim Street, Peterborough, are holidaying at Mrs. S. J. Dolman's cottage.

Coral Gables Casino was the scene of a large and attractive crowd on Friday night. The orchestra was unexcelled. Mr. Harold E. Burgess, the manager, announced during the evening that much sympathy was felt for Mr. and Mrs. James Carnrite and family, who had lost their home and contents through a disastrous fire recently, and asked the crowd to show their sympathy by giving something towards a donation to assist in a small way. A liberal response was given, and the sum of nearly $24.00 was the result.

Mr. and Mrs. Ernest Bennett, Ottawa, were recent visitors at Killarney.

Miss Loretta Bennett has returned from spending a few days at Ottawa.

Miss Alberta McMannus, Toronto, was a Sunday visitor with her cousin, Mrs. Frank Pollock.

Mr. and Mrs. Foger, Toronto, were visitors with Mr. and Mrs. Claud Insley, Healey Falls, on Sunday.

SHAMEFUL TASK

SPRINGFIELD, Ill., July 12.—Late one night, A. M. Utt, one-armed man, was stopped by a bandit. Told to "stick 'em up," he replied that he had only one to stick up. "Ain't you ashamed to rob a one-armed man?" asked Utt.

Said the bandit: "I never was so mortified in my life, but business is business."

SCHOOL REPORT

Report of S. S. No. 2, Chandos, promotion examinations:

Jr. IV to Sr. IV—Neil Whitmore, Margaret James.

Sr. IV to Jr. IV— Leolia Nesbitt, Herbie James.

Jr. III to S. III.— Everett Whitmore (honors.)

Sr. III to Jr. III—Roy Hall, Howard McCauley.

Jr. II to Sr. II.—Donald McCauley, Clarence James.

Sr. I to Jr. II—(Golda Nesbitt, Vivian Whitmore, Kenneth Hall and Olga Whitmore honors), Robert James.

Jr. I to Sr. I—Frances Whitmore and Doris Whitmore, honors, Denton Parks.

Sr. Pr.—Harold Dinman, Hilda James.

Jr. Pr.—Guy James, Ruby Nesbitt.

CAIRO SCHOOL.

Following are the results of the promotion examinations of Cairo School, S.S. Nos. 9 and 4, Cavan and Monaghan:

To Jr. IV.—Finlay Clark, 419 (honours); Melville Lawrence, 405.

To Sr. II. — Gordon Lawrence, 370; Mabel Henry, 353; John Clarke, 328; Earl Middleton, 318 (Arith.); Percy Bothwell, 271 (Arith.); Melville Cruikshank, 234 (Geog., Arith.).

To Jr. III.—Alita Moore, 413 (honours); Beatrice Clayton, 340; Victoria Trotter (promoted on term work).

To Jr. II.—Daisy Middleton, 401; Keith Fairburn, 392; Williard Roddy, 379; Harold Sipes, 351.

First Class—Mary Lawrence (honours), Annie Trotter (honours), Sidney Henry, Willis Cunningham, and Cameron Clayton.

To Sr. Pr.—Haig Bothwell (honours), Mabel Clayton (honours), and Clifford Henry.

To B Class—Howard Lawrence, Lawrence Peacock, Lloyd Peacock.

(Names in order of merit. Subject after the name of a student indicates a failure in the subject.)

RENETTE G. TAGGART, Teacher.

The following is the report for the month of June in S.S. No. 6, Douro:

Junior Fourth—Honors: Murietta Jory, Irene Frankish, Wesley Dunford, Garbutt Jory.

Senior third—Della Lloyd, Donald Lloyd.

Junior third—Ralph Dunford.

Junior second—Honors: Mildred Garbutt, Earl Lloyd, Willie Bushie.

Senior first—Honors: Mabel Dunford, Elwood Dunford.

BESSIE MADILL, teacher.

Eggs preserved with a new process for fourteen weeks produced chicks that were strong and healthy.

"Our Home Was Never so Comfortable"

Tuckers & Son, Norwood, Ont. writes:

Regarding a Pease Economy Furnace that I bought from you, I might say that our home was never as comfortabe as it was during last winter and with less fuel than for all the time we lived in this house for the last 30 years. We can heartily recommend the Pease Furnace to anyone needing a fuel saver.

Pease "ECONOMY" Furnace

"Economy" is the keynote of this furnace, not only in cost but in labor also. Some special features are—Vertical shaking handle, saves stooping, long fire travel, double casing with air space, air blast, low fuel consumption, and extra heavy construction throughout. It will pay you to ask about it.

TRENT RIVER NEWS.

TRENT RIVER, July 13. — Cedar Isle guests over the week-end were: Mr. and Mrs. G. Hill, Mr. and Mrs R. J. Johnston, Mr. and Mrs. W. B. Northrott, Mr. and Mrs. A. W. Johnston, Misses Isabel Leggee and Bertha Sherratt, Messrs. J. Wilson, E. G. Wood, M. Hess, F. McGuinine, P. E. Groome, W. Bumon, J. L. Scott, J. Corkery, H. Page, W. M. Atcheson, Geo. W. Cumming, S. MacEachren, W. Valentine, E. Bentley, J. Rigly, E. O'Connell, W. McGregor, A. C. Campbell, J. Sinclair, J. Hamblett, J. Nelson, K. Bolton, J. Sherratt, W. Taylor and son, all of Toronto; Messrs. R. Hill, H. Hill, Weston; Mr. and Mrs. Chas. McCarrel, Canton, Ohio; Mr. and Mrs. E. E. Millen, of Youngstown, Ohio; Mr. and Mrs. Charles A. Bull, Cleveland, Ohio;

Advertising Then And Now

It was the custom back in 1850 when farm animals were lost for the owner to have notice sheets printed, such as the one exhibited in The Examiner's window, in order to bring them back into the fold.

Nowadays, however, a small advertisement in the newspapers is not only cheaper, but reaches more people.

Examiner Classified Ads bring results.

"Last year's—but Tintex will color it new again!"

TINTEX means true economy! It gives twice as much finery at one half the cost! For faded things are quickly made new and colorful again with Tintex. No need, then, to be continually buying new finery. And how simple! With light and medium shades you just "tint as you rinse"—in hot or cold water. Use Tintex for silk stockings, "undies," dresses, sportswear—even curtains. See Fashion's colors on the Tintex Color Card.

Blue Box — for lace-trimmed silks (tints the silk — lace remains white). Gray Box—for tinting and dyeing all materials (silk, cotton, mixed goods).

Leafs Drop Both Ends of Doubleheader to Birds

ORIOLES TAKE SWEET REVENGE

Sorrel and Satterfield Batted Out Of Box In Second Game.

NOUNNAN RELEASED.

MAPLE LEAF STADIUM, July 12—In the second game of the double header yesterday, a seven-inning affair, Victor Sorrel was Manager O'Hara's pitching selection for Toronto, while Chambers and Freitag worked for Baltimore. Otherwise the teams were unchanged from the first game, which was won by the Orioles by 5 to 1. Pitcher Stan. Lucas, formerly of the North Toronto team of the Danforth League, who has been with the Leafs for several weeks, has been sent to the Portland club of th New England League. This was at Lucas' request, as he desired to be with a club where he could get an opportunity of gaining mound experience. Pitcher Nounnan has been released outright by the Toronto club.

Syracuse came from behind to take the fifth game of the series at Newark, 9 to 8. A five run rally in the sixth climaxed by Red Worthington's home run brought home the bacon.

Jersey City took the fifth and deciding game of the Rochester series yesterday afternoon, pounding out sixteen hits off three Tribe hurlers to win by 11 to 5. Radwan featured at bat for the winners with four hits in six trips to the plate, one of which was a long home run over the left field fence.

The Bisons further entrenched their first place position when they trimmed the Reading Keys 10 to 5 at Buffalo for their eighth straight triumph. The Bison pitching staff held its opposition scoreless for twenty-eigth consecutive innings, until the second inning yesterday, when the Keys broke through on Jim Wiltse for a run. Andy Cohen smashed his second homer in as many days over the left field fence in the fifth inning.

WARSAW WINS.

Defeats North Douro Team by Score of 13 Runs to 7.

DOURO, July 13.—The schoduled game, Warsaw vs North Douro, was played on Monday evening on the O'Connor diamond, with a good crowd out to witness the game. The Warsaw team were victors, the score being 13-7.

The line up:

Warsaw—Raphael Darling, p; C. Morrisson, c; F. Fitzgerald, 1b; Rufus Payne, 2b; Allan Taylor, 3b; Hector Munro, ss; O. McIlvena, lf; B. Allen, cf; R. Tedford, rf.

North Douro—C. Towns, p; M. Coughlin, c; W. Towns, 1b; Frank O'Brien, 2b; Ray Walsh, 3b; James Walsh, ss; Edward Allen, lf; Gerald Condon, cf; C. Coughlin, rf.

Umpires—A. Allen, at plate; Leo Moher, on bases.

WILSON'S FLY PADS

Will kill many times more flies for the money than any other fly killer. Each pad will kill flies all day, every day, for three weeks. At all Grocers, Druggists and General Stores — 10c and 25c per package.

SWIMMING SIMPLIFIED

INTERTIMING OF HEAD AND ARMS IMPORTANT IN CRAWL STROKE.

By James A. Lee.

As correct intertiming of head and arm movements is essential to gain body balance in the crawl, the combined action should be given a brief trial, standing on bottom before undertaking it in a swimming position.

Bend forward, extend right arm in front and left arm backward, hands touching the water, and turn to the left. Then, without moving head or shoulders, simultaneously sweep the right arm down and back, the left up, and forward.

The right should press directly down grazing the thigh in passing; the left should circle high and strike the surface close to where the right arm started.

Next turn head and shift shoulders to right, repeating the movements in the opposite direction, left moving down and back, right up and forward.

When you can guide the head and shoulders with fair success, try actual swimming.

Start with a push-off, set the feet in motion, then press directly down and back with the left arm, keeping head and shoulders straight. As this arm nears the thigh, press down and back with the right arm, at the same time twisting the head and rolling the entire body, feet and all, to the left, bringing the left arm out of the water.

Retain the position now assumed while the left arm sweeps forward above the water and the right drives backward. Then, when the left arm hits the surface and starts to press down again, twist the head and roll the body right, keeping it so rolled throughout the forward motion of the right arm and backward of the left. Do not hurry the movements.

(TO-MORROW—Breathing in Crawl Stroke.)

Triumph of Young Canadian In Shoot-Off Arouses Much Admiration at Bisley Camp

BISLEY CAMP, England, July 13 (Canadian Press Cable).—The triumph of 20-year-old Lieut. K. R. MacGregor of Ottawa in the tie shoot-off yesterday for The Times silver trophy aroused more admiration than anything of the sort in Bisley's history. The issue was between MacGregor and Sergt. A. G. Fulton of the Queen's Westminsters, winner of the King's Prize in 1912 and last year, and considered the best service rifle shot in the Empire.

A. Cocks and Sergt. Hankins of the Scots Guards were also in the shoot-off, having tied with MacGregor and Fulton in The Times competition, but Cocks and Hankins were eliminated in the normal three shots yesterday.

MacGregor and Fulton carried on a duel, shot for shot, until both had scored 17 consecutive bull's eyes. This was at the 200 yard range. MacGregor, as cool as at the beginning, scored his 18th bull's eye. Then Fulton missed and his shot went into the inner ring, leaving MacGregor the trophy.

Sergeant Fulton, although well up among the leaders at the present, seems to be dogged by bad luck. Monday he spoilt his chances in a tie shoot-off by prematurely discharging his rifle, and yesterday he ruled himself out of another tie shoot-off by mistaking the time for the shoot.

Ex-Champ Prepares For Sharkey Bout

WHITE SULPHUR SPRINGS, Saratoga Lake, N.Y., July 13.—(Canadian Press). — Continuing the policy of "work-a-day and rest-a-day" Jack Dempsey, heavyweight champion of a year ago, suspended training for the day, taking a complete rest, not only from boxing, but also from road-work.

Dempsey, up at 6 o'clock, left his cottage when the dew was still damp on the grass for a forty mile trip to Lake George, where he started a long distance swimming marathon. He arrived back in camp early in the afternoon. The ex-champion will swing back into action with a vengeance today.

Sailor's Pet Blow Given Good Workout

NEW YORK, July 13.—(Canadian Press).—Jack Sharkey's left hook, considered the sailor's pet blow had a good workout yesterday against three sparring partners at Madison Square Garden. It was the first time in a week he has employed this damaging weapon and he gave onlookers a sample of how he expects to use it against Jack Dempsey at the Yankee Stadium July 21.

Johnny Urban, Leo Gates and Marco Polo went through five brisk rounds with Sharkey, who completed his workout with two rounds of rope-skipping and a comedy round with Rocky Stone.

YANKEES WIN 7-0 SHUTOUT

Urban Shocker Yields Only Seven Hits To Defeat Indians.

30th HOMER FOR RUTH.

NEW YORK, July 13.—(Canadian Press).—Babe Ruth produced his 30th home run of the season at Cleveland yesterday while Urban Shocker pitched the Yanks to a 7 to 0 victory over the Indians. Ruth's drive, that put him ahead of Gehrig again, came in the ninth with a runner on second. While Gehrig failed to clout any home runs, he made a double and a single.

Shocker yielded only seven hits. In making the last play of the game, Shocker again twisted his right ankle and had to be assisted from the field. It was the seventh straight defeat for Cleveland.

Chicago went on a batting spree in the fifth and sixth innings, driving both Rommel and Pate off the hill to defeat Philadelphia 8 to 5 in a free hitting contest at Chicago. Connally was hit hard by the visitors but was given sensational support in the pinches, several double plays pulling him out of trouble.

Sisler's home run in the ninth with two men on gave the Browns a victory over the tail-end Boston Red Sox at St. Louis. The Sox went scoreless until the ninth and then rallied for five runs. The Sox did their scoring on three hits, four errors, a walk and a sacrifice. Sisler got four hits, including a homer and two doubles, and either scored or drove in each Brown run.

Washington defeated Detroit 9 to 6 in the opening game of the series at Detroit. With the score tied at the beginning of the eighth, Bluege singled, Reeves doubled and Rice doubled. The combination gave the Senators two runs and clinched the game. Play was interrupted for 40 minutes in the fourth inning because of a heavy wind and rain storm. When the teams later returned to the field, they had to play much of the time in a drizzle.

BUSINESS MEN WIN.

Defeat Cement Team In Best Game Of Season By Three Runs.

LAKEFIELD, July 13.—The Business Men defeated the Cement Company team in a softball game on Monday night by six runs to three. The game was the best of the season with both teams playing excellent ball as the score indicates. J. Sabatino got a three base hit in the last half of the sixth.

The line up was:

Business Men—E. H. Northey, p; G. G. Connell, c; F. L. Erskine, 1b; C. S. Tanner, 2b; R. H. Wagar, 3b; H. Hamblin, ss; A. B. Burrows, lf; S. McIlmoyl, cf; R. C. Chittick, rf subs, Dr. Smith, L. Charlton, C. Wannamaker.

Cement Co.—B. Blewett, p; Byrant, c; E. Wannamaker, 1b; J. Sabatino, 2b; E. Morin, 3b; L. Sabatino, ss; E. Douglas, lf; L. Wingett, cf; H Ruttle, rf.

Business Men .. .. 1000410—6
Cement Co. .... 000120—3

Umpires—Dr. Gibson and R. P. Payne.

When a Chinese has a limb amputated he always asks for the severed member, which he locks up in a box, to be kept until the day when the rest of his body shall be buried.

To give a captured whale's body greater buoyancy to prevent it from sinking, compressed air is now pumped into it through a flexible pipe from a compressor in the ship.

GOOD JUNIOR GAME MONDAY

Large Crowds Expected To See Argos Meet Kiwanis Juniors.

FAST TEAMS.

Baseball fans in the city will do well to keep Monday July 18th, at 5.30 open for the baseball game between the touring Argos Juniors of Regina, who come here under Kiwanis auspices, and the local Kiwanis City Junior champions.

Manager Jack Deanard will have to field his strongest team against the Argos, as reports come that they are a strong junior team.

"Jeff" Hardill, who pitched a no hit and very close to a no run game last Friday, will most likely pitch, with Ken Baker doing the receiving.

Much is expected of the local juniors in the quest for the Ontario title as they are not weak in any position.

This game will give the fans an opportunity of seeing the brand of ball played in the under 20 years of age class.

LOCK WORKS WIN FROM ELECTRICS

Score Two Runs In Ninth To Win 8-6 Victory.

Scoring two runs in the ninth inning the Lockworks broke a 6-6 tie and defeated the C.G.E. 8 to 6. It was one of the best games of the season and attracted a fair crowd of fans.

"Scotty" Galbraith started for the Lockworks but kept himself in difficulty on account of his lack of control, passing nine men. He fanned two and was only touched for four hits. Waddell succeeded him in the eighth and also found difficulty in controlling the ball, walking six men in the two innings he worked. He was touched for two hits. Powell did the twirling for the Electricians and was hit hard, the Lockmakers getting twelve hits off his delivery. He walked five men.

With the Lockworks leading 5 to 3 at the eighth inning the C.G.E. registered three runs to forge ahead. It was short lived however for the Lockworks tied it up in their half and shoved two more across in the ninth to win out. With one down in the eighth a hit by Powell and walks to Maudsley and Jones finished Galbraith. He was succeeded by Waddell who went in with the bases loaded. He was in trouble right at the start, walking Wilson and forcing in Powell. He then walked Corbett forcing in Maudsley. A wild pitch scored Jones and sent the Electricians ahead. Heard and Barry flied out to end the inning.

Jones was the hitting star of the game getting six hits in six trips to the plate. He was largely responsible for the Lockworks win as he collected half his team's hits. Maudsley made the feature catch of the night when he snared Nicholls' hard drive at a difficult angle.

The line up:

Lockworks—Weese, ss; Jones, cf; Nicholls, lf; Galbraith, p; Dobson, c; Ranger, 3b; Crary, 2b; Smith, 1b; Montgomery, rf; Johnson, rf.

C.G.E.—F. Jones cf; Maudsley, rf; Wilson, 3b; Corbett, lf; Heard, ss; Barry, 1b; Ross, 2b; Rishea, c; Powell, p.

Umpires—LeBarr and Jackson.

Huge felt hats of a peculiar royal blue shade are a new fashion fad among artists and other dwellers in the Latin quarter of Paris.

A wrist-watch serving as an alarm clock has been invented. A revolving unit with protruding points that touch the skin serves as the alarm.

SEYMOUR LEAGUES UNITE FOR PICNIC

Young People of Three United Churches Have Enjoyable Outing.

PETHERICK'S CORNERS, July 3.—Friday, July 8th was a gala occasion at Crow River bridge, when the three leagues of the Seymour United circuit gathered for their first annual picnic. This is the first time that the three have joined for the event and large representations were present from the more distant charges of Stephens and Tabernacle as well as the home charge, Zion.

The crowd began to assemble before 11 a.m. and while the ladies prepared dinner, some of the men engaged in softball, while others went fishing or swimming. Then at 12.30 all assembled at (or around) the spacious tables which literally groaned with good things and a most enjoyable social hour was spent.

After dinner arrangements were made for the afternoon sports. A draw resulted in the Zion (Petherick's Corners) league meeting Stephen's (Hoards) in the first game of softball with Tabernacle (English Line) a bye to play the winners. All games were to be five innings to get the whole schedule over early. The Petherick's team, with a re-arranged line-up, weren't conceded a chance against the fast Hoards none who presented almost their complete League team. However, the local boys put up a game fight and lost out by only one run, 11 to 10. One bad inning, which netted Hoards six counters, spelled the downfall of the locals. Whelan and Addie, the "babies" of Hoards in respect to age were veritable giants defensively and contributed most of the fielding features. Roy Fry was outstanding among the local fielders. The teams: Hoards—Whelan 3b, Hoard p, Gunning rf, Hume 1b, Heagle c, Oddie ss, Thompson lf, M. Rannie 2b, Jones cf. Pethericks—G. Petherick rf, G. Kerr p, T. Owens c, R. Fry 2b, R. Barnum ss, Everett Fairman cf, L. Anderson 1b, T. Fry 3b, D. Kerr lf.

By innings:

Hoards.....0 4 1 6 0—11
Pethericks.....4 0 4 1 1—10

Umpires—V. Farrell and C. Johnson.

The next game between the married and single ladies was very interesting, but the younger girls showed the effect of practice and won out by 24 runs to 9. Gladys Simpson and Helen Walker made a good battery for the girls, with the former the batting star, with a home run. Mrs. Ingram and Mrs. Johnson battery mates for the married ladies did not receive the good support accorded their opponents.

Married ladies—Mesdames Hoard, Rannie, Johnson, Ingram, Heagle, Barnum, Thompson, Oddie, Gunning, Daniel, Parton and Petherick.

Single ladies—Misses G. Simpson, Walker, Willis, E. Gunning, V. Gunning, Remington, Laura Hay, L. Locke, A. Simpson, Meiklejohn.

Umpires: Farrell and Johnson.

The English Line squad put up a stiff fight but the Hoards Nine had the advantage of experience and won by 13 runs to 4. R. Barnum was borrowed from Petherick's to fill the Line batting order. The Hoards team lined up as in the first game while the English Line team was as follows: H. Lambert c, D. Maybee p, E. Craighead ss, E. Gadden lf, S. Dismond 3b, K. Gedden 2b, C. Partridge rf, H. Tinney cf, R. Barnum 1b.

Umpires, Johnson and Farrell.

These umpires gave splendid satisfaction in the three games they handled and were very fair indeed.

The score by innings:

Line.....1 2 0 1 0— 4
Hoards.....0 7 6 0 x—13

The final game was hotly contested between a picked team of married men and the bachelors. The benedicts seemed in no wise discouraged by their 13 to 10 defeat. Whether this is due to their habit of always playing second fiddle or to a fine sense of sportsmanshhi is problematical. However they promptly challenged the single boys to a game at any time or place in the future. Daniel hit a homer in this game, but the rest of the batting was of the one-base variety, mainly. The single men had a disconcerting habit of dropping flies just beyond the reach of the married fielders, or else driving grounders and liners off their hands. Married men.—C. Johnson p, Heagle c, Hoard 2b, T. Fry cf, Fred Barnum lf, E. Craighead ss, L. Barnum 3b, C. Gunning rf, Rev. Daniel 1b. Bachelors.—G. Petherick rf, G. Kerr p, R. Barnum, ss, R. Fry 2b, L. Anderson 3b, H. Lambert cf, W. Hume 1b, T. Owens c, K. Gadden lf.

By innings:

Benedicts.....6 0 0 2 2—10
Bachelors.....0 3 9 1 0—13

Umpires—Maybee and Watson.

This concluded the sports programme and after a round at the refreshment booth most of the crowd left for home to attend to the usual chores. Some of the young folk spent part of the afternoon boating and swimming, while many of the ladies enjoyed a social hour by the side of the river.

It is hoped that this event will be made an annual one as everyone present thoroughly enjoyed the day of recreation, and the fellowship with the members of the different charges.

If laid end to end the water mains in New York City would make a pipe line from the Atlantic to the Pacific.

Silence is the rule in one well-known bookshop in Oxford, England, where the clerks never speak to a customer until spoken to.

CHICAGO WINS OPENER 6 TO 0

Sheriff Blake Pitches Almost Perfect Game To Defeat Boston.

FARRELL STARS.

NEW YORK, July 13.—(Canadian Press).—Chicago defeated Boston 6 to 2 in the opening game of the Boston series yesterday. Sheriff Blake pitched an almost perfect game despite the oppressive heat. Farrell fielded sensationally, making one stop while rolling over on the ground, and then, while flat on his back, retiring the runner at first.

the Pittsburgh Pirates at Brooklyn Dazzy Vance struck out eleven of yesterday but weakened in the last two innings and Brooklyn lost by 2 to 1. Vance drove in the Robins' run with a sacrifice fly in the fifth. The deciding run was pushed over in the ninth when Cuyler walked, stole second, was sacrificed to third and scored on Hill's grounder to Partridge.

The St. Louis Cardinals yesterday won their second game at Philadelphia and their third in a row by a score of 9 to 6. The champions broke up a 4-4 tie in the eighth when they drove Sweetland the Phillies' rookie southpaw, to cover and scored four runs. Cy Williams hit his sixteenth home run of the season with none on in the ninth.

New York defeated Cincinnati by 3 to 2 yesterday in the first of a five game series at New York. Hornsby came out of his batting slump to drive in all of the Giants' runs. His single scored Roush in the third and in the sixth he hit his sixteenth home run of the season with Lindstrom on base. Benton outpitched Luque and Nehf.

WARSAW WINS.

Defeats North Douro 31-13 In North Peterborough League Fixture.

DOURO, July 13. — The fixture North Douro vs. Warsaw of the North Peterboro Soft Ball League, was played on Friday evening, the victor being Warsaw, and the score 31-13. The line-up:

North Douro: Raymond Walsh p; Martin Coughlin c; W. Towns 1o; Francis O'Brien 2b; James Walsh 3b, John Delaney ss; Joseph Walsh lf; Clarence Coughlin cf; Vincent Dwyer rf.

Warsaw: Raphael Darling p; C. Morrison c; Frederick Fitzgerald 1b; Rufus Payne 2b; Allen Taylor 3b; Hector Munro, ss; George Webber lf; Bart Allen cf; Roland Tedford rf.

Umpires: At plate, William Hayes, on bases, Austin Allen

DELORO CHAMPS STRONG EVERYWHERE

But Petes Confident Of Beating Them Here On Saturday.

The Deloro team which meets the Petes here Saturday is a snappy ball club. Strong in all departments and fortified by daily practice. The outfit managed by Bob Elliott won the Intermediate provincial honors last year and looks good to repeat. In the Quinn brothers of Kingston, Johnny behind the bat and Art at second; in Jack at shortstop and the seasoned Regan at third base, and Hughes at first, Deloro's inner guard is strong, while the outfield, with the hard-hitting Hec Boudreau, Jack Bond (the hockey star), and Brown, his few weaknesses. The team is well supplied with pitching strength.

The Petes are anxious to take a fall out of the Deloro gang and will have their best team of the season out, including Jimmy Hall whose presence in the outfield will be welcome.

Saturday's game will be called at 3 o'clock sharp and should attract a big crowd.

War Veteran's Medal Brings Him Freedom

STAMFORD, Conn., July 13. — (United Press).—Wallace Tallman 34, of Malone, N. Y., one of the eleven survivors of the Black Watch of Canada, was sentenced to 30 days in jail here as a vagrant. When the Black Watch medal was accidently discovered on his person and a policeman obtained information of his services in the world war, the case was re-opened. The jail sentence was suspended and a collection taken among the police, lawyers, and attendants to assist the man on his journey to Willimantic, Conn.

Famous Tennis Stars Return to the States

NEW YORK, July 13.—(Canadian Press).—William T. Tilden and Frances T. Hunter returned to the United States today after three months tennis in Europe. Mrs. Molly Mallory, America's women's champion, was also a passenger on the Majestic on which Tilden and Hunter arrived.

"It all depends on Bill Johnson," Tilden said in discussing the Davis Cup matches. He referred to the veteran Californian expected to play an important part in the cup defense. Both Tilden and Hunter predicted a hard battle with the French.

"The French will win in the European finals unless someone chloroforms them", said Tilden.

CANADIANS WIN.

Touring Soccer Team Defeats Hawkes Bay Eleven 5-2.

HASTINGS, New Zealand, July 13. Canadian Press. — Playing against one of the best local soccer aggregations encountered on their tour of New Zealand, the Canadian All Stars won from the Hawkes Bay team here to-day five to two.

LAWN BOWLING

The following games are scheduled for to-night:

Waddell vs. Taylor.
Donaldson vs. Freeman.
Gimblett vs. Curvin.
Oke vs. Sedgewick.
Allan vs. Bennett.

Last night Martin defeated Freeman and Bennett defeated Taylor.

TOLLEY LEADING IN BRITISH OPEN

Close Play In Qualifying Round Against U. S. Invaders' Leaders.

JONES HAS 71.

ST. ANDREWS, Scotland, July 13. —(Canadian Press).—British hopes for recapturing the British open title from Bobby Jones of Atlanta, Ga., rested last night chiefly on the strong man of British golf, Cyril Tolley. Tolley at the peak of his game yesterday driving tremendously long and accurate shots down the narrow St. Andrews fairways, turned in a 144 for the qualifying rounds of the championship tournament and led the field.

One hundred and eight golfers qualified, among them eight from the United States. Jones had a nice seventy one yesterday over the new course which gave him 147 for the two days play and put him in the forefront of the battle even with Rene Golias of France who had 71 for the first day's round.

C. A. Whitcombe, the British pro, was runner up to Tolley, scoring 145. Wild Bill Melhorn, the leader of the American contingent, had 146.

Harry Vardon, the veteran of the British links came around within the qualifying circle with 156, but George Duncan, who holds the course record of 68, and Roger Wethered, another golfing personality, failed to make the starting list for the championship flight.

Duncan took four putts on the first green, three shots in a bunker at the second and altogether too many at other places for a day's total of 82 and an aggregate of 162.

Wethered passed out with a 161.

The veteran James Braid led the Scottish qualifiers with 150. J. H. Taylor and Ted Ray bagged 155's. Arthur Havers had 157; George Gadd 155; George Tweddel, 149; Robert Harriss 152; W. B. Torrance 152; Aubrey Boomer 151 and Joseph Holland 154.

Threatening weather continued yesterday. The sun hasn't shone here in a week and the greens are likely to continue heavy.

The first round of championship play starts today. There will be another round Thursday, after which all but those within 15 strokes of the leader will drop out, leaving a final round among the select of 36 holes.

Bobby Jones played yesterday like a great champion. His round over the despised "new" course was something to boast of, for most golfers contend this course isn't a fair test and when the championship was laid at St. Andrews, six years ago, entrants refused to play the qualifying round over it. There are rumblings of rebellion this year but no open break has occurred.

The Atlanta youngster was rewarded for his courage with five birdies and for a time threatened to equal his 68 of last week. Evidently satisfied with his qualifying rounds, he relaxed on the homeward journey and took three fives.

Mehlorn played a characteristic round of steady careful golf for his 73, putted excellently, sank two long ones for birdie threes on the outward jaunt and never was in real trouble. Charles Whitcombe was the ouly player who outshone Mehlorn on the greens. Whitcombe sank a 30 yard putt for a two at the eighth and got another deuce at the eleventh. At the twelfth the Britisher holed a 20 foot tap for a three.

Theatres

AT THE REGENT.

STAGE ETIQUETTE CAUSES MIRTH

Beatrice Lillie, English Player, Causes Much Comedy on Set.

Stage etiquette is a comical thing, sometimes, in pictures.

Beatrice Lillie, former star of "Charlot's Revue" and famous English comedienne, created as much comedy between scenes as before the camera in her first role for the screen in "Exit Smiling," coming soon to the Regent Theatre.

Whenever she inadvertently got out of camera lines—not being quite used to this phase of the work yet—she apologized to Sam Taylor, directing, to the cameramen, and whoever else was in the scene.

"Oh—paw-don me!" she exclaimed "Movie actors usually grunt when such a thing happens," says Taylor.

The British comedienne play a little utility actress in a travelling "rep show" in the new picture, a hilarious comedy-romance of stage life by Marc Connelly, with Jack Pickford and a notable cast. The new Sam Taylor production is laid in a travelling "show car" in small theatres and "one night stands" and has a cast that is somewhat new in pictures.

A regular stock leading man of the stage was chosen to play this same role on the screen, in Franklin Pangborn, and D'Arcy Corrigan, Bert Woodruff, Lou Morrison, and several other old-time dramatic actors play the roles they used to play in real life. Doris Lloyd, also a former English comedienne. William Gillespie, Dorothea Wolbert, and others of note are in the cast. The continuity is by Taylor and Tim Whelan, the combination responsible for Harold Lloyd's most successful comedies.

You'd Be SURPRISED!

BY BILLY EVANS

While baseball is filled with remarkable pitching feats, no twirler in the history of the major leagues has ever been able to strike out the entire batting order of nine men in succession.

Seven successive strikeouts is the best any big league pitcher has ever been able to do and only two twirlers have ever turned in such a feat.

Back in 1906, George Wiltse, pitching for New York against Cincinnati, whiffed seven of the Reds in succession, getting three in the fourth inning and four in the fifth session, Roger Bresnahan letting the third strike get away on one of the victims.

Of the more modern pitchers, Dazzy Vance is the only one to equal Wiltses' great record. Just 18 years later, pitching for Brooklyn against Chicago, Vance got seven in a row. He got the last man in the first inning of the game of August 1, 1924, and retired the side on strikes in the second and third sessions.

Walter Johnson is the only present day pitcher who has approached that mark in an American League contest. On May 23, 1924, Johnson finished the second inning with two strike outs, fanned the side in the third and whiffed the first man to face him in the fourth, for a total of six victims.

Seven successive strikeouts in a major league game is going some, and it will probably be many years before any twirler even equals the mark set by Geore Wiltse and "Dazzy" Vance.

Lyrics Of Life

(By Douglas Malloch.)

THE FUNNY SIDE.

To-day we sat and talked about
The time the gasoline gave out,
And father woke the farmer up,
And all he did was sic his pup
On dad, and how dad hiked to town,
Where things close up when night comes down,
And how at last he found a man,
Who charged a dollar for the can,
Another for the gasoline—
To-day we all recalled the scene,
And talked it over, fore and aft,
And laughed and laughed and laughed and laughed.

To-day we talked it over, though
That happened years and years ago
When cars were scarce and roads were bad,
My goodness, what a time we had!—
Of how we waited by the road,
And mother sat down on the toad,
And how she screamed, and brother tried
To jump a ditch, and fell inside
And got all muck—to-day we sat
And talked it over, all of that,
And laughed the way that people do
After a month or year or two.

And so it is with lots of things:
The very thing that sorrow brings
To-day, to-morrow makes us smile.
We only need to wait awhile,
And then we see the funny side
Of many a night we nearly died,
I do not mean to say a man
Should smile right then, for no one can,
But, if we only tried a bit
To see the funny side of it,
We'd smile at little cares we knew
A whole lot sooner than we do.

CRICKET NEWS.

The local club will hold a full practice match on Saturday next at the oval, commencing at 2.30 sharp. All players are urged to turn out for the game, and anyone not a member of the club is welcomed for this game. After the match the team will be chosen to represent Peterboro in the game against the Toronto C. C. to be played in Toronto on the following Saturday.

Practice to-night and Friday at the usual hour.

HOLDS TWO CHAMPIONSHIPS

Miss Ada Mackenzie, secretary and founder of the Toronto Ladies' Golf Club, who has the distinction of holding both the Ontario and the Canadian ladies' championships. The Toronto ladies' club is the only golf club in Canada built exclusively for ladies. Miss Mackenzie is considered to be one of the best, if not the best, exponent of the game in Canada.

Uncle Wiggily

To-day's Bedtime Story

By Howard R. Garis

UNCLE WIGGILY'S SHOWER BATH.

(Copyright, 1927, by McClure Newspaper Syndicate.)

"What are you going to do, Wiggie?" asked Mrs. Longears of her rabbit gentleman husband one morning. She saw him dragging the hose across the lawn. A little while before the forty-leven little bunny children had raced across the lawn to go down to play by the brook. For it was a very hot day.

"I am going to make a shower," said Mr. Longears.

"Oh, a shower will be just fine!" exclaimed his wife. "We have had no rain for a long time and the garden is very dry. Make a big shower while you are about it, my dear!"

"Ha! Ha!" laughed Uncle Wiggily. "I don't mean the same kind of shower that you do. I was going to fix this hose up in a tree so I could run under the spray and get a shower bath to cool me off. I'll put on my bathing suit and you and Nurse Jane can do the same, my dear, and we'll imagine we're at the seashore."

"I thought you were going to water the garden," said Mrs. Longears, a bit sadly as she looked at the carrots, turnips and lettuce that were very dry. "And why can't you get cool in the bathtub?"

"Oh, a shower bath is much better," her rabbit husband answered. "It is more stylish. And after I have fixed the hose to give us a shower bath I will water the garden with it."

"Then everything will be all right," said Mrs. Longears. "I'll go tell Nurse Jane and we'll put on our bathing suits."

Uncle Wiggily tied the end of the hose up in the low branches of an apple tree in such a way that the nozzle pointed downward.

"All I need to do now," said the Bunny Uncle to himself, as he looked at the hanging hose, "is to stand under it, after I have turned on the water at the faucet and I will have as fine a shower bath as heart could wish."

Looking up in the tree to make sure he had the hose well fastened, then whistling softly, and smiling beneath his pink, twinkling nose, Uncle Wiggily was about to step from beneath the shower to get his bathing suit, when he saw Mrs. Twistytail, the fat pig lady, waddling toward him.

"What are you doing under that apple tree, Uncle Wiggily?" grunted Mrs. Twistytail, shaking her parasol at him. For she was all dressed up stylish like to go to the movies. "Are you going to make a pie?"

"I have just finished making a shower bath," answered the rabbit gentleman, pointing to the hose. "It is such hot weather I thought a shower would be very cooling."

"And so it will be! Oh, you clever rabbit!" grunted Mrs. Twistytail, playfully tapping Uncle Wiggily on the head with her parasol. "Oh, how I wish my husband would do things like that instead of always looking for sour milk pies or cornoob puddings. He has such an appetite! But I don't see any water in your shower bath," went on the pig lady, standing beneath the hose nozzle and squinting up toward it. "'Tis as dry as flour dust!"

"Oh, I haven't turned the water on yet," Uncle Wiggily said. "If you will wait until I get on my bathing suit I'll show you how it works. You will see water spurting out of there." Uncle Wiggily stood close to the lady pig, under the hose nozzle and was pointing up to it. And the pig lady was looking

"I've just finished making a shower bath."

as hard as she could, when, all of a sudden, with a swish and a whish of water, wetting Mrs. Twistytail, her parasol and her good clothes, and soaking Uncle Wiggily to the skin, with all his clothes on.

"Oh! Oh! Wush!" gasped Mrs. Twistytail. "What is the idea of playing a trick like this on me, Mr. Longears?" And she began to whang him over the head with her parasol, but not in play this time.

"I—I—er—now—I didn't turn that water on!" choked Mr. Longears. "I am as much surprised as you are. Some of the children must have turned the faucet."

Then he looked and saw Baby Bunty at the faucet where the water turned on, and that little orphan rabbit girl said:

"Oh, Unkie Wig! Did I wet 'oo an' Mrs. Twisty? I thought 'oo was all ready for a baff! Oh, I dot 'oo all wet, arn't I?" and Baby Bunty laughed Then, after a moment, Uncle Wiggily and the lady pig also laughed. For they knew Baby Bunty didn't mean to tease them. She thought they really had on their bathing suits, I guess.

"Well, my shower works, anyhow," said Mr. Longears. And when he had taken off his wet clothes and put on his bathing suit, and when Mrs. Twistytail was dry, every one said how color it was.

Arrives at Paris from New York

JONES EQUALS RECORD.

Scores 68 In First Round In Defence Of Brititsh Open Title.

ST. ANDREW'S, Scotland, July 13. Canadian Press. — Bobby Jones struck a decisive blow in defence of his British open golf title by scoring a sensational 68 for the first 18 of the 72 holes to decide the title. His score equalled the course record.

ST. ANDREW'S, July 13. Canadian Press. — Len Nettleford, the Australian amateur champion, became runner up to Jones for a moment, when he turned in a score of 71.

Jones' most spectacular hole was on the long fifth, 530 yards of threatening trouble. He was on the edge of the immense green, with two tremendous wooden club wallops, but nearly a hundred feet from the cup He gave the ball a chance with a crisp blow from his putter, and it skimmed over the velvet surface of the green and fairly into the cup for an eagle three.

The round sent St Andrew's golf fans wild Men, women and children of this ancient town, where golf is life itself, gave vent to their pent up feelings as Jones finished the round.

The crowd broke the ropes at the finish to congratulate him but he eluded his enthusiastic well wishers.

Chicago has the largest blind colony in the world, with more than 2000 persons.

KEATING WINS 24 MILE SWIM

New York Man 11 Miles Ahead Of Nearest Competitor At Finish.

AT LAKE GEORGE.

LAKE GEORGE, N. Y., July 13.—(Canadian Press). — Edward F. Keating, New York swimmer instructor, won the twenty four mile marathon from Hague to this village at 4.30 o'clock this morning.

Keating's offical time was eighteen hours, forty seven minutes, and eighteen seconds. When he left the water, Lucy Diamond, Brooklyn, his closest rival, was still eleven miles from the finish. Mrs. Diamond and Mrs. Lottie Schoemmell were both taken from the water at 5.47 and only survivors in race are Walter Erickson and Paul Choteu, both of New York. Erickson was nine miles from the finish and Choteu eleven miles away.

Victory, as sensational and dramatic as it was unexpected in view of renowned opposition, came to the 24-year-old New York lad.

In his first joust with the leading distance swimmers of the world, the unknown youngster gained the honor of winning the longest race ever staged in fresh water and won the ten thousand dollar prize.

William Erickson, of New York, is the only swimmer left in the race, and at ten o'clock was nine miles away, plugging doggedly toward the finish line. All the Canadian swimmers had dropped out at various stages of the marathon.

Meyer Mendelsohn, Montreal swimmer in the Lake George marathon, was taken from the water at 11.30 last night. He was then considerably behind William Keating, who did not finish until five hours later.

After a hearty meal of ice cream when the race was over, Keating declared than his race had been mostly with Vierkoetter and had been planned for him alone.

NEW PLAYERS FOR E. P. BALL TEAMS

Cogs And Crescents To Be Strengthened For Fixture To-Night.

Capable players from the city league are being signed bythe clubs in the East Peterborough Baseball League, and Cogs and Crescents may use several of these youngsters in their game at the Exhibition Park this evening.

Cogs have a tie score and a win against Crescents, both games having produced some fine baseball.

HERE'S TO YOUR HEALTH

BY DR. FRANK McCOY

Subject of "The Fast Way to Health"

© 1926 McCOY HEALTH SERVICE - LOS ANGELES - CAL.

ASPARAGUS AS FOOD AND MEDICINE.

This is the season when asparagus is plentiful and reasonable in price. During the winter months, asparagus should be used frequently, but many with a limited income find it too expensive for regular use.

Asparagus is one of the non-starchy vegetables, containing only three per cent of carbohydrates, with a plentiful amount of albumen, asparagin, mannite, malic acid, carbonates, phosphate of calcium and other organic salts. One-half of its nitrogenous content is protein, while the other half is non-protein and is called asparagin. This asparagin acts as an aperient and quickly passes out of the system through the urine.

The asparagin is contained mostly in the roots, but some of it is also present in the stalks. Asparagin has an especially stimulating effect upon the kidneys and may be used with good results in dropsical conditions and by those suffering from Bright's disease and rheumatism.

When asparagin appears in the urine it has been changed to menthyl-mercaptan, which has a peculiarly disagreeable odor. It is excreted very rapidly, being noticeable from one to six hours after ingestion.

A good test may be made of the eliminating powers of the kidneys by urinating at fixed times after eating asparagus and noticing how long it is before the urine has the characteristic asparagus odor. This may also be used as a test to show the time of kidney elimination. In this case, both the time of appearance of the odor after a meal and the time of its disappearance should be noted, in order to show the functional activity of the kidneys.

It will often be noticed that those who are suffering from heart palpitation or from too rapid heart beat will have a distinct slowing of the pulse an hour or two after a meal containing asparagus. Because of this, it is especially to be recommended in cases of rapid heart, and also as a nerve sedative.

Asparagus should be used as fresh as possible and cooked for only twenty minutes. The best method to use in its preparation is to stand the bunch of asparagus on end, keeping the stalks together by tieing with a string and boiling while in this position, leaving about one inch of the tips above the surface of the water. By cooking in this manner, it is possible to cook the asparagus thoroughly without destroying the appearance of the tips.

Also try using asparagus as a salad vegetable in its raw state. Thoroughly wash it and put it away close to the ice, taking it out when ready to serve. Use only the tender part of the asparagus. You will find that it makes a delicious salad, which can be eaten from the fingers the same as celery. This gives you a new salad vegetable, which I am sure you will relish.

Questions and Answers.

Question: Mrs. J. J. B. writes: "My hands and feet are generally cold, and when they do warm up they are just the other extreme. I have always had fainting spells. As soon as I faint I am all right, can get up and do my work. I think your advice is wonderful, and I wish you would publish a diet for three regular meals."

Answer: Your trouble is no doubt caused by defective circulation which can be overcome through taking the proper amount of exercise each day. By this, I do not mean "work" but graduated calesthenic exercises. Watch for the weekly menus published in this column each Saturday.

Question: A. P. L. writes: "Will you kindly advise me in the treatment for lumbago? I have never had it before. My doctor said there is nothing to stop such a pain and it will go as it comes."

Answer: There are many causes which produce pains in the lumbar spine, and when the cause is ascertained the cure is simple. Your trouble may be caused by one or more of the following: Rheumatism, muscular strain, faulty posture, prolapsed organs, misplaced vertebrae, or weakness of the back muscles. Treatment with heat affords the greatest relief until you remove the cause.

Question: Mrs. C. P. D. writes: "I always enjoy reading your articles, they are fine. Please tell me how high my blood-pressure should be. I am 44 years old, and it is now 185. Several weeks ago it was 225. What is the cause of it?"

Answer: High blood-pressure is caused either by hardening of the arteries or from high tension caused by nervousness. Your blood-pressure should be about 130, and you are always in danger if it is over 145.

Jhungle Breath

© 1927 by NEA Service

By Ben Lucien Burman

(Continued from yesterday.)

THIS HAS HAPPENED

Attempts have been made on the life of ELISE MARBERRY, an American girl owning considerable property near the little town of PORTO VERDE, in west central Brazil. Several mysterious deaths have occurred, but so far she has escaped harm, due to the shrewdness of her cousin and protector, VILAK, a curious mixture of American and Oriental blood and a student of criminology.

Vilak has been trying to persuade Elise to leave Porto Verde, letting him stay behind with his friend, LINCOLN NUNNALLY, an elderly American chemist, to solve the mystery. She finally agrees, but her departure is prevented by threat of floods. Messengers ride through the countryside, warning the natives. Vilak suggests they go to the house of GAYLORD PRENTISS, a recluse and a forbidding man and an enemy of Elise's whom she suspects of a knowledge of the conspiracy against her. She agrees it is their duty.

Vilak learns the flood warning is a ruse to get Prentiss out of his house and so informs him. The party is besieged by an armed force in a stone tower next to Prentiss' house. Vilak disperses the enemy by dynamiting a dam and causing a real flood. When the water recedes they discover Prentiss is gone.

The next day, TINKY, Elise's two-year-old orphaned nephew, is kidnaped for the second time. A native reports Prentiss has been seen with a baby. The trail leads into the jungle and, with native trackers, they pursue. Calamity overtakes them. Their natives are hurt or desert and two of their white friends are fever victims.

Elise, Vilak and Nunnally finally emerge from the jungle. On the outskirts of a strange city that looks like the relics of Inca civilization, they are overcome by gas. When they awake they find themselves prisoners of CARLOS D'ALBENTARA, whom they knew as an engineer in Porto Verde.

D'Albentara leads the two men into the presence of the city's strange ruler.

NOW BEGIN THE STORY

CHAPTER XI.

It was the figure of an enormously fat, half-breed negro, with thick grinning lips, and fat, not unkind face. On his huge shining breast hung a row of Spanish dollars, on his head was one of the steel helmets which Pizarro's men had worn during the conquest. The helmet was now ornamented by a row of tall purple feathers.

His fat ears had been pierced and in them had been inserted two golden suns of beautiful workmanship like the carvings on the stones overhead modeled in the form of conventionalized human faces. These had so distended the cartilage of the ears that tea cups could have been put into the orifices without difficulty.

Around his fat legs were two pieces of old Spanish armor obviously constructed for some cavalier of Madrid or Toledo half his size, for his puffy flesh bulged out in great rolls where the guards ended and their pressure ceased.

A beaded breech-clout completed his fantastic costume. Fires were burning in two stone braziers on either side of him. These he turned to stir now and then with a short decorated wand of metal he held in his hand.

"Lovely old boy, isn't he?" Vilak whispered to the chemist., "He's a perfect study in primitive religions. Spanish relics, Inca ritual and ornaments, and African superstition all beautifully jumbled together. I think I heard one of the guards whispering his name, and if it was, even that's mixed Spanish and Indian. Undoubtedly though, he thinks he's Manco Capec or one of the other famous old Inca emperors come to life."

The fat chieftain saw the new-comers approaching. He twiddled the wand in his thick, clumsy fingers. "Kneel!" he roared in thick Guarany. The soldiers and their captives obeyed quickly and began crawling on their knees toward the throne. D'Albentara remained standing. The chief noticed this, looked at him reproachfully.

The Portuguese fingered his tiny mustache. "I have brought them, O august son of the flaming sun," he announced in a monotonous droning voice, as though the speech were some foolish rigamarole of which he was long weary. "Your humble slaves have gone to bring the others here also. What is your royal will that I, your slave, do with these two miserable wretches who crawl before you as loathsome snakes crawl at the feet of the mighty jaguar? What is your will, illustrious chief?"

The ridiculous figure on the throne beamed at the flattery. He leaned down, peered at the captives, poked at their clothes with his wand, scratched it playfully against the top of Nunnally's bald head, then grinned broadly.

"Not look bad men," he grunted in Guarany. "Good men think maybe. Little man funny. Look like rabbit. Make Batalagos laugh. Good thing laugh. Batalagos like. Let stay one moon, two moons, maybe, talk Batalagos. Tell Batalagos stories great mountain, great water. Then Batalagos give presents and let go away. What high priest say?"

D'Albentara had lost his calm. His lips were trembling nervously. "You mistake, O son of the flaming sun," he said hastily. "These men are not good. They are evil. Evil. They are like the piranha of the rivers, whose colors are beautiful as the shining rainbow but who eats human flesh. Their breath is death. They would kill the mighty Batalagos and put another on his sacred throne. Last night by the rising moon the high priest spoke thus to the noble Batalagos. Now he speaks thus again in the setting of the sun."

The chief's smile faded. His thick lips puffed out uglily. "Kill Batalagos?" he muttered. "Make other man chief, Batalagos' throne?"

D'Albentara nodded. "I have heard them talk so even as they mounted the sacred mountain. I have heard them talk so even now as they lay in their prison. Truly they are evil men. And all things about them are evil."

The chief's eyes blazed sullenly. "High priest smart. Do what high priest say. Bad men wish kill Batalagos. Batalagos kill bad men first. When Batalagos kill? What say high priest?"

"Tonight, O son of the sun. For while they live they are evil and will work evil spells upon Batalagos. While in dead men there is naught but good."

The chief twiddled the wand in his fat fingers again and looked thoughtful. "Batalagos think something else," he said at last. "Batalagos not kill them tonight. Batalagos wait half-moon till feast of Raymi, feast of sun, feast of fire. Kill evil men then. Sacrifice. Make sungod, fire-god, happy. Very happy. Happy sun-god, fire-god, good to Batalagos. Make Batalagos happy too. Batalagos not afraid evil men. Keep evil men prison. Batalagos big, strong."

"Kill them tonight, noble Batalagos."

The chief's stubbornness was aroused. He stamped his enormous foot. "No, kill feast of Raymi. Not afraid. Batalagos spoken."

The stunted half-breed with the enormous pimpled nose, who had been D'Albentara's foreman at the railroad camp, entered with Elise marching stiffly at his side. She saw Vilak and tried to move toward him; the guard checked her.

Vilak caught her eye; his lips framed the single word: "Steady." A faint smiling response showed him that she had understood. As she neared the ridiculous figure on the throne, D'Albentara turned his head. Her face brightened as she recognized him, as though his unexpected presence might mean her swift deliverance.

"Senhor D'Albentara!" she flashed. Then her countenance fell again as he coldly turned away. Her escort knelt, dragging her down with him. The chief stared at her, drew himself up on his throne, then giggled with delight.

D'Albentara looked on tranquilly, pulling at the ends of his mustache like a sleek, satisfied cat cleaning its whiskers. "Is she not beautiful, son of the sun?" he crooned.

The chief giggled again. With the aid of a soldier who stood by him, he lifted his enormous body from the throne, and waddled to Elise. He passed the wand over her hair and along the outlines of her small, delicately molded body.

"Pretty," he grunted. "Pretty. Batalagos much like." He thoughtfully scratched a lock of kinky hair which the steel helmet on his head had left uncovered. "Batalagos make wife. Wait half-moon. Feast of Raymi. Raymi good time sacrifice, good time marry. Girl make Batalagos fine wife. Batalagos have other wives"—he clumsily counted out nine on his enormous fingers—"but never other wife like this one. This wife make Batalagos very happy."

Though Elise's knowledge of Guarany was slight, she had caught enough to understand the purport of the chief's announcement. Her interest, however, centered not on her ludicrous wooer, but on D'Albentara. Her eyes were fixed on him so steadily, so questioningly, that he turned his back to avoid her gaze.

The huge chief helped her to her feet. The Portuguese was facing her once more. Her eyes were no longer questioning; they were bitter, weary. "Was it you then who took my little nephew?" she asked stonily.

He shrugged his shoulders.

"Is he dead?"

Again the other made no answer.

"I can't understand it. I can't understand anything about you. You helped me find him once. I don't want to misjudge you. I know I'm not thinking clearly. I'm all upset, and my head feels as if it would burst. You come of a civilized, cultured race; you have the air and certainly the training of a gentleman. Yet you're here, helping this silly savage who thinks he's a king, make prisoners of myself and my friends. I don't know whether you have taken my baby. I can't know. Perhaps you are as ignorant as I am. But I beg of you, if you do know of anything that concerns him, tell me."

D'Albentara put out his hands in a gesture of resignation. "I regret. I regret. Much. But it is business. Business."

He gave a short command; the natives guarding Vilak and the old man jerked them to their feet and led them away. They walked the length of the ruined chamber again, then across a court and into a stone building slightly smaller but otherwise almost the counterpart of the one they had just left.

They were conducted up a flight of wide stone steps into a small prison-like room, their feet bound again, and they were flung to the floor. A heavy wooden door closed behind them; they were left alone.

The above is a picture of "Happy Jack" Eckert, the largest Elk, heaviest Moose and fattest Woodmen of the World. He actually weighs 739 pounds. In the picture will also be seen the famous original Filipino Midgets, brother and sister mites of humanity who are 21 and 18 inches tall. They are all feature attractions of Miller Brothers Exposition Shows, playing all this week at the Fair Grounds.

"Showme" State Backbiter Bitten In New Game of "Knock Ontario"

This is the tale of a Missouri tourist who took a lot of "showing," but has gone home, however, firmly convinced that Ontario is every bit what it is cracked up to be.

Mr. Tourist landed in a little Northern "resort" town a week ago, inclined to belittle what he had seen of the Province and what he expected to see.

"Them fish!" he said, indicating his copy of the Ontario Government's publicity booklet, on the back cover of which are pictured several nice strings of finny ones. "You sure don't call them minnies honest-to-goodness fish?"

Into the hotel dining-room the Missourian carried his belittling ways. He ordered a steak and potatoes. The steak that came was about eight inches across and an inch thick. But, "Huh!" said he, "we wouldn't call that mor'n a lamb chop in St. Looey." The potatoes came in for similar comment. "Do you people," he grunted, "always serve peas for potatoes?" And an hour later, when he stalked out on the veranda he got off his chest a sarcastic, "I wonder if it's possible to get a St. Looey-sized jag in this town."

The hotel men got "sore" and while the tourist went hunting his "jag," they got hold of half a dozen snapping turtles and put them in the fellow's bed. The latter came in growling about midnight, and retired. But in 15 minutes he came down the stairs, three steps at a time, bleating like a calf.

"Gosh," he gurgled. "They sure bite. Pretty near ate me alive. What the dickens are they anyway?"

The hotel hangers-on had gathered about him. His answer wasn't long forthcoming. "What are they?" smiled the proprietor. "Oh, nothin' much. Only a couple of our bedbugs workin'. An' say, Mister, can you beat them in St. Louis?"

ST. ANDREW'S W.M.S.

Picnic Meeting Held on Grounds Of Mrs. G. Evan's Home.

The monthly meeting of St. Andrew's W. M. S. was held in picnic style on the spacious lawn at the home of Mrs. George Evans, Englehurn, avenue.

In the absence of the president, Mrs. J. W. Gordon, Mrs. J. John, the former president, was in the chair.

The meeting opened with the singing of the doxology, and a short business session. The Bible reading was contributed by Miss E. Ferguson, followed by the roll call, each member present responding with a favorite passage of Scripture, or something appropriate to the occasion.

The ladies were greatly pleased to have with them again one of their members who has been absent for some time in the person of Miss M. Craw, who gave a delightful talk on "Prayer, and the Ever-Presence of God," in her very pleasing manner.

A musical contest was one feature of the afternoon, the prizes being won by Mrs. B. L. Barnes and Mrs. Elliott.

Afternoon tea was served at the close of the meeting, after which Mrs. Barnes moved a vote of thanks to Mrs. Evans for her kindness.

FOUR DROWNED DURING STORM

Sailboat Tips Over In Hamilton Bay With Seven On Board.

TWO MILES OUT.

HAMILTON, Ont., July 13—Caught when a severe storm swept Hamilton Bay last night, four persons were drowned and three others had a narrow escape when a small sail boat capsized two miles from shore off Station 10, Hamilton Beach.

The Dead

Frank Ryan, a permanent resident of Station 10 Beach, aged 30.

The Ryan Babe, aged 3 months.

Miss Winnifred Turner, a Beach resident, in her 14th year.

Miss Edna Stuart, Station 10 Beach, aged 13 years.

Saved

Mrs. Frank Ryan, Station 10 Beach, aged 28 years.

Wilfred Smith, Station 10 Beach, aged 14 years.

Marjorie Stuart, Station 10 Beach, aged 12 years.

Charles Stuart is the father of the Stuart girls and Miss Turner was the daughter of Charles Turner, both well known Beach residents.

The fatality is one of the most touching ever recorded here. Mrs. Ryan was forced to drop her babe after clinging with one hand to the boat and to the babe with the other.

Ryan suggested a trip in the sail boat shortly after tea and invited the neighbors' children to accompany him. They started out before 7 o'clock and were two miles off Station 10 when the storm broke. Survivors state that the craft was thrown in all directions by the rough sea, and rain poured upon the party while flashes of lightning threw the occupants into a panic.

Suddenly there was a jerk and the boat was thrown over, but it did not go down, and those who were not thrown out into the water were the only ones to be saved. Those drowned were thrown clear of the boat and had no chance to fight their way back. Ryan, Miss Stuart, and Miss Turner went into the water and were never seen again.

Mrs. Ryan made a heroic effort to save her babe. With one hand clinging to the side of the boat she held the little tot clear of the water until she became exhausted. Dropping the babe into the water, she was about to loosen her grip when young Wilfred Smith seized her. This lad is responsible for saving the life of the mother and he also gave instructions to the survivors who held to the craft and this probably saved the other occupants from being numbered among the victims.

Heard Screams for Help

The fatality was first discovered just a few minutes before 10 o'clock, when screams for help attracted the attention of Beach residents. The survivors were brought to shore and taken to the home of Scott Morrison, while Constable Taplin, Jr., answered a call for assistance and took charge. The city police were called to take Miss Marjorie Stuart to the General Hospital. She was rescued in an unconscious condition.

Parents of the children did not even know that they had taken the ride and the first intimation they had was at 10 o'clock when news of the tragedy was given them. For close to three hours the survivors clung to the boat, gradually making their way to shore. The water became calm after the storm was ended and they were able to make headway slowly to shore and when within a few hundred feet they all joined in cries for help.

Mrs. Ryan was in a hysterical condition last night. She was married eighteen months ago.

Had neighbors known that the sailboat was in the bay assistance could have been sent. Earlier in the evening the Harbor Commission patrol rescued several boats which were in difficulties. A call reached police headquarters a few minutes after the storm came, stating that a sailboat had capsized. A search was made but the craft could not be found and it is now thought that it was the Ryan boat which went over.

Residents of the beach stated that there was no warning given. A few dark clouds appeared in the west and a moment or two later a terrific gale swept across the water and a heavy sea followed.

The body of the infant was recovered late last night, it was learned. The remains of the other victims are still in the water and grappling operations were started immediately.

ANOTHER CABINET TO HOLD BOOKLETS

Addition Made To Equipment At Chamber Of Commerce.

Another information booklet cabinet has been recently erected in the office of the Chamber of Commerce for the use of local citizens and tourists. The former cabinet has been of great value to the above for information concerning places and situations for camps in the vacation season, but this cabinet will contain booklets showing accommodation at the different points in Ontario and a list of hotels in cities en en route to these camps.

These booklets are to be absolutely free of charge and it is the wish of the officials that everyone will obtain these booklets, showing when and how to spend the summer months in a perfect vacation.

TENDERS WANTED.

The undersigned will receive Tenders for the Re-wiring of the Town Hall, Council Chamber, Fire Hall, Caretaker's Residence, in the Village of Hastings. Tenders received up till 12 o'clock Noon Friday, July 22nd. The lowest or any Tender not necessarily accepted.

ALEX. WILSON, Clerk, Village of Hastings. 1d-11-1968

On Confederation Day

a Heintzman & Co. Piano was heard all over the World

On July 1 for the Confederation Day Celebration at Ottawa, a Heintzman & Co. Piano was chosen by the Government of Canada to be used by the artists contributing to the program. Through the broadcasting hook-up in Canada, and by use of the Marconi Beam System of broadcasting, the historical music and speeches were heard not only in the United States and Canada but in England, France and throughout the rest of the world as well.

At this great period in Canadian history, Heintzman & Co. were particularly proud to take their place with those who contributed to its success.

Visit our Salons where you may see and hear this wonderful instrument.

CHURCH SOCIAL IS SUCCESSFUL

Sacred Heart Supper Patronized By Several Hundred People.

MANY BOOTHS.

The annual social and supper held on the grounds of the Sacred Heart Church last evening was successful as these events sponsored by the south end church invariably prove to be.

Several thousand people were in attendance during the evening, and hundreds took advantage of the well-laden supper tables, decorated with flowers and providing an excellent meal, in charge of the ladies of the parish, who, assisted by the men, also supervised the sale of articles at the various booths. At these centres, arranged with colored lanterns, pennants and flowers, were sold quantities of ice cream, soft drinks and candy.

At the fancy articles booth, the sale was brisk all evening, with T. Turcotte in charge. There was a fish pond and "Kill the Cat" game for the juniors, and the band of the Peterborough Rangers rendered tuneful music throughout the evening. The grounds were brightly illuminated by overhead electric lights and illuminated balloons were a source of much enjoyment also, during the evening.

NOTICE OF REGISTRATION OF BY-LAW.

Notice is hereby given, That a By-law was passed by the Council of the Corporation of the City of Peterborough on the 4th day of July, 1927, providing for the issue of Debentures to the amount of $295,000.00, for the purpose of constructing a Commination School Building to be used as a Vocational and High School, and that such By-law was registered in the Registry Office of the County of Peterborough on the 5th day of July, 1927. Any motion to quash or set aside the same or any part thereof must be made within Three Months after the first publication of this Notice, and cannot be made thereafter.

Dated the 5th Day of July, 1927.

S. R. ARMSTRONG, Clerk.

SUNKEN STEAMER FOUND BY DIVERS

Valuable Cargo Of Copper Sent To Bottom By Sub May Be Salvaged.

GENOA, Italy, July 13 (Canadian Press). — Divers have succeeded in locating the steamer Washington, which was sunk in October, 1917, by a German submarine while on the way from America to Genoa. They found the vessel at Camogli, near here. She had a cargo of copper worth sixty million dollars aboard, and it is hoped to recover it.

AROUND THE CITY

Members of the senior gymnasium classes of the Young Women's Christian Association held a very jolly picnic down the river last evening. About twenty girls went in three launches three miles down the river, where they had a camp-fire supper and programme, returning later by moonlight. This outing, in charge of Miss Littlefield, was one of the most enjoyable parties held by the girls in a long series of successful events.

DOURO NEWS

DOURO, July 13.—Mr. John Sullivan of Lindsay and son, Francis, of Detroit were visitors with Mrs. Ellen Buckley and family last week.

Little Miss Zita Fitzpatrick of Asphodel is visiting her aunt, Mrs. Joseph Sheehan.

BOY DROWNED AT BALA CAMP

Toronto Youth Loses Life On Trip From Y. M. C. A. Camp.

UNUSUAL ACCIDENT.

TORONTO, July 13.—Announcement of the death by drowning, near Bala, on Monday afternoon, of Harold Simington, aged 15, son of B. Simington of 84 Grenadier Road, was received in Toronto yesterday by the Y. M. C. A. authorities in a telegram and by long distance telephone message. The delay in the news reaching Toronto was due to the fact that the accident resulting in the drowning of the lad, who was a member of a Y.M.C.A. camp for boys, occurred while a group of camp leaders and boys was away on a canoe trip.

The accident resulting in the death of Harold Simington was a most unusual one and was the first accident of the kind to occur in connection with the camp for the past 20 years.

INDIAN YOUTHS UPSET IN LAKE

Canoe Turns Over During Squall At Stoney Lake.

SWIM TO SAFETY.

McCRACKEN'S LANDING, July 13.—Two Indian boys, the Johnson Bros., were caught in a windstorm and their boat upset while returning from a fishing trip on Monday. Their ability to swim saved their lives.

The father of the boys is working for A. Morrison, head carpenter in charge of the building of four cottages for Mr. Strickland.

The new buildings are a credit to this locality, and are of log and slab construction.

The largest one is octagon in shape and at the present time is used as a tea-room by Mrs. H. Graham of Lakefield.

Slab buildings are packed with moss.

IN POLICE COURT.

Kenneth Baillas appeared before Magistrate O. A. Langley this morning charged with taking a motor car, the property of the Fontaine Livery, Hunter Street. The accused pleaded guilty and was remanded until Monday for sentence.

Harry Ellis, who was arrested with Baillas at Bridgeburg, Ont., and who was brought back to this city yesterday with him by Detective Carey, appeared on the same charge, but pleaded not guilty. The prosecution was unable to go on with the trial, so he was remanded until Monday morning.

Two local citizens appeared for being intoxicated. One pleaded guilty and was fined $10 and cost, and the other pleaded not guilty and will be tried tomorrow morning.

Maxwell Neiger, one of the men with the Miller Shows, appeared on the charge of vagrancy, and was let go on suspended sentence.

BIRTH

FLEETWOOD.—To Mr. and Mrs. Claude Fleetwood, 629 George St., on July 6, 1927, a daughter.

IN MEMORIAM.

NEWALL: In loving memory of my dear father, John Newall, who died July 13th, 1925:

You are always in my memory,
And I think of how you died,
To think you could not say good-bye,
Before you closed your eyes.
Upright and honest in all your ways,
Honest and true to the end of your days;
Forgotten by some in this world you may be,
But dear to my memory you always will be.

—Sadly missed by Lottie Buller, George, Phyn and Thelma.

JUDGE INTIMATES GRANTING OF SUIT

Woman's Claim For Money From Father's Estate Heard At Cobourg.

COBOURG, July 13.—His Honor Judge McGlade, Judge of the Surrogate Court of Northumberland and Durham, sat at trial yesterday, at Cobourg, and heard the case of Mrs. Lucy Garrett, who claimed against the estate of her father, the late John Stone, a retired farmer, living in Port Hope, in the amount of $1,662.00 for his board and lodging and money loaned to him.

For some years before the late Mr. Stone died, he resided with his daughter, who boarded him and provided for him, and, according to the evidence of several witnesses, the late Mr. Stone promised to pay her well for her attention to him.

Judge McGlade reserved judgment, but intimated that he would find for the plaintiff, for the board and keep of her father, but not to the extent that she claimed, and he also intimated that he was inclined to find in her favor for the amount of the money loaned.

The case was an interesting one, as Mrs. Garrett never made any demand on her father for payment, and the promises he made to remunerate her were of a very general character.

The executor of the estate, Samuel R. Caldwell, of Port Hope, objected to paying the account.

The Honorable G. N. Gordon of Peterborough appeared for Mrs. Garrett, and W. F. McMahon of Port Hope appear for the executor.

NEW DELEGATE IS IN NEW YORK

Most Rev. Andrew Cassulo Is On way To Ottawa From Rome.

MET BY PRIESTS.

NEW YORK, July 13 (United Press)—His Grace Archbishop Andrew Cassulo, new apostolic delegate to Canada, arrived here to-day from Europe on the liner Paris. He was formerly apostolic delegate to Egypt.

The Archbishop was met by a motor cycle police escort and Archbishop John J. Dunn, representing Cardinal Hayes. Mgr. George Lebeau, Chancellor of the Archbishopric of Ottawa, and Father Arthur J. Grogan, of New York also greeted him.

Archbishop Cassulo will remain in New York for a few days as the guest of the Blessed Sacrament Fathers.

OBITUARY

MRS. T. B. STAPLES

The death occurred yesterday of Elizabeth Keegan, beloved wife of Thomas B. Staples of Hamilton, Ontario. The funeral announcements will be made later.

MRS. A. E. MOYNS.

The funeral service of the late Mrs. Mary Georgina Moyns, held on Tuesday, July 12th, in the Salvation Army Temple, was attended by a large number of Salvationists and friends.

At this service tributes were paid to the life and influence of the promoted comrade by Major and Mrs. McElhiney and Young Peoples' Sergeant-Major R. C. Braund.

Adjutant Frank Ham conducted the service and preached an appropriate sermon, preceded by a solo, "God Wipes the Tear from Every Eye' by Mrs. Mendell Braund.

The Peterborough Temple Band under the direction of Bandmaster Frank Robinson, supplied the music and headed the cortege as it wended its way to the Little Lake cemetery, where a short service was also conducted, and the interment made.

The late Mrs. Moyns became a Salvationist 44 years ago in the city of Bradford, England. During this long period of service she had successfully held many official positions, including that of Young Peoples' Sergt.-Major in the Marylebone Corps, London, Eng. The last local office held in the Peterboro Temple Corps, was that of Penitent Form Sergeant, the duties of which were faithfully fulfilled up to the time of illness.

Mrs. Moyns was also an active member of the League of Mercy connected with the Peterboro Temple Corps, spending much time in visiting the various institutions of the city, distributing army periodicals.

She leaves to mourn her loss, her husband, Mr. A. E. Moyns, 5 Grandview avenue, two daughters, Mrs. W. H. Peryer, and Mrs. Norman Moore, all of Peterboro; and four brothers and one sister, who reside in England.

A memorial service will be held in the Salvation Army Temple on Sunday evening next.

DR. YOUNG HURT IN CAR SMASH

Car Runs Into Ditch On Armour Road, Near Mead's Creek.

CAR BADLY BROKEN.

Dr. T. W. H. Young, coroner for the city, was slightly injured in a motor accident near Downer's Corners last night, when the automobile which he was driving left the road and careened into the ditch about fifteen feet from the bridge that crosses over Meads Creek.

The windshield on the car was smashed, and the fenders broken. The radiator was also slightly bent in. A wrecking truck towed the car into the city late last night.

LODGE UNFURLS ITS NEW BANNER

Vimy Ridge L. O. B. A. Had New Emblem For Walk In Cobourg.

Vimy Ridge, L.O.B.A., No. 244, held its regular meeting on Tuesday, July 5 ,and celebrated its tenth birthday anniversary.

After lodge closed the members and visitors adjourned to the Assembly Hall, where the banquet was being held. Lunch was served to about 140 members and visitors. Toasts were made to the King, the Sister Lodges, the Brother Lodges, etc., and were responded to in a pleasing manner.

The new banner was unfurled by Bro. Brown, who also gave a short lecture on the origin of the banners and what they stand for.

Bro. Spence acted as chairman. There was a large number of visitors from Lindsay, Keene, Havelock, and Toronto.

CUTTER BEING TOWED.

Revenue Vessel, Disabled, Being Taken To Amherst By Steamer.

HALIFAX, July 13 (Canadian Press).—The steamer Lingan wirelessed the local Marine and Fisheries Department this afternoon that she was towing the Dominion Government revenue cutter Margaret to Amherst, Magdalen Islands. The Margaret was reported sinking this morning and a number of vessels proceeded to her rescue.

ANOTHER REBUFF

Winston Churchill, British Chancellor of the Exchequer, who following the recent Tory revolt which compelled the Government to abandon its proposed reform of the House of Lords, met with a further rebuff when Sir Robert Horne led a successful attack against the finance bill to extend the powers of the treasury to prevent evasions of the supertax by the formation of limited liability companies.

Noranda and Lake Shore Feature Mining Market.

TORONTO, July 13. — (Canadian Press). —Noranda and Lake Shore continued to display strength on the market of the Standard Mining Exchange to-day. Noranda in fairly active trading advanced twenty cents to 23.40, Lake Shore gained 10 cents to 18.10. McIntyre moved abruptly upwards to 26.00, a gain of 50 cents. Amulet was easily the most active issue on the board and continued demand for the stock sent it up seven cents to 2.51. Hollinger was the weak feature, declining 20 cents to 18.20, while Wright Hargreaves dropped 9 cents to 5.85. Coniaurum was off 17 cents to 3.25. Barry Hollinger was active and stronger at 29, a gain of 1½, Capitol was up a like amount to 21 1-2. Noranda rights registered gain of 10 points to 85. International Nickel moved forward from 62.12 to 62.62.

Wheat prices Go Down As Rust Danger Decreases.

CHICAGO, July 13 (Canadian Press).—Wheat averaged lower early to-day, influenced by re-assuring news in regard to black rust danger in the North-West. Opening at one-eighth cent off to a half cent up, wheat scored slight general gains and then underwent downturns. Corn and oats displayed weakness, corn starting at a half cent decline to one-eighth cent advance, and subsequently showing a sudden drop all around. Lard was easy, ribs strong.

Opening prices were: Wheat, July, 1.43¼; September 1.41. Corn, July, 1.00 3-8; September 1.06⅝. Oats, July 45¼; September 46½.

Toronto Exchange Dull With Price Range Narrow.

TORONTO, July 13. Canadian Press. — Prices moved within a narrow range in a dull and practically featureless market on the Toronto stock exchange to-day. The listed stocks were exceptionally quiet, although considerable activity was noticeable in the unlisted section. International Nickel was the most active of the listed issues and in keeping with the general trend of prices, which were inclined to weakness, it declined 1-8 to 62 1-8. Brompton was the strong point, advancing 1 point to 36. British Columbia Fishing common was firm at 19 while the preferred gained ⅝ to 84. Twin City moved up 3-8 to 51 3-8 while International Petroleum was up ¼ to 28¾. Brazilian eased ½ to 161½. Bell Telephone ½ to 147; Seagrams ⅝ to 22, and British American Oil sold off 3-8 to 24 1-8.

Upward Movement Resumed In New York.

NEW YORK, July 13 (Canadian Press).—Resumption of the upward movement in today's stock market carried both rail and industrial averages to record high levels. Buying was influenced largely by the continued ease in credit conditions, the steady investment demand for seasoned dividend paying securities, and the reported turn for the better in the steel industry. Rails were again in the forefront of the advance, more than a dozen issues selling 2 to 4½ points above yesterday's final quotations.

Mack Trucks, which has been under pressure lately, quickly advanced 3 points, General Motors held fairly steady just above 200, with Wall Street anxiously awaiting the corporation's dividend action later in the month. Bush Terminal, Manhattan Shirt, National Tea, and Tobacco Products "A" exceeded their previous high prices for the year.

INQUEST POSTPONED.

Coroner Dr. T. W. H. Young Was Injured In Accident Yesterday.

The Coroner's inquest that was called for to-night to enquire into the causes of the death of little Nina Fletcher on June 29th has been postponed on account of the accident which occurred to Dr. T. W. H. Young.

FIND SNAKES IN TONIC

WASHINGTON, July 13.—Treasury Departmen officials who were appealed to by customs officials have decided that bottles of grain alcohol received from China were admissable as a tonic. Each bottle contained a pickled snake, thus making a medical preparation which is supposed to give the drinker the wisdom of the serpent.

SIDING SWITCH BEING REPLACED

Heavier Rails Being Put In, Leading To Hicks Siding.

GREAT CONVENIENCE.

Removed last fall, when the rails of the C.N.R. tracks were lifted, to be replaced by heavier metal, the line from Bethune Street north across Charlotte Street to the siding of the Robert Hicks Company will shortly be replaced, Alpine McNab, station agent, told The Examiner this morning.

When the alterations were made last year, the lack of a sufficiently heavy switch prevented the speedy replacement of the rail to the Hicks siding. This is now forthcoming and the completion of the work will not be long delayed.

The existence of a line to the siding, said Mr. McNab, was a great advantage, permitting the shunting of cars into the Hicks property without interfering with loading or unloading operations at the north end.

VOL. LX., No. 10 — PETERBOROUGH THURSDAY, JULY 14, 1927 — PRICE THREE CENTS

'QUAKE DEATHS IN NEAR EAST MAY BE 1,000

Casualties in Jerusalem Much Higher Than First Reported.

BODIES IN RUINS.

Reported Royal Air Force Rushing Relief To Stricken Area.

LONDON, July 14.—The Jerusalem correspondent of the Exchange Telegraph said yesterday that the latest official check-up of the havoc wrought by Monday's earthquake showed a death list of 250.

That total included 85 killed at Es Salt, an outlying district heretofore unheard from.

Five hundred persons were injured and many women were among the casualites, the report added.

At Nablus, homes were damaged so badly that the residents were forced to evacuate and are camping in the open air. Officials were also forced to withdraw fr mothe damaged government house at Jerusalem.

May Be 1,000.

CAIRO, Egypt, July 14.—Conflicting reports yesterday from the stricken area of Trans-Jordania and the Holy Land yesterday placed the death toll in Monday's earthquake between 250 and 1,000. An eye-witness said more than 300 persons lost their lives.

The high figure of a thousand was unofficial. It was feared that many missing bodies would be found buried in ruins at various points over a vast area stretching from Egypt to Syria.

Disrupted telegraphic and railroad communications added to the difficulty of obtaining accurate reports of the dead and injured.

Judge's Wife Killed.

One of the three tourists killed in Jericho when the hotel collapsed was the wife of Sir Syed Abdul Raoof, former judge of the high court at Allahabad, British India. The other two were women returning from Mecca on pilgrimage.

Worst in Generation.

LONDON, July 14.— London newspapers yesterday presented varying estimates of the death toll from Monday's earthquake in the Holy Land and Trans-Jordania.

Cairo correspondents agreed, however, that in some sections there had been catastrophic destruction and that natives had been terrorized by the most damaging tremblor of a generation.

The Daily Express placed the dead at more than 450, including 300 at Amman, 80 at Lydda and 72 at Ramleh.

An eye-witness told the Daily Mail's correspondent that 72 were killed at Malan, 80 at Ramleh, 37 at Lydda and about 100 at Amman.

Air Depot Razed.

The mosque at Amman crashed to the ground and the Royal Air Force depot was destroyed, the Daily Mail continued. The majority of houses at Nablus were either destroyed or badly damaged.

Cairo headquarters of the Royal Air Force was reported rushing aid to the stricken area.

The Daily Telegraph informed its readers that 800 persons were reported killed.

Kolapore Victory Very Notable One

BISLEY CAMP, Eng., July 14. Canadian Press Service. — The team giving the Canadians the hardest battle for the Kolapore cup on Tuesday, represented not only England, but the whole Mother Country — its eight marksmen being the pick of England, Ireland, Scotland and Wales. The Mother Country's team, however, lost out by 13 points. The Canadians are now aiming at the record set up by the Mother Country in once winning it five times in succession. Canada has won it three times straight.

JAIL BESIEGERS OF FARM HOUSE

Three New Jersey State Policemen Draw Prison Terms.

HEAVY FINES.

FLEMINGTON, N. J., July 14. — Three members of the New Jersey state police yesterday were sentenced to jail terms for their part in the fatal wounding of Beatrice Meaney and the beating of Timothy a brother, last December.

The sentences were: Lieut. Dan Rogers, five years in prison at Trenton and $1000 fine. He was convicted of manslaughter.

Trooper Alfred K. Larson, three years in prison at Trenton for manslaughter, and two years in prison, and a $1000 fine for felonious assault.

Corporal Matthew J. Daly, two years in prison at Trenton and $1000 for felonious assault.

Bail was fixed at $10,000 for Lieut. Rogers and $5000 for Larson and Daly on each count.

Notice of appeal was given.

Beatrice Meaney was shot when she and her brothers James and Timothy, were besieged in their farm hpuse during an investigation by Humane Society representatives of charges that the Meaneys were underfeeding animals on the farm.

FRUIT PRESERVING SEASON NEAR HEIGHT

Arrival of Peaches Marks High Point of Summer Activity.

The fruit preserving season is rapidly approaching its height. With the general leaning toward peaches as a favorite in the canned fruit line, the bulk of the work of preserving possibly leans towards the season when Crawfords and their ilk make their bow to the housewife public that yearns for their arrival, but up to date energetic ladies have already done much to replenish the cellars shelves. Rhubarb has its place in the line, and marmalade conserves. Some people do up grapefruit also, and then there are gooseberries and the fresh new currants, with plenty of strawberries.

This season, however, has seen no scarcity of the berry that Dr. Johnson loved. He said of the strawberry: "Doubtless God could have made a better berry, but doubtless God never did." At any rate, local growers have gone in for a greater acreage of strawberries this year than in former seasons, and the berries have been large and red. Door to door vendors have lowered their prices to seven cents a box, for small berries, but the stores are still asking up to 20 cents a box for the larger samples. Red currants, just in, are 18 cents a box, and plums, recent arrivals in yellow and red, are 20 and 30 centi a dozen.

Cherries are recent arrivals, also, the dark variety selling for 35 and 40 cents a pound, and the cooking cherries at 18 cents a quart. By the basket, one pays $1.75 or $2.00. These are the Early Richmonds, to be followed soon by the bigger, meatier cherry, a favorite for preserving, the Montmorenci.

An interesting newcomer to local fruit stores is the dark, luscious fresh fig, with its slender topknot. These sell at a nickel apiece. The jokesmith remarks: "Struggle keeps you young. Note how a prune's wrinkles disappear when it gets into hot water." These figs are not old looking, by any means, but they are wrinkled.

The sugar question is a vital one in the preserving season. Sugar at present fluctuates widely in price. At the cash and carry stores, where you take your purchases along with you, you may buy two pounds of sugar for 14 cents, 10 pounds for 69 cents, of a hundredweight for $6.90 at one place, $7.00 at another, $7.15 at still another. One grocer quoted a price for a single pound at 8 cents, or three pounds for a quarter, but perhaps he didn't mean to add the cent for the latter purchase.

The price rises as high at $7.75 a hundredweight in some of the smaller stores whose customers demand delivery of everything.

The latest idea in manufacturing glass jars for preserving is to mould the glass, instead of blowing it, as formerly. The mould leaves a slight ridge along the side of the jar. The neck of the sealer is deeper than usual and the glass top fits with absolute snugness.

It will be remembered by those who took advantage last spring of the visit here of the lady demonstrator of Governmentally-supervised canning methods that she laid great stress on the proper sterilization of fruits and vegetables, prior to canning, and also emphasized the importance of proper jar rubbers.

BOY WATCHES FOR BONES OF GRANDFATHER

Follows Digging Operations at Collegiate Extension Very Closely.

NO RELICS FOUND YET.

Contractor's Men Watch Carefully For Remains of Pioneers Buried There.

"I am waiting to see if you turn up the bones of my grandfather," was the surprising answer given by a boy when asked by a workman why he was spending so much time watching the operations of the steam shovel of T. A. Brown and Company, the contractors engaged in digging the excavations for the addition to the Collegiate.

The men on the job, knowing that they are laboring on the site of an old cemetery, and that many bones and a number of coffins were turned up by laborers of the contractors building the Armouries and the Collegiate, are keeping a sharp look-out for such relics as may turn up. The main excavation has so far failed to uncover anything of a gruesome nature, although the presence of large stumps and roots of trees cut down many years ago has added to the difficulties attendant on the task.

For many years, the finding of bones and parts of coffins during digging operations on Confederation Square was a periodical event, and the expectation that the shovels of the laborers preparing for the foundations of the Armouries and the Collegiate, would unearth the remains of early settlers was fully justified by the discoveries that followed.

Several coffins, some of them fairly well preserved, and numerous bones were taken out and reverently reinterred in Little Lake Cemetery. It is said that a skull found on the Square was handed over to a school of anatomy.

As recently as 1920, while plumbers' laborers were digging for the repair of a burst water pipe of the Armouries near Murray Street, two bones were found, which were identified by Dr. A. W. McPherson as belonging to the forearm.

FRENCH WOMEN WIN A VICTORY

Will Have Right to Vote in Municipal Elections Likely.

POINCARE SPONSORS BILL.

PARIS, July 14. — Women of France may in the near future be granted at least part of the voting privileges enjoyed by their sisters in Britain and Canada.

Advocates of suffrage for women won a signal victory on Tuesday when the Chamber of Deputies passed a resolution granting the vote for women in municipal elections.

This is the third time such a resolution has been adopted by the lower chamber in recent years only to be killed by the senate. Tuesday's vote however bears a much greater significance, as Premier Poincare accepted the motion and promised to sponsor it before the upper house.

This is interpreted as meaning that the government will make municipal votes for women a question of confidence in the senate.

EXPERT CALLED.

First Witness To Testify at the Sacco-Vanzetti Probe.

BOSTON, July 14. — United Press —Albert H. Hamilton, a New York firearms expert, was the first witness interviewed by Governor Fuller's advisory committee at its consideration of the Sacco-Vanzetti case yesterday.

Robert C. Benchley of New York a dramatic critic, was among those to be seen by the committee during the morning session. Benchley recently signed an affidavit relating a conversation between Judge Webster Thayer and a friend of Benchley's in which Thayer is alleged to have expressed his animosity to the defendants.

Mate, the popular drink of South America which is said to stimulate without harmful effects on the nervous system, is being introduced in the United States.

Robbers Hold Up Mail Van at Lake Megantic And Steal Large Sum Being Sent to Bank

LAKE MEGANTIC, Que., July 14 (Canadian Press).—A gang of mail robbers early today made a successful raid on a Royal Mail van between St. Samuel and St. Loudger, making a get-away with several thousand dollars in cash which was being conveyed to Le Banque Canadienne Nationale.

Details of the robbery are meagre, but it is understood that the driver of the van was suddenly ordered to "pull up" and the robbers made away with several bags of mail, including several thousand dollars. The stolen mail bags were later discovered along the road some distance from the scene of the holdup. They had been ripped open, the mail gone over, and important letters and money extracted.

GENEVA NAVAL CONFERENCE HOLD PLENARY SESSION TO-DAY

Nothing Definite Achieved on Grave Issue Revolving About Cruisers.

EXCHANGE VIEWS.

Decided To Foregather in the Villa Just Outside of Geneva.

GENEVA, July 14 (Associated Press3. — The tripartite naval conference is still wobbling along, but has achieved nothing definite on the grave issue revolving about cruisers.

Presumably the moment is fast approaching when either some solution must be discovered or the delegator must separate to permit further reflection. Nevertheless, a plenary session has been convoked for three o'clock this afternoon to permit of a summing up of the situation as far as it has gone.

The principal delegates have gone over the same problem in the same atmosphere so often that yesterday it was decided to foregather in a villa just outside Geneva. The hope was expressed that the new environ would inspire new remedies. However, a long exchange of views characterized by both frankness and courtesy, failed to result in any progress, according to reliable information.

On behalf of the Japanese delegation, Viscount Ishii made perfectly clear Japan's determination not to accept a high level for cruiser tonnage. In doing so, however, he followed the Japanese tradition of cloaking difficult things in polite phrases.

Hugh Gibson, chief United States delegate, and Viscount Cecil of Chelwood, of the British contingent, had a lengthy talk over the cruiser problem. It is understood that they frankly recognized the difficulties of each other's positions.

Oppose High Tonnage.

After agreeing to convoke a plenary session, the meeting adjourned, with Japan in a position of opposition to a high cruiser limitation even if such were accepted by Great Britain and the United States. The United States delegation was less disposed than ever to accept a maximum of 400,000 tons because of Japan's opposition to it.

Considerable mystery enshrouds today's public session. The British decline to say just what the nature of their contribution to the session will be, though it is understood the meeting was suggested by W. C. Bridgeman, First Lord of the British Admiralty, and Britain's chief delegate to the conference. Mr. Bridgeman also suggested the session arranged for Monday. This was cancelled, and to the minds of everybody in Geneva this was fortunate because of the high state of tension then existing.

Mr. Gibson yesterday denied categorically that the American delegation ever demanded treaty authority to possess twenty-five 10,000-ton cruisers. This statement was in response to a request that he confirm or repudiate a report emanating from some circles in Geneva that such a demand was impending an accord with the British.

A confession of inability to predict a date for the conclusion of the conference was made by Mr. Gibson, who added:

"I would give a large prize to anybody who could tell when it will come to an end."

Experts Indignant.

Many naval experts at the conference are indignant over reports that they are struggling for inordinately large navies. In this connection the United States position is said to be one of genuine repugnance to programmes for expansion.

The belief is expressed that even if numerous warships were constructed there would be the greatest difficulty in inducting congress to maintain a powerful fleet because of the tremendous expense in paying personnel. The experts say it is likely that unnecessary cruisers would eventually be tied up at the docks just as numerous destroyers created during the 1917 war time rush are tied up at present and suffering deterioration.

DING, DONG, BELL!

BROOKLYN, N.Y., July 14.—"Belling the cat" is to be an important activity of Long Island garden clubs this summer. Mrs. Leroy Barton, president of the Port Washington Garden Club, urges the measure to save birds.

ACTOR IS DEAD

John Drew, celebrated actor, who died last week at San Francisco, in his 73rd year.

MOVE ON FOOT FOR PROMOTING CO-OPERATION

Efficiency of British Industry Would Be Increased By This Means.

DISCUSSION GOING ON.

Many Organizations Take Part —Will Ask Labor To Review Scheme.

LONDON, July 14.—(United Press.)—Attempts are being made at last to promote effiency in the management of Brtiish industries by co-operation between capital and labor.

A movement has arisen indirectly from the recent economic conference at Geneva to secure this object and Sir William MacKenzie, former chairman of the Industrial Court, Sir Horace Wilson, of the Ministry of Labor, and Sir William Clarke, from the Department of Overseas Trade, have identified themselves with the movement, which is sponsored by Zebohm Rowntree, head of Rowntree and Company and well known authority on social and economic problems. Forty organizations are represented, including the Federation of British Industries, the Imperial Institute, the Association of Scientific Industrial Research, and various associations linked with science, accountancy and retail distribution.

As a result of discussions now taking place, an offer will be made to various labor organizations throughout Great Britain to co-operate in the scheme and a committee to review the whole industrial, transportation and selling fields, in order to discover where more efficient management can produce greater results in round.

Labor is inclined to regard such movements with suspicion but now it has been convinced that it has probably a greater interest in the efficient management of industry than anyone else, and in the elimination of the middleman, who is not only a curse to mining but also to agriculture, both of which are suffering acute depression.

MISSIONARY TELLS OF WORK IN AFRICA

Rev. Mr. Storey Gives Talks at Mount Pleasant and Millbrook.

MOUNT PLEASANT, July 14.—On Sunday afternoon, Rev. Mr. Riddell of Grace Presbyterian church in Millbrook was accompanied by Mr. Storey, a missionary home on furlough from South America, who gave a very interesting address on conditions in South America among the Indian tribes.

On Monday evening in Grace Presbyterian church in Millbrook Mr. Storey showed a number of pictures and explained the various habits of heathenism, which touched the audience keenly.

A number from here motored down to Millbrook and listened with interest to Mr. Storey's address.

AGREEMENT ON BUSSES DRAWN IN COMMITTEE

Border City Company To Give Service Here For Five Years.

MORE BUSSES COMING

Fare To Be Seven Cents, Five Tickets For a Quarter— Council To Decide.

At a special meeting of the Bus Franchise Committee last night, an agreement was proposed between the city and the Border Transit Limited, to give the latter the exclusive right to operate busses in the city of Peterborough. The committee was composed of Alderman Macdonald (chairman), Mayor Holloway, Alderman Ackerman and Alderman Cotton. Mr. Mitchell, president of the Border Transit Company, Mr. McHugh, of Windsor, and R. R. Hall, K.C., were representatives of the bus company.

The agreement as outlined is to give the company exclusive rights to operate motor busses within the city for a period of five years.

A schedule indicated that the busses would be operated daily. Stopping places will be agreed upon by the city and the company, and if they cannot agree, be settled by arbitration. The company is to have in operation the five busses already running, at once, and two additional 28-passenger busses within thirty days, and such further busses as may be required at a later date. This will also be agreed upon by the city and the company, and upon failure of the agreement will be settled by arbitration.

The fare to be charged will be seven cents and twenty-five cents for five tickets, but if there is a material increase during the five years in labor or gasoline the company may apply to the City Council for an increase. Again, if this cannot be agreed upon by the city and the company it will be settled by arbitration.

The company is to carry passenger hazard insurance and will be responsible for all accidents by negligence on its part. It will also be forced to comply with the Motor Vehicle Act and all other acts relating to public vehicles. It will also comply with all the by-laws of the city relating to traffic or construction and agree to use at all times automobile busses of the type now used or improved types, and of such carrying capacity as may be practical to construct or operate but not less carrying capacity than set out in the agreement.

If the company fails to perform the conditions and shall not remedy failure within thirty days after notice by the City Council the agreement will be cancelled.

This proposed agreement is to be placed before the City Council at the earliest opportunity.

COLD WAVE IN SOUTH AMERICA

Railways Blocked By Snow Slides and Blizzards in Andes.

LIVE STOCK LOST.

SANTIAGO, Chile, July 14 (United Press).—A cold wave throughout Chile has brought blizzards and snow slides in the trans-Andean region, making railroad communication difficult and necessitating frequent clearing of the buried tracks. Heavy rains in the south has disrupted telegraphic communication.

Relief In Buenos Aires.

BUENOS AIRES, July 14 (United Press).—Intense cold was reported in Southern Argentine to-day, while an upward jump of the thermometer here came as a welcome relief after the Arctic temperatures of the past week. Forty per cent. of the staffs of Buenos Aires business houses have been ill with violent colds.

Sharp frosts throughout the country have caused a phenomenal slump in the supply of dairy products with a consequent rise in prices. Blizzards in the south caused some loss of live stock.

THE WEATHER

Highest temperature yesterday was 85 degrees. The air was humid and the heat was oppressive. A thunderstorm in the evening had a tendency to cool the heat. The rainfall totalled .06, though the vivid lightning and loud peals of thunder promised a much greater downpour. This is the haying season and much of the hay has already fallen before the knives of the mowing machines. Good weather is essential for the proper preservation of this particular crop.—W. P.

An automobile engine wastes 97 per cent of the energy of gasoline. If it consumed the full energy the car could go 450 miles on a gallon.

Tight Garters Reveal That Rain Is Coming

JERSEY CITY, N. J. July 14. If your garter is tight, carry an umbrella.

It won't do the garter any good of course, but tight garters, it was disclosed by Samuel K. Pearson, the government weather observer here, are the result of abnormal humidity. When the weather is abnormally humid, rain is likely to follow.

A garter is a good rain forecaster.

KNIFE THROWER CRAZED BY HEAT

Hurls Array of Cutlery at Passers-by—Just Misses Marks.

PANIC FOLLOWS.

NEW YORK, July 14. — United Press. — A professional knife thrower, killed in just missing targets became crazed by the heat, and a desire for vengeance yesterday, and hurled an array of kitchen cutlery in a Coony Island kitchen at patrons of an adjacent combined motion picture theatre and restaurant, and policemen.

All of the knives just missed their mark.

Six bullets from a policeman's gun hit theirs.

Andrew Driestra, 42, was killed. Chester Sherman, 31, a bystander, was wounded by a stray bullet.

A score of women and children were trampled in the panic in the theatre-restaurant when the screaming madman rushed from the kitchen into the cafe but none was seriously injured. It required an hour for 100 police reserves to disperse the crowd which gathered outide the place.

CADETS ELIGIBLE FOR KING'S PRIZE

Hamilton Boys Are "Members of His Majesty's Forces."

BISLEY CAMP, England July 14 (Canadian Press). — Canadian Cadets are "members of His Majesty's forces," and thus eligible to shoot for the King's Prize, the classic of the N. R. A. meet here. The National Rifle Association announced to-day that the Hamilton Cadets are eligible. Some doubt as to this had been expressed in Canada. In the first stage yesterday, Hilson, of Hamilton, tied with six others for leadership among one thousand marksmen from all parts of the Empire.

HAWKINS WINS PRIZE.

BISLEY CAMP, England, July 14 (Canadian Press). — Company Sergeant-Major W. A. Hawkins, Toronto, won the Prince of Wales Prize to-day in competition with hundreds of marksmen from all over the Empire. His score of 99 out of a possible 100 was the highest recorded in the shoot, which was with service rifles at 300 and 600 yards. He wins the prize of $500.00 and the National Rifle Association's gold badge.

CANADA WINS McKINNON CUP.

BISLEY CAMP, England, July 14 (Canadian Press). — Canada won the McKinnon Challenge Cup to-day by 19 points from teams representing England, Scotland, Ireland, Wales, and other parts of the Empire. Canada thus regained the trophy which she lost to Scotland last year by 14 points.

FEDERAL TROOPS DRIVE OUT REBELS

Twenty-five Casualties Reported in Battle Near Pueblo, Mexico.

Mexico City, July 14. Canadian Press.—Twenty two rebels and three Federal soldiers are reported in special despatches from Puebla to have been killed in a five hour combat at Xoxontla.

The Federal forces ejected the rebels from strong positions in the mountains and dispersed them.

NOBILE IN CHARGE OF ANTI-AIR FORCES

Builder of Norge Heads New Branch of Fascist Militia.

Rome, July 14. Canadian Press—General U. Nobile, Italian aeronautical expert, who built the dirigible Norge, and was a member of the Ellsworth-Amundsen expedition over the north pole, has been appointed by Premier Mussolini to the task of organizing and directing a new body of Fascist militia for the anti-aerial defense of Italy.

ONTARIO POOL IS AFFILIATED WITH WESTERN

Co-operates With Three Prairie Organizations in Marketing.

CONFERENCE GOING ON.

Arrangements Being Completed By Delegates From Different Organizations.

TORONTO, July 14.—For the purpose of marketing its product, the newly formed Ontario Wheat Pool has affiliated with the similar organizations in the three western provinces and, it is expected, will soon have representation on what is known as the Central Selling Board for the western pools.

Members of this Board arrived in Toronto yesterday to complete arrangements. A preliminary conference was held in the offices of the Ontario Wheat Pool during the day, which was attended by J. J. Morrison, secretary-treasurer of the Farmers' Co-operative Company, and other members of the local executive.

The delegation from the West consisted of Mr. Ramsay, secretary of the Central Selling Board; Mr. Milliken, its solicitor, and Mr. Daly, chief accountant. Mr. Smith, the head salesman of the Board, is expected this morning. The meetings will be continued to-day and the members of the Board will stay in the city until the final details of the affiliation have been completed.

The Central Selling Agency is the link which connects the wheat pools of Saskatchewan, Alberta, Manitoba and, in future, Ontario. It handled the marketing of the combined products from these organizations. Aside from the continuous administrative work which is under its supervision, the Board holds monthly meetings at which the organization are represented and it is probable that the next of these will be attended by H. A. Gilroy, president of the Ontario organization, who will, it is expected, be elected a member of the Board.

The activities of the Ontario Wheat Pool formed some months ago are now under way and have already contracted for about ninety per cent. of the export from the leading wheat producing counties in the province. Unlike the western pools they are not faced with the problem of combatting the opposition of the elevator men and have reached an agreement with these concerns whereby the wheat crops will continue to be handled through the elevators.

The pool is already engaged in marketing a small portion of last year's crop and the first carload to be handled by it will be shipped early next week.

HELP NEEDED IN FLOOD AREA

Urgent Appeals Reach Shanghai From Parts of Anhwei Province.

THOUSANDS HOMELESS.

SHANGHAI, July 14. — Canadian Press. — Urgent appeals for aid were received here to-day from the southern part of Anhwei Province, the scene of the great flood disaster on July 6th, which caused the death of more than a thousand persons. It was only yesterday that the first news of the overflowing of the lower reaches of the Yangtse River was received in Shanghai and the reports are still meagre to-day. Enough has been learned, however, to indicate that tens of thousands of persons are homeless and destitute and that vast damage to property has been done

CHIANG FEARS HANKOW ARMY

Withdraws Forces To Pukow To Protect His Headquarters at Nanking.

ATTACK IS PLANNED.

LONDON, July 14. — Canadain Press. — The civil war in China appears to be enterng another phase, says a Reuter despatch from Shanghai which gives a Pekin report that General Chaing Kai Shek, the moderate Nationalist leader, is withdrawing to Pukow fearing an attack on his headquarters, Nanking, by the forces of the rival Hankow Nationalist government.

A despatch from Kiaukiang states that many Hankow troops have arrived there and that General Chang Fu Kuei, commanding them, declares that he will attack Nanking.

With a total of 348 eggs in 360 days a hen in British Columbia recently set a world record in egg laying. The bird was a white leghorn.

AT OMEMEE.

The following entrance candidates have been successful in passing the recent entrance examinations. Thirty-six candidates presented themselves and twenty-seven of them passed the examinations.

Certificates may be obtained from the principal of the Omemee High school on the opening day of the high school in September. The successful candidates have been sent a statement of their marks.

Samuel Carew, Elsie Chatten, Mary Dorgan, Hazel Duffy, May Fee (honors), Hiram Finley (honors), Ophal James, Helen Johnston (honors), Wallace McAlpine (honors), Laura McConnell, Bernice Matthews, Thomas Moore, Earl Morrissey, Phyllis Morton, Dorothy Murray, Carmella O'Neill, Tommy Pogue, Gladys Smith (honors), George Stephenson honors), Williamson Stephenson (honors), Norman Thorn, Alma Tracey, Leo Tracey, Howard Vaughan (honors), Audrey Weir (honors), Willie Weir, Errol Wilson.

OBITUARY

WILLIAM J. HURL.

LAKEFIELD, July 14.—The funeral of the late William J. Hurl was held on Friday last from the family residence, Smith, to the Lakefield cemetery and was largely attended. Rev. S. A. Kemp was in charge.

MRS. STOFFTT.

NORWOOD, July 14.—Mrs. J. R. McKelvie received the sad news on Thursday of the death of her sister, Mrs. Stofftt of Alton, Illinois. The deceased, who was born in Norwood, was the daughter of the late Mr. and Mrs. Thomas Elliott and was well known by a number of Norwood people. She was twice married, her first husband being the late John Cuthbertson, who was also born in Norwood. She leaves to mourn her loss besides her husband, one son, Mr. Earl Cuthbertson and one daughter, Miss Irene Cuthbertson, also one brother, Mr. Robert Elliott of Peterborough, and two sisters, Mrs. Levis of Alton, Ill., and Mrs. J. R. McKelvie of Norwood.

Gifted Polynesian Entertainer Unique Chautauqua Feature

Wherahiko Rawel, gifted Polynesian entertainer, will be a unique feature of the coming Dominion Chautauqua. He presents his fascinating program in picturesque native costume amid a tropical stage setting, and portrays the arts, crafts, folklore and tuneful music of the Samoan Island people.

Mr. Rawel is a really remarkable man. He was born of Polynesian parents at Pipiriki, a native Maori settlement, situated on the bank of the

Wherahiko Rawel

Wanganui River, New Zealand, and when just an infant was orphaned by a night attack upon his father's tribe. Fortune, however, was with the little Polynesian baby, for an English officer rescued him and later adopted him. This led to a European education, and enabled Mr. Rawel to study at Rugby and Cambridge.

Mr. Rawel knows the life of the South Seas; was born to it, has lived it, and presents it in the language of a cultured English gentleman. Robert Louis Stevenson wrote of him: "Wherahiko Rawel is a Polynesian raconteur who fascinates one with the witchery of his word paintings, so beware, lest he start you roaming o'er Southern seas."

GAINED 10 POUNDS IN 22 DAYS

That's going some—but skinny men, women and children just can't help putting on good healthy flesh when they take McCoy's Cod Liver Extract Tablets.

Chock full of vitamines—the kind that are extracted from the livers of the cod—the kind that are a real help to frail, rundown, anaemic, skinny men and women.

Try these sugar coated tasteless tablets for 30 days—if they don't help greatly get your money back.

One woman gained ten pounds in twenty-two days. Sixty tablets, sixty cents. Ask the Harris Drug Store, McDermid & Jury, Jas. Lynch, Bond's Drug Store or any druggist for McCoy's Cod Liver Extract Tablets. Directions and formula on each box.

"Get McCoy's the original and genuine."

TRAVEL TO AND FROM THE WEST BY LAKE AND RAIL

Palatial steamships flying Canadian Pacific house flag provide triweekly service between Twin Cities and Bay terminals. Contrary to what one might expect it is no more expensive to travel by steamship to Fort William than by rail. It is cheaper in fact, as ten dollars covers the whole of ones meals as well as the berth on either the Keewatin, Assiniboia or the Manitoba which are the finest ocean steamships on the Great Lakes.

By leaving Toronto shortly after noon on a Saturday or Wednesday it is possible in less than three hours to connect with a Steamer at Port McNicholl and enjoy two days and nights afloat. A similar connection may be made at Owen Sound on Mondays. Sault Ste. Marie is the only port of call en route, but it is a voyage replete with interest and charm, a restful and refreshing break in the westward journey and the service is irreproachable. Ask any Canadian Pacific Agent. 14-21-28-6-16

OVER 16,000 VISITORS TO WATERTON LAKES.

Waterton Lakes national park in southern Alberta has developed rapidly during recent years and each season is assuming a more important place among Canada's great tourist resorts. Over 16,000 persons visted this park last year.

ROSENEATH CIRCUIT HAS NEW PASTOR

Rev. R. Brown's Induction Attended By Many Members of Churches.

ROSENEATH, July 14.—The induction service for the Rev. R. Brown, the new pastor in the Lakefield church here, was held recently. The church was well filled with members from the four appointments, Roseneath, Fenella, Centenary, and Bethany. Rev. Gladstone McKee of Baltimore acted as chairman. Others who took part in the service were Rev. J. E. Beckel of Castleton, Rev. Mr. Barbour, Gore's Landing and Rev. H. Wilding of Alderville.

The choir consisted of members from each church and rendered several beautiful selections for the occasion.

Roseneath played Alderville in a game of baseball on Friday afternoon. The score was 5-10 in favor of Roseneath.

Mr. and Mrs. James Brooks of Gore's Landing spent Sunday with his sister, Mrs. Grigg.

Mr. and Mrs. Moir of Campbellford motored to Peterborough to see Miss Cleo Moir who is ill in the Nicholls Hospital.

Mrs. Leonard Brisbin was called to Oakville to her daughter, who is seriously ill.

L.O.L. No. 261 from Roseneath went to Cobourg on Tuesday to march in the parade.

Miss Bessie Trackeray was taken to Cobourg General Hospital on Sunday to undergo an operation.

TEACHER RECEIVES GIFT FROM PUPILS

Mr. Curtis is Leaving Omemee For Hamilton District.

OMEMEE, July 14.—The pupils of the entrance class of Omemee Public school made a presentation to their teacher, Mr. L. Curtis, before his departure to his new home near Hamilton. The following address was read by Miss Bernice Matthews: "Dear Mr. Curtis:

"It devolves upon us to offer you as members of the entrance class, a slight token of our esteem and regard. To us, it is a sincere delight to make some amends for our many short comings. We are not now addressing you as our teacher but as our friend, our trusted and very much tried friend; for how often have we not tried your temper and forbearance. Dear teacher, we will ever keep your image enshrined in our hearts and shall look back to the school, not as an abode of penance but rather with pleasure since your kindness and ability have so rendered. Our studies have been illuminated by your patient graciousness.

"The little gift we offer you is of no intrinsic value, but it is rich in gratitude and respect. Kindly accept it and with it our united hope that your life, and that of Mrs. Curtis and Jane, will ever be as happy as you have made ours.

Signed by the class—Audrey Weir, Helen Johnson, Bernice Matthews, Phyllis Morton, Bill Stephenson, George Stephenson, Howard Vaughan, Willie Weir, Errol Wilson.

MOUNT PLEASANT

MT. PLEASANT, July 14.—Mr. and Mrs. Albert Guest, of Lindsay, spent Sunday with Mr. and Mrs. Bert Morden.

Miss Grace Shield of Dakota is visiting at the home of her aunt, Mr. and Mrs. Garnet Shield.

Mr. Leonard McCorquodale of Toronto is holidaying with his friend, Mr. Herman McLean, also of Toronto, at the latter's home in the village.

Mrs. Gertrude McLean was a visitor in Omemee on Tuesday.

Miss Evelyn Buchanan and Masters Jim and Beril Buchanan of Barrie are spending their holidays with their grandmother, Mrs. Thexton, and their aunt, Mrs. Bert Morden.

Mr. and Mrs. Percy Handley and family of Oshawa motored down and spent Sunday with the former's parents here.

Mrs. McKinley and the Misses Rena and Alice and Mr. Wright of Bethany were guests of Mr. and Miss Newton Fee on Tuesday evening.

HOLDS AUCTION SALE.

Norwood Man Disposes of Farm Animals and Implements.

NORWOOD, July 14.—Mr. Thomas Robinson, held an auction sale of cows, vehicles, harness, implements, etc., at his home on Alma street on Saturday afternoon last. Mr. Thomas Morrison was the auctioneer.

Kill Insect Pests!

FLIT

Kills Flies-Mosquitoes Roaches-Bed Bugs-Fleas

After five years of deadly feud, the enemies of Kevin O'Higgins, successor to Michael Collins as the "strong man" of Ireland, have had their unquenchable thirst for revenge satisfied. Sunday, while on his way to mass, the Vice-President of the Irish Free State fell, mortally wounded by eight bullets fired at him from close range. It was the penalty he paid for doing, as he said with dying breath, "merely his duty", in that in 1922 he ordered the execution of an erstwhile close friend "Rory" O'Connor, who led the abortive "Four Courts" uprising. O'Higgins is shown in the CENTRE as he was addressing a crowd at O'Connell Bridge, Dublin, during the recent election. On this occasion a bomb was thrown at him. At the LEFT TOP is a full face portrait of the slain minister. At the LOWER LEFT is President William T. Cosgrave; at the UPPER RIGHT Michael Collins, also the victim of assassins' bullets; and at the LOWER RIGHT, "Rory" O'Connor, to whose death at the hands of a firing squad is traced Sunday's tragedy.

PLANS ARE LAID FOR CONVENTION

Conservative Organizing Committee To Be Named—General McRae Making Arrangements.

Ottawa, July 14. — Announcement is expected in a day or so of the creation of a special organization committee for the national Conservative convention at Winnipeg.

General McRae, M. P., for North Vancouver, is prominently connected with the arrangements. The proposed commttee would attend particularly to the details of the convention, see to it that the roster of delegates from each constituency and delegates at large, are duly selected, and that they attend and work in conjunction with the Winnipeg local committee for the detailed arrangements.

TWEED NEWS.

TWEED, July 12.—Mr. Fre McGowan returned to Toronto, after spending a few days with Mr. Thomas Johnston.

Mr. Colin Farrell, Toronto, visited friends in town.

Mr. and Mrs. Claire Barnett and family, Toronto, visited with his parents for a few days.

Mr. James McGowan returned from Ottawa, where he took a short course in horse judging in preparation for the coming fall fairs.

Mrs. E. H. Foster and Mrs. Earl Stevens, Toronto are visiting with the former's parents, Mr. and Mrs. Elmer Wagar.

Miss Bessie Gordon and Miss Bessie Donnelly are spending a few weeks at the C.G.I.T. camp on the St. Lawrence river near Gananoque.

Mr. Jack Coulter, Toronto, spent a few days with Mr. and Mrs. James Lowry.

Mr. Red Thompson returned to his home in Sudbury after spending a few days with his mother, who has been very ill.

Mr. and Mrs. George Sherry and son, Bobbie, of North Tonawanda, N.Y., called on Mr. and Mrs. Albert Sherry on Friday.

Captain Kimberly and Lieutenant Paddle of the Salvation Army, have left for their new field of labor in Renfrew.

Mrs. M. E. Drysdale and children of Montreal are visiting her mother, Mrs. J. J. Wilder.

Mrs. William Robbins and children of Peterborough, are visiting Mr. and Mrs. Willet Johnston.

Mrs. Charles Flood and children of Ingersol are visiting with Mrs. James Black.

OLD MASTERS

"My birthday!—what a different sound
That word had in my youthful ears!
And how, each time the day comes round,
Less and less white its mark appears.
When first our scanty years are told,
It seems like pastime to grow old:
And, as Youth counts the shining links
That time around him binds so fast,
Pleased with the task, he little thinks
How hard the chain will press at last.
Vain was the man, and false as vain,
Who said—"were he ordained to run
His long career of life again
He would do all that he had done."
—Thomas Moore: My Birthday.

Establishment of a training school in central Alberta for young Jewish farmers, similar to that being operated by the Federated Jewish farmers of Ontario, is under way.

DID JUBILEE BROADCASTING

These men, left Jacques Cartier of Montreal, and, right, A. W. Ryan of Ottawa, did the announcing at Ottawa in French and English, respectively, for the diamond jubilee broadcasts last Friday.

ONE CONTESTANT FINISHES SWIM

Edward Keating Only One Who Completed Lake George Marathon.

LAKE GEORGE, N.Y., July 14. — (Canadian Press.)—Edward F. Keating, 24 years old swimming instructor for the New York City Board of Education, was the only one of a field of approximately 100 distance swimmers who completed the 24 mile course of the Lake George marathon. The swim, which began a few minutes before ten o'clock Tuesday forenoon, was ended by Keating at 4:32 a.m. yesterday. A cash prize of $5,000 rewarded his strength, endurance and ability to withstand the waters of Lake George.

There was no second. William Erickson, of New York, stuck to his paddles until 3:05 p.m. yesterday when he was taken exhausted from the water about five miles above the finish line after more than thirty hours in the water. When brought to this village on a speed boat he was blue and numb with cold. His first words on being taken into the boat were an expression of regret that he had failed to win the second prize of $1,500.

Mayer Mendelsohn, the 19 year old Montrealer, who held fourth place for a good part of the swim, gave up the struggle when about three quarters of the distance had been covered. Tommy Walker, of Toronto, who started well and was in second place for a time, could not stand the grind and was removed from the water quite early in the race.

Ethel Hertle of New York attained the honor of covering the greatest distance of any of the women swimmers. When she gave up the struggle shortly aftre 11 Tuesday night, she was about nine miles from the finish and in third place. Mrs. Lottie Schoemmel, English channel swimmer, set the endurance record for the women entrants. She was taken from the water at 3:40 a.m. yesterday twelve and a half miles from the goal.

THE TOUR OF CONTRASTS—A NEW THRILL, JULY 25TH-AUGUST 15TH, 1927.

Would you like to have some new conversation? To tell about Banff and Lake Louise, to have your circle shrug with jealous mien at the wonder tales? Then come along with Sinclair Laird and his band of adventurers, Over the Great Divide. Enjoy the shivers of a motor trip clinging to the Windermere Road. All the petty details of reservations, hotels, drives, sight seeing arranged beforehand by the Director under the auspices of the Canadian Pacific World's Greatest Travel System. The Luxury Tour of Confederation Year. And the cost just what you expect. Ask J. Skinner for Tour Literature now.

Negotiations are on foot for the purchase of Bunker Hill, in England, for the purpose of preserving it permanently as a Hill of Remembrance to British and American soldiers who died during the World War.

Newspaperman Requested To Stop Whispering Sees Compliment In His Honor's Obiter Dictum That "A Reporter Ought To Have More Sense"

Perhaps the acoustic properties of the Court Room of the County Buildings are not so bad, after all. During the hearing of the second Davis case yesterday afternoon, His Honor Judge Huycke issued no fewer than three stern reprimands—to a lawyer, a detective, and a newspaperman—for whispering in court. His Honor's ire was aroused particularly by the offence of the scribe. "A reporter ought to have more sense," he said.

The average newspaperman is usually confident that his job calls for more brains than does that of either lawyer or policeman, and the ink-spillers are naturally gratified to have this opinion confirmed from the Bench.

MUSIC EXAMINATIONS.

At Campbellford.

CAMPBELLFORD, July 14. — Results of examination conducted by Prof. Pickard, of Toronto Conservatory of Music, at St. Joseph's Convent, Campbellford:

Primary violin—Fern Weatherill, pass.

Elementary violin — Mary Kerr, pass.

Junior piano — Muriel Linton, pass.

Primary piano—Eva McKelvie (honours); Frank O'Sullivan (honours), Ester McDonald (honours), Elsie Connor, pass; Thelma Hollings, pass; Aileen Linton, pass.

Elementary piano — Helen Ruth Kerr (honours), Mary Lucile Walsh (honours), Helen McCredie (honours).

Introductory Grade piano — Arline Buchanan, first-class honours; Lois Myers, first-class honours; Manson E. Walsh, first-class honours; Angus Robertson, first-class honours; Jacquelyn McEacheren, honours; Raymond Wragg, honours.

HEADS NEW GOVERNMENT.

A. C. Saunders, Liberal, who will head the next government in Prince Edward Island, the smallest province in Canada. It will remain in the prohibition column, the Conservative liquor control platform having met with an overwhelming defeat. In a house of 30 Mr. Saunders will have 24 seats, reversing the standing of the last legislature.

A bank which will take five years to complete, and which, next to the Bank of England, will be the largest in Great Britain, is now under construction.

RAWDON GIRL PRIZE WINNER

Receives Award in Contest To Select Girls Judging Teams.

FOR HASTINGS COUNTY.

BONAR LAW, July 14.—Hastings county girls judging competition was held in Belleville on July 8 at the Deaf and Dumb Institute to determine the Hastings county judging team to take part in the judging competition at Toronto exhibition.

Miss Bambridge has been coaching classes of girls in the different parts of Hastings county for the past two weeks.

About thirty girls competed for the honors. The Maple Leaf Milling Company presented a silver bread plate as a special prize for the girl coming highest in the whole competition. This was won by Miss Grace Stiles of the 12th Concession of Rawdon.

The other prizes were all money prizes.

INSPECTOR MAKES BI-WEEKLY REPORT

Activities Outlined By R. C. Smith of Humane Society.

The following is the report submitted by the Humane Society's Inspector, R. C. Smith, for two weeks ending July 9.

Attended trial of Walter Holgate, Stirling, charged with cruelty to a bull. This was a complaint from head office, Toronto.

Secured accommodation for dog and horses while owner was under arrest for stealing cattle. Also attended court at Millbrook as witness against this man.

One sick dog and two stray dogs brought in.

Three warnings given regarding shoeing of horses, that is, horses needing shoeing.

One warning—horse overchecked.

One stray cat destroyed.

Got home for two kittens.

Warnings given—loose blinders.

Emergency call to a cat with head fastened in a salmon can, (will citizens please refrain from putting out cans without pushing lid of can shut).

Visited gravel pit and requested that teams be used on scrapers instead of one horse.

Attended the loading and unloading of live stock at C.N.R. Stock Yards and warned truck driver about overcrowding pigs.

Attended the horse races at Park, July 2.

BIG FISH CAUGHT IN LOCAL WATERS

Tourists Made Fine Catches of 'Lunge at Various Summer Resorts.

TRENT RIVER, July 14.—Some fine big 'lunge have been caught in Trent waters in the past few days.

Billie Kirkendale, Cleveland, Ohio, who has been guest with his father, Mr. George Kirkendale at the Cook cottage, on Monday landed a fine 'lunge weighing 18 pounds.

Another fine 'lunge weighing 17 pounds was caught yesterday by a party of tourists who are in camp on the shores of the Trent.

A miscellaneous shower was tendered Mr. and Mrs. Victor Scott on Monday night at the home of Mr. and Mrs. Fred Scott.

ONE AT OMEMEE.

OMEMEE, July 14.—Almost one hundred tourists are enjoying a holiday at Fee's Landing. The inn and cottages are full as well as Mr. C. Mitchell's farm dwelling and numerous tents. The fishing is very good, several nice specimen being landed each day. Mrs. (Dr.) Conoro of Madison, Ohio, had the good fortune to pull in a 20 pound lunge last week.

BIRTHS IN 1926 DOUBLE DEATHS IN DOMINION

Quebec Leads All Provinces in Both Births and Deaths.

ONTARIO LEADS WEDDINGS.

Ontario Ahead of Quebec in Infant Mortality—Stands Fourth in Provinces.

OTTAWA, July 14.— There were nearly a quarter of a million births in Canada last year, which was considerably more than double the number of deaths that occurred throughout the Dominion, according to statistics issued by the Dominion Bureau of Statistics. One of the striking features of the figures, comparing the births and deaths in the various Provinces, was the low death rate among infants in Ontario as compared with Quebec. While there were more babies born in Quebec than in Ontario, the gains in the former Province were lost in the death column. Out of every 1,000 children born in Quebec 142 died before reaching one year. The infant mortality in Ontario was 78.5 per 1,000 births—or about one half that of the Province of Quebec.

In regard to the general death rate, it is interesting to note that the tenure of life is longest in Western Canada although lowest of all in Saskatchewan.

The marriage rate is about even in all the Provinces. That of Ontario is 7.5 per thousand of population, and of Quebec 7.0 per thousand.

The preliminary report issued today on the births, deaths and marriages in the nine Provinces of Canada during the calendar year 1926 shows a total of 232,305 living births, made up of 1,751 in Prince Edward Island; 10,931 in Nova Scotia; 10,297 in New Brunswick; 82, 165 in Quebec; 67,482 in Ontario; 14,660 in Manitoba; 20,557 in Saskatchewan; 14,436 in Alberta and 9,906 in British Columbia. The birth rate for the nine Provinces was 24.8 per 1,000 population. The rates by Provinces were as follows: Prince Edward Island 20.1; Nova Scotia 20.2; New Brunswick 25.3; Quebec 32.1; Ontario 21.5; Manitoba 22.9; Saskatchewan 25.0; Alberta 23.8, and British Columbia 17.4.

The infant mortality rate expressed as the proportion of deaths under one year of age to 1,000 living births was 101.9 for the nine Provinces. The rates by Provinces were as follows: Prince Edward Island 69.1; Nova Scotia 80.6; New Brunswick 106.3; Quebec 142.0; Ontario 78.5; Manitoba 76.5; Saskatchewan 81.6; Alberta 85.3 and British Columbia 58.6.

Deaths in Nine Provinces

Deaths at all ages in the nine provinces numbered 107,318, made up as follows: Prince Edward Island, 877; Nova Scotia, 6,355; New Brunswick, 4,984; Quebec 37,251; Ontario, 35,890; Manitoba, 5,335; Saskatchewan, 6,041; Alberta, 5,159, and British Columbia, 5,426. The general mortality rate for the nine provinces was 11.4 per 1,000 of population, The rates by provinces were as follows: Prince Edward Island, 10.1; Nova Scotia, 11.8; New Brunswick, 12.2; Quebec, 14.5; Ontario, 11.4; Manitoba, 8.3; Saskatchewan, 7.4; Alberta, 8.5, and British Columbia, 9.6.

Marriages in Canada.

There were in all 66,570 marriages reported in the nine provinces during the year. Prince Edward Island had 457 marriages; Nova Scotia, 2,852; New Brunswick, 2,923; Quebec, 17,827; Ontario, 23,633; Manitoba, 4,537; Saskatchewan, 5,433; Alberta, 4,486, and British Columbia, 4,413. The marriage rate for the nine provinces was 7.1 per 1,000 of population. The rates by provinces were 5.3 for Prince Edward Island; 5.3 for Nova Scotia; 7.2 for New Brunswick; 7.0 for Quebec; 7.5 for Ontario; 7.1 for Manitoba; 6.6 for Saskatchewan; 7.4 for Alberta, and 7.8 for British Columbia.

Compared With Other Years

Comparisons with previous years are limited to the eight Provinces—Prince Edward Island, Nova Scotia, New Brunswick Ontario, Manitoba, Saskatchewan, Alberta and British Columbia—since the statistics of Quebec were not compiled by the Dominion Bureau of Statistics in cooperation with the Province until 1926. The eight Provinces for which comparisons are made are referred to as the former registration area. The number of living births in the former registration area numbered 150,040 in 1926, as compared with 154,861 in 1925. The birth rate per 1,000 population was 22.0 in 1926, as against 23.0 in 1925.

Infant Mortality Rate

The infant mortality rate per 1,000 living births was 80.0 in 1926 and 78.6 in 1925.

Deaths at all ages in the former registration area numbered 70,067 in 1926, as compared with 66,477 in 1925. The general mortality rate per 1,000 of population was 10.3 in 1926, as against 9.9 in 1925.

The number of marriages reported in the former registration area was 48,743 in 1926, as compared with 47,217 in 1925. The marriage rate per 1,000 of population was 7.2 in 1926, 7.0 in 1925, 7.1 in 1924, 7.5 in 1923, 7.3 in 1922 and 8.0 in 1921.

Devastation In Wake Of Reckless Driver

GUELPH, Ont., July 14.—Lying abandoned in a field near Aberfoyle, a badly wrecked motor car was found yesterday by Highway Traffic Officer Thomoson and Provincial Constable Harold Walker. There was no trace of the driver.

Before finally landing in the field, the driver had apparently steered a wildly erratic course, ploughing into everything that came in his path. A telegraph pole was smashed off, two guard rails shorn off by a blow from the front of the machine, and at a point 238 feet from the smashed pole, the car went through a wire fence and landed in the field 25 feet from the road. Glass was scattered within a radius of thirty feet from the damaged motor.

The machine was brought to the city and the police are making an effort to locate the owner.

MAN IS KILLED NEAR TORONTO

V. C. Bradburn Dies When Car Hits Back of Heavy Truck.

DRIVER IN CUSTODY.

TORONTO, Ont., July 14. — V. C. Bradburn, aged 26, assistant sales manager of McColl Bros., Ltd., Toronto, and son of H. H. Bradburn, of Winnipeg, from where he recently came, was instantly killed on the Hamilton Highway, near Port Credit, yesterday, when the motor car in which he and H. R. H. Williams, 111 Evans Avenue, of McColl Bros., Ltd., were driving, collided with the rear of a truck driven by Jack Waldron, of 561 Barton Street, Hamilton. The car, it is said, turned out too late to avoid a collision.

Williams was arrested by Constable Rutledge of Port Credit, pending the inquest.

The back of the rack of the truck virtually mowed down the motor car to its level, the automobile crashing through. Bradburn was sitting beside the driver on the right side, which was swept away, and was hurled to his death against the slow-moving truck. Williams, driving the car, escaped the same fate by inches, he being on the left side, which had just cleared the truck.

Constable Hunter, of Clarkson, stated that Mr. Williams, driver of the car, had told him that his car "had a shimmy on," and that he did not notice the truck until the last moment. Then he swerved to the left, but he was not able to miss the truck.

Asked what was meant by the term "shimmy," the constable stated that the wheels were wobbling. "Everything was swept away except from the steering wheel back," he declared. "The driver's window was not broken."

When Bradburn was hurled from the car with terrific force against the truck he received severe head and face injuries which caused his death. The body was taken to undertaking parlours at Port Credit, and an inquest will be held by Dr. Sutton.

The constable stated that Waldron, driver of the truck, had been pulling off the road, with a view to stopping and offering assistance to another car, which was halted on the north side of the highway.

The late Mr. Bradburn and Mr. Williams were returning from a trip to Port Colborne when the accident occurred. Mr. Bradburn was born in Winnipeg and educated at T. C. S., Port Hope. He was married three years ago. Since coming to Toronto he has resided at No. 2 Ancroft Place, Rosedale. Surviving him are his widow and baby.

"The car belonged to Mr. Bradburn, and I don't think my husband would be driving it," Mrs. Williams said. "My husband left his car at home here when he went to Port Colborne with Mr. Bradburn."

Williams is employed as an oil traveller by McColl Brothers.

H. H. Bradburn, father of young man killed in the accident above referred to, was formerly a resident of Peterborough, and at one time connected with the late Adam Hall when he conducted his business on George Street.

WRECKAGE OF U.S. AIRMAN'S PLANE

Above are two views of the wreckage of Lieut. Thaddeus Johnson's airplane after the fatal crash at Ottawa. Lieut. Johnson's plane formed one of the escort to Col. Charles A. Lindbergh and the accident was due to it being struck by the plane behind during landing manoeuvres. A detachment of mounted police which darted across the field surrounded the debris and prevented souvenir hunters from seizing portions of the shattered machine.

POLICE PENALIZED FOR DARING ESCAPE

Sergeant in Charge of Cell Guard Demoted—Constables Fined.

TORONTO, July 14.—After hearing the evidence of the police officers who were on guard at the City Hall cells when Harry Duncan, murderer and desperado, got away through a window a week ago, the Board of Police Commissioners, at a special meeting yesterday, reduced Patrol-Sergt. Matthews, who had charge of the cell guard, to the rank of constable, and fined P.C.'s Meecham and McKeown seven and thirty days' pay respectively. P.C. Lavery, the fourth guard, who was on relief duty at the time, was absolved from blame. Patrol-Sergt. James Millar, of Belmont Station succeeds Matthews. A patrol sergeant receives $2,100 a year, a first class constable, $1,950. Meecham and McKeown will be replaced by P.C.'s Smith (31), of Dundas Street Station, and Smith (294) of Ossington Avenue Division.

Following the disposition of the case Chief Dickson issued orders for stricter adherence to police regulations regarding the handcuffing and shackling of prisoners of desperate character. Also, a detective is to assist the cell keepers in keeping guard over desperadoes. The window through which Duncan escaped will be heavily barred so as to prevent any repetition of the escape.

It transpired that former Patrol-Sergt. Matthews had been doing some work in the Police Court Clerk's office when Duncan made his sensational dash for liberty. Constables Meecham and Lavery were in the corridors, but out of sight of the escaping prisoner. McKeown was on duty in the Police Court, and neglected to ring the bell and so notify the guard in the cells that Duncan was descending to the cells.

TAKE IT SERIOUSLY

LONDON, July 14.—In the little village of Earl Shilton, Leicestershire, marriage is regarded very seriously. The village has a population of only 5,000, yet it boasts of nineteen couples who have celebrated golden weddings.

WOOLER NEWS

WOOLER, July 14.—C. F. Wessels spent the week end with James Anderson at Wessel McCann Lake.

Mr. and Mrs. Hugh Gainofarch, accompanied by Mr. and Mrs. Sanford Sharpe, spent a few days at Fonthill and Niagara.

S. L. Terrill is recovering from an attack of summer flu.

Henry Curry and Ab. Arnott, of Trenton, called on Mr. and Mrs. Henry Curry on Sunday.

Mr. and Mrs. J. L. Ross and family of Wellington, spent Sunday under the parental roof, Mr. and Mrs. Dan McColl.

Dr. H. B. Anderson and wife and Mrs. Purdy, of Elwood City, Penn, are the guests of Mr. and Mrs. E. M. Wessels.

Mr. and Mrs. William Clarke and Mr. and Mrs. Gerald Peister, of Codrington, were the guests of Mr. and Mrs. Aaron Clarke, on Sunday.

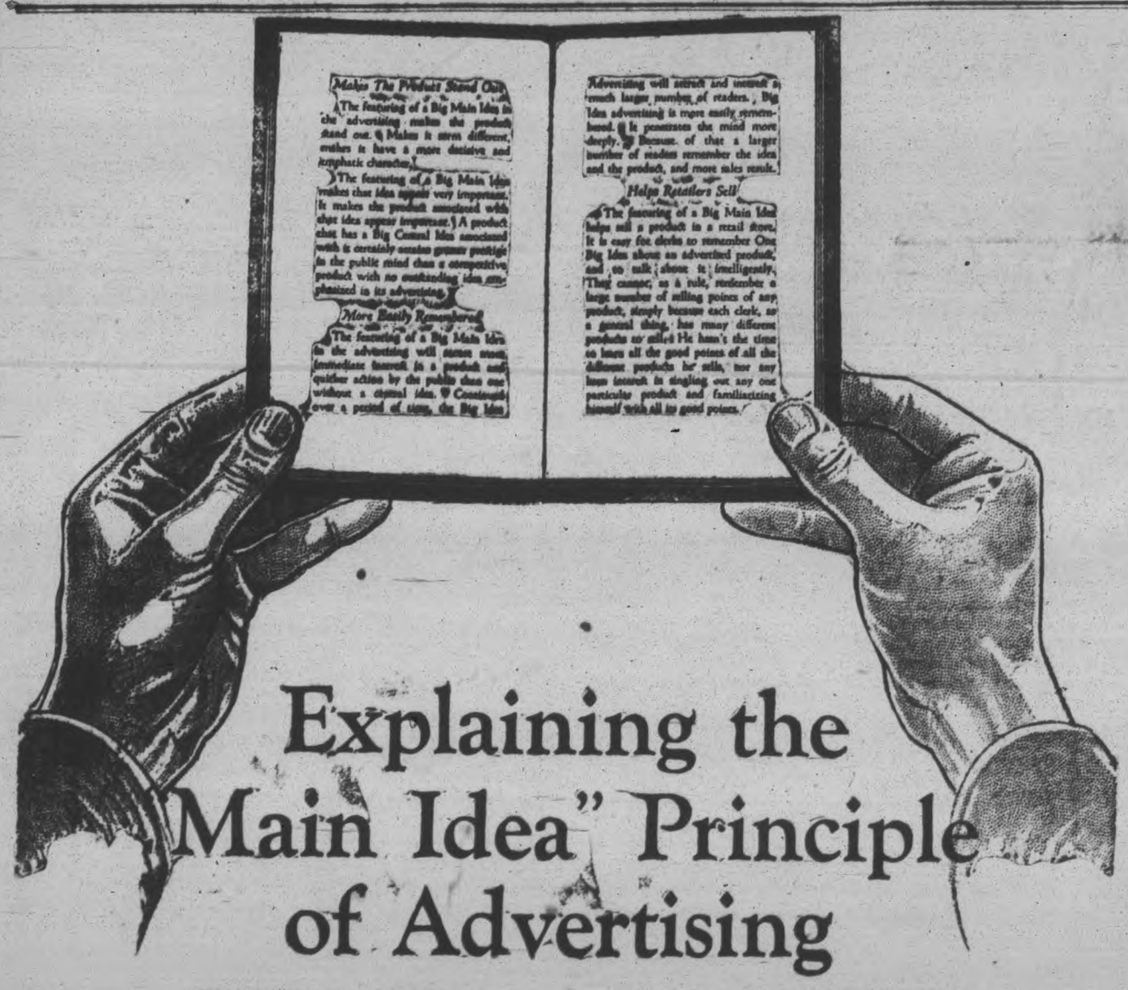
Mabel Forbes is spending her holidays at Frankford with her sister, Marjorie.

Mrs. Helen Hennessy spent Sunday at Eldorado.

IT PAYS TO ADVERTISE.

JOINS HER MOTHER IN THE PULPIT

"Two is a company, three is a crowd," was the subject chosen for her first sermon in Chicago by Roberta Starr Semple, 16-year-old daughter of Almee Semple McPherson, the evangelist who left Los Angeles to "fight the devil for souls" in the Windy City. The close-up shows the young evangelist's bob.



Explaining the "Main Idea" Principle of Advertising

REPRODUCED above are two pages of our booklet, "The Main Idea".

If, after reading the two pages, you would like to read the rest of the booklet, just write us for a copy.

Other points covered in the booklet are:—

Just what the Main Idea principle of advertising is—Ways of finding the Main Idea—How a Main Idea increases a product's saleability—Its value in Chain Store selling—How it helps a new product in establishing a market—How it benefits an old product—How to keep Main Ideas fresh and vigorous.

Included in the booklet are illustrations and examples of Main Ideas used by prominent Advertisers.

A copy of this booklet will be mailed without charge to the General Manager, Sales Manager, Advertising Manager or other responsible official of any industrial or financial corporation.

Just clip out the "Memo" below, so you'll be certain to remember to send for the booklet.

THURSDAY, JULY 14, 1927.

SUBURBAN SERVICES.

The Utilities Commission is taking the position that while the City Council has seen fit to provide residents in suburban areas with severage service and thus made it necessary for the Commission to supply water, the members are opposed to the principle involved, seem to be justified.

Vacant city lots are not covered with buildings as the result of a policy that gives suburbanities city convenience with township taxes.

So long as they can obtain all the public utilities available to urban residents, people living outside the city limits to escape the higher tax rates will be quite satisfied to stay where they are; meanwhile the city does not grow as it should.

So evident are these conclusions that it is somewhat surprising that an objection to providing services for suburban families should come from a Commission charged only with the sale and distribution of power, light and water, instead of from the City Council in whose charge is supposed to lie the welfare of the whole community.

THE HALIBURTON TREK.

The working out of the experiment by which some ten or fifteen Haliburton families are to be moved this year to new homes in the clay belt of Northern Ontario, while the land formerly occupied by them will be given over to reforestation, will be watched with keen interest in the Peterborough district.

In the first place, local people are naturally interested in their neighbors, and they will hope that for the Haliburton families who are to be transplanted the experiment will be a happy one.

And then there is no doubt that the scheme, should it prove to be successful in its first stages, will be extended to include sections of Peterborough County where people are located on land that was never intended to be farmed and that can only become profitable through reforestation on a large scale.

Hon. Mr. Finlayson's plan has great possibilities, and the start that is being made this year in Haliburton may be the beginning of a new day not only for hundreds of unhappily situated residents of Ontario but for the whole Province.

An experiment that seeks to give a new outlook in life to many citizens and at the same time to provide Ontario with timber reserves of great extent is well worth an honest trial.

THE BIRTH OF CANADA.

Many splendid booklets dealing with Confederation and Canadian affairs generally have made their appearance this year, inspired by the celebration of the Diamond Jubilee of the Dominion.

Few of these have been of greater interest or value than "The Birth and Growth of Canada," a historical record of the territorial changes in this country before and after Confederation, which has been published by the Bank of Montreal.

That bank, in existence fifty years before Confederation, has, of course, played a prominent part in Canadian development, and in presenting a concise history of Canada due recognition has been given to the romance and adventure that coloured the story of this country from its earliest beginning.

We have heard all too little of the fascinating details of the Canada of the early days, the first two centuries when the bartering of European goods for the skins of native animals was practically the only form of commerce known.

"The Birth and Growth of Canada," while admittedly only an outline, has painted in striking colours the romance of Canada's development, and nobody can read the booklet without being a better Canadian.

GAMBLING WITH DEATH.

Just at this season of the year a good many Peterborough people are holidaying at water resorts, the charm of some of the many lakes or rivers so convenient to this city proving an irresistible lure.

It is to be hoped that they have carried with them the keynote of the recent safety campaign, and that they will remember to be careful always.

There is no place where caution is more consistently needed than at a summer resort.

As a proof of this statement there were nine drownings in Michigan lakes last Sunday.

Here is the list of the tragedies:

Rocking the boat—two deaths.
Using a leaking boat—two deaths.
Using an unknown beach and stepping into a hole—two deaths.
Swimming despite indigestion—one death.
Swimming across a lake alone—one death.
Riding the swells of a motor boat in a canoe—one death.

Carelessness, nothing else, took everyone of these lives.

In each case caution was thrown to the winds, the victims took a chance and lost in the gamble with death.

Examiner readers should check over the list and see whether or not they may be needlessly facing similar hazards.

A GOOD MAN GONE WRONG.

(From The Hamilton Herald.)

One of the most widely known of American philanthropists is Judge Ben B. Lindsey, of Denver Col. He is known as the originator of the juvenile court. A man of kindly and sympathetic nature, and a lover of children, he concluded many years ago that juvenile offenders should be treated differently from adult offenders in the police courts, and he established the juvenile court, where children who had committed offences against the law have their cases dealt with behind closed doors and are treated kindly, and after being admonished, are usually allowed a chance to do better. Juvenile courts are now established in almost every city on this continent, and are common in Europe, too, the system introduced by Judge Lindsey having been found to be productive of good results.

But the judge, once the most popular man in his own city, has recently been falling into disrepute. He has had difficulty in retaining his position on the bench. Now at last he has lost it through a recent decision of the U. S. Supreme Court. The court decided that his election in 1924 was irregular and illegal and therefore void.

Some of Judge Lindsey's enemies are persons of a class whose enmity it is an honor to have earned. But many worthy people now look askance at him, for he has developed rather loose ideas and made strange proposals concerning sex relations. As a remedy for domestic troubles and certain social evils he proposes that irregular unions, without matrimony, be permitted by law and social usage. "Companionate marriage" he calls this relation. Something of the sort has also been proposed by "advanced" sociologists in Great Britain—by G. Bernard Shaw among others. Over there they call it "trial marriage." Let a couple live together for a while as an experiment; if the experiment is successful, they can make their union permanent, but if they find they are not well mated, let them separate and be just friends in future.

There is no doubt that Judge Lindsey's motives in proposing his "companionate marriage" scheme are worthy and pure. The strange thing is that so intelligent a man as he fails to realize that his plan would encourage and facilitate far worse evils than those which he wishes to check.

DEMOCRACY VINDICATED.

In less than a year our neighbors will be plunged into the turmoil of a Presidential election, for the campaign really begins with, if not before, the party nominations. Some publicists say that the election comes too often, with its disturbance of business, and that the Presidential term ought to be six years. But even if this be true, these contests really prove the strength and stability of democratic institutions. Once the result is known, it is accepted by all parties as final and the President-elect is recognized as the head of the whole nation. There is no vanity in saying that democratic institutions are seen at their best in English-speaking communities, and with all their faults we are not inclined to exchange them for Bolshevist or Fascist despotism, or to go back to the tyrannies of earlier days.

It is not necessary to impute infallibility to parliamentary or popular majorities. Their merit lies in the acceptance of the verdict as that of the people, not something forced upon the people against their will. Once when majority rule was adversely criticized, an Australian writer made a quaint reply. True, he said, the majority may be an ass. But the minority also may be an ass; and so we settle the question by allowing the more numerous ass to prevail. This is a picturesque perversion of the truth, but it serves the purpose of emphasizing the truth. A more sober statement is that the majority may make a mistake, but so may a minority, an oligarchy or a despot. No kind of government is perfect, but a great deal is achieved when the people are satisfied, and when they realize that they must accept the results of their own mistakes instead of chafing against the misrule of a Government resting upon physical force.

Tennyson's description of British government, "broad-based upon the people's will," expresses a profound truth. The fault of all despotic Governments is that the base is too narrow for the superstructure. That which is won by force must be maintained by force. The tyranny and violence seen in Russia under Bolshevism and in Italy under Fascism are excused by "necessity, the tyrant's plea." Such Governments cannot afford to allow free discussion or the free exercise of the franchise. If a certain degree of efficiency is obtained, as is claimed by admirers of Mussolini, it is at the expense of the intellectual and spiritual development of the individual. Men of courage and independence eat out their hearts as they realize the uselessness of resistance. Weaker men sink into a passive obedience that softens their mental and moral fibre. Tyrants and sycophants alone are in their glory. When the autocrat is removed, the people are found to have lost a large part of their capacity for self-government and self-control; and iron despotism may be succeeded by anarchy.

By way of contrast, we may study with profit the history of Great Britain and the Dominions and of the United States. There is a great deal of talk that seems to be useless, of unreasoning partisanship, of abuse of public men, of experimental legislation that is disappointing in its results. But there is a large measure of the content that springs from the exercise of liberty, and therefore there is stability and comparative freedom from physical violence and from bloodshed. We make many errors, but we have nothing to learn either from Italy or from Russia. Constitutional government is essentially a British invention. Originally applied to the United Kingdom alone, it was extended by Canadian initiative to a large part of the British Empire, with the most gratifying results for statesmen in Great Britain, as well as for the people of the Dominions. Today if anything seems to go wrong, we blame our own public men instead of railing at Downing Street. Even a recent unhappy occurrence in Ireland does not discredit self-government. There is no longer a racial or national quarrel. Englishmen of generous hearts feel only sorrow for the Irish sister, and hope that in the course of time bitterness may disappear and prosperity come with the establishment of stable government.—London Advertiser.

EDITORIAL NOTES AND COMMENT.

Fish stories are missing so far this season. Can it be that fishermen are becoming more truthful?

Some enterprising firm should be able to work up a brisk trade in gas masks in the southern part of the city and wide sections of Otonabee and North Monaghan.

Too many drivers think they know the traffic rules because they have been breaking them for years.

Non-swimmers who want to learn should take advantage of the services of the Rotary swimming instructor at Inverlea Park. The opportunity may not be offered another season.

Well,as The Globe puts it, if we cannot win the diamond sculls we will try to be contented with the Kolapore Cup.

Who remembers when ladies wore a hat several seasons, having it retrimmed each year?—San Diego Union.

local movie: "A man has got as much right to be proud about getting married like a mouse could take credit for being eat up by a cat."—Buffalo Courier-Express.

The leading 10¢ Cigar

ALSO IN PACKS OF 5 AND 10

MONTREAL GRAIN AND PRODUCE

MONTREAL, July 14 (Canadian Press).—Foreign demand for all lines of grain was quiet here yesterday, business in the local produce market being confined to odd loads for nearby shipment. There was some demand for Tough No. 2 Northern wheat and some sales were made at c.i.f. prices. The domestic trade in coarse grains showed no improvement. There were no developments in the market for spring wheat grades of flour, prices being steady at the late decline noted. The volume of business was small. The winter wheat trade was firm due to continued small offerings.

The trade in millfeed and rolled oats was good at the late advance in prices on account of the somewhat limited supplies available due to reduced production.

There was an improved demand from local and outside sources for baled hay and a moderate amount of business was done yesterday.

Quietness featured the local egg trade, business being dull owing to the extreme heat. Receipts were increased over last week.

There was no change in the butter trade, prices holding steady. Sales of small lots only were made.

The export trade in cheese was unimproved, although there was a fair enquiry from local sources for Western colored cheese. Receipts were decreased by more than half from those of the same day a week ago.

SOCIETY

Mrs. R. Yeaman, Weller Street, is at Glen Island, Bay of Quinte.

Miss Frances Ackerman is spending some time with Miss Louise Skey, at Shanty Bay.

Mr. W. R. Morris, who attended the Rotary International convention at Ostend, Belgium, as delegate from the local Rotary Club, accompanied by Mr. R. J. Jory, of Lakefield, has been touring Holland, Switzerland, France and Italy. Mr. Morris and Mr. Jory are spending a fortnight in the British Isles. They are now in London, and expect to sail for home on the 27th, arriving here about the 6th of August.

Rev. Canon Loucks of the Anglican Summer School at Trinity College School, Port Hope, spent the week-end in the city.

Miss Myrtle Rose of Elcome Crescent is spending a fortnight's vacation with relatives in Rochester, N.Y.

Miss Hannah Scott of Galt is the guest of her brother, Mr. W. Scott, in Ashburnham.

Mr. and Mrs. Herbert Geale of Whitby have returned home after spending some time with Mr. E. A. Peck at Stoney Lake.

Dr. and Mrs. J. M. McCulloch, Charlotte Street, have taken Mr. J. M. Brooks' cottage at Chemong Park for the season.

Rev. J. W. Gordon and Mrs. Gordon and family are spending their holidays at Bruce Beach, Lake Huron.

Mrs. M. L. McCarthy, Park Street, has received word that her brother, Mr. Charles Langley, of St. Catharines, has returned from the Old Country, where he represented the St. Catharines Rotary Club as delegate to the International convention at Ostend, in Belgium.

Mrs. J. Barringer is in Toronto, attending the funeral of her brother-in-law, Mr. Wilfred Gray, who was well known in the city.

Mrs. Bates of Niagara Falls, who spent the past week with Rev. and Mrs. Bousfield, at St. Luke's Rectory, returned to-day to Lakefield, where she is staying with her brother, Mr. H. J. Sutton.

Mrs. Clyde Workman and young son Kenneth, of Lindsay, are spending a few weeks with Mrs. Workman's parents, Mr. and Mrs. M. J. McIlwain, 125 Romaine Street.

Mr. E. A. Peck, M.P., has opened his summer home at Catchecoma.

Mr. Arthur Hill is spending a few days in Detroit on business.

Mrs. W. A. McConnell and son Perry, of Los Angeles, California, are guests of Dr. and Mrs. J. M. McCulloch, Charlotte Street.

Miss Mabel Kerr of Cobourg, is staying with her brother on Powell Avenue, Toronto.

Mr. and Mrs. Albert Curtis have opened their summer home at Catchecoma.

Howard Macdonald, son of Alderman and Mrs. G. Macdonald, Homewood Avenue, is holidaying at Birch Point Lodge, Lake Kushog, Haliburton.

Mr. and Mrs. J. Kenneth McKenzie of Chicago, Illinois, are the guests of the latter's sister and brother-in-law, Mr. and Mrs. Donald Loucks, Fleming Place.

Miss Florence Scott and small niece, Florence Trebilcock, are holidaying at Wasaga Beach.

Mr. J. D. Collins and family are at their summer home, "Catamaran," near Juniper Island.

The Misses Fraser of Niagara Falls, who attended the Anglican Summer School, which closed at Port Hope on Monday, spent the week-end with friends in the city.

Mr. and Mrs. Frank Oldfield of Toronto, are sailing for England on July 16th.

Mrs. N. T. Greer, Aylmer Street, is spending a week at "Bon Echo," near Kaladar, where her son, Dr. G. Greer, of Kingston, is staying.

Mr. and Mrs. Charles Curtis, Smith Street, have opened their cottage at Stoney Lake.

Mrs. R. M. Pidgeon and daughter, 758 George Street, are visiting friends in Port Hope and Rochester, N.Y.

Mrs. Chas. Willison is spending some time with friends in Collingwood.

Mrs. Margaret Heard, Dovercourt Road, Toronto, formerly of Peterboro announces the engagement of her daughter, Margaret Ethel to Mr. Sidney William Stanley, B.A., Toronto, only son of late Mr. and Mrs. John Stanley, Guelph. The marriage takes place early in August. 1d-1w'21

Seven local rinks of men bowlers were in Cobourg yesterday, taking part in a bowling tournament in which thirty-three district rinks from Lindsay, Whitby, Port Hope and Peterborough participated. The local players won the Griffin cup in the primary events, the rink skipped by George Cairns, having as players Reg. Fox, Jack Fitzpatrick and Jack Bacon. Other local rinks were skipped by Messrs. Jack Sedgewick, R. M. Waddell, W. J. Oke, George J. Johnson, T. Donaldson and Jos. Bennett.

Mrs. H. Wightman is spending some time at Wasaga Beach.

Miss Ruth Longmuir of Havelock is the guest of Miss Berenice Hall, 677 Water Street.

"The Legionary," the official publication of The Canadian Legion of the British Empire Service League in Canada, publishes in its June issue a detailed account of the proceedings of the first annual convention of the organization, held here on June 1st, 2nd and 3rd. Its concluding paragraph is as follows: "During the course of the convention, the Peterborough 'Examiner' printed in one of its regular editions several pages in which prominent citizens of the city, headed by the Mayor, members of Parliament, the clergy, ex-officers and others offered words of welcome. The 'Examiner' published full reports of all proceedings and assisted materially in creating the impression which the delegates carried away with them that Peterborough was entitled to rank first as the most friendly and hospitable city in Ontario."

Mrs. Warnock of Toronto spent the week-end with Mr. and Mrs. Geale at Mr. Peck's cottage at Stoney Lake.

Mrs. W. F. Collins and little daughter Betty, of Montreal, are the guests of the Misses Higgins, 1043 Water Street.

Mr. and Mrs. A. H. Willott and daughter Mary, of Capreol, are the guests of the Misses Higgins, Water Street.

Miss Margaret Pedlar, of Toronto, is the guest of her aunts, the Misses Higgins, Water Street.

Major G. Dupre, of the Royal Canadian Ordnance Corps, who is this week inspecting and checking the equipment of the various militia units at the Armouries, retires shortly on pension. Major Dupre, who is stationed at Kingston, has been in the permanent forces of Canada for over thirty years. His first military service was with a cavalry regiment in the North-West Rebellion of 1885. His retirement is regretted by the many officers of the city who have met him in the performance of their military duties.

Evening Examiner Fashion

A Frock of Diversified Appeal

Of unusual charm is this chic frock of slenderizing lines. View A is suitable for evening wear and has deep points around the lower edge of the slightly flared skirt, a round neck and is sleeveless, while View B is shown with a straight edge, a square neck forming a V in front, and long dart-fitted sleeves. NO. 1552 is in sizes 36, 38, 40, 42 and 44 inches bust. Size 38 requires 3½ yards 39-inch, or 2¾ yards 54-inch material; ¾ yard less 39-inch material is required for sleeveless dress. Price 20 cents the pattern.

The designs illustrated in our new Fashion Book are advance styles for the home dressmaker, and the woman or girl who desires to wear garments dependable for taste, simplicity and economy will find her desires fulfilled in our patterns. Price of the book 10 cents the copy.

HOROSCOPE

The Stars Incline, but do not Compel.

(Copyright, McClure Newspaper Syndicate.)

FRIDAY, JULY 15, 1927

Good luck attends this day, if astrology is to be trusted, for benefic aspects are supposed to be strong.

Some good fortune for farmers is foreshadowed and there will be organizations in which they will register forcefully.

Under this direction of the stars political pots will boil and campaign activities will be more or less puzzling, it is forecast.

Common sense is supposed to be encouraged under this planetary government and for that reason this should be a lucky day for personal publicity.

This is read as an auspicious direction of the stars for all sorts of initiative and plans started today should bring success.

Aviation again is subject to the best direction of the stars and it will have much government aid in ways not immediately made public, the seers predict.

All that pertains to the intellect is well governed while this configuration lasts. Educators should benefit.

Lawyers have the prophecy of extraordinary responsibilities in international affairs and from among them will rise new leaders in governmental matters, it is foretold.

For the United States such progress is prognosticated that even the most sanguine would not acknowledge its possibility, astrologers announce.

Women are now training for supreme service to the state and the nation, if the seers are to be believed.

American children born at this time are to be so perfect in body and so keen of mind, it is prophesied that they will outstrip the people of the past in beauty and intelligence.

Now comes a period when simplicity will be fashionable as reactionary forces make themselves felt.

Thrift and economy should be practiced, if there is any foresight, according to astrologers who appear to foresee new economic problems with general rises in prices.

Tariff and economy should be practiced, if there is any foresight, according to astrologers who appear to foresee new economic problems with general rises in prices.

Persons whose birthdate it is have the augury of possible gain through inheritance of property.

Children born on this day probably will be endowed with many gifts. Eloquence is often a gift of those subject to today's sign.

WHO WROTE THIS ?

(Copyright, 1927, by The McClure Syndicate, Inc.)

1. "Men use thought only as authority for their injustice and employ speech only to conceal their thoughts."
2. "Tellest thou me of 'ifs'? Thou art a traitor; off with his head!"
3. "Hope not for impossibilities."
4. "Vice repeated is like the wandering wind,
   Blows dust in other's eyes, to spread itself."
5. "Convey a libel in a frown,
   And wink a reputation down."
6. "Nor cast one longing, lingering look behind."
7. "And he, by no uncommon lot,
   Was famed for virtues he had not."
8. "Men seldom, or rather never for a length of time and deliberately, rebel against anything that does not deserve rebelling against."

Answers to Yesterday's Questions:

WORTH-WHILE CAKES.

When making cake, it is economy to use only the best materials, strictly fresh eggs, fine granulated sugar, good butter and pastry flour. Otherwise, the result is not worth the effort.

SAINT and SINNER

By ANNE AUSTIN

(Continued from yesterday.)

Unfortunately for Cherry, the premature birth of her baby revived public interest in her strange case.

She had been a heroine at her trial's abrupt conclusion, brought about by the confession of the real murderer of Ralph Cluny. But she had been too ill while in the hospital to see the newspapers, and she had mercifully been spared the ordeal of seeing her name again in headlines, over thinly veiled innuendoes.

The entire case, with particular reference to Cherry's many love affairs, as revealed on the witness stand, had been revived, the more sensational of the afternoon newspapers printing a statement from Chris Wiley as to his opinion regarding the paternity of the child. A morning paper, favorable to Cherry, countered with a signed statement from her physicians, attesting the infant's prematurity.

But Faith, forcing herself to read everything the papers printed about Cherry and the birth of her baby, realized sickly just what doubt the public would always entertain as to Cherry. She saw this doubt in the eyes of every erstwhile friend of Cherry's whom she met, saw it glittering evilly in the eyes of strangers who read the story in the newspapers. But Cherry remained blissfully ignorant of the storm of gossip and scandal which her baby's arrival had brought down about her luckless, beautiful little head.

It was not until she had been at home for two weeks that something of the truth came to her.

"I wonder where everyone is this summer," she spoke suddenly one July afternoon, as she watched Faith prepare the baby's bottle. "I haven't heard from Frances and Bill Warren since they sent those gorgeous roses just after the baby came. Are they out of town? And Selma Pruitt must be away for the summer, too." She flushed, avoiding the mention of George Pruitt's name.

"I suppose nearly everyone is away," Faith answered evasively. She knew that neither the Warrens nor the Pruitts were out of town—

"Faith!" Cherry cried, her voice sharp with anger and pain. "Are—people avoiding me? Cutting me—because of this blessed little midget? Oh, they wouldn't be so cruel?"

"No one does much visiting in the hot weather, and as you say, they are probably out of town," Faith answered very gently. "I wouldn't try to go out much until fall, if I were you, dear. And you want to get your divorce first—"

"My divorce!" Cherry echoed blankly. "Do you know, I'd almost forgotten about it? It was to come up for trial in June, but Churchill had it postponed on account of the baby's coming. I'm going to telephone Churchill now," she decided suddenly. "It's funny I haven't heard anything from him."

Faith yearned over the baby which she held against her breast, as it pulled hungrily upon the soft rubber nipple of the bottle.

"Chris is going to file a counter suit for divorce and demand custody of the baby!" Cherry returned from telephoning, to announce in a voice shrill with anger and fear.

(To be continued.)

GIRLS IN BUSINESS

A Series of Five Messages

By CYNTHIA GREY

No. 5—THAT "HOME ATMOSPHERE."

We have heard a great deal in books and papers and magazines and plays and movies about a woman's duty to keep her home comfortable, peaceful, and attractive, in order that the male bread winner of the household may find relaxation and renewed strength in his home for the coming day's struggle.

We have heard very little about the business girl's responsibilities to her home or the home's responsibilities to the business girl, and yet any of us know dozens of girls who have either woefully failed or gorgeously succeeded on the job because of the right or wrong sort of home atmosphere.

And I am afraid that more girls have been handicapped by home atmosphere than helped!

We hear a great to-do about the ungrateful daughter typist who lives at home, pays no board, and spends every cent she makes on herself. We hear much less about the daughter office worker who pays a generous board, buys home furnishings, comes home to cook supper or wash the dishes. But I am inclined to believe that there are as many, if not more, of the latter than the former.

The whole point is that even to-day with practically every able-bodied girl making her own living whether family resources demand it or not, she has not yet been really accepted by the home as a member of the working world rather than the family world.

Why should it be expected? Man has been in the role of worker outside the home since the world began—woman less than one generation. It will take at least a century or so before her status is really established as an outside-the-home working woman.

In Leisure Hours.

That's why many a mother feels perfectly free and casual about expecting working daughter Marjorie to keep her own room cleaned, help get supper, wash the dishes, help with the family sewing, and, if sickness arises in the family, give up her work and stay home to help, even though daughter Marjorie may be working as hard, have a more responsible position, and make more money than brother Harry.

I do not think that any business girl can really succeed until she has satisfactorily settled this matter of home relationship, until her conscience is perfectly clear as to what she is doing for her family, and until she has squarely put up to the family what she expects from it, and gotten it!

There are no hard and fast rules. The solution depends so much upon the girl, the family, and the job.

Many daughters with fairly light jobs live at home, pay no board, but buy those little extras such as linen and dishes and lamps and vacuum cleaners for the home which would not be had without their help. These daughters, too, help with the housework or perhaps pay for the washing and ironing or a cleaning woman once a week.

It's all right, if both family and daughter play fair and do their share.

Other daughters, either from family necessity, or the desire to be truly self-supporting, prefer to pay a flat weekly board, either one which merely covers the actual cost of their living expenses, or one on a par with what would be asked of any stranger, with a margin above cost of "keep" which permits the mother to hire help or buy herself a few little extras.

Personally, I think this the best of all ways if a girl's work is exacting. It should relieve her of the obligation of helping very much at home if she prefers to pay for the cost of her help.

I have no patience with a girl living at home who dodges all duties, never thinks of giving her family a treat of any sort, and whines if her clothes aren't laundered as she thinks they should be by her work-harassed old mother.

An on the Contrary.

On the other hand, brutal though it may seem, I have known of many cases where the only solution was for the girl to break away from the family unit and set up her own establishment.

This drastic move is generally made necessary by a family which unanimously makes the working daughter's and sister's first duty the home, and her office job only a slopover after-thought.

I have known many a family to have this attitude no matter what a girl paid, gave, or did in her home. I have known business girls with big jobs on their hands made almost nervous wrecks by families still living in the dark ages as far as their concepts of what a girl's working life really meant, were concerned.

And yet what a glorious horde of mothers of working girls there are, too! Mothers who not only appreciate the hardships of their daughters' jobs, but exaggerate them! Mothers who have warm baths ready for the home-coming daughter, who keep her clothes pressed and mended, entertain for her, pamper her and coddle her—be good to this sort of mother, working girls! Don't you kid her too much about the arduous rigors of your job! She probably works ten times as hard herself!

DRESS

By MARY MARSHALL

This all-white street ensemble consists of a white crepe de chine frock, white straw hat, white kid gloves, white shoes and stockings and white kid bag.

Mrs. Coolidge has stamped with her approval the all-white ensemble on more than one occasion. You may remember that she has appeared even in winter wearing all-white street costumes. This spring and summer she has been seen wearing a fur-trimmed light-weight white cloth cape, with white sports frock, white hat of felt and straw, white buckskin strap shoes and white stockings.

It is interesting to note that Mrs. Coolidge in this case, as always, chooses white stockings with her white ensemble. Some women even when wearing white shoes with the white ensemble wear stockings of flesh color.

The all-white street ensemble is not so often seen as the all-white ensemble for sports wear—all white save, usually, for the flesh stockings. There are obvious advantages about the white sports costume. The girls who plays tennis under the strong light of a summer sun knows how potent that light is to fade the colors of almost any fabric. Pure white apparently flourishes under bright light.

The white frock with trimmings of vivid red or blue or green, bright yellow or orange, is gaining favor at almost all summer resorts, and the woman who feels that all white is not especially becoming often looks extremely well in white combined with bright color.

White organdie is one of the most charming though one of the most fragile of summer fabrics. The material may not be so expensive as lace, georgette or any of the light silk materials—but when twice worn the white organdie frock is usually ready for the cleaner. There are new white organdie evening frocks showing trimmings of pink and light rose that appeal to the young woman who realizes that there is often as much to be gained in looking really pretty as in looking always as sophisticated as possible.

Advise Special Hygiene

for Safe Wearing of

Summer Frocks

By ELLEN J. BUCKLAND
Registered Nurse

SHEER, summer frocks and a hygienic protection that makes them safe to wear, anywhere, any time. Here is a new comfort 8 in 10 better-class women now enjoy.

The name is Kotex. More than a sanitary pad—a scientific protection one knows is safe. Filled with *Cellucotton* wadding, the world's super-absorbent, *it is 5 times more absorbent than the ordinary cotton pad.*

Kotex also thoroughly DEODORIZES. Which solves another summer problem. Discards as easily as tissue. Thus no laundry, no difficulty of disposal.

Get Kotex. Look for the name on the box you are offered. If it isn't marked "KOTEX" it is not genuine.

KOTEX

No laundry—discard like tissue

Uncle Wiggily

To-day's Bedtime Story

By Howard R. Garis

UNCLE WIGGILY'S BLACKBERRIES.

(Copyright, 1927, by McClure Newspaper Syndicate.)

"Where are you going, Daddicums?" asked Scooter, one of Uncle Wiggily's little boy rabbits, on a Wednesday morning as he saw his father hopping down the path with a tin pail. Oh, no, of course I don't mean that the tin pail was hopping—just Uncle Wiggily.

Gracious, I should like to see a tin pail hop; wouldn't you?

Well, anyhow, Scooter asked the bunny gentleman where he was going and the bunny gentleman said, said he:

"I am going to pick some blackberries so your mother can bake a pie for me to eat."

"May I come with you, Daddicums?" asked Scooter, jumping up and down, for he was a lively little rabbit.

"Oh, yes, come along," kindly said Mr. Longears. And when Tooter, who was Scooter's brother, also asked to go berrying, and when Jingle and Jangle

"The Bear has caught hold of me!" gasped Jingle

wanted to go, and also Bumble and Stumble, why there were so many of the bunny boys and girls that Uncle Wiggily twinkled his pink nose and said:

"If it comes to this I shall not need to pick many blackberries myself. The children will fill the pail."

So off the party hopped to the field where the blackberries grew, and it happened that many were ripe this morning, great, shiny black berries, glistening in the sun and still wet with the dew.

"Oh, what a noble pie they will make!" said Mr. Longears when he saw the berries on the vines. "Scatter, children, and pick up as many as you can," he told the little ones.

But if we go away from you, daddy," said Tumble, falling down and getting up again, for that was one of his tricks, "if we go away from you to pick berries, how can we put them in your pail?"

"I will make little baskets of leaves for you," offered the bunny gentleman, "and as fast as you fill your little leaf baskets bring them to me and empty them in my pail."

With the help of a tailor, or sewing bird, Uncle Wiggily made some cute little bags of large leaves from the wild grape vine, the tailor bird sewing up the seams with her bill for a needle and long grass for threads. She needed no thimble.

Then began the picking of the blackberries, Uncle Wiggily dropping his, with a thumpity ump bump into the tin pail, and all the little bunnies putting the berries they picked into the leaf baskets, which, when they were filled, were emptied into the tin pail.

As it happened Stumble did not bring his basket to empty for a long, long time, so Uncle Wiggily asked:

"Can't you find any berries to-day, Stumble?"

"Oh, yes, Daddicums," answered the boy rabbit. "But each time I find a berry it looks so good I have to eat it and then I can't put it in my leaf basket."

"Ha! Ha!" laughed Mr. Longears. "That is no way to pick berries for pie. Keep your mouth tightly closed, Stumble, then you will fill your basket without eating anything." So Stumble did this and soon his little leaf basket was filled to overflowing.

Everything was going nicely when, all of a sudden, Jingle, who was the farthest away from Uncle Wiggily, gave a little scream.

"What's the matter?" asked Jangle.

"I think—I think the Bear has caught hold of me in his sharp claws!" gasped Jingle. "I felt something prick me in the back and my dress is held fast and I can't get away! Oh, I'm sure the Bear has me! Ouch!"

Without stopping to look, Jangle dropped her berries, ran to Uncle Wiggily and cried:

"Oh, Daddicums, the Bear has caught Jingle!"

"He has?" shouted the brave rabbit. "Well, I'll fix that bear!" Setting his pail of berries carefully down so none would spill, Mr. Longears hopped to where Jingle was picking. She was trying to pull herself loose from what was holding her. Uncle Wiggily gave one look and then he laughed loudly, saying:

"There is no bear here at all! Some blackberry stickers have caught your dress at the back, Jingle! There you are!" And pulling the holding vine loose from Jingle's dress, Mr. Longears set her free.

"Oh, I'm so glad it wasn't a bear!" she gasped as she began picking berries again.

"Never be afraid to look behind you!" said Mr. Longears as he picked up his pail of blackberries. "Things are seldom as bad as they seem."

That night there was a wonderful berry pie in the hollow stump bungalow.

HINTS ON ETIQUETTE.

HINTS ON ETIQUETTE.

1. In selecting guests for a week-end party what rule should a hostess follow?
2. If impossible for a hostess to meet guests at the station what does she do?
3. Should she let guests plan their own entertainment?

The Answers.

1. Get a congenial crowd.
2. She writes them to taxi.
3. Yes, if they are acquainted.

ORANGE BREAD PUDDING.

¾ cup Eagle Brand Condensed Milk
2 cups hot water
1 cup sifted soft bread crumbs
2 egg yolks, slightly beaten
1 tablespoon melted butter
Juice of three oranges
Crated rind of one orange.
¼ teaspoon salt

Add hot water to condensed milk, blend thoroughly, and bring to scalding point. Pour over bread crumbs; let stand until cool. Add egg yolks, salt, melted butter, orange juice and rind. Pour into a buttered pudding dish, set in a pan of hot water. Bake in a moderate oven about forty-five minutes. Cover with meringue of stiffly beaten egg whites and one-fourth cup sugar. Brown slightly in a moderate oven. Serve cold. If desired, the whole eggs may be added to pudding, the meringue omitted and the pudding served cold with cream.

STORING APPLES.

If apples are to be kept any length of time they should be stored in a cool place.

MAKES NERVES TINGLE WITH NEW VITALITY, STRENGTH, FORCE!

Remarkable New Erbac Treatment Will Often Increase Strength 100% Ambition, Vigor and Endurance in 20 Days' Time.

HERE'S SIMPLE NO RISK TEST TO QUICKLY PROVE IT.

Don't grow old before your time, and don't give up to Nerve Weakness, Worry, Inertia or Chronic Fatigue. Enjoy life! Have nerves like steel—be clear-brained, strong and vigorous!

If you are overworked, rundown and careworn; if you lack the ambition, nerve force and endurance to make your life a success—don't let another day pass before starting the guaranteed 20 day test of Double Strength Erbac.

No matter what your age may be or how many treatments you have tried without success, if you would like to banish weakness, nervousness and feel 100% better in 20 days time—you are invited to try the 20 day treatment of Double Strength Erbac without the slightest risk of cost unless pleased with results. In plain sealed packages at Bond's Drug Store or any other good druggist will supply you with Double Strength Erbac on a binding guarantee of money back if not delightfully pleased with results from its use.

DISHWASHING EFFICIENCY.

Have what equipment you need to make dishwashing effective. Use a wire dishcloth on ironware, and a scrubbing brush for enamelled ware and tinware. For seams in pans keep a wooden skewer on hand.

MILITARY HONORS FOR U. S. AIRMAN

The streets of Ottawa were lined with thousands of people when the remains of the late Flight Lieut. Johnson, United States Army airman, who was killed during the manoeuvres of Col. Lindbergh's air escort at Ottawa were conveyed to the depot with full military honors. The prime minister and members of the cabinet, Mr. Massey, Mr. Phillips and others are shown in the procession.

Your Summer Home

Meals at your Summer Home or Camp will taste ever so much better if you have freshly mixed Keen's Mustard on the table.

Itself an appetiser, it has the "knack" of bringing out the best that's in foods.

Keen's Mustard aids digestion

CADET SHOOTS HIGH SCORE

Hamilton Youth Scores 104 Out of 105 in First Stage.

FOR KING'S PRIZE.

BISLEY CAMP, Eng., July 14.—(Canadian Press Cable). — Young Alexander Hilson, member of the team of cadets from Hamilton, Ontario, astounded Bisley yesterday by scoring 104 out of 105 in the first stage of the great King's Prize, in which more than a thousand marksmen from all parts of the empire competed.

Hilson is to shoot off with six others for the bronze medal and badge for highest scorer. Like the other cadets, he is not eligible for the King's Prize itself, which is only for the past or present members of his Majesty's forces. But the cadets are shooting for medals in each stage.

Of Canada's regular Bisley team, 10 members qualified for the second stage and seven more still have a chance.

Under Hilson, the best Canadian scorers were Sergeant J. H. Gray of Toronto and Cadet Elwood Matchett of Hamilton, with 103; and quartermaster-sergeant W. H. Wood of Victoria, 102. Only seven of the hundreds of marksmen recorded 104; twelve shot 103 and 21 scored 102.

The Canadian regulars qualified for the second stage on Friday are: Sergeant Gray, Q.M.S. Wood, Lieut. J. E. Foreman of Hamilton, Sergt. C. Emslie of Toronto, Lieut. Desmond Burke of Ottawa, C. M. Hawkins of Toronto, Corporal J. S. Douglas of Montreal, Lieut. K. R. MacGregor of Ottawa, Corporal E. G. Stock of Toronto and C.Q.M.S. Alex Parnell of Verdun, Que. All had 98 or better.

A pleasing feature was the qualification of both the Canadians who have previously won the King's Prize—Hawkins and Burke.

The six marksmen with whom Cadet Hilson contests supremacy in the rst stage, are: Sergeant Ross, formerly of the artillery; Corporal Cross, Somersetshires; Armourer McCallum, Argyll and Sutherland Highlanders; Corporal Grenfell of Cambridge University; Lieut. Wood of the Yorkshires and Lieut. Booth, Royal Air Force.

Seven Canadians who scored 97 out of 105 today will shoot off with 36 other marksmen for 18 places left in the second stage, which limited to the 300 marksmen who made best scores today. These are Sgt. B. W. Beaumont, Vancouver; Sgt. A. S. Emery, Saint John; Lieut. John McAvity, Saint John; Sgt. A. J. McCabe, Charlottetown; Pte. S. R. Potter, Hamilton; and Cadets Hunter and Norton, Hamilton.

The width of the Amazon River at its mouth is equal to the entire length of the famous Thames River in England.

The Chinese consider the stomach the source of intellectual life, and therefore the fattest man goes for the wisest one.

CHICAGO CATTLE.

CHICAGO, July 14 (Canadian Press).—Cattle 12,000; $14.50 paid for heavy long fed steers averaging 1,400 pounds; best long yearlings $13.65; light yearlings, $13.25; yearlings heifers up to $12.50; long string grain fed steer $13.50 to $14.00; later price kinds averaging 1,380 pounds; most stockers and feeders $7.50 to $8.75; vealers $13.50 to $14.50.

Hogs 15,000; bulk good and choice 150 to 170 pound averages $10.00 to $10.10; most sorted 180 to 210 pound averages $10.15 to $10.20; 220 to 240 pound average mostly $9.65 to $10.00; bulk better packing sows $7.90 to $8.25.

Sheep 9,000; choice Idaho lambs $14.85 top, to city butchers $14.95; bulk natives $13.50 to $14.00; fat ewes $6.00 to $6.50 mostly; feeding lambs unchanged.

CHICAGO GRAIN

CHICAGO, July 14 (Canadian Press).—Wheat prices rallied at the last yesterday although averaging lower most of the time previous. Relative strength of the Winnipeg market tended to emphasize uneasiness in some quarters concerning black rust possibilities over Canada. Chicago wheat closed irregular at ¼c net decline to ⅝c advance; corn ¼c off to ⅛c up; oats showing ⅛ to ⅞c gain and provisions varying from 7c setback to a rise of 30c.

Although weather conditions northwest yesterday were favorable on the whole and crop observers were inclined to be optimistic in regard to domestic spring wheat the market had a nervous undertone. The fact was recognized that there is yet time for considerable damage from black rust, especially in Canada. Moreover the Canadian crop is reported very late so as to increase sharply the dangers of early frost. Meanwhile reports of rapid harvesting of domestic winter wheat in the central west were offset by word of disappointing yield in Illinois and Indiana.

Drought reports from parts of Iowa, Missouri and Kansas tended to rally the corn market from early declines due to better weather elsewhere. Oats reflected fear of damage by excessive heat in some sections west.

Provisions were governed largely by action of the corn market as well as the course of hog values.

CONFIRMATION SERVICES HELD

Lord Bishop Of Toronto Conducts Services In Roseneath Parish.

SEVEN RECEIVED.

ROSENEATH, July 14.—On Sunday afternoon the Rt. Rev. J. F. Sweeney, Lord Bishop of Toronto, conducted a confirmation service in St. James' Anglican church, when a class of seven received the holy rite.

His Lordship delivered a very forceful address, taking his words from the book of Romans, "Living unto God"—a life of faith, a life of love, a life of service and a life of self-sacrifice, if God should so require. Take a supreme interest in the things pertaining to the Kingdom. "Alive unto God" means separation or dedication to God from this world, and friendship with the world means enmity to God. The day being fine the church was filled to overflowing.

Mr. Scott, New York and Mr. Brunke, Toronto, were tourist guests at the Turner House last week.

Miss Bessie Turner has returned home after a visit with her brother, Mr. Fred Turner, Wicklow.

Mrs. Tyndall of Western Canada is visiting her brother, Mr. R. Crego.

Miss Hazel Hardy of Evart, Mich., is visiting her cousin, Mrs. M. D. Brown.

Miss Edith Coldicott, of Toronto, is the guest of her cousin, Mrs. (Dr.) Hershey.

Miss Kidd and Madeline Gilgour of Peterborough, are guests of Mrs. G. Ingraham.

Mrs. G. L. Tucker and son, Ewart, of Prelate, Sask. are visiting her father, Mr. William Brown and other friends in the neighborhood.

Mr. and Mrs. Fred Spencer and children, Billie and Thelma, of Toronto, are guests of Mr. and Mrs. M. Davey.

Mrs. Delbert Bisbin is spending a few days with friends in Montreal.

Master Clifford McMillan, Rochester, is holidaying at his grandfather's, Mr. John McMillan.

Mrs. George Thomas and daughters, Pearl and Lillian, of Peterborough, are spending their vacation with her parents, Mr. and Mrs. S. Herrington.

Mr. George Turner is in camp at Petewawa.

Mr. and Mrs. Albert Tucker and family, of Lindsay, spent the week end with his parents, Mr. and Mrs. S. A. Tucker.

Mr. and Mrs. Dunn and family, of Trent Bridge, spent Sunday with her parents, Mr. and Mrs. G. Hogg.

Mr. and Mrs. S. Leach, Mr. and Mrs. C. Leach and daughter, Penella, spent Sunday with Mrs. Lottie Nichol.

Mr. and Mrs. Gordon Black, Toronto, are holidaying wth her parents, Mr. and Mrs. William Jackson.

Mr. and Mrs. J. Baxter and children; and Mr. Jenkins of Cobourg, visited Mr. and Mrs. G. Hogg on Sunday,

WARSAW NEWS

WARSAW, July 14.—The Baptist Sunday-school is reorganized, after a lapse of a few years. Pastor Ekaner teaches the Bible class; Miss Tedford and Miss Olive Kidd are the other teachers

A few years ago, when this school was in operation, it had the highest standard in the township.

The Anglican Ladies' Guild will not meet again until September.

The Woman's Institute will hold its regular meeting on Thursday, July the fourteenth. There will be a roll call to be answered by "Hints for the Hope-chest."

Mrs. W. Anderson will give a report of the district annual held at Norwood, and Mrs. Henry Batten will give a paper on "Canada."

Rev. H. B. and Mrs. Herrington, with their daughter, Lucile, and her little friend, Murietta Jory, motored to Merrickville on Tuesday, to visit Mrs. Herrington's mother. Mr. Herrington went to Ottawa for a day. They returned on Friday.

Mr. V. B. Coleman, accompanied by his elder son and little daughter, motored from Port Hope on Saturday, returning in the evening.

Mrs. John Sargent returned on Saturday, after spending a few days with her son and his wife in Lakefield.

Mrs. Campbell (nee Bessie Lonsdale) and little daughter, Toronto, are visiting Mrs. Arthur Payne.

Mrs. Colville, is visiting her sister, Mrs. Arthur Edwards.

Mrs. Roland Payne is very much better after her serious illness.

The Women's Missionary Society of the United Church, made a quilt, the materials for which, had been donated, last Thursday afternoon. Mrs. Robert Moore, the president was unable to be present, on account of illness.

The United Sunday school held a missionary service on Sunday, which was conducted by Mrs. Robert Moore. This should have been held on July the third.

Sacrament of the Lord's Supper will be held on July the 17th, Confederation Sunday and Orangemen's services prevented it earlier.

The Orangemen held their annual church service parade to the Presbyterian church on Sunday evening. The church was well filled. The choir, assisted by some members from Keene and some from Westwood, sang a suitable anthem. Mrs. Wood (nee Campbell) who was formerly a Keene girl, with her sister, Miss Campbell, a trained nurse, from New York, rendered a duet. Rev. Mr. McClary preached an excellent sermon. There were many good thoughts for the Orangemen, and for others as well.

CAMPBELLFORD BOWLING.

CAMPBELLFRD, July 14. — A rink from the Campbellford Bowling Club journeyed to Cobourg yesterday where they took part in a bowling tournament in which there were 23 rinks and 132 players.

The local rink was matched against a rink from Cobourg and one from Warkworth.

The first game was 14 ends and the the other game 8 ends. In both games the teams tied and an extra end in each game had to be played—Campbellford losing both games.

Campbellford rink: Gillespie, Archer, Wilkinson and Wiggins. Cobourg rink: Moore, Corry, Fluke and Curvin. Warkworth rink: Toppin, Dr. Armstrong, Smale and Dr. Allen.

In consequence of complaints received from the public, the London General Omnibus Company has reminded its bus conductors that they are not band conductors and therefore must not whistle and sing while on duty.

Two new fashion leads for men have been given recently by the Prince of Wales—the bow tie and the navy blue dinner suit.

"How is your stomach? Have you eaten your rice?" This is the Chinese national greeting, which is equivalent to the English "How do you do?"

She Began to Thrive when put on EAGLE BRAND

"My baby was born prematurely, by the Cæsarian operation. She lost steadily for five weeks, and was nothing but a little skeleton. She cried continually and would not sleep for more than half an hour at a time. I was unable to nurse her, and the food we gave her disagreed altogether with her. At last the doctor said we might try Eagle Brand and we made a very weak solution, feeding her each hour. This was at four o'clock in the afternoon, and after the nine o'clock feeding, she went to sleep and slept peacefully for nine hours. Since then, she has gained rapidly and is so happy and contented that everybody stops to notice her. People who saw her when she was five weeks old, think she's nothing short of a miracle, and indeed we all think so, for her life was just hanging by a thread, and it seemed as if she could not live. She is one of the best testimonials you could possibly have, and after seeing her, any mother would try Eagle Brand. She is nine months old today, has seven teeth and is trying to walk, and since five weeks, has had absolutely nothing but Eagle Brand and Orange Juice."

MANY ATTENDING PRESQU'ILE CAMP

About Seventy Boys in Camp Under Leadership of Rev. Mr. Rickard.

WOOLER, July 14.—A large number from here visited the "Boys' Camp" at Presqu'ile Point on Sunday. There are seventy boys there from Grafton, Colborne, Brighton, Campbellford, Frankford, and Wooler. The grounds are very attractive with several tents, and the large dining room tent. Mrs. W. A. McColl and daughter, Mabel, are in charge of the cooking and serving the meals in this large tent.

The boys' activities have made them brown, with sunburn, elastic in movement, friendly one with the other, and good sportsmen.

The Sunday afternoon open air service was much enjoyed by the parents and friends as one of the boys was in charge, under the leadership of Rev. Mr. Rickard of Albert College, Belleville. The singing was strong and wholehearted. The boys lay on the ground under these beautiful large maple trees and listened with intense interest to the speakers, Rev. Mr. Rickard, Rev. H. B. Neal and Rev. Mr. Edwards.

CHRIST CHURCH, BAILIEBORO PICNIC

On Monday, July 4th, the children and parents of Christ Church Sunday school, Bailieboro, with other members of the congregation, motored to Wallace's Point, where a very enjoyable afternoon was spent.

The sports in which everyone took part consisted of a ball game and races for which prizes were given as follows:

Little Boy's race—Joe Armstrong, 1st; Ralph McCamus, 2nd; Harold McCamus, 3rd; Alan Brown, 4th.

Little Girls' Race.—Isabel McCamus, 1st; Audrey Wood, 2nd.

Three-legged Race.—Mary Panter and Agnes Brown, 1st; Beatrice and Alice Gray, 2nd.

Married Women's Race.—Mrs. Reg. Armstrong 1st; Mrs. Brown, 2nd; and Mrs. Willis Wood, 3rd.

Men's Race.—Reg. Armstrong, 1st; Fred Waterman, 2nd; Willis Wood, 3rd.

Boys' and Girls' Egg and Spoon Race —Willie Goulding, 1st; Gertrude Goulding, 2nd.

Hurdle Race.—Ralph McCamus, 1st; Harold McCamus, 2nd; Joe Armstrong, 3rd; Alan Brown, 4th.

A bean contest which caused a great deal of interest and enjoyment was won by Mr. Robert Wood.

Between the ball game and races, the ladies spread the tea table under the shade of the fine old trees on the grounds and all enjoyed the social hour round the well-laden board.

All were pleased to have Rev. Mr. Howard present and appreciated the effort it meant for him to reach the picnic grounds by the roundabout way made necessary by the closing of the Wallace's Point Bridge to traffic.

The outing was planned as a treat for the Sunday School children and everyone joined in making it a happy afternoon for them.

NORWOOD NEWS.

NORWOOD, July 14.—Mr. and Mrs. William Beckett have returned from a two weeks holiday spent with friends in Hamilton and Harrowsmith.

Mrs. Sara Robson spent Sunday with friends in Madoc.

MANY ATTENDING PRESQU'ILE CAMP

About Seventy Boys in Camp Under Leadership of Rev. Mr. Rickard.

WOOLER, July 14.—A large number from here visited the "Boys' Camp" at Presqu'ile Point on Sunday. There are seventy boys there from Grafton, Colborne, Brighton, Campbellford, Frankford, and Wooler. The grounds are very attractive with several tents, and the large dining room tent. Mrs. W. A. McColl and daughter, Mabel, are in charge of the cooking and serving the meals in this large tent.

The boys' activities have made them brown, with sunburn, elastic in movement, friendly one with the other, and good sportsmen.

The Sunday afternoon open air service was much enjoyed by the parents and friends as one of the boys was in charge, under the leadership of Rev. Mr. Rickard of Albert College, Belleville. The singing was strong and wholehearted. The boys lay on the ground under these beautiful large maple trees and listened with intense interest to the speakers, Rev. Mr. Rickard, Rev. H. B. Neal and Rev. Mr. Edwards.

CHRIST CHURCH, BAILIEBORO PICNIC

On Monday, July 4th, the children and parents of Christ Church Sunday school, Bailieboro, with other members of the congregation, motored to Wallace's Point, where a very enjoyable afternoon was spent.

The sports in which everyone took part consisted of a ball game and races for which prizes were given as follows:

Little Boy's race—Joe Armstrong, 1st; Ralph McCamus, 2nd; Harold McCamus, 3rd; Alan Brown, 4th.

Little Girls' Race.—Isabel McCamus, 1st; Audrey Wood, 2nd.

Three-legged Race.—Mary Panter and Agnes Brown, 1st; Beatrice and Alice Gray, 2nd.

Married Women's Race.—Mrs. Reg. Armstrong 1st; Mrs. Brown, 2nd; and Mrs. Willis Wood, 3rd.

Men's Race.—Reg. Armstrong, 1st; Fred Waterman, 2nd; Willis Wood, 3rd.

Boys' and Girls' Egg and Spoon Race —Willie Goulding, 1st; Gertrude Goulding, 2nd.

Hurdle Race.—Ralph McCamus, 1st; Harold McCamus, 2nd; Joe Armstrong, 3rd; Alan Brown, 4th.

A bean contest which caused a great deal of interest and enjoyment was won by Mr. Robert Wood.

Between the ball game and races, the ladies spread the tea table under the shade of the fine old trees on the grounds and all enjoyed the social hour round the well-laden board.

All were pleased to have Rev. Mr. Howard present and appreciated the effort it meant for him to reach the picnic grounds by the roundabout way made necessary by the closing of the Wallace's Point Bridge to traffic.

The outing was planned as a treat for the Sunday School children and everyone joined in making it a happy afternoon for them.

NORWOOD NEWS.

NORWOOD, July 14.—Mr. and Mrs. William Beckett have returned from a two weeks holiday spent with friends in Hamilton and Harrowsmith.

Mrs. Sara Robson spent Sunday with friends in Madoc.

Miss Mildred Lean, of Hastings, was a guest of Norwood friends during the week.

Mr. and Mrs. Basil Rogers and daughter, Margaret have returned home to Flint, Mich.

Mr. John Ivey, of Detroit, Mich. is visiting in the village, a guest at the home of Mr. and Mrs. James Tharby.

Bobby Jones Low Scorer In British Open Golf

JONES LEADS IN BRITISH OPEN

Australian Champion in Second Behind the Title Defender.

PLAYS GOOD GAME.

ST. ANDREW'S, Scotland, July 14. (Canadian Press).—Robt. T. Jones, amateur golfer of Atlanta, Ga., more familiarly known as Bobby Jones, will commence the second eighteen holes of the 72 hole title round with a lead of three strokes over his nearest rival in defence of the British open golf championship.

Bobby's putter worked like a magic wand on the first round yesterday and he leaped out ahead of the field of 108 players with a card of 68 which equalled the record for the classic course made by George Duncan.

Trailing Jones by three strokes was Len Nettlefold, the young Australian amateur champion, a left handed hitter, who clubbed his way into an impressive 71 to take the runner up position at the end of the first eighteen holes play. Only 35 of the players were able to compile scores of 75 or better.

All of the players who competed yesterday will play another eighteen holes to-day. If they fail to come within fifteen strokes of the leader they will be eliminated from competition in the final 36 holes on Friday.

Six players were within one stroke of Nettlefold with scores of 72. They were E. F. Storey the well known amateur of West Hill, T. Dobson of East Renfrew, W. Torrance, British amateur, Murray of Skerries, another amateur, Hudson of Lenby, and Joe Kirkwood, Australian trick shot artist at present attached to a club at Albany, Ga.

Four Britons were tied with 73. They were Percy Alliss, Mark Seymour, Tom King, and Curtis, while one stroke behind them were the following: Johns, Robertson (West Lancashire), A. Lacy, A. J. Miles, Jim Braid, Ernest Whitcombe, C. Gadd, Robert Harris, Scotch amateur, Archie Compston, and Raymond de Montmorency, another Scottish amateur.

In Late Seventies.

With the exception of Jones and Kirkwood the other contestants from the United States were in the late seventies or over eighty, including "Wild Bill" Mehlhorn of New York, who needed 77 strokes to get around yesterday.

Cyril Tolley, the former British amateur champion, who was the medalist for the 36 holes of qualifying play, also turned in a card of 77.

St. Andrews was thrown into a frenzy of enthusiasm over Jones' performance. As Jones eclipsed the performance of the other great stars assembled here the golf fans vented their true feelings in honoring the young man they regard as the greatest exponent of the pastime. For days they have predicted that it would be Jones' championship and his great start has called for a flood of "I told you" in rich Scotch brogue. Bobby played what he called "crazy golf" and explained that he did not think he did pretty well except with his putter. "I was rotten up to the green," he told The Associated Press. "I wasn't hitting my long shots properly but I could putt."

Bobby may not have been justified with the way his 68 was obtained but 7,000 spectators who jammed and jostled one another on fairways and greens seemed to be satisfied. Some of them declared that they had found more thrills in 18 holes of play than most people got out of golf in a life time.

Bobby bowed to par on only one hole all day. He needed five on the par for second, but after that old man par took a lot of punishment at the hands of the young expert. He had par five down at the close. On the first nine he scored an eagle and three birdies. Coming home he played every hole in par except the seventeenth where he had a birdie and missed an eagle by inches.

Startling Performance.

The first hint of the startling performance to follow came on the fifth hole, 530 yards with trouble everywhere. Two tremendous shots sent the ball to the edge of the mammoth green but left it 120 feet from the cup. Bobby drove the putt home straight and true for an eagle. Encouraged he followed with a birdie at the sixth and finished 2-3 for birdies at the eighth and ninth, long putts dropping at each hole. He was on the edge of the famous road hole, the seventeenth, in two and his putt for the eagle almost went down. The birdie was easy. Coming to the eighteenth with a four for 68 and three for 67 he was home in two and went boldly for the cup from sixteen feet. He was a yard past and had to accept a par equalled instead of broken record.

Andrew Kirkaldy, who tied for first place in the British open championship play as far back as 1879, was among the first to congratulate Jones as he left the eighteenth green. Wearing Scottish and international colors, he chuckled: "Mon, ye are nae a gowfer at all. Ye are juyst a machine."

KEENE DEFEATS WARKWORTH NINE

Wins League Baseball Game By Seven Runs To Five.

KEENE, July 14.—Keene defeated Warkworth in a league game on Saturday, seven to five. The Warkworth team were late in arriving and only four and one half innings were played, the game being called on account of darkness. Robertson, pitching for Keene was very effective with men on bases, not a run being earned off of his delivery. Zufelt, pitching for Warkworth, allowed two earned runs, the rest being scored on errors, although some of them were very hard hit balls to handle.

This win puts Keene in second place in the league standing for the first half of the schedule, two more games remaining to be played, Keene at Hastings, the play off of a tie game, and Campbellford at Keene.

Score by innings:

Keene . . . . . 4 0 1 2 x—7
Warkworth . . . . . 1 2 0 2 0—5

Batteries—Keene: Robertson and Robertson; Warkworth: Zufelt, Dawson and Wilson.

M. J. Pollock, twenty-year-old swimmer from San Diego, Calif., who has arrived in Toronto to take part in the $50,000 Canadian National Exhibition swim marathon. He won the twelve-mile swim out of San Diego harbor seven weeks ago and has other medals for the natatorial art.

Will You Gamble $1 To Catch More Fish?

"Will you invest $1" would be better, for there is no gamble when you use the famous Pikie Minnow. There's a successful record from thousands of anglers everywhere as well as a money-back guarantee behind it. Try it just once, you'll swear by it too.

The Baby Pikie Price $1.00

The Famous Pikie Minnow

is a deceptive lure for all game fish. Its true-to-nature shape and color and its life-like swimming movement fools 'em all.

CUBS DIVIDE DOUBLE HEADER

Split Twin Bill With Braves While Brooklyn Defeats Pittsburgh.

HOLD 12 POINT LEAD.

NEW YORK, July 14.—(Canadian Press).—Chicago held on to first place in the National League pennant race by dividing a double header with the Braves at Boston yesterday while Pittsburgh was dropping an eleven inning encounter with Brooklyn. The day's developments gave the Cubs a 12 point margin of safety.

The Braves thumped three Chicago pitchers for 18 hits to win the opening game 6 to 3. But Root effectively silenced the Warrior batteries in the finale and his team mates tucked the game away 4 to 1.

Brooklyn subdued Pittsburgh after an 11 innings pitchers' battle at Brooklyn by 2 to 1, Jay Partridge singling and scoring from first base with the winning run when Cuyler let the ball get away from him. The Robins tied the count in the ninth on Carey's double, an infield out and Hendrick's base drive. Traynor smashed a homer off Petty in the fourth for the lone Corsair run.

Win Fourth Straight.

The St. Louis Cardinals gained on the Pirates and Cubs by winning their fourth straight at the expense of the Phillies by a score of 8 runs to 7 in 12 innings at Philadelphia. The Cards won out in the twelfth when Decatur walked Schulte and hit Schuble. Two sacrifices and a single by Toporcer broke up the game. Sherdel pitched a strong rescue game, holding the Phillies to two hits in the last five innings.

Cincinnati indulged in a batting orgy at New York driving out 19 hits for an 11 to 3 victory over the Giants. It was the first victory for the Reds this season in New York and only the third on the Polo Grounds in the last two years. Walker and Dressen led the Cincinnati attack with four hits, Bressler following with three.

PETHERICK'S TEAM MEETS HARD LUCK

Goes To Rylstone and Finds Springbrook Team Imported For Game.

PETHERICK'S CORNERS, July 14.—The feelings of the local ball team on Monday evening were somewhat akin to those of the lamb led to the slaughter, when they journeyed to Rylstone to meet that team on the occasion of the Sunday school social at S. G. Meiklejohn's and found waiting as their opponents the much renowned Springbrook aggregation.

However, the Petherick's boys went at them with grim determination, and for four innings showed the easterners how softball should be played. In the fifth spasm, however, the Springbrook batters began to drop flies into the apple trees which dotted the outer garden, and to make the game sure, Lott smashed out a homer which went far beyond the aforesaid trees.

Kerr, the local curve ball pitcher, performed a noteworthy feat in the third inning when he retired the side on three pitched balls, two outs at first and a foul tip. The locals are desirous of again meeting the Springbrook boys on a smooth field, and feel sure that they can give them a real argument.

The line-up:

Petherick's—G. Kerr, p; T. Owens, c; Rev. Daniel, 1b; R. Fry, 3b; T. Fry, 3b; R. Barnum, ss; G. Petherick, lf; G. Meiklejohn, cf; L. Anderson, rf.

Springbrook—G. Heath p; M. Heath c; Lott, 1b; Ketcheson, 2b; M. Mason, 3b; Hazlett, ss; Gibson, lf; Burkitt cf; MacMason, rf.

By innings:

Springbrook. . . . . 22025—11
Petherick's . . . . . 24121—10

Umpires—Mason and Fairman.

An effective way of destroying corn borers is reported to have been devised by a man in Marysville, Ohio. His invention consists of a new type of corn husker which chops the stalks into such fine particles that the borers are cut to bits.

YANKEES TAKE 2ND STRAIGHT

Boost Indian's Losing Streak To Eight By 5-3 Triumph.

WHITE SOX LOSE 7-5.

NEW YORK, July 14.—(Canadian Press).—The Yankees boosted the Indians' losing streak to eight straight yesterday, triumphing in the second contest at Cleveland by 5 to 3. Cleveland was in front until the eighth, when Ruth doubled and Lazeri's double accounted for three runs. Besides the twin bagger, Ruth got three singles for a perfect day at bat. Gehrig went hitless. Spurgeon of Cleveland turned out a homer with none on in the sixth.

Philadelphia bunched hits in three innings off Ted Lyons to overcome Chicago's early lead, and defeated the White Sox 7 to 5 at Chicago. The Athletics collected 17 hits, Cochrane leading the attack with four. It was Eddie Collins' day and the former manager of the White Cox was presented with an automobile. The game was delayed a half hour by rain.

The Browns landed on three Boston Red Sox pitchers for eighteen hits at St. Louis and took the second game of the series, 14 to 3. George Sisler, who got four hits Tuesday, got the same number yesterday, making eight hits in as many times at bat. O. Miller also got four safeties. Gaston got two doubles and a single. The Browns have won all eight games played with the Sox so far this season.

Detroit took both halves of a home double header from Washington, 7 to 3 and 13 to 9. Gibson was credited with winning the first game although he issued twelve passes and had to be taken out of the box in the ninth inning. Stoner, who replaced him, struck out two of the three Washington batters in the last inning. Johnny Neun stole home in each game. Harry Heilmann, after getting a home run and a single in the first game, turned in a perfect hitting performance in the second.

MENIE SURE OF PLAY-OFF PLACE

Defeats Mount Pleasant in the Final Game of League Schedule.

TIED FOR SECOND.

BURNBRAE, July 14. — Menie won the final game of the season at home on Monday evening, when they defeated Mount Pleasant 16 to 6. Shillinglaw was the batting star with four hits and as many runs, in five trips to the plate. This win gives Menie a standing of 7 wins and 5 defeats, and assures them of a play-off position.

Their opponents in the sudden death final will be either Glen Ross or Hoard's, with the odds in favor of the former team.

However, the Hoards' young line-up may spring a surprise and the final tussle between these two teams at the Hoard's garden party on Friday evening promises rare fun.

CAMPBELLFORD DEFEATS MADOC

Takes Three Out of the Five Events in Tummon Cup Series.

GOOD TENNIS PLAYED.

CAMPBELLFORD, July 14.—Madoc sent over some very good racket handlers yesterday afternoon to engage the local tennis association in a few events leading to the Tummon Cup. Besides the events listed below a number of exhibition games were played:

Men's singles—Torr beat Watson, 6-0, 6-1. Kingston lost to Nichol, 4-6, 6-1, 4-6.

Men's doubles—Wood and Connor lost to Gillespie and Gillespie, 4-6, 3-6. Henson and Bell beat Connor and Rupert, 6-3, 6-0.

Mixed doubles—Beatty and Miss Smith beat Walbridge and Miss Rupert, 6-1, 6-0.

Campbellford won 3 out of 5.

Canadians Qualify For Second Stage

BISLEY CAMP, July 14.—(Canadian Press Cable).—At least twelve Canadians qualified for the second stage of the classic King's prize on Friday, by shooting 98 or more in the first stage yesterday. Besides these two of the Hamilton cadets qualified.

Cadet Hilson of Hamilton equalled the best score made by any of the hundreds of marksmen in the first stage yesterday with a remarkable 104 out of a possible 105. He shoots off with six others for the bronze medal for leader in the first stage.

Last year English mills sold to the Chinese a greater value of woolen cloth than was sold to any other nation. The quantity was more than 15,000,000 square yards.

A cooling treat for your dinner at home at the close of a hot summer's day

TONIGHT—try something new. . . . Instead of selecting a hot drink, ice up several bottles of "Canada Dry" and serve with your dinner.

You will feel cooler the minute you see this fine old ginger ale sparkling on the table. Then, as you drink, you will realize that it is more than just a pleasing flavor. You will find that it is more refreshing and invigorating than any other beverage you have ever tasted.

The reason is simply because "Canada Dry" is a real "dry" ginger ale made from the highest-grade Jamaica ginger, and blended with something of the same expert care as a rare old wine.

Try it tonight and note the zest and sparkle it adds to even the simplest dinner. Your family will welcome the change from the usual day-after-day menu and appetite will be keener just because of it.

Dinner isn't "just another meal" when you serve "Canada Dry," but something to look forward to and remember.

"CANADA DRY"

(Continued from yesterday.)

THIS HAS HAPPENED

Attempts have been made on the life of ELISE MARBERRY, an American girl owning considerable property near the little town of PORTO VERDE, in west central Brazil. Several mysterious deaths have occurred, but so far she has escaped harm, due to the shrewdness of her cousin and protector, VILAK, a curious mixture of American and Oriental blood and a student of criminology.

Vilak has been trying to persuade Elise to leave Porto Verde, letting him remain behind with his friend, LINCOLN NUNNALLY, an elderly American chemist, to solve the mystery. She finally agrees, but her departure is prevented by threat of floods. Messengers ride through the countryside, warning the natives. Vilak suggests they go to the house of GAYLORD PRENTISS, a recluse and a forbidding man and an enemy of Elise's, whom she suspects of a knowledge of the conspiracy against her. She agrees it is her duty.

Vilak learns the flood warning is a ruse to get Prentiss out of his house and so informs him. The party is besieged by an armed force in a stone tower next to Prentiss' house. Vilak disperses the enemy by dynamiting a dam and causing a real flood. When the water recedes they discover Prentiss is gone.

The next day, TINKY, Elise's two-year-old orphaned nephew, is kidnapped for the second time. A native reports Prentiss has been seen with a baby. The trail leads into the jungle and, with native trackers, they pursue. Calamity overtakes them. Their natives are hurt, or desert, and two of their white friends are fever victims.

Elise, Vilak and Nunnally finally emerge from the jungle. Presently they come to the outskirts of a strange city, resembling the old Inca civilization.

Here they are made prisoners. They discover they are in the power of CARLOS D'ALBENTARA, whom they had known in Porto Verde as an engineer. D'Albentara persuades the ruler of the city that Vilak and Nunnally should be killed.

NOW BEGIN THE STORY

CHAPTER XLI.

Through the apertures in the stones which served as windows Vilak and Nunnally could look down on the court through which they had passed a moment before, a court enclosed by a ruined colonnade or gallery.

From it rose the gigantic stone figure with the fire before it which they had noticed from the mountain, a figure which on this closer view seemed to be grotesquely carved in the shape of one of those fantastic creatures so common in the art of earlier civilizations, half human, half bird, with short arms and claws stretching out to the east.

On either side rose two shafts of stone. On one of these was fixed a rusty Spanish arquebus, on the other parts of a Spanish rack.

At the foot of the great figure Vilak could now perceive a smaller one. About the size of a man, it was obviously a crude and recent attempt to copy the impressive stone figure overlowing it. It had none of the stolid Egyptian-like dignity of the other; its head was uncouth, with great wide open mouth like the negro fetishes from the Zambesi. It had but a single roughly chiseled arm, which began at the chest and appeared to be clumsily hinged there, so that pressure would move it up or down.

The flat hand had no fingers. Instead, what were apparently three sharp-pointed pieces of wood or thorns were thrust into the fist of the palm. Radiating out from this figure was a series of flat, table-like stones, the central one, the largest, being directly under the outstretched arm. Beyond this burned the fire.

Vilak drew away from the window. For half an hour he lay silent, thoughtful. The Chinese cast of his eyes accentuated. At last he spoke. "Wish I could reach for one of my cigarets," he said genially to the old man, who had rolled close to his side. "But since I can't, I'll talk. Might as well be cheerful. Won't help Elise or any of us by worrying. Look out that window and see if what I said about these people being a corking treatise on primitive religion isn't true. The big figure and the stone shafts are Inca, that imitation of the statue is absolutely African, and the rack and arquebus are European, of course.

"Perfectly natural that they should worship them. The rack and the arquebus were two of the most cruel and oppressive weapons the conquistadores had, and all the natives thought they were magical. The arquebus particularly would seem so to a nation of fire-worshipers. And fire-worship is certainly one Inca thing which these poor half-breed devils have made their own.

"It's to be expected of a people living near an extinct volcano which still has hot springs and smoke to show that it isn't so terribly extinct after all. Besides, sun-worship or fire-worship—they're the same—is the most widespread of any of the savage religions. It's the first. The most conspicuous object in the savage's life in the day-time is the sun, which gives him heat, light, and food; the most conspicuous at night is fire.

"Without the one he would swiftly die, while the other is a force which on occasion kills him as lightning in the sky, or burns him to death as a sweeping forest or prairie fire. Besides, fire does him enormous services, and he concludes that it's a god that he'd better try to propitiate.

"If you watched any of the soldiers who came from the front where they suffered so much from the cold, you'd know what I mean. They'd stand in front of an open fire for hours, jokingly swearing they wouldn't leave it until they died. They had a good bit of the fire-worship psychology. That's exaggerated, but it gives you my idea, which is probably your own as well."

The old man winced as a wasp settled on his arm. It flew away without stinging. With relief he rubbed his arm against the wall. "Why does that smaller . . . er . . . idol have that . . . er . . . hinged arm? It's quite . . . er . . . badly done . . . yes . . . badly."

Vilak grunted. "Badly done, Nanny, I agree, but well enough done to be the cause of our deaths if we don't get out of here beforehand and if my theory about it's correct.

"I think I can see traces of the work of some tricky Indian shaman or African witch-doctor in that. The chap who's a little bit cleverer than his fellows and rigs up some device to keep them impressed. They're the original ward politicians, these witch-doctors and native chiefs. Only they frighten the other people into voting for them instead of taking them on picnics and giving them five dollars on election day. Incidentally, if you remember that statue looks much like the figure on the ring I showed you that night I fell by the railroad embankment."

"Yes . . . er . . . yes. So it does. I remember. Quite. The ring you took from the half-breed with the unpleasant nose, who was guarding your cousin just now . . . yes."

"I hasten to correct you. The ring I took from D'Albentara."

The wasp returned again to the old man's arm. He waited until it had once more vanished before answering. "You told me you . . . er . . . took . . . took it from the half-breed."

"I told you that to keep you from getting suspicious at a time when suspicion wouldn't have been wise. I took it from D'Albentara's finger when I caught his hand in falling."

"Have you still . . . er . . . got it?"

"Leading question, Nanny. Refuse to answer."

An hour after the sun had set, the two negrito-like guards brought food, untied them while they ate it, then securely bound them once more. That night both the prisoners slept the sound sleep of exhaustion. But the next night, hours after their guards had departed and deep stillness had settled on the city which lay unseen below the shining walls which marked their horizon, Vilak was still awake, flat on his back, his Mongolian eyes gazing dreamily at the ceiling.

The old man was lying near him, tossing restlessly, and rubbing at the thongs binding his slight body. Suddenly Vilak began rolling toward the middle of the stone floor where the clay dishes bearing their supper had lain, and rubbing his long fingers in drippings of meat fat which still marked the spot, began coating his bonds with the grease.

"Why . . . er . . . why are you doing that?" the old man whispered.

Vilak continued vigorously rubbing his fingers against the strips of hide. "To attract any rats which might happen to be around and let them gnaw me free. The way the ants did when we were prisoners in that camp near Porto Verde. Or perhaps attract the ants themselves. We've got to get out of here."

He coated Nunnally's fetters in the same fashion. All night they lay silent, afraid to speak and so frighten off some chance rat who might be their unwitting savior. But no rat and no ants came.

(To be continued)

Sick Headaches!

"For several years I suffered with severe Constipation . . . was a nervous wreck, had terrible headaches . . . 'Fruit-a-tives' saved my life."

OUTLINE OF SCIENCE

CCXXXII—The Plot to Free Napoleon.

by MAX HAHN

A PLOT TO FREE NAPOLEON FROM HIS EXILE ON ST. HELENA CENTERED ON A SUBMARINE. ACCORDING TO THE PLANS WHICH HAVE BEEN REVEALED, SOME FRIENDS OF NAPOLEON OFFERED A BRITISH SMUGGLER $300,000 TO RESCUE THE FORMER FRENCH LEADER.

PART OF THE PLANS CALLED FOR THE SMUGGLER TO BUILD A 100-FOOT SUBMARINE EQUIPPED WITH TWO MASTS WHICH FOLDED DOWN CLOSE TO THE CRAFT WHEN NOT IN USE. THE SMUGGLER WAS SCHEMING TO REACH THE VICINITY OF ST. HELENA AFTER NIGHTFALL. © McClure Newspaper Syndicate

THE PLOTTERS DEVELOPED THEIR SCHEME CAREFULLY. HAVING SAILED NEAR ST. HELENA THEY PLANNED TO SUBMERGE, GLIDE UNDER THE BRITISH GUARDSHIPS AND SEND A CREW TO LAND. THEY FELT SURE THAT THE CREW COULD MANAGE THE SINGLE SENTINEL WHO MIGHT BE ON DUTY.

THE SCHEMERS PLOTTED IN VAIN. THE HUGE SUBMARINE HAD BEEN VIRTUALLY COMPLETED WHEN WORD OF NAPOLEON'S DEATH WAS RECEIVED.

HERE'S TO YOUR HEALTH

GREEN CORN FOR CONSTIPATION.

Those who are persistently troubled with constipation will find green corn to be of great help in overcoming this disorder of civilization which is so responsible for creating disease. The intestines of those who are constipated are usually bloated entirely out of their normal shape and, consequently, a large amount of bulky foods must be used in order to properly fill the intestines so that normal peristalsis will be promoted. Bran is often recommended for this purpose, but there is grave danger of the bran being too scratchy and thus further irritating the intestines. It is apparent that colitis is often caused from using too much bran in an effort to cure constipation. Green corn contains a large amount of soft, pliable cellulose which is only partially digested in the intestines, but has even more value because of this fact, as it supplies bulk which is filling but not irritating.

Green corn contains a much larger proportion of mineral salts than that found in cornmeal or in dried field corn. Its potassium alone is four times the amount in ordinary corn flour. Green corn is listed as a starchy food but, when young, the starch seldom reaches a percentage of one fifth of the total bulk. Whole cornmeal is 68 per cent starch, while the ordinary bolted cornmeal is 10 per cent higher than this in starch. Green corn, being something under 20 per cent starch, gives us a carbohydrate food which is very palatable, yet does not burden the system with excess starch.

It is quite safe for anyone troubled with constipation to use corn on the cob once a day during the summertime, always combining the corn with some of the green vegetables, such as spinach, asparagus and string beans. Add also a salad vegetable, as celery or young carrots. Avoid acid fruits near the "corn" meal, including tomatoes, which are really an acid fruit. The average person can thus use three or four small ears of corn at a meal, with none but the most beneficial results.

Questionsand Answers.

Question: Sixteen writes: "You have helped me before, and I sincerely hope you will help me again. Please advise me what I can do for flat feet and a large stomach."

Answer: Reduce the size of the abdomen by cutting down your food supply and taking the "setting-up" exercises twice daily. At the same time, use the exercises I recommend for correcting fallen arches: Stand barefoot, with both feet on a large book and try to grasp the edge of the book with your toes. Also, while taking your daily walks try walking pigeon-toed about half the time.

Question: Barbara writes: "In your Saturday menus you always give "raw" cabbage, but I never see "cooked" cabbage. I thought cooked cabbage a good non-starchy vegetable."

Answer: Cooked cabbage is a great gas-producer, and even though it contains many valuable minerals, it should not be used if any of the "good" greens, such as spinach, asparagus, string beans, or squash can be secured. Excessive gas pressure is the common cause of so many functional disorders in the stomach and intestine that all gas-forming food should be avoided.

Question: V. G. writes: "Will you please tell me at what age a child should be allowed to have meat?"

Answer: At the age of two years the child may be given finely minced lean beef, mutton, chicken or rabbit, in combination with as much as desired of the non-starchy vegetables at the evening meal. And remember, no milk with this meal.

Lyrics Of Life

(By Douglas Malloch.)

A DOG'S LIFE.

We have a pup, a yellow pup,
His friend and guide I mean to be;
But when I stop and figure up
I find the pup is teaching me.
With all his mischief now and then,
I try so vainly to prevent,
I've learned to judge my fellow men
Not by their deeds but their intent.

He does the things no puppy ought,
He tore a rug, he chewed a hat,
And wagged his tail, because he thought
That hats and rugs were meant for that.

And, when I told him otherwise,
And punished him with heavy hand,
He looked at me with hurt surprise
And found it hard to understand.

A dog's life and the life of man
Are not so different, I guess;
We mean to do the best we can,
And yet we blunder more or less.
Poor Scotty means well all along,
He only wants to romp and run;
But I must teach him right and wrong
Although it's spoiling half his fun.

COGS TIGHTEN HOLD ON FIRST

Defeat Crescents 6-1 in Abbreviated League Game.

MAKE HITS COUNT.

The Cogs strengthened their hold on first place when they defeated the Crescents in an abreviated-contest by the score of 6 to 1. The game did not get away until 6.45 owing to the late arrival of the Cogs, and, not to disappoint the fans, Manager Brioux went ahead with the game.

A base on balls, a wild throw by Armstrong, and a single cored the Cogs' first run. The Crescents failed to score.

In the second the Cogs scored five runs, due to three singles coming after Armstrong had hit one and walked another, and an error by Ranger. Billingsley then took up the mound duty and was not scored upon in three and two-third innings.

The Crescents' lone rally came in the third. LeBarr walked, stole second, and scored on J. Jones' single.

The summary:

Cogs—	AB	R	H	PO	A	E
Williams, 3b	3	1	1	1	1	0
Crary, 2b	2	2	1	0	0	0
Cripps, cf	3	0	1	0	0	0

	17	1	3	15	7	3

Cogs	15000—6
Crescents	00100—1

Two-base hits, J. Jones; hits off Armstrong in 1 1-3 innings 4, off Billingsley in 3 2-3 innings, 1; base on balls, Armstrong 2, Billingsley 2, Vannest 2; hit batsmen, Armstrong 2; struck out, by Armstrong 1, by Billingsley 3, by Vannest 10; losing pitcher, Armstrong.

Umpires — L. LeBarr and E. LeBarr.

Theatres

AT THE REGENT.

"EXIT SMILING."

A Canadian actress, Lady Peel, better known to the theatre-going public as Beatrice Lillie, is the star of "Exit Smiling," the feature picture of the Regent Theatre for the middle days of this week. This is an ideal warm weather picture, with plenty of unexpected and real laughter coming from the audience over the situations in which Vi (Beatrice Lillie) acts as the main character.

It is a story of small town "troupers," the "ten, twenty, thirty" stock company that travels from town to town, putting on melodramatic creations like "Flaming Women" and "Shattered Hearts." The life of the troupers, and their grotesque manner of existence, is reproduced faithfully, with Vi, the maid of all work, and minor actor in several of the dramas, as the spotlight character. Vi yearns for a chance to exemplify her talents in a "vampire" part, but is condemned to act as the maid. However, she is perennially cheerful and acts as a benefactress to Jimmy Marsh (Jack Pickford) a young man who has been falsely accused of stealing bank funds, and who leaves town in a hurry. He is added to the troupe and becomes the object of Vi's love. Through a series of accidents, she helps him to right himself in the eyes of his small-town sweetheart. There is one scene of pure comedy, in which Vi enacts the role on the stage of a man and does some terrible work as the hero of "Flaming Hearts." Later, she has a chance to do the "vamp" stunt she has been longing for, and saves Jimmy into the bargain. However, "Exit Smiling" has one major fault. It has an unsatisfactory ending, but that lives up to the title.

—Jeanette.

BABY CROSS ALL THE TIME

Eczema on Face and Body. Cuticura Heals.

"My baby's face and body were covered with eczema. It broke out in blisters and sore eruptions, and he could not sleep on account of the irritation. I had to keep mittens on his hands to keep him from scratching. He was cross all the time, and his clothing aggravated the breaking out.

"I used other remedies but they did not help him. I began using Cuticura Soap and Ointment and in a few days I could see a change, and in about a month he was healed." (Signed) Mrs. Katie Davidson, Flat Lake, Alta.

Cuticura Soap, Ointment and Talcum are ideal for daily toilet uses.

Sample Each Free by Mail. Address Canadian Depot: "Cuticura Lab, Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c.

Cuticura Shaving Stick 25c.

OUR BOARDING HOUSE — By Ahern

SWIMMING SIMPLIFIED

KNOWING WHICH SIDE IS EASIER TO ROLL ON HELPS BREATHING

By James A. Lee.

We will now take up breathing in the crawl stroke form of swimming. When you are able to take a few double-arm strokes without a let-up, proceed to practise breathing. It will be easy if you have practised the breathing exercise given you in the first lesson.

First, try a few more strokes and find out on which side it is easier for you to roll, as that will be your natural side for inhaling. Follow the customary procedure, push off, stretch out, set the legs in motion by rapid thrashing, sweep down and back with the arm on the side you have chosen for inhaling. When this arms nears the thigh apply pressure with the other arm, now emerging from the water.

As the first arm moves forward above the surface, take a quick, deep breath. Then, as the second arm completes its drive, press down with the first, twist the head back to normal position; roll back flat, and exhale through the nostrils under the water, holding the head straight, while the arms glide forward in recovery.

To help you in breathing look upward while rolled on the side. That will help raise the mouth clear of the water. Practise this faithfully so as to have little difficulty in the breathing.

TO-MORROW: Arm Action in the Crawl.

COGS AND RAYS PLAY NEXT GAME

Brake-liners Only Team With a Win Over League Leaders.

Cognawagas, who turned in another victory against Crescent's last evening, will engage Raybestos at Exhibition Park tomorrow evening. The Rays hold the only win of the season over Cogs and the fans will see an exciting game.

The Chinese Post Office is interested in the possibilities of photo-telegraphy in the transmission of Chinese characters, which can not be sent by Morse code.

LAWN BOWLING

The regular weekly tournament of the Brock Street Bowling Club will be held on the greens tomorrow night for the usual prizes of silverware and bowling measures.

LOCAL BOWLERS WIN AT COBOURG

George Cairns' Rink Brings Home Griffin Primary Trophy.

COBOURG, July 14.—With 33 rinks competing, coming from Toronto, Belleville, Peterborough, Lindsay, Whitby, Port Hope, Warkworth, Campbellford, Cannington, Oshawa and other towns, the annual tournament of the Cobourg Lawn Bowling Club opened here yesterday.

The trophy for primary events is the Griffin Cup and for consolation the McCook Cup, along with valuable prizes offered by the Cobourg Club to the individual winners. Play was as follows:

GRIFFIN CUP

Preliminary

Cobourg:		Peterboro':	
A. E. Hooper	6	Donaldson	12
First Round			
Oshawa:		Cannington:	
Goodman	15	Linvingston	10
Cobourg:		Peterboro:	
Middleton	10	Sedgewick	13
		Cannington:	
Grant	11	McLeod	14
Cobourg:		Peterboro:	
Skitch	6	Waddell	9
Lindsay:		Port Hope:	
Brennan	17	Rosevear	20
Belleville:		Port Hope:	
Haffner	13	Greenwood	19
Peterboro:		Port Hope:	
Cairns	15	W. H. Hopper	4
Belleville:		Port Hope:	
Gardner	16	W. Oke	2
Cobourg:		Peterboro:	
Delany	11	W. J. Oke	13
Lindsay:		Whitby:	
Mackay	12	Cooke	16
Bowmanville:		Peterboro:	
Carruthers	13	Johnson	9
Toronto:		Belleville:	
Taylor	14	Bleeker	6
Cobourg:		Campbellford:	
Fluker	8	Wiggins	6
Cobourg:		Warkworth:	
Troop	13	Allen	9
Cobourg:		Peterboro:	
Hancock	11	Donaldson	13

In the final, G. Cairns' rink of the Peterborough Bowling Club won the Griffin Cup. The rink was composed of G. Cairns, Jack Fitzpatrick, Reg. Fox, and Jack Bacon.

J. Sedgwick's rink lost out to a rink from Warkworth in the consolation series, the game going an extra end.

SHARKEY ON VACATION

Jack Sharkey, the Boston heavyweight contender, who is to fight Jack Dempsey on July 21, is seen here in natty naval attire playing at controlling the ship taking him to Nova Scotia for a fishing trip on the Tusket River.

DELORO LOSES GAME AT HOME

Point Anne Wins Out By Four Runs to Two.

RAIN HALTS GAME.

BONAR LAW, July 14.—After leading at the end of the fixture by a solitary run, Deloro lost their game with Point Anne on the home diamond on Wednesday by the score of 4 to 2. The play had to be halted at the end of the sixth on account of rain.

A feature of the second innings was Maracle's brilliant catch of Brown's high fly to left. Runs seemed an impossibility till the homesters went to bat in the sixth. Leal and Bennett were both pitching good ball and received the best of support.

Deloro's first run was thus obtained. After J. Quinn and Regan had both grounded out, A. Quinn singled to centre, stole second and went to third on a wild ball. Boudreau walked and Jack bunted, scoring Quinn. Boureau stole third and Hughes fanned.

The seventh was scoreless. In the eighth Weir walked. Maracle lofted to Brown. Goyer batting for Hutchings walked. Blakely's double to right scored Weir. Cretney doubled to right, scoring Goyer and Blakely. Bennett grounded to Regan, Cretney being out sliding to third.

Deloro came near equalizing in their half. Regan grounded to Weir. A. Quinn tripled to centre. Boudreau popped to Gaulin. Jack walked. Hughes singled, scoring A. Quinn. Jack and Hughes stole third and second respectively. In trying to steal home Jack failed through forgetting to slide.

In the eventful ninth the Cement Boys increased their lead. M. Green scoring on a double by E. Green. Leal was replaced by Wood and further scoring was arrested.

Deloro's last innings was short lived, the honors going to Point Anne for the second game of the season. Only a moderate crowd viewed the game. Teams:

Point Anne—Blakely, s.s.; Cretney, 1b.; Bennett, p.; Gaulin, 3b.; M. Green, c.; Weir, 2b.; Maracle, lf.; Hutchings, r.f.; Goyer, r.f.

Deloro—J. Quinn, c.; Regan, 3b.; A. Quinn, 2b.; Baudreau, r.f.; Jack, s.s.; Hughes, 1b.; Bond, c.; Brown, lf.; Leal, p; Wood, p.

Umpires—Collins on bases, Gerow at plate.

Score by innings:			R.	H.	E.
Point Anne	000000031		4	4	2
Deloro	000001010		2	10	2

WARKWORTH WINS IN CAMPBELLFORD

Defeats Home Team 7-5 in a League Baseball Game.

CAMPBELLFORD, July 14.—Warkworth defeated Campbellford on the home diamond in an exciting game of baseball yesterday afternoon. Rain started in the fourth inning, but the game was carried through the nine innings, resulting in a 7-5 score in favor of the visiting players.

Much excitement was caused by one of the Campbellford players, Charles Holmes, falling unconscious at the plate, having been struck on the right temple by a ball off his own bat. After much hard work Holmes was brought around and took his next turn at the bat. He was struck out, and on taking his seat on the bench he fell over and was carried in an unconscious condition to his home.

The game was a good exhibition of baseball, each player being on his toes throughout the game.

The line-up:

Warkworth—Zufelt, p; Wilson, c; Zufelt, 1b; Scriber, 2b; Samis, 3b; Thompson, ss; Duncan, cf; Jones, rf; Dawson, lf.

Campbellford—Ibey, p; Cowell, c; Maybee, 1b; Holmes, 2b; Horkins, 3b; Cook, ss; De Carroll, cf; Fox, rf; Bradley, lf.

Umpires—Samis and Reynolds.

Score 7-5 in favor of Campbellford.

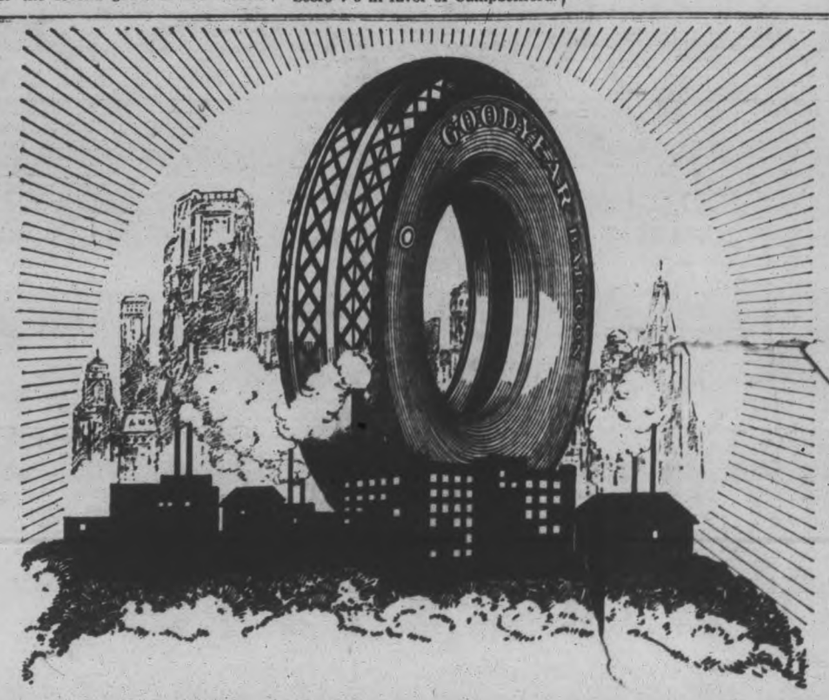
500 EXECUTED.

London Newspaperman Returns From Russia With Report on "Terror."

LONDON, July 14 (United Press).—[illegible] Greenwall, special correspondent of the Daily Express, who has just returned from Russia, declared that in the recent "terror" throughout the Soviet Union, 500 persons were executed and between 200 and 300 arrested.



the world's greatest sale

makes possible

the world's greatest tire

FOR ten years Goodyear has made and sold more tires than any other company in the world. Today its total sales of *all products* exceed the total sales of any other rubber company.

More people ride on Goodyear Tires than on any other kind. More people walk on Goodyear rubber heels than on any other kind. More Goodyear rubber belting is used in industry than any other kind. More Goodyear rubber equipment is supplied to aviation than any other kind.

One of the youngest of all the great companies in a world-wide industry, Goodyear is already the leader—with a leadership gloriously earned. Canada's three large factories—New Toronto, Bowmanville, St. Hyacinthe—supplemented by nine other factories throughout the world—are building, stone upon stone, the mighty structure of this industry.

And throughout the world, wherever motor cars run, Goodyear Tires are receiving the ultimate and final test—the test of use. Where the tropic sun beats down on glaring sand; where tortuous roads climb grim mountain faces; on city pavements and country gravel; over snow and ice, through mud and water—the story is written, day after day, of Goodyear stamina and strength.

More! A story is written which Goodyear engineers read eagerly—the story which leads to major tire improvements. All the experience of this world-wide use of millions of Goodyear Tires is focused down on the design of the new Goodyear All-Weather Tread Balloon—*the world's greatest tire.*

World-wide use supplied the records which enabled Goodyear to develop the new All-Weather balloon tread—a tread which overcomes every balloon tread fault. It wears slowly and evenly, runs quietly and smoothly; grips the road and hangs on.

World-wide use supplied, also, the records which enabled Goodyear to design SUPER-TWIST, the cord which, in itself, stretches 61% more than old-style cord and so gives Goodyear Tires greater resistance to blows of the road.

World-wide use supplied the records which enabled Goodyear to design the new SUPERTWIST balloon carcass.

This great new tire does have the world's greatest sale simply because it is the world's greatest tire. It is sold by Goodyear Selected Dealers at prices no higher than you are asked to pay for other tires.

WATER TRIP TO LINDSAY

Steamer Stoney Lake Has Two Trips Booked For This Month.

MONDAY, JULY 18 AND 25.

On Monday, July 18th, and on Monday, July 25th, the steamer Stoney Lake is running a round trip to Lindsay.

As a change from motor trips, the sail around to Lindsay should be most enjoyable.

The boat will leave the George Street Wharf at 7.30 a.m., going over the Lift Lock, up the Canal, and through the Kawartha Lakes, to Lindsay, where it is met by a special train, bringing the excursionists back to Peterborough.

The Kawartha Lakes, even to those who have enjoyed this trip previously, are becoming each year more popular from an excursion point of view.

There are hundreds in the city who have not yet taken the water trip to Lindsay, and either of the above dates would be a good opportunity for them to see the beauties of our northern waters.

Two New York Men Leave For Northern Quebec Seeking Wreckage.

FIGHT IN OTHER PARTY.

CHICOUTIMI, Que., July 14 (Canadian Press).—Nothing is expected to be known in connection with the latest search for Nungesser and Coli, missing French airmen, until the return of H. W. Smith and L. O'Reilly, New York screen news men, who yesterday left for the interior of Northern Quebec in an attempt to reach the spot where Indians said was to be found the wreckage of the white airplane. The Indians said a week's tramp will be necessary to reach the spot.

Quarrel in Party

ST. JOHN'S, Nfld., July 14 (Canadian Press).—Upon the outcome of a scheduled conference in New York City some time this week rested today the future of the Guggenheim airplane search for the missing French trans-Atlantic fliers, Nungesser and Coli, which has been carried on here for the past month by Major F. S. Cotton.

Dissension in Major Cotton's party was admittedly responsible for the termination, at least temporarily, of the work.

Charges by James McPhail, Cotton's former mechanician, who came here two weeks ago that Cotton had utilized the expedition to photograph forest country for possible use by lumber companies rather than to hunt for the fliers were answered today by the aviator's friends, who declared them untrue.

WRECKAGE REPORTED.

ST. JOHN'S, Nfld., July 14.—(Canadian Press.)— Word received from St. George's this afternoon that an Indian had sighted wreckage in a lake forty miles from Robinson's, in the Trinity district, believed to be from the White Bird, the lost aeroplane of the missing French aviators, Nungesser and Coli. Major Sidney Cotton, who has been conducting an aerial search for the lost airmen, is investigating.

CHEMONG PAVILION POPULARITY CONTEST

A Novel Idea — Most Popular Young Man and Young Lady Each Get a Gold Wrist Watch.

The management of Chemong Pavilion has hit upon a very novel idea in the putting on of a popularity contest that gives the young man who is the winner a gold wrist watch and the young lady winner a gold wrist watch also.

Books of dance tickets have been issued, and each purchase entitled the holder to 50 votes and to dance as well. Votes can be given for both the young man and young lady on the same ballot, and the standing will be shown on the board at the Pavilion each Wednesday and Saturday.

The Pavilion dance orchestra is pronounced to be one of the very best that has been in this vicinity for some time, and it is being appreciated by the fine attendance at the nightly dances.

REPORTS DIFFER ON 'QUAKE DEAD

No Reliable Information Yet Received From Stricken Districts.

SURVIVORS FLED.

LONDON, July 14. — Canadian Press. — Various reports from the Holy Land earthquake zone differ widely as to the number of persons killed and injured. The latest trend is to discount the large figures given in some of the earlier despatches from Cairo of more than a thousand dead.

The news from the stricken area continues fragmentary and no reliable story covering the whole disaster is available. One person who visited Esault returned with the report that the place was completely deserted on Tuesday, the inhabitants having fled to the surrounding mountains

The giant auto-drome with Miller Bros' Shows, playing in Peterboro all this week at the Fair Grounds. This is said to be the largest portable drome in the show business. Miniature racing automobiles are used instead of motorcycles. The intrepid drivers are "Happy" Graff, "Wild Bill" Walters and "Cannon Ball Gledall.

Business with Miller Bros.' Show is increasing nightly.

HON. E. BRISTOL DIES IN TORONTO

Prominent Conservative Passes Away After Long Illness.

WAS M.P. 21 YEARS.

TORONTO, July 14. Canadian Press. — Hon. Edmund Bristol, K.C., former member of Parliament for East Centre, Toronto, died early today after a lengthy illness. He represented the constituency as Conservative member in the Dominion Parliament from the time of the bye-election in 1905 until 1926. He did not contest the last general elections. He was 66 years of age and was born in Napanee.

Mr. Bristol was educated at the Napanee High School, Upper Canada College, and the University of Toronto, where he graduated in 1883 in first class honors in Classics. Three years later he was called to the bar at Osgoode Hall, and was created a King's counsel in January, 1908. In the practice of his profession he became a recognized authority on company and international law. He was interested in many companies and was a director of the Inverness Railway and Coal Company, the Northern Navigation Co., the New England and Crifton Copper Co., the Dominion Steel Corporation, Canada Steamship Lines, and the International Railway and Contract Corporation.

He was interested in politics from early manhood and soon won his way up in Conservative circles of Toronto. In 1905 he was chosen to succeed the late E. F. Clarke, in a bye-election as member of the Dominion House of Commons for Centre Toronto. For this seat he was re-elected at the Federal elections of 1908, 1911, 1917 and 1921; and for East Centre Toronto in 1925. On account of business and ill health he did not run in the 1926 election. As an organizer and executive Mr. Bristol held a high position in his party, and in 1920 was chosen by his fellow members as chairman for National Campaign Committee. In September, 1921, he joined the Meighen government as Minister without portfolio.

In religion Mr. Bristol was a member of the Church of England.

HEAT KILLS 20 AND STORMS 3

Slightly Cooler Weather Predicted For Eastern U. S. To-night.

NO RELIEF YET.

NEW YORK, July 14.—(Canadian Press.)—Twenty persons in cities in the east were killed by heat in the last twenty-four to thirty-six hours, it was ascertained from compilations made here to-day.

Three others in New England towns were killed in electrical storms which brought only temporary relief to the heat blanketed section yesterday. Although predictions were for slightly cooler weather to-day, forenoon temperatures gave little evidence of relief.

GOOD REPORTS ABOUT FISHING

Fish and Game Association Has Heard No Complaints About Scarcity.

GOOD CATCHES MADE.

Favorable reports have been received by the local Fish and Game Association concerning the catching of fish in the district waters by tourists and Canadian cottagers alike. The fish this year are in abundance, and from no source as yet has come any report of scarcity in the surrounding waters.

ITALIAN DELEGATION LEAVES FOR OTTAWA

Will Attend World's Poultry Congress in Canada This Summer.

ROME, July 14 (United Press).—The Italian delegation to the Ottawa Poultry Congress, headed by Prof. Alessindro Brizi, director-general of agricultural services in the Ministry of National Economy, left to-day for Canada.

NOTE OF HOPE IN ADDRESSES OF DELEGATES

Temperate Tenor in Speeches Given at Plenary Session To-day.

POSITIONS EXPLAINED.

British Spokesman Says Country's Case Has Been Misrepresented.

GENEVA, July 14. Canadian Press. — The plenary session of the tri-partite naval conference to-day, which had been looked forward to with much speculation by observers, came to an end to-night with no rupture of negotiations. On the contrary, all the speeches made by the officials representing the United States, Great Britain and Japan, although they unequivocally explained various positions on the cruiser problem, were temperate in tenor, and breathed a note of hope that the conference would eventually succeed.

Good Relations Maintained.

Right. Hon. W. C. Bridgeman, the First Lord of the Admiralty, and head of the British delegation to the tri-partite naval conference, speaking at to-day's plenary session, declared that nothing had occurred at the conference which imperils the good relations between the nations represented.

Mr. Bridgeman said that the British delegation had asked for a plenary session because it believed that the atmosphere of the conference was being vitiated by the gross misrepresentations of the British case in certain quarters. He said that some trouble had been caused by parties who would rejoice at the failure of the conference.

Even if no agreement were possible on cruisers he declared, it would be worth while to reach an agreement on destroyers and submarines.

Before Mr. Bridgeman began his address, Admiral Jellicoe, a member of the British delegation, presented a justification of the British cruiser needs, saying that it was difficult to reduce them in view of the responsibility of the navy to the Mother country and Dominions, and land communications, which must be protected.

Japan Seeks Success.

TOKYO, July 14. Canadian Press. —Premier Tanaka, conferring with the United States ambassador McVeigh to-day, declared emphatically that Japan intends to fight to the last ditch for the successful termination of the tri-partite naval conference at Geneva.

DEVELOPING TRENT TO BE DISCUSSED

At Annual Meeting of Waterway Association Here To-morrow.

The seventh annual meeting of the Trent Waterway Development Association will be held in Peterborough, on Friday, commencing with luncheon at the Empress Hotel, 12.30 noon.

President Fowlds has requested that the officers and directors endeavor to bring from each district delegations comprised of municipal officers and others interested in tourist and Trent development.

During the business session, which will follow the luncheon, an opportunity will be given the delegates to bring up for discussion matters of local interest and of interest to Central Ontario.

An eastern designer annually makes more than 100 different cuts or patterns, each an eighth of an inch square, for conductors' punches.

NOTICE

Applications will be received up to July 18 for the position of

W.M.S. BIRTHDAY PARTY

The annual birthday party of the Women's Missionary Society of Lakevale church, Fowler's Corners, was held at the home of Mrs. Charles Rutherford. About sixty attended. Three quilts were quilted after which lunch was served and a very enjoyable afternoon was spent.

EXCURSIONISTS HERE.

Quite a number of citizens of Fenelon Falls were in the city yesterday. An excursion by boat from that point picked up a number of excursionists along the route to Chemong, where Cooney and Jopling busses met them and motored to Peterboro, where they spent several hours in sight seeing and shopping.

TRUTH VERSUS ERROR.

To tell the people the truth, one must know what is the truth. Is it true that the dead are to be raised up to life again? Satan and many of the clergy say it is not true. God says that is is true. It is manifest that there could be no resurrection of the creature, unless that creature first dies. If there is no death, then a resurrection would not only be useless, but impossible. We are told that man is immortal. An immortal creature cannot die. The people have looked and do still look upon the clergy as the ones who can speak with authority in matters pertaining to religion; hence the people have been and are led to believe that every man is an immortal soul or has an immortal soul. Such belief nullifies the doctrines of the resurrection of the dead. Without a resurrection there is no eternal life for any of the human family. Satan has used man to teach that the dead are not dead, hence destroying the doctrine of the resurrection. Jesus died and was in hell three days. Hell is not a place of torment, but means the condition of death. After the resurrection Jesus stated: "I am He that liveth and was dead; and behold I am alive for evermore." Even today some of the clergy still teach that every man when he dies goes immediately either to heaven, hell, or purgatory, and that he is conscious from the moment of death. If these statements were true, then the doctrine of the resurrection is false. A creature who is alive in any place could not be resurrected. Some of the clergy teach that there is no death. Satan said the same thing to mother Eve. False doctrines will not stand the light being thrown on them, and that is the reason teachers of false doctrines hurl vituperative epithets at those who proclaim the truth.

HAWKINS LEADING HIS TEAM-MATES

Has 99 Out of 100 in Prince of Wales' Competition at Bisley.

BISLEY CAMP, Eng., July 14 (Canadian Press).—Quartermaster - Sergeant W. A. Hawkins, Toronto, led the Canadians with a score of 99 out of a possible hundred in the shoot for the Prince of Wales prize of five hundred dollars and the National Rifle Association badge at Bisley to-day.

SMITH ON WAY.

Takes Off In Monoplane City of Oakland For Hawaii.

OAKLAND, Calif., July 14 (Canadian Press).—The silver winged monoplane "City of Oakland," manned by Pilot Ernest L. Smith and Navigator Emery Bronte, took off here at 10.40 a.m. to-day for the 2,400-mile flight to Hawaii.

ST. JOHN'S CHOIR PICNIC IS SUCCESS

Choristers and Friends Hold Annual Outing at Cobourg.

The annual picnic of St. John's Church choir was held yesterday when over sixty members and friends journeyed by car and bus to Cobourg. The weather man was kind and an ideal day was spent in enjoyment of games of cricket ,softball, and a programme of sports Meals were served at the British and New Dunham Hotels, and left nothing to be desired. One member was seen reclining in a restful attitude after dinner, which suggested absolute contentment.

The sports programme was run off in the afternoon, and apart from the keen interest it afforded to all, also proved a means of stimulating appetites for the evening meal.

The 75 yards race for boys 12 and over was won by 1, Bob aDrcy, and 2, N. Stanger. Boys under twelve, 1, R. Pitchford; 2, J. Patterson. Three-legged race, 1, B. Darcy and M. Comstock; 2, W. Wheeler and J. Patterson. Consolation race, 1, D. McPherson; 2, W. Howell. Married ladies' race, 1, Mrs. L. Groombridge; 2, Mrs. D. J. Eldred. Single ladies' race, 1, Miss B .Massey-Cooke; 2, Miss A. Rutter. Balloon race, 1, Miss A. Rutter; 2, Mrs. L. Groombridge. Ladies' time race, 1, Miss B. Massey-Cooke; 2, Mrs. D. J. Eldred. Skipping contest was won by Miss Stevens with a total of 118 to her credit. Gent.'s one-legged race, 1, J. Gore; 2, Rev. Dr. Blagrave.

The annual rivalry for honors in the tug of war was just as keen as ever, and the ladies seemed most anxious to reverse the decision gined by the men last year. For a while it almost seemed as if they were to succeed and they only gave ground (very unwillingly) after strenuous efforts on the part of the men.

The boys, inspired no doubt by the success of their elders, sought to emulate them, but found to their sorrow that the ladies had far more endurance than they thought possible

The nail driving contest proved the ladies quite capable of using a hammer, and there were no finger casualties.

The end of a perfect day was realized by boys refusing ice cream and the safe arrival in the port of Peterborough at 10 o'clock.

Prizes were kindly donated by W. J. Kent Drug Store, Grafton Clothing Co., Ltd., Chas. Coleman, R. Fair, A. Gibson, V. Tully, W. H. Lacey, Bond's Drug Store, F. L. Roy, A. P. Brown Co. and Mr. F. Hungerford. Persons who used their cars for transporting the choir were Rev. Dr. Blagrave, Miss V. Bell, Mrs. Wm. Comstock, Mrs. H. W. Darcy, Messrs. H. W. Morphet, S. E. Mahood, and F. G. Mann.

MORE FLYERS.

CURTISS FIELD, L.I., July 14. — A five-fold increase in the interest displayed by the general public in aviation followed Col. Lindbergh's flight to Paris, according to M. M. Merrill, superintendent. The average number of pupils applying for flying instructions used to be about three pupils a week, he pointed out, whereas now about two apply each day.

Weaker Trend To-day On Toronto Exchange

TORONTO, Ont., July 14 Canadian Press). — A decidedly weaker price trend featured the market on the Toronto Stock Exchange to-day. The list on the whole was quiet, with practically every issue that figured in the transactions suffering declines. King Edward Hotel up one point to 41, Consumers' Gas, up one to 179, and Abitibi up ⅛ to 94⅞, were exceptions to the general trend. Brazilian Traction recorded the widest decline of the session when it dropped 3½ points to 158 in a light turnover.

International Nickel, the active leader, declined 1⅛ points to 60⅝. C. P. R. dropped two points to 132. Mackay, a strong feature yesterday, eased 1⅞ to-day to 110⅛. Massey-Harris was fairly active and weaker at 36¼, a loss of ⅝. British Columbit Fishing issues were both weaker, the common easing ⅛ to 18¾ and the preferred ½ to 83½. Distillery stocks were dull.

Amulet featured the unlisted section both in activity and strength, advancing two points to 2.60 in the large turnover.

Mine Trading Light And Prices Weaker

TORONTO, July 14. Canadian Press. — Trading was light and the price tone weak on the Standard mining exchange to-day. The losses outnumbered the gains by a wide margin. Towagmac was the strong feature, selling up 8c to 349. Amulet was the active leader and was stronger, gaining a point to 260.

Area was in demand at 46¾, up ¾.

The dividend paying stocks were all generally weaker. McIntyre dropped 10c to 25.90; Tech Hughes was off 3c to 8.40, and Wright Hargreaves declined 5c to 5.84; Noranda dropped 13c to 2.97; while the Rights gained 2 points to 85; Nipissing moved forward 4c to 5.79.

Operators For Advance Meet Little Difficulty

NEW YORK, July 14 (Canadian Press).—Operators for the advance had little difficulty in today's stock market in bidding up their favorites at will. Improving prices for copper and larger exports following a distinct turn for the better in the steel industry, were regarded as bearing out predictions that business in the last half of the year would soon end. Brokers reported that public participation was the largest in two months or so.

Rails while strong were not so prominent as before in the forward movement, more interest being manifested in the motor, steel, copper, chemical, public utilities, and shipping groups. Some of the conspicuous gains up to early afternoon were Fidelity Phoenix Insurance, 6 points; Continental Insurance and Advance Rumely Preferred 5, Sterling Products 4½, American Smelting 1¾, Market Street Railway Prior Preferred 3½, and Dupont, Union Carbide, General Motors, and Marine Preferred 3.

Some weak spots stood out, including Houston Oil, which fell back about 3 points, and American Zinc which declined 2 to a new minimum price for the year.

Favorable Crop Reports Cause Decline In Wheat

CHICAGO, July 14. — (Canadian Press).—Influenced by favorable crop reports from the North-West, wheat underwent an early set-back to-day. At first, however, the market here responded to an unexpected upturn at Liverpool, accompanied by predictions that European crop estimates would be reduced. Opening at ¼ cent to ¾ cent advance, Chicago wheat subsequently dropped to well below yesterday's finish. Corn and oats swayed with wheat, corn starting 3-8 cent off to 1-8 cent up and later fluctuating within narrow limits. Provisions were firm.

Opening prices were: Wheat, July, 1.43¾; September 1.41½. Corn, July 1.00 1-8; September, 1.06⅝. Oats, July 45 7-8; September, 46½.

MECHANICAL MAN OFFERS REWARD

"Phroso" Claims Perfect Nerve Control—Can't Be Made Smile.

"Phroso" the original mechanical man, is one of the greatest features of the Miller exposition showing all this week in the Exhibition Park. This gentleman possesses wonderful willpower and nerves to be able to accomplish the perfect mechanical stunts in the side-show every evening. In fact, due to long experience, Mr. Phroso is so confident of his nerves that he offers, through the Miller Brothers, one hundred dollars to any person that can make him smile during one of his weird preformances.

In the late fall and winter, Mr. Phroso enters vaudeville, playing all the principal theatres in the world. Before going into vaudeville and carnival work, Mr. Phroso acted in motion pictures with the Universal Company in Hollywood, playing with the noted Charlie Chaplin in "Do and Dynamite," and Harold Lloyd. Mr. Phroso is an Englishman, but has resided in the United States for most of his life.

"I have been in Canada many times," he remarked in an interview with The Examiner last night, "but this is my first appearance in your city which, in my estimation, is an excellent place. The last time that I was in Canada I was playing in a presentation novelty on the stage for the Paramount Company of Hollywood, California.

"My work," continued Mr. Phroso, "is made up of perfect concentration, will-power, and nerve control, and that is the reason that the management is at liberty to offer the prize of one hundred dollars to the person or persons who are able to make me smile during the act. But," smilingly remarked the actor, "Miller Brothers have never been forced to hand over the hundred."

Playing in the same tent with the mechanical man is a magician who baffles the audience with his clever tricks with cards, and also the Chinese torture box, in which a young girl is placed, and swords run through all parts of the enclosure, appearing as if the girl was being cut with every stroke. A two-headed girl in another act also keeps the interest of the crowd to the highest point—an amphitheatre of mystery.

FOLLIES POPULAR.

Tableau Scene Very Popular and Beautiful Spectacle.

"The Follies," a replica of the Follies of New York City and under the personal direction of Mr. Fitzgerald, press agent of the Miller Exposition, is growing very popular with the crowds of citizens attending the Midway as the week goes on. The directors of this show wish to state that there is nothing vulgar whatsoever about the tableau of this show, a posing scene, illuminated with brilliantly colored lamps.

The girl who poses in this scene is a New York artist's model, obtained purposely for this exhibition, and only persons attending the Follies realize the exquisite beauty of this production.

PERSONAL SHOPPING SERVICE! . . .
When you call us and are undecided which preparation or thing to take, we will be pleased to send a number of things for your inspection, and also a Graduate Druggist to explain the merits of each. EXECUTION ANNOUNCED.

Russian News Agency Says Sentence on Spy Has Been Carried Out.

MOSCOW, July 14. — (Canadian Press.)—Sergius Drujelovsky, who was sentenced to death on Tuesday on a charge of espionage and fabrication of false documents against Soviet Russia, has been executed, it was announced to-day by Tass, the Soviet News Agency.

IN MEMORIAM.

HARRIS: In loving memory of Ferden L. Harris, who was drowned July 12th, 1919:
We little thought when leaving home
He would no more return—
That he in death so soon would sleep,
And leave us here to mourn.
We do not know the pain he bore,
We did not see him die,
We only knew he passed away,
And never said goodbye.
—Sadly missed by parents and family.

TWO DROWNED CAUGHT IN TOW OF FREIGHTER

Brother Goes to Rescue of Boy, Both Sucked to Death.

CARRIED OUT IN CURRENT.

Crowd of Companions Watch Tragedy, Unable To Lend Assistance.

WINDSOR, Ont., July 15.— Swept out into the deep water and swift current of the Ship Canal by the suction created by a passing freighter two young Amherstburg lads, Gordon Pettypiece, 12 years old, and his brother Claire, aged 10, sons of Mr. and Mrs. Hilland Pettypiece, prominent residents of that town, went to their deaths shortly before dusk last evening. The double tragedy occurred a short distance below Amherstburg.

The lads, with several other children about their own age, were in bathing near the mouth of the Detroit River. Neither was able to swim more than a few strokes.

The youngest boy, Claire, soon found himself beyond his depth and cried for assistance. His brother, a short distance away, rushed to the rescue and succeeded in obtaining a hold upon the boy's arm, and had started to swim back with him when a big down-bound freighter passed, its suction drawing the struggling boys back into deep water, where both went down in forty feet of water.

Within a short time search for the little bodies was begun, both by dragging the channel bed and with the use of dynamite, but after several hours the search was abandoned for the night. It will be resumed this morning by divers from the Government dock.

The drowned boys were active in Boy Scout work. The family are members of the Anglican Church.

REBELS TRY TO ISOLATE CORK

Cut All Telephone and Telegraph Wires Leading From City.

QUICKLY RESTORED.

LONDON, July 15. United Press.—A Morning Post respatch to-day from Dublin said that revolutionaries attempted to isolate the city of Cork on Wednesday.

They cut all the telephone and telegraph wires connecting the city with the outer world, the despatch said, but communications were quickly restored by the government.

The work was believed to have been done by extreme Republicans, with the intention of aiding to the embarrassment of the government, coming on the heels of the assassination of O'Higgins.

It followed a popular demonstration in support of the government at O'Higgin's funeral.

ROBBERY VICTIMS WANT BAIL MONEY

Ask City To Hand Over Forfeited Bond To Pay Their Loss.

KITCHENER, July 15.— Should the City of Kitchener turn over part of the bail money estreated in a local theft case to the company, claiming that it suffered a net loss of $1,200 as a result of the theft? Mayor E. E. Ratz was yesterday evening instructed to consult the police and the city solicitors for an opinion.

The present situation arises out of the charges of theft and shop breaking heard against Albert Stricker, of Hamilton, formerly of Bridgeport, upholsterer, who disappeared before his trial in the local County Court was completed. Stricker's bail, provided by a brother-in-law, to the extent of $2,000, was estreated, and in compliance with the law, has been handed over to the city.

The Specialty Upholstering Company, city, whose plant was entered on the evening of January 4, 1927, claimed chesterfield coverings found in Stricker's possession in Hamilton, which were valued at $300. After consultation with the Attorney-General's Department the local authorities turned these goods over to the company, which now asks the city to make up the balance of at least $1,000, as the bail money has been paid over to the corporation.

Some fear of creating a dangerous precedent by following such a course was expressed by the members of the council, who reserved their decision.

Newspaperman Finds Out How It's Worked But Information About Wheel Is Expensive

An Examiner man with a few dollars in his pocket and a strong desire to see how some of the games along the Midway at the Exhibition Grounds operate, found out last night.

He made his experiment at one of those booths where the toy horses afford an opportunity for the speculatively inclined to try their luck.

His first attempt was successful, but as the operator continued his sing song: "It look like the six; no, the seven; who's got that red eight horse," the breaks were against the newspaperman. And, in spite of a ready compliance with the operator's advice to "double up," his capital dwindled.

The winner of the first good "pot," who said that he hailed from Toronto and was a visitor for the evening at the Midway advised the local speculator to keep on and showed his good nature by lending him $3.00 to make up the stake.

Needless to say the newspaperman's horse was left at the post so to speak, and his pile, including the borrowed three dollars, was swept into the operator's money box.

A few minutes after, the wheel was running as usual, and out in front playing the game as hard as ever was the obliging "man from Toronto," who had loaned the $3.00.

But, say, how do they keep track of all these transactions when they check up at the end of a night's play?

PLAN TOUR FOR ROYAL VISITORS

Hoped Public Will Do Everything To Make Trip Pleasurable.

WILL VISIT RANCH.

OTTAWA, Ont., July 15 (Canadian Press).—The plans for the tour of the Prince of Wales and Premier Baldwin are being drawn up to provide as far as possible for holidays for the distinguished visitors. It is to be hoped, stated a member of the Government yesterday, that the public would regard the Prince and the Premier as guests of Canada and do everything possible to make the trip a pleasurable one.

So far as an official programme can regulate, the various receptions throughout the country are to be brief with the object of allowing as many as possible to see the Prince and Mr. Baldwin rather than allowing a more limited number to hear public addresses.

It was pointed out yesterday by a Cabinet Minister who has been active in arranging the visit, that Mr. Baldwin is coming to Canada on a holiday trip and while he will speak several times, he will endeavor to secure rest and diversion from his own work during the few days he is to be in Canada. In all he will barely be twenty days in the Dominion.

As has been previously stated, the royal party and the Prime Minister's party will separate at Banff. Mr. Baldwin will return east and the Prince and his brother, Prince George, will go to the E. P. ranch. Once in his own Canadian home, the Prince's visit to Canada in the official sense, is over and His Royal Highness will make his own plans.

ONE VESSEL SINKS AFTER COLLISION

One Man Drowned When Two Steamers Collide in the Atlantic.

NEW YORK, July 15 (Canadian Press).—The Holland-American Line reported the receipt of a message from the captain of the steamer Veendam saying the steamer had collided with the Norwegian ship Sagaland, sinking the latter. One man was drowned.

SWEPT OVER DAM.

Belleville Man Badly Hurt When Swimming in Moira.

BELLEVILLE, Ont., July 15.—John Lupinette, of this city, was severely injured last evening when he was carried over a dam while swimming in the Moira River, just north of the city limits. He sustained a fractured elbow, cuts on the knees and head, and had three teeth knocked out.

Explosion in Forge Injures Blacksmith

OWEN SOUND, Ont., uly 15.—When an explosion occurred at his forge yesterday morning, Joseph Fitzgerald, Owen Sound blacksmith and spring maker, was seriously burned about the face. The force of the explosion can be judged from the fact that the windows were blown out of the shop twenty feet away from the forge.

Mr. Fitzgerald was heating the housing for a drive shaft, when the explosion took place. He was taken to the hospital, but his recovery is looked for.

MANY HAPPY RETURNS.

ALD. NAGLE E. PHELAN
Chairman of the Finance Committee of the City Council, whose birthday this is.

TEN TON TRUCK FOR MARKSMAN

Alex Parnell, of Verdun, Wins Substantial Prize at Bisley.

LIQUOR TO TEETOTALLER.

BISLEY CAMP, England, July 15 (Canadian Press).—Alex. Parnell of Verdun, Que., veteran of the Canadians at Bisley, won a substantial prize today—no less than a ten-ton truck. The truck was one of the "extra prizes" which the National Rifle Association awards for regular seven shot competitions with service rifles, but which marksmen can shoot for only after making an additional entry fee.

When a Canadian Press representative told Parnell of his good fortune he was just lying down at the five hundred yards firing distance in the second stage of the King's Prize.

Blinking through his familiar green shooting spectacles, the Canadian just wondered whether the Dominion Rifle Association would include the cost of the truck along with the cartage expense for the Kolapore and McKinnon Cups, which are also to travel to Canada.

Another extra prize was a case of Canadian whiskey, which went to Sgt.-Maj. J. Dewar. He is a Scotchman but, despite his name, is a teetotaller.

BAND CONCERT

By kind permission of Lieut.-Col. Gordon W. Hall, the band of the Peterborough Rangers will play the following programme in Victoria Park on Friday evening at 8 o'clock:

March—"The Washington Greys" .. Grafulla
Selection—"Songs of the Old Folk".. arr. Lake

(Describing the manner in which "Home, Sweet Home" is played in the following countries: Germany, Spain, Russia, Italy, Scotland, Hungary, China, Ireland, America.)
—Intermission—
March—"Forward Again" .. Rayner
Selection—"A Musical Switch" ..
(by request) Alford
Mexican Serenade—"La Paloma" .. Yradier
Descriptive—"A Darkey's Dream and Bidgood.
"God Save the King."

SLOW VEHICLES DELAY TRAFFIC ALONG STREETS

Police Will Enforce By-law Requiring Them To Keep Close to Curb.

MANY COMPLAINTS.

Chief Newhall Also Issues Warning to Drivers to Get Their Licenses This Week.

Numerous complaints have been received from all parts of the city of teamsters hauling gravel, expressmen, people exercising horses, and other drivers of horse-drawn vehicles keeping right in the centre of the street and holding up all fast moving traffic, Chief Constable Newhall told The Examiner this morning.

The drivers drawing gravel down George Street have caused a great deal of trouble and inconvenience to the motorists recently and as all these actions are contrary to a city by-law, the police are determined to prosecute unless a change is made and the drivers of all horse-drawn vehicles keep as close as possible to the right hand curb and allow the faster traffic to go by.

Many Yet Unlicensed

A large number of motor drivers have not taken out their driver's or chauffeur's license yet. Chief Newhall warns those who have not done so to get theirs immediately, as after the 19th a complete check-up will be made and those found without licenses will be brought before the police magistrate.

People who have to be examined by Harold Dunsford have made a habit of all going there in the evening. Mr. Dunsford would rather that they would appear at various times throughout the day, so that the test will cause as little inconvenience to themselves and to him as possible.

Warning to Cyclists

Cyclists are also warned against carrying adults and children on the handlebars of their bicycles. In these days of so much motor traffic it is a very dangerous practice and so many accidents have occurred from this that the authorities were forced to put a clause in the by-law forbidding cyclists to carry persons on their bicycles or to ride three abreast on the streets.

VIENNESE WRECK HALL OF JUSTICE

Mob Shows Anger at Acquittal of Soldiers in Murder Charge.

VIENNA, July 15 (United Press).—A riotous mob gathered to-day on Schmertin Square, in front of the Palace of Justice, and when it refused to disperse police fired twenty rounds of ammunition.

The exact number of casualties was not at first learned.

In retaliation the rioters removed documents from the Ministry of Justice and set fire to the Court-House. Then they took up positions, preventing firemen from approaching the blazing building. At 3.10 p.m. the mezzanine on the first floor was burning.

The unruly mob was angered by the acquittal of three Fascists who had been accused of murdering two and wounding five Socialists.

Fury spread through the Viennese working class and many workmen downed their tools to march toward the Parliament Buildings.

The workmen then assembled in the Square and shouted epithets at the Ministry of Justice.

"Kill the Fascists, revenge," they stormed.

COTTON DISCREDITS HUNTERS DISCOVERY

Claim To Have Found Wreckage Had Raised Hopes For Fliers.

ST. JOHNS, Nfld, July 15 (Canadian Press).—The spark of hope kindled yesterday when two hunters reported wreckage in the interior which was believed to be the plane flown by Nungesser and Coli was practically extinguished today when Major F. S. Cotton, after talking with the two men, discredited the story.

At a public auction sale in an English town the other day a horse-driven herase in good condition sold for two dollas and a half.

Under a new law in Missouri every public and private school is required to give instruction tin the Federal and State Constitutions.

King George numbers among his people more followers of the Prophet Mohammed than does any strictly Mohammedan ruler in the world.

Battle Ends Town's Council Meeting; Man Black-Jacked, Women Knocked Down

WESTMONT, N.J., July 15.—One citizen is in the hospital today, five or six others are wearing court plaster, the furniture of the Council Chamber is battered and bloodstained and the Chief of Police is facing charges.

The cause of these effects was an argument before the Council last night as to whether invisible government and inside politics had enabled a local political leader to connect his premises with the main by means of an illegal pipe.

Matthew Morris, a heating contractor, started the trouble. He alleged that Thomas R. Edwards, who runs the filling station, could get anything he wanted from the Councilmen. In a voice shaking sewer main by means of an illegal pipe.

"It's an unlawful pipe," he said.

"How did it get there? I say, 'Favoritism'."

Edwards sprang to his feet and rushed for Morris, demanding an apology. The two men clinched. Councilmen and citizens tried to part them. Chief of Police Whitehead drew a blackjack and hit Edwards on the head. There were cries of "Stop them," "Let 'em fight it out," "Kill him!" and "Save him!" The fight became general. Men and women were knocked down. At the end Edwards was unconscious on the floor. Chief Whitehead was badly battered. Charles W. Kaeser, the plumbing inspector, was under arrest for knocking the Police Chief down and jumping on his back.

Orangeman 80 Years; Orono Man's Record

ORONO, July 15.—Almost eighty years an Orangemen is the record held by Robert Fowler of this village. Mr. Fowler who is 94 years of age carried off the prize for the oldest Orangemen in the parade on the twelfth at Bowmanville. He also carried off first honors in Lindsay a year ago.

Mr. Fowler first became an Orangemen at the age of 15 and the lodge joined was Chankhill, Fermanagh county, Ireland. In 1867 he came to Canada and settled in the township of Clarke, Durham County. He is a member of Newtonville L.O.L. 311 and there has been very few celebrations which he has missed in the last 60 years.

AVIATORS ASK FOR ASSISTANCE

City of Oakland Forced To Come Down on Pacific Ocean.

700 MILES OUT NOW.

HONOLULU, July 5.— (Canadian Press.) — Preparations have been started to launch the big Fokker plane in which Maitland and Hegenberger flew to Hawaii from California, to the aid of the City of Oakland.

The Radio Corporation intercepted a message from the City of Oakland giving its position at 7.45 a.m. Pacific time and saying: "We are going to land in the sea. We have a rubber life boat, but send help."

The steamer Wilhelmina, going to the aid of the distressed plane, reported at 7.50 a.m. to Wahiawa radio station, "Plane called us a few minutes ago. Did not give his position. We have heard nothing further."

500 Miles From Land.

The monoplane struck water some five hundred miles from land at 7.45 a.m. and three ships are speeding to the rescue. The liner Wilhelmina, 75 miles from the spot where the monoplane's last S.O.S. was heard, is believed to be closest to the plane.

Steamer on Way.

HONOLULU, July 15. — Canadian Press. — A second message came from the plane soon after it had sent the S.O.S. call, giving its position as seven hundred miles east and north of Paia, Island of Maui, and asking planes and tugs to rush to its rescue.

When the second call was received at 6.20 Pacific time, the steamer Wilhelmina, which was two hundred miles from the distressed plane, had left her course and gone to the aid of the aviators.

Even with a four hour gasoline supply the chances of the plane to reach the land were practically nil. The nearest land was 700 miles away. A four hour supply at the rate they were travelling would carry them scarcely more than 450 miles.

A despatch picked up by the navy here from the monoplane City of Oakland, said that the plane had a four hour supply of gasoline, instead of one hour as previously reported. The steamers President Pierce, Wilhelmina, and the army transport Kenowis, all caught the S.O.S. calls and are speeding to the rescue.

Messages received by the steamers shortly before the call for aid indicated Bronte was attempting to give data other than his position but the operators were unable to decipher the code because of interference.

Bronte kept on sending after giving his position and telling them of fatique but the remainder of the message was lost on the ether.

Alights On Ocean.

SAN FRANCISCO, July 15 (Canadian Press).—A message received by the navy here, intercepted from the airplane "City of Oakland," said it was "landing in the water."

"Landing in water, rush help. About five hundred miles north-east of Paia, Maui," said the message, which was intercepted at 7 a.m. Pacific time.

MAN HURT HERE DIES IN BUFFALO

Ralph L. Darrison Succumbs To Injuries To Foot.

INJURED BY MOTOR CAR.

The Examiner has been informed that Ralph L. Darrison of Lockport, N.Y., injured here in an automobile accident on July 4th, died at a hospital in Buffalo on Tuesday morning.

Mr. Darrison, in company with several other members of the Lockport Rotary Club, was camping on Sturgeon Lake, about seven miles from Bobcaygeon. The party decided to attend the noon luncheon of the local Rotary Club on Monday, July 4th, and motored in to the city. Mr. Darrison, was talking to a friend and was standing near the corner of Hunter and George streets. His foot, placed on a hydrant, was badly gashed when a motor car, driven by a young lady, was driven up on the sidewalk, in an endeavor, it was said, to avoid a smash with another car. Mr. Darrison was at once removed to Nicholls Hospital, where it was later decided that amputation of the foot was not necessary.

He left for his home in the States, on Monday last and passed away, according to his physician, Dr. Kramer of Lockport, N.Y., on Tuesday morning.

HEAT KILLS 44; OTHERS DROWN

Scores Prostrated in Addition To Dead From Heat or Relief.

IN EASTERN STATES.

NEW YORK, July 15 (Canadian Press). — Deaths directly due to the effects of the heat wave under which the Eastern States have sweltered for three days have mounted to forty-four to-day, with scores prostrated and many drowned in seeking relief from humidity.

PLANE WELL ON WAY.

Reported 950 Miles Out at an Early Hours This Morning.

SAN FRANCISCO, July 15. Canadian Press. — The United States army transport Kenowis about 800 miles east of Honolulu, reported to the Radio Corporation here at 3.47 a.m., that she had heard radio signals from the monoplane City of Oakland, but could not get the text of the message.

The plane was reported 950 miles from Honolulu at 4.04 a.m., in a message to the steamer Whawa from the navigator of the City of Oakland.

CANNED WOODCHUCK.

WORONOCO, Mass., July 15. — Nearly dead from suffocation, a woodchuck was found with his head tightly jammed into a tin can. After holes were cut to give the animal air, the can was removed from its head. After lingering awhile to show its gratitude, it wandered away.

Crisis Continues Unabated In Geneva Naval Conference

Public Session Held Yesterday Served Only to Emphasize the Wide Divergencies Now Existing Between Three Great Naval Powers.

GREAT BRITAIN ADHERING TENACIOUSLY TO TONNAGE NECESSITY IN CRUISERS

New Development Is Revealed With Japan's Announcement That She Favors Reduction in the Number of 10,000 Ton Cruisers To 10-10-7 Ratio.

GENEVA, July 15 (A.P.).—The crisis in the Tri-partite Naval Conference continued unabated despite a public session yesterday at which the British, United States and Japanese delegations frankly presented before the world their views concerning the cruiser problem, which may yet cause a split in the conference.

This presentation served only to emphasize the wide divergencies existing and brought out clearly that while Great Britain is adhering tenaciously to her tonnage necessity in cruisers, the Americans and Japanese are struggling to lower that level.

Two features of this solemn and tense session stood out prominently. One was the declaration of Hugh S. Gibson, head of the United States delegation, that an agreement between the three Powers was worth more to all than any technical advantage and that mutual confidence and the feeling of security to be derived from an agreement have more value than any number of guns and ships. He pleaded for a self-denying ordinance freely entered into by the three great naval Powers.

The second feature was furnished by Admiral Jellicoe, who was commander of the British Grand Fleet at Jutland. Basing his contention on his remarkable war experience, he painted a picture of Great Britain absolutely dependent for her life and security on her lines of communication and revealing episodes of the Great War as justification, he pictured the British Empire as at the mercy of hostile raiders in the event of another great conflagration.

This certainly, he said, made it imperative for Great Britain to demand at least seventy cruisers.

Admiral Jellicoe recalled the operations of the German raiders Wolf and Seedler in the Pacific and Indian Oceans and other seas many thousand of miles distant from German ports as proving that the great majority of the many thousands of miles of communication are open to attack in case of war.

Requires More Cruisers

After relating the terrific havoc caused by raiders in the war, especially the Emden and Karlsruhe, Jellicoe, referring to his experience, declared that the problem of effectively watching the big North Sea areas required many more cruisers than were available for him and that he often wished that Providence when creating the world had given the British Isles a more northeasterly trend in order to shorten the distance between the Shetland Islands and the coast of Norway.

The best proof of the inadequacy of the British cruiser strength in the North Sea, he argued, was that despite the excellence of the naval intelligence service, more than 50 per cent of the German raiders succeeded in evading the watching cruisers and two German light cruisers succeeded in attacking and destroying a convoy of merchant ships between Norway and the Orkneys in 1917. He emphasized the necessity of having a sufficiency of cruisers in every danger zone.

Jellicoe predicted that Great Britain's difficulties in the future in preventing the exit of raiders from the ports of any other nation in the world would be multiplied a thousand fold "with the single exception of war with a Mediterranean Power."

Hence, he continued, Great Britain would have to deal with raiders in far greater numbers than in the late war, which makes it all the more imperative that Britain's cruiser strength should, as a minimum, be maintained at seventy.

Favours Reduction.

A new development was revealed at yesterday's session with Japan's announcement that she favours keeping down the number of 10,000-ton cruisers to ten, or fewer, for Great Britain and the United States, and about seven for Japan, which means that Japan sides with Great Britain in its effort to induce the United States to agree to the minimum number of this type of warcraft authorized at Washington.

It was presumed that the United States would want the right to maintain at least 15 of this type cruiser, but Mr. Gibson assured his fellow-delegates that this entirely depended upon the amount of total tonnage.

Mr. Gibson's affirmation that it would be impracticable for the United States to have 25 maximum size

Pitched Ball Kills Batsman In South

MACON, Ga., July 15 (Associated Press).—Pete Mann, third baseman of the Macon baseball team of the South Atlantic Association, was killed instantly yesterday afternoon when struck over the heart by a pitched ball in a game with Asheville. Farrell was pitching. The game was called off.

LIEUT. D. BURKE TIED FOR FIRST

One of Four Making 148 Out of 150 in Second Stage.

SIX CANADIANS ADVANCE.

BISLEY CAMP, July 15 (Canadian Press)—Lieut. Desmond Burke, Ottawa, scoring 148 out of 150, tied with three others for the Silver Medal for the top score in the second stage of the King's Prize today.

Six, and possibly eight, Canadians will be in the final stage tomorrow. The six sure of places include Lieut. Burke, C.S.H. Hawkins, Toronto, and Cadet John Hunter, Hamilton.

IRISH REPUBLICAN COUNTESS IS DEAD

Countess Markevicz Has Long Been Leader in Valera's Party.

DUBLIN, July 15 (Canadian Press) Countess Markevicz, for many years one of the most remarkable personalities in Irish life, died early today. Her husband and stepson, as well as Eamon de Valera, Republican leader, were at her bedside when she passed away.

The Countess, whose activities extended throughout the troubled years when the Irish people were fighting for independence, underwent two operations for appendicitis recently.

WOULD ADMIT RUSSIA.

Lloyd George Recommends Letting Her Into Comity of Nations.

LONDON, July 14 (United Press).—A recommendation that Russia be brought into comity of nations as soon as possible was voiced by Lloyd George, in an address before 100 representatives at the American Institute of International Affairs, headed by Sherwood Eddy.

Chief Papal Honor Shared By Dowling

ROME, July 15. — Supreme Court Justice Dowling, of New York, and George MacDonald, Brooklyn capitalist, were received in special private audience by the Pope, and made Secret Chamberlains of the Sword and Cape, the highest honor conferred by the Papal Court on laymen.

The Pope was most concerned about Mississippi flood damages and activities in Mexico against the Church.

SEVERE STORM IN EAST EMILY

Barn Blown Down and Much Damage Done Yesterday.

ELECTRIC WIRE STRUCK.

OMEMEE, July 14. —Trees blown down and barns damaged marked the trail of the worst electric storm to visit this district in years. The storm passed over the village yesterday afternoon, but was felt worse in East Emily.

Damage by lightning in Omemee was not large. One bolt hit a Hydro wire on Sturgeon street, cutting off electric service from most of the village for some time. At the time it struck, T. J. Parsons was upstairs in his store. He heard an explosion and all the electric bulbs were shattered.

Wind damage in the village was confined to a few trees blown down or damaged.

In East Emily the worst sufferer was Charles Graham, whose barn was demolished. The roof was blown on to a neighboring straw stack and the walls blown down. A valuable bull standing in the stable beneath was penned in by the debris and was rescued by neighbors summoned by his bellowing.

Four hundred yards of fencing on the farm of Harry McIlwain was blown down, a chimney on William Fee's house was blown off, and Wilbert Fee's motor boat was hurled against the bank of the stream and one side crushed in. A hole six feet across was left in the roof of Jerry Wood's barn. Many trees were broken by the wind.

Fishing parties on Pigeon Lake were tossed about by the wind and waves. Members of one party were badly frightened when the engine of their boat stopped and they drifted about in great danger for some time.

ACIDS IN STOMACH CAUSE INDIGESTION

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestents are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

GIVES ADVICE TO MARRIED MEN, THOSE WITH FAMILIES TOO.

If you must take your wife with you, says the sage, take her to some place where she can have a good time without tagging behind you all the day. Bon Echo is a good suggestion because if you do get tired of one another there is always the lake and a canoe to jump into. On one side of the Camp there is a "babies" beach, where the kiddies can walk out a hundred yards without wetting their tummies. On the other side, the real water babies play. There is riding and tennis and hiking, every facility for acquatic sport, good meals and bungalow or "house" accommodation. An outdoor theatre helps cater to the aesthetic.

The station is Kaladar just a few hours from Toronto. Ask any Canadian Pacific Agent for particulars.

A tortoise is said to have walked 200 yards 24 hours after decapitation.

Anyone in Japan who revi les ex t ing laws is subjec to imprisonment rom a month to a year.

DRIVER KILLED WHEN CAR TIPS

Sarnia Man Loses Life Giving Young People Lift Home.

GRAVEL CAUSES UPSET.

SARNIA, Ont., July 15. — While taking three stranded motorists to their home on the sixth line of Plympton Township at 1 a.m. yesterday, Gordon B. Storey, 36, lost his life, and David C. Howard was critically injured when the roadster and its five occupants were overturned on the Beach Road, six miles east of the city. Lillie Lee, aged 14, daughter of Mr. and Mrs. John Lee, was severely injured, while her sister, Patricia, 17, and their escort, Fred Talbot, escaped with a severe shaking.

Mr. Storey, who is a son of Mr. and Mrs. G. W. Storey, of this city, and a member of the firm of G. W. Storey & Sons, wholesale tobacconists, died at 5 a.m. in Sarnia General Hospital. His ribs on the left side had been crushed in. Mr. Howard lies in a very critical condition with internal injuries. He is a son of Mr. and Mrs. F. G. Howard, South Brock Street, and a lawyer in the office of Hanna, Lesueur, McKinley, Lesueur & Dawson. The car struck light gravel and went off the road, overturning three times. Dr. R. G. R. McDonald empanelled a jury yesterday afternoon which visited the scene of the accident and adjourned to July 21.

The late Mr. Storey was vice-president of the Chamber of Commerce Luncheon Club, and a well-known tennis player and past president of Sarnia Tennis Club. He served overseas with the Canadian Mounted Rifles.

CAR SHOP WORKER IS KILLED BY JACK

Handle Flies Back and Hits London Man on Chin.

LONDON, Ont., July 15.—Frederick X. Heasman, aged 47, an employee of the C.N.R. car shops here, was almost instantly killed yesterday morning when the handle of a jack he was operating flew back and struck him on the chin, breaking his neck. Dr. F. R. Clegg, company physician, was called, but Heasman died fifteen minutes after the accident without regaining consciousness.

Heasman and another man were lowering a box car on to the chassis when it lurched to one side, throwing nearly all the weight onto the jack he was working and the handle flew back with terrific force. Heasman came to Canada in 1913, and served in the Great War. He leaves a wife and daughter.

DELEGATES DISCUSS PARLEY SITUATION

Saito and Gibson Meet To Talk Over Present Standing.

GENEVA, July 15. Canadian Press. — Admiral Viscount Saito, of the Japanese delegation, called on Hugh Gibson, chief United States delegate to-day for a general review of the situation existing in the tripartite naval conference which continues stationary.

PRESCOTT, Ont., July 15. — Arnold Rooke, aged 18, son of Mr. and Mrs. Dan Rooke, of this town, was the victim of an automobile accident on Wednesday night, when a car driven and owned by Peter Hall, also of this town, went over an embankment west of Brockville. He sustained a fracture of the right leg at the ankle and the left ankle was sprained, while Hall escaped with minor injuries, but the car was badly damaged.

Arcadia Novelty Company Popular Chautauqua Attraction

One of the interesting attractions of the forthcoming Dominion Chautauqua the Arcadia Novelty Company which will appear here on the first day of Chautauqua. This splendid company's entertainments are notable for the varied diversification of the selections and the artistry and zest with which the selections are given.

This is an unusual company. The four charming young ladies who comprise it are each artists in their own line, and together they present one of the best programs of the season.

Their programs are rich in individual and ensemble numbers of originality and charm. For the instrumental numbers, a violin, piano, cello, xylophone, and cornet are used. Splendid vocal numbers are given, and original costumed song presentations, cleverly interpreted, are featured. In addition, readings, many of them humorous, occupy a favored place on the program.

Lays Foundation Stone For New Masonic Temple

LONDON, July 15.—(Canadian Press.)— The foundation stone of the big new masonic temple for London was laid by the Duke of Connaught yesterday afternoon in the presence of a great congregation of free masons, including a deputation from New York. The building will cost £1,000,000 ($75,000,000) and is intended to serve the dual purpose of providing a great central home for English Freemasonry and of perpetuating the memory of the Free Masons who fell in the war.

INSURANCE FIGURES PROVE INTERESTING

Total in Force in Canada is Now Over Four Billions.

Government reports recently issued for the past year show that over $800,000,000 of insurance was written by companies licensed to do business in Canada, and that there is over $4,600,000,000 of insurance in force in these companies. In some respects this seems a tremendous figure but in others it is not so large.

Transformed into the functions for which insurance is taken it is sufficient to provide for 600,000 widows and orphans for 20 years or would buy 1,000,000 homes at $4,600 a piece But on the other hand the average man is insured for not more than one year's salary and that would not last long in furnishing food and shelter for a family. Even at a reduced scale of living it would take at least sixteen times the amount of the earnings coming into a home to furnish funds sufficient to keep things goings.

Some of the figures of Insurance Companies are startling. The London Life, has just completed a competition in which a record was established of $15,000,000 of new insurance in six weeks, all of which was written in Canada.

This amount means an average production of two and a half million dollars of new life insurance a week. Compared to the same Company's objective of one million dollars a week three years ago it indicates the rapid strides being made. This amount represents 16,500 policies of insurance placed in homes from coast to coast and serves to indicate the way life insurance is being spread for the benefit of Canadian homes.

In this campaign notable success was achieved by the two local agencies under the managership of H. B. Matthews, C.L.U. and J. C. Strickland.

WEED INSPECTOR NAMED IN SMITH

Thomas H. Graham Will See That New Act is Enforced.

Owing to the press of haying operations, the members of the municipal Council of the Township of Smith met at the clerk's office, Bridgenorth, on Tuesday, July 12, at the hour of 8 p.m.

There was a full attendance of the members, Reeve Middleton occupying the chair.

At the last session of the Provincial Parliament of Ontario, the "Weed Control Act of 1927" was passed, by whose provisions all noxious weeds on public highways, vacant lots and resident lands are required to be cut previous to their seeding; and requiring each municipality to appoint a weed inspector, whose duties are to carry out the intent of the Act.

After discussion of the matter, by-law No. 847 received its several readings and was passed appointing Thomas H. Graham as weed inspector for the balance of 1927.

Also by-law No. 848 authorizing the municipal council of the township of Smith to borrow certain monies from the Royal Bank of Canada at Peterborough to meet the current expenditure of the corporation for the year 1927 received its several readings and was passed.

On motion of Councillor A. B. Mann and Deputy-Reeve G. H. Simpson, the clerk was requested to have the Bridgenorth speed limit signs re-worded.

Mr. Montgomery, manager of the Standard Bank of Canada at Lakefield, was present and signed the agreement between the Bank represented by him and Smith Council, re collection of taxes of Smith township. As a consequence of this agreement, any taxpayers of Smith township, who wish, may pay their taxes to the Stahdard Bank of Canada at Lakefield on the presentation of their official tax bill rendered them by the township collector.

A cheque of $5.00 was received from Magistrate O. A. Langley, being the fine imposed for a breach of Highway Act.

A communication was received from the County Clerk, Ed. M. Elliott, showing the local and equalized assessments of the several municipalities in Peterborough country.

At a meeting of the local Board of Health of Smith township held on 13th inst. a motion was carried by which legal proceedings will be taken against any one found depositing garbage or other refuse in Chemong of any other lake under the jurisdiction of the Board.

On motion of Deputy-Reeve G. H. Simpson and Councillor F. Fitzgerald the following accounts were ordered paid: W. A. Sidey, 35 cents; Dr. J. A. Morgan, $90.20.

SHEEP KILLING CASES HEARD

Township Seeks To Recover Money Paid to Farmer For Losses.

FROM DOG OWNERS.

OMEMEE, July 15.—Court was held in the village on Thursday with Magistrate Bradford presiding. There was one case on the docket, the township of Emily versus three Emily farmers. The proceedings arose over the killing by dogs of some sheep owned by Mr. Harry Deyell, several months ago.

The Township Council paid the owner the amount of his loss but later found witnesses who were willing to testify that the three farmers were the owners of the alleged dogs. The township went to court to try to recover the amount of the reimbursement, $97.65. After hearing several witnesses on both sides of the case Magistrate Bradford reserved judgment. The plaintiffs were represented by Lawyer Frost, and the defendants by Lawyer Fulton, both of Lindsay.

CONTINUE SEARCH FOR MAIL BANDIT

Makes Escape with $4,500 From Holdup in Beauce District.

SHERBROOKE, Quebec, July 15. Canadian Press. — Police and officials throughout the Beauce district were active last night trying to discover a clue that will lead to the robber who held up the royal mail wagon between St. Samuel and St. Ludger yesterday morning and escaped with a sum of money estimated at $4500.

The first reports indicated that the holdup was carried out by a gang of bandits, but it was stated last night by Chief of Police Arthur Savard, of Lake Megantic, who has been working on the case, that the robbery was carried out by a single man.

According to the latest reports a young man by the name of Marin was driving the royal mail wagon from St. Samuel to St. Ludger when he was stopped by a stranger who requested a "lift," stating that he had been driving an automobile and had had a breakdown. Informing the young driver of the royal mail that he had walked so far he was tired, he asked the lad if he would mind walking back a short distance for his suitcase which he had left beside the roadway. The unsuspecting driver agreed to do the errand and during his absence the robber slit open the mail bags, and made a getaway into the woods with his booty.

It is stated that the thief secured a sum of about $4500 in cash. The driver of the mail van was able to give the police a fairly good description of the robber. It was also stated that a man driving a grey automobile arrived at St. Samuel early yesterday morning, and had asked information concerning when the mail left. The police believe that this is the same party who robbed the mail, pointing out that he apparently had his motor car a short distance from where he stopped the wagon.

PIRATES—NO TREASURE—YES.

Pirates, Treasure and the Spanish Main have been associated in legend and story for countless ages. True there are no pirates now but there is still the lure of treasure train-treasure of journeys via the peaks of the Canadian Pacific Rockies through to the seas of the Pacific and Western cities of Vancouver and Victoria. See it all in planned beforehand comfort without tedious detail and worriesome annoyance during twenty-one days that will live in warmest memory under the auspices of the World's Greatest Travel System. AGREEMENT MADE.

Arrangement Between Wheat Pool and Selling Agency Completed.

TORONTO, July 14 (Canadian Press).—Grain producers in Essex, Kent, Elgin, Lambton, Middlesex, Perth, Huron, Bruce and Simcoe Counties, who yesterday met here and formed the Ontario Wheat Pool, made an agreement to-day by which the central selling agency, which acts for the Western Canada Wheat Pool, will handle all grain shipments from the above counties.

OBITUARY.

MRS. J. EDGAR BURNHAM.

MILLBROOK, July 14.—The late Mrs. J. Edgar Burnham, whose death occurred suddenly in the early morning of Saturday, July 9, was born in Cavan, her parents, the late Mr. John Staples and Mrs. Margaret Staples, removing to Toronto while she was quite young, and residing in that city for the major portion of their married life, though they had made their home in Peterborough for a few years before Mr. Staples' decease took place.

Mrs. Burnham was one of a family of five children, three of whom passed away in infancy, one brother, Walter, living until he was eighteen years of age.

Twenty-eight years ago next November deceased was united in marriage to Mr. J. Edgar Burnham, now of St. Petersburg, Florida, the ceremony taking place in Toronto, where they continued to reside for the following seven years, removing then to Peterborough and living in that city until the marriage of their only daughter, Lillian Pearl (Mrs. A. C. Darling), about four years ago, since which time they have made their permanent home in the south.

Mrs. Burnham joined her daughter in Canada each year, her summer home being at Chemong Park. Mr. Burnham coming north also during the warm season, as often as business duties would permit.

Through her attractive personality deceased had the happy faculty of making warm friends, though her chief interests were always bound up with home and family claims. She was a member of the Methodist Church, having removed to the south before Union took place.

Besides her sorrowing husband, she is survived by her mother, Mrs. Margaret Staples, of Cavan; her daughter, Mrs. A. C. Darling, Peterborough, and one little grand-daughter, Margaret Elizabeth (Betty) Darling.

For the past fifteen months Mrs. Burnham had not been in good health bearing with fortitude and cheerfulness the, at times severe suffering incident to a prolonged illness, and being chiefly concerned for the welfare of those intimately connected by family ties. She came north for the summer five weeks ago, and was here scarcely a month when her last illness took place.

The funeral, which was necessarily delayed until her husband's arrival from the south, was held on Wednesday from the residence of her son-in-law, Mr. Aleck Darling, 564 Homewood Avenue, Rev. Harold Young, of Toronto, a former pastor of the deceased, taking charge of the services at the house and graveside. The pall-bearers were: Two uncles, Messrs. E. Keegan and W. Tinney, Cavan; two brothers-in-law, Messrs. G. E. Burnham, Millbrook, and F. W. Burnham, Peterborough; a cousin, Mr. W. W. Staples, of Lindsay, and Mr. J. Long, Peterborough, an intimate family friend. Interment was in Little Lake Cemetery.

The many beautiful floral tributes gave evidence of the loving esteem in which deceased was held, and included a wreath from the Kiwanis Club of St. Petersburg, Florida, of which Mr. Burnham is a member; sprays from the Kiwanis Club, Peterborough; the Roy Studio staff, and the Women's League of Trinity United Church, with which Mrs. Burnham had been formerly connected.

Among relatives from a distance who attended the funeral were: Mr. and Mrs. Neil Clarke and Mr. George Clarke, of Winnipeg, Manitoba; Mrs. J. T. V. May, of Toronto; Mr. and Mrs. W. W. Staples, of Lindsay; Mrs. T. H. Wilson, of Cannington; Mrs. Clarence Jewell, of Lindsay; Mrs. E. Brown, of Toronto; Mr. Thomas Staples and Mrs. W. Cunningham, of Hamilton.

BAILIEBORO NEWS

BAILIEBORO, July 15.— Miss Evelyn Johnston has been visiting Miss Dorothy Falls for the last few days.

Mr. Albert Dawson cut his sweet clover into the silo on Tuesday. This is the first silo filling to be done in this locality.

Mr. Emerson Reid is holidaying at the home of his uncle, Mr. Ernie Barnard.

Among those from Bailieboro who attended the Bailieboro-Beavers game in Port Hope on Monday evening were: Mr. and Mrs. Byron Wood, Misses Ethel Falls, Evelyn Johnston, Loretta arnard, Jean Pue, Ruth Dawson, Helen Harcourt and Dorothy Falls, Messrs. A. Cole and H. Cardwell.

Mrs. Robert Falls is in Toronto this week.

Miss Edna Wallace of Port Perry is visiting Miss Irene Johnston this week.

Mr. Bill Lapg spent last week end in Port Perry.

Mr. Wilfred Johnston has accepted the position as manager of the Bailieboro ball team in the absence of Mr. Rutherford.

An exceptionally high standard was established by the Bailieboro entrance class this year. Five pupils tried the examinations and all passed, four with honors. The pupils were: Jean Anderson (honors), Dorothy Dawson (honors), Arthur Bateman (honors), Clifton Harper (honors), George Dean.

Of the twenty-two entrance pupils from this section twenty-one were successful.

CRISIS CONTINUES

(Continued from page one.)

cruisers if the total tonnage level is kept low, cleared the air, as it has been insistently reported that the United States delegates were determined upon having 25 under any circumstances.

It was on the initiative of the First Lord of the British Admiralty that the plenary session was held, and Mr Bridgeman complained bitterly of alleged gross misrepresentations of the British case "in certain quarters." He repeated his argument that the best way to prevent competitions in offensive armament was to get the individual size of warships as low as possible.

"Total tonnage is like a pie," he said. "It may be a very good thing, but all depends on what is inside of it. There is no way of preventing competition except by agreeing on maximum size in each type, and the mere fixation of total tonnage ratios is perfectly useless unless it is accompanied by individual limits on the very class."

Total Tonnage.

Mr. Bridgeman attributed to the United States and Japan the difficulty in reaching an accord on the cruiser question, because, he said, these two countries had declined to agree to limit the size of ships and the size of the guns of smaller cruisers in order to make them defensive instead of offensive. He assured the conference that Great Britain had no intrinsic objection to the idea of total tonnage provided Great Britain knew now other countries were going to use that tonnage.

"If we were to agree to a total tonnage of 400,000 for cruisers, it would be without even knowing the character of the cruiser fleets of other nations. We must know how many large cruisers other nations propose to construct."

He feared that Great Britain would be put in a position of inferiority in offensive power unless all the characteristics of all cruisers were known in advance.

Alluding to a statement of denial which he recently made to the Associated Press, the First Lord declared the British had been accused of an arrogant desire for superiority and as having refused parity to the United States, but, he added, this has already been formally contradicted in these words: "We do not dispute the right of the United States to build cruisers in numbers sufficient for national security. We cannot surrender a similar right for ourselves."

When all was said with firmness and good temper, the conference adjourned to meet at the call of the secretary. No private meetings of plenipotentiaries have been arranged, and the general opinion in Geneva last night is that if the delegates do not succeed in breaking the back of the cruiser problem within the next week the conference will inevitably have to be terminated with failure written on its register.

RUNS HIS FEET OFF.

ATTLEFORD, Mass., July 15. — For nearly a year members of a fire company here were accompanied on their runs by Bozo, a dog they had befriended. Bozo rode on one of the trucks until recently, when he began running in front of the engines. The job proved too much. He ran so many miles that he actually ran the pads of his feet off, died from his injuries.

PETERBOROUGH MERCHANTS PUTTING ON FOUR DAYS' SUBURBAN SALE

A Big Summer Selling Event That Means Much to the Shopper in a Radius of One Hundred Miles.

EXTRA VALUES FOR TOURISTS.

The Four Days' Suburban Sale put on last year by the Peterborough merchants proved such a success that it will be repeated again this year.

The Sale dates are Wednesday, July 20th; Thursday, July 21st, Friday, July 22nd, and Saturday, July 23rd.

There are so many new comers in the vicinity of Peterborough as summer visitors that the merchants feel that they, as well as the residents in the district surrounding Peterborough, should be given some extra special shopping values.

In the past quite a good deal of business has been sent to mail order houses, where it is difficult for the purchaser to get exactly what is wanted. Peterborough merchants are offering for the four days above mentioned Special Values, and residents in the district, within a radius of forty miles from Peterborough, will find it much to their advantage to make selections of what they want during these four days.

On Tuesday, the 19th, The Examiner will contain advertisements from many stores in the city giving values that should not be overlooked.

You are invited to come to Peterborough and see the goods you buy.

FINE PICTURE AT REGENT THEATRE

'Return of Peter Grimm,' Under Auspices of C. W. League.

"The Return of Peter Grimm", the feature picture at the Regent Theatre for the first three days of next week, will be presented under the auspices of the Catholic Women's League, and will have with it the pictures of Lindbergh's flight across the Atlantic Ocean.

"A love story with an unseen star" and "A dramatic answer to life's greatest question" are captions for "The Return of Peter Grimm", which illustrates pictorially the struggle of a dead man to right a wrong committed in life. The elements of romance, pathos, tragedy and humor combine with the other-world atmosphere of many of the scenes to make it a strong, vital picture with a universal appeal.

Two friends, in one of the minor portions of New York State, wrangle continually over the question: Can the dead return to commune with the living? They make a pact that whoever dies first shall come back to give the other a sign of the soul's immortality. Peter Grimm dies and picture vibrate with intense human picture vibrate with intense human interest. He has, in his lifetime, ordained, as many kindly people do, that others shall live according to his desires. He wishes his ward to marry the man he has chosen for her and to discard the lover she has picked for herself.

Just before Peter goes into that sleep "which the old fall into—tired and slow, and spring up from, ready to frolic through another world", he extracts a promise from his ward, Catherine, that she will marry his nephew, Frederik. He feels that this is just. The girl feels that it is persecution, but, loving her guardian, she consents, and he slips away into the night of eternity. Then his spirit realizes what life's errors of vision have been, and he strives to do his best to right the wrong he has willed. It is in the telling of this that the picture makes its appeal to old and young alike. Numerous threads of romance and passion are interwoven in the fabric of "The Return of Peter Grimm."

The Catholic Women's League, whose main work is one of charitable endeavor, will be assisted by all who buy tickets for the production during the first three days of next week, at the Regent Theatre.

JUNIOR FARMERS HOLDING FIELD DAY

WARKWORTH, July 15.—On July 20 a field day is being held at Presqu'ile Point for the Central Ontario Junior Farmers.

The local ladies softball team will play against a team from Frontenac county and besides there will be numerous other sports.

Games of softball between Norham and Castleton are being played to determine which of these will represent Northumberland county on July 20th at Presqu'ile.

The first game was played at Castleton Monday evening with Norham winning by a score of 11-5. The second game is being played at the fair grounds here on Saturday evening.

A large number took in the excursion from Cobburg to Rochester on Wednesday. This excursion was held by the Young People's Society of the Cobourg Presbytery of the United Church of Canada.

Besides the Orange Lodge a large number attended the celebration in Cobourg on Tuesday.

Mrs. W. G. Braughton and Mrs. P. A. Orton of Chicago are visiting their parents, Mr. and Mrs. T. G. Smith.

Mr. and Mrs. John Helson of Toronto are visiting their daughter, Mrs. F. A. Bowen.

APSLEY ORANGEMEN OBSERVE TWELFTH

Hold Parade and Picnic—Hear Fitting Historic Address.

APSLEY, July 15.—Ideal weather favored the celebration of the glorious Twelfth at Apsley when the local lodge, No. 172, held a picnic on the grounds in the village, dinner and tea being served in the Orange Hall. The proceedings opened at 11 a.m. when the members augmented by visitors from other lodges assembled at the hall, and to the accompaniment of drums and fife paraded through the village. A feature of the procession was the presence of the three oldest members, John Lean, Isaac Lean and Joe Parks, whose ages aggregated 250 years. John Coones and E. L. Blackwell played the fifes, Norman Lean and Vernal Windsor, drums, Will Staples and the veteran Bro. Hawley performed on the snare drums.

After dinner an interesting address dealing with the historical events of King James II's reign and the coronation of William III, was delivered by Rev. C. A. G. Spence. This was followed by the return softball match between Apsley and Chandos when the latter again went down to defeat by 38 to 9 runs in seven innings. An interesting event was the draw for the sewing machine in aid of the Red Cross, the winning number being 77, the holder of which was Miss Annie Coones.

The 1927 celebration was one of the most successful ever held by the lodge.

The sale of women's shoes has increased between 40 and 50 per cent in the last 10 years.

Sandwich, once the chief naval port and harbor of England, recently observed its 700th anniversary.

LEARNING TO SWIM.

A bulletin from the Ontario Safety League says:

"Have the children learn to swim for fun, health and safety. Have them learn where swimming is safe, in supervised bathing areas or tanks only."

This is excellent advice that should be taken to heart by Peterborough parents.

There are too many children bathing at unsupervised points along the waterfront, sometimes in places that are decidedly dangerous for everybody save expert swimmers.

The only supervised bathing beach at present is at Inverlea Park, and all children and adults who cannot swim should do their bathing there where there is not only a supervisor on duty but where a swimming instructor, secured by the Rotary Club, is on duty daily for the purpose of teaching all non-swimmers who wish to learn.

The Inverlea Park beach, under these circumstances, is much safer than any other bathing place along the river, and parents should see to it that their children take advantage of the supervision and instruction.

QUEBEC MEANS BUSINESS.

There is nothing half-hearted about the campaign that is being conducted by the Quebec Government against motor speeders in that Province.

The fact that seventy-two driving licenses were cancelled in one day indicates that the Government means business, and further evidence is furnished by the establishment of speed traps on many highways.

Next to detours and possibly fresh oil on the highways there is nothing a motorist loathes half so much as a speed trap, but it looks as if the refusal of a large percentage of drivers to maintain a safe rate of speed has made the step necessary.

The Quebec Government is determined to put an end to speeding, and the regulations are to be strictly enforced in every case.

The man who likes to "step on the gas" had better keep out of Quebec, where the Government is not only putting teeth in the law but is resolved that they will bite when necessary.

The increasing number of motor accidents is ample justification for the energetic campaign being carried on in favour of safer driving conditions.

WHY THEY FLOURISH.

Such organizations as the Rotary and Kiwanis Clubs are built around the principle of service, and they are often called upon to live up to their slogans in unexpected ways.

The local Rotary Club had a demonstration of that fact earlier in the week when word was received from the Kitchener Rotary Club that a sixteen-year-old boy had departed from that city with the carnival shows appearing here this week, and that his mother had appealed to the Kitchener Club for assistance.

Local Rotarians located the runaway, provided transportation for him back to Kitchener, and he departed for home a wiser and also a gladder boy.

Services such as this, small in themselves but mighty in this case of a heart-broken mother, add up each year into a record of useful achievement, and explain why such organizations continue to flourish from year to year.

It is the appeal and the opportunity to rise above self that keeps them strong and vigorous, for it is certain that if their chief end were to meet round the luncheon table once a week and allow the members to enjoy themselves service clubs would have but a short existence.

THE CELEBRATION MOVIES.

The splendid moving picture films of the Diamond Jubilee parade and of the water sports held in connection with the celebration, taken by Fred. L. Roy, were shown to the City Council last evening and made a splendid impression.

The faithfulness with which these leading features of Peterborough's big celebration have been reproduced on the screen suggests that it might be worth while if this picture record of one of the outstanding events in the city's history were to be preserved for the benefit of future citizens.

Forty years from now when Canada will be celebrating its centenary would not a film showing the Peterborough of 1967 how the people of 1927 observed the Diamond Jubilee be of fascinating interest?

Doubtless the good people of 1967 will have a substitute for our present movies that will make the films now in use seem as old-fashioned as a "tin-type" looks to us, but nevertheless the film would be of value as a pictorial record of the jubilee celebration.

In fact, moving pictures of many events of major importance should be filed away in order that new generations will be able to get an accurate vision of the past.

THE ART OF SILENCE.

In the world's literature a place of no mean distinction must be assigned to the more personal and intimate communications which in ordinary life we call "letters." Many a writer has revealed himself in his letters in a way which throws much light on his more impersonal contributions of literature. In other walks of life great personalities have become better known for these epistolary intimacies.

But there are letters to which neither the historian nor the literary critic has done justice—the letters which were never written. Acres of library shelves could be filled with these unpenned messages. Who among us is so inarticulate or so unresponsive that he has not had in his head a dozen or more of these missives which never saw the light of day? Who has not meditated eloquently in anticipation of writing a letter of condolence—a soothing message that was never expressed?

Who has not burned passionately over an injustice to himself or someone else, and in his mind constructed a letter that would make "the stones of Rome to rise and mutiny," and who has not found that when a few days afterward this incident came again to mind, that this eloquence had never found expression on paper, and that the fires of passion had just naturally gone out as other fires do in time?

Perhaps in that inscrutable way which memory has we are reminded one day of a dear but now far-off friend. Instantly comes the resolve that we must write to him; in a reminiscent way we shall go over some of the times never to be forgotten of long years ago; we shall let him know that more than ever we value his friendship. We know exactly what we are going to say; we know what will make Bill feel good. But Bill never gets the letter. This one, too, goes to make up the untold millions of unwritten letters.

What wonderful letters are those that were never written!—Kingston Whig-Standard.

MR. FORKE'S METHODS.

The Honorable Robert Forke, the Minister of Immigration, is going the right way about investigating the possibility of attracting a larger number of Swedish farm workers to this country. Instead of conducting long-range immigration activities from Ottawa, he has himself gone directly to Sweden and there examined the conditions under which these men and women work and live. He is thus furnished with most valuable information concerning the environment in Canada that will make the greatest appeal to Swedish agricultural laborers and that in which they will be able to make the most rapid progress.

This method is infinitely preferable to that which is more often followed—removing men and women from surroundings to which they have accustomed throughout life and dumping them down wherever unoccupied land is to be found, without regard for their feelings or for the suitability of the locality to them. Wherever it is possible, newcomers from abroad should be settled in those communities which are as nearly similar to their old environment as are available.

It is a very likely field that Mr. Forke is investigating. Canada stands to profit materially from any Scandinavian migration destined for this country. The Swedes, like the Norwegians and the Danes, are thrifty, industrious and progressive people. Their agricultural system is a model one, and Canadian agriculture will be the better and the stronger for whatever movement results from the Minister's activities. Evidently Mr. Forke is of the same opinion, for he has expressed himself most favorably concerning the calibre of the would-be immigrants and has declared that the Government will guarantee complete employment for the first year of their residence in this country.—Brockville Recorder and Times.

ACTION IS NEEDED.

Time and again during the past few months The Globe has directed public attention to the shocking toll of human lives that is being taken through accidents on highways and waterways in Ontario. No week-end passes in which the papers on Monday morning do not relate stories of fatal mishaps in which many human beings have perished. During the past week-end the total was six lives snuffed out through accidents of various kinds, some by drowning, and others by mishaps on street and highway. So long as this state of affairs continues, so long will it be necessary to write these editorials, until public opinion is sufficiently aroused to demand some action to remedy the evil.

Perhaps the worst feature of this accident situation is the deplorable apathy and indifference on the part of the public and those charged with leadership in public life toward it. It is difficult to find a reason for this. Should some malignant disease attack the people of any Province or city, steps would instantly be taken to prevent its spreading and to wipe it out of existence. If the disease were of unknown origin or difficult to cope with, it would simply call forth greater energy and more skill in dealing with it. And yet here is a prevailing condition in this Province that is taking a daily and weekly toll of men, women and children and little seems to be done to prevent it. How long must this state of affairs continue before our leaders turn to the problem and seriously grapple with it? How much longer are people to meet with frightful deaths at level crossings, helpless pedestrians to be wiped out on the highways or city streets, and careful drivers of automobiles made to pay with their lives for the mania of the speeding fiend?

This is not a problem that is going to be solved by sitting by with folded hands and saying: "How sad." It is not an evil that will be remedied of itself, or a condition that time will heal. As a matter of fact the question grows more vexing with the passing days as the death toll from accidents keeps steadily mounting. If human life is to be made reasonably safe from accidents under the present conditions of living, the question must be grappled with.—The Globe.

NO LONGER IN DOUBT.

Toronto Saturday Night:- Has the celebration been worth while? The question must be answered in the affirmative without division. The Scriptures recommend: "Know thyself."

Canada must be the richer for having heeded that recommendation in connection with her sixtieth birthday. Canadians surely know their country better than ever before, and so knowing must love it more, must be more influenced by a sense of the good fortune of other citizenship. More aware that, in the words of His Majesty's message, "by labor, peace and sacrifice of war Canada has become a mighty nation," they must be better prepared to play their part in the future where "aims as lofty and labors as strenuous await her", and in "developing the heritage which their fathers have left them."

After this festival of praise and thanksgiving, lives there in Canada a man with soul so dead that he does not say to himself: This is my own, my native (or my adopted) land? What could be a greater asset to Canada than a thorough-going pride of nation on the part of her people? More than any other factor it should serve to combat the outside influences of which some of us are so apprehensive—foreign literature, advertisement and moving pictures.

Living so close to a people so prone as are our neighbors to extol the greatness of their country and their achievements, we in Canada almost require the armor of a constant awareness of the happiness of our own lot in being citizens of a blessed land richer in many respects than any other on the face of the earth.

To bring to us a sense of the glory and greatness of Canada and to do honor to the memory of those who handed on to us this heritage—that was the supreme purpose of the jubilee celebration, and unquestionably it has been accomplished. If in addition we gain something of prestige beyond our shores that may come to be translated into material profit, so much to the good, but the increased measure of our own self-respect is the most important result.

EDITORIAL NOTES AND COMMENT.

The Canadian team at Bisley is helping to celebrate Canada's Diamond Jubilee by some memorable shooting.

Drivers who refuse to obey the stop signs should be automatically deprived of their licenses.

CATTLE, GRAIN AND PRODUCE

Peterboro—Toronto—Montreal

TORONTO LIVESTOCK.

TORONTO, July 15.—Market practically cleaned up in the late trading Wednesday and no fresh cattle in today. Prices remained steady, right up to the close, the bulk of good to choice butcher selling from $7.75 to $8.50. One load of extra choice weighty steers 1,220 lbs., going up to $8.90. Common and unfinished sold from $6.50 to $7.00, and very rough, poor steers down to $5.50.

Calves and lambs finished especially strong, with the light offering, selling 50c to $1.00 higher than the week's opening prices.

Hogs closed steady.

Receipts.

MONTREAL GRAIN AND PRODUCE

MONTREAL, Que., July 15.—(Canadian Press.) —Some demand developed in the local produce market yesterday from foreign buyers, low grade Manitoba wheat being in request. A few sales were made while New York wired that the overnight demand there was improved. Sales estimated between 600,00 and 700,000 bushels in all positions were made for the day.

The trade in spring wheat flour was uninmproved, but prices were maintained.

A feature of the millfeed trade is the increasing scarcity of shorts and middlings for which the demand continues good. Sales were made today at an advance ranging from 25 to 50 cents a ton for straight car lots, but this was not general and no official change in prices was announced.

The baled hay market is steady with a moderate amount of business passing.

The egg market is unchanged, the demand being limited and business correspnodingly quiet. Receipts show a falling off from last week.

The butter trade shows no improvement, sales being confined to broken lots. Receipts are about the same as last week.

Due to the curtailed demand for cheese from foreign sources, the cheese trade showed no indication of brightening up and prices were marked down 1-8 to 1-4 cent per lb. Receipts are somewhat lower than last week's.

CHICAGO CATTLE.

CHICAGO, July 15. — Canadian Press. — Cattle, 10000; best heavies $14.15; medium weights $14.25; yearlings $13.65; most fed steers $11.50 to $13.50; stockers $7.50 to $8.75; vealers $13.50 to $14.50; most sausage bulls $6.75 to $7.25.

Hogs 30,000; top $10.40 paid frequently for sorted 175 to 200 pound average; 230 to 250 pounds largely $9.50 to $10; few finished butchers, averaging 250 to 270 pounds $9.40 to $9.75; most 260 to 320 pound butchers $8.90 to $9.50; bulk desirable packing sows $8.25 to $8.40.

Sheep 9000; bulk good natives lightly sorted $13.75 to $14; choice rangers mostly $14.60; top $14.70; cull lambs, $9.50 to $10. Fat ewes $6 to $7; feeding lambs unchanged.

CHICAGO GRAIN.

CHICAGO, July 15. Canadian Press. — Optimistic reports about the condition of domestic spring wheat led to lower prices yesterday, one private estimate pointing to a yield of 315,000,000 bushels. Closing quotations on wheat were unsettled at ¼ to ¾c net decline. Corn 3-8c to 1¾c off, oats 3-8 to 7-8 down and provisions unchanged to 15c lower.

Favorable crop news from the northwest yesterday regarding wheat called particular attention to the fact that the United States government in computing crop estimates for August 1st will make 2 bushels an acre higher allowance on the basi of figuring the season's yield than was the case for July. According to an unofficial Chicago authority this would mean if present crop conditions are maintiained until August 1, the domestic spring wheat yield would be around 315,000,000 bushels, a total materially in excess of the July returns.

Corn was weakened by chances of rain in Iowa. Besides other parts of the corn belt had received moisture relief, and hot weather has been of marked benefit to growth in some sections. Oats were eased by the action of corn.

Provisions tended downward on increased selling on an advance brought about by firmness of the the market.

Indigestion Is Conquered

By New Scientific Method —Here is Proof.

This new product of a Canadian laboratory is causing much favorable comment by physicians.

Some even think that its influence for good may even outrival that of insulin.

Renzyme cannot fail to relieve indigestion because it restores the digestive fluids to the stomach. Relief is obtained promptly because the very first dose of Renzyme is effective in helping to digest the food in the stomach.

Rev. A. B. Fahrney, The Rectory, St. James Church, St. Mary's, Ont., writes:

"Having been troubled for some years with indigestion I have tried a good many remedies but without results. Some time ago friends of mine spoke to me about a preparation called 'RENZYME' being put out by your firm and immediately I secured a bottle and found almost instant relief.

"I can say without hesitation that it is the best remedy for stomach and bowel trouble that I have ever tried and wish to tell you that I will never be without it and take this opportunity of highly recommending it in order to show my appreciation for what it has done for me. I know the integrity of the personnel of the company and can say that there is nothing in this preparation injurious to anyone."

You can obtain Renzyme from your druggist at $1.50 a bottle or it will be sent to you, postpaid, on receipt of price, if you mention this paper. The Renzyme Laboratories, Toronto, 2, Canada.

A Thought For To-day

With the lowly is wisdom.—Proverbs xi:2.

No man can be wise on an empty stomach.—George Eliot.

For a picnic or an outing in the summer time, nothing is more delicious than Iced Tea, prepared before and taken along in Thermos bottles. It seems to be just the right drink for such an occasion. Use good tea, we suggest "SALADA."

SPRINGBROOK WALK GREAT SUCCESS

Members of Three Lodges Responsible for Splendid Arrangements.

MARMORA, July 15.—The brethren of Springbrook L.O.L. 442 feel justly proud of the success attending Tuesday's celebration. The day's takings, exclusive of the dance at night, exceeded $3,300.00.

Dinners and suppers served throughout the day were under the supervision of the local Lodge assisted by members of Wellman's Corners and Tanner lodges. Special credit is due the ladies for the excellent service given. For the dance in the hall at night, the High School orchestra of Stirling was engaged.

A large attendance was present, swelling the day's proceeds. The villagers in general congratulate themselves that so large a number of visitors should be in their midst without the least sign of insobriety.

Among the large number of veteran Orangemen present, two stood out as having 68 years membership in the Order—John Wiggins of Cordova and W. Bonter, J.P., of Marmora, both having joined Marmora L.O.L., No. 319, in 1859.

Best of all Fly Killers—10c and 25c per packet at all Druggists, Grocers and General Stores.

POST'S BED BUG POISON.

Post's Bed Bug Poison is composed of carbolic acid, Methyl Hydrate and Corrosive sublimate. When this preparation is used according to directions, it is sure death to bed bugs, cockroaches and insects of all descriptions. Two or three applications are all that is necessary, but as it is very poisonous, this preparation should be kept out of reach of children.

Sold at Lynch's Drug Store, 168 Hunter street.

TEMPERANCE LAWS IN DOMINION IN NEED OF STRAIGHTENING OUT

Legislation Hopelessly Tangled Between Federal and Provincial Governments.

MANY KNOTTY POINTS.

Application of Restrictions of Canada Temperance Act in Doubt.

OTTAWA, Ont., July 15 (Canadian Press).—Canada's liquor laws appear to be in an almost hopelessly tangled state. With seven out of nine provinces of the Dominion now functioning under a system of Government control of the sale of liquor, several knotty questions have been recommended by Dominion law officers for interpretation by the courts.

Three leading points which the judiciary may be called upon to decide are:

Is the importation of liquor into the Provinces of Prince Edward Island, Nova Scotia, New Brunswick, Ontario, Manitoba, Saskatchewan and Alberta still prohibited under the Canada Temperance Act?

Is the exportation of liquor out of the Provinces of Prince Edward Island, New Brunswick, Manitoba, Saskatchewan and Alberta still prohibited under the Canada Temperance Act?

Is the New Brunswick Liquor Act respecting Government control as restrictive as the Canada Temperance Act, and, if so, should seven of the counties in that province be again placed under a provision of the Canada Temperance Act prohibiting local sale?

With respect to the first point, there are Dominion Orders-in-Council prohibiting the importation of liquor into these provinces under the Canada Temperance Act. Do these Orders-in-Council, it is technically questioned, affect such of the seven provinces as have adopted government control? Under an old axiom, it would appear that, as laws do not apply to governments unless they so expressly state, the governments of these provinces are excepted from the provision of the Act, although private individuals are restrained. Again, it is asked whether those Orders-in-Council automatically lapse when the provinces to which they applied ceased to be dry. If the Orders-in-Council have lapsed, what authority is there to prevent the private individual from importing, seeing that the regulation of importation is a Dominion matter?

In regard to the question of exportation, Orders-in-Council have been passed by the Dominion Government prohibiting exportation of liquor from Prince Edward Island, New Brunswick, Alberta, Saskatchewan and Manitoba, as a consequence of resolutions passed by the respective provincial legislatures. These Orders-in-Council prohibit exportation on condition that prohibition is Under Government sale in these provinces, it is asked, is prohibition, within the meaning of the Canada Temperance Act, still in effect? If it is decided that prohibition is not in force in these provinces, within the meaning of the Act, then exportation, it is argued, is logically permitted.

On the third point regarding the situation affecting New Brunswick, seven counties in that province by plebiscite expressed their desire some years ago to have sale of liquor prohibited locally under the Canada Temperance Act. Orders-in-Council were accordingly passed by the Federal Government. During the war, the Doherty Act was enacted, permitting the suspension of such prohibitory regulations without a further plebiscite. Under this latter Act, the provision in question of the Canada Temperance Act was suspended for the seven counties, as long as the Provincial Act of New Brunswick remained as restrictive as the Canada Temperance Act. The question for the courts to decide is whether the new New Brunswick Liquor Control Act is as restrictive as the Canada Temperance Act.

LENINGRAD TARNISHED REMINDER OF OLD BRILLIANCE AS A CAPITAL

Associated Press Correspondent Writes of Impressions on Recent Visit.

OLD GLITTER LACKING

Business Seems Slacker Than It Was in Czarist Days.

(Leningrad, the St. Petersburg of Czarist days, has been revisited and pictured by Walter C. Whiffen after an absence of ten years. Mr. Whiffen was The Associated Press correspondent there in the days of the Czar and witnessed the scenes of revolution in the capital city. He is now The Associated Press correspondent in Moscow, the present Russian capital.)

By WALTER C. WHIFFEN.

LENINGRAD (AP).—This city, beloved capital of Peter the Great and his "Window looking towards Europe," better known as Petrograd or St. Petersburg, seen after ten years by one who knew it at the peak of its glory and who witnessed the beginning of its decline, resembles a tarnished brass button.

Outwardly it is the same: the contour and design are there, but there is no glitter. There is much activity in the streets and even signs of moderate prosperity, but the brilliancy imparted by the gaudier Czarist uniforms, the smartness of the women, the luxurious carriages and motor-cars of other days is gone.

There is none of the glamorous restaurant life which was a feature of pre-revolution days and which caused the streets at 3 a.m. to be as lively as at the same hour of the afternoon. There are almost no restaurants and such as there are are sordid affairs. There are no cafes chantant nor outlying resorts such as used to cater to the tastes of the well-to-do pleasure seeker and whose patrons were entertained in lavish fashion with bands and orchestras and folk songs and gypsies.

The opera is here and the ballet in practically pre-revolution standard of merit, but the fashionable attendance has given place to assemblages of apparently appreciative people of all sorts, conditions and ages and in all sorts of garb except the "Bourgeois" evening dress.

Leningrad today is serious, semi-somnolent and drab. The Nevsky Prospect, formerly fashion's parade ground, is crowded of a late afternoon, but with modestly garbed women and girls and becapped and booted men and boys, happy enough looking — happier than in Moscow where they are under the shadow of the "administration"—but with nothing snappy looking in the ensemble.

The Nevsky Prospect extends straight away for a mile from the Moscow station, strikingly effective because of its great breadth, its high business blocks, its window displays and occasional old churches and canals, to the Admiralty building with its graceful, slender gilt spire. Its cedar block pavement shows signs of decay, but is still serviceable and a relief from the cobbles encountered nearly everywhere else.

Formerly there was scarcely a time in the year when some portion of it was not undergoing replacements, and it was common gossip that foreign contractors had repeatedly offered to repave the whole of the boulevard with durable and guaranteed paving for the cost of the repairs for a given period. The offers were as repeatedly refused because of the profit to be had by the bureaucrats of the day from the frequent replacements. The broad cement sidewalks were receiving apparently long needed attention in places. Here and there a plate glass window neatly bored through by rifle bullets ten years ago and patched with metal washers and bolts still does duty and serves as a reminder of those troublous days.

A stroll down the Nevsky reveals to accustomed eyes further evidences of the changed times. Street traffic, besides the street cars, manned by hooded and woollen-jacketed women, and a line of new and efficient looking motor buses, is confined largely to shabby public carriages and motor cars, and an occasional Government owned motor truck.

There is little evidence of the former merchandising and shipping that kept caravans of horse-drawn wagons moving about the city, and there are practically no privately owned pleasure vehicles.

The show windows are full of merchandise. Some of the displays are as attractive as of old, but there is a much larger showing of more utilitarian merchandise—food, fruit and meat shops—which used to be relegated to side streets where rents were lower.

Under the leveling influence of bolshevism such establishments are able to take their places alongside displays of jewelry, clocks, haberdashery, dress goods and furs. There is less of catering to a favored class. Old women peddling cigarettes, candies, books and papers on the once fashionable boulevard are further imprints of the new Russia.

At the far end of the Nevsky is the Winter Palace of the Czars, built by the Empress Elizabeth about 1750 at a cost of ten million rubles at a time when she could not pay her milliner. It was a sort of sanctified precinct where one felt the presence of imperialism and power. The big circle with the column of Alexander I. marking its centre, with the palace occupying one large arc and the former governmental departments the rest, imparts no feeling of reverence to the people of today.

The front of the palace is still pockmarked by rifle and machine gun bullets of revolutionary days. The paint is peeling off, the gates are encrusted with rust, and the whole circle of buildings, with one exception, shows signs of dilapidation and decay. The exception is a former municipal administration department which still serves a similar function, and which looks conspicuous with its fresh coat of yellow and white paint.

An old greybeard permitted the writer to enter the courtyard of the Winter Palace. Piles of timbers and rubbish partially filled the space that once resounded to the rumbling wheels of imperial couches. In one corner a group of children of the street were making merry with a circular swing erected there. The palace with its various wings named for bygone Czars, their windows streaked with dust, looked deserted and dreary. The Hermitage, that famous repository of paintings, statuary and gems which every visitor to Petersburg or Petograd, hastened to visit, has overflowed into the Winter Palace. Connected as it is by a sort of "bridge of sighs" it readily lent itself to the needs of the Hermitage, whose exhibits have been swollen out of all possibility to accommodate them through confiscation of valuable private collections. Another wing is devoted to exhibition of revolutionary mementos—illustrating the progress of revolution in Russia during the last hundred years. There are to be found portraits innumerable of victims of revolution both imperial and proletarian, bombs and infernal machines and implements of torture which have marked its path.

The Admiralty building adjoining the palace on its other side is still used for admiralty purposes and appears to be in a fair state of repair. Beyond lies St. Isaac's Cathedral, completed during the reign of Nicholas I., and thirty-nine years in process of construction, dating from 1819. It is awe inspiring from without with its massive granite columns and gilded dome. Its interior is dank and denuded of some of its glittering altars, ikons and candelabra. A few minutes in the chill of its echoing emptiness sufficed to give an impression of the staggering blow dealt by the revolution to the Orthodox Church.

On a side of the square in front of St. Isaac's Cathedral, and facing the former German Embassy, wrecked by Russia rioters at the beginning of the World War, the Hotel Astoria, once the rendezvous at the tea hour for fashionable women, foreign and Russian, has been converted into living quarters for Soviet employees and their families. The tea-room serves as a playroom for children.

A six-story brick building under construction on a street just off the Nevsky whose exterior was completed at the outbreak of revolution, stands precisely as it did ten years ago—except that the wooden scaffolding has long since gone for firewood. The three canals which describe semi-circular arcs through the centre of the city, the Moika, the Catherine and the Fontanka, are bare of the barges, chiefly wood-laden, which they once carried. The same is true of the Neva where scarcely a craft of any sort was to be seen. The factories across on Vassili Island appeared to be working, and the docks, with a few ships tied there, were mildly active.

Across the Neva, in plain view from the windows of the Winter Palace, stands the low staunch walls of the Peter and Paul prison fortress, scenes of torture of other days but now a museum. Guides lead visitors into its dark dank dungeons and explain in voluble Russian how the instruments of torture were applied to those imprisoned by orders of the Czar's secret police.

WOMEN'S PAGE

SOCIETY

Mrs. E. L. Ainslie, King George Street, was hostess last evening at a miscellaneous shower given in honor of Miss Norma Johnson, whose marriage takes place in August. A miniature bride and bridegroom bringing in the prettily-decorated wagon-load of gifts were little Marion Shaughnessy and Bobby Ainslie. Yesterday being the occasion of Mrs. Ainslie's birthday, she was presented with a bouquet of carnations by the girls of the Assembling Department of the Westclox Company, present last evening. Later, dainty refreshments were served.

* * *

Mr. Wilbert Bertrand of Flint, Michigan, returned to his home today after spending a week with his mother and other relatives and friends in the city.

* * *

Mr. H. Skidmore of Rochester, N.Y., is spending his vacation with Mr. and Mrs. E. J. Jenkins, at 94 Gladstone Avenue.

* * *

Miss S. A. Tomkins, Regent of the Otonabee Chapter I.O.D.E., is spending the summer in Cape Breton and the Maritime Provinces.

* * *

Miss Elizabeth Scott, Ashburnham, is spending some time at Wasaga Beach.

* * *

Miss Irene Noble, a native of this city, and a former public school teacher here, now of Indian Head, Saskatchewan, is spending a few days in the city, renewing old friendships, and is staying at the Young Women's Christian Association. Miss Noble, who has not been in Peterborough for some time, has made a success of her profession of teaching in the West, having in 1924 been chosen as the first vice president of the Teachers' Education Association for Saskatchewan, the highest honor possible for any lady teacher in the West. She came by way of the Great Lakes and Detroit, and is returning by Buffalo and Chicago.

Mrs. A. E. Sherwood, Water Street, has opened her summer cottage at Chemong Park.

Dr. Vincent A. Killoran, son of Mr. and Mrs. L. E. Killoran, 499 Albert Street, will practise at Hamilton General Hospital during the coming year. Dr. Killoran attained a high standing in the recent examinations of the Medical Council of Canada.

Miss Edna McGregor of Detroit, Michigan, is spending her holidays with her parents, Mr. and Mrs. D. McGregor, 299 McDonnell Street.

Mr. Norman Wood of Rochester, N.Y., is spending a few days with Mr. and Mrs. Arthur Wood, Smith Street East.

Mr. and Mrs. A. J. Throop, Burnham Street, are visiting in Hamilton and Guelph.

Under the auspices of the Ladies' Aid Society of Mark Street United Church, a very pleasant and well-attended lawn social was held on the church grounds last evening. Decorations of a patriotic nature were carried out with flags and flowers, and strings of overhead lights illuminated the lawns. The new pastor, Rev. E. A. Thornley, was present and gave a brief address. A fine programme of music was provided by the Sunday School Orchestra of George Street United Church, led by Mr. W. H. Cunningham. Selections were given by the players, also a vocal trio by Messrs. Cunningham, Bryan and Lillow and a vocal solo by Mr. J. W. Bryan. Ladies of the social committee in charge of refreshments were Mesdames Wm. Pomeroy, A. Cox and H. C. Benson. Mesdames J. Speer and W. A. Graham were in charge of the musical programme.

A Charming New Frock

This little frock is a style that will appeal at once to the woman who enjoys making dainty clothes for her small daughter. There are tucks at the front and back of each shoulder, a round neck, and short kimono sleeves, while the front set-in panel is gathered at the top and may be effectively trimmed with ribbon or bands of contrasting material. NO. 1580 is in sizes 1, 2, 4 and 6 years. Size 2 requires 1⅞ yards 27-inch, or 1⅓ yards 36-inch material and 1⅓ yards 1½-inch ribbon for trimming View A. **Price 20 cents the pattern.**

Home sewing brings nice clothes within the reach of all, and to follow the mode is delightful when it can be done so easily and economically by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficulty an attractive dress. **Price of the book 10 cents the copy.**

Price 20 cents each—coin preferred

Mr. and Mrs. A. H. Hugh of Port Hope announce in Toronto the engagement of their eldest daughter, Elsie M., to Mr. Orval S. Garner of Niagara Falls, son of Mr. and Mrs. George Garner of St. Ann's, the wedding to take place in the middle of August.

Mrs. R. G. Lawlor, B.A., of Norwood, was present last evening at the midsummer reunion of Queen's University Alumnae, held at Casa Loma, Toronto, when Mr. Wilson Macdonald addressed the gathering.

Friends of Mrs. B. Houlihan, Donegal Street, one of the older residents of the city, will regret to learn that she is ill at her home.

The Misses Martha and Laura O'Brien and their brother-in-law, Mr. John Grisdale, Cross Street, motored to Ottawa to visit Mr. and Mrs. W. J. O'Brien, formerly of this city.

The results of the recent examinations by McGill University Faculty of Music, as they apply to local entrants, are as follows, the names appearing in order of merit: Harmony, Counterpoint, History and Form, 1st Licentiate—Miss M. M. Weatherhead. Harmony and Theory, Senior Grade, The Misses D. Fine and C. C. Ramsey (St. Mary's, Pa), and W. Gaskin. Intermediate Grade, A. Collison (hon.), J. Wyllie (hon), Miss M. Hemphill, Miss R. Quartermaine. Junior Grade, C. A. Mills (hon.), K. Collison (Campbellford). Elementary Grade, J. N. Stanger, Miss E. M. Osborne, M. E. Wyllie. Violin (Intermediate Grade), J. L. Collins, K. Collison, C. A. Mills. Elementary Grade, C. P. Collins. Elementary Piano, F. V. O'Leary (Indian River), M. C. O'Leary. Lower Grade Piano, C. Fitzgerald (Indian River), J. G. P. Borland, C. Gibbons, F. F. White and J. J. O'Leary (Indian River). In the above list, the violin pupils were taught by Mrs. M. B. Hoyland, the piano pupils from Indian River were taught by Miss M. M. Weatherhead and the students in Theory, Harmony and Piano were prepared by Mr. Frederick G. Mann. The following pupils of Mr. Mann were also successful at the examinations of the Dominion College of Music: Senior Grade Organ, A. Collison (hon.), Junior Grade Organ, Mrs. H. E. Moore (Lakefield), and Junior Piano, Miss A. Price (hon).

Mr. Irven Bailey of the St. Pat's hockey team, formerly of this city, is spending some time in Peterborough. Mr. Bailey finds himself somewhat in the position of Mark Twain, the report of whose death "was greatly exaggerated," it having been rumored around the city some time ago that he had passed away after an operation.

The Misses Evans and Green of Chicago are guests of Dr. and Mrs. J. M. McCulloch at Chemong Park.

SAINT and SINNER

By ANNE AUSTIN

(Continued from yesterday.)

"On what grounds will he sue for divorce?" Faith demanded indignantly, while her arms instinctively strained Cherry's baby to her breast. "Oh, he wouldn't dare to try to take the baby away from us—you!" she added, with a moan.

"Churchill says he's going to sue on the grounds of desertion and claim custody of the baby on the plea that I am—unfit," Cherry told her drearily. "He plans to use the evidence that Banning brought out against me during the trial. Oh, Faith, can he?"

"Of course he can't!" Faith reassured her vehemently. "He would have to prove that your conduct since your marriage has been such as to make you unfit to rear the baby, and you know he can't do that. Don't cry so, darling. Bob will know what to do."

"I'm going to see Churchill!" Cherry announced, raising her flushed, tear-wet face to stare at Faith with wild, defiant eyes. "He's got to fight—fight!"

The thought flashed across Faith's mind that fighting in the courts was terribly expensive, and that Cherry had no money—poor Bob! What had she let him in for?

Cherry whirled through her dressing, stopping twice to press a quick, passionate kiss upon the tiny, contented face of her baby as it nestled in Faith's arms.

"You don't mind looking after Midget for me, do you, darling?" she asked coaxingly.

"Of course not!" Faith reproached her. "But you'll try to be back before dinner, won't you? You know this is Thursday and Mrs. Lundy won't be back, so I'll have to be cook to-night."

"I'll hurry back and cook the dinner myself," Cherry promised her impulsively. "But I've just got to talk to Churchill and see what can be done. Custody of my baby! Oh, the precious!"

"You do love the midget, don't you, Cherry?" Faith asked, a lump in her throat making words difficult. "You didn't want her—"

"I'm mad about her! And she's so good! And so utterly beautiful!" Cherry laughed huskily. "Look, Faith, she knows her little mother!"

"You certainly look like a mother!" Faith scoffed fondly, as Cherry's tiny, fairy-like body whirled lightly toward the door.

"That's all right!" Cherry retorted laughing but well-pleased. "I have a plan that may prove I'm very much grown up. Just wait till I get back!"

When Cherry was gone Faith sat for a while with the baby held close to her troubled heart, held so close indeed that the infant whimpered faintly. How vile a man could be, she thought, sick with apprehension. Chris Wiley! For many long months his name had signified all things menacing and evil and now it had a new and more terrible sound than ever. But of course he couldn't take the baby—

When the child whimpered again in protest of her passionate embrace, Faith smiled at it through her tears, then hushed it to sleep, laying it in the gorgeous perambulator which Bob had bought. Then she rolled the stately carriage into the dining room where she could keep an eye on it while she went about her preparations for dinner. For of course Cherry would not return in time—

(To be continued.)

HOROSCOPE

The Stars Incline, but do not Compel.

(Copyright, 1927, McClure Syndicate.)

SATURDAY, JULY 16, 1927

Sinister stars rule today, according to astrology which finds the aspects threatening.

It is a day in which losses are more easily sustained than in usual circumstances and for this reason speculation should be avoided.

Pessimism is supposed to be encouraged by this rule of the stars which inclines the mind toward depressing thoughts.

Suicides may be extraordinarily numerous in the summer months and special danger is foretold for persons given to self-analysis.

Jupiter is in an aspect read as presaging business conditions more or less puzzling to merchants and manufacturers.

While prosperity will continue there may be elements of uncertainty that make caution appear important.

Real estate now is subject to a sway that is not promising to investors, who should be careful while this configuration prevails.

There is again a sign believed to foreshadow for farmers much concern and even resentment, which they will express in many ways.

At the end of this month or early in August speculation in food stuffs is foretold with sudden rise and fall in market prices.

Rumors of wheat shortage and foreign demand for grain may cause serious rise in food prices.

Demand for amusement may be even more insistent than formerly and theatres will benefit early in the fall, it is predicted.

Persons whose birthdate it is have the augury of a quiet year in which they will do well to take care of their money.

Children born on this day probably will be talented and very bright. Subjects of this sign are often interested in politics and public matters of all sorts.

HINTS ON ETIQUETTE.

1. Whom do you tip when summering in a hotel?
2. Do you tip by the week or each time you are served?
3. How much do you tip the head waiter at a medium-priced hotel? A waitress? A maid?

The Answers.

1. Practically every employe who serves you.
2. Tip waitresses and maids by the week, head waitresses upon being seated the first day and at intervals after that. Tip bell hops and other lesser employes when they serve you.
3. One to five dollars or even more. Five dollars a week or more. Two or more.

WHO WROTE THIS ?

(Copyright, 1927, by The McClure Syndicate, Inc.)

1. "A chaste and lucid style is indicative of the same personal traits in the author."
2. "The more we study, we the more discover our ignorance."
3. "One Country, one Constitution, one Destiny!"
4. "Few things are impossible to diligence and skill."
5. "Imagination rules the world."
6. "Every thought which genius and piety throw into the world alters the world."
7. "Humor has justly been regarded as the finest perfection of poetic genius."
8. "I was never less alone than when by myself."

Answers to Yesterday's Questions: 1, Voltaire; 2, Shakespeare; 3, Thomas Fuller; 4, Pericles; 5, Jonathan Swift; 6, Thomas Gray; 7, William Cowper; 8, Thomas Carlyle.

PREVENT WASTE.

Cereals spoil very easily, so it is advisable to keep only a small supply on hand and replenish often.

DRESS

By MARY MARSHALL

A green and red printed dinner frock with an uneven arrangement of the drapery at the right side.

"Practically everybody in the church wore a printed frock, with hat with drooping brim," I was told in a letter from a friend who had just attended one of the most notable of society weddings of the season. "Wasn't it year before last they had that terrible run on flowered chiffons? Why don't they get something new?" And there were double underscorings under the word new to indicate that my correspondent was not too well disposed toward the revival of the fashion for flowered chiffon frocks—or rather she was annoyed to think that women should have taken up this new fad with such unanimity.

Yes, there was what our friend calls a terrible run on flowered chiffons year before last. Everybody wore them. You could buy them in the cheap shops where twenty-five dollars is a high price for a dress and $14.98 just average. Factory girls wore them to work. The girl who sold hot dogs at the county fair wore one—so no doubt did you. And they hung in dizzying repetition on the racks where less expensive frocks were sold in the department stores.

You would think that they would have been done to death. But as so often happens the women whose taste seems to count—women who can afford to wear whatever they want—were oblivious of this overpopularity of the figured chiffon frock, or, at any rate, didn't concern themselves about it. Now for some reason or other it pleases them to wear figured chiffon frocks—and they wear them. Occasionally someone remembers that they had a terrible run two years ago, but what does that matter?

If you really like flowered chiffon or georgette frocks there is no good reason why you should not indulge your fancy. They are decidedly in the smart picture this summer, and they have the great advantage of not showing blemishes so quickly as frocks made of plain pastel or light colors. A wrinkle here or there, a bit of moisture from the outside of your glass of iced tea or lemonade, which would make an ugly water spot on the plain colored frock, hide themselves in the elaborate blending of colors of the printed frock. And often even the best-dressed and most fastidious of women take these little practical considerations into account in choosing their summer clothes.

SHOW'S FAT MAN IS AN AUSTRALIAN

Happy Jack Eckert Weighs 739 Pounds—34 Years Old.

"Happy Jack", the small man of the Miller Shows, weighing but seven hundred and thirty-nine pounds, entertains both old and young every night in his show at the Exhibition park this week. This gentleman, in an interview with The Examiner last night disclosed some very interesting facts concerning his "happy" life. "I was born in Sydney, Australia", remarked Mr. Eckert, and at the time of birth weighed the small sum of nineteen pounds. Both parents were of normal size, my mother weighing but ninety-eight pounds. I also have a brother, a physician who is of normal weight."

"I arrived in America when four years of age, and later was engaged for ten years with the Barnum and Bailey exposition, my weight then being three hundred and eleven pounds."

"What do you do for exercise?" Mr. Eckert was asked. "I roll on the floor and swing clubs. I used to ride a bicycle, but I fell off so much that that sport had to be cancelled.

"I go to Hot Springs, Colorado, every winter, taking steam baths to reduce, but the most that I ever took off was sixty-five pounds, and in five months I had it all back again, plus eighteen pounds more. I have never had a sick day in my life."

In giving his actual size, Mr. Eckert stated that he was one hundred and three inches around the body and thirty inches around the leg; he is five feet, seven and one half inches tall, and takes a seven and one half shoe.

"Happy Jack" has numerous badges and medals pinned on during his performance of which he is very proud, for they indicate that he is the winner of international contests for fat men, and also that he is the largest member of the Elks, the Moose, and the Woodmen of the World in the whole continent. "I eat well, sleep well, and have a good wife, and two children, so I have no worries whatsoever."

This "stout man" is but thirty-fours years of age.

COUNCIL MEETING.

Alnwick Township Officals Hold Regular Monthly Meeting.

ROSENEATH, July 13.—The Alnwick Township Council held their June meeting in the town hall on June 25. The members were all present with Reeve Gordon Parker in the chair. The minutes of the last meeting were read and adopted.

Moved by Albert Halstead, seconded by Erwin Brown that the Reeve sign orders on the treasurer for the following amount: N. R. Coyle, assessing Indian tenants, $5.00; James L. Timlin, gravelling, $24.00; Ernest Burrison, gravelling, $85.15; S. A. Tucker, making tile, $44.50; Ezekiel Brisbin, drawing gravel, $6.00; Frank Brown, gravelling, $5.40; Edward George, drawing gravel, $73.90; Mrs. Eliza Sandercock, gravel, $25.10; Canada Ingot Iron Co., grader blade, $8.00; James Webb, gravelling road, $49.70; Harold George, gravelling road, $85.00; Robert Linton, grading road, $90.00; Andrew Brown, cedar poles for garbage dump, $1.50; E. Ray Brown, shovelling gravel, $5.00; Wilbert Smith, gravelling and work, $71.15; J. J. Collins, 32 sacks cement, $20.80; The Pellar People, 96 ft. 10-in. corrugated culverts, $114.05; Ernest Crowe, 207 yards of gravel, $20.70; George Cook, 67 yards of gravel, $6.70; N. D. Timlin, 4 yards of gravel, $4.00; N. D. Timlin, gravelling road, $32.00; Alfred Braithwaite committee work, $1.50; Dr. J. H. Hershey, innoculating the school children and disinfecting school and trip to Peterborough for serum, $27.00; Dr. Hershey, attending Medical convention at Toronto, $30.00.

Moved by Erwin Brown, seconded by Alfred Braithwaite that this Council do now adjourn to meet on the 30th day of July, 1927, at 2 o'clock, p.m.

CAMPBELLFORD NEWS.

CAMPBELLFORD, July 15—Campbellford's contributions to the Tuxis Square and Trail Rangers Camp at Presqu'ile returned to town yesterday morning; each of the fourteen wearing a nice coat of tan and a hungry look. The boys report having had ten days heaped brim full of enjoyment.

Allan and Bob Platt of Cobourg are visiting their aunt, Mrs. Robert Moore. The boys will return home on Sunday.

The Girl Guides of St. John's Church were out in uniform last night for a meeting of their order.

Mr. and Mrs. W. E. McKeown of Chicago are visiting Mr. McKeown's sister, Mrs. Melvin McComb, Mrs. John B. Miller and other relatives will also entertain the visitors during their stay here.

Messrs. C. H. Nadoo, Thornton Ibey, L. Reynolds, and H. Davidson motored to Toronto for the Toronto vs. Baltimore game.

Mrs. Charles Macoun is lending her home for the next meeting of Seymour West Women's Institute on the afternoon of July 21st.

Only eleven days and "C" Company of the Northumberland Regiment will start conferring the degree of "C.B."

The Rev. Major Belford will be the preacher at Christ Church on Sunday morning.

DUNSFORD PERSONALS

DUNSFORD, July 15—Mr. and Mrs. James Thurston and son, Percy, of Gull Lake are spending a few weeks with her mother, Mrs. Wm. White, of this village.

Miss Laura Thurston of Toronto is spending a few days with her parents, Mr. and Mrs. T. J. Thurston.

Rev. and Mrs. Carmichael and family are enjoying a couple of weeks holidays at Thurstonia Park before going to their new home near Belleville.

Mr. and Mrs. Howard Graham and son of Lindsay spent the week end with her mother, Mrs. T. V. Thurston.

Mr. Charles Campbell and two children, Osborne and Eleanor, of Toronto, are spending a few days with friends here.

Mrs. Wood is visiting her sister, Mrs. Jack Elliot, at present.

Mrs. Neil Carmichael of Lindsay spent Tuesday with Dunsford friends.

Miss Richardson accompanied by her mother from Perth are spending a month's holidays in a cottage at Greenhurst.

"HOW clean my mouth feels" you will say after using Kolynos. Teeth, gums and mouth completely cleansed and refreshed.

THE HALL STORE

Canadian Department-Stores Limited

The Chain Store System SERVICE

ALTHOUGH the main purpose of the Canadian Department-Stores Limited is the lowering of cost prices through buying in great quantities, we are equally anxious to make our Store Service as efficient as possible.

To this end the managers of our twenty-two stores are constantly exchanging suggestions and experiences, and keeping in close touch, through the central Head Office, with the greater trade centres.

We are glad at all times to have the co-operation of our customers in suggesting means by which our store can be brought to a still higher point of convenience and usefulness.

ORANGE LODGES ANNUAL PARADE

Havelock Lodges Attend Divine Service at The Anglican Church.

HAVELOCK, July 15.—The Havelock L.O.L. No. 326 and the Lady McGill L.O.B.A. No. 471, held their annual church parade on Sunday evening to St. John's Anglican Church, led by the fife and drum band and marshalled by J. H. Toms. About a hundred and fifty were in the procession, including visitors from Norwood, Hastings, Marmora, Frankford, Roseneath, Blairton and Trent River.

The Rector, Rev. T. H. Stanley preached a very impressive sermon, based on verses 31 and 32 of the 22nd chapter, of St. Luke, "And the Lord said, Simon, Simon, behold Satan hath desired to have you that he may sift you as wheat: But I have prayed for thee, that thy faith fail not: and when thou art converted, strengthen thy brethren."

Mr. Stanley in behalf of congregation, expressed pleasure in having the Orange Order with them for worship. The splendid principles for which the order stood, "Equal rights and special privileges to none," might well be tacked on the church banner, he said, and also might well be tacked on the banner of modern democracy and, if being members of an order whose object is the attainment of a noble purpose in the world the question is, how are we to exercise our influence. We have in the text, he continued, the fact that Our Saviour prayed for Peter, and we believe He ascended to the right hand of God, where He intercedes for us as He prayed for Peter. Satan caused Peter to deny the great principles he was following, to deny his Saviour and we have sometimes in a moment of forgetfulness done the same thing. But there is the hope that Christ can lift us up which all as Christians look forward to and then when we have been brought into the proper relationship with Christ there is the command, "Strengthen thy brethren." Another name for this command the speaker said, was influence and then were two kinds of influence, conscious and unconscious; there are times whereby we know our lives have been influenced by certain powers, but the unconscious influence plays the greater part in the molding. The surface of the earth as we behold it to-day is the result of the gradual influence of the sun, rain, changes of seasons which have quietly molded it into its present condition and the condition of our lives are the result of the gradual molding of the influences of home, church, school, friends, members of an order and social and moral life. Everyone is influenced by everyone else and we little realize how much.

"When you have returned, strengthen your brethren," Mr. Stanley said was a call to everyone in the church. There is no doubt about the source of influence for Jesus who is the one outstanding personality, said, "Without Me ye can do nothing," and "I if I be lifted up will draw all men unto Me." The kind of influence you exert he said, is based on the reality of your Christian profession. If you exercise this greatest influence depends on how you stand in relationship to that greatest person of influence. In conclusion he said you cannot exert the Christian influence which your Order expects you to influence unless you go to the source of power, Jesus Christ.

CAMPBELLFORD NEWS.

CAMPBELLFORD, July 14.—Mrs. Walter Wiggins left yesterday morning for a short visit with friends at Rochester.

Among this year's graduates in science of the great university of Leeds is a sister of Mrs. J. H. Bell of town, who is herself a graduate in Arts of the same University.

Rev. Dean O'Sullivan of Port Hope, and his sister Mrs. E. R. Pegnam of Rochester, N.Y., are visiting their brother, George O'Sullivan, Booth street.

Mrs. Kenellar, New York, Mrs. J. McGrath of Bay City, Mich., and Mrs. (Dr) Morrisey of Wisconsin, are visiting with their sister, Mrs. Frank Lee at Bradley Bay.

W. I. Stillman has returned to town after a brief visit with Mr. and Mrs. Alfred Stillman at Belleville. While in Belleville Mr. Stillman was a guest at the Rotary Club luncheon on Monday.

Reeve Grills has returned from Cobourg where he was on county business in connection with the House of Refuge.

Mr. Ferris, the announcement of whose appointment appeared in The Examiner a few weeks ago, took over the office yesterday morning.

A large number of the young people from here took in the United Church excursion to Rochester yesterday, enjoying the full programme provided by the committee in charge. All report a delightful trip on Lake Ontario, and an enjoyable few hours in Rochester

DOURO NEWS

Mr. Edward Leahy is building a wall under his barn.

Mr. and Mrs. Archie Tedford were in Toronto this week to visit their small daughter, who is a patient in the Sick Children's Hospital.

Mr. and Mrs. Stanley Judge of Toronto are visiting the latter's parents, Mr. and Mrs. D. Tucker.

Mr. and Mrs. Johnstone and daughters and Mrs. Flynn and daughter of Lakefield were in Douro on Sunday for confirmation.

MANY FARMERS ASK FOR HYDRO

More Than 1,000 Miles of Transmission Lines To Be Built This Year.

GREAT ADVANCE.

TORONTO, July 15.—The Ontario Hydro-Electric Power Commission is having a hard time nowadays in meeting the demand for rural electrification, and in this particular field the fiscal year of 1927 promises to record the greatest advance since the policy of power for the farm and farmer was inaugurated.

Hon. J. R. Cooke, Hydro Commissioner, yesterday estimated that more than 1,000 miles of rural transmission lines would be approved this year, whereas in 1926 the corresponding figure was 750.

3½ Miles Daily

Last year the building of this type of line overaged two and a half miles daily. This year the average will reach the three and a half mark.

Pursuant to its "grants-in-aid policy"—that is, contributing 50 per cent of the cost of lines and equipment—the Ontario Government, in 1926, donated approximately $2,500 per day, which this year its daily subsidizing bill will, in Mr. Cooke's belief, "hit the $3,500 mark."

Most of the extension work is being done in the Niagara district, although applications from Eastern Ontario are growing more and more numerous. Mr. Cooke puts the demand down to "increased confidence in the Commission," and in the Government's "rebate policy." While according to him, the cost to the farmer-consumer averages about $7 per month—a big charge in comparison with the city user's bill—little complaint is now raised by the first-mentioned consumer because he knows that the Government program of storing up surplus earnings for rebate at appropriate times means that he eventually will get back the "excess" money he may now appear to be paying out.

Not 75 Per Cent. Yet

There has been some agitation recently for a 75 per cent. Government subsidy, but this, Mr. Cooke states, cannot possibly come for several years. Such a program, he points out, would have to be retroactive, and that would mean a lumpsum expenditure on the Government's part of at least $2,000,000.

"Wait," said he, "until we get the Ottawa and the St. Lawrence projects going, and are collecting rentals from them. Then we can talk 75 per cent."

IN POLICE COURT.

Job Barns appeared before Magistrate O. A. Langley this morning and pleaded guilty to the charge of vagrancy and was let go on suspended sentence when he promised to give no more trouble. He was arrested last night by Provincial Constable Maker at the Midway, where he was the centre of a fight.

IT PAYS TO ADVERTISE

THIS MAN FELT BAD ALL OVER

W. C. Packman, 7 Marentette Ave., Windsor, Ont., whose picture appears above, says: "Constipation was my trouble. This affliction was making me feel bad all over. I have found Husky splendid and I am sure that anyone troubled with constipation would do well to give it a trial." Good drug stores everywhere recommend and distribute Husky, the wonderful herb preparation.

Decoration Day Of the B.E.S.E.

The Canadian Legion of the British Empire Service League, Branch No. 52, Peterborough, will hold its annual decoration parade to St. Peter's Cemetery, on Sunday, July 17. The following is the programme:

Assemble at Canadian Legion Cenotaph.

Master of Ceremonies: President of Branch.

Parade will muster sharp at 1.40 p.m.

Peterborough Rangers' Band, Salvation Army and Machine Gun Corps bands to assemble on the Canadian Legion Lawn.

Main body of Veterans, etc., will assemble directly in front of the Cenotaph.

Anthem: "Meditation, " Massed bands. During the rendering of this Anthem, flowers and wreaths may be placed upon the Cenotaph.

Address: Short address by Rev. Captain Paul Costello, Chaplain C.E.F.

Lament: Machine Gun Corps Pipe Band.

Salute to Flag: Last Post and Reveille; Lieut. W. H. Peryrer.

March off.

Order of Parade: Canadian Legion Standard Bearer; Peterborough Rangers Band; Mayor and City Council and other guests; Canadian Legion Members; Machine Gun Corps Pipe Band; Ex-Service Men; Salvation Army Band.

At Confederation Square

Placing wreath on monument of Captain Browne, killed at Batcche; Lt.-Col. C. H. Ackerman, President of the local branch of the Canadian Legion.

At the Cemetery

On arrival at St. Peter's Cemetery, the parade will assemble around the platform; bands will be in the centre:

Hymn: "Nearer My God to Thee," Massed Bands.

Introductory remarks: Lt.-Col. Ackerman. Addresses, The Mayor, Rt. Rev. Bishop O'Brien, D.D.; E. A Peck, M.P.; W. H. Bradburn, M.P.P.; Rev. Captain Costello, C.E.F. Roll Call, Captain J. Abraham. Lord Lovatt's Lament, Machine Gun Corps Pipe Band. Last Post and Reveille, Peterborough Rangers' Band. Decoration of Graves, by Veterans present.

Proceedings will close with the playing of the National Anthem by the Massed Bands under the direction of Lieut. W. H. Peryer, Peterborough Rangers' Band, after which the parade will march to a point 150 yards clear of the Cemetery and dismiss under the direction of the Commander of the parade.

On Sunday, July 24, the graves in Little Lake Cemetery will be decorated.

FIRST YOKELESS EGG.

NEW YORK, July 15. — Adolph Goldberg is an egg candler; he has been one for 20 years. But not until the other day did he ever see an egg without a yolk. He took it to the Museum of Natural History, where officials agreed that it was the first on record.

SAVED 151 LIVES.

Tom McDonnell of Toronto Island, who is credited with saving 151 lives since he was 12 years of age, has gone into training in preparation for the $50,000 swimming marathon at the Canadian National Exhibition.

Gladys Roy, pretty Los Angeles flyer, holds records for parachute jumps at both high and low altitudes. Now she has made up her mind to fly from New York to Rome. A special Ryan monoplane, of the kind that Lindbergh used, has been selected as the machine in which she hopes to make the trip. Her co-pilot is Lieutenant Delmar L. Snyder of Cleveland, O.

NORMAL SCHOOL EXAMINATIONS

The results of the Provincial Normal Schools were announced this morning. Certificates were awarded to students attending the Peterborough School as follows:

Interim First Class Certificates:

Clara Adams, Trenton; Muriel Benson, Peterborough; Dorothy Bowerman, Picton; Jean Brown, Cobourg; Jean Burnham, Millbrook; Lyla Calder, Warsaw; Nora Costello, Downeyville; Ruth Eggleton, Stirling; Irene Frederick, Holloway; Catharine Gordon, Oakwood; Eleanor Grant, Colborne; Dorothy Isaac, Cobourg; Annie Lawrence, Peterborough; Flora Lean, Cobourg, Gertrude Lewis, Port Hope, Helen MacDonald, Campbellford; Alice Morgan, Holloway; Muriel Noble, Baltimore; Alice O'Neil, Gananoque; Olive Peck, Carrying Place; Helen Stuart, Peterborough; Isabelle Sutton, Lakefield; Helen Throop, Peterborough; Florence Walton, Peterborough; Hazel Williams, Marmora; Benjamin Dalton, Peterborough, Melville Pusee, Peterborough; William Harrington, Downeyville; Clarence Jackson, Peterborough; William Kells, Madoc; Lionel Nelson, Warkworth; George Northey, Fenelon Falls; James Robertson, Barrie; William Rome, Peterborough; James Thompson, Stirling; George Varty, Bogart

Interim Second Class Certificates

Hazel Akney, Uxbridge; Bernice Allin, Bowmanville; Keitha Babcock, Odessa; Pansy Ball, Fenelon Falls; Winnifred Batten, Peterborough; Anna Bell, Port Hope; Olive Blue, Crookston; Zita Boland, Indian River; Vera Bonter, Marmora; Violet Bothwell, Fraserville; Elva Bowen, Castleton; Anne Brown, Belleville; Christena Brown, Woodville; Mildred Brown, Peterborough; Marjorie Bryant, Norland; Lila Burgess, Norwood; Dreda Callaghan Corbyville.; Ila Capstick, Lindsay; Evelyn Carter, Consecon; Beulah Cosh, Bobcaygeon; Jean Craighead, Campbellford; Annie Dale, Allenwood; Clotilda Dinner, Bracebridge; Greta Davey, Orono; Mabel Dulmake, Peterborough; Estelle Duquette, Maynooth; Margaret Flynn, Peterborough; Mary Foley, Fraserville; Gertrude Fox, Cobourg; Anna Franks, Peterborough; Irene French, Napanee; Janet Ferguson, Madoc; Isabel Fry, Peterborough; Mildred Gawley, Eldorado; Anna Gentile, Peterborough; Gertrude George, Bancroft; Eva Gifford, Ennismore; Edna Glenn, Stella; Kathleen Graves, Picton; Irene Grills, Trenton; Dorothy Hall, Millbrook; Alice Hallowell, Orono; Annie Harrison, Fenelon Falls; Gwendolyn Hewie, Cameron; Hazel Hill, Burleigh Falls; Christine Hubble, Colborne; Mabel Johnston, Long Lake; Olive Johnston, Peterborough; Edna Kotcheson, Holloway; Florence Knight, Kingston; Geraldine Lasher, Peterborough, Jean Leavens, Belleville; Lottie Leggett, Peterborough

Veva Lloyd, Belleville; Mary Lockhart, Cobourg; Ruth Longmuir, Havelock; Susan MacFarlane, Shannonville; Norma MacLeod, Woodville; Ferne McCarthy, Keene; Maccine McGloughlin, Brighton; Beatrice McGuire, Napanee; Evelyn McInroy, Stirling; Jean McIntyre, Peterborough; Rose McKibbon, Picton; Cecilia McManus, Lakefield; Muriel Milligan, Centreville; Mary Mills, Cannifton; Marjorie Moore, Napanee; Luella Munroe, Grafton; Sarah Nealon, Wilfrid; Wilena Nelson, Keene; Viola Nurse, Bailieboro; Nora O'Connell, O'Connell; Evelyn Partridge, Warkworth; Agnes Petty, Pickering; Margaret Purdy, Colborne; Dorcas Randall, Napanee; Marion Rea, Omemee; Lenna Reid, Frankford; Myrtle Reid, Ivanhoe; Anna Retallick, Garden Hill; Laura Robson, Holloway; Helen Runnels, Dartford; Leone Sampson, Napanee; Kathleen Sanderson, Northport; Eleanor Stinson, Hastings; Lucy Sullivan, Downeyville; Vera Taylor, Bobcaygeon; Hazel Thompson, Madoc; Mary Torpey, Peterborough; Emma Totton, Harold; Evelyn Totton, Harold; Mildred Tretheway, Peterborough; Mary Truman, Kirkfield; Bessie Walsh, Marysville; Mary Whitfield, Bath; Robert Acher, Havelock; Wellington Duncan, White; George Ferguson, Woodville; Lester Fraser, Frankford; Lloyd Johnston, Grafton; Fred Lycett, Orono; John MacCrimmon, Mountain Grove; Garnet McGee, Hastings; Clarence McKague, Castleton; Hugh Montgomery, Brighton; Harry Redfern, Belleville; Francis Short, Oakwood.

Third Class Certificates.

Hazel Cavanagh, Peterborough; Mabel Dowson, Bowmanville; Ella Earle, Belleville; Stanley Falls, Kendall; Della Johnston, Uxbridge; Edna Johnston, Oshawa; Morlay Keegan, Stirling; Clara Luck, Oro Station; Mildred Lucy, Battersea; Wilbert MacDonald, MacLennan; Vera Miller, Collins Bay; Gladys Spencer, Campbellford; Helen Sproule, Odessa; Meta Thorne, Reaboro; Vera Thorne, Omemee.

Candidates who failed will receive a statement of their marks from the Education Department.

SUNDAY SCHOOL LESSON

DISCOVERING FUTURE LEADERS

The International Uniform Sunday School Lesson for July 17: Discovering Future Leaders.—1 Samuel 16:4-13.

By WM. E. GILROY, D.D.
Editor of The Congregationalist.

Out of the failure of Saul and the tragic suicide of a man who came to the kingly leadership in Israel under most favorable circumstances, but who went down to defeat through lack of moral discipline and through the insidious power of jealousy, comes another kingly figure whose career also was to be characterized by deep and tragic sins, but in whom, in contrast with Saul, the finer elements ultimately triumphed.

David, whom in our lesson Samuel is represented as annointing king of Israel, has become, through the Hebrew scriptures, a world figure of traditional greatness and interest.

Sweet Singer of Israel.

The Psalms, the beautiful and in some respects terrible poetry of Israel, are associated with his name, though probably only a limited number of these were actually psalms of David. He is known as the "sweet singer of Israel" though there are psalms that are terrible in their wrath and grandeur and that reflect the awful, rather than the sweet and tender and beautiful.

This varied character of the Psalms is representative of the strange contrasts in David himself. The "sweet singer of Israel" was a man of war, so bloody in his career and achievements that according to the records of the Old Testament, he was not permitted to fulfill the aspirations that he had for the building of the temple, and passed on that great achievement to his son Solomon.

David stands as a great representative figure in human life, and in the records of that life we can discern a great deal that is necessary for a well balanced judgment concerning humanity. David represents the way in which the highest and best aspirations of men have been oftentimes associated with the most tremendous temptations and with serious moral lapses. David, it should be remembered, besides being a man of blood was an adulterer and a murderer. In fact his adultery led to murder, for having wronged Uriah he sent that valiant man to his death under the most atrocious circumstances.

Show Honesty of Scriptures.

We must not, in justice to the Old Testament narrative and the proper study of the Bible, neglect these terrible facts and indictments that are recorded against David. Is it not a profound tribute to the high integrity of the Scriptures that they should record with such impartiality the evil deeds of David as well as the good things that were in him?

On the other hand, we should not allow even the foul sins of David to blind our eyes to the good that was in him. If there is one thing that stands out very strongly and clearly from the records of his life, it is this—that even a murderer may still have strongly marked upon his soul the image of his Creator and may have deep down in his heart, beneath his temptations and his falls, the appreciation of good and the aspiration for the higher life.

Lesson in David's Life.

The study of the life of David is calculated to produce in men a rare spirit of discernment in their quest of good, and it is in the power to see the good even in the hearts of men who seem wicked that we attain most nearly to the vision of Christ. Even concerning those who crucified Him Jesus said, "Father, forgive them; they know not what they do."

Our lesson brings David before us in the attractive quality of his youth, ruddy, and physically very beautiful. It is well that we grasp this picture as the necessary starting point in the study of a varied life strangely full of intense contrasts.

Future lessons tell the story of David's development, both in good and in evil ways.

Text: I Samuel 16:4-13.

And Samuel did that which the Lord spake, and came to Bethlehem: and the elders of the town trembled at his coming, and said, Comest thou peaceably?

And he said, Peaceably: I am come to sacrifice unto the Lord; sanctify yourselves, and come with me to the sacrifice. And he sanctified Jesse and his sons, and called them to the sacrifice.

And it came to pass, when they were come, that he looked on Eliab, and said, Surely the Lord's annointed is before him.

But the Lord said unto Samuel, Look not on his countenance, or on the height of his stature; because I have refused him: for the Lord seeth not as man seeth; for man looketh on the outward appearance, but the Lord looketh on the heart.

Then Jesse called Abinadab, and made him pass before Samuel. And he said, Neither hath the Lord chosen this.

Then Jesse made Shammah to pass by. And he said, Neither hath the Lord chosen this.

Again, Jesse made seven of his sons to pass before Samuel. And Samuel said unto Jesse, Are here all thy children? And he said, There remaineth yet the youngest, and, behold, he keepeth the sheep. And Samuel said unto Jesse, Send and fetch him: for we will not sit down till he come hither.

And he sent, and brought him in. Now he was ruddy, and withal of a beautiful countenance, and goodly to look to. And the Lord said, Arise, annoint him: for this is he.

Then Samuel took the horn of oil, and annointed him in the midst of his brethren: and the Spirit of the Lord came upon David from that day forward. So Samuel rose up, and went to Ramah.

Religious Fanatics Choose Death By Fire

LONDON, July 15. — Canadian Press. — Fourteen religious fanatics shut themselves up in a chapel at Kustanai, Siberia, set the building afire, and sang hymns while the flames roared about them, a Daily Mail Warsaw despatch declared yesterday.

The charred bodies of the singers were found by firemen in the ruins of the chapel, the despatch said.

According to the report the religion the fanatics followed had as its central idea death by fire.

The firemen who rushed to the scene when they saw the flames were unable to quench the fire or enter the chapel to rescue the victims.

CHEMONG REGATTA MEETING MONDAY

Cottagers Asked To Attend To Make Arrangements For Annual Event.

There will be a meeting of the Chemong cottagers on Monday evening to make arrangements for the annual regatta to be held early in August. The meeting will be held at J. K. Hughes' cottage and as several important matters are to be discussed a full attendance is requested.

MAY COME WITH PRINCE.

Maharajah of Rutlam, who with his diwan or prime minister, is on the way to this continent and may accompany the Prince of Wales' party to Canada. His highness the maharajah, who is at the head of one of the native states of India, has been invited to assist in the selection of a British army polo team to contest the honors with the United States army officers.

MOVIES SHOWN OF BIG PARADE ARE IMPRESSIVE

Fred Roy Has Splendid Pictorial Record of Peterborough's Procession.

THE WATER SPORTS.

Movies Show Two of the Outstanding Features of Celebration.

A moving picture record of the water sports and parade features of Peterborough's Diamond Jubilee celebration was shown by Fred L. Roy to Mayor Holloway and members of the City Council and other guests at a private review in the Roy Studio last night and the film taken by Mr. Roy was full of interest to those present. The picture covers every detail of the parade, showing every float and the other sections of the huge procession and as a souvenir of the biggest procession in Peterborough's history, is of rare value. It is remarkably clear and distinct as is too the film showing the water sports in which the tilting, aqua-planing, and other features of the Dominion Day morning programme are vividly portrayed.

Mr. Roy also exhibited for the benefit of his guests a film showing a fleet of the Peterborough Canoe Club's speeders doing amazong stunts including the raft-jumping feature.

WILSON M'DONALD MANY-SIDED MAN

This Poet of Accomplishments Is Also Musician and No Mean Juggler.

TORONTO, July 15. — Canadian Press. — Fine poets are frequently noted for their atrocious handwriting, but at least one Canadian "artist in singing words' is free from that questionable distinction. Wilson MacDonald, whose latest and perhaps highest achievement is his Confederation ode, is a master of chirography and might well claim fame for the delicate beauty of his handwriting alone. Copies of his poems in his own hand thus have an added value for those of his friends who possess them. In the middle ages when the transcription and ornamentation of manuscripts held an honored place among the arts he would doubtless have been acclaimed as one of the great illuminators, but in this era of typewriters fine penmanship has not so general an appeal.

Mr. MacDonald's artistic versatility extends to yet other fields. He is a virtuoso of the piano and an amateur composer. Frequently in the past he has arranged and directed amateur musical entertainments —light and airy productions for which he has written both the words and the music. These creations —though never of more than ephemeral interest always held the flavor of true poetry.

Even such digressions into closely allied arts give Mr. MacDonald a unique standing among poets, but he has wandered still farther afield, and somehow, somewhere, acquired astounding skill in leger-de-main. A few years ago many unpoetic souls knew him better as a juggler of cards, handkerchiefs and coins than of words.

At that time, though many of his magic lines were already in print, his poetry reached a very limited circle. He wandered about Canada penetrating rarely visited corners of his native land, and scorning the travelled highways for the intriguing by-paths, storing up the inspiration which later animated that strong portion of his work which is permeated with the distinctly national spirit.

Here and there he met an individual who accepted him for what he was—a poet; but everywhere he found scores eager to accord him adulation because he could snatch playing cards from the empty air, and pass a coin through a handkerchief without injury to either article. Now the musician, composer and juggler have been absorbed in the poet, but Wilson MacDonald still occasionally derives amusement from memories of the mystification he has caused in the past to simple persons who still had a lurking fear of black magic. On one occasion in British Columbia he nearly frightened a Chinese servant into a premature grave by drawing a stream of silver coins from the Oriental's nose.

PAYS FOR HAIRCUT AFTER 25 YEARS

DES MOINES, Ia., July 14 (By NEA Service)—Twenty-five years ago a man named Brown entered the barber shop of Philip Wenger, got a haircut, asked the barber for credit since it was his wedding day, and departed. The other day the same Brown, now superintendent of mails, got another haircut in Wenger's barber shop and paid the bill. Brown has been visiting the same shop all these years, during which time the unpaid bill has been a prize joke between the pair. Brown said he would pay on his silver wedding anniversary and he did.

The sp uce is more sensitive to smoke han any of the other ever-greens.

The Pacific Coast States have nearly 350 golf clubs and 70,000 golfers, not counting the thousands of visiting players each year.

CANADIANS WIN MACKINNON CUP

Dominion Marksmen Capture Third of Big Rewards.

TAKE WALES PRIZE

BISLEY CAMP, England, July 15. —(Canadian Press).—Company Sergeant-Major W. A. Hawkins, of Toronto, yesterday won the Prince of Wales prize. His score of 99 out of a possible 100 was highest recorded in the shoot, which was with service rifles at 300 and 600 yards. He wins the prize of $500 and the National Rifle Association's gold badge.

Hawkins won the King's prize in 1913.

Canada also won the Mackinnon challenge cup yesterday by 19 points from teams representing England, Scotland, Ireland, Wales, and other parts of the Empire.

Canada thus regained the trophy which she lost to Scotland last year by 14 points.

Coming two days after the Canadian victory in the great Kolapore shoot, the win today again demonstrated the Canadians' efficiency in team shoots. In the Mackinnon the teams were of 12 men each, compared with eight men in the Kolapore Cup.

The Dominion marksmen led by two points after the shoot at 900 yards, and increased this by another 17 points in the 1,000-yard range.

The Mackinnon Challenge Cup was offered by Col. Mackinnon in 1891. The Canadians also received special commemorative souvenirs from the National Rifle Association.

Cadet John Hunter, of Hamilton, came second in the Northland shoot in conjunction with the Prince of Wales prize. Hunter won $20. The winner was Sergt.-Major Hale, formerly of King Edward's School. Rev. E. Selwyn, of Cambridge University, was third, and Lieut. John McAvity, Saint John, fourth, winning $7. Cadet Elwood Matchett, of Hamilton, came ninth, and Lieut. MacGregor, of Ottawa, tenth, each winning $5.

The aggregate scores were: Canada, 1,105; England, 1,086; Scotland, 1,070; Ifeland, 1,046; Guernsey, 1,001; and Wales, 988.

Canada had the lead right through and for some time before the final shot it was only a question of how many ponits they would win by.

Lieut. Foreman, of Hamilton, was best Canadian with 98 out of a possible 100, including both ranges.

Canadian cadets are "members of His Majesty's forces" and thus eligible to shoot for the King's prize, classic of the N.R.A. meet here. The eligibility of the Hamilton cadets was definitely supported by the Secretary of the National Rifle Association in a statement to the Canadian Press yesterday. Some doubt as to this had been expressed in Canada.

In the first stage Wednesday Cadet Lieutenant Hilson, of Hamilton, tied with six others for leadership among the thousand marksmen from all parts of the Empire. He scored 104 out of 105, making two possibles at the 500 and 600-yard ranges.

Major Etches, Secretary of the N.R.A., when informed of a message from the Dominion questioning the cadets' eligibility, approached Captain J. R. Cornelius, of Hamilton, the cadets' leader, in the presence of a Canadian Press representative and Brig.-General Duff Stuart, of Vancouver, who is commandant of the Canadian team.

Captain Cornelius declared the cadets were on the roll of the 13th Hamilton Regiment, and, in fact, they had their uniforms with them at Bisley.

"Then they are certainly eligible," said Major Etches.

Cadet E. Matchett, also of Hamilton, is another cadet competitor for the King's prize, under the ruling. In the first stage Wednesday he scored 103, scoring a possible at the 600-yard range.

Sergt. J. A. Gray, of Toronto, a member of the regular Canadian team, tied with Matchett. Other Canadian regulars qualified for the second stage today are: Q.M.S. Wood, Lieut. J. E. Foreman, of Hamilton; Sergt. G. Emslie, of Toronto; Lieut. Desmond Burke, of Ottawa; C. S. M. Hawkins, of Toronto; Corp. J. S. Douglas, of Montreal; Lieut. K. R. MacGregor, of Ottawa; Corp. E. G. Stock, of Toronto, and C.Q.M.S. Alex. Parnell, of Verdun, Que. All had 98 or better.

A pleasing feature was the qualification of both the Canadians who have previously won the King's prize —Hawkins and Burke.

YANKS LOSE TO INDIANS

Put Stop on Eight-Game Losing Streak by 4 to 1 Victory.

ERRORS COSTLY

NEW YORK, July 15.—(Canadian Press.)—Steady pitching by Walt Miller stopping an eight game losing streak of the Indians at Cleveland yesterday as the Yankees fell victims by 4 to 1. New York played loosely and made five errors, three of the number figuring in the Cleveland runs. Miller struck out Ruth and Gehrig on six pitched balls in the fifth. Both of the Yanks' stars were unable to make a safety. Tony Lazzeri left the contest in the first due to a lame shoulder, Koenig replacing him.

The Browns were outslugged at St. Louis but they hit when needed most and won the third consecutive game of the series from the Boston Red Sox,4 to 2. George Sisler, who hit in eight consecutive times at bat Tuesday and Wednesday, failed to connect until the sixth inning today, when his double scored two runs.

CUBS DEFEAT BRAVES 6-1

League Leaders Win Third Game Out of Four Played.

FIELDING ERRATIC

NEW YORK, July 15 (Canadian Press).—Osborn's pitching was the predominating factor yesterday as Chicago defeated the Braves at Boston 6 to 1. He held the Braves to seven hits, and enabled the League leaders to win their third game out of four so far played in the series. Boston's fielding behind Robertson was erratic. Catcher Hogan was forced to leave the game in the second after an injury to his hand.

Pittsburgh squeezed through to a six to five victory at Brooklyn, Cuyler's base drive sending Paul Waner home with the winning run in the ninth. Vic Aldridge yielded only eight hits against 14 which were totalled by his team-mates off five opposing pitchers.

Cincinnati won twice at New York, 8 to 6 and 8 to 3, which was as many triumphs as the Reds had at the Polo Grounds during all of last season.

Cincinnati pulled out the first game with a five-run rally in the ninth. Critz, who hit his first home run of the season in the seventh, hit another in the final inning with Sitzmann on. Later in the session, Pipp won the game by banging another four-bagger, scoring two ahead of him. Walker was the big noise in the night cap, belting a homer, a double and two singles in the Reds' assault of Barnes and Bush.

The Phillies broke the Cardinals' winning streak of four in a row at Philadelphia by hitting Rhem hard and beating the champions by a score of 7 runs to 3. Fred Leach, who had a perfect day at bat with a single, two doubles and a home run, drove in three of the Phillies' runs and scored two of his own.

BAILIEBORO LOSES GAME IN PORT HOPE

Errors Cost Visitors Game, Nine Runs to Six.

BAILIEBORO, July 15.—The Bailieboro hard ball team journeyed to Port Hope on Monday evening and played the return game with the "Beavers" of that town. The game, which was played at the town commons, was a snappy one from start to finish. Both teams played good ball but the Beavers took advantage of several errors and won the game 9-6.

Stan Snell did fine twirling for the Port Hope team and was given fair support. Archie Deyell, who has been out of the game for the past week with a sprained ankle was on the mound for Bailieboro and showed his usual form. Philips and Pethick turned in an exceptionally fine game for the Beavers while Woods and Johnston were the star players for Bailieboro.

The line up:

Beavers—J. Pethick, c; S. Snell, p; G. Highfield, 1b; C. McElroy, 2b; E. Wade, 3b; L. Wakely, ss; S. Greenway, rf; B. Philips, cf; C. Clayton, lf; J. Lenty, sub.

Bailieboro—H. Dean, c; A. Deyell, p; R. Barnard, 1b; W. Johnston, 2b; K. Barnard, 3b; M. Woods, ss; A. Dawson, rf; H. Cardwell, cf; G. Dean, lf; C. Ballantyne, sub.

Score by innings:

Beavers .. .. 0 1 2 4 2—9
Bailieboro .. .. 3 1 0 1 1—6

DOG USES PHONE.

WINSTED, Conn., July 15. — A telephone operator trying to put through a call was alarmed to find the line open and the sound of labored breathing coming over the wire. The owner of the house was reached and hurried home to find his dog lying close to the instrument, which he had knocked from a table.

CANADIAN HENLEY THIS MONTH WILL BE GREATEST IN HISTORY

Oarsmen to Gather at St. Catharines From Many Great Rowing Centres.

ADVANCE OLYHPIC TRIALS

Canadian Oarsmen to be Spurred on by Thought of Next Year's Goal.

ST. CATHARINES, Ont., July 15.—(Canadian Press).—The return of Joe Wright, Jr., from the English Henley, and the fact that the final Olympic trials will take place here next year, add increased importance to the Royal Canadian Henley Regatta at the Henley course near here on July 28, 29 and 30. It is the 45th annual meeting of the Canadian Association of Amateur Oarsmen, and prospects are for keen competition between Canadian oarsmen and rowers from across the line, who annually gather here in force.

Joe Wright is considered about the finest amateur sculler in the world, despite his loss of the famous Diamond Sculls at the English Henley early this month. The mishap which cost him the titular supremacy is already outstanding in the annals of world sculling—how he was leading by a length, only 30 feet from the finish, with victory in his grasp; how his oar caught in a rope from a punt at the side boom, and how all his efforts could not straighten out his shell again, while Lee of Oxford passed the finish line the winner.

Joe cannot gain the Diamond Sculls at the Canadian Henley, but he will go after the senior singles championship, won last year by Walter Hoover of the Undine Barge Club, Philadelphia, a former holder of the Diamond Sculls. As Wright won the American senior singles championship at Philadelphia before going to the English Henley, it is confidently expected that he will re-assert his supremacy on this side of the ocean.

The Toronto sculler, always provided he returns from Europe in time, will surely be the favorite for the senior singles, no matter who his opponents may be. Joe made an American Henley record this spring, 7.39 4-5; and he rowed his two heats in the English Henley in 8.49 and 8.57, in one of them beating T. D. Collett, perhaps England's greatest sculler, and on a course notoriously slower than Canadian and American waters. Hoover's time in winning here last year was 9.14 1-5.

Keen Competition.

Besides the senior singles, the Canadians have to recover from the United States the famous Hanlan Memorial Trophy, for eight-oared crews, won last year by a crack eight from Wyandotte, Michigan.

Vancouver and Winnipeg are sending crews, and Frank Adams, well-known single sculler, is coming from the Pacific Coast. Large representations will come from Montreal, Ottawa, Toronto, Hamilton, Wyandotte, Detroit, Buffalo and Philadelphia clubs.

The only "fly in the ointment" is that the long and eagerly-awaited new grandstand is not yet an actuality. There has long been a persistent agitation for a modern, well-appointed grandstand for the course, which itself is permanent.

United States competitors last year made away with the singles championship and the Hanlan Trophy, but that they did not have things all their own way was demonstrated in the point standing. Toronto Argonauts led with 17 points; West Side, Buffalo, was second with 16; Toronto Dons, third with 13, and the others finished in this order: Lachine, Montreal, 12; Niagara Club, St. Catharines, 11; Detroit R. C., 8; Undines, Philadelphia, 8; Winnipeg R. C., 7; Wyandotte, 6; Ottawa R. C., 5; McGill, 5; Brockvile, 3, and Toronto University, 2.

Officials.

The first day, Thursday, July 28, is devoted to elimination heats. On the second day the competitors are reduced to finalist dimensions, and on Saturday all finals are decided.

The officials will be: Referee, P. J. Mulqueen, Toronto; associate referee, S. F. M. Smith, Toronto; starter, Harvey Pulford, Ottawa; associate starters, T. H. C. Allison of Toronto and Len Johnson of Lachine; judge, Robert Dibble, Toronto; associate judges, Gordon Dunlop of Ottawa and Boyd Little of Toronto; timer, J. C. McCuaig, Ottawa; associate timers, E. C. Cossit of Brockville, S. Elliott of Lachine and H. P. Williams of Detroit; and clerk of the course, R. D. Schram, St. Catharines.

Title-Holders.

The championships and title-holders, with the times recorded last year, are as follows:

Senior singles—Walter Hoover, Undine B. C., Philadelphia, 9.14 1-5.

Senior doubles—McDonald and Conacher, Winnipeg, 8.38.

Senior fours—Argonauts, Toronto, 8.04 3-5.

Senior eights (Hanlan Memorial) —American Legion, Wyandotte, 7.20 3-5.

Senior 150-lb. eights — Lachine, Montreal (no time taken).

Senior 140-lb. eights—Detroit R. C., 8.02 1-5.

Senior 150-lb. fours—West Side, Buffalo, 8.04 2-5.

Senior 140-lb. fours—West Side, Buffalo, 8.40 3-5.

High school eights (one mile) — Ottawa R. C., 5.50.

High school fours (one mile) — Malvern, Toronto, 5.27.

Working boat fours (one mile) — McGill University, 9.05.

Clayworth Takes Secor Hotel Stakes

TOLEDO, Ohio, July 15.—(A. P.) — Clayworth, a rank outsider, driven by Flaxico, a recent graduate of the half mile circuits, raced to unexpected victory in the $20,000 Secor Hotel trotting stake at the Grand Circuit meeting here yesterday.

Clayworth took the first two heats of the race, assuring himself victory before rain interceded to cause the postponement of more than half of the programme until to-day.

PLAY DAVIS CUP-TIE ON TORONTO COURTS

The Davis Cup tie between Canada and Cuba is being played on the courts of the Toronto Tennis Club on Thursday, Friday and Saturday of this week. The Cuban players are pictured above. On the RIGHT is: Rogelio Paris, champion of Cuba in singles and doubles captain of the team; very steady player; chops the ball frequently. In the CENTRE, Dr. Vicente Banet, runner-up in Cuban championships. Dr. Banet has the best form but is not as steady as Paris. He is deadly overhead. On the LEFT, Mario Avellanal, who will most likely be the substitute. He is brilliant, but lacks experience and tends to erratic play. The player BELOW is Raul Chicon, who plays on the doubles team with Paris. He lobs very skillfully.

SWIMMING SIMPLIFIED

TIMING OF ARM CYCLE IB CRAWL AIDS PERFECTION OF STROKE

By James A. Lee.

Here's how you can master the arm action in the crawl stroke: Let each arm emerge comfortable extended but, as one draws clear, throw the hand outward and around to make the forearm form a half-circle, folded at the elbow. When the forearm points ahead, start the arm forward, a few inches only above the surface.

This brings about more complete muscular relaxation during the recovery and better enables the head and shoulders to retain the correct position.

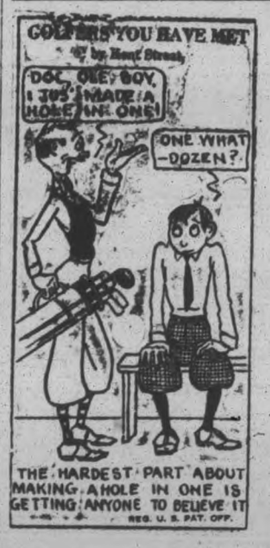
Each arm should drive from a point close to an imaginary line drawn lengthwise through the middle of the body, so that the left dips in front of the left eye and the right in front of the right eye.

When entering the water, each arm, with palm down and fingers closed, should be a little short of full reach, a trifle bent inward from the elbow. The arm should sweep backward steadily, bending elbow after about one-fourth its pull. Hold arm under the center of the body until it nears the thigh and the elbow moves backward slightly ahead of the hand, enabling the forearm to retain lifting and moving pressure on the water.

As the hand nears the thigh, it swerves outward and, just before it emerges, it is turned inward, palm toward the leg.

The arm cycle should be so timed that each will start its drive before the other leaves the water in recovery.

TO-MORROW: The Leg Drive.



KIWANIS WIN FROM LINDSAY

Take Early Lead To Defeat the Lindsay Intermediates 9-6.

FIELDING GOOD.

Taking a three run lead on homers in the first frame, by Lebarr, Baker and Westbrook, Kiwanis Juniors, city league champions, pounded the Lindsay intermediates for a 9-6 victory in the exhibition game at hit into centre field nearly made a fourth tally in the same inning but was sought on a long chance by a Lindsay fielder.

Both teams played well for the remaining part of the game, many close plays being registered.

Kiwanis Juniors will meet Argos of Regina, western champions, in an exhibition game at the Riverside park on Monday night.

Line-up:

Lindsay: Balfour, R. Forbert, Killen, Fever, Switzer, R. Forbert, Houzer, Goodhand, Morin.

Kiwanis: LeBarr, Sturgeon, Baker, Westbrook, Hall, Hollingsworth, Gillespie, Hutchinson and Guiry, Board.

GORDON CUP-TIE ON SATURDAY

Quakers and Thistle Play at King Edward Park at 3 O'clock.

The semi-final of the Gordon Soccer Cup takes place on Saturday afternoon when the Quaker Oats meet the Thistle at King Edward Park. Kick-off at 3 o'clock. John Warde is the official referee.

The Thistle eleven will not be chosen until the last minute before the hour of starting, and every player associated with them is requested to be at the pavilion no later than 2.45 prompt. During the last three years the "Jays" have held possession of the trophy.

The Quaker Oats team will be: W. Curtis, goal; S. Maker and H. Curtis, backs; A. Maker, J. Wade, and Carmichael, half-backs; A. Wilson, Horn, Mitchell, T. Wilson, and Foster, forwards. Reserves, T. Williams, J. Mayette, and Walker.

Arrangements have been made so that the De Laval sweaters will be worn by the Quakers.

FAST JUNIOR TEAMS MEET

Argos of Regina Play Kiwanis Here on Monday Night.

RIVERSIDE PARK

The Kiwanis Juniors, winner of the Junior City Baseball League, will meet the Argos of Regina, champions of Western Canada, in the James Stevenson Park, on Monday night, at 5.30. The Argos are a very fast team and have well earned a Dominion-wide reputation. Last year they made a tour of Eastern Canada, and it proved to be so successful that they have been asked to tour again this year.

When they meet Jack Deannard's team they will have real opposition for Peterborough has one of the best junior teams in its history. The team went through its schedule without a loss and has played excellent baseball.

Hardill has been pitching, and in the last game played he had 14 strike-outs to his credit. Ted LaBarr, Jake Hall, Ken Baker, Bim Sturgeon and Bud Westbrook have been working well together in the infield. The outfield positions have been held by Gillespie, Hunt, Fraser and Hutchinson.

Baseball fans will be assured of seeing a real snappy game of ball as the locals are determined to carry off a win.

JONES SCORES 72 IN SECOND ROUND

Leads Field After 36 Holes in British Open Golf.

ST. ANDREW'S, Scotland, July 15 (Canadian Press). — Grim-faced and bareheaded, Bobby Jones fought his way over the St. Andrew's course yesterday, and scored 72 for his second round in defence of his title of open golf champion of Great Britain. With his sensational 68 of Wednesday, he stood with 140 as the leader of the field after 36 holes, with 36 holes to be played to-day.

Two strokes behind the Atlanta, Ga., amateur at the half-way mark was B. Hodson, a 21-year-old assistant professional at the golf club at Tenby, Wales. He scored 70 yesterday, three under par, to add to a 72 of Wednesday, for a total of 143. Two strokes further back was the Australian, Joe Kirkwood, now a professional at Albany, Ga.

Last night all but 53 of the 108 players who started the 72-hole test on Wednesday morning had been eliminated. All fifteen strokes behind the leader have ended their championship quest for this year. Among those who had scores of more than 154 and passed out were "Wild Bill" Melhorn, New York, Larry Baelholtz of Sharon, Pennsylvania, John G. Anderson, New York amateur, and Rene Golias, of France.

Young C. H. Cotton, of the Langley Park Club, and Tom King, of West Norfolk, were bracketed in the fourth place with 145.

The honours for the best round yesterday went to G. R. Buckle, Egbaston professional, who turned in a card of 69, which added to his 77 of Wednesday, placed him a tie for fifth position with Aubrey Boomer, of St. Cloud, France, who also had a sensational round of 70. Both have totals of 146. A stroke behind this pair was Percy Allis with 147.

Len Nettlefold, the Australian amateur champion, who was in second place with 71 at the conclusion of the first round blew up yesterday and needed 81 for a total of 152. Cyril Tolley, British amateur, made par with a 73, but his 77 on Wednesday practically put him out of the running.

Tom Stevens, of Los Angeles, Jim Barnes, of New Rochelle, N.Y., and Walter Kennett, of Palma Cela, Florida, were among the successful players who qualified for the final 36 holes, and such well-known Britons as Ted Ray, Alex. Herd, Dr. George Tweddell, the amateur champion, James Braid, P. Newbury, Peter Robertson, Robert Harris, Raymond de Montmorency, T. Perkins, Mark Seymour, Archie Compston, and J. H. Taylor, also kept within the fifteen-stroke zone. But none is conceded much chance to win the title unless something miraculous occurs.

Not On His Game.

Jones was not on his game yesterday, and his round was hard grinding work. His tee shots would not behave, and he missed putts here and there, some of them short ones, but he kept plugging away with his sights on par. He was finally rewarded by getting one stroke below the 75 which St. Andrew's calls perfect. Not the least of his hazards was furnished by his admirers. Hosts of enthusiastic Scots jammed this ancient seaside city to see the champion play shots that thrilled their golfing souls.

Bobby said that it was the hardest round he had ever played, and those who followed him could well believe it. He was not hitting the ball with the accuracy which often makes his game monotonous in its very perfection. But when the scores would not come of their own accord, he went out after them, and nailed them struggling to his card.

Predictions that the championship would develop into a one-man affair were justified by the day's developments. Bobby took all the crowd with him. The eager rushing assembly that anywhere but on a golf course would be called a mob, swept against and almost trampled under foot the other players trying to make their way through the fairways.

Bobby Matthews, who pitched gilt-edged ball in big and little leagues for twenty successive years, weighed only 115 pounds.

WILSON'S BACHELOR

OVER 7 MILLION DRINKS A DAY SOLD

A FAVORITE DRINK FOR FORTY YEARS—It had to be good to get where it is.

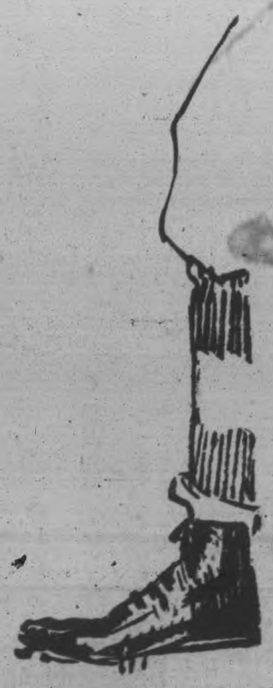
Give me summer-time!

"I want to go camping—swim—use my bat and glove. . . . And I like summer-time meals! Breakfasts, with fresh-picked fruit. Bowls of Kellogg's Corn Flakes—and nice cool milk or cream!"

What a flavor-treat Kellogg's are these summer days! So delicious and crisp — more than 11,000,000 people daily demand them! So easy to digest they really help you to keep fit and cool!

Serve for lunch. Dinner. Extra delicious with fresh or canned fruits added! Or honey! Order at restaurants and hotels. On dining-cars. Sold by all grocers.

Made by Kellogg in London, Ontario. Oven-fresh in the inner-sealed red-and-green package. Imitations cannot equal such wonder-flavor. Demand the genuine!



Kellogg's CORN FLAKES

Jungle Breath

© 1927 by NEA Service

by Ben Lucien Burman

(Continued from yesterday.)

THIS HAS HAPPENED

Attempts have been made on the life of ELISE MARBERRY, an American girl owning considerable property near the little town of PORTO VERDE, in west central Brazil. She has escaped harm due to the shrewdness of her cousin and protector, VILAK, who with his friend, LINCOLN NUNNALLY, an elderly American chemist, is trying to learn the reason for the strange enmity for Elise.

Living near Porto Verde is one GAYLORD PRENTISS, a strange and forbidding character, who has evinced a hatred for Elise.

TINKY, Elise's two-year-old orphaned nephew, is kidnapped. A native reports Prentiss has been seen with the baby. The trail leads into the jungle.

Calamity overtakes the expedition Vilak organizes in pursuit. Native trackers are injured or desert. Treachery breaks out. Their white friends are fever victims and are left with a friendly tribe.

Elise, Vilak and Nunnally finally emerge from the jungle. Presently they come to the outskirts of a strange city, resembling the old Inca civilization. Here they are made prisoners. They discover they are in the power of CARLOS D'ALBENTARA, whom they had known as an engineer back in Porto Verde.

The black ruler of the city decides to marry Elise and to put Vilak and Nunnally to death. They are to be tortured at the feast of Raymi.

NOW BEGIN THE STORY

CHAPTER XLII.

A purplish dawn brightened the sky and pronounced their experiemnt a failure. That night Vilak tried again. Again he failed. Either the stone structures were unattractive to rodents and the termites, or the volcanic soil contained salts which made their breeding difficult.

Night after night passed, always bringing with it some new attempt which a few hours of racking trial proved futile.

At last when Vilak with his fingernail had scratched ten marks in the wall to number the days of their captivity, D'Albentara entered on his regular tour to see that his prisoners were safe and casually informed them that only three days remained until the feast of Raymi.

"A most interesting feast, most interesting, amigos," he murmured as he wiped his face with a silk handkerchief newly bought in Porto Verde. "It is to me most sad that you cannot think of beholding it with pleasure. You know the feast of Raymi, is it not so, cavalhieros?

"It is the feast of the sun, the end of the rainy season, winter, as you call it, when the sun has traveled farthest from its children and now turns to come back once more to warm them. Many are the Indian tribes who have it. Even those of the Indians of the great, the beautiful North America? Is it not so? But here it is most picturesque of all, amigos. The African in the blood, is it not so? And I, too, have made a few improvements. All in the way of business," he hastened to add.

"Yes, it is most regretful that you cannot see it as my guests. For many of the most interesting, let us say spectacles, will occur when you are dead. Or dying, amigos. Which is not pleasant . . . for you. Nor for me, cavalhieros, though this you will not believe. Much would I prefer to hold you as my cherished friends. But business, always business, this will not permit.

"Three more days, amigos. Then at sunrise you will be laid upon the altar of the fire-god, to await the moment for the sacrifice. Which may be the first day of the feast or which may be the last. But which will surely, O amigos, not be long. Use well your time."

He strode out smiling, pulling the ends of his mustache.

That afternoon Vilak saw a procession pass through the courtyard. At its head was Elise, carried on a litter borne by four men.

Her face was pale and drawn as though she had been eating little; her black eyes had narrowed and darted nervously, feverishly about her at any sound, any movement near her, as do the eyes of a nervously overwrought invalid who has not slept for days.

She was still wearing the hunting suit she had donned in Porto Verde. Following her waddled a fat half-breed woman with three golden rings in each distended ear and an apron of painted bark at her waist; around her arms were tattooed three scarlet lines.

Eight other women came in two files behind her, garbed in the same fashion except that the rings in their ears were fewer and their tattooing and the decoration on their aprons less brilliant. The huge chief stood on a stone seat and watched, grinning. On a smaller seat sat D'Albentara. Standing at their feet was the half-breed with the enormous nose.

The procession entered the ruined temple, remained half an hour while the prisoners could hear far-off voices raised in a droning chant, then reappeared and crossed the court once more.

Elise's European dress had now given way to a robe of brilliantly colored wool. Her long, magnificent black hair had been cut very short and twisted into tiny ringlets which hung grotesquely about her forehead. Into these green birds' feathers had been woven. Batalagos saw her. He giggled in delight. The procession disappeared into one of the doors of the chief's apartments from which it had come.

Vilak chewed his lip. A tiny spot of red appeared on the pink surface. He had bitten through. He closed his jaws stonily.

After the guards had brought the customary food and departed, he redoubled his efforts to escape. He rolled over every stone of the floor, ran his fingers along every cranny in the wall that his shackled hands could reach, tugging here, thrusting there, hoping to find some section of the wall which time and decay had weakened, and through which he could perhaps force his way into some other portion of the building and there find means to free himself and his friends. He found nothing; the walls and floor were solid as a mountain side.

He turned his attention to the stones about the window. Here, too, he could discover no weaknesses. While he was so engaged, he saw a shadow beneath his window. He craned his neck forward. The shadow disappeared. He returned to his groping investigation.

He came upon a tiny rock splinter hardly larger than the joint of his finger wedged in a crevice. Carefully he dislodged it and examined it closely in the moonlight. It was rounded and had no cutting edges. He began to rub it against the stone floor to make it into a knife, holding it almost under his body so that the sound might be checked and the guards not aroused.

The work was slow, tedious. The rock was hard as granite; his position, strained, uncomfortable, greatly limited his strength and effectiveness. Though he spent the entire night working in this laborious fashion, when morning came and he was compelled to cease there was no more of an edge than when he had begun.

The next night he recommenced the task. Then, finding that all his efforts only succeeded in giving a high polish to the stone, he was reluctantly convinced that he was merely dissipating his energies. He replaced the splinter in the crevice where he had found it. As he had examined ten times already, he again looked at the edges of the stones forming the windows to see if there was a single projection against which he could rub his fetters and wear them down until they snapped. Here again he found nothing, only smooth rounded surfaces, which testified to the expert craftsmanship of the long dead builders.

The next day he determined to try an expedient he had so far left unused; bribery. When the guards entered on their morning rounds, he told them in Guarany that he would give them many presents and charms if they would help him escape. They listened willingly and were impressed. But Batalagos, they muttered, was very, very wise, instantly he would know their treachery, instantly would he kill them. And then what use would be their presents?

In the afternoon signs of the approaching festival began to be noticeable in the courtyard. Numbers of Indians began to walk to and fro through it, carrying great bundles of mountain and forest flowers and a sort of Indian corn which grew in the region. These they hung in strands upon the walls of the buildings or placed in great mounds at the foot of the stone shafts and idols and upon the flat, table-like stones.

A few of these Indians were lighter-skinned than the others and seemed to have more finely molded, more intelligent faces. As each passed the fire burning before the two idols, he carefully tossed a flower into it and made a low obeisance.

Night came. The workers did not depart. Instead they took seats upon the ground around the fire crackling within a circle of small, triangular stones. Other Indians began to file in and take places beside them.

Soon the court was packed with a mass of naked, silent savages. Then through the throng strode four men whose painted and feather-decorated bodies pronounced them priests. They were followed by Batalagos, now wearing a robe of purple-dyed wool fairly covered with gold ornaments. With him was D'Albentara, clad in a similar but somewhat less magnificent mantle, and the ugly-nosed Indian.

They assembled before the fire. The chief stirred it with his ceremonial wand. The fantastically garbed priests danced and prayed that the sun might not be clouded during the three days of the feast of Raymi, the feast which was to do him honor. The priests danced again.

An old man, with face wrinkled like a nut, so weak from age that he could not walk without two tawny youths he used like crutches on either side, came forward at the chief's grunted command. He began to tell of the feast of Raymi of his far-distant childhood, then of the feasts of Raymi greater than men's feasts, the first feast of Raymi when the little gods worshipped the mightiest god, their master, the sun.

Hour after hour he told the legends of the moon, the stars, the sacred rainbow; the legends of the mountains and the desert and the gods roaming them who were sometimes surprised in their hunting or their pleasures by far-wandering men. His hearers listened rapidly. An hour before dawn, at another grunt from Batalagos, he ceased.

"There's the story of the man who walked through the fire again," murmured Vilak, who had been listening to the old man's voice rising shrilly from the flame-dancing redness beneath him. "Spread all over this section of South America. Undoubtedly these fellows got that much at least from the Incas, directly or indirectly. And the Incas brought it from the Orient, I'd take oath to that.

"I've heard that story too many times in the Malay Islands and seen the shamans there walk through fire too often not to recognize an old friend when I see it again. Wonder whether the halt in the ceremonies has anything to do with us? If I can't think of something pretty soon we'll be in rather a bad way. I wish to the devil I could get at my cigarets and have a smoke."

The four white-and-green painted priests made a new obeisance to the fire, once more droned a prayer. Then with a file of warriors carrying torches behind them, they made their way into the ruined building where Vilak and the old man were confined.

They reached the prisoners. Four of the soldiers put each upon a crudely made litter of boughs and carried them down the stone steps into the fire-lit enclosure. A low, excited murmur ran through the crowd as they appeared. The soldiers deposited the litters near the seven table-like stones radiating out from the one-armed idol. Quickly the priests placed them upon adjacent stones, secured their cords to rings cut in the surface of the rock. Batalagos looked on and gave his usual silly giggle of pleasure; D'Albentara smiled urbanely.

There was a short ceremony. Then a young deer was flung down upon the largest stone, a sort of altar directly under the arm of the idol, and killed with a knife. The priests examined the entrails; the marriage and sacrifice were set at sunset of the following day the second day of the festival.

Suddenly the king spoke softly to D'Albentara. The Portuguese clapped his hands. The watching multitude fell to the ground and lay there groveling, while Batalagos waddled slowly forward to the ruined temple. He reached the door and disappeared inside.

Five minutes later dawn began to streak the horizon. A cry of joy went up from the black and tawny savages, still prostrate. A moment later the chief reappeared. The worshipers scrambled to their feet and began to move away. Soon the court was empty except for a single kinky-haired soldier standing guard.

AMATEUR NIGHT FOR SWIMMERS

Thirty Entries For Contests at Water Circus This Evening.

SPECTATORS AS JUDGES.

"The water circus," one of the biggest features of the Miller Exposition at the Exhibition Park this week, will to-night, under the personal direction of the manager and swimming instructor, offer something new to its former and new patrons by staging an Amateur Night at which over thirty young men of the city and district who have some knowledge of the art of swimming and diving will compete for valuable prizes.

Mr. Norton, previous to joining the Miller Brothers' Shows, was a noted swimming instructor in the United States, and in an interview with The Examiner last night he stated that his whole interests were in the art of swimming and diving performances.

"It is really worth while," remarked Mr. Norton, "to see these amateurs perform and during our tour through Canada we have met some very fine swimmers and divers." We have been in the habit of putting on these regular amateur nights in other cities on the last Friday night of our stay, and from the way in which your citizens have responded to entering the one here, it is my belief that this is to be an excellent contest."

The prizes to be competed for in the contest to-night will be some very beautiful silver cups and medals. To be certain that there is no partiality shown by the officials of this circus, the winners are to be selected by the applause of the spectators. Besides the competition of the amateurs, the regular death defying dive by Captain MacDonald from a hundred foot ladder, and swimming and diving feats by the circus performers will be shown, the former being only a special added attraction.

Over thirty entry forms have been received by the management, and they wish to advise spectators to come early, to avoid being disappointed in obtaining seats for this excellent performance.

The daily rainfall of the earth amounts to about 16,000,000 tons a second.

BINDER TWINE.

WE SELL BINDER TWINE OF THE highest quality, any quantity, from One Ball up. Also Fine and Coarse Salt, Pressed Plain and Iodized Salt; also Fly Salt. — Frank H. Dawson, Flour, Feed, Seed, and Grain. 'Phone 55, 380 Water St. tu-f-2435

HARDILL GETS CALL TO STOP DELORO CHAMPS

Big Right Hander Will Be Used in To-morrow's Local Battle.

PETES ARE STRONG.

Manager Swanston Will Have His Best Team of the Year in Line.

The Peterborough Seniors will be at full strength for to-morrow's clash at James Stevenson Park with Deloro, and they are out to take the Ontario Intermediate title-holders into camp in a way that will show that there is a difference between senior and intermediate ball. Jeff Hardill will likely get the pitching assignment, and as the big youngster is going in great shape right now, the Deloro hitters will find it tough sledding. Manager Swanston will use his strongest line-up, driving the team hard to get into shape for the Lakeshore League play-offs, upon which depend the Petes' chance of getting into the Senior O.B.A.A. semi-final series.

Deloro too will be at their strongest to-morrow, and will play their heads off to beat the Petes if the trick can be accomplished.

The game will be called at 3 o'clock sharp.

GOLF NEWS.

The Oshawa and Peterborough golf clubs celebrated the fall of the bastille yesterday at the Peterborough Golf Club, and when Col. Bogey called off his troops and all the boys came in with their birdies the games resulted as follows:

COUPLE BLAMED FOR MAN'S DEATH

Toronto Jury Finds They Supplied Sailor With Poison Liquor.

TORONTO, July 15.—The inquest held at the Morgue last night into the death of Stephen Cannell of 2 Clarence Square, cook on the steamer Kingston, who died on July 9 in St. Michael's Hospital, resulted in the following verdict:

"We, the jury, find that Stephen Cannell came to his death on July 9, 1927, on his way to St. Michael's Hospital, from the effects of drinking poisoned alcohol purchased from Mrs. Bella Linzdin at her home, 79 Grange avenue, and we find Mrs. Bella Linzdin responsible for his death.

Also Held Husband Responsible.

"We are also of the opinion that her husband, Harry Lindzin, knew that this poisoned alcohol was being sold at his home, and is equally responsible with his wife for the death of Stephen Cannell."

Mrs. Linzdin and her husband are at present out on bail.

Dr. Chester of St. Michael's Hospital testified that the deceased was, in his opinion, dead at the time of his admission to the hospital. His friend, David Hogg, was in a serious condition, and use of the stomach pump was necessary.

Dr. William Magner, who performed the autopsy said that Cannel had apparently been in good health, except for some abrasions on the limbs, which seemed to indicate he had been struck by a car. They could not have caused his death. The lungs were congested, with other indications of death from alcoholic poisoning.

TRIBESMEN LOSE

Orioles Come From Behind for 6-5 Victory Over Rochester.

NEW YORK, July 15.—(Canadian Press.)—The Baltimore Orioles came from behind to beat the Tribe at Rochester yesterday by 6 to 5. The Orioles got to McLaughlin for five runs in the sixth, seventh and eighth innings after the Tribe held a lead of five to one. Bagby went in as a relief hurler too late to save the game. Three other scheduled games postponed, rain.

WHO SAID SMILES HATH NO VALUE?

SYRACUSE, N.Y., July 14 (By NEA Service). — If you don't think smiling costs money, ask Ashton Temple. Temple put up a dramatic plea for leniency after he had admitted the charge of beer running. Court told him to take a seat while a few other cases were disposed of. It looked like Ashton would get a suspended sentence. Then he smiled. Court saw the smile. Calling Temple to the bench, the judge fined him $1,000. The smile fled.

Fan Braves Bullets To Get Ball For Game

CHATHAM, Ont., July 15. — C. Goslin, of Highgate, is an enthusiastic baseball fan. On Wednesday afternoon, when High Constable George Peters, of this city stopped him on the Moraviantown-Highgate Road, and intimated that a charge of speeding would be laid against him, he explained why he was in such a hurry that he had to exceed the speed limit.

He told the officer he was watching a baseball game in Highgate when one of the players took an awful wallop at the ball, hit it, and lost it. It looked as if the game would have to be broken up, as nobody had another ball. Goslin suddenly remembered that he knew a fellow in Moraviantown who had a ball, and he offered to drive over and borrow it. He was driving back to Highgate with the borrowed ball when Peters stopped him. There was a big crowd of spectators at the game and they were waiting for his return with a new ball, and he speeded up a little so as not to disappoint the fans—and besides, he wanted to see the finish of the game himself.

The story didn't seem to satisfy the officer, who had to make a merry chase before catching up to the offender. Peters failed to stop him even when he and his assistant emptied their revolvers in firing at the tires of the speeding car, and it was not until Goslin ran into some loose gravel that the race ended. He will come up in the Moraviantown Court on July 19, charged with exceeding the speed limit.

ABBOTT BREAKS COURSE RECORD

Plays Round on Local Course in 30, Five Under Par.

FORMER MARK 34.

Bob Abbott, while playing with several of the Raybestos executive yesterday afternoon, broke the record of the Peterborough course. This had been held for several years by Stanley Thompson, one of the famous Thompson triumvirate, with a 34 until yesterday afternoon, when Bob staged his cyclonic attack on "Old Man Par."

In the nine holes he was only over par once, got even par figures for three holes and shot "birdies" on the remaining five holes. His score was a remarkable collection of eight 3's and one lone 6. Par and Mr. Abbott's score are as follows:

Par. . . . . 4 4 3 5 3 3 5 4 4—35
Mr. Abbott . . 3 3 3 6 3 3 3 3 3—30

To-night will be Amateur Night at the big Aquatic Show with Miller Bros. Shows, playing the Fair Grounds all this week.

Thirty-three local boy and girl amateur fancy swimmers and divers have entered, and elimination trophies will be awarded. The amateur contest will be put on in conjuction with the regular professional performances.

2 Benson Avenue, City,
July 11, 1927.

Dear Sir:

I put an advertisement in your paper for the sale of a gent's wheel to run for 6 days, and am very pleased to say that within two hours of your first issue I have made the sale. This is certainly some service, and goes to show how one benefits by their advertisements in The Examiner.

Please, remove advertisement, and thanking you for your prompt attention.

Wishing you every success.

Yours faithfully,
E. M. SUDDANDS.
A Reader for 7 Years.

JONES IS SURE TO WIN AGAIN

Has Record of 285 For 72 Holes in British. Open.

291 CLOSEST SCORE.

ST. ANDREW'S, Scotland, July 15 (Canadian Press).—Bobby Jones, to all intents and purposes, won the British open golf championship for the second time in a row when he played his fourth round in 72 and made a record-breaking 72-hole score of 285. There was no one close enough to tie Jones' score except by a miracle, and with all records smashed by his performance there seemed nothing for him to do but wait for the others to finish.

Although Jones finished 18th of the fifty-four players, golfers and spectators conceded him the title for the second successive year. "No further count demanded," they said. Fred Robson made 291 and is tied with Aubrey Boomer, at present six strokes behind the champion. Joe Kirkwood needed 66 to tie Jones, but the best the Australian - American could do was 74, making his total 293.

Never before had Scotland seen such a frenzied finish to a great golfing event. Frenzied golf was played by the title-holder and frenzied crowds of people rushed pell-mell over the course to see it. Bobby made his final shots through a narrow lane between solid walls of humanity stretching from the eighteenth tee to the home cup. His mashie niblick to the last green sailed far and true through almost breathless spectators, but struck a steep bank on the green and rolled back instead of toward the cup. It came to rest twenty yards away. The title-holder just missed a birdie and holed in par with nonchalant ease.

COLORADO WINS.

Lord Derby's Horse Victor in Eclipse Sweepstakes at Sandown.

SANDOWN, England, July 15 (Canadian Press).—Lord Derby's Colorado won the Eclipse Sweepstakes here today. The Aga Khan's Mario was second, and Lord Woolavington's Coronach third. Only three ran. The distance was 1¼ miles and the race was worth $50,000.

ABUNDANT GARNISH.

In planting the summer garden, even if it is all flowers and no vegetables, plan to have a little plot of parsley. It will not detract from the garden and an abundant supply comes in handy for garnishing.

Theatres

AT THE REGENT.

JANET GAYNOR RECEIVES GREAT COMPLIMENT FROM SCHERTZINGER.

Janet Gaynor, beautiful Fox Films featured player who was assigned the role of Catherine in "The Return of Peter Grimm," Fox Films version of David Belasco's dramatic stage success, does some of the most impressive acting of her screen career in those tragic moments immediately following the death of Peter Grimm. The picture, which is to be the attraction at the Regent Theatre beginning on Monday features Alec B. Francis.

"I have had stage and studio experience with many artists," said Director Victor Schertzinger, "but I do not think I have ever seen a young player inject deeper feeling into a part than Janet did when I called upon her to announce to Marta, the housekeeper, and John Roche, the nephew of Peter Grimm, that the beloved old floriculturist was no longer of this world. We rehearsed the scene only once. Miss Gaynor seemed to get the 'feel' of the thing at once. When I asked for the best she had to offer she amazed me with the depth of her emotion."

The director did not add, however, that the little girl broke down immediately after the cameras stopped clicking. She threw herself into the arms of Alec B. Francis, portraying the name role, and wept as if her heart were breaking.

"Oh, oh, oh! I really felt that you were dead!" she sobbed, as the veteran character actor stroked her brown hair. "I did! I did!"

"I know you did!" Francis confessed, "and I was on the verge of tears myself. You made me feel that scene as no other young actress has ever done!"

Others in the case of "The Return of Peter Grimm" are Richard Walling, John Roche, Bodil Rosing, Lionel Belmore, Elizabeth Patterson and Mickey McBan.

SOFTBALL NEWS.

The Lockworks took the leadership of the post season series by virtue of their 15-3 win over the Examiner, at Confederation Square last night. The game was a poor exhibition of ball, both teams making numerous errors. Both teams were handicapped by a shortage of players, this being caused by the short notice of the game. The Lockworks were short Ranger, Westbrooke, Dunkerley and Johnston, while The Examiner were short Baker, Bradshaw, Board and Taylor.

Waddell did the heaving for the Lockmakers and was hit hard, bad baserunning by the Newsboys helping him out on several occasions. Four hits in the first inning, three of them coming in a row, only resulted in one run for the Examiner crew. Simmons twirled for The Examiner, and although not hit hard was given wretched support by his teammates, who made fourteen errors behind him.

The line ups:

Lockworks—Dobson, c; Holland, 3b; Weese, ss; Galbraith, rf; Crary, 2b; Nicholls, lf; Smith, 1b; Jones, cf; Waddell, p.

Examiner—Dugan, 2b, 1b; Baird, ss, 3b; Dormer, 1b, 2b; Hillier, 3b, ss; McGraw, c; French, lf; Dormer, rf; Scates, cf; W. Simmons, p; E. Simmons, lf.

Umpires—Kay and LeBarr.

KIWANIS HEAR TALK ON HUMOR

Rev. W. S. Edgar Tells Many Stories To Illustrtae His Address.

COMMENDS CLUB.

Rev. W. S. Edgar pastor of the Gilmour Memorial Church, was the speaker at the Kiwanis regular weekly luncheon to-day. Prior to his address on "Humor and Reminiscences," Mr. Edgar remarked that he was realizing more every day the fine work that the Kiwanis Club of Peterborough was accomplishing; the definite views that it carried out, such as lending a helping hand to the underprivileged boys of the city to enable them to become great men with fine characters. "But I would ask the Kiwanians," went on the speaker, "to give a thought not only to these but to the over-privileged boy, for he needs your help and guidance even more so than the former, statistics showing that for every one underprivileged lad that goes wrong there are two of the latter class that are led astray.

"And these under-privileged young men can grow into great leaders of the world, such as Thomas Edison, the noted inventor, and Sir John A. MacDonald, an outstanding politician, both under-privileged boys.

"They all started at the bottom of the ladder, but using strong willpower they eventually reached the top, among and of the greatest, and so with your help it is possible to aid young boys of this city to accomplish their ideals and to grow into splendid manhood.

"Faith, Hope and Charity were the outstanding means of achieving this manhood in a more barbarous age," stated Mr. Edgar, "but this generation demands something more, and that something is the grace of real humor, to make existence on this earth enjoyable. Humor is only a human acquisition, meant purposely for people, and not for animals, so all should take advantage of it, for it is accessible to all."

Following this, Mr. Edgar certainly stressed his original subject, humor and remniscences, by some very humorous stories, keeping his very interested audience in continual laughter, as he told some witty tales relating to almost every profession of the Kiwanians present—all bearing it in good humor, the very mark at which the speaker was aiming.

Charlie Sedgewick and George Logan furnished some fine musical numbers during lunch hour.

C. Cummer moved a vote of thanks to the speaker and the musicians, seconded by J. J. Turner.

NOTICE

Many New High Prices Recorded In New York

NEW YORK, July 15.— (Canadian Press.)— Bullish enthusiasm in the stock market was given a fresh impetus to-day by the unexpectedly large drop in brokers' loans and the continuance of strong investment demand for high grade securities. Faced with the prospect of easy money rates for some time to come, the pools continued to mark up specialties.

Rails were again in good demand on predictions of steady expansion in freieght traffic and prospects of good crops, particularly in the northwest.

Special buying of Atchison, which attained a record high price, revived rumors of special dividend action. The Van Sweringen issues moved upward under the leadership of Erie common, also at a new high.

Banks called about $10,000,000 in loans, but plenty of call money was available at the renewal rate of four per cent. The usual week end profit taking brought about moderate recessions in the late trading, Baldwin reaching three points from its early high. Among the many issues to sell at new peak prices were Westinghouse Electric, Bayuk Cigars, Gen. Cigars, R. H. Macy, Woolworth, United States' Steel preferred, National Tea, International Business Machines, and Coty, the last two advancing four points.

Liverpool Downturns Affect Chicago Wheat

CHICAGO, July 15 (Canadian Press). — Unexpected downturns in wheat prices at Liverpool led to early selling in the wheat market here to-day. Opening ⅜ cent to 1⅜ cent off at Chicago, wheat showed lack of resistance. Corn and oats also went downgrade, corn starting at ⅝ cent to 1⅜ cent decline, and subsequently undergoing some further setback. Provisions were a little easier.

Opening prices were: Wheat, July 141⅝; September 139⅜. Corn, July 98⅜; September 104½. Oats, July 45¼; September 43⅜.

ABANDON HOPE FOR TWO MEN

Believed Drowned When Canoe Upset in Swift Stream.

MAURICE CODY ONE.

NORTH BAY, July 15 (Canadian Press).—Maurice Cody, son of Canon H. J. Cody, former Minister of Education of the Ontario Government, and Dan Pardiac, North Bay, are believed to have been drowned yesterday in Martin River, about 37 miles from here, when a canoe from which they were fishing struck fast water. Fred Roberts, Toronto, escaped. Roberts said the canoe suddenly capsized, and when he reached shore he discovered that his two companions were missing. Hopes were entertained that the two youths had reached shore in safety and struck off into the bush, but hopes are practically abandoned now.

GAME CALLED OFF.

Cogs and Raybestos Will Play To-morrow Instead of To-night.

The Cogs-Raybestos game billed for this evening has been called off and will be played to-morrow afternoon at 2.30 o'clock at the Exhibition Park Raybestos have played smart baseball in their last two contests and will be in good shape to tackle the fast-going Cogs who lead league with five wins, one loss and one tied game

OBITUARY.

MRS. T. B. STAPLES.

The funeral of the late Mrs. T. B. Staples took place at Cavan to-day from the home of Mr. William Tinney, Jr.

The late Mrs. Staples arrived in Peterborough Monday evening to attend the funeral of her niece, Mrs. Edgar Burnham, and during the night was taken suddenly ill, passing away a few hours later.

The deceased was a resident of Peterborough for many years, but has recently resided in Hamilton with her only daughter, Mrs. R. A. Cunningham.

IT WAS A TOUGH EGG.

WASHINGTON, July 15.—An egg shell may be thin, but it is not fragile. An egg placed beneath the giant testing machine at the Bureau of Standards withstood a pressure of 51 pounds before it was crushed. Two hundred tons was required to demolish a foot-square piece of timber.

NOW SAY SHAPELY LEGS ARE DOOMED

LOS ANGELES, Cal., July 15.—Dresses will be longer in a few decades, and the length will not be dictated by a whim of fashion either if what chiropodists say is true. Dresses will be made longer to cover ugly legs.

The shapely leg is disappearing, the specialists believe, because of the wearing of high heels. The muscle in the calf of the leg is being shortened and is atrophying from disuse. Thus the muscle gradually will draw up into an ugly bunch at the knee, spoiling the sometimes beautiful symmetry.

AGREEMENT ON TONNAGE MADE?

Reported That Japanese and United States Delegates Have Agreed on Low Limit.

WANT 8-INCH GUNS.

GENEVA July 15. Canadian Press A private meeting to-day between Admiral Viscount Saito member of the Japanese delegation to the tripartite naval conference and Hugh Gibson, head of the United States delegation, is understood to have resulted in an agreement between them concerning the necessity of keeping the naval cruiser tonnage down to the lowest possible level. They are also said to have agreed on the necessity of maintaining the right to mount eight inch guns on cruisers.

MIXING THE ELEMENTS..

Commodore Herbert Hartley, master of the S.S. Leviathan, according to reports, has been offered the post of navigator for Lloyd Bertaud, air mail pilot, who is getting ready to fly to Rome.

OLD PEOPLE GUESTS OF MASONIC LODGE

Royal Arthur Brethren Entertain Inmates of Protestant Home.

(Contributed.)

On Thursday, July 14, a very pleasant outing was given to the inmates of the Protestant Home when, pursuant to their admirable annual custom, the Royal Arthur Lodge, A.F. and A.M., arranged a drive to Chemong and a supper at the home of Mr. and Mrs. W. R. Breyfogle kindly offered for the occasion. The sky overcast in the morning and watched anxiously by many dubious eyes, cleared radiantly and the weather always an important factor in affairs of this kind, left nothing to be desired.

The sight of the beautiful, tranquil lake spread out before the guests was good for weary eyes and tired nerves. The catering for the delicious and bountiful meal served was done by the west end group of St. Andrew's Ladies' Aid, Mrs. F. L. Robinson convenor.

St. Andrew's has long had a fine reputation for producing good meals and it was not by any means diminished yesterday. One was reminded of the first of these outings, some ten or eleven years since, when a blind woman was one of the guests and was quite irrepressible in her enjoyment. She said, "I want to move a vote of thanks; and I want to move that this be made an annual occurrence." Poor little lady, she was 85, and it was her last experience of the kind. Her eyes have long been closed forever to earthly things, and, we trust, see fairer things than those denied her here; but her wish has been granted and for all these years the Royal Arthur Lodge has generously and ungrudgingly stood by, to give this most unusual treat to those whose lives are perhaps more monotonous than is generally realized.

On behalf of the directors and the board of the Protestant Home and for the inmates, Mr. E. F. Mason expressed the thanks of those present. Mr. E. B. Fowler responded, assuring the guests of the afternoon of the lodge's unceasing interest and promising that they might look forward with expectation to a similar pleasure next year. Before leaving, each guest was presented with a souvenir of the occasion, boxes of candy and pretty pins for the women, and smokes for the men.

Everyone was impressed by the genuine interest and kindness shown by Mr. and Mrs. Breyfogle, who certainly must have proved that it is more blessed to give than to receive. Then came the drive home with scented breath of clover and woodsy odors pervading the early evening air to find that the invalids who had been unable to go had been quite as kindly remembered. And so ended what was universally agreed to be quite the most successful of all the outings arranged by the Royal Arthur Lodge.

FLOOR SPOTS.

To remove gray spots on waxed floors caused by water leaking around radiator, use a few drops of household ammonia on a moist cloth.

LOST ANTENNA CAUSED FLIERS TO BE SILENT

Were Unable To Tell Ships They Were On Way Again.

GASOLINE PUMP FAILED.

Smith Believes They Could Have Made Flight if They Had Not Been Excited.

HONOLULU, July 16.—(Canadian Press.)—Having completed their uncertain flight to Hawaii by deliberately plunging into a tree on the Island of Molokai, Ernest Smith and Emory Bronte explained as they rested in Honolulu to-day why their radio was silent for five hours after they sent out S.O.S. calls and why they continued on to terra firma without informing rescue ships that they still were in the air.

When still five hundred miles or more from land, Bronte revealed, failure of their gasoline pump led them to believe their fuel was running extremely low and it caused the plane to lose so much altitude that their trailing wireless antenna struck the sea and was torn away.

The decrease in altitude had the effect of resuscitating the gasoline pump and they shot into the air again without knowing how long they would last, without knowing whether their calls had been heard, and uncertain of their bearings.

The navy fliers announced they had salvaged the motor and instruments from the plane and found the gasoline tanks absolutely dry.

From the time the two fliers left San Francisco on Thursday until they were near their destination they saw neither land nor sea. They never had been far off their course and Bronte had been guiding it only by dead recokning.

The plane was in the air 25 hours and 36 minutes, during which she travelled about 2,340 miles. Neither man slept during the flight, but they said they moved about enough to prevent becoming cramped. Asked if he knew where he was when over Molokai, Smith said, "All I knew was that we were out of gas." Bronte said, "It was the best sight we had seen in a long time."

Smith declared that they had plenty of sandwiches, but that the only one he enjoyed was the one eaten in sight of Molokai. "If we had not been so excited about our gasoline supply we could have made the flight in twenty and a half hours," he insisted. "As it was we figured we had made it in 24 hours flat.

PRESS COMMENTS NAVAL CONFERENCE

Economist Says Powers' Demands Greatly In Excess of Their Requirements.

LONDON, July 16. —(AP).—Much of the British press comment on the tripartite naval conference at Geneva indicates the feeling that the conference, if wrecked, will founder on the "exaggerated claims of the respective navy departments.

The "Economist", a Liberal organ, says that the demands of both the British and United States admiralties are greatly in excess of their requirements.

The paper further contends that the United States demand also are unjustified on the ground of national defence, stating that since all of American's vital sea routes from Maine to Panama, from the Canal to Alaska, thence to Hawaii and Samoa are studded with naval bases, in this respect the U. S. is better off than Great Britain.

Finally the "Economist" declares that the time has arrived when states men should step in and prevent the admiralties from wrecking the conference.

The "Saturday Review" say that there can be no justification based on common sense for American insistence on tonnage parity with Great Britain.

The "Spectator" speaks of "the American Government's comparative inexperience of international negotiations," and begs the United States not to be too proud to take advice from its best friends who claim no greater merit, but greater experience.

"It is no fault in the Americans that owing to their history they are somewhat as children in international politics," says the "Spectator" speaking the U. S. to give Britain credit for renouncing her sea supremacy at the Washington conference and therefore now having honest intentions.

The 'New Statesman' expressed the supposition that the conference will not be allowed to break up until the United States government sees its way clear to throwing the whole blame for failure on Great Britain.

The "Nation" says that there must be frank negotiations in the United States of the real differences of the British position and abandonment of "that unreasoning suspicion of British motives which have made it almost impossible to obtain a fair hearing for the British proposals."

Odd Egg Shaped Like Rugby Ball

Bearing a strong resemblance to a rugby ball, an egg purchased this week in a local store is a real curiosity. Not only are both ends the same shape, but ridges on the shell running from end to end carry out the similitude, as they are placed in much the same way as the seams in one of the big pigskin balls.

The egg is of normal size and colour, and only its unusual shape and markings distinguish it from the other eggs bought with it. It was brought to The Examiner office by Walter Roden, Brock Street.

SCOTT KILLED BY MOTOR BUS JURY VERDICT

Constable Testifies Prisoner Seemed To Step in Front of Vehicle.

HAD WEAK SPELLS.

Told Companion After Accident That He Must Have Fainted on Road.

At the inquest held at Cobourg, last night, by Coroner Dr. G. M. Ferris to enquire into the death of Thomas Scott of the Township of Manvers, the following verdict was rendered:

"We your jury empanelled to enquire into the circumstances surrounding the death of the late Thomas Scott of Manvers township find that the deceased came to his death at the Cobourg General Hospital on Friday, July 8, 1927, as the result of being struck by a motor bus on the Port Hope—Peterborough Provincial Highway on the 28th day of June, 1927.

Chas. R. Gummow,
Foreman

In reply to questions by Crown attorney Kerr, George L. McLaughlan, the first witness sworn, said that he was Governor of the County Jail. Scott was brought to the jail on a warrant of indictment and on the 20th of June, Scott was remanded to the jail on a charge of attempted suicide. He was later committed for assaulting Lilliam Scott.

When he was brought to jail on the 28th ultimo, he had suffered some accident on the highway and had to be placed in the hospital. Dr. Russell went with him to the hospital. When asked if Scott was subject to fits, the jail governor said, "I heard he had weak spells."

Constable Rowland.

Constable Rowland was the next witness and when sworn said: I am a constable for the Township of Marmora. I arrested Thomas Scott on the 20th of June on the charge of assaulting his wife. I did not know Scott personally. I got him at his own house, where I found him lying on the bed with a gash in his throat. He did not say how it happened.

"On the 28th of June he was arrest at the home, Scott's wife and two daughters, and attempting to commit suicide. When making the arest at the home, Scott's wife came to me and asked what the outcome would be. She told me that her husband had asked for forgiveness—she seemed heart broken."

Questioned regarding precautions taken in bringing Scott to jail, Constable Rowlands continuing to answer questions by Crown Attorny said, "I did not think he would commit suicide. I brought him to Cobourg in a motor car. I asked Mr. Youngman to come with me. Youngman and Scott sat in the back seat. Mr. Hall and I sat in the front. I did not know that Mr. Scott had asked Mr. Hall to come. We came down the 9th Concession from Bethany. Scott and Youngman were chatting all the time. Going down Arthur Woods hill we got a flat tire, one concession north of the road leading to Millbrook. Youngman hopped out of the car. It was the left hind tire that went flat. We proceeded to put on the spare. We pulled off trafficclear of the provincial highway Mr. Hall, Scott and I got out. Scott lit a cigar.

I was fixing the tire, Youngman helping me, Hall looking North from the side of the car. I was on the East side, Scott was also on the East side. I do not know whether Scott or Youngman was nearest the right hand side of the travelled road; they were right on the highway. They were in the trail of traffic.

The first thing I knew about anything being wrong was when Mr. Hall stepped back. Youngman did the same. As the bus approached, Scott put both hands with clenched fists into the air and stepped sideways in front of the bus. He did not appear to be falling. The busman swerved the bus to left. Scott stepped to keep in front. I noticed him lying on the walk. The busman did not appear to be going fast. I do not think there was any negligence on the part of the bus driver. I noticed the bus forty rods away I don't think the bus driver tooted the horn, we were not in the way. Our car was 4 or 5 feet in off the West side of the Highway. Scott

NEW PASTOR IS INDUCTED AT ST. JAMES'

Rev. J. H. Dudgeon Takes Office at South End United Church.

SERMON ON FAITH.

Rev. R. F. Stillman Presides and Rev. John Archibald Preaches.

Induction services for Rev. J. H. Dudgeon, new pastor of St. James United Church, were conducted, last night, by Rev. R. F. Stillman, of Norwood, and the Rev. John Archibald, of Keene.

Mr. Archibald in a short address on Faith took his text from Hebrews, 11.1, "Now faith is the substance of things hoped for, the evidence of things not seen." 'Faith," continued the minister, "is the assurance of the King, our God. But we all must remember that faith is not the closing of the eyes of reason. Some persons claim they belive what church believes, and on being asked what it is that the church does believe, they can only say that that is what they also believe.

"That is not the mission of religion, for going back to Luther you will find that faith is the bursting out of a great energy, that martyrs sacrificed for.

Faith is the response of man to God for every human is exercising some faith on this earth. God calls on all to believe in Him, and a true tesimony of His greatness is shown by the two or three thousand millions of stars that shine above us; the beauty of the wild flower—far more exquisite than the manufactured or artificial kind. The beauty of the bluebell is greater than a decorated cathedral, for we all must consider the living things as the mightiest.

"A fitting example of the greatness of Nature is shown by the little poem:

Twinkle, twinkle, little star,
How I wonder what you are
Up above the world so high,
Like a diamond in the sky.

And thus Nature is one of the greatest tesimonies of the faith that we should have towards our Saviour.

"God moves in a mysterious way, but admiration and trust in Him is faith."

To illustrate one of the meanings of full faith, the speaker told a little story of how a little child was in a burning building trapped by flames on the stairs. The only way of escape was through a window many stories from the ground. Below a strong man held out his arms and told the child to jump. The child had faith that this man could save her, and through this strong faith she was saved. Thus God will save His People if they will only go to Him and true Faith will lead all to Jesus and eternal salvation.

Following the address, the induction ceremony was carried out by the Rev. Mr. Stillman.

THE WEATHER

The heavy rain of yesterday gave a total of almost an inch, or .97. It was also St. Swithin's Day, and if you are a believer in the old tradition you may look forward with more or less assurance to forty days of rain. I trust the old myth may fail to function—it probably will. St. Swithin was Bishop of Winchester from 852 to 862, and was the patron saint of Winchester Cathedral from the 10th to the 16th century. His bones were disinterred and removed to another resting place on the 15th July and for forty days afterwards it was said to have rained. Hence the old saying.—W. P.

British Fliers Plan Flight Over Atlantic; Two Army Men to Attempt Hop From Ireland

LONDON, July 16. — A flight from Clifden, on the coast of Ireland, to New York will be undertaken in about two weeks by Captain Leslie Hamilton and Colonel F. F. Minchin, two British airmen, according to an announcement made yesterday.

The flyers say that after reaching New York they will try a non-stop flight from New York to Vienna. They will be provided with an aerial escort for the initial stage of the journey.

Captain Hamilton stated that owing to the heavy load he regarded the first three hours as the most dangerous part of such a trip.

Captain Hamilton and Colonel Minchin will use a Fokker monoplane carrying enough gas to remain in the air for fifty hours. Escorting them for the first three or four hours will be an amphibian plane capable of landing in the water.

Captain Courtney, the other British airman planning a transatlantic flight, is now at Calshot testing his whale flying boat in which he plans to start across the Atlantic.

CONTINUE EFFORTS TO OBTAIN COMPLETION OF TRENT CANAL

Seventh Annual Meeting of the Association Held in City.

PROGRESS MADE.

W. M. Fowlds Unanimously Re-elected To Presidential Chair.

Indications of a determination to continue hammering at the door of the Government until the promise to complete the construction of the Trent Canal on which 23 million dollars have been expended in past years has been carried out in its entirity were manifested at the 7th annual meeting of the Trent Waterways Development Association held yesterday in the Empress Hotel.

W. M. Fowlds, ex-Warden of Northumberland and Durham Counties, was unanimously re-elected to the office of president. Many eulogies on his work during the past year were passed by the members.

The following are the other members of the executive for the incoming year:

Hon. President—G. K. Fraser Burleigh Falls and Hamilton.

Hon. Vice-President—F. D. Kerr, K.C., Peterborough.

1st Vice-President—J. B. Hanly, Midland.

2nd Vice-President—W. C. Moore, Bobcaygeon.

Secretary—Frank G. Stinson, Peterborough.

Interested auditors were two visitors from the other side of the boundary line, Judge Hickey of Lockport, N.Y., and W. B. Stoner of Ohio. At the request of the president, Mr. Stoner made a brief speech, in which he expressed his continued delight in the joys of the Kawartha Lakes after spending nine summer holidays in our midst.

The complete list of those in attendance follow:

T. A. Coughlin, Hastings; Dr. J. H. Hess, Reeve, Hastings; A. Wilson, Clerk, Hastings; N. McDonald, Hastings; W. R. Stoner, Ohio; R. C. Doxsee, Hastings; G. H. Potts, Bobcaygeon; Reeve W. C. Moore, Bobcaygeon; Albert Willard, Bobcaygeon; H. R. M. Rutter, Peterborough; J. Wells Fraser, Peterborough; E. A. Peck, M.P., Peterborough; F. D. Kerr, K.C., Peterborough; A. L. Kilally, Peterborough; Judge Charles Hickey, Lockport, N.Y.; W. H. Bradburn, M.P.P., Peterborough; G. K. Fraser, Burleigh Falls; A. B. Burrows, Lakefield; J. F. Lillicrap, Lakefield; S. Harrison, Lakefield; C. S. Tanner, Lakefield.

J. Wells Fraser.

J. Wells Fraser, who in the absence of G. A. Gillespie, president of the Chamber of Commerce, was called on to take the chair, said the Chamber of Commerce was always glad to stand behind the Trent Waterway Association and to give every assistance in carrying out its objects. They were very fortunate in having a secretary who took a particular interest in this branch of the Chamber of Commerce. Expressing the wish that the deliberations of the meeting would be fruitful, he urged all those present to keep before the minds of the officers of their municipalities, the necessity of bringing continuous pressure to bear on those in authority to complete the Canal. Some were opposed to the project and the only way to get there was by continual hammering. Many such enterprises had been urged on Governments, some of them not giving much promise of accomplishment. The Cobourg Ferry was a case in point. It had been promised that the ferry would be instituted, provided the province went wet. The referendum was held later, and the province remained dry. But Ontario was wet now, and the ferry was an accomplished fact. The main point now before all the members of the Association was to strain every effort to get the upper reaches of the canal completed.

E. A. Peck.

recalled the fact that he had been connected with the Trent waterway development movement for many years, and was at one time secretary of the Trent Valley Canal Association, as it was called in the early days. It took a great deal of time and persuasion to get the Government to begin the construction of the Canal. The next thing to be done was to get it completed. There was just that little link on the Severn River to be finished. Surely Canadians were not going to be down on a job so near completion! The country was going to build the Canal for economic reasons. He felt satisfied that the work would be completed and he believed that Mr. Dunning, the Minister of Railways and Canals, could be convinced that the early completion of the Canal was the responsibility of the Government. Speaking for himself, Mr. Peck appreciated the work the members of the Association were doing. They were giving lots of time to the work without any remuneration, and were affording a fine example of public service.

W. H. Bradburn.

W. H. Bradburn, member for Peterborough in the Ontario Legislative Assembly, referred to the efforts made by the Provincial Government to induce tourists to come into this country. In Cleveland, Pittsburgh and other cities, there were offices which were established for the purpose of spreading information about the attractions of our back country. And those efforts had brought about results. There were more tourists in Ontario this year than ever before.

MANY HAPPY RETURNS.

John Crane, manager of the Dominion Bank, and secretary of the Nicholls' Trust, who celebrates his birthday to-day.

NEW POTATOES 70 CENTS PECK

Produce Sells Quickly on Farmers' Market This Morning.

FLOWERS PLENTIFUL.

Produce went quickly this morning on the farmers' market.

New potatoes had a brisk sale on the open market, at a general price of 70c a peck. Fresh green peas sold for 3 and 4 quarts for a quarter.

A vendor of patent medicines offered health at $1 a bottle ,also a sure cure for rheumatism, kidney or stomach diseases and nervous disorders. "If you want health, you can take it away with you. If you have it you have everything. Without it you have nothing."

In the basket section, eggs were selling at 32 to 35c a dozen and butter at 38 to 40c a pound. Cream was 35c a pint, and chickens 30c a pound.

Wild raspberries made their bow to the market this morning selling in two quart pails for 40c. Peaches were a nickel apiece.

Flowers were everywhere; sweet peas and columbine, Canterbury bells in purple and white, bloway pink roses and neat yellow ones; larkspur in blue and monkshood in purple ,pansies and dahlias, and Black-Eyed Susans prices all the way from 5 to 35c a bunch.

FIGURES DON'T LIE.

ANTIQUARIAN—These ruins are 2000 years old.

TOURIST—Don't be absurd! It's only 1926 now.—Tid-Bits, London.

SITUATION IN VIENNA BETTER SAYS DISPATCH

Direct Communication Broken By Strike of Telegraph Employees.

MANY CASUALTIES.

Reported That 50 Died in Fighting Yesterday—Fire Damage Heavy.

PARIS, July 16.—(Canadian Press) — The single dispatch received from riot torn Vienna since yesterday afternoon declares that the situation there is improving.

Vienna among stateliest capitals of Europe, was plunged into one of the worst riots of its checkered history yesterday, but latest reports reaching Paris, both by way of Berlin and by the Czecho Slovak frontier town of Bratislavia indicated that police, after fighting all afternoon, succeeded in restoring a semblance of order late in the evening. How many fell in the long battle it was impossible to determine to-day, but it appears certain that not less than forty persons were killed and hundreds injured, many of them seriously.

Much Damage Done.

That the material damage was extensive seems to be established by all accounts. The palace of justice was completely ruined by the fire started by the mob and there are reports that the ministry of ports was also set on fire and the parliament house. What was the gravity of the situation particularly felt here was the fact that all communication was suddenly cut off at seven o'clock, last night, when in obedience to a general strike order, telegraph and telephone operators left their posts like one man. A dispatch this morning says that the Austrian Council of Ministers had declared itself in permanent session to deal with the grave situation.

Strike Widespread.

A dispatch reaching London by way of Berlin, Prague, and Bratislavia, says that practically all of the workers of the Austrian capital have obeyed general strike call, which is said to have been issued by the Socialist party and executives of the Austrian Trades Union. Trains enroute to Vienna were held up in the suburbs, it is said, while trains, from Germany and Austria were detained at the frontier. Reports regarding casualties very. One said forty people were killed and seven hundred wounded.

OPEN SEASONS FOR GAME BIRDS

Some May Be Shot From Sept. 1—Others From Sept. 15.

OTHERS PROTECTED.

A summary of the Migratory Birds Convention Act is given below. This is the law which is based upon the treaty with the United States. Any enquiries concerning this law may be addressed to the Commissioner of the Canadian National Parks, Department of the Interior, Ottawa.

Open Seasons.

Ontario (both dates inclusive) — Ducks, Geese, Brant and Rails, Sept. 1-Dec. 15; Wilson's or Jack Snipe, Sept. 1-Dec. 15; Woodcock, Sept. 15-Nov. 30.

Closed Seasons.

There is a closed season throughout the year in Ontario on Band-tailed Pigeons, Eider Duck (the latter may be taken during the open season in that portion of Ontario north of the Quebec, Cochrane, Winnipeg line of the Canadian National Railway), Swans, Cranes, Curlew, Willets, Godwits, Upland Plover, Black-bellied and Golden Plover, Greater and Lesser Yellow-legs, Avocets, Dowitchers, Knots, Oyster-catchers, Phalaropes, Stilts, Surf-birds, Turnstones, and all the shore-birds not provided with an open season in above schedule.

There is a closed season throughout the year on the following non-game birds: Auks, Auklets, Bitterns, Fulmars, Gannets, Grebes, Guillemots, Gulls, Herons, Jaegers, Loons, Murres, Petrels, Puffins, Shearwaters and Terns; and there is a closed season throughout the year on the following insectivorous birds: Bobolinks, Catbirds, Chickadees, Cuckoos, Flickers, Flycatchers, Grosbeaks, Hummingbirds, Kinglets, Martins, Meadowlark, Nighthawks or Bull Bats, Nuthatches, Orioles, Robins, Shrikes, Swallows, Swifts, Tanagers, Titmice, Thrushes, Vireos, Warblers, Waxwings, Whip-poor-wills, Woodpeckers and Wrens, and all other perching birds which feed entirely or chiefly on insects.

No person shall kill, hunt, capture, injure, take or molest migratory game birds during the close season. Sale of these birds is forbidden.

The killing, capturing, taking, injuring or molesting of migratory insectivorous and migratory non-game birds is prohibited.

The possession of legally taken migratory game birds is allowed until March 31st, following the open season. In Ontario it is an offence to kill or attempt to kill any migratory game bird between sunset and sunrise.

Bag Limits.

Ducks 25, but not more than 200 in a season; Geese 15, Brant 15, Rails 25, Wilson's Snipe 25, Woodcock 10.

Guns and Appliances.

The use of automatic (auto loading), swivel, or machine guns, or battery, or any gun larger than number 10 gauge is prohibited, and the use of any aeroplane, power-boat, sail-boat or night light, and shooting from any horse-drawn or motor vehicle is forbidden.

Penalty.

Every person who violates any provision of this Act or any regulation shall, for each offence, be liable upon summary conviction to a fine of not more than three hundred dollars and not less than ten dollars, or to imprisonment for a term not exceeding six months, or to both fine and imprisonment.

Establish Western Air Mail Service

WINNIPEG, Man., July 16. — Air mail service between Winnipeg and Fargo, N. D., was inaugurated yesterday, with the arrival of a plane piloted by Verne Roberts. Roberts carried with him the first mail to arrive in Winnipeg by air from the United States. Starting at 6.30 yesterday morning, the plane after a two hour hold up at Pembina, N.D., for a supply of gas, arrived in Winnipeg yesterday afternoon at 12.30 o'clock.

A large crowd, including city and provincial officials, and representatives of various organizations greeted the flyer. He was accompanied by L. A. Ward, representing Mayor Dalh of Fargo and Harvey Kepler, member of the Fargo aeronautic club, who made the trip to extend good will greetings to the City of Winnipeg.

MARCONI FIRM PLANS TO SELL COMPANY HERE

Rumor Persists That American Interests Will Buy Subsidiary.

WHEN ACTION SETTLED.

Attitude of Canadian Govren-Attitude of Canadian Government to Handing Over of the

LONDON, July 16.—(United Press.) —Persistent rumors to the effect that the Canadan Marconi Company will be sold as soon as certain actions now pending against the British Marconi Company are disposed of, have been in circulation here for some weeks now and have resulted in the price of the shares being very buoyant.

It is stated that Lazard Brothers are at the head of the syndicate which has completed negotiations for the purchase of the Canadian Company, while it is known that behind this syndicate is the Radio Corporation of America. This means, according to assertions in financial quarters, the virtual handing over of Canadian Marconi to an American concern, although it is believed that the directors of the new organization would be Canadian or British.

Another report has it that an attempt was recently made to interest the Canadian Pacific Railway in the purchase of the Canadian Company but that negotiations in this connection have so far met with little success, although they may be reopened.

Meanwhile there is considerable speculation as to what action, if any, the Canadian Government will take in the matter. The proposed sale of the Canadian Company is in accordance with the policy of the parent concern of selling all its subsidiaries even if they are operating profitably.

WILL MAKE APPEAL.

Given Heavy Sentence For Operating Still Near Parry Sound.

PARRY SOUND, Ont., July 16 (Canadian Press). — As the result of a visit of Inspector Floody, and local Chief of Police Crockford to his premises at Mill Lake, Alfred Parton appeared before Police Magistrate Broughton yesterday morning charged with operating a still. Parts of a still were placed on exhibit. Parton was sentenced to six months at Burwash and a fine of one thousand dollars. He states that he will appeal the case.

62 DIE FROM HEAT.

Eighteen Additional Deaths Occur in Eastern States Since Yesterday.

NEW YORK, July 16.—(Canadian Press.) — Fatalities resulting from the heat wave that has blanketed the Eastern States for four days stood at sixty-two to-day, eighteen additional deaths occurring.

BURKE BEATEN BY ONE POINT IN AGGREGATE

Former Army Surgeon Wins the King's Prize With Score of 292.

CANADIAN WINS BADGE.

Loss of Five Points on 1,000 Yard Range Cause of Ottawa Youth's Defeat.

BISLEY CAMP, Eng., July 16. — (Canadian Press Cable).—By only one point, Lieut. Desmond Burke of Ottawa lost the highest honors for marksmanship that the Empire can bestow, in the final for the King's Prize to-day. The winner was Capt. Vernon, formerly of the Royal Army Medical Corps, with an aggregate of 292. Burke's aggregate was 291.

Burke might have repeated his victory of 1924 had he scored just one more point in the second of the two distances in the final. It was this distance, 1,000 yards, the longest of the whole shoot, which cost him the prize. In this he scored 70 out of 75.

The King's Prize of $1,250, the National Rifle Association's gold medal and gold badge go to Captain Vernon. Burke finished second among the hundred finalists, to win $250 and the N.R.A. badge.

Lieut. Burke added seventy in the thousand-yard distance to his 73 in the first distance, making 143 out of 150 to-day, and an aggregate of 291.

Capt. Vernon served as a surgeon in the Imperial Army Medical Corps during the war.

The King's Prize is a gift of twelve hundred and fifty dollars by His Majesty, and since it was first offered in 1860 at the first meeting of the National Rifle Association has been recognized as the highest honor in the Empire for marksmen. While the King's Prize is only monetary, the winner receives the N.R.A. gold medal and gold badge, and is the only marks man receiving this honor.

If Lieut. Burke had not missed the bull's eye itself and shot to the inner on his final shot, he would have tied with Vernon, who had finished earlier. A large crowd eagerly watched Burke, for when he still had several shots to go, there was no one else who could exceed Vernon's total. Burke's shooting in the long distance range, when he missed five out of 75 points, is recorded: 5, 5, 4, 5, 5; 4, 5, 4, 5, 4; 5, 5, 5, 5, 5, 4.

Vernon went into the final stage with a total of 146 in the second stage recorded—two less than Burke's second stage score. The winner scored 72 at the 900 yard distance— one less than Burake—and then in the 1,000 yard distance recorded 74, just enough to overcome Burke's lead and put him one point in front. The Canadian had the ill luck to be squadded at the top of the range for the final distance, where as Vernon was squadded much lower, which gave him some advantage.

CHANGE WAGON UNDER BUILDING

One Big Truck To Carry Old Freight Office To Bonaccord Street.

TO BE USED AS HOUSE.

Having covered only a few feet of its journey to Bonaccord Street, where J. A. Paquette proposes to remodel it as a dwelling, the old C. N. R. freight office has remained in the middle of Charlotte Street for the past two days, making a drastic change in the topography of the neighbourhood.

This morning, the contractors, Cooney and Jopling, made a change in their plan of removal, and jacked up the 30-ton building to permit of its being placed on the long flat truck with strong supporting beams which is being used instead of the four horse trucks on which it was first intended to transport the building.

The difficulty of steering these trucks, became evident when they were first drawn out into the street two days ago, with their heavy load, by the large car of Messrs Cooney & Jopling, and this method was abandoned.

It is anticipated that the single truck now in use will be sufficient to carry the building to its new site.

Make Offer to Buy Kakabeka Falls Site

PORT ARTHUR, Ont., July 16. — F. R. Clergue of Montreal, one of the best known financial men and industrialists of Eastern Canada, yesterday made an offer to the Ontario Provincial Government of the Kakabeka Falls site 25 miles from Port Arthur, and credited with being the next important to Niagara Falls in scenic beauty.

The offer was made in an address to delegates from Port Arthur and Fort William, and the surrounding municipality, who accompanied him on an inspection of the property, which he controls. His holding is estimated at 1300 acres including the falls site.

FLIERS ARRIVE AT HONOLULU

Messages Received Confirming Reports Landed on Isle of Molokai.

CRASHED INTO TREE.

SAN FRANCISCO, July 16 (Canadian Press).—W. H. Sellander, general manager of the Matson Navigation Company, with offices here, announced yetserday afternoon receipt of wireless messages from the Island of Molokai, apparently confirming reports that Smith and Bronte had landed on that island.

The Matson Line's information was to the effect that the aviators had landed on the sloping south side of Molokai Island at Kaunakaki, and had crashed into a Kaiwa tree.

Mr Sellander stated that apparently the aviators had flown across a portion of the Island, approaching from the north.

The northern side of the island is rugged and precipitous, and Sellander believed that the aviators crossed the island in search for a landing place, but were forced down at Kaunakaki.

The southern shore at Kaunakaki consists of a long slope from a mountain to the north which rises to a height of approximately 3,500 feet.

A message was sent by the Matson Line late yesterday to its liner, the Wilhelmina, which had deviated from its course to search for Smith and Bronte, that the fliers were safe on land, and to continue on its way. Other ships of the Matson Line also were notified of the safety of the aviators.

DRIVER SLEEPS - CAR HITS TREES

Four Americans Hurt in Automobile Crash Near Beamsville.

WILL RECOVER.

ST. CATHARINES, Ont., July 16 (Canadian Press).—When the driver dosed at the wheel of an automobile after an all-night drive, the automobile left the highway near Beamsville and collided with trees. Four occupants of the car, all Americans, were injured, but are expected to recover.

NO BETTER MEDICINE FOR LITTLE ONES

Is What Thousands Of Mothers Say of Baby's Own Tablets.

A medicine for the baby or growing child—one that the mother can feel assured is absolutely safe as well as efficient—is found in Baby's Own Tablets. The Tablets are praised by thousands of mothers throughout the country. These mothers have found by actual experience that there is no other medicine for little ones to equal them. Once a mother has used them for her children she will use nothing else. Concerning them Mrs. Charles Hutt, Tancook Island, N.S., writes: "I have ten children, the eaby being just six months old. I have used Baby's Own Tablets for them for the past 20 years and can truthfully say that I know of no better medicine for little ones. I always keep a box of the Tablets in the house and would advise all other mothers to do so."

Baby's Own Tablets are sold by all medicine dealers or will be mailed upon receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

At a public auction sale in an English town the other day a horse-driven herase in good condition sold for two dollas and a half.

Under a new law in Missouri every public and private school is required to give instruction tin the Federal and State Constitutions.

Popular Entertainer Will Appear Here

Lester M. Stearns, one of the most popular of dramatic lecturers, will present at the coming Dominion Chautauqua a new lecture-entertainment entitled "Shakespeare and Life." In this lecture Mr. Stearns discusses many of the human problems which

Lester M. Stearns

from Iago daily, and by scenes from "Julius Caesar," "Hamlet," and "The Merchant of Venice," dramatically portrayed, shows how masterfully Shakespeare fathomed the depth of the human soul, of today as well as of yesterday.

STORMS LONDON.

Miss Ellen Ballon, a young Canadian pianiste, has taken artistic and social London by storm. She arrived unknown after a tour of continental capitals and now everybody knows her and she has a book full of London re-engagements. Miss Ballon was trained at McGill University in her native Montreal, and also in New York and Switzerland. Her musical favorites are the masters of the old school, Bach, Beethoven and Chopin.

FRUIT CROPS SHOW GOOD IMPROVEMENT

Outlook Brighter With Improved Weather Conditoins in Western Provinces.

OTTAWA, Ont., July 16 (Canadian Press).—Weather conditions throughout the fruit-growing provinces during the first half of June were generally cool, with abundant and, in some instances, excessive moisture, resulting in a general backward season. During the latter part of the month, however, conditions for the most part improved and all crops are making good growth, according to Dominion Bureau of Statistics survey.

There have been some changes in the apple situation since last month, and at this date it is difficult to arrive at a reasonably fair estimate of the total commercial crop, owing to the late set throughout the Dominion, and particularly in Nova Scotia. Indications, however, point to some increase over the five-year average. Other fruits remain fair to good.

The following is a summary of the commercial apple crop prospects by provinces on July 1st as compared with last year:

	1927 (Estimated) (Bbls.)	1926 (Bbls.)
British Columbia	1,049,000	1,312,360
Ontario	900,000	598,700
Quebec	103,000	115,800
New Brunswick	30,000	30,000
Nova Scotia	1,400,000	927,370
Total	3,482,000	2,984,230

Commercial crops are estimated on the basis of fresh fruits moved to market and do not include fruits used for evaporator, canning or other manufacturing purposes.

POLICE READY TO STOP MARCH

Armed With Tear Gas To Prevent Klan Parade in Detroit.

DETROIT, July 16 (Canadian Press). — Several hundred Detroit and Highland Park policemen were assembled at Highland Park Station to-day with orders to prevent the anticipated parade of the Ku Klux Klan through the streets of either city. The patrolmen, according to a police order, will be armed with guns, tear gas, and night sticks.

Refused a permit to parade in Detroit, Klansmen here for the Michigan, Illinois, Ohio, and Indiana convention, applied for a permit to parade in Highland Park. The permit was granted, but was cancelled later.

Police claim they have been advised that the Klansmen will attempt

MANY KILLED AND INJURED IN MOB RIOTS AT VIENNA

City Thrown Into Wild Disorders By Heavy Fighting of Rioters.

CLASH WITH POLICE.

Acquittal of Former Soldiers On Murder Charge Cause of Uprising.

VIENNA, Austria, July 16 (Associated Press).—Serious rioting that developed into heavy fighting threw Vienna into wild disorders yesterday.

At 4 o'clock yesterday afternoon the casualties were reported to be 40 killed and 200 injured.

Minor riots were proceeding in other parts of the city, while a mob collected outside of the Italian Legation shouting, "Down with Mussolini, down with Fascism."

The Palace of Justice was set afire and near-by apartments whose occupants were away on holidays were invaded and looted. Parliament is adjourned and the Cabinet met in constant sessions yesterday to deliberate on the situation.

Soldiers Acquitted.

The acquittal of a number of former soldiers who were accused of having killed a Socialist at Schallendorf in January precipitated the riots. The acquittals were announced on Thursday night after violent political speeches by counsels for both the prosecution and defence. A large crowd which was waiting outside for the verdict immediately started hostile demonstrations against the judges, which led to minor clashes and police interference.

It was early yesterday morning, however, when the real trouble began as soon as newspaper reports made the verdict generally known. Some of the newspapers printed denunciations of the verdict. Workers left the factories and began moving in the direction of Ringstrasse, shouting "Murderers. Down with class justice."

The first conflicts occurred opposite the University, where policemen were disarmed and their uniforms torn off by the mob. The officers were rescued with great difficulty by reinforcements of police. The most menacing situation arose outside of the Palace of Justice, where thousands of workmen erected barricades with motor cars and motor lorries to prevented the mounted police from advancing.

Soon after noon a mob got inside the building and played havoc there, despite a large guard of police. Windows were smashed and books and documents thrown out to be burned by the rioters.

Officials Beaten.

Officials and clerks were dragged out and beaten by the enraged mob, and were only saved from lynching by volunteer Red Cross workers. Meanwhile a desultory fire was opened on the rioters from another storey of the law courts.

The mob prevented the efforts of the fire brigade to extinguish the flames at the Palace of Justice, and for a time it seemed as though the police had disappeared.

Toward 3 o'clock in the afternoon, the Republican Schutzbund began an advance toward the Palace of Justice and was immediately involved in heavy fighting. Shots were exchanged and there were numerous wounded on both sides. The crowd eventually was driven back and the fire brigade was able to play streams of water on the burning structure, but it was stated that at least half of the building would be destroyed.

At 4 o'clock regular troops armed with machine guns advanced on the Palace of Justice and the fighting continued.

The casualties at this stage were reported to be 40 killed and 200 wounded. In the meantime minor riots had developed in other parts of the city. In the Josefstrasse, the mob burst into the printing and editorial departments of the Wiener Neueste Nachrichten. The rioters seized copies of the paper and burned them in the streets.

The mob also stormed and set fire to the building of the Reichspost and also attacked several police stations. The stations were attacked when the police had fled for their lives against the overwhelming number of rioters.

The Socialist party held a meeting yesterday and gave instructions to local leaders to prevent workers from the suburbs involving the city.

The situation appeared very threatening.

STARTS NEW FLIGHT.

W. E. Easterwood, Jr., prominent Dallas, Texas, business man, who has offered $25,000 for the first to fly from Dallas to Hong Kong, China, in three stops. Seven fliers have already entered the flight and are grooming

HAVELOCK NEWS

HAVELOCK, July 16—Mr. and Mrs. Maycox and son, Everett, Miss Lillian Wilson af Warkworth and Miss Hawker of Sutton were the Sunday guests of Rev. and Mrs. G. E. Lougheed.

Mr. and Mrs. Roy Phillips and family of Campbellford were the guests of Mr. and Mrs. W. Vandervoort on Sunday.

Mr. W. J. Cottrell of Marmora attended the L.O.L. service on Sunday evening.

Mr. and Mrs. J. A. Lott of Frankford spent Sunday with Mr. and Mrs. C. Dewey.

Mr. and Mrs. Peter Buchanan and family of Port Elgin are the guests of Mr. and Mrs. Andrew Buchanan.

Misses Mabel Pacey and Gladys Brewster are in Toronto marking examination papers.

Mr. and Mrs. Martin McCann of Toronto were the recent guests of Mr. and Mrs. P. McCann.

Misses Helena and Bessie Curtis are attending summer school in Toronto.

Mr. and Mrs. Harvey Cook and family attended the old home week in Owen Sound.

Mr. Philip Greenley of Sulphide spent the week end at his home here.

Mrs. Don Barnett of Toronto was the guest of Mr. and Mrs. M. Barnett last week.

Miss L. Kinnear of Montreal is the guest of Mrs. D. Greenley.

Mr. and Mrs. L. Breen and Mr. and Mrs. P. McCann spent Sunday in Belleville.

Miss Edith Greenley of Toronto is spending her holidays with her parents, Mr. and Mrs. D. Greenley.

Mrs. Burrells and son, Mr. James Burrells of Buffalo, N.Y., visited Mr. and Mrs. J. H. Moore and Mr. and Mrs. P. McCann on Tuesday en route to Montreal and St. Anns.

Mrs. Blaney and daughter, Bertha, and Miss Mildred Epringham, of Toronto are the guests of Mr. and Mrs. D. Greenley.

Misses Marguerite and Geraldine Fox of Hastings were the week end guests of their aunt, Mrs. P. Logan.

Mr. and Mrs. E. Dart and family are spending the holidays at Mr. C. H. Brewster's cottage at Round Lake.

STRAWBERRY PIE.

An appealing supper dessert can be made by baking a pie crust in the morning and filling it with fresh strawberries and whipped cream just before serving.

YOUNG TRAINS IN PLEASANT COMPANY.

Geo. Young, conqueror of the Catalina, is shown with two of his "sparring partners" at the training camp on Glen Island, Ont., where Young is getting into shape for the $50,000 Canadian National Exhibition swim. The girls are daughters of Trainer O'Byrne.

Aviators To Try Trans-Pacific Hop

Sydney, Australia, July 16 (Canadian Press). — Lieuts. Kingsford Smith and G. T. P. Ulm, who recently lowered the 7,500-mile round-Australia flight record have left by the Tahiti for San Francisco for their trans-Pacific flight. Lieut. Keith Anderson, another noted Australian trans-continental flier, accompanies them, and will take part in the first America-Australia hop.

The route of the proposed flight will be from San Francisco to Honolulu (2,100 miles), Fanning Island (1,200 miles), Phoenix Groupe (1,000 miles), Samoa (800 miles), Fiji (700 miles), New Caledonia (700 miles), and Brisbane (1,000 miles), a total flying cruise of 7,300 miles.

REAL PLEASURE IN EXCURSIONS

Trips On Stoney Lake Reveal Beauties of Otonabee River Scenery.

PLEASANT SAILS.

The half day and day trips arranged by F. G. Young of the Stoney Lake Navigation Company are calculated to give residents of the city, visitors and tourists alike, a splendid idea of the water scenery in and around Peterborough.

The "bounding Otonabee," as one visitor poetically expressed it, on first beholding the winding river that makes a turbulent way through the city, has some unparalleled beauty spots along its banks, and these are best observed and appreciated from the decks of one of the smoothly-going river steamers that makes occasional excursions over its rippling surface.

The Thursday half-holiday trips are a popular attraction for people who enjoy the pleasures of a water voyage, devoid of perils and still including a few thrills in the devious paths taken by the steamer through the currents of the far from placid Otonabee, which takes its name from an old Indian legend that declared a lovely redskin maiden long ago plunged into its pellucid depths when her stern parent forbade her marriage with the man of her choice. The waters, sparkling under the glance of the sun, might well conceal in moodier moments the remains of such a love-lorn maiden.

The "Stoney Lake," with its many conveniences for the pleasure and comfort of passengers, its accommodation for dancers in provision of piano and floor, and its counter where light refreshments may be purchased, leaves the George street wharf for Gore's Landing at half past one o'clock on those Thursdays when trips have been arranged, returning about nine o'clock in the evening, making a river sail of about six hours in length.

The pleasures of motoring along dusty roads are few when compared to the ease and luxurious mode of travel on this steamer, with scenic beauty to be observed all along the way and plenty of interest in the manifold small happenings of a day upon the water.

OBITUARY.

JOHN WRIGHT.

HAVELOCK, July 16.—The death occurred on Saturday, July 9, of a former resident of Havelock in the person of John Wright of Port McNichol. The remains were brought here on Monday evening and the funeral which was under the auspices of the Earl Kitchener Lodge A.F. & A.M., No. 538, Port McNichol, took place on Tuesday afternoon from the residence of his son-in-law, Mr. W. H. Rose, Ottawa street, to Maple Grove cemetery.

The late Mr. Wright was sixty years of age and was ill only about four weeks. He was employed as C.P.R. locomotive foreman at Port McNichol. He leaves to mourn his loss, his wife, one son, William of Farnham, Que., and two daughters, Eliza at home, and Mrs. W. H. Rose of town.

WILLIAM H. GREEN.

CAMPBELLFORD, July 16. — Suddenly on Thursday, 14th inst., at the home of his son, Garnet Green, King Street, Cobourg, William H. Green, a life-long resident of Campbellofrd passed peacefully away.

The body was brought here this morning for burial, and a public service is being held this afternoon at three o'clock in St. John's United Church. Interment in Mount Pleasant Cemetery.

20-ROOM HERMIT.

GREEN LAKE, Wis. — A woman recluse who dwells in a 20-room hotel on one of the town's four principal corners is the oldest residents in Green Lake. For twenty years she has lived in the same room. She is now 79 and has made her home continuously in the hotel since her father bought it over 73 years ago. She is growing blind.

OLD MASTERS

A little fairy comes at night.
Her eyes are blue, her hair is brown,
With silver spots upon her wings,
And from the moon she flutters down.

She has a little silver wand,
And when a good child goes to bed
She waves her hand from right to left
And makes a circle round its head.

And then it dreams of pleasant things,
Of fountains filled with fairy fish,
And trees that bear delicious fruit,
And bow their branches at a wish.

—Thomas Hood: Queen Mab.

DISPLAY OF RELICS FEATURES SOCIAL

Millbrook W. I. Holds Confederation Tea—W. M. A. Gives Pageant.

MILLBROOK, July 16.—The "Confederation Tea" held on Saturday afternoon, under the auspices of the Women's Institute, at home of the president, Mrs. Charles Thorndyke, was well attended considering the extreme heat and proved a most enjoyable social event.

The lawns were attractively decorated with flags of varying sizes, the dainty tea tables, centred with flowers, being laid out of doors and filled again and again during the tea hour.

Community singing of patriotic airs featured the first part of the gathering, a brief program being given in the house when the guests had all been served at the tables. The items included songs by two boys, Joe Thorndyke, his sister, Ruth, playing his accompaniment, and A. T. Armstrong, who accompanied himself on the banjo. A talk on "The History of the Flag" by Miss Anna Hawthorne, was replete with information and much enjoyed.

A tent in which a collection of antiques was arranged, containing many articles of historic interest, and family heirlooms belonging to the Confederation period, and pioneer days, attracted most of the visitors during the afternoon and early evening.

Financially the results were satisfactory. Among those assisting the hastess with the entertainment of the guests were: Mrs. T. H. Aiken, who acted as cashier, Mrs. Will Armstrong, secretary of the Institute, Mrs. H. A. Earle, who poured tea, Mrs. T. H. Harkness, vice-president, Mrs. A. J. Fallis, Mrs. Hilliard Lang, Mrs. C. C. Garside, Mrs. Fred McMahon, Misses Marian and Martha Earle, Bertha Lang, Flossie and Annie McMahon, Ruth Thorndyke, and others.

Confederation Pageant.

The Women's Missionary Auxiliary of the United church held its July meeting in the basement of the church on Wednesday afternoon, the special "Confederation Pageant", prepared in Toronto and furnished each organization, being the feature of particular interest in the programme.

Miss Mary Widdis, convenor of the group in charge, took the chair for the formal program, the president, Mrs. (Rev.) F. H. Howard, being in charge of the opening business period. The Auxiliary usually does not meet in July and August but, because of a number of members from the country and others who are up in years, who can more readily attend in these months, it was decided to continue the sessions in the holiday season. Mrs. J. L. Byam invited the Auxiliary for an out of doors meeting on the lawn at her residence in August.

The large room was beautifully decorated with flags, bunting, and flowers for the gathering, small tables, daintily laid, being placed at intervals for use during the tea hour.

The "Confederation Pageant" depicted the part the Women's Missionary Society has played in helping to build up a Christian Canada, and was both inspiring and educative. Those taking part were:

The Church—Miss Stella Hetherington.

The Maritimes—Annie McMahon (speaker), Bertha Lang and Elmo Davis.

Quebec—Flossie McMahon.
Ontario—Elinor Fallis.
Manitoba—Elsie Spnece.
Saskatchewan—Wilma Fallis.
Alberta—Marjorie Skitch.
British Columbia—Hazel McMahon.
Newfoundland—Margaret Howard.

The members of the Sunshine Mission Band, dressed in white, were massed at the back of the platform and between the various speakers, sang the verses of "O Canada" and "The Maple Leaf." The Mission Circle, and the C.G.I.T. group, in appropriate costume, represented the provinces. Following the pageant, Miss Lottie Luxon gave a reading which summed up the progress made since 1867, the debt owing the pioneers for their brave endurance and accomplishments, and the ideals, following the standard of Christ, for which all true Canadians will live and endeavour to propagate.

The tea was served in cafeteria style, Mrs. H. Skitch acting as cashier, and Mrs. H. W. Johnston pouring tea. Miss Widdis, with the members of her group, were among those helping with the service of refreshments, Mrs. G. W. Sayles, superintendent of the mission band, attending to the wants of the young folk belonging to that organization.

The receipts were to be used toward the outfit for an Indian boy and girl at the Coquoleetza Institute in British Columbia, which the Auxiliary and Circle must furnish by September. The Supply Committee, of which Mrs. Johnston is convenor, has this matter in charge.

PROFLIGATES!

EDINBURGH, Scotland, July 14. — Old jokes about Scottish thrift received the knock-out when $105 was recovered from the wishing well at Culloden, which will be used to help various charities. It is an ancient custom to toss a coin into the well and make a wish.

SELL DEER ANTLERS.

NOME, Alaska, July 15.—Reindeer have shed their antlers and native herdsmen are busily gathering and transporting them to the coast for shipment to the south. The bone material is valuable for many articles of manufacture.

Francis X. Rummelhart, of Riverside, Ia., has more than 200 descendants, including 8 children, 50 grandchildren, 131 great-grandchildren and 10 great-great-grandchildren.

NO HARVESTERS YET REQUESTED

Canadian Immigration Official in England Has Heard Nothing About Men.

THINKS NONE NEEDED.

LONDON, July 16 (United Press). —"We have received no requests from Ottawa for harvesters, and presume there is no need for them from this country."

This is what Bruce Walker, immigration official, told the British United Press to-day when his attention was drawn to a suggestion in the Morning Post that the British and Canadian Governments should be approached with a view to sending unskilled farm labour to Canada from Great Britain for the garnering of the Dominion's harvest.

The Morning Post says that latest information from Canada indicates that the cancellation of continental permits for harvesters is likely to seriously affect the labour situation in the Dominion, particularly in the Prairie Provinces, because undoubtedly as many harvesters will be wanted as were required last year.

Furthermore, The Post declares that the Canadian Government's action in cancelling the continental permits was misleading in view of the date, and that new British unskilled labour should replace the banned continental labour.

Walker explained, however, that the decision of the Ottawa authorities a month ago to cancel many categories of skilled foreign labour had nothing to do with the harvesting problem, and that personally he does not see any reason why Canada should need harvest help from Britain.

SIX KILLED.

Automobile Truck Struck By Railroad Train Near Utica, N.Y.

UTICA, N. Y., July 16. —(Canadian Press). — Six persons were killed at Soleville, 36 miles from this city last night, when an automobile truck in which they were riding was hit by a gasoline engine on Ontario and Western Railroad.

JAILED FOR 70 CENTS.'

WASHINGTON, Pa., July 15. — Charles Ford was unable to pay a 70-cent city tax and was sent to jail. Five months later he was still there. But several persons heard of his plight, sent contributions to pay the tax and the court costs, which were about $25.

HAVELOCK CHURCH FESTIVAL SUCCESS

Many Enjoy Good Supper and Programme at Knox Church.

HAVELOCK, July 16.—A good crowd was in attendance at the strawberry festival held on Monday evening on the Knox church lawn. Supper was served from 6 to 8 after which the following program was rendered, Rev. G. E. Lougheed acting as chairman:

Address—Rev. T. H. Stanley.
Vocal solo—Miss Vaughan Rorke.
Recitation—Mr. Bachus.
Vocal solo—Mrs. C. Jamieson.
Demonstration of their work by the boy scouts.

A radio was installed but was not used owing to unfavorable atmospheric condition. A substantial sum was realized which will be used for repairs to the church.

THOMASBURG NEWS.

THOMASBURG, July 16.—Mrs. George Thompson of Lodgeroom visited Mrs. Dorothy Elliott on Tuesday.

Mr. Harvey Vance and Mr. James Bateman attended the Oddfellow Lodge in Stirling on Wednesday evening.

An open meeting was held in the United church on Tuesday under the auspices of the W.M.S. who invited Fuller, eBthel, Lodgeroom, Moria and the Ladies' Guild of the Anglican church, Thomasburg. Mrs. Sills Foxboro was present and conducted the meeting. There was a good attendance and the collection amounted to $11.78.

Mr. Alfred Davis is improving.

Mr. Charlie Fennell is closing his store on account of illness.

Mrs. Williard McTaggart is visiting friends in Port Perry.

Mr. and Mrs. Damon McCannon and son, Clifford, spent Sunday in Belleville at the home of Mr. Harold Yateman.

Miss Lavin Restricks is spending the week at Mr. Harry Vance's.

MUSINGS AT A MANSE WINDOW

FROM DR. ROGERS, of Denver, I have got a good story which, being too good to keep to myself, I am going to pass on to my friends. It may lead to criticism, favorable and unfavorable; but whatever its fate may be I am going to set it down in the hope that it may thereby fulfil a wider ministry. It is the story of a minister who was sitting at his desk lookng over a list of vacant pulpits. A note from the church officers refusing him an increase of salary lay before him. A look of deep disappointment lurked deep in his eyes. If there is anything in signs it would not be hard to tell what he was thinking. Anyone who knew the amount of his daughter's unpaid hospital bill and the cost of his son's college expenses would entirely sympathize with that thought.

THE STRANGE VISITOR.

A knock on the door. A visitor entered and introduced himself as Sam Fieldman. This visitor was a striking contrast in appearance to the dignified and scholarly minister. He was short, thick-set, a beefy man with gimlet eyes, a clipped mustache and stubby hands. His suit was a loud check, set off by a big, red tie. He gave the minister's hand a business-like grip and sat down in the nearest chair, recognizing the fact that he was in the house by shoving his derby hat onto the back of his head.

"I'm a manager," began Mr. Fieldman, "and I come to see if I could hook up with you."

"We have our chautauqua all signed up for this year," answered the minister, and I doubt if any additional entertainments would prove financially successful."

"Say, what do you take me for?" exclaimed Fieldman, disgustedly. "I ain't no chautauqua. I'm a manager; a personal manager."

"Manager of what?" stammered the mystified minister.

"Why, any kind of talent," was the answer. "Foot racers, box fighters, mat artists, movie stars. I don't draw no lines."

"But why have you come to me?" was the next question.

"Well," answered the visitor, "I ain't so busy just now, and I got to figuring that a preacher needs a manager about as bad as any line that I know."

"I can't see what use a minister has for a manager," said the clergyman, puzzled. "I never heard of such a thing."

A MANAGER NEEDED.

"Well, it's this way," explained Fieldman. "Talent is high strung and flighty. If they are bothered with business details and such like they can't strut their stuff. Then they are most always a dud when it comes to business. A hard bargain driver could worry them into almost giving themselves away. So they have to have a manager to take all the business load off their minds, see that they get good contracts, do the press agent work and promote 'em generally. See?

"Now, ain't your line sort of artistic and temperamental?" he went on. "Don't you need a calm mind to do your best? Ain't you and most ministers working for half what you ought to get, just because you are in a position where you can't fight for your own rights? Well, that's where I come in. I look after all business details, make all arrangements, attend to publicity, stand up for your interests, and you don't have a thing to worry about only to knock 'em cold with your stuff."

THE TYPE WANTED.

"But, my good man," ventured the minister, "if I may say so, I fear you are scarcely the type of man I would choose to represent me."

"Sure. I get you," was the answer. "I ain't pious nor high-brow. That's just why I'm the man you need. These hard-boiled business men in the church like to squeeze a preacher down to the lowest possible price, and he, being a Christian and a gentleman, can't tell 'em where to head in at. Now, I ain't neither one, and I can fight 'em till they drop. And they'll have sense enough not to try any tricks with me."

"Well, there is something in that," admitted the minister, looking at the note on his desk with its refusal of a much needed increase in salary. "But how much would you expect for your services?"

"O, I'd split 50-50," was the answer.

"You mean I should pay you half my salary?" was the startled query. "Why, my dear fellow, I can scarcely live on my income as it is. How could I afford to pay you half of it?"

REAL BUSINESS.

"Hold on, Reverend," exclaimed Fieldman, raising his hand. "That's where my work comes in. I'll get you a contract that will bring you more money for your half than you can ever get alone. It's going to be dollars in your pocket, as well as mine. For the first time in your life you're going to draw a big league salary. What do you say?"

Although he was never able to explain how he allowed himself to do it, a contract was signed which made Sam Fieldman his business manager for ten years.

PUBLICITY PAYS.

Immediately the newspapers of neighboring cities began to print items of interest about the Rev. Timothy Brown, of Longdale. Within six weeks Fieldman came bursting into his study waving a contract with the leading church at Centre City at an unheard-of salary.

"But do you expect me to accept a call without knowing anything about the field?" asked the minister in surprise.

"You don't accept nothing," was the reply. "I signed a contract with them for your services. All you go to do is to be Johnny-on-the-spot the first of next month and deliver the goods. I'm having them fix up the parsonage in fine shape and they can't hardly wait for you to get there."

"How in the world did you do it?" the minister naturally wanted to know.

"O, handling a church contract is a pipe," was the answer. "I just played up the big advertising value of having a ten-thousand-dollar preacher, and told 'em to sign on the dotted line, and they was tickled half to death. We won't have no trouble with them."

DELIVERING THE GOODS.

In the new church the business manager proved to be all that he had promised in the way of keeping worrysome details from the minister. The study was established in an inner room of the church. To reach it visitors must pass through an outer office where Fieldman and a stenographer were on guard. Bores, cranks and agents were firmly told that the minister was deep in study and could not be disturbed for fear of wrecking his train of thought.

The publicity end was also skillfully taken care of. Newspaper notices, circular letters, a weekly church paper were all prepared and sent out with scarce a thought from the minister, who never had known such carefree hours before.

The first Sunday the church was packed with an eager audience. When the minister saw the Sunday morning papers, full of Fieldman's press-agenting, he understood the crowd and trembled. But the people had come ready to be impressed. They went away satisfied, eager to tell their friends not to miss next Sunday's sermon. From then on there was standing room only.

MARRIAGE FEES.

On the day that the minister had his first wedding at the new church the couple was ushered into the study by the manager, who, with the stenographer, acted as witnesses. All went smoothly until the bridegroom asked the minister what fee was expected.

"Why, a minister makes no regular—" he began. But Fieldman cut him off.

"That is to be arraged with me in the outer office," he said. "I'm the business manager."

The groom looked queer, but went out with the congratulations of the minister in his ears. What fee the manager charged for that wedding Mr. Brown never knew.

After that weddings came thick and fast, from some influence unknown to all but Fieldman and a clerk at the marriage license bureau.

A POPULAR PREACHER.

It is a truism that nothing succeeds like success. From many quarters came demands for the services of the Rev. Timothy Brown. The degree of D.D. was conferred upon him. He was invited to be the principal speaker at the State convention, and his sermon received a wide publicity. All this added to his popularity in the pulpit and out of it.

At the end of each month the manager handed the minister a check for his half of the salary and extras, a check whose figures almost dazzled the preacher's eyes. For once Timothy Brown was getting what he was worth, and was being made worth what he was getting.

The officers of the church were also decidedly satisfied. The treasurer reported to the surprised trustees that for the first time in years he was able to pay all bills promptly.

"Why, sure," spoke up Fieldman, who, of course, attended all trustee meetings. "Didn't I tell you the increased gate receipts would more than make up the higher salary? We're all to the good.

"But," he went on, "I've been checking up on the books, and there is about 160 members what is holding out on us and deadheading their way by not paying their dues. There is over half the crowd what ain't ponying up their share for missions, and some of you rich boys don't do half what you ought to.

"Beginning with the first of next month I'm going to smoke out these slackers and stop the leaks. If we had all the money we been losing we could stand this old town on its head."

ALL FOR THE PRESENT.

This is not all the story, but this will be enough for the present. It had a sequel. What that sequel was will be told another day. If the telling of this much of it provokes some correspondence through the pages of The Examiner, I shall feel amply repaid for the little part I have had in setting it before my readers.

—Allan Fairbairn.

Why Be Anxious

JUST pause for a moment, my friend, and tell me what good your anxiety does. Does it empty tomorrow of its sorrow? You know it doesn't. But it empties today of its strength. By it you cannot escape the evil; but it unfits you for coping with it if it comes. Then, why be anxious? Cast all your care upon Him, for He careth for you.

A Pen Picture

IT is about three o'clock in the afternoon. What is that soldier doing? A messenger has come to him bearing some tidings that evidently impress him mightily. Doubtless he has often had orders given him by his superior officers, but judging from his face never such a command as this. Soldiers are said to have iron nerve, but brave as this man may be, and is, surely never before were his nerves so tested! Has some awful intelligence been brought of the approach of a dreaded foe? No; terror is not in his face. Has some terrible duty been entrusted to him from which his feelings shrink? No; his features betray nothing of the kind. Wonder is depicted there, and gratitude, but above all an earnest desire to tell the news to others. He waits not a moment, but calls some trusty friends and shares with them the wonderful tidings which he has heard.

* * *

This is the 24th in this series of pen pictures of Bible history. The key to last week's picture is 1 Kings 18:40 (19-28).

Children's Corner — TELL US A STORY

WOULD you like to hear what sort of questions the school boys had to answer eighteen centuries ago. Very well; you shall. A rabbi, who lived nearly twenty years before Christ was born, set his pupils thinking by asking them, "What is the best thing for a man to possess?" One of them replied, "A kind nature"; another, "A good companion"; another, "A good neighbor." But one of them, named Eleazer, said, "A good heart. "I like your answer best, Eleazer," said the master, "for it includes all the rest."

Arabian Proverbs

Shut the window through which a bad smell comes.

If the gain were to approach his mouth, he would turn his back upon it.

Of little use to hammer cold iron.

Occasions, like clouds, pass away.

The beetle is a beauty in the eyes of its mother.

Life, like a fire, begins in smoke and ends in ashes.

The immodest woman is food without salt.

No man is a good physician who has never been sick.

I saw it said the other day that the future of any boy passionately fond of reading was assured, and I can well believe it.

The Pioneer People

IN the midst of the nations and midway of the earth lay a little kingdom, "the home-land of a race which had no art, no science, no "gods" save one, the Supreme: a race living apart from all others in its faith and custom, while it mingled with them everywhere, did trade with them, and exercised an influence unacknowledged but penetrating. . . . In the proper sense of the term it was "a peculiar people," having little or nothing to do with the general scheme of society to which all other nations more or less ranged themselves.

—Deas Cromarty.

SEARCH THE SCRIPTURES

1. Who was Gamaliel's most famous pupil?
2. Did Paul ever see the Lord Jesus?
3. Whom did the Lord Jesus choose as Judas' successor?
4. What language did Paul use when giving his defence?
5. How was Paul brought under conviction of sin?
6. Who taught Paul to preach?
7. From which of Paul's Epistles is this taken: "Who loved me, and gave himself for me?"

(Answers to these questions will appear next week.)

ANSWERS TO LAST WEEK'S QUESTIONS.

1. Naomi (Ruth 1:21 with 1: 1-3).
2. Yes, Elijah (1 Kings 17).
3. "A mighty man of wealth" (2:1).
4. "The Lord be with you" and "The Lord bless thee" (2:4).
5. Yes, father, mother and home (2:11-12).
6. Six measures of barley (3: 15).
7. It was a token of renunciation (4:1-10).

Churches And Churchmen

BY I. SEEWELL

Story of a Newspaper.

IT happened first in New York. Two men were going downtown in the subway one morning, each reading a newspaper. One threw his about in sections, some of it falling to the floor where it was trampled under foot. The other folded his neatly and laid it on the seat beside him. A porter gathered up the scatterings of the first for destruction; a fellow passenger took the folded paper and read it while crossing the ferry where he took a train for Philadelphia. He, too, folded the paper when he finished reading it and later a brakeman, gathering the fragments of discarded papers, asked if he might take it.

He read it, rolled it tightly, tied it with string and tossed it off at a crossing where the train did not stop. An old flagman picked it up, read it and gave it to a little girl who called for it just before the noon hour. She carried it home where two elderly people read it, and that evening a woman came, chatted a moment and went away with the newspaper to her little house a quarter of a mile away, where, by the light of the evening lamp, she read laboriously to an aged father the paper which early in the day was read and folded in the subway in New York.

That may not have been the end; I do not know, but every day one paper, at least, makes this gracious little journey. Between the subway and the shack the human heart and its kindness, spreading so far afield, begins with a folded print. A cultivated phrase, a cheerful word, a kindly, considerate or polite deed—anything good in form, action or order has a contagious attraction. Some one looks for it, some one needs it.

* * *

What America Lacks.

PREACHING in the Lutheran Church of the Advent, Broadway and Ninety-third street, New York, Dr. E. E. Fischer, of the Mount Airy Theological Seminary, Philadelphia, on July 3rd, said: "Democracy without a Christian background is dangerous, and it is the lack of this background in America which causes the restlessness of modern life.

"If we could look into the hearts of holiday crowds tomorrow, we would see what Jesus saw in the hearts of the multitude which followed him; that they were like a flock of sheep, scattered and without a shepherd. I am not inclined to believe that men of the present day find any repose, any satisfaction in what they get out of life. Men give themselves to the satisfaction of the body and material welfare, but underneath their success is fainting and heaviness of heart.

"In viewing the crowd tomorrow your attitude will partly reveal your personality. Some of you may feel, as did a European monarch when reviewing his army, sadness over the transitoriness of life; others may feel the cynicism which Macauly expressed when looking over the London of his day:

"Five hundred thousand people, and half of them fools."

Others may feel, as do many generals and business men, that a crowd is but so many pawns with which to play a game. But Jesus felt none of these things. He felt compassion for the members, because he saw it like a flock of sheep, scattered and without a shepherd."

A Dry Nation.

BISHOP A. W. LEONARD of the Methodist Episcopal Church, speaking before a crowd of 5,000 persons in the Ocean Grove auditorium in the State of New Jersey, said:

"There is a United States outside of Greater New York City, and if a candidate of either of the great parties becomes the candidate of the wets, he will not be elected President."

* * *

A Hurtful Thing.

SURELY we can all agree with the preacher who says that there is not more hurtful thing in our public life than the tendency to think cheaply and to speak cynically of the whole matter of government. Men often use the words "politics" and "politicians" with a sneer, but if our politics have become mean and degraded it is not because that aspect of our life is by nature mean, but because we have indifferently allowed it to become so. It is because we have forgotten or disbelieved the great meaning of the nation and the fact that those who share its creation are fellow-workers with the dignity of the plans of God. For what, in truth, is this matter of a free people's self-government?

It is the high and holy flowering of the noblest aspirations of uncounted generations. It is the thing which millions of people, through long years of dumb oppression, have yearned for with all the instinct of manhood and womanhood struggling for light and spacious freedom in which the soul might breathe.

* * *

The Heritage We Have Reaped.

MARTYRS for human freedom have struggled and died for this very thing. For this thing the Commons of England fought with barons and kings through long centuries of conflict. It is today the heritage we have reaped as the harvest of the years.

In a free country the least individual is no longer the passive subject of a will that over-rides his own. He, himself, in a measure, is a creator with all his fellows of principles and ideals which shall control his life and theirs. He is charged with the great privilege and the equally great responsibility of determining whether or not the every-day realities of his time shall be fashioned according to truth and honor, or the reverse.

* * *

Priest and Preacher.

WHEN a man attains faith in God he will work and suffer without expecting immediate compensation, the Rev. Francis A. Fadden declared in his sermon at high mass in St. Patrick's Cathedral, New York. He compared knowledge of God to the day, and a lack of that knowledge to the night.

"Every man has his dream, but he will be dashed to the earth if he attempts to fulfill it in this world. It is easy to lift this dream to the super-natural; that is what Christ does for us. If we are to catch the magic of life, we must be a little part. When we do catch this magic nature does not become less, but we strangely become more. You should have a harbor with Christ in your soul. If you are with God there is nothing in the world that you cannot overcome.

When we recall the names of Longfellow, Lowell, Emerson, Hawthorne, Mrs. Beecher Stowe, we can't help wondering if we shall ever look upon their like again.

Awake Thou That.

AS well say the foundation of Washington monument is not important to the permanence of the structure as to say that the outstanding facts of Revelation do not matter. If a switchman is throwing a lever that will wreck a train, every intelligent and right-thinking man would say, "Flag the oncoming train." It is high time for the men and women who have had that deep and holy transaction with God, known as conversion and regeneration, to awaken out of sleep. —Dr. Conrad.

Vitality of the Bible

IT is remarkable how the vitality of Holy Scripture increases as it goes on. "The word of God grew and multiplied" is its history in a single line. First we have the written consonants of the Old Testament, chiefly in Hebrew with a few pages in Chaldee. Then a Greek translation, sometimes literal, sometimes after the manner of a paraphrase; and side by side with that a Paraphrase or Targum in the Semitic dialect (call it what you will), which took the place of Hebrew in common use. Then more translations from the Greek Bible into Latin. Then from Greek and Hebrew into many tongues: and last, not least, our English Bible, the foster parent of translations by the hundred—multiplying the word of God everywhere, and everywhere with the same vital force.

INTELLECTUALISM.

NO form of intellectual action, however comprehensive, however acute, and however brilliant, will satisfy the heart. So long as it is mere intellect, it will either jar with the heart or kill it outright. "The head scoffs and the heart sighs," said Middleton. The only thing to prevent this besetting sin of he head is to keep it habitually in an atmosphere of love and reverence.

—John Stuart Blackie.

POWER

REAL POWER is not measured by noise, nor energy and effectiveness by violence and demonstration. God was not in the stormy wind, the earthquake, the roaring fire, but in the still, small voice. The pendulum swings and flashes and ticks; but the mainspring, which every wheel and lever obeys, is absolutely noiseless and hidden. The mightiest powers of nature act, for the most part, in perfect silence.

An Apologetic Needed.

CHRISTIANITY needs no apologetic. It is consistent with itself. Its historic position is absolutely assured. As well might you undertake to defend the beauty of the diamond by argument and by reasoning, and insist upon the splendour of its imprisoned sunlight, as to attempt to prove Christianity's worth to the world. It is the brightest and most lustrous jewel of truth the world has ever known. —A. Z. Conrad.

THINKING

THE opinions of a genuine thinker must always be in advance of the age to which he belongs, for the opinions of the great masses of men are derived from tradition and confirmed by habit, whereas the opinions of a thinker are produced from an ideal and regulated by reason.

The Wise Man and the Fool

THE wise man is the interpreter of the past, the enjoyer of the present, and the prophet of the future; the fool is the slave of the past, the puppet of the present, and his future is in the land of dreams.

NEGATION.

THERE is a class of people with whom speculation serves only to puzzle their judgment, and sensibility to lame their action. The result of this in life is, of course, a barren negation. They say "No" twenty times when a well-constituted person would say "Yes." This "No" does not proceed, as in the case of Mephistopheles, from a desire to annihilate, but from an incapacity to create. —John Stuart Blackie.

Sympathy and Judgment

SYMPATHY without judgment is like wine without water, apt to degenerate into intoxication; judgment without sympathy is like water without heat, destined to end in ice.

SCOTTISH CAUTION

A story is told of a man who had just returned to Scotland after many years' absence, and was inquiring about the people he used to know.

"Where's oor auld freend, Sandy MacPherson?" he asked.

"I dinna ken," said the other, cautiously, "I dinna ken whaur he is: but he's deid."

When the sun of joy is hidden
And the sky is overcast,
Just remember light is coming
And a storm can never last.
—J. B. Smiley.

THE REAL MR. BALDWIN'S PERSONALITY.

If it were for his personal qualities alone—apart from his high official position—Hon. Stanley Baldwin, as he has revealed himself in a private capacity, would deserve a hearty welcome in Canada. He was little known when he succeeded Mr. Bonar Law. But since that time he has steadily forged ahead in what may be termed an almost world-wide interest.

Leaving aside politics altogether his capacity to say pleasantly wise and pleasingly apt things is something of a gift given to few.

One of the latest examples is a speech by him on being admitted as a member of the Worshipful Company of London Stationers. In it will be found comfort to those who hold to the relevancy and fitness of some of our Western place nomenclature—such as Medicine Hat, Moose Jaw, to instance two cases—against all the new-fangled substitutes or alternatives that raised the scorn of Mr. Kipling, who, by the way, is cousin to Mr. Baldwin. The latter argued in pleasing form, much to the pleasure of the Stationers Company, that he approved of their old Latin motto suggesting the eternal verities of the written word. In the Baldwin fashion of wit and wisdom, he regretted some things that have fallen into desuetude. But the stars of heaven, said he, were named "before imagination and romance and the sound of beautiful words ceased to have an effect on men's ears." If the Stationers were a body of today, what motto? Would it be "Push and go," or "Devil take the hindmost," or "Charity begins at home," or "Blow your own trumpet for no one else will blow it for you? . . ." "But, thank God," said Mr. Baldwin, "you have a motto which has come down through the ages and which will live into the ages."

Again, when he twitted the Stationers on the woman suffrage views of their predecessors—Mr. Baldwin has just declared for its widening out—he was equally happy. "It was only three years before the execution of King Charles I. that you suppressed a pamphlet called 'Women's Parliament,' on the ground that it was 'lewdly written'—a ground which I am afraid today would make but little appeal, even if urged on behalf of the Stationers Company for the suppression of any pamphlet that might be issued."

With Mr. Baldwin's capacity for compilation and rendition of things reminiscent of the good things of the good old days, he would possibly not be out of place at an old-timers' reunion in this part of the Empire, new it is true, but holding fast to traditions rather than written memorials. It takes a Baldwin to appreciate such excellent things as these.—St. Catharines Standard.

IMPROVING MENTAL HOSPITALS.

Considerable publicity has been given in recent months to charges and suggestions that the mental hospitals of the Province are open to criticism because of the methods frequently followed in dealing with inmates, alleged treatment of patients which would not stand the light of impartial investigation, lack of needed dental service and of other services, as well as of employment and entertainment, and, in general, to the failure of these institutions to gain the confidence of the public in the work of mental reclamation to which they are supposed to be devoted.

The Globe believes that many of these complaints were not without foundation. It has received a large number of letters to substantiate them, but more disturbing still was the inference that a tacit understanding existed between officials and other employees in some institutions to discredit the word of a patient when charges were made, to discourage complaints by severe punishment, and to keep the public in ignorance of the actual state of affairs.

Knowing the interest which Hon. Lincoln Goldie, Provincial Secretary, has taken in these hospitals and in their progressive development, The Globe did not believe that these charges would go for long unchallenged. Whether or not they merited the full attention which they received, the Provincial Secretary has taken action which should have the commendation of all who wish to see the mental institutions above suspicion.

Since the appointment of Dr. Ryan, of Kingston, as General Superintendent became effective he has been engaged in making himself acquainted with the details of his work across the Province. The results are a matter for the future, but it is confidently expected that they will be beneficial. Much will depend upon the co-operation which he receives from those under his jurisdiction. If he fails to make the progress anticipated the onus will be upon them, but it is hardly conceivable that such an important appointment will be permitted to become ineffective because of opposition or personal antipathy on the part of minor Provincial employees. If Dr. Ryan does not get done what the demands of any given situation require, it is to be hoped, and, naturally, will be expected, that the Provincial Secretary's Department will not hesitate to step in and endorse his authority.

Dental service has been installed in the hospitals, and progress is being made in occupational therapy as rapidly as instructors can be obtained. The adoption of these features will remove part of the cause of complaints heretofore made. They are at least a step, and an important one, in the right direction. But what is more important, The Globe considers, are plans being made to acquaint the public with the work of the hospitals and to make the public a party to its progress. It has been learned from authoritative sources that the Provincial Secretary proposes the appointment of Visiting Committees at centres where the institutions are located—committees of disinterested but sympathetic citizens, who will be invited to make suggestions, acting, as it were, in the capacity of trustees for the patients.

This has been urged in The Globe, and when it is possible to take the step, at some time in the future, mental hospitals should have a new status in the public mind. The element of suspicion and distrust should be removed. Patients needing treatment will not be so liable to delay until too late, and if this is a result the permanent tax on the hospitals should be relieved. How soon this point of contact can be established with the public is not yet known, but the fact that it is proposed is an indication of advancement in the work which may be looked forward to with confidence.—The Globe.

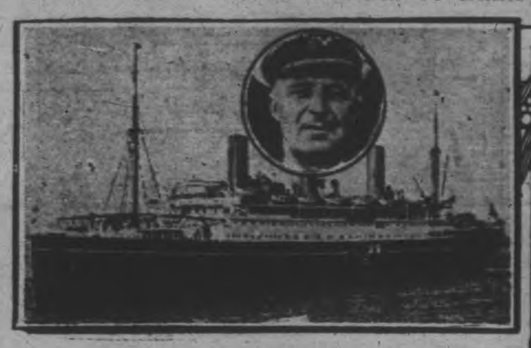
EDITORIAL NOTES AND COMMENT.

Tommy Church, M.P., called upon to decide a baby contest in which there were twenty-six entries, called the whole two dozen and two winners, and paid the twenty-six prizes himself. No wonder he finds it easy to win elections.

These swimming marathons offer little for the man who likes action.

Visitors to Peterborough's motor tourist camp are assured that a midway is not retained as a permanent attraction at the Exhibition Grounds.

ROYAL SHIP TO CARRY ROYAL VISITOR.



On July 23 the Prince of Wales, his younger brother, Prince George, and Premier Baldwin are scheduled to sail for Canada. They are coming on the "Empress of Australia," greatest ocean leviathan to ever sail the St. Lawrence, which has been inaugurated in the regular Atlantic steamship service for the Canadian Pacific Railway. The ship, originally German-built and re-fitted and re-engined in England, arrived at Quebec recently. The ship herself is shown, at the upper left, her commander, Capt. R. G. Latta, in the insert. On the one side is the latest portrait of Mr. Baldwin and one the other, the Prince of Wales in a characteristic pose.

CATTLE, GRAIN AND PRODUCE

Peterboro—Toronto—Montreal

TORONTO LIVE STOCK.

TORONTO, Ont., July 16.—A good run of over 4,000 cattle in Monday's opening market met with active trade at a shade better prices for the choicest butcher offerings. A load of heavy beef steers topped the market for the week at $9.50. This type of cattle of prime quality has been rather scarce of late, and a local packing house was looking for a special load for the export dressed beef trade to Boston. Hence the comparatively high price realized for this particular load.

Monday's brisk market was followed by quiet markets on Tuesday and Wednesday with light receipts due to the "July 12th" celebrations. The slight advances on the best quality finished steers and heifers were easily held for the balance of the week.

Choice butcher steers quoting firm at $8.50 to $8.75, and heifers $8.00 to $8.50. Good steers and heifers steady from $7.50 to $7.75, and medium to common from $5.50 to $6.50.

Fat cows steady from $6.25 to $6.75 for choice quality. Medium, $3.75 to $4.75.

Bulls in slow demand at from $5.25 to $5.75 for choice quality light weights. Common not wanted.

Stocker trade continues quiet, due to the generally high prices asked for anything of good breedy quality. Western heifers were quoted from $5.60. Western steers poor quality, $3.75 to $6.50. Ontario fed steers up to $7.00.

Calves were in a strong market all week, with light receipts, and with buyers for the Buffalo market looking for good veals. Prices advanced about a dollar in the closing markets, selling up to $14.00 to $14.25.

Hogs closed a quarter high at $10.15 selects, off car.

Receipts.

Union Stock Yards — Total receipts, 5,032 cattle, 1,724 calves, 1,995 hogs, 1,174 sheep and lambs.

MONTREAL GRAIN AND PRODUCE.

MONTREAL, Que., July 16 (Canadian Press). — A better demand in the domestic market for low grade Manitoba wheat and oats featured the local produce trade on Thursday, and some export business was done at listed prices. There was also an improved trade in spring wheat grades of flour, but the export business was dull. The winter wheat trade was moderate, with prices maintained.

Millfeed and rolled oats were unchanged.

There was a fair demand for baled hay, with no change in prices.

The egg market was active, due to provision being made for week-end shipments. The prices were maintained. Receipts were considerably decreased over the corresponding day last week.

There was no change in the butter trade and the dullness was attributed to the fact that local buyers are receiving sufficient supplies direct from the country. The undertone to the market was steady, however.

The cheese trade was again weak, and spot prices were decreased from ¼c to ½c. Receipts were about the same as last week.

Grain Quotations

Eggs, storage firsts, 31½c.
Eggs, storage seconds, 29c.
Eggs, fresh extras, 38c to 40c.
Eggs, fresh firsts, 35c.

STERLING EXCHANGE

MONTREAL, Que., July 16 (Canadian Press). — Sterling, demand, $4.85¾; cables, $4.86¼.

CHICAGO GRAIN.

CHICAGO, July 16 (Canadian Press). — Reports indicating rapid progress of the corn crop brought about a world of selling in the corn market yesterday, and prices underwent a sharp setback. Closing quotations on corn were unsettled 2¼c to 3½c net lower, with wheat 1¼c to 1½c down, oats 1¼c to 1½c off, and provisions varying from 5c decline to a rise of 22c.

Wheat was influenced by corn weakness and by unlooked-for down turns in Liverpool quotations. Much improved weather in Europe was noted. Meanwhile, black rust in the North-west appeared to be making progress. Export demand from North America was slack to-day. Oats acted with other grain and on account of weather favouring oats.

Provisions were higher.

CHICAGO CATTLE.

CHICAGO, July 16 (Canadian Press). — Cattle, 3,000; best matured steers, $13.00; part load yearlings, $13.25; bulk grassers, $9.50 to $10.50; with sprinkling common kinds to killer, $8.00 to $9.00; stockers and feeders slow, bulk stockers, $7.50 to $8.75; vealers, $13.00 to $13.50; few $14.00 to $14.50.

Hogs, 18,000; bulk early sales 170 to 210 pound averages $10.35 to $10.40; early top $10.65; sorted, 190 to 200 pound averages topping and $10.10; bulk 225 to 260 pound butchers, $9.00 to $9.50; bulk desirable packing sows on late round, $7.90 to $8.20.

Sheep, 8,000; bulk of moderate supply natives lightly sorted at $14.00; few best loads, $14.25; culls, $9.50 to $10.00 mostly; better grades of desirable weights fat ewes, $6.00 to $7.00; few heavies around $5.50; feeding lambs, dull.

CO-OPERATION HAS HELPED SCHOLARS

Trustee Roach, of Havelock, Gives Reason For Good Showing This Year.

HAVELOCK, July 16. — A hundred per cent of the pupils recommended by Principal P. Yuill of the Havelock public school for the entrance examination, passed, and in view of the fact that Havelock school and board has been in the limelight so much during the last few years, these results are very gratifying.

Trustee H. W. Roche, who has served a longer term on the Board than any of the present members, stated that he thought the results were the outcome of some years' work on the part of the principal and staff; that it indicated that during the past two or three years there had been co-operation on the part of the Board and the school staff. He also thought that there was a time when the parents were not taking the same interest in the children as they do now, and that the co-operation of the board, staff and parents had been responsible for the success achieved by the school this year.

Mr. Roche advocates allowing pupils to pass on the recommendation of the principal, based on their year's work. He said that this was done in some places, and thought Havelock school should have the same privilege as quite often pupils who are of a nervous disposition would not be able to do their best writing their examinations under a strange presiding oficer and the teacher would take into consideration matters like this when a stranger who did not know anything about the work they had done, would not.

Robert Bell, a Philadelphia typesetter, printed a law book in 1771 that is still in use in the library at Livermore, Calif.

LAND CRUISES

Have you ever wondered at the scanty experience of some travellers? "Banff"? they say, "Oh, yes, that is out west." Lake Louise, the Windermere drive, Over the Great Divide. Have you had the pleasure? Has the joy of your trip been marred getting meals, shelter and reservations so that you saw hastily, or not at all, the very beauties you went so far to view.

Canadian Pacific Land Cruise members are not encumbered with the cares and worries of the individual traveller. Free from all petty details, you can cruise along the wonder belt of the world, over the Great Prairies, through the Canadian Pacific Rockies, Across the Great Lakes, the two inspiring motor drives, seeing everything worth while, bringing back a rich store of vivid impressions, unspoiled by the memory of annoyances and discomforts. You never get into difficulties, Sinclair Laird the director, has made the way smooth beforehand. Ask J. Skinner, local C.P.R. representative, for Cruise literature. 28-9-16

DEBILITY DUE TO INDIGESTION

Perfect Digestion Comes Through Rich, Red Blood.

There can be no perfect digestion unless you have rich, red blood. This is scientifically true. It is also true that there is no tonic for the stomach that there is no tonic for the stomach that is not a tonic for every other part of the body. The way, then, to tone up the stomach is to tone up the blood.

The many so-called stomach remedies merely try to digest your food for you. How much better it is to tone up the stomach so that it will do its own work as nature intended. There is no pleasure in eating predigested food. Tone up your stomach and your appetite and digestion will soon be normal.

If your digestion is weak and your blood thin you need the help of Dr. Williams' Pink Pills to enrich the blood and restore strength. In addition use care in the selection of your food and your stomach trouble will soon pass away. Mr. Gordon Dundas, Peterboro, Ont., tells as follows what this medicine did for him. He says: "Something over a year ago I was a gasoline salesman when I was taken sick. I felt very miserable and lost twelve pounds in weight. I did not sleep well and could not eat as I could scarcely retain anything in my stomach. I went to a local doctor who told me the fumes of the gas had got into my system. He gave me some medicine and told me I had better go to the country for a change of air. I did so, but I still felt listless and groggy, and had no ambition. On the advice of a friend I decided to try Dr. Williams' Pink Pills. I had not been taking the pills long before I was beginning to rest better, and to eat fairly well. I kept on taking the pills until at the end of the seventh box I knew I did not need any more, as I had gained the weight I had lost, sleep well and could eat anything. I have since had splendid health and cannot say too much in praise of Dr. Williams' Pink Pills.

You can get these Pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

NOTE IN OLD BOTTLE

COTTONWOOD FALLS, Kas. — A note placed in an old beer bottle 15 years ago, thrown into the Cottonwood river here by Harold Wiebrecht, of Strong City, was found recently by L. F. Higginbotham, on the Grand river, near Fort Gibson, Okla. Wiebrecht, then a boy had written to ask that the finder write to him.

Many animals spend their entire lives in the open sea.

CATTLE BOAT JOBS SCARCE THIS YEAR

Impecunious College Men Find European Trip Doubtful as Movement Lessens.

MONTREAL, July 16.—(Canadain Press.)—Because of the light movement of Canadian cattle to Great Britain this summer many Canadian college students find themselves done out of an inexpensive vacation trip to the Old Country. John Storen, the cattle exporters' agent at Montreal who handles much of the shipments, reports that very few men are needed this season and that he has already had to disappoint scores of youths eager for the opportunity to valet steers on their death journey.

"Going cattle" has become increasingly popular with collegians during the past few years. The cost of the return trip is only five or ten dollars—plus 10 or 12 days of labor with pitchfork and water bucket in stuffy holds. There has been a big improvemet in the food and sleeping quarters accorded the seafaring stable hands during the past decade and to-day the ordeal is not a very terrifying one. Accommodation for the return voyage is provided on westward bound freighters and this portion of the adventure is free from work.

Shipping regulations call for three men to every 100 head of cattle. A crew may consist of as many as 15 men under the command of a foreman—usually a fierce-eyer martinet, possessed of a seasoned vocabulary which he exercises impartially upon collegians and steers. He has the distinction of being the only worker on the cattle decks who draws pay.

When the cattlemen have signed on at the office of the shipping master their first duty is to tie up the steers, which necessitates their initiation into the mysteries of the cattleman's knot.

The company of the cattle deck presents as strange contrasts in humanity as are to be met with anywhere upon the seven seas. A representative crew consisted of an instructor and three students from Toronto University, three Dalhousie students, a professional gambler and bootlegger, a Divinity student bound Cambridgeward in pursuit of post-graduate honors, two "down-and-outs" and a chiropractor who planned to set up business in England.

At four-thirty on each of 13 mornings this oddly assorted crew tumbled unwillingly from its blankets and pitched into the heaviest of the day's task—the morning watering of some 400 steers. The water is baled from hogsheads which are stood at intervals along the narrow aisles; the brimming buckets are passed from hand to hand and finally delivered to the madly thirsty animals, who usually succeed in upsetting at least twice as much water as they drink.

Three feedings, two of hay and one of grain, an afternoon watering and a clean-up of the unsavory aisles fill in the remaining working hours of the day which, if the foreman has any mercy in his heart, are broken by a grateful interlude of loafing after dinner. Watering is the only back-breaking number on the programme.

MILLBROOK LODGE ATTENDS SERVICE

Orangemen Hear Good Sermon By Rev. P. C. Howard.

MILLBROOK, July 16.—There was an unusually large turnout of the Orange Lodges of the district for the annual parade to attend divine worship on Sunday evening, the Citizens' Band under the leadership of G. A. Duncan, heading the march from the L.O.L. Hall at 7.30 p.m.

St. Thomas' church was filled to the doors for the service, a number being turned away because the capacity of the auditorium was overtaxed. The extreme heat caused considerable discomfort and there was no attempt made to prolong the service by having any special music by the choir for the occasion.

Rev. P. C. Howard preached from the text found in I Corinthians 16:13: "Watch ye, stand fast in the faith, quit you like men, be strong", his discourse being listened to with close attention, and inspiring in the ideals of Christian conduct presented in forceful language and clear spiritual insight.

The band rendered a sacred concert in the town hall square after the service, a very large number of people from all the churches and the community generally gathering in the vicinity and giving evidence of appreciation and enjoyment.

Brother James Roddy is County Master of the East Durham L.O.L., Brother William Lynn District Master, and Brother David Patton Worshipful Master of the Millbrook Lodge, No. 79. The Orangemen from this district went to Bowmanville for the annual parade on July Twelfth, the Lodges being well represented.

THREE TO FLY TO AUSTRALIA

Aviators Sail From Sydney To Start Flight From San Francisco.

SMITH LEADER.

SYDNEY, N.S.W., July 16 (United Press). — Making up their minds in the last twenty-four hours, three Australian airmen sailed for the United States to-day by the steamer Tahiti, to undertake a flight from San Francisco to Sydney via Honolulu, the Fanning Islands, the Phoenix Group, Samoa, Fiji, New Caledonia, and Brisbane.

The fliers are Kingsford Smith and Keith Anderson, pilots, and G. T. P. Ulm is the mechanic.

It is estimated that the cost of the flight will amount to 7,000 pounds sterling, to raise which amount Sydney and Melbourne newspapers have opened a subscription. Help may also be forthcoming from the Federal Government.

Captain Kingsford Smith recently completed a sensational 9,600 mile flight round Australia in eleven days, cutting the previous record in half.

SOCIETY

Mrs. W. J. Green, Brock Street, has returned home after visiting friends in Ottawa.

• • •

Mrs. F. Kelly, of Chicago, is in the city, owing to the illness of her mother, Mrs. B. Houlihan, Donegal Street.

• • •

Mr. and Mrs. A. E. Micks and their daughter, Mrs. C. G. Thomson and son Gordon, Sherbrooke Street, have opened their summer home at Chemong Park.

• • •

Miss Dorothy Williams, Romaine Street, is spending her holidays in Hamilton and Stratford.

• • •

Mr. Craig, of Vittoria, Ontario, is the guest of his sister, Mrs. M. Reazin, Gilmour Street.

• • •

Mrs. Emma Wood, Antrim Street, is spending two weeks at Lake Simcoe.

• • •

Mr. M. H. Park is celebrating a birthday anniversary to-day.

• • •

Inspector Hutchinson, of the Public School staff of Whitby, is the guest of Mr. and Mrs. F. C. Weber, Gilmour Street.

• • •

Miss Annie Bench, Romaine Street, is spending her vacation at Hamilton and Stratford.

• • •

Magistrate O. A. Langley is in Toronto to-day, attending an executive meeting of the Ontario Magistrates' Association.

• • •

Miss Muriel Bridge took the Cobourg to Rochester excursion on Thursday.

• • •

Mr. William Mitchell, of Port Hope, was a visitor to the city to-day.

• • •

Mr. and Mrs. J. E. Patte have opened their summer home at Chemong Park.

• • •

Mr. P. J. Scollard has returned from a visit in Ottawa.

• • •

Mrs. J. J. Callahan, of London, Ontario, arrived in the city last night, called here owing to the serious illness of her mother, Mrs. B. Houlihan, Donegal Street.

• • •

Mrs. L. Sager and son Robert, of Buffalo, N.Y., are visiting Mrs. B. Morrison, Sophia Street.

• • •

The many friends of Mr. Clarence Jackson, Maitland Avenue, will be pleased to learn that he has successfully passed his first-class examination at the Normal School here.

• • •

Mrs. Chalmers Nicholls, of Pittsburgh, Pa., who is visiting her parents, Alderman and Mrs. Walter Stocker, is spending the week-end at Stoney Lake.

• • •

Miss Myrtle McDonald returned to Detroit to-day after spending her vacation with her parents in the city.

• • •

Mrs. Fred Cluthe and daughters, of Glen Ridge, New Jersey, are guests of the Misses Denne, 723 George Street.

• • •

Mr. John Crane, manager of the Dominion Bank, celebrates a birthday anniversary to-morrow.

• • •

Mr. Wilson Craw, of The Examiner editorial staff, is celebrating a birthday to-day.

• • •

The Misses Katrine and Laura Purvis have returned to Guelph after spending a fortnight's holiday with their parents, Mr. and Mrs. H. S. Purvis, 471 Albert Street.

• • •

The engagement is announced in Toronto, of Bertha Kathleen, only daughter of Mrs. Lovett and the late Alexander Lovett, of Lindsay, to H. Stanley Myers, of Oshawa, eldest son of Mr. and Mrs. T. F. Myers, Argyle, Ontario—the marriage to take place on August 6th.

• • •

Mr. Thomas H. Hooper is celebrating a birthday anniversary to-morrow.

• • •

Miss Veronica O'Ray, of Rochester, N.Y., is visiting her brother and sister-in-law, Dr. and Mrs. D. J. O'Ray.

• • •

Mr. and Mrs. D. A. Loomis were in Rochester on Thursday, on the Cobourg to Rochester excursion planned by the Young People of the Bay of Quinte Conference.

Messrs. Harold and George Dormer are spending their holidays in Cleveland, Ohio.

The Misses Katrine and Laura Purvis, of Guelph Training School, attended the wedding here of their sister, Miss Thelma Purvis, to Mr. Geoffrey Graham.

Mrs. Roy O. Bond and children and Miss Nina Bond, of Medicine Hat, Alberta, are guests of Mr. and Mrs. J. R. Heron, Benson Avenue, en route to Truro, N.S. Miss Nina Bond will spend the summer with Mrs. Heron.

Evening Examiner Fashions

Shirring is Shown on a Dainty Frock for the Junior Miss

Charmingly simple is the demure frock shown here and is a style the home modiste will find quite easy to fashion. The opening is at the back and shirring forms an attractive self trimming around the neck, at the waist and lower edge of the long raglan sleeves. NO. 1548 is in sizes 8, 10, 12 and 14 years. Size 10 requires 2¼ yards 30-inch, or 1¾ yards 54-inch material, and ½ yard 36-inch lining for stays under the shirring. Price 20 cents the pattern.

Home sewing brings nice clothes within the reach of all, and to follow the mode is delightful when it can be done so easily and economically by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficulty an attractive dress. Price of the book 10 cents the copy.

A social evening was spent by the members and friends of the Queen Alexandra Circle, A.O.F., on Thursday night, with Mrs. Stevens in the chair, and Mrs. R. Bugg in charge of the programme. At the conclusion of the entertainment, an expression of appreciation to Mrs. Bugg and those assisting in the programme was voiced by Mrs. Martin, and refreshments of ice-cream, strawberries, and cake were served.

The programme was as follows: Opening chorus, "O Canada"; piano selection, "Meditation," by Miss Gladys Dafoe; vocal solo, "Marcheta," by Mrs. Leslie Groombridge; vocal solos, "When the Heart Is Young," "In the Garden of To-morrow," and "Smilin' Through," Mrs. Foster, "Molly Darling" and "Maggie," by Mrs. F. A. Rathbone; chorus, "Killarney," by the Female Voice Choir, with Miss M. Flowers as accompanist.

TAPIOCA CREAM PUDDING.

¾ cup Eagle Brand Condensed Milk
2¼ cups hot water
4 tablespoons quick-cooling tapioca
¼ teaspoon salt
2 eggs beaten separately
1 tablespoon melted butter
1 teaspoon vanilla or any preferred flavoring.

Dilute milk with hot water, blending well. Bring to scalding point in a double boiler. Stir in tapioca and cook about one-half hour. Add butter and salt to egg yolks. Pour over them gradually the hot tapioca, stirring constantly. Return to double boiler and cook three minutes longer. Pour slowly over the beaten egg whites, folding in gently; flavor and chill. Serve plain or with cream or fresh fruit sauce.

Vary cream tapioca pudding by arranging fresh or canned peaches, apricots, or sliced oranges in bottom of serving dish, pouring over the chilled tapioca cream.

Boiled Salad Dressing.

1 cup Carnation Milk.
2 eggs.
2 tablespoons melted butter
1 teaspoon sugar.
3 tablespoons vinegar.
1-4 teaspoon salt.
1-4 teaspoon mustard.
Few grains cayenne.

Combine salt, pepper, mustard and sugar and add to the well-beaten eggs. Add the milk and butter and cook in a double boiler until it begins to thicken, then gradually add the vinegar and cayenne. Remove from fire and chill thoroughly before using. For eight salads.

SAINT and SINNER

By ANNE AUSTIN

(Continued from yesterday.)

When Bob Hathaway returned from work that evening he was greeted by the strong odor of burning food and the piercing wail of an infant undoubtedly in pain. For the first time since their marriage Faith did not come running to welcome him, although he called twice, in a forcedly cheerful voice. He looked ghastly tired, done up with the heat and worry, when he followed the sound of the baby's crying and pushed open the door to his and Faith's room.

"Oh, it's you, dear." Faith looked up at him from over the baby's head which she was pressing against her cheek. Her face was white and drawn, her eyes wild with anxiety. "I thought it might be Cherry. Oh, I'm so worried!" she moaned, as the baby's screams grew more shrill and loud. "Something's the matter with her, Bob. She's been crying like this for nearly an hour, and I've burnt the string beans and I spilled the bowl of gelatine pudding on the floor—and everything's wrong!" she ended in a sob of despair.

"Where is Cherry?" Bob asked in an even, almost expressionless voice.

"She went to see Churchill," Faith explained with nervous haste. "Chris Wiley is going to file a counter-suit for divorce, demanding custody of the baby. Of course Cherry is going to instruct Churchill to fight. She thought there was no time to be lost."

"I see." Bob said dully, his shoulders drooping lower than ever. "Give me the baby," he went on in the same expressionless voice. "Or shall I see about dinner while you take care of Cherry's child for her?"

"Bob!" Faith could not restrain the cry. Then, without another word, but with her eyes great dark pools of tragedy, she laid the baby in his arms and hurried blindly out of the room toward the kitchen.

As she worked fumblingly to bring chaos out of the dinner preparations the tears ran steadily down her white cheeks. "He doesn't love me any more," she told herself drearily. "I've killed his love—if he ever really loved me and not Cherry—by bringing the family here to live off him."

Then her heart smote her for her disloyalty. "No, he isn't selfish," she protested passionately. "But no man could stay romantically in love under the circumstances. And he's jealous of the baby. But I've got to take care of her. Cherry can't—but, oh, Bob! I love you so, Bob!"

She was whipping cream for a raspberry shortcake, the tears still flowing steadily down her cheeks, when Bob came tiptoeing noiselessly into the room. His arms were about her, his lips burrowing into the hollow of her neck, before she was aware of his presence. With a great sob she turned and crouched against him, her fingers clutching his arms convulsively, as if they could not believe that he was really there.

"Sh-h!" he warned her, in a husky, tender whisper. "The midget's asleep. We mustn't wake her."

"What in the world did you do to her?" Faith marvelled, her eyes shining into his.

"I didn't give her an anesthetic, if that's what you mean," Bob laughed under his breath. "I fixed her a wee dose of peppermint in warm water, and she's gone off to sleep like a lamb. Awfully cute kid, isn't she?" he added, with elaborate casualness.

"Awfully!" Faith's voice trembled but her lips were smiling bravely. "You do love the baby, don't you, darling? You wouldn't let Chris Wiley take it away from—us?"

"Don't be an idiot!" he chided her softly, his fingers stroking her tear-flushed cheeks. "I'll manage the expense somehow, but for a minute I was floored. Everything seemed all askew—and I was hungry," he added boyishly. "But—I love you, honey. Don't you dare look tragic another minute."

(Copyright, 1927, NEA Service, Inc.)

(To be continued.)

HINTS ON ETIQUETTE.

1. When travelling on a Pullman, does a woman prepare for bed in the dressing room?
2. Do well-mannered persons ever carry lunch when traveling on a first-class train?
3. Must one tip the maid on a limited train?

The Answers.

1. No. She shoud slip out of her dress and into a Pullman robe in her berth. She should go to the dressing room to wash and do her hair.
2. Yes. Some rich people prefer home-made sandwiches to diner service.
3. Certainly, if she performs any service for you.

KEEPING PARSLEY.

If parsley becomes slightly wilted, let it stand for about an hour in cold water. If you shake off the water and put in a glass with a tight cover and place this in the ice box it will last in perfect condition for several days.

PRIZE WINNING NURSE.

Miss Kathleen Tarleton Cuffe, youngest daughter of Mr. and Mrs. B. Tarleton Cuffe, of 32 Benson street, who graduated from the Grant McDonald Hospital, Toronto, on Wednesday, June 23. Miss Cuffe won the Ambrose Kent gold medal for highest standing also as a reward for general proficiency, was chosen to take charge of the infant department of the Child Welfare Camp at Hastings Lodge, Bolton Camp.

HOROSCOPE

The Stars Incline, but do not Compel.

SUNDAY, JULY 17, 1927

(Copyright, 1927, McClure Syndicate.)

This is a day of contrary and conflicting planetary influences, according to astrology. It is wise to be cautious in speech as well as action.

Under this planetary government there may be criticism of both army and navy affairs from press and pulpit. There is a sinister sign indicating distorted mental vision on the part of many persons; who tear down where they should build up the reputation of public men and public institutions.

Because of certain aspects women may be exceedingly exacting and unreasonable; under this direction of the stars, which is threatening to domestic happiness.

There is a good aspect for writing whether it be for the printed page or for private perusal.

Newspapers and magazines certainly should profit greatly as autumn advances, for there will be much interest in reading.

Trend toward religious and philosophical interest is foretold. This should be a fairly auspicious rule for ministers.

Reactionary influences will benefit the churches, it is forecast, for lack of faith among the young is to awaken serious contemplation of modern ideas when raised to the nth power.

Women are to become interested in reforms that begin in the home, it is prognosticated.

Again return to the simple life is prophesied as one of the signs of the times and extravagance is to be frowned on by fashionable families.

Increase in the birthrate among Americans is to be marked as the year closes and to be of great significance to those who think.

Persons whose birthdate it is may have rather a temptuous year in which it is imperative that they should learn self-control.

Children born on this day may be too emotional for their own good, but they probably will be exceedingly talented.

MONDAY, JULY 18, 1927

Threatening aspects seem to govern this day, according to astrology. It is wise to begin the week cautiously.

Women are held to be especially affected by the sinister influences today and they should assume a positive attitude of moral strength.

The sway is supposed to encourage coquetry and greed, making for heartaches and disappointments.

If the seers are to be believed women are reaching a point in civic development where they must assume responsibilities that are serious.

Love affairs are not well directed while this configuration prevails, for it inclines to silly sentimentality and foolish flirtation.

Many persons past middle age will court and marry this year and the summer will be a period of universal interest in affairs of the heart, the seers prophesy.

Astrologers point out that whenever the world is near any sort of upheaval men and women assume new concern regarding each other.

This is not an auspicious rule for promoters, life insurance agents or others who must approach persons of wealth or power of any sort.

This is read as rather an unlucky day for those who seek any sort of employment and particularly disappointing to women.

The wise will delay important matters until there is a more favorable planetary government.

Extreme danger to rulers in Europe is prognosticated for the summer period by London astrologers.

War for Great Britain appears a certainty before the end of the year, for ominous signs attended the lunation for this month.

Persons whose birthdate it is should be careful of all writings this year, which may bring many vexations.

Children born on this day may be too easily influenced for their own good.

WASHING CHINA

When washing fine china and glassware, put only a few pieces in the dishpan at one time, and be sure that there is no violent change of temperature of the water. Wash and rinse in fairly warm, but not hot water.

HONEYMOON DAYS NEAR FOR BUD AND LENA

This is the Church of St. Andrew at La Tuque, Quebec, in which Bud Stillman and Lean Wilson will be married. The pastor, Rev. W. S. G. Bunbury (inset) will perform the ceremony.

Here are the lovers in the Lena Wilson-Bud Stillman story. Lena wears her costume of the days when she worked in the Stillman kitchen; Bud his Princeton graduation gown.

LA TUQUE, Quebec, July 16.—Needles are flying in a hundred homes in this little Canadian city today, against the eventful date of July 27.

That is the date on which La Tuque understands "Bud" Stillman, Princeton graduate of last month and son of James A. Stillman, New New York millionaire and clubman, will meet his woodland sweetheart, Lean Wilson, in the ivy-covered Anglican church here to change her name to his own.

La Tuque will be present in all its Sunday-best to witness the nuptial ceremony in a boy-and-girl romance which rivals love stories of even the most Prince Charming brand.

A college boy's vacation contact with a sweet-faced girl who worked in his mother's kitchen was the origin of the Bud Stillman-Lena Wilson romance. The kitchen was in Mrs. Anne Stillman's rambling summer home on the forested shores of the St. Maurice river.

• • •

No other land than the St. Maurice's shores ever had been known by Lean. She had no education save that of a little country schoolhouse, and was versed only in the life of her own simple people and the birds and beasts of her native woods.

Within a brief year of its inception, the story of this smiling Cinderella of the Canadian bush runs to its crowning chapter this month before the altar of St. Andrew's church.

Father and Mother Stillman, themselves well acquainted with the hazards of matrimony, took the little country girl to their hearts when Bud fell in love with her.

Mrs. Wilson's consent quickly gained, Lena was wafted away to New York to learn at the hands of her prospective mother-in-law the mysteries of the big city life she will be called on to lead after her marriage.

Meantime Mother Wilson said good-bye to the humble home where she had raised Lena and her other daughters. She was installed in a handsomely furnished house at 31 De Castlenau street, La Tuque.

There, with her daughters Isabel and Edna and two small sons, she is awaiting Lena's return from New York for the wedding. The kitchen of the Stillman summer home at Grand Anse now is behind the Wilsons forever.

Lena's brothers and sisters speak haltingly of the Stillmans and the wedding-to-be. They are as shy as the furred and feathered inhabitants of the nearby woods.

• • •

According to present arrangements the wedding will be solemnized by Rev. W. S. G. Bunbury, pastor of the Church of St. Andrew. The church has seats for perhaps 200 persons. Prominent New Yorkers will come to La Tuque to fill most of these seats, it is expected.

Fowler McCormick, who six years ago, during Mrs. Stillman's divorce battle, denied he and Mrs. Stillman intended to marry, is to be Bud's best man, 'tis said.

The Stillman family is known only casually to Rev. Bunbury, a veteran o fthe Boer War and former western ranch man. Lena will be a newcomer in his church, for she was brought up in another faith.

After the wedding there will be a big reception at La Tuque's Community Club, it is understood here. Then Bud and Lena will go away to Europe, for their honeymoon.

• • •

The St. Maurice river will continue to dash down through La Tuque to Grand Anse, Grand Mere, and Three Rivers and on into the St. Lawrence and the sea. Pulp from the La Tuque paper mill will travel the world over to carry the world's news. But it is doubtful is rushing waters ever will sing or paper ever carry a more romantic story than that of the girl of the Canadian woods who is to become the bride of an heir to millions.

DRESS

By MARY MARSHALL

In the sketch you may see a slipper of beige moire with brown kid straps and a gold buckle, a sandal of green patent leather and crocheted straw, a sandal of linen and kid in two shades of gray, gray pearl-finished kid sandal with colored bands and a red kid open-work sandal with piping and lining of gold kid.

Colored shoes are out of the question for the woman who must be economical in her dress. For colored shoes must be chosen to conform with the color scheme with which they are worn. They cannot do general duty. Then, too, colored shoes are seldom inexpensive. A few years ago when the fashion for green and blue and red shoes was first launched they were to be had in extremely inexpensive editions. But this year wisely enough the shoemakers have not attempted these low-priced colored shoes.

With the tailored frock or suit of navy blue French women have been wearing navy-blue kid oxfords or slippers through the spring and early summer. We have lagged somewhat in this fashion—but not probably because of any dislike of the navy-blue shoe. It is a fact worth noting that dark blue kid tends to reduce the apparent size of the foot in a surprising way. A rather bright dark blue satin trimmed with gold was used for an evening slipper to be worn with a frock that combined blue and gold.

For wear with light summer frocks the woman of fashion may choose between shoes of such neutral tones as beige and light gray, or she may wear bright colored shoes to harmonize with the prevailing color note of the frock. There are often interesting combinations of colored kid and other material in the same shoes. Green patent leather makes an alliance with crocheted straw in one summer sandal, blue kid straps and bands are combined with blue linen in another shoe.

PLANE BELIEVED TO BE ST. ROMAN'S

Wreckage Found in Amazon Identified as Goliath Plane.

RIO JANIERO, Brazil, July 16.—(Canadian Press.)—The wreckage of an airplane, found some time ago by fishermen in the Amazon estuary and taken to Para, has been identified by an engineer as a Goliath, strengthening the belief that it was the plane of Captain Saint Roman, who, with a flying companion, has been missing since they started across the southern Atlantic for Brazil in May.

MILLBROOK NEWS.

MILLBROOK, July 16.—Misses Ella and Olive Elson, and Kathleen Lancashire left on a motor trip to Winnipeg, and other points west, this week, accompanying Mr. R. Wyatt, who has been visiting in this vicinity for some weeks, on his return trip.

Mrs. R. J. Doak, and Albert, who have been visiting Mr. and Mrs. Price of Orillia returned home this week.

Mrs. I. E. and Miss May Needham motored to Toronto on Tuesday with Mr. and Miss E. Morrow, of Peterborough, and attended the funeral of the late Mrs. Fred Coombs, daughter of Mr. and Mrs. A. E. Ames, and granddaughter of the late Senator George A. Cox. The funeral took place from "Glen Stewart", the residence of her parents on the Kingston road, to Mount Pleasant cemetery.

Mrs. J. T. V. May of Toronto, accompanied her sister, Mrs. E. S. Burnham, home from the former's summer home at Beaverton on Tuesday, and is remaining for a brief visit.

Mrs. W. Lamprey, who has been visiting her mother, Mrs. T. B. Collins, and other friends in the east for some weeks, left for her home in Vancouver, B.C. on Saturday.

Miss Etta Needler left on Wednesday for a two weeks' visit with Dr. G. H. and Mrs. Needler at their summer home, "Lockesley" on the Lake of Bays, Muskoka.

Miss E. A. Dixon of Toronto is the guest of Mrs. C. M. Westmacott.

Miss Reta Pengelly, of South Monaghan, accompanied Rev. Canon and Mrs. Allen on their trip to England and the Continent, the tour being under the direction of the University of Toronto Travel Club.

WAXED FLOORS.

All hardwood floors should be carefully cleaned up and re-waxed this time of year. Summer cleaning will be cut in half by this.

NOTED EXPLORER.

Lady Richmond Brown has won a reputation as an intrepid explorer and traveler and in addition is widely known in England as a charming hostess.

USE Old Dutch to clean your kitchen utensils, floors, sinks, bathrooms, etc. It saves you money because a little goes a long way. Contains no lye, acids, or hard grit; will not injure the hands or surfaces. There's nothing else like Old Dutch for *Healthful Cleanliness*

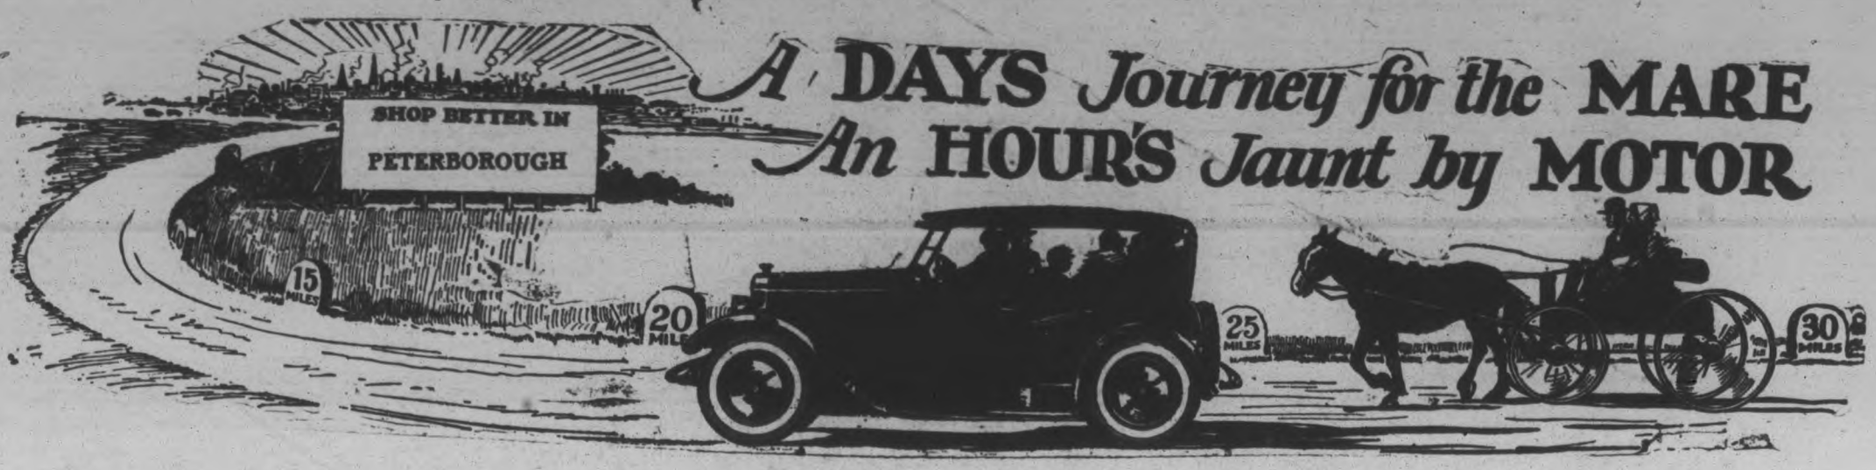
PETERBOROUGH

YOUR LOGICAL SHOPPING CENTRE



A DAYS Journey for the MARE
An HOUR'S Jaunt by MOTOR

No more getting up before sunrise in order to return before sundown. No more jogging along a bumpy road in a rickety buckboard.

Modern methods of transportation and good roads have developed many advantages for those living in the environs of this community. Not the least of which is the accessibility of this great shopping centre where the best the market affords is submitted by concerns advertising in this issue.

The newest of the season's offerings, great variety to choose from and prices so low that they will compensate for your trip to this market. A comfortable trip, a warm welcome and a chance to aggregate worth-while savings on real quality merchandise.

LET OUR PETERBOROUGH MERCHANTS DEMONSTRATE THE ADVANTAGES OF SHOPPING IN YOUR HOME CITY, BY MOTORING IN DURING THIS

4 - SUBURBAN DAYS' SALE - 4

Wednesday, Thursday (MORNING ONLY), Friday, Saturday, Juy 20-21-22-23

PETERBOROUGH MERCHANTS EXTEND A HEARTY WELCOME TO ALL VISITORS TO THIS CITY DURING SUBURBAN DAYS

With the busy season over for another year, the average persons have a little time to relax and enjoy themselves. Many of us have not paid much attention to our personal requirements because we have been too busy.

Possibly now would be the proper time to take an inventory of ourselves. What do we need in the form of Dry Goods, Clothing, Boots and Shoes, Hardware, Groceries, Chinaware, Jewellery, etc.?

The merchants of Peterborough are attempting to help you solve the problems of economically buying these requirements and have prepared, very extensively, these Four Big Suburban Days in order that you may do your shopping conveniently, speedily and decidedly economically.

Big stocks, high-grade up-to-the-minute merchandise, courteous service and reduced prices are combined in the stores of Peterborough during these Four Suburban Days—a grand demonstration of the advantages offered to Peterborough shoppers.

You are invited to combine business and pleasure by motoring to Peterborough on Suburban Days.

PETERBOROUGH MERCHANTS OFFER GREAT SHOPPING OPPORTUNITIES FOR THESE FOUR GREAT SUBURBAN DAYS

REMEMBER PETERBOROUGH STORES ARE CLOSED ON THURSDAY AFTERNOON, BUT INVITINGLY OPEN FOR VISITORS' INSPECTION FOR ALL OTHER BUSINESS HOURS DURING THE FOUR BIG SUBURBAN DAYS.

Men's All-Wool Bathing Suits
These are substandards of better and higher priced Bathing Suits. One and two-piece styes. Assortment of new colors. All sizes.
MEN'S SHOP
TONIGHT AND ALL DAY MONDAY—SPECIAL
$2.95 Each

CONTINUE EFFORTS

(Continued from page 1.)

He had been informed by men in charge of summer resorts that they were fully booked up until the end of September. It was only the other day that he met a man from Ohio living on the other side of Rice Lake, who told him that journeying from Peterborough to Bewdley, he saw so many cars from the United States that he decided to take count of only those from his own state of Ohio, and in that short distance, only 18 miles, he encountered no less than 74 all from that one state. Examples like that showed to what extent the tourist traffic had grown. The Department of Fisheries was doing its best to keep the lakes stocked with fish. He thought that every one ought to co-operate with the authorities in this matter. There were more fish destroyed by poachers and others like them during the spawning season than were taken out by legitimate fishermen; and it was the duty of all to do what they could to stop similar practices.

At this stage of the meeting Mr. Fraser vacated the chair in favor of Mr. Fowlds, who after a few words of welcome to the visitors, especially those from the United States, presented the following report:

President's Report.

"To the Officers and Members of the Trent Waterway Development Association, I hereby respectfully submit my first annual report as follows:

"That the Trent Waterway Development Association has now completed an exceptionally fruitful year in regard to activities and furtherance of our aims and objectives cannot be doubted and at the outset I wish to make it plain that the credit does not belong to myself, personally, but rather to my brother officers, directors and other members of the Association, especially our worthy secretary, who have in the past years unswervingly kept behind the work of the Association and are in the true sense of the word, boosters.

"The development of the tourist traffic to the Trent Waterway has been simplified in a measure by the fact that in the past few years our American and Canadian connection has broadened immeasurably, in fact, if the correspondence which pours into our office is any indication, we may justly claim now to be a national institution, far reaching in our appeal and consequently of inestimable value to Central Ontario which we have endeavored to advertise in the most satisfatcory and up-to-date manner.

Canal Completion.

The consideration of bringing about the completion of the Trent Waterway is our most difficult task. We have, perhaps, not been definitely rebuffed in this matter by the Department, though, in the past, press reports have appeared from time to time which have not only been misleading but disheartening to the municipalities bordering the Trent. We can justly feel now, however, that public opinion is behind us more solidly than ever. Significant of this is the resolution passed unanimously at the first annual meeting of the Eastern Ontario Chamber of Commerce held in Peterborough last month which urged upon the Department the early completion of the Severn division of the Trent Canal. This esolution is bound to influence the Department favorably towards our project so that it but remains for the Trent municipalities to continue their plea, and, if possible, bring this matter to a head wtihin the very near future.

Data is available in our offices which should be presented to the Honorable Minister of Railways and Canals at the most auspicious time. In this connection we have some hope of bringing the honorable gentleman to Peterborough or the Trent district some time this coming summer. This, of course, is contingent upon the loyal support of our friends, the Honorable G. N. Gordon, K.C., and Mr. J. J. Duffus, who have, by the way, assured us that everything in their power will be done to not only bring about the visit of the Minister, but to gain the consent of the Department to the completion of the Trent Waterway.

Tourist Permits.

Our efforts have met with success and in co-operation with the Ontario Mototr League we have been successful in getting the Department of Customs to arrange extensions to tourist permits, for periods of thirty days and a total of ninety days in all, to each tourist, desirous of remaining here and of avoiding the customary inconvenience of taking out the regular customs bond, etc.

The installation of the Cobourg-Rochester motor car ferry this summer is due, in large measure, to the untiring efforts of this Association in the past years in promoting this very desirable improvement. This ferry service will be a convenience to Central Ontario and other motorists and in addition will certainly tend to increase tourist traffic to our district, saving as it does to a great many, a few hundred extra miles' motor trip around Lake Ontario. For visitors motoring a long distance to reach Ontario, the car ferry service will provide a pleasant break and change en route.

Finances.

The financial position of the Association has been improved, as the treasurer's report indicates. We have interested the United Counties of Northumberland and Durham, the County of Peterborough, and we believe, the County of Victoria in our work, which has been shown in a satisfactory and tangible way. Substantial grants towards the carrying on of our publicity have been made by both the United Counties and the County of Peterborough. It is hoped that this year will see the interest carried through the interested counties up as far as Georgian Bay.

Our secretary-treasurer reports increased interest in Ontario and this Association which was most clearly evident at the motor boat show last January where some 10,000 of our 1926 booklets were distributed to good advantage, and the motion picture of the Trent system shown which was taken last summer under our auspices. This scenic picture was given a wonderful reception in New York and viewed by some two hundred thousand people who attended the motor boat show; subsequently, the picture was shown in some of the Canadian theatres and arrangements were effected whereby the film would be available in New York for circulation throughout the United States' theatrs. This was a very difficult thing to arrange due to the fact that in the United States everything is done to discourage the screening of British-made pictures. With the assistance of some of our friends and by perseverance we were able to effect this arrangement and the motion pictures of the Trent Waterway for some months have been doing missionary work in the United States. We are also working out arrangements to have the picture shown in our Canadian theatres from coast to coast.

While attending the motor boat show our secretary-treasurer was able to broadcast the attractions of the Trent Waterway system from Station WOR, 1440 Broadway, New York. A fifteen minute talk was given and inquiries have been received since intimating that the talk was heard by a great many and very well received. This broadcasting of attractions of the Trent system was made possible through the courtesy of the executive of the motor boat show, otherwise, the charge to this Association for that work would have been a few hundred dollars, at least. The thanks of our organization is also due the New York Motor Boat committee in allowing us space free which otherwise would have cost us several hundred dollars.

The matter of fish and game preservation, particularly fish preservation which was given careful consideration at our last executive meeting has been adjusted to some extent. It will be remembered that this Association urged the Departpartment to increase the number of game wardens during the short spawning season rather than shorten the fishing which will undoubtedly cause a hardship upon our summer report hotel keepers and trades-people, etc. However, popular opinion prevailed against us and we may feel consoled by the fact that the Department is now giving more careful consideration to the preservation of fish and game than heretofore, so that at present, at any rate, it appears that there will not be the shortage of fish and game in the future which has manifested itself so much across the border.

As a closing word I would recommend to the incoming executive the earliest consideration of measures which would tend to bring about the completion of the Severn division of the Trent Canal, which at present is one of our two main activities. Our work of increasing the tourist traffic to Central Ontario has met with such success that continuance of our methods and a reasonable study of other methods will result, I feel assured, in the vast multiplication of the number of tourists visiting this district from year to year.

Our 1927 booklet, distribution of 15,000, we feel will be off the press during the month of August and available for some fall distribution and for the coming year so that affairs in this connection appear to be very well in hand, we would urge all municipalities to use our pages for advertising ttheir respective towns and attractions.

I wish to express my most sincere thanks to the officers, directors, especially our worthy secretary, and members of the Trent system for their loyalty, energy and support during my Presidential year. The Peterborough Chamber of Commerce, Peterborough Automobile Club and City Council also have my warmest gratitude. I wish also to congratulate Mr. A. L. Killaly and Mr. W. G. Montgomery upon the "esprit de corps" prevailing throughout the Trent organizations and the uniformly courteous service given the tourists and others the year around. The excellent condition of the various locks and canal system generally, are evidence of the fact that the maintenance of the Trent system is in very capable hands.

The following statistics were commended by the President to the attention of the members:

General Statistics, Tourist Traffic, 1926.

	Dominion.	Ontario.
Number of Automobile Tourists	7,571,952	5,583,326
Number of Other Tourists	1,430,872	1,085,090
Total Tourists	9,002,824	6,668,416

Estimated Revenue.

	Dominion.	Ontario.
Automobile Tourists	$59,869,200	$30,779,566
Other Tourists	44,416,350	27,127,250
Total	$104,285,550	$57,906,816

Ontario estimates basen on average of $25.00 per tourist and for other Provinces at an average of $50.00 per tourist.

Estimated Food Consumption by Visitors to Ontario.

Tourist Days	6,682,386 Motorists
Tourist Days	1,507,080 Others
Total	8,189,466
Butter (1½ ozs. per Day)	384 Tons
Eggs (1 Egg per Day)	56,871 Gross
Milk (1 Pint per Day)	1,023,683 Gals.
Potatoes (4 per Day	136,491 Bags
Meat (½ Lb. per Day)	
Calves	3,050
Cattle	3,661
Lambs	13,556
Sheep	13,072
Hogs	2,450
Bread (½ Loaf per Day)	2,047,366 Loaves

T the above must be added the consumption of fowl, vegetables, grains for cereal foods, and domestic fruits.

Total food consumption by visitors to Ontario in 1926 was equal to the amount consumed by the entire population of the Province in seven and one-half meals.

Referring to the president's report, Mr. Kerr innocently inquired if statistics were available for any liquids other than milk.

None, however, was available, but it was suggested that at the next annual meeting it would probably be possible to answer a similar question.

A. L. Killaly.

Mr. Killaly heartily endorsed the proposal to bring the Minister of Railways to the Trent Valley. He suggested that the Associated Chambers of Commerce should interview Mr. Dunning. His interest would largely govern his policy, and until Mr. Dunning had seen the canal and district he might not be so much interested in the question as he would be when he had made a personal visit. As Mr. Dunning had gone off on a visit to Hudson's Bay, Mr. Killaly doubted whether it would be possible to bring the Minister here this year, but he thought that July or August of next year would be a good time to invite Mr. Dunning.

Regarding advertising the charms of the district, Mr. Killaly thought the chief thing was a satisfied and pleased tourist. There were several things which led to this end. One was a uniform courtesy on the part of the residents to all visitors, and a spirit of fairness which would see that they were not overcharged in any of their purchases. Another thing was to see that those responsible took proper care of the great asset the community had in the fish of the lakes and streams. He was convinced that 75 per cent. of our visitors came here to enjoy the fishing and the scenic beauties. It was up to the people here to see that these desires wer gratified. There had been complaints again and again about loss of fish through water regulation. This matter had been very thoroughly gone into both locally and by the Fish and Game Association of Toronto. Professor Harkness, of the Department of Biology of the University of Toronto, had also visited the lakes and had secured all the available data. Mr. Killaly indicated he was satisfied that the reports would be shown to be groundless.

Mr. Killaly also recounted the measure taken to ensure a greater degree of public safety in the lakes by the placing of automatic lights in dangerous places.

Left to Next Executive.

Speaking on behalf of a motion, urigng the Government to complete the canal, Mr. Lillicrap declared that as far back as the year 1876 he was one of a deputation which waited upon the Government to present the case for the construction of the canal. He said that Sir John A. Macdonald, whom the yinterviewed, gave what at first appeared to be a promise, but was in reality vitiated by the words, "when the finances of the country permit."

On the suggestion of Mr. Stinson, the question of appealing to the authorities for an early completion of the canal was left to the incoming executive. Dealing with the point raised as to the destroying of fish by regulation of water, the secretary stated that a large number of communications had been placed before the executive by the Department of Biology, with which the matter had been taken up, and very convincing evidence had been offered tending to strengthen the opinion that such regulation was much less detrimental to spawn than were the freshets of the old days, which were allowed to reach their peak before the canal was built. The speedy recession of the waters left the spawn high and dry, and resulted in considerable losses.

H. Rutter, introduced by Mr. Stinson as the very efficient salesman of the advertising of the publications of the Trent Development Association, stressed the necessity of getting the co-operation of all the municipalities concerned.

Thanks.

A resolution conveying the thanks of the Association to the press of the district, with special mention of The Peterborough Examiner, was carried unanimously, on the motion of F. D. Kerr, seconded by Mr. Lillicrap. The Examiner being more closely in touch with the work of the Association, said Mr. Kerr, took a keener interest in its welfare. Mr. Lillicrap said The Examiner had at all times been alive to the importance of the work of the Association, and by many excellent editorials kept awake the interest in the projects when public attention appeared in danger of flagging.

Letters of apology for absence were read from Hon. G. N. Gordon and J. J. Duffus. On behalf of the visitors, Reeve Tanner, seconded by Reeve Moore, thanked the Chamber of Commerce for entertainment and hospitality.

Directors.

The following directors were elected:

Penetanguishene — H. M. Warnock, Gidley Boat Co., Ltd.
Midland — J. Bruce Ansley, c/o Midland Engine Works.
Port McNicoll—James C. Young, clerk.
Victoria Harbor — E. B. Brown, clerk.
Waubaushene — C. P. Stocking, president, Waubaushene Community Association.
Port Stanton F. Stanton, president, Sparrow Lake Association, Ltd.
Orillia — George J. Overend, secretary, Board of Trade.
Barrie—Arthur W. Smith, clerk.
Beaverton—George R. Yule, clerk.
Fenelon Falls—M. H. McCallum, secretary, Board of Trade.
Lindsay—T. H. Stinson, M.P.; J. A McCrae, president, Ontario Motor League, Lindsay.
Bobcaygeon—Reeve W. C. Moore.
Bruleigh Falls—G. K. Fraser.
Lakefield—J. F. Lillicrap, president, Board of Trade ;Reeve C. S. Tanner.
Peterborough — Alderman C. H. Ackerman, J. Wells Fraser, past president, Chamber of Commorce; F. D Kerr ,K.C., past president, Trent Waterway Development Association.
Hastings—W. M. Fowlds, ex-Warden, Northumberland and Durham Counties.
Counties; R. C. Doxsee.
Campbellford—Mayor G. A Kingston.
Frankford—Reeve H. Miller.
Trenton—Mayor W. A. Fraser.

Make this Test

To Find out if you need Dr. Chase's Nerve Food.—A study of these symptoms will enable you to decide.

This blood and nerve restorative was devised for use in two great classes of diseases, one of which usually develops from the other—Anaemia or bloodlessness, and Nervous Exhaustion. If the blood is thin and watery, as is indicated by pallor of the lips, eyelids and gums, or if you are afflicted by some form of nervous trouble, you will find in DR. CHASE'S NERVE FOOD the most certain means of relief and restoration. Some of the symptoms and ailments which come under this heading are:

Thin blood, sallow complexion, pallor of eyelids, lips and gums, tired feelings, loss of energy and ambition, tendency to fear and anxiety, loss of breath and easily fatigued, weak heart action, loss of flesh and weight, neurasthenia, nervous prostration, nervous headache, indigestion, sleeplessness, irritability, nervousness, twitching of nerves and muscles, sensitiveness to sound and light, gloomy forebodings, loss of memory, inability to concentrate the mind.

DR. CHASE'S NERVE FOOD is easily the greatest of restoratives. By forming new red corpuscles in the blood this food treatment nourishes the starved and depleted nerves back to health and vigor. Try it when you are run down and out of sorts. It will restore vigor and energy and make you feel that life is worth living.

Dr. Chase's Nerve Food—60 cts. per box, all dealers, or The Dr. A. W. Chase Medicine Co., Limited, Toronto, Canada.

Clean to handle. Sold by all Druggists, Grocers and General Stores

SCOTT KILLED BY MOTOR 'BUS

(Continued from page one.)

in from the traffic part.

After Scott had been knocked down, Youngman stepped up and caught him under the arms. I ran up the hill and telephoned Dr. Turner of Millbrook. A passing auto went to Dr. Russel's home. Dr. Russell got to us before Dr. Turner did. I did not look upon Russell as the physician; I asked him to wait until Dr. Turner arrived.

Dr. Russell wanted to take Scott to the Peterborough Hospital and at another time to Port Hope. I wanted him brought here (Cobourg). The busman, whose name is Roy Nichols, of Bowmanville, with business address as Grand Hotel, Peterborough, was very much concerned and appeared to be taking it very badly. Youngman, Mr. Hall and myself agreed that there was no negligence on his part.

Questoin by Juror: "Had you any idea this was a vicoius man?

Constable Rowland: "He was considered a very bad tempered man."

Juror: When a man is taken into custody and is considered vicious, would the government be responsible?"

Witness: "When he was in a repentant mood he was a very tender hearted man. He broke down in the court room as he thought of the possibility of not getting back to his little girls."

Dr. Lapp.

Dr. Lapp, sworn, said: "I am the jail surgeon. I treated Scott on June 20th. I found a cut on his throat from the Adam's apple to the ears and his pulse weak. He said he did it with an old, dull razor. He said his wife had left him and that he had given her the deed of the farm to come back and that they had made him the hired man. He was in condition to be taken back to Bethany the following week.

Next I knew, Mrs. McLaughlin 'phoned me regarding a man with a broken leg. Dr. Russell was with him. I thought the pelvis was broken. He was hit in the side of the bowels. He was suffering from shock and severe pain. He was 52 years old.

An X-ray examiantion showed three fractures of pelvis. Had he got better he may have walked. He died on the 8th day of July, the cause of death being embolus. A clot of blood to the heart. He said nothing to me about the bus."

Juror: When Mr. Scott cut his throat was his wife present?

Dr. Lapp: I do not know.

T. F. Hall, K.C.

T. F. Hall, K.C., sworn, said: "I was counsel for Scott. I went to Bethany at his request. The evidence showed that his wife and children had gone before he cut his throat. I went out with the accused and he requested me to ride with him. I was sitting is the front seat, Scott was chatting. I rememeber reaching the Peterborough highway. We got a flat tire at the bottom of a hill. The car was taken to the proper place, almost off the highway. I was standing on the west side, at the north-west angle of the car. Scott was standing at the east side.

I saw the big bus come down the hill from Fraserville. It was not travelling at excessive speed. I saw Scott staggering. I am not prepared to express myself regarding motive or reason. There was plenty of room for th bus to go by. Scott had the cigar lighted. There is no blame attached to the driver; just the reverse. The driver tried to stop his bus.

"I drew Scott's will several days after he was taken to hospital. He dictated one of the shrewdest of wills I have ever heard. He told me he did not desire to take his own life, that he had a fainting and dizzy spell. He told me that he had had these spells before.

"The long day in court, the long drive and his wife's refusal to take him back might have brought about a condition to cause the spells he claimed to have had. The will was drawn up on the 30th of June. I came in with Constable Rowland and saw you (Crown Attorney) and exonerated the driver from all blame. I do yet."

Edward Youngman.

Edward Youngman, sworn, said: "I live 2½ miles south-west of Pontypool. I have lived across the road from Scott for eight years. On the 19th of June Scott's wife and child took refuge at my place. Anita (14 year old daughter) told me that her father was going to cut his throat. We concluded he had beat it. I didn't think he had the pluck to cut his throat. I was not surprised, however, when I found him with his throat cut.

He told me that he had been having trouble with his wife and family. Said he had been going through hell. Anita was badly knocked around; her head, face, arm and legs were bruised.

"I came to Cobourg with Scott; he demurred at getting into the car; I gave him a slight pinch and told him to get in. On the road he wanted air and wanted the curtains down. We took down the curtains as we were travelling along. He told he that he felt better. He chatted all the way along. He was talking about some money from a chap he had worked for. When he left home his mind seemed to be wandering; he could not keep on a subject.

"I was out of the car first, and told Rowland where the flat tire was. All got out of the car. When Rowland had pulled flat off, I held the tire. Scott was standing behind me. The car was facing south. Rowland went for the spare.

"I told Scott how nice the bus looked coming down the hill in the sunset. I don't know what he said in reply. When I turned around after giving Rowland the spare tire, the bus was ten feet away. Scott was stepping back towards the east. The right hand corner of the car struck him. The bus was swerving. The driver of the bus looked frightened. I told him I would say he was not to blame.

"Just before the bus struck him he apepared to be stagtering. He yelled my name, 'Ed,' as the bus struck him. He lit the cigar in the bus. I thought he was feeling weak when he demanded air in the car. About five or six minutes after getting out of the car he was hit.

"When we were coming in the ambulance he kept asking me what hit him. Dr. Russell was not in the ambulance but rode in a coupe. Scott knew me. He said two or three times: 'I don't know how it happened, and repeated a dozen times 'I must have taken a weak spell.' He asked if the bus hit him. I said, 'It certainly did."

J. H. Fewtrell.

J. H. Fewtrell, sworn, said: "I accompanied Scott when he went to his wife and held out his hand and asked for forgiveness. His wife said, 'Tom, I never want to see you again.' He clenched his fists and walked up and down the place; I was frightened he would try to commit suicide again after once trying it."

This completed the evidence.

Coroner Dr. G. M. Ferris then addressed the jury, reviewing the evidence in a very careful manner. He informed the jury that the Scott case was one of those cases where inquest is compulsory under the law, as Scott was a prisoner. He was in the custody of a constable when hit by the bus. It was necessary to enquire if all reasonable precautions had been taken in placing car while fixing tire. He informed the jury that it was for them to come to a conclusion as to how deceased came to his death.

The jury was out 20 minutes when they returned with the verdict as stated above.

Names of jurors: Charles Gummow, W. E. Cooper, Lester Caughney, H. McGuire, George Killick, and Donald Crozier.

ROSENEATH NEWS

ROSENEATH, July 16.—Mrs. William Jackson, who has had serious trouble with one of her eyes, was rushed to Toronto on Tuesday night and underwent an operation, when the specialist found it necessary to have the eye removed.

Mr. J Mattress and daughter, Miss Mary Mattress were called to St. Catharines on Wednesday to his son, George Mattress, who underwent an operation and is seriously ill.

Mrs. Gilgour, Peterborough, is visiting her sister, Mrs. George Ingham.

ADVERTISE IN THE EXAMINER

Bobby Jones Wins British Open Golf Championship

SMASHES ALL GOLF RECORDS TO SHOOT SCORE OF 285 FOR 72

Jones is First Defender to Repeat Since 1905.

SIX STROKES AHEAD.

Aubrey Boomer and Fred Robson Tied For Second Place.

ST. ANDREWS, Scotland, July 16. —(AP).— Robert Tyre Jones, Jr., of Atlanta, Ga., yesterday did more than win the open golf championship of Great Britain for the second time in two years. He used a record shattering score of 285 strokes for 72 holes as a match to fire the enthusiasm of thousands of spectators and would be spectators as this shrine of golf has not seen in the memory of the oldest inhabitants.

His 285, representing four rounds in which he was never over par and held even with it only once, placed him six full strokes ahead of the next contestant and cut the same number of strokes from the record for the British open which Bobby himself equalled last year at St Annes. The mark of 291 set by James Braid had stood steadfast against the assaults of great golfers since 1908. The record score was also a stroke under the mark for the American open, made by "Chick" Evans in 1916.

Bobby last night shared another record with the veteran Braid. Only the 57 year old British pro. and the 24 year old American amateur have won the championship two years in a row. Braid did it more than 20 years ago.

Aubrey Boomer and Fred Robson, British pro.'s were tied for second place at 291. Their accomplishment in equalling the old record would have created much excitement under ordinary circumstances. Yesterday their performances were hardly noticed. Joe Kirkwood, the Australian, now resident in the United States, planted the colours of Albany near those of Atlanta by scoring 293 and going into a tie with Ernest Whitcombe for fourth place.

If anything was needed to supplement a par 73 and sub-par 72 in his last two rounds to make Bobby Jones immortal in golf in Scotland, the land of golfers, he supplied that one thing when the cup was presented. Privileged to take the championship trophy back to Atlanta by a gracefulgesture which has endeared him to golf loving Scots and sealed his popularity in this country for all time, he announced this evening that he would leave the trophy in the custody of the Royal and Ancient Golf Club.

The announcement was made before a crowd of several thousand persons jamming the spacious St. Andrews 18th green and terraces around the drab old stone pile, which houses the potentates of the Royal and Ancient game awaiting the presentation ceremony. It started the second great ovation of the day for Jones.

Hats went soaring in the air and fathers hoisted children to their shoulders to see the young man who is hailed as the greatest modern exponent of a classic pastime. Stolid old Scots who have not danced a step for decades threw themselves into the highland fling with the utmost abandas they danced about the smiling modest young man. Motion picture cameras made a record of the whole wild scene.

"We admire Bobby Jones for his qualities as a man, his golf speaks for itself," said Col. Henry A. Bethune spokesman for the Royal and Ancient Club, who handed the trophy to the twice crowned champion.

NO HIT IN MAJORS.

Wilcy Moore, who has been in over 20 games as pitcher for the New York Yankees and performed well, has yet to make a basehit in the majors.

BISONS WIN.

Make 12th Consecutive Triumph Against Jersey City By 3-2 Victory.

NEW YORK July 16. — (Canadian Press). — The Bisons rode to their 12th consecutive triumps against Jersey City at Buffalo yesterday on the wings of Ty Tyson's home run over left field fence in the tenth inning. There was one out and none on when Ty blasted his wicked drive out of the park. The score was 3 to 2. Huber also hit a circuit drive in the fifth.

Three other games were postponed because of rain.

CUBS TAKE FINAL GAME

Make It Four Out of Five By Defeating the Braves Nine to Six.

NICK FOUR PITCHERS.

NEW YORK, July 16.—(Canadian Press). — Chicago Cubs made certain of going into New York leading the league by winning at Boston yesterday 9 to 6. The Cubs nicked four Boston pitchers for a total of 16 hits to win the final game of the series and to make it four out of five from the Braves. Hartnett was spiked on a close play at the plate in the seventh but finished the game.

Pittsburgh made it three out of four at Prooklyn by capturing yesterday's contest by 5 to 2. Joe Dawson limited the Robins to five hits. Grantham led the Pirate assault of 13 safe hits with a trio of singles. Flowers hit a home run for Brooklyn Big Jim Elliott worked in the box for eight innings and then was succeeded by McWeeney.

St. Louis Cardinals out-slugged the Phillies at Philadelphia winning a free hitting game by a score of 9 runs to 7. The world champions scored in each of the last five innings, overcoming a lead of six runs. Jim Bottomley enjoyed a big day at bat, hitting two singles, a double, triple, and home run, for a perfect batting average.

New York defeated Cincinnati yesterday by 4 to 1 in the concluding game of the New York series, Grimes holding the Reds to four hits. Ineque was defeated for the second time in the current engagement here, falling victim in the opener Tuesday. Cincinnati won the other three games played. Grimes contributed three singles in the Giants' attack.

BASEBALL NEWS

The Lockworks Inter-Shop-League has drawn up their schedule. All games are being played at James Stevenson Park at 6.15 p.m. sharp as to let the baseball fans enjoy seeing these teams play and the officials hope that many will attend these evening games so as to encourage the players as well as baseball.

Schedule.

July 20—Lockfitters be. Polishers.
July 25—Assemblers vs. Polishers.
July 27—Lockfitters vs. Assemblers.
August 1s—Polishers vs. Lockfitters

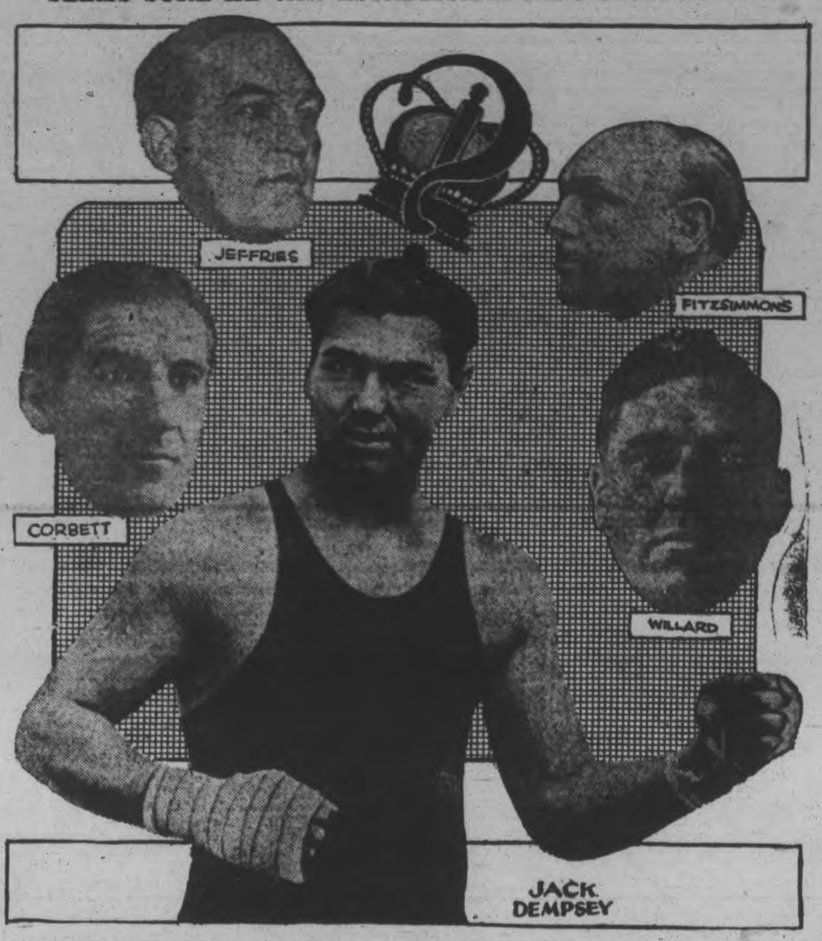
Second Half.

Aug. 3—Polishers vs. Assemblers.
Aug. 8—Assemblers vs. Lockfitters.
Aug. 15—Lockfitters vs. Polishers.

Dates subject to changes in event of other baseball series coming up.

The two leading teams will play off for the championship and silver cup.

SEEMS SURE HE CAN ESTABLISH A RING PRECEDENT



BY JIMMY POWERS

NEW YORK, July 16.—Kid Precedent is against Jack Dempsey.

Kid Precedent packs a potent knockout wallop that has dynamited the celebrated chins of the following heavyweights, in trying to stage comebacks after losing their titles.

There was old John L. Sullivan. Good old John L. He never fought after his defeat by Corbett in that soggy ring floored with river sand at New Orleans. He boxed in a few exhibitions, it's true, but he never again engaged in actual ring combat.

Then there were Corbett and Fitzsimmons. They never met after their title bout at Carson City. Gentleman Jim failed—failed gloriously but nevertheless failed—in his attempt to win the championship from Jeffries who had taken it from freckled Bob.

Following his defeat by Jeffries at Coney Island, Fitz knocked out Jim Thorne, Jim Daly, Ed Dunkhorst, Gus Ruhlin and Tom Sharkey in a row, but when the 40-year-old attempted to recapture the throne from the boilermaker in Frisco, Ruby Robert met the same fate as at Coney Island.

And poor Jim Jeffries. Eight years out of boxing, he lugged what was left of his hulk back into the ring at Reno and was massacred by the Galveston Black who had mounted the heavyweight throne.

Think of Jack Johnson. Lil' John Artha did not obtain another title tilt after he was bumped off by Willard because he was what was quaintly known as in Dutch, with the authorities. He took mighty good care to stay off the front pages for quite a long while.

And Jess Willard. The big Kansas cowboy never got over that terrible lacing Dempsey gave him in the Massacre of Maumee Bay. He knocked out Floyd Johnson and then quit to Firpo. Those who know Willard best say that dread of having again to face the annihilating attack of the dreaded Dempsey more than anything else induced Big Jess to surrender to the charges of the Wild Bull.

So here comes Dempsey trying to defy precedent. Experts as well as the public have come to look upon Jack as a mythical superman. That, combined with the fact that Tunney has the lowest popular ranking of any champion who has ever held the crown, and much suspicion that still surrounds the Philly fight, leads many to believe that the great Dempsey will shatter all ring precedents and regain the purple toga he so long and illustrously wore.

Should Dempsey beat Sharkey, he is likely to be even a greater betting favorite against Tunney this year than he was last.

But unless there is something slightly putrid in Denmark, Dempsey living on the fat of the land with only four fights in six years and one in the last three—will not get past this stalwart young sailor who is right at the peak of physical and ring powers with a fighting blade whetted to razor sharpness from frequent competition.

That's the big reason. And in the background is the smirking bewhiskered pan of Kid Precedent. The combination looks too tough.

BASEBALL SCORES.

Walberg, Grove, Tate, Rommall and Cochrane, Perkins; Thomas, Barnabee and McCurdy.
Washington-Detroit, postponed on account rain.

WHEN WILL THAT BE?

Suzanne Lenglen says she will continue to play tennis until she is 30 years old.

CROSS-BREEDING EXPERIMENTS IN BUFFALO NATIONAL PARK

The experiments in cross-breeding buffalo, yak, and domestic cattle at Buffalo National park at Wainwright, Alberta, are meeting with an encouraging measure of success, especially since the introduction of the yak as an intermediary between the buffalo and the domestic cattle. Calves of recent years are developing into splendid looking animals with traits combining the characteristics of the interbred species. While the Department of Agriculture, which is conducting the experiments for the Department of the Interior, is not ready to pronounce the experiment a success there is good reason to believe that a new animal containing a fair percentage of buffalo blood and therefore a hardier type than ordinary domestic cattle and capable of foraging for itself in the winter months may eventually be developed.

GETS A TRIAL WITH CARDS

Jack Ryan, a sem-pro from Memphis, Tenn., has been signed for a trial by the St. Louis Cards.

JING IS TRYING AGAIN

Jing Johnson, who joined the Athletics fresh from college in 1916, is back with the A's for another trial.

YANKEES WIN FROM INDIANS

Make Double Rally To Win 10-9 Victory From Cleveland.

POUND PITCHERS.

NEW YORK, July 16. — Canadian Press — The Yanks battled through to a 10 to 9 victory over the Indians at Cleveland yesterday, a three run rally in the eighth and a four run splurge in the ninth overcoming a six run lead held preiously by Cleveland. George Uhle blew up in the eighth, walking Morehart and Ruth, the Gehrig's single knocked him out of the game, Buckeye assuming the pitching burden. The big southpaw was riddled from the box in the next frame, Hudlin then taking the hill. Meusel's double brought in the tying run and a single by Koenig scored Meusel with the tally that decided the issue.

Buncheh hits and good base running enabled the Browns to defeat the Boston Red Sox at St. Louis 3 to 2 for a clean sweep of series. The Browns got all their runs in the 4th inning on two walks, two singles and a double, aided by a double steal and a Sox error. It was the tenth meeting of the teams this season and the tenth victory for the Browns.

Philadelphia and Chicago went into a tie for fourth place yesterday when the Athletics took both games of a double header from the White Sox at Chicago by scores of 3 to 1 and 13 to 10. Quinn although hit freely, pitched steady ball in the pinches in the initial contest. The Athletics bunched their hits with an error by Jacobs to win the opener. The second contest was a slugging match in which four home runs, four triples and four doubles were poled. Cobb cracked the first one with a man on base in the first inning and Clancy came back with one in Chicago's half with the bases loaded. Boley tied the count for the Athletics with another homer in the fourth, while Wheat put the Athletics ahead in the fifth with still another homer with Simons on the paths. After that it was a parade of pitchers on both sides.

Washington at Detroit, rain.

Lacrosse Play-Offs At New Westminster

VANCOUVER, B. C., July 16. Canadian Press. — New Westminster will be the scene of the Canadian lacrosse championships early in September.

Word to this effect was received yesterday from President Abbie, of the Canadian Amateur Lacrosse Association, at Winnipeg.

Winners of the East will meet the champions of the West in a two out of three games series for the Mann cup. The dates have not been named yet but the first game will likely be on Labor day or the following Thursday.

SEEMS LIKE CONFIDENCE.

Jack Sharkey may be termed a braggart, but it looks like confidence as he won every fight he said he would so far.

BOTH CAN HIT.

Joe Shaute and George Uhle of Cleveland are the best hitting pitchers in the American League.

SWIMMING SIMPLIFIED

SCISSOR KICK OF LEGS IS MERELY ONE LEG MOVING UP, OTHER DOWN

By James A. Lee.

All crawl stroke swimming leg drives are the combination of the so-called scissor kick, which can best be described as a front and back opening and closing of the legs. One leg moves up as the other moves down, each going all the time without stop or pause.

A good way to practice the leg thrash is to lie face downward in the shallow water, hands on bottom, or if you are in a swimming pool hold onto the side of the pool, with the legs straight out. Practice thrashing them up and down. Have the knees straight, but let the legs relax somewhat. The feet should be separated about six or eight inches.

Start slowly at first, until you master a steady and even thrash.

Practice until you can quicken the kick, until you are able to churn the water considerable.

Your only real care or worry is to see that the legs are set in motion before the arms and to see that they follow closely the back and forth roll of the body.

Tomorrow: Summary of crawl stroke.

BURKE LOSES IN SHOOT-OFF

Foreman and Hilson, of Hamilton, Not in the Final Round.

FULTON WINS MEDAL.

BISLEY CAMP, England, July 16 (Canadian Press).—Desmond Burke of Ottawa lost the silver medal for best score in the second stage of the King's prize by a single point in a tie shoot-off yesterday. Sergeant A. G. Fulton, winner of the prize last year, won the silver medal. Both Lt. Foreman and Cadet Hilson of Hamilton were unsuccessful in the shoot-off for places in the final, leaving Canada five teams, men and cadet, to shoot for the prize.

Six Canadians and possibly eight will be in the final stage of the King's Prize to-day. The six sure of places include two Canadians who have previously won the prize—Lieut. Burke and C.S.M. Hawkins of Toronto and also Cadet John Hunter of Hamilton.

Sergeant Gray of Toronto is one of the finalists.

Besides these three, Sergt. Gray of Toronto, C.Q.M.S. Parnell of Verdun, and Sergt. Emslie of Toronto qualified.

Two more Canadians who may yet enter the final are Lieut. Foreman and Cadet Alexander Hilson of Hamilton. These two will shoot off with 31 others, all scoring 141 yesterday, for seven places left in the final stage.

Two Canadians who became attached to the Canadian Bisley team since its arrival in England also qualified—Lieut. Alex. Martin, formerly of Calgary, and Lieut. A. Skinner, formerly of Fort William.

Last year seven Canadians shot in the final.

With shooting conditions highly favorable, the Canadians gave an exhibition of all-round fine marksmanship. The second stage called for ten shots at each of the 300, 500 and 600 yards distances, the best 100 scorers to go into the final to-day. The wind was gentle and steady, and the light good, especially for young eyes.

Both the leading Hamilton cadets, Hilson and Hunter, recorded possibles during the shoot—at the first distance. Four other Canadians also had possibles at one or another distance, being Sgt. Beaumont of Vancouver, second distance; C.Q.M.S. Parnell, first distance; Sgt. Emslie, third distance, and Lieut. Martin, second distance.

Last year the lowest score with which a marksman could enter the final stage was 140.

THREE MEN HANGED.

Slayers of Deputy Warden in Prison Break Die on Gallows.

JOLIET, Ill., July 16 (Canadian Press).—Three of the seven men who slew a deputy warden in a break from the State penitentiary a year ago were hanged here yesterday. On a triple-trapped gallows they were dropped to simultaneous deaths. Robert Torrez, Walter Stalesky, and Charles Dusoschwaky were the three.

The Business Man

My car is vital to the conduct of my business. And I've learned that one way to assure myself of day in and day out dependability and with greater fuel economy besides is to install Champions.

Champion is the better spark plug because of its double-ribbed sillimanite core-with two-piece construction and its special analysis electrodes.

Inside Sportin Dope

By A Wise Cracker

Mister Sporting Editor:

Well, Mac, I thing was learned this week anyway and that is, that a guy what misses the start of 1 of them swimming marathons is sure out of luck. This here Lake Geo. swim saw only 1 bird do the distance, so anybody what figgers he's going to get a kick out of the finish of any of them long water races is wetter than the swimmers. The best way to see one of them events is to watch the grease parade at the start and then go home and get the name of the winner over the radio. All that'll be seen in the Toronto marathon will be, mebbe, a few heads bobbing up in the water every few hours, and if they don't get them away long about daylight they'll finish singing "Take in the Sun, Hang Out the Moon," and so forth.

I wasn't among them what was there when the Petes nicked Oshawk for a loss last Sat., but several what was tell me Mister Swanston's boys shaped up like a hotsy-totsy ball club. They ain't no reason why they shouldn't, and now that their long wait is nearly over and they is prospects of action ahead, the lads will step on the gas and go into the Lakeshore play-offs at top speed, all of which seems to say they's some good ball in store.

Mon. night Peterboro hard ball fans oughta get a kick out of the clash between them touring Regina Argos and the Kiwanis Jrs. It looks like a breach of hospitality to try to knock off a gang coming all the way from Regina to play ball, but the local kids is sure going to try to do that very thing. The Westerners is touted as extra hot stuff, the best in Canada, but that's covering a wide slice of territory, and a lotta local folks is kinda inclined to think that mebbe the Argos'll run into a snag here. Anyhow it'll be a ball game full of thrills, and the customers oughta be out like coloured slickers on a wet day.

Well, Mac, it's too darned hot to write much this week, to say nothing about the old bean not functioning very good anyway, so how about you and me going fishin' and cutting this junk off right here.

Sportfully yours,
A. WISE CRACKER.

OUR BOARDING HOUSE — — — — — — — — — — By Ahern

OUTLAWS WIN.

Defeat Clerks 11-10 in Campbellford Softball League Fixture.

CAMPBELLFORD, July 16.—The Outlaws and Clerks played for the first time this season in what proved to be one of the most interesting and sensational games in the League's 1927 series.

In the ninth inning Walter Owen, the Outlaws' star third baseman, went to bat with all bases full. He hit the ball to centre field, sending it far beyond the fielders. It was a home run hit, and sent the Outlaws' score up four points, changing a 10 to 7 score to 10-11 in their favor.

GOLF NEWS.

ST. ANDREWS, Scotland, July 16. —(AP).— Leaders in the British open golf championship and their scores by rounds follows:

Walter Kennet	78-75-75-78—306

CAN'T SEE MANY.

Dick Kenaella, New York Giants' scout, says that great baseball players in prospect are not very numerous now.

LAKEFIELD TAX RATE 46 MILLS

Two Mills Extra For Those Whose Roads Are Oiled.

COUNCIL MEETING.

LAKEFIELD, July 16. —The regular meeting of the municipal council of the village of Lakefield was held in the council chamber on Monday, July 11, at 8 o'clock.

There were present C. S. Tanner, Reeve, and Councillors Tedford, Doidge, Lillicrap and Harrison.

J. F. Moore complained to the council of the nuisance created by a rain spout at the rear of Mr. Leonard's store. He was assured that the matter would be remedied.

Mr. A. Darling representing the Agricultural Society, requested a grant.

Moved by Councillors Tedford and Lillicrap that the Agricultural Society be granted $50, the same as in 1926.—Carried.

Mr. W. Watson complained to the council of the nuisance caused by the sawdust on the property adjoining his. He was assured that the matter would be given prompt attention.

Mr. Stinson addressed the council regarding the activities and objects of the Trent Waterways Development Association and urged the corporation to take a full page of advertising in the T.W.D.A. booklet at $75. He also expressed a desire to clear up any misunderstanding regarding the attention given Lakefield by the T.W.D.A.

The matter of advertising to be further considered in time to prepare copy by August 10 if the same is considered advisable.

Mr. Stinson also urged the attendance of as many delegates as possible at the association's luncheon and meeting on Friday July 15.

The Finance Committee presented a report recomemnding payment of the following accounts:

F. W. Pringle	$ 1.50
A. M. Fitzgerald	15.00
Bell Telephone Co	3.90
Bell Telephone	2.05
A. H. Clarke	3.07
Fire Brigade	155.70

On motion of Councillors Lillicrap and Doidge the report was received and adopted.

The following correspondence was received:

From the County Clerk re equalized assessments; Peterboro County Agricultural Representative re appointment of weed inspector; Fire Chiefs' Convention Com., re convention at Portland Oregon; Gordon Scriver, re tender for motor; E. J. Millage re tender for motor, Fire Chief re fire hall lavatory; Canada Cement Co. re drains.

Moved by Councillors Lillicrap and Harrison: "That Mr. R. J. Webster be weed inspector, and be instructed to enforce the provincial law regarding cutting weeds." Carried.

Moved by Councillors Harrison and Tedford: "That the matter of installing an electric motor be left in the hands of the Property Committee, Councillors Lillicrap and Doidge, also that the key of the lavatory be handed to the fire chief to use when working in the fire hall." Carried.

Moved by Councillors Doidge and Lillicrap, "That Mr. W. Hall be appointed caretaker of the dump and park attendant at a salary of $100 per annum." Carried.

Moved by Councillors Lillicrap and Doidge, "That the Treasurer be authorized to pay the special police for services on Dominion day the sum of $3 each." Carried

Moved by Councillors Harrison and Tedford "That this council now assembled desires to tender the Park Committee, namely Thomas Watson and Robert Duff, its esdorsation for the way, and the amount of work done in the imeprovement of the roads and the park in general." —Carried.

The treasurer's abstract of accounts for the first six months of the year was tabled.

Estimates for the year were presented, showing estimated receipts from all sources, except current year's taxes, of $5,206; and estimated expenditure of $33,238.73.

Bylaw No. 659 to authorise the levying of school debentures, general debentures, county and general rates and assessments for the village of Lakefield, for the year 1927, was passed. The rates total 46 mills, and 2 for oiling.

Bylaw No. 60 for disqualifying from voting all electors whose municipal taxes are unpaid, was passed.

Friends Tell Friends

ZUTOO

Stops Headache

Five years ago ZUTOO was practically unknown in Canada.

To-day, thousands and thousands of men and women depend on these little harmless tablets for quick relief from Headaches.

Their fame has gone from friend to friend—from town to town—from coast to coast.

Wherever there are headaches, there should be ZUTOO Tablets—they relieve in 20 minutes. 25c a box—at all dealers or by mail postpaid. B. N. Robinson & Co. Regd., Coaticook, Que.

Few major league recruits in the history of baseball can boast so remarkable a first year as Paul Waner of Pittsburgh enjoyed last season.

Joining a club that had several of the best outfielders in the game in its lineup, Waner because of his great natural ability soon won for himself a regular berth

A left-handed batter, Waner, playing in 144 games, finished with the very excellent average of .336. He really ranked sixth in the National League averages, regulars alone considered.

He made 180 hits for a total of 283 bases, only two rating higher as sluggers. In his assortment of basehits he had 35 doubles, 22 triples and eight home runs.

"Waner kept the Pirates in the running all year by his remarkable play," was the way a well known National League scout complimented his work to me. "Without Waner, Pittsburgh would have been very lucky to finish in the first division."

Also in his list of extraordinary feats must be recalled one game in which he made six hits in as many times at bat.

A WELL DESIGNED HOM E

By F. H. Portnall, M.R.A.I.C.

Here is an example of clever small home design, showing the possibility of achieving a distinctive and attractive result while adhering to all the precepts of economical and practical construction. The clever combination of the living room bay window, the sun porch and the small terrace, forms a unique feature worthy of carefu note. The color scheme, too, is attractive, the dark stained shingles and exterior woodwork contrasting delightfully with the rough cream stucco walls.

Entry is made through the sun room, which also serves as a vestibule into the hall. Here, under the stairs, a coat closet is provided.

Most of us possess a natural desire or order and regularity, and this has here been gratified by keeping the bay windows in the living and dining rooms, and the doorway between the rooms, on an axis, or in line. Imagine how much better this would look than if slightly askew, as it very likely would be in a house which was simply "built," and not carefully planned by an architect.

A rear pantry, which may be entered directly from the outside and which gives access to the kitchen, contains the refrigerator, and stairs to the basement, items which should never be located in the kitchen as, unfortunately, they often are. The kitchen, itself, contains a sink, cupboard, and range, and gives direct access to the dining room and hall.

Each of the three bedrooms, and the bathroom on the upper floor have good size clothes closets, and so, with the provision of a linen closet in the hall, the important factor of cupboard accommodation is amply provided for. From one of the bedrooms a good size sleeping balcony may be entered.

A built-in recess bath and a medicine cupboard are installed in the bathroom.

Wall plats of pastel tints were used in the interior, and with oak floors constitute a very effective setting for practically any type of furniture.

A lot of fifty feet frontage gives ampel opportunity for the landscaping on which the success of a home of this type so greatly relies. The effect of the planting will be greatly aided by the irregular stone flag walk to the entrance.

With best construction and hot water heating, this home cost approximately eight thousand dollars.

Readers desiring further information regarding the plans and specifications of this house should communicate with the architect direct. Address Mr. F. H. Portnall, Regina, Sask.

EAST PETERBORO' BASE BALL LEAGUE AVERAGES.

Cognawagas are keeping up their fast pace in the East Peterborough League with the players showing no sign of cracking. The league leaders are good at the bat, stronger than their rivals on the defense, and right now are one of the best Intermediate teams turned out locally without help from foreign fields. A look over the work of the Cogs' infield is convincing. The league standing and batting averages follow:

	Won	Lost	Tied
Cognawagas	5	1	1
Crescents	2	3	1
Raybestos	2	3	1
Bethany	1	3	1

Theaters

AT THE REGENT.

AT THE REGENT.

"PETER GRIMM" IS A GREAT FILM — OPENS AT THE REGENT.

Every so often some motion picture concern turns out a production which is off the beaten path. A picture, as it were, that one is inclined to talk of long after seeing it.

Which is all by the way of describing "The Return of Peter Grimm," which opens at the Regent Theatre on Monday.

Fox Films deserves high praise for the screen version of David Belasco's great drama of several years ago in which David Warfield immortalized himself. Alec B. Francis plays Peter Grimm in a manner which should be a credit to any luminary of either stage or screen. Francis has always been a favourite of this reviewer, but he has never done anything which attempts to match his performance in this great story.

"The Return of Peter Grimm" deals with life's greatest question—can the dead commune with the living? The play did not attempt to answer this question. Neither does the picture. But the great problem is presented in vivid fashion and the spectator is permitted to draw his or her own conclusion.

Richard Walling and Janet Gaynor have the leading romantic roles and both are a treat for sore eyes. John Roche plays the villain to perfection. The remainder of the cast fits into the picture like clockwork.

CANADIANS WIN AGAIN.

Touring Soccer Team Beats Poverty Bay Eleven Six to Nil.

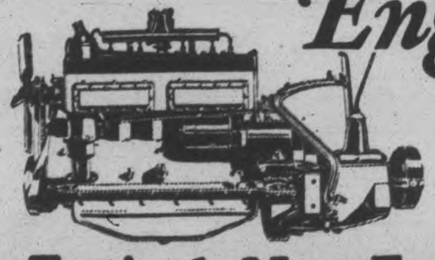
New Chrysler "RED-HEAD" High Compression Power Engine



An Entirely New Factor in Motoring which is Taking the Country by Storm

Nothing has so stirred the motoring public in years as the advent of the Chrysler "Red-Head" high-compression engine.

Performance is revolutionized with this newly developed engine head, previous Chrysler ratios of gas compression—always higher than those of ordinary engines—being again increased.

This means that the compressed gas volume in the cylinder now expands six times (as against four times in ordinary engines) before it is exhausted, adding immense vitality and brilliance in speed, acceleration and hill-climbing.

Now, for the first time, thanks to the foresight of Chrysler engineers who paved the way for this development in the rigid construction of the Chrysler engine, with its girder-like crankcase webbing and strongly supported sturdy crankshaft, the virtues and values of high compression are available to Chrysler owners, new and old alike.

Any owner of a Chrysler, delighted as he may now be with the performance of his car, can have the "Red-Head" applied and acquire a new measure of exhilaration surpassing his fondest dreams.

Whether you are buying a new car or wish to rejuvenate the Chrysler you now have, see us at once for further details or an impressive demonstration of Chrysler "Red-Head" advantages.

One Hundred Millions

THE President, Managing Director and other Directors wish to congratulate the members of the field force of The Dominion Life Assurance Company on the occasion of the Company reaching the Hundred Million mark of insurance in force.

You are working in a great cause. Dominion Life men have carried the Great Message of Insurance to tens of thousands—providing Dominion Life protection for countless dependents. Your Company enjoys a remarkable record for increased business, paying exceptionally high profits to policyholders.

Such confidence do we possess in the future of the Dominion of Canada and in the energy and vision of our field force that we are certain before many years have passed to be able to point to the attainment of our Second Hundred Million of Insurance in force.

Jhumping the Breath

© 1927 by NEA Service — by Ben Lucien Burman

(Continued from yesterday.)

THIS HAS HAPPENED

Attempts have been made on the life of ELISE MARBERRY, an American girl owning considerable property near the little town of PORTO VERDE, in west central Brazil. She has escaped harm due to the shrewdness of her cousin and protector, VILAK, who with his friend, LINCOLN NUNNALLY, an elderly American chemist, is trying to learn the reason for the strange enmity for Elise.

Living near Porto Verde is one BAYLORD PRENTISS, a strange and forbidding character, who has evinced a hatred for Elise.

TINKY, Elise's two-year-old orphaned nephew is kidnapped. A native reports Prentiss has been seen with the baby. The trail leads into the jungle.

Calamity overtakes the expedition Vilak organizes in pursuit. Native trackers are injured or desert. Treachery breaks out. Their white friends are fever victims and are left with a friendly tribe.

Elise, Vilak and Nunnally finally emerge from the jungle. Presently they come to the outskirts of a strange city, resembling old Inca civilization. Here they are made prisoners. They discover they are in the power of CARLOS D'ALBENTARA, whom they had known as an engineer back in Porto Verde.

The black ruler of the city decides to marry Elise and to put Vilak and Nunnally to death. They are to be tortured at the feast of Raymi. From his prison window Vilak can observe the beginning of the ceremonies incidental to the feast and sacrifice. Elise and Nunnally are brought to the temple.

NOW BEGIN THE STORY

CHAPTER XLIII.

"Got that ceremony from the Incas, too, probably," Vilak muttered as he turned his head to look at the old man lying on the stone two feet away. "Often a custom of fire-worshipers. Chief, headman, or king, whatever he happens to be, goes off to receive the first rays of the sun alone. You'd better try to sleep a little. Good as a drug at times like this."

These were the last words he spoke for hours. All day he lay rigid, motionless, as though he were another of the gloomy stone figures carved in the ruined temple walls.

As when he had lain in his room in Porto Verde, the pupils of his Mongolian-like eyes dulled until they appeared the eyes of a mummy rather than a man, while the thin film, like a bird's inner eyelid, crept out from the corners. His swarthy skin became bloodless, his breath came stertorously through his open mouth.

In the afternoon his breathing and his face became normal again; he spoke cheerfully to the old man, sweating profusely in the hot sun, and began watching a group of Indians erect a rude pavilion facing the idol and perhaps a hundred feet away.

Just before sunset this pavilion was the center of another procession. Elise, garbed in a robe of brilliantly woven wool, was borne into it on a litter and set upon a stone chair. Before her came the fat half-breed women with the painted aprons and ringed ears who had been her escorts a few days before, then a long line of native women of all varieties of dress, stature and racial mixture. Each deposited a flower or fruit at her feet. At sundown Batalagos appeared. Giggling, he threw a great veil or mantle of beautiful, ancient design over Elise and she was lifted onto the litter again and carried away.

For half an hour the court was once more deserted. The prisoners had been given no food during the day; now ones of the hideously painted priests brought them wine in two clay ceremonial vessels, held the bowls to their lips so they could drink, then put the vessels at their sides in depressions cut especially for the purpose in the stone. Throughout the ceremonies, which began soon after, they returned at intervals of approximately an hour to touch the bowls to the captives' lips, as though the drinking of the wine was an act of purification which made them fit to be a gift to the gods.

The court now filled anew with a swarming, buzzing multitude. Elise was brought out again and placed in the pavilion. Batalagos took a seat beside her. D'Albentara stood at the altar. A dance was begun.

Thirty or forty black, brown, and reddish-skinned women, their bodies bright with paint and feathers and their limbs jingling with metal ornaments, leaped, bowed, quivered, gyrated, while rows of men, with faces painted like death masks, stamped their feet and beat time with thudding tom toms.

At a command from Batalagos the dance ceased. A fowl, a wild pig and two oxen were laid upon the altar-like stone, killed with a knife, and their hearts thrown into the crackling fire. More dancing.

A file of native soldiers came forward, each holding aloft a spear. On each spear-tip was a dried, shriveled human head. The soldiers fixed their burdens like standards in two rows on each side of the open-mouthed idol. Nunnally noticed that each grim trophy bore the same tattooed triangles which had marred Prentiss' forehead, while a tattooed line circled each shrunken neck just above the point where it had been severed.

Now a native with a particularly ferocious face was flung down near Vilak and made fast to another one of the seven stones, where he lay alternately screaming with terror and pleading piteously with his captors. A second young deer was slain to consult the omens; they decreed immediate sacrifice. Three of the soldiers danced a short pantomime in which there was much clashing of spears and stalking through imaginary bushes.

"This poor devil near us is a murderer," Vilak whispered to the old man. "I got that from what he said when he was begging for mercy. This pantomime is a favorite custom of savages. They're showing now how he committed the murder. Stabbed his friend in the back while they were out hunting."

The pantomime continued for a few moments longer. Then a bowl of wine was put to the criminal's lips. Roughly he was lifted from the stone to which he had been tied and dragged to the larger one serving as the altar.

One of the priests swiftly tattooed three teeth-like triangles upon his forehead, then a thin, black line around his neck. The Indian with the enormous nose came forward carrying a great knife, looked at the tattooing on the forehead, passed the back of his knife experimentally about the neckline, then nodded approvingly. The tattooer put away his instruments.

The struggling victim, whose mouth had been stuffed with wool to stop his cries, and who was regarding his captors with bulging, agonized eyes, was now strapped down so that his forehead was directly beneath the three great thorns which formed the fingers of the idol's arm.

D'Albentara gave a command. The savages swarming on all sides dropped to the ground and began a dismal chant. Their eyes were fixed as though hypnotized upon the grotesque idol.

Suddenly a puff of smoke, followed by a tongue of flame, issued from its mouth; its upraised arm began to descend. Nearer and nearer came its thorny hand to the captives' forehead. At last thorn met tattooed triangle. The criminal's convulsive struggles ceased; he lay rigid. Yet he was not dead; his drawn eyes gleamed with the same bitter anguish which had marked the eyes of the prostrate Tony Barbetta and Detto Cicerone and the creeping Limey Potts.

While in this helpless condition, his bonds were untied. The priests became four fiends. For half an hour they tortured him. Then another heart, like those of the beasts, went to the fire; another head and another spear joined the rows at the foot of the idol.

Four natives carrying hollowed reeds and gourds of different sizes began a shrill whistling and noisy rattling intended to be music. They ceased their discordant labors. D'Albentara approached Vilak. "All goes well, amigos?" he murmured.

Vilak did not answer.

The Portuguese shrugged his shoulders. "You will not speak with me, cavalhiero? Ah, if so it must be, so then must it be. You think that Carlos D'Albentara is cruel, do you not, cavalhiero? That he loves blood like the vampire bats who fly in the night. Yet is this not so. Not so. Rather does he hate blood, hate death. They are like mud, like wounds upon the face of a beautiful woman. They make life not pretty. Though he must cause you to die in the same way and do other things which may be yet more evil, it is not because he so wishes. No. It is always because of this miserable . . ." He smiled apologetically. "You know, amigos. I have told you often."

He strode off. A few moments later Batalagos rose pompously from his stone seat, waited until the seething worshipers before him had become silent, then grunted a short oration. He clapped his hands. A litter was brought in again and put down near the altar. A great shout went up from the spectators. A man was lifted from the litter and put down on one of the stones. "There's Prentiss, by the Almighty," grunted Vilak. A moment later as the priest took another figure from the litter, he added quietly: "And there's Tinky."

Suddenly a figure dashed from the pavilion. It was Elise. But she was permitted to run only a few feet. Two guards snatched her. She was carried back to the pavilion, then off into the darkness.

Again the omens were consulted. They decreed that Prentiss and the child should be sacrificed at noon when the sun was at its highest. Another dance was begun, another pantomime. In it D'Albentara took part. He shook hands in un-Indian-like fashion with a gaunt native who was wearing Prentiss' grimy linen coat. Much running and stalking through imaginary bushes followed.

"I think we've seen something of Prentiss' recent history," Vilak muttered to the old man.

The ceremonies ceased for the night. Batalagos and D'Albentara disappeared. The crowd began to melt away. Soon the court was deserted except for the four captives on the stones and the solitary soldier standing guard.

A figure came creeping toward Vilak, then scuttled back into the shadows. The baby began to cry; ceased quickly. Vilak craned his head to see it. He could not. He could, however, distinguish the form of Prentiss on the other side of the altar. Even by the firelight he could see that the feverish, half-mad gleam which had hitherto marked the other's eyes had vanished; his skin no longer had its pallid, death-like appearance; his face, though still wasted and gaunt and still bearing the strange tatooed triangles, was the face of a normal man.

The shadowy figure crept forward once more, once more vanished. Vilak lay motionless, silent. Again his eyes became the slanted eyes of a Chinese philosopher. Again the thin film like a bird's inner-eyelid crept out from the corners to half cover the dull pupils. Suddenly the clay wine-bowl at his side cracked and fell noisily to the ground. The soldier came running; muttered a curse. A priest swiftly brought another bowl, and returned to the temple from which he had come.

Vilak drew a quick breath. With a jagged fragment of the vessel he had just broken he began sawing at the thongs which bound his wrists. The edge was no keener than a dull knife. But even a dull knife cuts vigorously with pressure behind it; soon a thin gap appeared halfway through the tough leather.

He was preparing to begin anew, when the figure which had twice before crept forward only to disappear now crawled to the shadows of the stone on which he lay. He turned his head; saw below him the face of the Indian with the filed teeth whom he had saved from the fiery tortures of Detto Cicerone in the jungle behind his house in Porto Verde.

Progress

Since Confederation some of the greatest inventions of this or any age have been made. Among the many industries that have made such wonderful progress is the monumental industry. Only a few years ago the lettering, carving and finishing of them was all done by hand. Today we have electric and compressed air power to drive our chisels in place of the hammer and mallet.

This enables us to turn out more Monuments and do the work more perfectly. We are always pleased to show our workmanship and quote prices. Our plant is the best that money can buy. Monuments erected in any cemetery in Ontario.

TWO KILLED IN CAR CRASH

Auto Overturns Near Hamilton Trying To Avoid Collision.

TWO OTHERS INJURED.

HAMILTON, Ont., July 16.—(Canadian Press.) — Two persons were killed and two injured shortly after midnight on the St. Catheraines highway near here, when an automobile in which the four were riding overturned when trying to avoid a collision. The driver of the car, as yet unidentified, died instantly, George Wallace, Chippawa, died early this morning, and Roy Cooper, Chippawa, and U. Benware, Niagara Falls, N.Y., are in hospital.

BRITAIN MUST ACCEPT LIMIT

As Basis of Discussion or Conference Will Fail, Says Jap.

CAN GET NOWHERE NOW.

GENEVA, July 16 (Canadian Press). — The tripartite naval conference can get nowhere, said a Japanese delegate to a correspondent of the Associated Press to-day, until the British delegation accepts as the basis of discussion a figure for the total tonnage of cruisers and destroyers which will offer a reasonable chance for successful negotiations.

South Africa Needs Rain—Animals Dying; Germany Has Too Heavy Fall—Cattle Killed

LONDON, July 16 (United Press). — Thousands of sheep and goats are dead in South Africa's richest sheep farming districts because of a disastrous drought, a Daily News Cape Town despatch declared last night. Many farms have been deserted, the despatch added.

WIESBADEN Germany, July 16 (United Press). — Crops were ruined and many cattle killed in heavy hail and electrical storms that swept Frankfurt and other Rhineland towns yesterday. Telephone and telegraph communications are interrupted.

NINE THEATRES FORCED TO SHUT

Ordered By Montreal Building Commission To Close Doors.

SEVEN MUST BE FIXED.

MONTREAL, July 16 (Canadian Press). — Following a stringent inspection of Montreal's forty-nine theatres, nine have been forced to close their doors and seven others have yet to receive improvments before they can secure licenses, it was made known at a meeting of the Civic Public Buildings Commission here. The remaining thirty-three have conformed to all the by-law requirements.

GUIDE GRAPPLED HIS COMPANION

Bodies Found Tightly Clasped Together, Says Canon Cody.

BRINGS SON HOME.

TORONTO, July 16. — (Canadian Press). — Archdeacon Cody, accompanied by Mrs. Cody, arrived here today with the body of their son, Maurice, who was drowned on Thursday in Marten River, near North Bay. Canon Cody gave a new angle to the tragedy when he stated that his son's body was recovered with the arms of Ben Pardiac, who was also drowned, tightly gripped about it, indicating that the latter, who was acting as guide, had grappled with Maurice and prevented him from swimming to safety. Premier G. Howard Ferguson, and many prominent officals met the train from North Bay.

At a recent exhibition of Napoleonic relics in New York there was part of a tendon taken from the Emperor's body, locks of his hair, and some of his famous white breeches.

A recent claim for damages was made to an insurance company by a Connecticut farmer, who said that some of his ribs were broken by his daughter's embrace.

IT PAYS TO ADVERTISE

CANADIAN NATIONAL RAILWAYS

TENDERS FOR TRACK TIES

Sealed tenders addressed to the Undersigned and endorsed "Tender for Track Ties" will be received at the Office of the General Tie & Timber Agent, Canadian National Express Building, Montreal, until twelve o'clock noon, August 1st, 1927, for Railway Ties to be manfaceured from Beech, Hard Maple, Oak, Chestnut, Yellow Birch, Hemlock, Jackpine, Princess Pine, Tamarack and Cedar timber, cut between September 1st, 1927, and May 1st, 1928, and delivered between January 1st, 1928, and August 15th, 1928, F.O.B. Cars Canadian National Railways, in accordance with specification S3W-1-2 revised July 15th, 1926. Tender forms may be obtained at the Offices of the Tie Agents at Moncton, Toronto and Winnipeg, and from the General Tie & Timber Agent, Montreal. Tenders will not be considered unless made out on form supplied by the Railway Company.

The lowest or any tender not necessarily accepted.

G. P. MacLAREN,
General Tie & Timber Agent,
MONTREAL, Que.

Household Hints

Woodenware is quickly cleaned this way.

Some women will not use wooden mixing bowls and wooden kitchen spoons because they think they are hard to clean. It is a mistake to deprive yourself of the services of these useful wooden utensils, because SNAP will clean them in a jiffy. Simply take a slightly damp cloth, dip it into SNAP and rub gently. Any kind of stain will be removed at once. SNAP is kind to your skin. It contains pure, soothing glycerine and therefore leaves the skin smooth and soft.

SNAP is sold by all grocers, druggists and hardware stores.

A FREE BOOKLET TELLING HOW SNAP HELPS IN HOUSEWORK WILL BE SENT YOU ON REQUEST

NASH
Leads the World in Motor Car Value

3 New Series
New Lower Prices

Come drive
the Smartest Looking
cars you've ever seen

Never has any motor car manufacturer introduced body designs of such superb style and smartness.

The moment you view these new Nash models you will recognize that Nash has done something distinctly unusual in the way of motor car design.

The bodies are swung extremely close to the road. The low center of gravity together with small wheels and the new spring construction, and the character of the body design, achieve a most beautiful effect of grace and swiftness.

The varied color finishes are of perfect tastefulness and richest artistry.

Throughout the interior are fittings and appointments of finest quality which contribute even more to the luxurious note common to all these new Nash models from the lowest to the highest price.

In the design and selection of the panelling throughout the interiors, the finely patterned silverware, and the upholsterings Nash has gone far beyond anything ever presented in this price field.

And you must not fail to drive one of them and experience the remarkable new performance qualities in the way of speed, power and smoothness now offered by the newly refined Nash 7-bearing motor.

All these new Nash models have new springs built of a special secret alloy-steel which gives them the finest riding quality you can buy regardless of the price you may pay.

Don't delay your visit to our showroom. And we would particularly appreciate arranging an opportunity for you to ride and drive one of these incomparable new cars.

Toronto Trading Light With Prices Firmer

TORONTO, July 16.— (Canadian Press.) — Trading was light with prices generally firmer on the market of the Toronto stock exchange to-day. Canada Bread was the strong feature, advancing 2¼ points to 118¾. The preferred "B" moved up ½ to 108. British Columbia Fishing was prominent and stronger at 19, a gain of 3-8. Cosmos common remained firm at 26¼ while the preferred sold up ¾ to 98¾.

Industrial Alcohol gained 1-8, while Seagram, most active of the distillery issues, declined 1-8 to 22. Twin City was a strong spot, moving up 1½ points to 55. British American Oil was the weak spot among the oil stocks, dropping 3-8 to 23 5-8.

Weather Favors Rush; Wheat Prices Go Up

CHICAGO, July 16. —(Canadian Press) — Wheat prices rallied quickly to-day from an early sag. One of the leading crop experts of the country reported from Bradley, South Dak., that heavy rains last night, followed by hot, sultry weather to-day, had made conditions ideal for the development of black rust. Opening at ¾ cent decline to ⅛ advance, Wheat later scored general gains. Corn, oats and provisions were easy, Corn starting at ⅜ cents to 1⅛ cent decline and subsequently receding further.

Opening prices were:—Wheat, July 1.41½; September 1.39¼; Corn, July 96½; September 1.02⅛; Oats, July, 43½; September 44¼.

Amulet Feature On Mine Exchange

TORONTO, July 16. — Canadian Press. — Amulet was an outstanding feature in a quiet but fairly firm market on the Toronto standard mining exchange to-day with sales totalling more than a third of the entire turnover, this stock moved up 28 points to 290. Coniaurum was also a strong spot, advancing twenty points to 3.30. Next to Amulet in point of volume came area, which moved up 4c to 51. With the exception of Wright Hargeaves, which advanced 9c to 5.80, the dividend paying gold stocks were weaker. Dome mines declined 30c to 7.10; Hollinger 10 to 18.20; Lake Shore 5 to 20.15, and McIntyre 1c to 25.50. Central Manitoba Gold was up 3c to 1.57.

Stock Market Firm With Rails Leading

NEW YORK, July 16.—(Canadian Press). — The stock market displayed a firm undertone to-day despite rather heavy weekend re-adjustment of speculative accounts. Owing to the absence of many large traders, business was in relatively small volume, the day's sales aggregating about 1,000 shares.

Rails again assumed the leadership of the market, with Erie common, which crossed sixty to a new peak, as the individual feature. Delaware and Hudson, which sold off sharply towards the close yesterday, rallied 2½ points and Prisco common, Chesapeake and Ohio, and Chicago and North Western all sold at a point or so higher.

The buying of the rails has been based on the expectation of improved earnings through further operating economies and increased freight traffic this Fall, as well as by hopes of official approval of a pending rate consolidation.

Standard industrials held fairly steady although Baldwin was again subjected to profit taking. General Electric took on a new lease of life and good buying was apparent in Coco Cola and Atlantic Refining. There were few soft spots, the most conspicuous being American Smelting The closing was firm.

ANNUAL DECORATION PARADE.
Canadian Legion of the British Empire Service League, Peterborough Branch 52.

Members of the Legion and all ex-service men are requested to parade at Legion Headquarters at 1.30 p.m. sharp to-morrow, for the purpose of attending the decoration ceremonies at St. Peter's cemetery. Invitations are also extended to the members of the various militia units, civilians to be worn, medals to be worn on the coat. All members are requested to bring flowers.

Any persons desirous of placing wreaths and flowers upon the Cenotaph may do so at any hour before the ceremony takes place, or when the service is being observed.

AQUATIC CONTESTS DRAW LARGE CROWD

Local Boys and Girls Win Prizes at Midway Last Night.

Hundreds packed the water circus last night to see local boys and girls compete for cups and medals given away by the Miller Brothers' Exposition for an amateur contest. Four prizes were given. About fifteen entrants competed in swimming and diving exhibitions, and in the finals the following were declared the winners by the applause of the audience:

Boys—1, Tom Dunlop; 2, Don. Wood.

Girls—1, Marjorie Perks; 2, Margaret Dunlop.

PRIZE WINNERS.

Rev. J. J. O'Brien and the congregation of the Church of the Sacred Heart wish to thank all those who in any way contributed to the success of the Annual Social held July 12th.

The distribution of prizes which took place last evening on the Church grounds was conducted by the following gentlemen chosen by those present. Messrs H. Payne, Irwin Luther, Roger Stenner, and H. Missen.

Those who won prizes are:

IN MEMORIAM.

McILMOYL.—In memory of Annie Bullock, wife of W. E. McIlmoyl, who died October 2, 1925.

"One precious to our hearts has gone,
The voice we loved is still,
The place made vacant in our home
Can never more be filled.
Our Father in His wisdom called
The boon His love had given,
And though on earth her body lies,
Her soul is safe in Heaven.
Farewell Mother, farewell Annie,
Peaceful be thy silent rest
Slumber sweetly, God knew best,
When to call thee home to rest.
Farewell Mother, farewell Annie,
Till we meet beyond the river,
Happy there with thee to dwell,
But 'tis God Who has bereft us,
He can all our sorrow heal,
Yet again we hope to meet her
When the day of life is fled,
And in Heaven with joy to meet her,
Where no farewell tears are shed."
—Signed on behalf of her Husband and her two Sons.

Incomes from $100,000 to $150,000 a year paid the highest proportion of the federal tax revenue last year. This amounted to $79,385,904.

Austrian Government Masters Political Crisis

STATE TROOPS HALT FUNERAL OF COUNTESS

Will Not Allow Republicans to Fire Usual Volley at Graveside.

RITES POSTPONED.

Dying Leader Expressed Wish To Be Burned in the Family Plot.

DUBLIN, July 18 (Canadian Press). —The funeral of Countess Markievicz, noted Republican leader, who died on Friday, was the occasion yesterday of a strange incident, which delayed interment until to-day. After impressive scenes at the Rotunda, where the body lay in state and was viewed by thousands of the very poorest of Dublin's populace, who worshipped the Countess for her kindliness and care, great crowds turned out yesterday to watch the funeral procession. This passed through the centre of the city on its way to Glasnevin Cemetery, where Kevin O'Higgins was buried a few days ago.

Prior to the arrival of the funeral cortege at the cemetery, a hundred Free State soldiers, fully armed, and a large number of detectives, took possession of the Republican plot in the cemetery in order to prevent the firing of the usual volley at the graveside. Seeing this, the Republicans postponed the funeral until to-day, and, placing the coffin in a vault, dispersed.

Countess Markievicz had expressed the dying wish to be buried in the family burying ground at Sligo, and relatives also pressed the same desire, but the Republicans insisted that the interment should be in Glasnevin.

The husband of the Countess was indignant that James Larkin and his followers were permitted to march in the procession and to the presence of a large Red flag presented to Larkin by the Bolshevists in Moscow.

REGINA BOASTS SIMILAR CASE

Woman Undergoes Fast in Hospital For Sixty-five Days.

WATER ONLY FOOD.

REGINA, Sask., July 18 (Canadian Press).—In connection with the recent fatal fasting test undergone by a Toronto woman in order to improve her digestive system, the Regina General Hospital boasts of a similar case in nature but more successful in result. The Toronto woman went without food for fifty-five days before death.

Mrs. William Edwards, of this city, was admitted as a surgical patient to the Regina General Hospital on April 5, and due to her condition was forced to undergo a fast of sixty-five days. During this long time she was under direct supervision of the nurse of the ward, and the only things she received in the nature of food were water, clear tea and two ounces of stout. All these in very small quantities, and never all three together. For more than two months this was the diet and regular fare. Mrs. Edwards has now reached the stage where she can take a more substantial meal while she is recovering from her ailment.

About 1600 moose are killed each year in Nova Scotia.

"SWIMMIN' IN THE CRICK"

There's a place I know to swim in,
An' the water's just as fine
As the bestest 'at I've been in,
An' we call it Bob's and mine.

Course we don't real truly own it,
Cause it b'longs there in the park—
But we play we do, an' loan it
To other kids 'at want a lark.

When we're in the water puddlin'
Dog fashion—duckin' too—
All the fish just go skeedadlin',
When they hear us splashin' thro.

If there's any wrinkles comin'
On your hands, or on your feet,
Or your finger nails are turnin';
You'll get out if you're discreet.

Oh the fun 'ats in the water
When it's hot an' Bob an' me,
Duck an' dabble in the shadow
Of the big old elbum tree.

—Nick O'Teen.

Coolidge As Cowboy Joke, Claims Editor

WASHINGTON, July 18. — (United Press).—Declaring that movies of President Coolidge in cowboy costume made him the "laughing stock of the multitude," "the people's business," a publication founded by the late Senator Lafollette, declared to-day the chief executive is a victim, "his publicity hounds."

The articles declare movie audiences "roar with laughter as this bewildered little man teeters down the steps in his vaudeville chaps and timidly grasps the reins of the gift horse he fears to mount."

The picture is an attempt to "convince the multitudes that he is a "he man," the paper said.

PEERS PREPARE OWN REFORMS

Ready To Eliminate Those Who Take No Part in Deliberations.

SEEKING AGREEMENT.

LONDON, July 18. United Press. —Eliminating of undesirable peers from the House of Lords, is most likely when the proposed reform measures are actually passed, the British United Press learns following Lord Derby's denunciation of the present system which permits a peer to retain his seat in the Lords although convicted of a civil offence.

"Useless" peers who take no interest in the country or political problems will it is believed, also be eliminated, because among the peers themselves is a definite feeling that the House of Lords must now make itself useful and no longer expose itself to the ridicule which has been heaped upon it in recent years. With this in view peers are at present trying among themselves to find a basic agreement for the proposed reform measures, following Premier Baldwin's announcement that the government's suggestions were made merely to provoke discussion of the subject and stimulate ideas.

Not for a long time have members of the House of Lords evinced so much activity.

GOVERNMENT INVESTIGATES BEER SYSTEMS

Premier Bracken Will Study Methods of Sale in Wester Provinces.

WANT ACTION.

Electors in Manitoba Voted For Sale of Beer by the Glass.

WINNIPEG, Man., July 18 (Canadian Press).—Investigation of the prevailing liquor laws and methods of sale in Alberta and British Columbia, will be made by the Bracken Government before legislation is enacted to bring into effect the proposed system of sales of beer by the glass in licensed parlors in Manitoba.

To obtain first-hand information of the systems in the two Western provinces, Premier John Bracken, Attorney-General W. J. Major, and W. R. Cottingham, Government counsel, have left Winnipeg for Calgary and Vancouver. They will be away for two weeks.

The Government has not yet decided whether to call a special session of the Legislature to deal with the beer question. Liberal and Conservative members favor early action while many of the Progressives have declared that it will be soon enough to prepare the necessary legislation when the regular session meets in January.

The electors of Manitoba voted in favor of sale of beer by the glass in Government licensed parlors through a referendum held in conjunction with the Provincial general election on June 28th last.

Traffic Police To Have Umbrellas Supplied

An effort will be made to devise a cooler uniform for New York policemen, particularly those on traffic duty, for wear during periods of excessive heat such as that city has witnessed the last few days.

Among the uniforms under consideration for traffic policemen is one with a much lighter coat, possibly of different design, or a light blouse, in place of the heavy coat, buttoned to the chin, which is now worn. For men on patrol duty a new uniform with a different style of jacket is being considered. Umbrellas to shade men on traffic duty may also be installed.

GOOD LECTURE ON FIRST NIGHT OF CHATAUQUA

Norman Allan Imrie Gives interesting Talk on Empire Problems.

MUSICAL PROGRAMME.

Arcadia Novelty Company Gives Good Programme at Both Sessions.

This year's Dominion Redpath Chautauqua programme got off to a splendid start on Saturday with an itial afternoon and evening session that included a quartette of clever lady musicians and entertainers and a rapid-fire breezy type of talker in Norman Allan Irmie, who claimed relationship with Canada by a son of twenty years residence in London, Ontario.

Mr. Imrie chose as his subject, "Working Together for Billions," and gave, in a comprehensive, bird's-eye view, a graphic picture of present-day problems, with special reference to the acute difficulties of the British Empire. His address was snappy, eloquent and forceful, with a straight-from-the-shoulder atmosphere to his stirring analysis of Anglo-American problems of the day, and a fund of sparkling anecdote that kept his audience in constant good humour and expectation of further funny bits.

"We pride ourselves, as English-speaking people, on our policy of self-government," he said, "and we pride ourselves that it is due to the peculiar genius of the English-speaking peoples taht this kind of government exists. It is directly opposite in type to the government they have in Russia at the present time, living under the rule of people they didn't pick out themselves, and can't get rid of. In Italy, they have a dictator who has put Parliament in the storehouse and is ruling the land with a big stick, and much the same conditions prevail in Spain and Poland. In time, we may find it necessary to support a strong man on horseback, who is bringing order out of confusion, but now we are ruled, wherever the Union or the Stars and Stripes fly, by men we picked out for ourselves, and whom we can strip of authority, if we wish."

Mr. Imrie went on to give a brief survey of a few of the problems and difficulties that confront what he termed a "democratic, constitutional representative and responsible type of government." With regard to the United States, their two problems are the "melting pot," in the assimulation of the foreign element, and the colonial problem, in the consideration of treatment of the people of Porto Rico and the Philippine Islands.

John Bull's Problems.

The problems of John Bull were compared by the speaker to the different strata of a layer cake, in the varying difficulties presented in the United Kingdom itself, in the self-governing Dominions and in the dependencies. Speaking of the smallness of the four great nations of England, Ireland Scotland and Wales, he said that they could easily be placed entirely in the State of California, with room to spare for a second inclusion of Ireland, "If California wanted some more trouble."

The overseas Dominions, "young, proud, prosperous and ambitious," were not within the British Empire of Commonwealth of Nations by reason of bullets or coercion, but because of ties of affection and respect which bound them to the Mother Land.

In the case of the dependencies, Mr Imrie went on to refer to the problem of Ireland, which has been settled recently by a measure of self-government given to the factions in the North add the South, and to the difficulties presented by India and Egypt. India, has over three hundred and thirty millions of dark-skinned people, ninety eight per cent of whom cannot read or write, with something like a dozen different warring religions, and one hundred and forty-seven varying languages and dialects and a complicating caste system. The job of keeping all these people together is the task confronting Great Britain. Egypt, with its similar problem, has been granted a certain measure of self government under British rule.

Speaking of eight hundred million Asiatics, one half of the population of the earth, and of the decreasing distances in ocean travel, made possible by recent means of transportation, Mr. Imrie wondered what might some time happen if these people, industrialized in the manner in which they are rapidly developing, should fall into the hands of leaders inflamed by malice toward the white race, and considering them as exploiters of the yellow nations.

He went on to refer to the visit to the late President Harding of a group of Phillipine leaders asking for freedom from American rule, and the answer of the President outlining for them the reasons why this could not yet be, until they had absorbed more of the ideals of self government necessary to the foundation of a peaceful and trustworthy nation.

"If Great Britain were to pull out

Wales Temperamental As Actor In Movies

LONDON, July 16. — United Press. — Smearing his face with grease paint, the Prince of Wales yesterday played his first role as a movie actor. He took a part in the film "Remembrance" that is to be launched on Tuesday by the British Legion. Wales proved temperamental. He refused to leave the make up room until he was satisfied his make up was perfect. He rehearsed his part half a dozen times in order to get the proper deliberation in his business of sticking an armistice day poppy in his button hole going to his desk, and writing a letter to Field Marshal Earl Haig, head of the British Legion.

HANKOW FALLS TO NEW FORCE

Ho-Chien, Southern Conservative, Takes City From Radical Troops.

HOLDS STRATEGIC POINTS.

LONDON, July 18. Canadian Press. —A Reuter's despatch from Shanghsai, says that a message from well-informed sources in Hankow reports the capture of both Hankow, and Hanyang, nearby, from southern extremists, by General Hochien, the Conservative southern commander. General Hochien is reported to have carried out a coup d'etat against the Radicals, occuping Hanyang yesterday, and Hankow today. He is also said to have captured the railway and other strategic points. The general has been commandant of the garrison at Wuchang, opposite Hankow.

Going to Urga.

HANKOW, July 18. Canadian Press. — Reliable circles in Hankow say that Michael Borodin, who left this city last week, is on his way to Chengchow.

It was stated that Borodin's purpose was to join the Russian couriers recently released with Mme. Borodin, who are reported to be on their way to Urga. It was stated in reliable circles here that the leaders of the Hankow government are now seeking the elimination of all the Russians here.

Chiang Abandons Conquest.

PEKING, July 18. — Canadian Press. — Advices received here indicate that General Chaing Kai-shek, commander in chief of the Nanking Nationalists, has abandoned at least, temporarily, his attempt to conquer the province of Shantung.

WHALE MAKES SUCCESSFUL TRIAL FLIGHT

Captain Courtney Expected to Start on Air Trip to New York Wednesday.

AMUNDSEN'S MACHINE.

Secret Code Will Be Used to Describe Flight By Wireless.

SOUTHAMPTON, Eng., July 18. — (A.P.) — Captain F. T. Courtney's flying boat the "Whale," with which he hopes to make an air trip to New York, took its second successful flight across the English channel last evening.

The flying boat was in the hands of mechanicians all morning; they repaired the leak which was observed Saturday, fixed extra gas and oil tanks, and tuned up the machine generally.

Captain Courtney, navigator Downer, and mechanic R. F. Little conferred before the start, and it was learned that this was to be a test of how the crew of three could organize an effective liason. The macine was floating in the water by 4:30; the wind was strong and the weather bad, but Courtney had the "Whale" in the air within nine seconds, and she remained up for 45 minutes.

A speed up to 110 miles an hour was attained, and the pilot kept at an altitude of from 1,000 to 2,000 feet. On his return Captain Courtney said to the Associated Press correspondent:

"This is a distinct improvement on my first trial. The controls worked well. The front engine is still a bit stiff, but further tuning up will soon put that right."

Little more beyond wireless outfitting needs to be done before the start, which will probably be at dawn Wednesday, the flying boat reaching Valentia, Ireland, about noon.

Secret Code.

For the first time in the history of trans-Atlantic air flights a secret code will be employed to describe the flight by wireless. Leut. Downer explained yesterday that the wireless apparatus will be of the regulation air force type with wave length of 600 meters and a radius of transmission of 600 to 750 miles. The call will be GBEQO.

"Probably," added Lieut. Downer, "we may send out a lengthy bulletin hourly, but all in secret code, copyrighted by a London newspaper."

However, radios from the "Whale" asking for position or assistance can be picked up by anybody. Trials of the wireless may be made on Monday or Tuesday.

Noted Machine.

Another interesting fact is that the "Whale" is Captain Roald Amundsen's old machine. Dornier sold her to Amundsen and after his successful flight the German constructor bought her back, reconditioned her and lent her to Courtney. Everything on the flying boat, motors, magnetos and all have been lent for this flight.

One of the most disinterested spectators at yesterday's trial was Olive, Courtney's four year old daughter. She arrived yesterday with her mother and a dozen friends. A little flaxen-haired girl, happy playing beside the sea, refused to be over-awed by the giant plane, and when her father, wearing overalls, wanted to put her in the pilot's seat she resisted violently, and went on throwing stones into the sea.

Conversing with the correspondent yesterday afternoon while the Whale was in the air, Herr Schulter, the London manager of the German Dornier firm, said that the Dornier at present is building twenty boats like the Whale, with motors of 1,100 hrose power, to be delivered in September to the Soviet government at Moscow

WOMAN DROWNS.

Body of Merritton Lady Found in Welland Canal.

MERRITTON, Ont., July 18 (Canadian Press). — The body of Mrs. James Leitch was found floating in the old Welland Canal yesterday. She left home on Saturday morning.

King George Returns Teddy Bear To Scotch Lassie Who Had It Stolen in Slum District of Edinburgh

EDINBURGH, Scotland, July 18 (Canadian Press). — Little Annie Laurie Mackenzie was having a good cry on Saturday morning in the streets of the Pleasance slum district because a playmate had stolen her teddy bear. In the midst of her tears someone patted her tousled head, asking, "What's the matter, little one?"

It was King George who, with the Queen, was inspecting the settlement. The King intervened, restored the teddy bear, and went his way smiling as Annie Laurie brushed away her tears, and wondered who the kindly gentleman could be.

Chancellor Asks Support of People

BERLIN, July 18 (Canadian Press).—A proclamation issued by Chancellor Seipel in Vienna and brought to Berlin to-day by airplane, places the number of killed in last week's riots at forty at least, with three hundred wounded. Those arrested as a result of the disorders number 252.

The proclamation states that all the records in the Palace of Justice, including deeds and library archives, were destroyed in the fire there. It closes with the following appeal: "The Federal Government appeals to all Viennese, regardless of station or party, who love their native city and order within state and land for support for the re-establishment of law and order."

FLIERS RETURN TO HOMELAND

Lindy Among Those To Greet Byrd Party and Chamberlin.

AT NEW YORK HARBOR.

NEW YORK, July 18 (Canadian Press).—The five men who flew over the Atlantic in the monoplanes "America" and "Columbia," returned to their homeland to-day to receive the greetings of the city from which they took off on their great adventures.

To-day the giant liner Leviathan nosed its way into New York Harbor and dropped anchor at Quarantine, with Commander Richard Byrd, Bert Acosta, George Noville and Bert Balchen, the crew of the America, and Clarence Chamberlin, pilot of the Columbia, among its passengers. Charles Levine, owner of the Columbia and passenger on its ocean flight, remained in Europe arranging a return flight.

The families of the fliers went out to meet the ship aboard the harbor boat Macon. Col. Charles Lindbergh and G. M. Bellanca, designer of the Columbuia, also boarded the boat. "Lindy," dressed in a well-worn grey suit and cap, said he had just arrived in the city, coming for the purpose of welcoming the fliers who were preparing for their flights at Roosevelt Field while he was grooming his "Spirit of St. Louis" for the ocean hop.

To the acclaim of their countrymen, the five men stepped back on to the soil they last saw dropping away from under them as they took to the skies on the non-stop flights to Europe.

As the liner Leviathan nosed up into New York Harbour to-day, the crowds broke into roars of welcome, fireboats sprayed fountains of sea water into the air, and the paper snowstorm which as Manhattan's accolade, fell through the air.

STRUCK BY AUTO LITTLE GIRL DIES

Runs Across Highway in Path of Automobile in Front of Home.

OAKVILLE, July 18. —Seven-year-old Lydia Stephens was fatally injured on Saturday when she was struck by an automobile while running across the Hamilton Highway opposite her home in Trafalgar Township, aout two miles from Oakville. The little girl is the daughter of George Stephens, gardener on the estate of Sir Joseph Flavelle. The house is on th north side of the highway. Lydia had been playing with some companions south of the road, and was running over to her home when the tragedy occurred.

The car was reported driven by Peter Wilson, chauffeur for Ira Bates 26 Austin Crescent, Toronto. Dr. Soanes of Oakville, was summoned to the scene and administered medical treatment. He found the girl suffering from several broken bones and a fractured skull, and ordered her removal to the Hospital for Sick Children in Toronto, where she died yesterday.

Chief of Police David Kerr investigated the case.

KIDNAPPING PART OF VIENNA TROUBLE

Relatives of Acquitted Men Carried Away From Home.

BUDAPEST, Hungary, July 18. — Canadian Press. — Rev. K. Heidle, brother-in-law of the Tscharmann Brothers, whose release on a charge of killing a Socialist, precipitated the Vienna riots on Friday, is reported to have been kidnapped from his home in Schattendorf and to have been carried off to some unknown place.

GOVERNMENT CONCENTRATES EFFORTS IN RESTORING ORDER; NO INTENTION OF RESIGNING

Chancellor Seipel Appears to Have Gained Control in Austrian Crisis.

LEADERS UNITE.

Vienna Is Quiet, Although It Remains in State of Siege.

VIENNA, July 18. —(Canadian Press) — Contrary to all expectations Sunday found the Seipel Government stronger than ever without the least intention of resigning but concentrating all its efforts on restoring order as quickly as possible and if necessary with the severest measures.

The social democrats, last night, demanded imperatively that Chancellor Seipel convene parliament. The chancellor instantly replied: "Certainly, parliament can be convened whenever you wish." Whereupon the social democrats declared they were in no hurry.

The chancellor is of the opinion that the reconstitution of the cabinet which he also deems necessary, must not be dictated by mob rule but reached after serene and unprejudiced negotiations. Burgomaster Seitz and the socialist leader Bauer pointed out to the chancellor the extreme desirability of settling pending issues before Wednesday at which time the burila of the riot victims might evoke a new outburst of mob possion.

The leaders of both sides agree that a speedy understanding especially desirable from an international viewpoint, lest neighbouring countries use the Vienna disorders as a pretext for intervening.

The government to-day with the support of the police and troops is absolute master of the situation. Everywhere it is emphasized that the riot was in no way directed against foreigners, who have not been molested in a single instance.

Building Guarded.

The central section of Vienna is quiet, though presenting the picture of a state of siege, with all public buildings guarded by troops and police and machine guns at points of vantage. Conditions differ from a state of siege and only in so far as the regular courts continue competent.

The hospitals are crowded with wounded; the streets leading to the suburbs are closed and all automobiles are stopped and searched for weapons, with which it is feared the communists are being supplied from the outside.

The last serious incident of the disorders was a clash last night between a mob and the police in which seven were killed and ten wounded. Burgomaster Seitz forbid the sale of alcoholic drinks to-day and the socialists and trades unions have appealed to the workers to strictly refuse to touch liquor during the ensuing days until normal conditions prevail.

Prevent Civil War.

The Socialists are entering their efforts toward preventing civil war and keeping communists from forcing a revolution. The fact that the Prussian communist deputy Wilhelm Pieck flew to Vienna yesterday is taken as in indication of the efforts of the Third Internationale to gain control.

The Socialist trades unions have issued a joint manifesto urging the workers not to be misled by the communists as their program of arming the workers would result immediately in civil war which would mean new and terrible sacrifices in blood, terrible economic catastrophe accompanied by famine and increase of unemployment, placing workers in the agrarian provinces where socialism is weak at the mercy of armed facism, the most serious danger to the continuance of the republic.

Pope Is Interested.

ROME, July 18.—(Canadian Press) —Pope Pius has taken a paternal interest in the Austrian situation and has asked Cardinal Casparri, Papal secretary of State, to keep him informed. The Pontiff has instructed the Cardinal to make every effort to advise peace in order to avoid bloodshed, civil war appearing to the Pope as the greatest tragedy any country can undergo.

The Holy Father has expressed the hope that the President of the Austrian Republic, the Chancellor and other leaders will put aside party feeling of dissension, and assisted by

PROGRESSIVE IN S. BRUCE OUSTED

McCallum Loses Seat in Ontario House For Corrupt Practices.

McWHINNEY NOT GUILTY.

TORONTO, July 18.— Mr. A. McCullum, Progressive member of the Legislature for South Bruce, loses his seat and A. P. Mewhinney, Liberal member for North Bruce, retains his seat under judgments handed down by Mr. Justice Rose and Mr. Justice Fisher at Osgoode Hall on Saturday. Petitions to unseat the two members on the ground of corrupt practices in the last Provincial General Election were heard last month by the two Judges. In North Bruce, W. H. Fenton, former Progressive member, charged that an offer had been made to pay his expenses and that Mewhinney had promised him "something good" in the form of a position under the Dominion Government, if he withdrew from the campaign. He refused to do so, and was defeated by Mewhinney.

South Bruce Case.

In South Bruce, it was claimed that Mr. McCullum's supporters had paid a sum of money to J. G. Anderson, Liberal candidate, to defray his expenses in consideration of his withdrawal from the contest.

ONE U.S. MARINE KILLED IN BATTLE

Another Wounded in Fight With Nicaraguan Rebel Forces.

MANAGUA Nicaragua, July 18. — (Canadian Press).—The United States Marine Corps has suffered its first casualties in actual conflict arising as an aftermath of the recent Nicaraguan civil warfare, one marine being killed and another wounded in a fight with the forces of the former Liberal General Sandino, which attempted to capture the town of Ocotal. Latest Government reports show that a hundred of the rebels were killed by marines and constabulary.

Youthful Norseman Objects To Head Gear

S.S. LEVIATHAN, July 17 (Canadian Press). — Bernt Balchen, the youthful Norse aviator of Commander Byrd's crew of trans-atlantic aviators who has not worn a hat for years, is offering stubborn resistance to the suggestion by Byrd and his companions that Balchen must wear a hat on Broadway to the City Hall for Monday's reception.

Balchen can't remember when he owned a hat, but Byrd bought him one in Paris and insists upon it being worn. After an evening of pleading with Balchen, the only assurance which could be secured from the young aviator was his laconic, "Well, I'll carry it in my hand."

THE WEATHER

To supplement the heavy rain of last Friday, when almost an inch fell, there was another heavy downpour on Sunday. The total for the day was .77, or over three-fourths of an inch. As usual cooler conditions followed.—W. P.

Wool cloth contains about 25 threads down and 25 across to the inch. A square yard is composed of 1800 threads.

NINE KILLED WHEN TORNADO HITS KANSAS

Twisters Swoop Down, Doing Thousands of Dollars Damage.

MANY INJURED.

More Than a Score of Persons Are Treated in Hospitals.

KANSAS CITY, Mo., July 18 (Canadian Press).—Nine persons were killed and many more injured by two tornadoes that swooped down upon Eastern Kansas late Saturday afternoon. Thousands of dollars damage to property and growing crops was left in the wake of the twisters.

South Park, Kansas, a suburb of Kansas City, with a population of approximately 800, felt the full effects of the whirling funnel-shaped cloud that struck just before sundown. Four were killed there and more than a score injured, twenty-five residences were levelled, a hundred others damaged as the twister mowed a narrow path.

More than a score of persons were treated at hospitals in Kansas City for bruises and lacerations from flying debris.

The tornado rose after leaving South Park, dipping again in the extreme southern edge of Kansas City, where a few small buildings were wrecked, but no one was injured. The tornado again rose and disappeared, travelling north-eastward.

Five lives were lost in the vicinity of Emporia, Central Eastern Kansas.

Crops, especially which had reached considerable height, suffered much damage.

TWO DROWNED WHILE BATHING

Huge Wave Sweeps Women Over Breakwater at Port Stanley.

FIRST OF SEASON.

ST. THOMAS, Ont., July 18 (Canadian Press). — The first drowning of the season at Port Stanley happened at 1.30 o'clock yesterday afternoon, when Clairie Merriman, aged 24, of 15 Oak Tyler Apartments, Tyler Avenue, Detroit, and Charlotte Windred, 23, of 63 Meadow Brook Avenue, Detroit, were carried off the breakwater into a surging sea by a huge wave which swept over the cement pier.

All attempts at rescue proved futile. With their husbands, Klem Merriman and Harold Windred, they had been visiting at the home of Mr. Windred's stepfather, Alex. McPhail, M.C.R. engineer, at St. Thomas. The party had gone to Port Stanley for a cooling dip in the lake. When the accident happened, Harold Windred and Mr. McPhail were in the bath house changing into street clothes, and Merriman was on the pier with the young women.

CARS COLLIDE; BOTH DAMAGED

Accident Occurs in Campbellford Streets on Sunday Evening.

CAMPBELLFORD, July 18. — A bad smash-up took place near St. John's United Church at nine o'clock last night, when a car owned by John Plumpson, of town, collided with a car owned by Gordon Walsh, of Hastings.

From information gathered at the time of the accident, Walsh was coming into town and Plumpson, in turning a corner near St. John's Church, smashed into himb. The axle of the Wash car was broken and the Plumpson car sustained a broken back fender. Mrs. Plumpson, who was in the car at the time of the mishap, was severely shaken up.

Baker, the Magician, Coming Here

A rare combination of magician and ventriloquist is Al Baker, the genial entertainer who is to appear here at the coming Dominion Chautauqua. He can fill a stage full of alarm clocks and flags while you wink your eye.

Al Baker and "Company"

And he can just as easily make audiences roar with his impudent little assistant, "Dummy Dennis," is really saying all the funny things himself. Al Baker will delight grown-ups and children alike.

PAINFULLY HURT LEAVING MOTOR

James Cameron Slips on Wet Walk While Stepping Out of Car.

VEHICLE MOVING.

CAMPBELLFORD, July 18.—James Cameron, an employee of the paper mill, met with a serious and painful accident when in stepping from a moving motor car he slipped on the wet roadway, sustaining a broken collar-bone and serious injury to his right side.

Mr. Cameron has been in the habit of riding home with Harry Cassan, also of the paper mill, whom he has known for the past twenty years, and being a man who does not care to put his friends to any trouble, tried to leave the car at his home without putting his friend to the trouble of stopping it. Mr. Cassan feels keenly the accident to his life-long friend, recalling that twenty years ago the unfortunate man saved him from drowning. Both were "blowing" ice near the dam in the month of January 20 years ago, when Cassan fell in, and was going under for the third time when Cameron went to his rescue.

The Examiner called at Mr. Cameron's home on Grand Road last night, and found that while his injury is painful, he is decidedly cheerful, and anticipates a speedy recovery.

LIGHTNING RIPS SHINGLES OFF

Bolt Damages Home of P. O'Brien—Balls of Fire in Store.

THREE COWS KILLED.

DOURO, July 18 — During yesterday's storm, the residence of Patrick O'Brien was struck by lightning near the chimney. Quite a large strip of shingles was knocked off and the lightning arrester on the telephone was shattered.

None of the family was at home at the time, but on their arrival home they saw the damage to the roof, and found a strong smell of smoke in the house.

A peculiar occurrence during the storm was the explosion of a ball of fire in the store of P. G. Towns. It exploded within a foot of Mr. Towns, shocking him momentarily. Mr. Towns had been at the switchboard, but had moved a few feet away.

During Wednesday's storm the same thing occurred while William, Joseph and Isabel Towns were in the store. No harm was done in either case, just a ball of fire and a crash being noticed. Pipes from the air-filling station run along the ceiling, and Mr. Towns thinks they have some connection with the occurrence, but whether the lightning came in on the pipes or jumped to them from the telephone wires is not known. Mr. Towns intends, however, to remove the pipes.

Three head of cattle were killed on the farm of Patrick Fitzpatrick during Wednesday's storm, but Mr. Fitzpatrick did not know of his loss until Saturday.

INCREASE YOUR WEIGHT 5 Pounds 30 Days Or Money Back

Doctors and good pharmacists know that Cod Liver Extract is full of vitamines that make flesh, create appetite, build up the power to resist disease and puts good solid flesh on skinny men and women.

So now men and women who keep up with the times are taking McCoy's Cod Liver Extract Tablets — rich in flesh producing, health building, strength creating vitamines and as easy to take as candy.

So why not start to-day? Why not fill out those deep hollows in neck, cheeks and chest? Why go on through life with sunken cheeks and narrow chest when you can take advantage of this straightforward offer.

Try them for 30 days if you want to gain five pounds or more. And bear this in mind if they don't help you in that time, McDermid & Jury, Bond's Drug Store, McDermid Drug Co., or any druggist anywhere is authorized to return your money—but demand McCoy's 60 Tablets 60 cents.

OWNER AWAY BARN BURNS

Miss Minnie Fair, Centreville, Sustains Loss While Visiting Peterborough.

LIVE STOCK SAVED.

MILLBROOK, July 18.—While the owner was on a visit to Peterborough, fire of unknown origin breaking out on Saturday afternoon about 1.30 totally consumed a barn on the farm of Miss Minnie Fair, one mile east of Centreville.

Neighbours who saw the smoke issuing from the barn quickly gathered and saved the machinery. A quantity of old and new hay and a number of hens were destroyed in the flames. No live stock was lost. A portion of the wheat in a field adjoining the barn was destroyed by the heat.

It is believed that the damage is partially covered by insurance.

NAVAL CONFERENCE IS UNABLE TO FIND ROAD TO AGREEMENT

General Reduction of Armaments Will Require Years For Solution.

Other Delegates Waiting For British to Scale Down Cruiser Estimates.

GENEVA, July 18. — Now that the tripartite naval conference has demonstrated after a month's almost fruitless labor the stupendous difficulties barring the road to agreement of the comparatively simple agenda, the leaders of the League of Nations are less inclined to criticize the meagre results of the League's own disarmament negotiations. Whether the three power conference succeeds or fails, the league has learned its lessons—it has read the handwriting upon the wall, and it is that general reduction of armaments on land and sea and in the air reasonably looms up as a problem requiring long years for solution

The league's preparatory commission disarmament conference is scheduled to meet again in November. It has amassed an enormous amount of valuable material and already has even framed the draft of the treaty but this document shows the existence of so many points in conflict and contains so many reservations concerning all branches of armament, that the problem in its entirety practically must be tackled anew and with the hope of success conditioned upon the great powers reaching an agreement on outstanding subjects, especially naval questions.

Bad Influence

Everybody recognizes here that the collapse of the three-power parley would have a chilling influence on the larger problem, the reduction of all armaments by all countries. Incidentally friends of the league of nations are remarking that the failure of the naval conference cannot be proclaimed world wide as another proof of the weakness of the league of nations, since the conference is not "a league afair." However the broad league gospel is understood to be that anything which leads to concord and harmony among nations and constitutes a step towards world disarmament is backed genuinely by the league whether held in Geneva or elsewhere. Hence responsible opinion is that the failure of the three big maritime powers to reach an agreement will be a blow to the policy of cooperation and mutual understanding of which the League is sponsor.

If Great Britain the United States, and Japan are encountering such discouraging differences in trying to limit cruisers destroyers and suomarines, what is being asked is what will eventuate when all nations of the earth seek to solve in one combined effort the complicated problem of the limitation of navies, armies and air fleets, and especially the armies of Europe?

Reduce Tonnage.

The general situation yesterday was that the Americans and Japanese were still waiting for the British to scale down their esimate of total tonnage of cruisers, with one American saying "We are standing pat, both as to the necessity for low limitation and freedom to mount the type of guns we wish on cruisers, provided they will not exceed eight inches."

A report was circulated among the Japanese delegation yesterday that the British, because of concessions by the British Admiralty, had decided to come down to about 500,000 tons total for cruisers and destroyers as a basis for discussion with the Japanese and Americans, but a British spokesman said he was unable either to confirm or deny the report in the absence of plenipotentiaries.

Abandon Policy.

The report was that the British would abandon their future cruiser programme, which provides that nine warships, totalling 78,000 tons, would be laid down beginning this year, and transform some big cruisers whose construction has only just begun into smaller types, thus materially reducing the total tonnage, and at the same time maintaining the number of cruisers at about 70. Under this rumoured plan the British would fall within 400,000 tons, which is the maximum suggested by the United States, but which would still be well above the maximum which the Japanese declare they cannot exceed.

ONE MAN KILLED SECOND INJURED

Fierce Electric Storm Causes Great Damage in Saskatchewan.

SASKATOON, Sask., July 18.—Lightning killed one man and injured another, as well as shocking an old lady, during a terrific thunder storm and cloudburst at Wakaw, Sask., about six o'clock Saturday evening. Extensive damage, 100 per cent. in some places, was done by hail.

BIRTH.

DWELLY.—On Monday, July 18, 1927, at St. Joseph's Hospital, to Rev. and Mrs. R. T. C. Dwelly, of Young's Point, a daughter.

OF NATIONALISTS.

Are Said To Be Ignoring All Consular Representations.

SHANGHAI, China, July 18 (Canadian Press).—The Nationalists at Foochow indicate their intention of seizing all missionary properties in the six cities of North Fukien Province, including Foochow, it is stated. British, United States, German, French and Spanish Nationals are affected.

Several properties are reported to have been seized by official Nationalist agencies, either civilian or military, which have established headquarters in these. The Nationalists are said to be ignoring consular representation.

DELEGATE GOES BACK TO CHINA

Representative To League of Nations Will Support Nationalist Cause.

UNFAIR TREATMENT.

GENEVA, July 18. Canadian Press Chu Chao-Hsin, former Chinese presentative of the Council of the eague of Nations, who recently announced that he was returning to hina to join the Nationalists, ised a sort of valedictory statement the league yesterday expressing e belief that the league should rge the powers to liberate China from the yoke of the unfair treats."

Chu said he would remain a faithl supporter of the league provided recognized fully China's privileges which were justified by her importance.

Upon returning to China Chu said e would advocate modification of ternational conditions in order to void complications with foreigners hich endanger the peace of the ar East and the peace of the entre world.

"We are confident that we are efending a righteous cause in fighting for tariff autonomy and in opposing unjust extraterritoriality," he id

He concluded with the statement at he was supporting the Nationlists because they were struggling obtain increased tariffs in order balance their budget, and were eking the reorganization of natnal finances and the restoration of ational sovereignity.

OLD MASTERS

"What is the real good?"
I asked in musing mood.

Order, said the law court;
Knowledge, said the school;
Truth, said the wise man;
Pleasure, said the fool;
Love, said the maiden;
Beauty, said the page;
Freedom, said the dreamer;
Home, said the sage;
Fame, said the soldier,
Equity, the seer;—

Spake my heart full sadly,
"The answer is not here."

Then within my bosom,
Softly this I heard:
"Each heart holds the secret;
Kindness is the word."

—John Boyle O'Reilly: "What is Good."

NEW SALAD.

Celery stalks stuffed with cream cheese and pimento, sliced tomatoes, diced apples and a dash of shredded parsley make a delightful salad combination.

IT PAYS TO ADVERTISE

HEAT WAVE HAS TAKEN HEAVY TOLL

More Than Eighty Deaths Caused By Prostration in United States.

HEAVY STORMS.

Lightning Accompanying Rain Takes Toll of Five Lives.

NEW YORK, July 18 (Canadian Press). — Although storms yesterday brought relief from the heat wave that has blanketed the Eastern States for six days, additional fatalities reported during the past twenty-four hours brought the total deaths directly attributed to the heat to more than 80.

Pennsylvania headed the list with a total of 21 deaths for the period, New Jersey and Greater New York had reported 16 each ,upper New York State 13, Massachusetts 7, Connecticut 5, Rhode Island 4, and New Hampshire 1.

Lightning that accompanied the storms took a toll of five lives, four in New York, and one in Connecticut.

Rain brought somewhat cooler weather in sections of upper New York State, although Albany reported little rain, with no change in the temperature. In Pennsylvania the storms brought some relief from the oppressive humidity. At New Haven the heat was somewhat less oppressive. Lower temperatures were reported from Boston, but there the rain was followed by oppressive humidity.

The maximum temperature in Greater New York was 82 yesterday afternoon, with the humidity at 70.

SECOND TREMOR FELT.

Inhabitants in Jerusalem Rush From Homes When Earth Shakes.

LONDON, July 18 (Canadian Press) —An Exchange Telegraph despatch from Jerusalem states that many inhabitants rushed from their houses when a slight earth tremor was felt early yesterday. It was followed ten minutes later by another lighter tremor. No damage was reported.

GOVERNMENT CONCENTRATES

(Contmued from page 1.)

the Episcopacy and clergy, will withdraw from the brink of the precipice, on which it has been tottering, finding a solution of the present difficulties in the supreme interest of national life and the prosperity of the people.

The latest report to reach the Vatican describes the situation in Austria as much improved; therefore the Pope rejoiced that his fervent prayers have been answered.

Government Watching.

The attitude of the Italian Government has been limited to alert, close watch on Austrian events as it is determined to prevent any attempt to violate existing treaties or injure Italian interests which are considerable. In addition, Italy contributed in the restoration of Austrian finances and participated in the Austrian loan. She has shown since the cessation of the war a constant desire to assist the neighbouring country, economically, politically, and morally, even taking several thousand Austrian children into Italy during the winter months when their own climate is too rigorous and the food insufficient.

The reports that Italy has notified Austria that unless Italian trains were permitted passage through that country they would be sent through with Italian troops to the Austrian frontier was declared to be absolutely unfounded. As a matter of fact the Italian railways have notified the public that until the Austrian situation becomes normal they will be unable to guarantee the conveyance of passengers and freight to Austria beyond the frontier. Passengers and freight for Germany which heretofore have been transported through Austrian territory will now pass through St. Gothard, Switzerland.

Strike Ended

The Austrian legation at Paris issued the following statement to-day.

The general strike at Vienna is ended, street cars are again circulating and work will be restored normally to morrow morning. The government is taking special measures to put an end to the railroaders' strike and that of the postal and telegraph employees, which are still in force.

"The crisis now is in a fair way of solution. The Government, the position of which is unshaken, retains all initiative and no changes or additions have been made to the cabinet. Parliament will be convoked as soon as the strike movement has completely disappeared. There were no new incidents to-day, and absolute calm prevails."

Revolts Collapses.

LONDON, July 18. —(Canadian Press).—A Reuter's Vienna dispatch received by way of Berlin says:

"What brought about the collapse of the revolt was undoubtedly the decision of the government to move loyal troops from the provinces to the capital. Great precautions were taken to insure that these movements were made without arousing the suspicions of the well-armed socialist defence corps. The troops consequently were brought to Vienna by water.

"When the defence corps got wind of this they tried unsuccessfully to stop all Danube traffic. Thereupons remarkable change of view occurred in the ranks of the defence corps whose members universally decided to join forces with those restoring order."

"An important contributory factor in the collapse of the revolutionary movement," continues the dispatch, "was the prevalence of rumours that Hungary and Italy were preparing to take advantage of the confusion and invade Austria. The ardor of the enraged socialists thereupon began to cool, and instead of engaging in further acts of violence, they remained in their homes.

"The ostensible object of the revolt was to expel Seipel's ministry and replace it with a socialist government but all the more moderate elements among the Socialists rallied around the government and helped to restore order when they saw the revolt accompanied by such an orgy of bloodshed and destruction.

"International trains between Italy and Germany, via the Brenner Pass have been running without interruption throughout the disorders and without military protection."

District Markets

Prevailing prices in towns and villages in The Examiner's territory at the end of the week.

At Havelock.

HAVELOCK, July 18.— Following are the week-end retail market prices

OBITUARY

W. H GREEN.

CAMPBELLFORD, July 18 — The funeral of the late William Henry Green took place on Saturday afternoon from St John's United Church, where the funeral service was conducted by the Rev. Ernest Harston, L.L.B.

The late Mr. Green, who was in his 73rd year, was born in Seymour township on the 11th concession, and 42 years ago moved to Campbellford, where he followed the occupation of carpenter.

About a year ago the deceased went to reside with his son Garnet L., at Cobourg, at whose residence he passed away on Thursday. Besides his widow (nee Margaret Ellen Doxsee) he is survived by 2 sons and one daughter: Garnet L., of Cobourg; George, of Toronto, and Mrs. B. W. Kemp, of Ottawa. Silas Green of Havelock, a brother, also survives.

FOR YOU— NEW NERVE LIFE STRENGTH—VIGOR!

Don't Let "Nerves" and Weakness Make You Old Before Your Time But Try the Positive Value of Double Strength Erbac To-day. MONEY BACK IF IT FAILS.

Why not live a life of peace and happiness, with perfect Nerve Health and abundant Nerve Vitality—True Vigor?

Why stay weary, weak and listless, living a life of misery and despair—when a few days' use of Double Strength Erbac must prove to be just what you need or its use will not cost you a penny?

No matter what your age may be or how many treatments you have tried without success, if, from weakness, worry or overwork, you are constantly "fagged out," irritable, unhappy and lack the ambition, vital nerve force and strength you know you need to make your life worth while—you are invited to prove the great value of Double Strength Erbac at once.

Perfectly safe for adults, but not intended for children — Double Strength Erbac—a special formula—can be obtained from Bond or any other good druggist in plain sealed packages containing a 20 day supply, on a positive guarantee of money back if not fully pleased with its use.

BANKING IN ONTARIO

IN the Province of Ontario the Bank of Montreal has a complete organization, with headquarters at Toronto, specially organized to give careful attention and prompt service to banking requirements of the people of this Province.

PETERBOROUGH

YOUR LOGICAL SHOPPING CENTRE

A DAYS Journey for the MARE
An HOUR'S Jaunt by MOTOR

No more getting up before sunrise in order to return before sundown. No more jogging along a bumpy road in a rickety buckboard.

Modern methods of transportation and good roads have developed many advantages for those living in the environs of this community. Not the least of which is the accessibility of this great shopping centre where the best the market affords is submitted by concerns advertising in this issue.

The newest of the season's offerings, great variety to choose from and prices so low that they will compensate for your trip to this market. A comfortable trip, a warm welcome and a chance to aggregate worth-while savings on real quality merchandise.

LET OUR PETERBOROUGH MERCHANTS DEMONSTRATE THE ADVANTAGES OF SHOPPING IN YOUR HOME CITY, BY MOTORING IN DURING THIS

4 - SUBURBAN DAYS' SALE - 4

Wednesday, Thursday (MORNING ONLY), Friday, Saturday, Juy 20-21-22-23

PETERBOROUGH MERCHANTS EXTEND A HEARTY WELCOME TO ALL VISITORS TO THIS CITY DURING SUBURBAN DAYS

With the busy season over for another year, the average persons have a little time to relax and enjoy themselves. Many of us have not paid much attention to our personal requirements because we have been too busy.

Possibly now would be the proper time to take an inventory of ourselves. What do we need in the form of Dry Goods, Clothing, Boots and Shoes, Hardware, Groceries, Chinaware, Jewellery, etc.?

The merchants of Peterborough are attempting to help you solve the problems of economically buying these requirements and have prepared, very extensively, these Four Big Suburban Days in order that you may do your shopping conveniently, speedily and decidedly economically.

Big stocks, high-grade up-to-the-minute merchandise, courteous service and reduced prices are combined in the stores of Peterborough during these Four Suburban Days—a grand demonstration of the advantages offered to Peterborough shoppers.

You are invited to combine business and pleasure by motoring to Peterborough on Suburban Days.

PETERBOROUGH MERCHANTS OFFER GREAT SHOPPING OPPORTUNITIES FOR THESE FOUR GREAT SUBURBAN DAYS

REMEMBER PETERBOROUGH STORES ARE CLOSED ON THURSDAY AFTERNOON, BUT INVITINGLY OPEN FOR VISITORS' INSPECTION FOR ALL OTHER BUSINESS HOURS DURING THE FOUR BIG SUBURBAN DAYS.

MONDAY, JULY 18, 1927.

NOT BRITISH JUSTICE.

A prisoner who had served seven and one-half years of a ten-year sentence in Kingston Penitentiary for manslaughter was re-arrested the other day as he was released from that institution, the charge against him having been laid seven years ago.

This seems to be heaping it up with a vengeance.

To re-arrest a man on a lesser charge just after he has served a long sentence for a more serious offence is getting away from the general conception of British justice.

"Here is a case," says The Toronto Globe, "that seems to have more in it of persecution than of justice," and with that statement the public generally will be inclined to agree.

Had circumstances been reversed and this unlucky prisoner been re-arrested on a serious charge after serving a sentence for a minor offence the procedure would perhaps have been justified, but it is difficult to see any fair play in the case as it has developed.

DOING GOOD WORK.

The Trent Waterway Development Association, the annual meeting of which was held here Friday, is an organization that has done much to attract attention to this section of Ontario, and the officers are to be congratulated upon the results in this respect that they have been able to obtain.

The charms of the system of rivers and lakes that forms the major part of the waterway have been given widespread publicity in various forms, and particularly by the yearly exhibit at the New York Motor Boat Show, where the attractions of the Trent have been brought with good results before a very desirable class of American citizens, many of whom as a result have paid a visit to the district and have gone home delighted.

The Trent Waterway Association should have the support of the municipalities along the waterway, not only in its publicity efforts, but in its campaign for the early completion of the canal.

The voice of the whole Trent district should be heard at Ottawa during the next session.

RURAL POSTMASTERS.

The Post Office Department in its attitude toward rural postmasters seems to be striving to do the fair thing by those officials, and is to be commended for the policy adopted.

The majority of such postmasters are paid on a percentage basis, and when the decreased postal rates were announced there was a good deal of worry for the rural officials, who could not see anything in the reducing of the letter rate from three to two cents but a reduction in income for themselves.

It is just possible that their anxiety may have been unnecessary inasmuch as the increased business that is expected as a result of the postage cut may keep the revenue of the officials at the old figure or even above it.

However, the department has decided to take the earnings of all rural postmasters in the year preceding the reduction in rates as a minimum, and the postmasters will not suffer because of the reduction of rates inasmuch as it has been decided that if their income is less under the lower rates the department will make up the difference, while if their income is more the benefit will go to the postmasters.

THE BUS AGREEMENT.

The progress that is being made toward the closing of an agreement with the Border City Transit Company by which that organization in return for an exclusive franchise for five years will provide Peterborough with a motor bus service is welcome to the many citizens who realize the importance of adequate transportation facilities.

The terms of the agreement call upon the company to reinforce the present fleet of five with two more busses within thirty days, and to add such further busses as may be required thereafter, in the case of a failure of the city and company to agree on this point it being agreed to submit to arbitration the question of whether or not the equipment is adequate.

The Border City Company, since it began operating here, has given as excellent a service as could be expected with only five busses in operation, and there seems little question of its ability to serve Peterborough's transportation needs satisfactorily with the additional vehicles that are to be provided.

Large numbers of citizens are dependent upon some public system of transportation, and they will be glad to know that the situation is being cleared up satisfactorily.

FOOLING ONESELF.

We came across a very wise remark the other day, attributed to Ed Howe, the noted writer. It was this: "Seven out of ten men seem to think the way to get rich is to fool somebody; whereas men of real sense know the best way to get along is not to fool anybody." Now, there is a lot of philosophy in that observation. There are undoubtedly very many people, young and old, who imagine they can achieve success by "fooling somebody;" we do not know whether the proportion would work out at seven out of ten, but it would certainly be high. Those who think in this way, however, are fooling nobody but themselves. An unscrupulous person may reap a temporary advantage by deceiving others; but it will only be temporary. He will most certainly be found out sooner or later, and it will be worse for him than if he had never succeeded at all. Real lasting success comes, as Mr. Howe says, from never fooling anybody, not even ourselves. The truly successful man is the reliable man, the honest and honorable man, the man whose word may be depended upon; whose promise is always fulfilled. Let there be no mistake about that. We do see sometimes the "artful dodger," who scores off his neighbor by misrepresentation and pretense. His schemes are apparently successful, and we ask ourselves whether honesty does really pay. Follow the career of such a person up, however, and there will be no occasion for envy, and no temptation to imitate him. "When I saw their end, I envied them not," says the psalmist of such people.

Questionable methods, shady transactions, faithlessness towards those who trust us, can have only one termination—deserved contempt and frustration. And if by any chance the deceiver is not found out and actually does seem to gain an advantage for himself, more or less permanent, his position is all the more to be deplored. See into the inner heart of such a one, and only feelings of pity will be inspired. There is nothing but disappointment and despair for the person who seeks to get along by underhand means.—Hamilton Spectator.

"MOST FRIENDLY AND HOSPITABLE."

(From The Legionary, Official Publication of the Canadian Legion, B.E.S.L.)

During the course of the convention, The Peterborough Examiner printed in one of its regular editions several pages in which prominent citizens of the city, headed by the Mayor, members of Parliament, the clergy, ex-officers and others offered words of welcome. The Examiner published full reports of all proceedings and assisted materially in creating the impression which the delegates carried away with them, that Peterborough was entitled to rank first as the most friendly and hospitable city in Ontario.

A GREAT EDITOR'S MESSAGE.

In its current issue, Willison's Monthly, the magazine established by the late Sir John Willison, whose recent death removed a leading figure from the ranks of Canadian journalism, publishes the last editorial penned by its distinguished founder. Written in anticipation of the celebration of the Diamond Jubilee of Confederation, it reads now almost as a valedictory message and enshrines the essence of his views on the relationship that should exist between Canada and the great partnership of British nations in which the Dominion is second only to the Mother Country. Sir John held firmly to the belief that the commonwealth of states and dependencies we conveniently call the British Empire, has been and remains a great power making for the good of humanity, and that Canada should hold firmly to her place within its pale. Here is what Sir John wrote in what proved to be his final message to his countrymen:

"Resolved, That the British Empire is 'the greatest secular agency for good that the world has ever seen.'

"The quoted words are those of Lord Rosebery. The conviction they express is that of millions of Canadians. It would be good if in our Jubilee of Confederation ceremonies we could find room for some such resolution. We have had so much talk in recent years of constitutionalism and national rights, so much hair-splitting, and such minutely calculated ayes and noes that a national, enthusiastic expression of Imperial faith would be a distinct relief. And this not as a parade of Imperial loyalty. The country is as tired of anxious Imperialists as it is of restless autonomists. Such a resolution as proposed might do something to silence both. It would certainly give welcome expression to the ideals and traditions that are ours today as they were 60 years ago.

"In these days of unrest in China, uncertainty in Europe, self-satisfaction in the United States, and constant agitation in Russia, the services of the British Empire for good are incalculable. That does not prevent the circularizing of Canadian school children with other doctrines or correct widespread misrepresentation of Great Britain. As before and during the war, much maligned Downing street continues to do the major work of the world a little better than its critics; British Ministers and Cabinets and Parliaments find no rest from problems as gigantic as they are difficult. We, indeed, come of a people slower to bless than to ban, but an exception is in order and a popular appreciation of British connection and of the Mother Country from hamlets, townships, villages, towns and cities, from school boards, municipal councils and legislative bodies, from every area and in every organization across Canada where British men and women congregate to commemorate Confederation would express the public mind as it would impress the world."

Commenting on the article, The Ottawa Journal remarks that the Jubilee of Confederation services did not include such a resolution as Sir John desired. But, if the great editor had loved to witness them, it continues, we think he would have discerned in their spirit and expression much of what he hoped, and expressed and fought for throughout his life. Britons have always shunned publicity and self-advertisement and have been too prone to take it for granted that the services Britain has rendered spoke for themselves. Sir John had the right idea when he urged more appreciation of the part Britain has played in the development of all that is best in modern civilization and democratic government.—St. Thomas Times-Journal.

EDITORIAL NOTES AND COMMENT.

The Canadian Bisley team—shooting stars

Now that the National Rifle Association has declared that Canadian cadets are "members of His Majesty's forces," Agnes MacPhail, M.P., can chortle, "I told you so."

If those swimming stars want to experiment with a really difficult water course, the first two miles below the local sewage disposal plant is recommended.

Col. Lindbergh has been invited to attend the Canadian National Exhibition. The C. N. Directors evidently believe that there is no harm in trying.

If no swimmer in the Canadian National Exhibition marathon finishes the course, it is stated that prizes will not be paid. But shouldn't the contestant covering the greatest distance be rewarded?

An enthusiastic Senator in the U. S. has already framed a measure making it unlawful for the Mississippi to overflow its banks.—St. Catharines Standard.

So many oil wells are being sunk in Alberta that a paper out there suggests the advisability of changing the name of the Province to Oilberta.—Hamilton Herald.

Certain doctors are said to be making fortunes by treating patients for obesity. Yet most physicians would deny that they are living on the fat of the land.—Montreal Star.

If Canada collects duty on the utterly wrecked car of a tourist it will be to her disgrace in the eyes of every U. S. A. tourist and most Canadians.—Owen Sound Sun-Times.

He declared his radio set was of the railroad type—it whistled at every station.—Galt Reporter.

CATTLE, GRAIN AND PRODUCE

Peterboro—Toronto—Montreal

MONTREAL GRAIN AND PRODUCE.

MONTREAL, Que., July 18 (Canadian Press). — The export trade in grain on the Montreal market on Saturday was extremely dull owing to the fact that there were few firm bids received from foreign buyers. The domestic market for corn and oats was steady, with a moderate trade passing.

The flour market was without any new feature to note, business being of a limited character, but values for spring and winter wheat grades were unchanged.

The demand for all lines of millfeed continued fairly good, and the undertone to the market was firm. The market for standard grades of rolled oats was steady, with a small trade passing.

The egg market was moderately active, and values ruled steady. The receipts on Saturday were 1,144 cases.

Prices for all grades of butter were well maintained under a quiet demand. The receipts were 2,760 packages.

The cheese trade was quiet, but prices were unchanged. The receipts were 10,420 boxes.

Grain Quotations

Oats, Canadian Western No. 2, 74½c.
Oats, Canadian Western No. 3, 73c.
Flour, Man. Spring wheat patents, firsts, $8.90.

Eggs, fresh extras, 38c.
Eggs, fresh firsts, 35c.

CHICAGO GRAIN.

CHICAGO, Ills., July 18 (Canadian Press). — Nervousness over revival of fears of probable important damage by black rust brought about a material advance in wheat values on Saturday. Closing quotations on wheat were firm 1⅛c to 1⅜c net higher, with corn unchanged to ⅛c off, oats ⅛c to ¼c to ½c down, and provisions varying from 2c decline to a rise of 10c.

Corn crop advices on Saturday were favourable, but consequent setbacks in price for future deliveries were largely overcome by wheat strength. A stimulating influence, too, was good business in cash corn sales totalling 236,00 bushels, the largest in some time. Oats were governed chiefly by the action of corn.

Provisions displayed a firm undertone, better consumer demand being looked for.

NORWOOD WALK WELL ATTENDED

Orange Lodges of East Peterborough Parade on Twelfth.

CHURCH SERVICES HELD.

NORWOOD, July 16—The 237th anniversary of the Battle of the Boyne was celebrated in Norwood on Tuesday July 12th, 1927, under the auspices of the County of Peterborough Loyal Orange Association.

The weather was ideal and a large crowd was in attendance. The following lodges took part in the parade: Donegal, Havelock L.O.B.A., Havelock No. 36 with a fife and drum band of 25 members, Polmont, Belmont, North Dummer, Warsaw, South Dummer, Blairton, Stanwood, Westwood, Hastings, Hastings L.O.B.A., Hastings Juveniles and Norwood. The line of March was from the lodge rooms on Peterboro street to Colborne, Ridge, Pine, Peterboro, Colborne, Alma, Queen to Bitten's Grove, east of the village.

The service at the Grove was opened with prayer by the Rev. Mr. Rich, of Ottawa, followed by an address of welcome by Reeve Montgomery, past County Master. Addresses were also given by Mrs. McGill and Mrs. Kinnard of Havelock, Dr. Embury, M.P., of Bancroft, Rev. Mr. Hie of Hastings, Rev. Mr. Stillman of Norwood, Rev. Mr. Rich of Ottawa, Rev. Mr. O'Connor-Fenton of Norwood, J. A. Sexsmith, ex-M.P. of Blairton and others.

FINE SERMON GIVEN

APSLEY, July 16.—The local Orange Lodge No. 1072, held its annual church parade on Sunday afternoon to St. George's church, where the sermon was preached by the Rev. C. A. G. Spence. So great was the impression made upon the hearers by what they afterwards unanimously declared to be the best Orange sermon ever delivered to their body in Apsley, that the members of the Lodge offered to pay for its printing in pamphlet form, but as the address was delivered practically extempore, from only meagre notes the offer could not be accepted.

The object of the church parade, the speaker said in his opening remarks, was of course first the worshipping of God as a public testimony of the religious principles upon which the Order was founded, and secondly, that they might receive inspiration and fresh courage and strength to sustain and uphold those principles that were second to none, and of vital importance to the welfare of their country.

This is the task set me this afternoon, he continued, "and I hope and pray that you will leave this church imbued with the spirit of victory, inflamed with the vision of the high ideals that are yours, and ready and willing to sacrifice everything to preserve that standard. Those ideals are portrayed most faithfully in the words of St. Peter, where he says, 'Honour all men, love the brotherhood, fear God, honour the King.'"

Taking each phrase separately the speaker proceeded to show how those sentiments were exemplified in the actions of the Orange Order. He next pointed out that the liberty and freedom now enjoyed though perhaps permanently established after the Battle of the Boyne in 1690, was first won 475 years before when the yoke that was destroying the national life of England was broken by the Barons when they obtained King John's signature to the Magna Charta in 1215.

Referring to present conditions of disbelief and infidelity, which are rapidly increasing, the speaker warned his hearers in the words of Colonel Garnier that the death of the Bible meant the death of Protestantism, which is based on belief in the Bible, and the greatest work of the Orange Order was to defend the Bible. It was theirs to preserve the heritage handed them by their fathers and to pass it on to their children unsullied.

The speaker urged that the children be encouraged to attend Sunday school, and vehemently protested against the desecration of the Sabbath day as was openly done in Apsley and elsewhere, and concluded with reading the wonderfully inspiring words God used to Joshua. Joshua 1, v. 5 to 9.

PARADE AT LAKEFIELD

LAKEFIELD, July 16.—The annual church parade of Beresford Lodge No. 122, L.O.L. was held on Sunday evening last to the Baptist church where Rev. William Spencer preached a thoughtful sermon appropriate to the occasion, and the choir rendered special music. Following the services the procession, headed by Mr. B. Everett, bearing the flag and followed by the Citizen's Band, the Juvenile Lodge, and the members of Beresford Lodge about seventy strong, marched up Regent street to Queen street and down Queen to Bridge, turning south on Caroline street to the lodge room.

The procession was impressive and was viewed by a large crowd of people who thronged the streets.

The Lakefield Juvenile Lodge was recently organized by Mr. John Blakeley and made their first public appearance on Sunday evening when about twenty boys in natty white suits and caps with blue sashes, marched like veterans in the wake of the band. The members of Beresford Lodge were in full regalia.

The officers of the Juvenile Lodge are as follows: Worshipful Master, Gordon Kidd; Deputy Master, Thomas Chappell; Chaplain, Carson Webster; Secretary, Aubrey Blakeley; Financial Secretary, Gerald Kennedy; Director of Ceremonies, Harry McNaughton; First Lecturer, Harold Trudie; Second Lecturer, Roy Crapp; Guardian, B. Everett Tyler; R. Bullock, Treasurer, J. Blakeley.

Members—Harold Mullin, Gordon Muller, Sam Bickell, Elwood Bickell, Laurance Charlton, Gordon McNaughton, George Stenner, Harry Wingett, Hector Edwards, Kenneth Ried, George Chappell, Harding Stuart.

Organizer—J. Blakeley. Assistants—Roy Bullock, S. Hunter, L. Harrison, William Allen.

TO FLY WESTWARD.

Maurice Drouhin, the French aviator who has abandoned his plan to fly the Farman tri-motored plane to America and instead will pilot the Bellanca plane with Charles Levine from Paris to New York. He replaces Clarence Chamberlin, pilot in the Gotham-to-Germany dash.

TRENT RIVER NEWS.

TRENT RIVER, July 18.—Miss Pansy Longmuir has returned from spending two weeks with her sister, Mrs. Clark, Detroit.

Mrs. Roy Longmuir is visiting Mrs. Clark in Detroit.

Miss Ruth Longmuir is spending a week with friends in Peterborough.

Dr. and Mrs. O. C. Watson, Campbellford are at their cottage.

Miss Ethyl Rose, Toronto, is spending her holidays at "Ye Olde Mill."

Miss Jessie Mitchell, R.N., is expected this week to spend her holidays with her mother at "Raeden."

Mr. and Mrs. Riendeau and daughters, Campbellford, are at their summer home.

Mrs. Thomas Lloyd and Miss Dorothy arrived on Tuesday from Toronto to "Isle of View."

Recent guests at "Cedar Isle" were Mr. and Mrs. Rae Watson and Betty, Mr. and Mrs. Charles Watson, Sr., of Shaker Heights, Ohio.

Miss Ilene Taylor, Toronto, is spending her vacation at "Idlewood."

Mrs. Clifford Howse and friend of Toronto are at the parental home.

Mr. Harold Burgess held a bridge party Wednesday afternoon at "Coral Gables Casino". Four tables were played. Mrs. Thomas Lloyd won first prize, and Mrs. Jack Christie secured the consolation prize.

Mr. and Mrs. Spence and Miss Margaret, Toronto, were recent guests with Mr. and Mrs. E. H. Fairbrother.

A gang of men is engaged by the Seymour council in drawing crushed stone for the Norwood Road as far as Mr. Ed. Wildman's home.

Mr. John Scott has returned from Havelock hospital where he has been confined to bed through illness from an operation, but is making good recovery.

MARMORA NEWS.

MARMORA, July 18.—Mr. E. Hope of Niagara Falls has been visiting relatives and friends in this vicinity.

Mr. and Mrs. E. Duquet of Botavia, N.Y. visited at the home of Mr. and Mrs. Floyd Gray recently.

Miss Grace Milliken is visiting her mother, Mrs. A. Milliken.

The family of Mr. Arthur Hart are visiting relatives in Shannonville.

Miss Mildred Bedore is home from Montreal on a vacation.

Mr. Harry Phillips has been confined to his home for the past few weeks through illness.

Mr. F. McCroden of Belleville is on a visit to his brother, Mr. J. McCrodan.

Mr. and Mrs. Tom Butler and family of Toronto are visiting relatives in town.

Mr. and Mrs. Charles Hayes of Oshawa visited relatives in town over last week end.

Mrs. C. H. Shelton and children of Toronto are visiting the former's parents, Mr. and Mrs. John Sullivan.

Mr. and Mrs. Michael Demas and daughter, Angeline, of Nottingham, Sask., are visiting relatives here.

WOMEN PASTORS.

LONDON, July 18.—Women want to enter the ministry and they should be given every opportunity in the field, according to Rev. Edgar Jos lyn. At the recent conference of women ministers of the only churches that admit them to pastorates—Baptist, Congregational and Unitarian—he said "men ministers have nearly let the copyright of Christianity run out" because they were so "keen on routine."

"I Now Enjoy a Good Meal"

What stronger statement can anyone make who has suffered from Indigestion

Renzyme, the new scientific treatment for indigestion is making many friends in this community. It is so absolutely different from anything else and so prompt in affording relief that it makes its way by sheer force of merit.

This new treatment is after the nature of insulin, since it supplies to the stomach the active principle which brings about the digestion of the food, just as insulin carries on the work of the pancreas.

Again it is like insulin because it is taken from the digestive organ—the stomach—of animals and after suitable preparation administered to the human stomach.

Digestion is brought about in the stomach by means of digestive juices, which attack the food in the stomach and break it down into ingredients which can be absorbed by the blood.

For one reason or another, these digestive fluids become dried up and you suffer from indigestion. The active principles of the digestive fluids are known as enzymes. By introducing new enzymes to the digestive fluids of the stomach, you positively remove the cause of indigestion.

This is exactly what this new discovery, which is known as Renzyme, does. It supplies enzymes to the digestive fluids and therefore immediately restores their effectiveness in digesting food in the stomach.

Someone has said that the soul of man is in the pit of his stomach. One thing certain, one cannot accomplish much or enjoy life while suffering from indigestion.

For centuries scientists have sought relief from stomach troubles. All sorts of drug combinations have been tried without affording more than temporary relief.

Now the problem has been solved by the discovery of Renzyme. It is only after years of work in the laboratory and almost endless experiments that this product has been perfected in a form that will keep indefinitely when bottled.

The merit and effectiveness of Renzyme has been thoroughly established in hundreds of cases and medical doctors who have watched its action in chronic indigestion are most enthusiastic in its praise.

It is nature's relief for indigestion. It is immediately effective and cannot fail because it transfers from one stomach to another the active principle which brings about digestion of the food.

RENZYME

$1.50 a bottle, at all druggists or the Renzyme Laboratories, Toronto 2, Canada.

WOMEN'S PAGE

SOCIETY

Mr. and Mrs. W. R. Patch and son are visiting at their old home in Sherbrooke, Quebec.

Mr. Harold ("Red") Franks, of Detroit, Michigan, is visiting his parents, Mr. and Mrs. T. H. Franks, Homewood avenue.

Mrs. Charles Lynch, of Hastings, was a visitor to the city on Saturday.

Visitors to the city on Saturday, renewing acquaintance with several friends, including Mrs. F. A. Hodgson, were owners and guests on the yacht "Ontario," at present making a tour of the Trent Waterways. They were Captain James Bassett and Mr. Winton of Toronto, Captain George Playter, Messrs. Alex Qua, Norman Rule and Wm. Swain, of Collingwood, and Mr. Lemon, of Owen Sound.

Dr. Fred Marshall is in Montreal to-day, arranging for office accommodations prior to his settlement there in the fall to practice his profession.

Mr. Norman Elliott, of 595 Chamberlain street, has returned home after a motor trip to Gorham, N.H.

Mr. J. E. Patte has returned home after attending the annual meeting of the Canadian Silver Fox Breeders' Association, held at Charlottetown, P.E.I. Mr. Patte is a director of this association.

Mrs. B. Morrison, Sophia street, with her sister, Mrs. L. Sager, and nephew, Roy Sager, are spending a fortnight's holiday at Juniper Island.

Mr. and Mrs. Frank Sargison and family, of Flint, Michigan, returned to their home on Friday, after visiting relatives and friends in the city.

Master George Henderson, of Otonabee, is visiting friends in Peterborough.

Mr. Frank Adams, city treasurer, is celebrating a birthday anniversary to-day.

Mrs. A. E. Coulthard has charge of the Children's Camp at Jackson Park this week.

Mrs. J. L. Rowland and daughters, Kathyrn and Helen, have returned home after spending the week end with relatives in Port Hope.

Miss Marion Rae has returned home after visiting friends in Gorham, N.H.

Mr. and Mrs. H. Frost of Belleville, were week end visitors to the city.

The teaching staff of May's school are receiving congratulations on the success of the school in the recent Entrance examinations, when the fourteen pupils who tried the tests passed successfully, four with first-class honors from the Junior Fourth grade, which had seven successful entrants.

Mr. and Mrs. E. Carveth, of Toronto, spent Sunday with Miss M. Horsfield at 220 London street.

Mr. and Mrs. O. E. Ecke l and daughter Mabel, of Belleville, were week end visitors in the city.

Mr. and Mrs. Blunt and son Cyril, of Toronto, formerly of Peterborough, are guests of the former's daughter, Mrs. E. Hanson, 77 McGill street.

Mr. and Mrs. F. B. Houne, of Toronto, are visiting Mrs. Houne's sister, Mrs. T. S. Sargison, Meldrum Apartments, Water street.

Mr. T. E. Chapman, of the A. E. Micks' store staff, celebrated a birthday yesterday.

Mr. and Mrs. J. D. Fletcher are spending two weeks in Brockville, where Mr. Fletcher is managing the Paramount Theatre during that time.

Mr. C. D. Heath, of Norristown, Pa., is spending a fortnight's vacation with relatives in the city.

Miss Greta LeBarr was guest soloist yesterday at the Park Road Baptist Church in Toronto. A week ago Miss LeBarr sang at Rosedale Presbyterian Church.

Mrs. T. A. J. Hay has opened her summer home at Chemong Park.

Dr. T. H. Prust and Mrs. Prust, of Edmonton, Alberta, are guests of Mrs. Prust's sister, Miss Laura Belleghem, at 190 Hunter street.

Mr. and Mrs. T. H. Gillespie have returned from Hamilton, where they attended the funeral of the latter's father, Mr. T. Weeks.

Miss Mary Rose of San Francisco, California, is the guest of her brother, Mr. James Rose, and Mrs. Rose, at Jackson Park.

Mr. Harry Ranger of Norristown, Pa., is visiting relatives in the city.

Fire Chief and Mrs. Gimblett returned by motor from Hamilton last night.

The Misses Peggy Morin, Mary Sheehy, Theresa McEvaney, Vincent McEvaney and Joseph Morin, of Toronto, were week-end guests of the Misses Hiland, at Chemong Park.

Mr. Orville Jinks of the staff of the Peterborough Lock Company, left this morning for Rochester, en route to spend his vacation in the United States.

Rev. Dr. R. C. Blagrave is in Guelph this week, attending the annual communication of the Grand Lodge A. F. and A. M.

Miss Dorothy O'Connell of Toronto is the guest of Miss Marcelle McNulty at Chemong Park.

Mr. and Mrs. Gray Copping have opened their summer cottage at Stoney Lake.

Mrs. W. S. Sargison of Toronto is spending a few weeks at the home of her daughter, Mrs. T. J. Sarginson, Water Street.

Messrs. Al. Graham, Gash, Maitland Wells and Bill Cripps spent the week-end in the north country, where Mr. Cripps luckily escaped with a few scratches when attacked by a black bear.

Miss Marguerite Walsh has returned home after spending a few days with friends in Toronto.

Miss Myrtle Rose of Harvey Street is spending her holidays with relatives in Rochester, N.Y.

Mr. John Detweiler and party, of Locust Lodge, Bobcaygeon, are in the city to-day on business. Mr. Detweiler has been summering at Bobcaygeon for the past forty-one years, coming here from Florida.

Mr. and Mrs. J. E. B. Paquette, Crescent Street, have opened their summer home at Stoney Lake. Mrs. L. J. Fanning and small daughters, Rosina and Pauline, of Detroit, are visiting Mrs. Fanning's mother, Mrs. J. E. B. Paquette, at Loveside Lake.

Miss Greta Grisdale, Dufferin Street, has returned home after spending two weeks with Mrs. C. Walker in Detroit.

Mr. H. E. Merchant, of Bobcaygeon, is in the city to-day on business.

Members of the Privy Council, Senators and members of Parliament have been invited to attend a dinner to be given at the House of Commons on Tuesday, August 2nd, when His Royal Highness the Prince of Wales, His Royal Highness Prince George, and the Rt. Hon. Stanley Baldwin, P.C., M.P., Prime Minister of Great Britain, will be guests of honor. The invitations are issued by Rt. Hon. Mackenzie King, Prime Minister, "on behalf of the Government of Canada," and particulars, issued by E. J. Lemaire, Clerk of the Privy Council, are as follows: "The guests, who are requested to arrived at half-past seven o'clock, will enter the Houses of Parliament through the western (House of Commons) door, coak-rooms being provided in the lounge hall adjoining the Commons chamber. Precisely at seven-forty-five, the guests will be presented to the Right Honorable Stanley Baldwin, P.C., M.P., Prime Minister of Great Britain, in the Chamber of the House of Commons. At eight o'clock, they will proceed to the Speaker's apartments to be presented to Their Royal Highness, each guest, after presentation, going directly to the Railway Committee Room and taking the place assigned to him at table. When all the guests are seated, the Royal party will proceed to the banqueting room."

Messrs. T. Mark and F. L. Driscoll arrived back in the city to-day from attending The Hundred Thousand Club of the Manufacturers Life Insurance Company at Murray Bay, Quebec. They travelled by boat via Toronto, Kingston, the Thousand Islands, Montreal, Quebec and thence to Murray Bay. Both are very enthusiastic about their outing.

Evening Examiner Fashion

A Smartly Simple Frock

This one-piece frock is an extremely smart and easily-fashioned style. There are tucks at each shoulder, a convertible collar, long dart-fitted sleeves, or short sleeves with cuffs, a belt, and a front band adorned with buttons. NO. 1620 is in sizes 16, 18 and 20 years. Size 18 (36 bust) requires 3¼ yards 39-inch, or 2¾ yards 54-inch material; ¼ yard less 39-inch material for short sleeves; 1¾ yards additional 39-inch contrasting is required for View B. Price 20 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

SAINT and SINNER

By ANNE AUSTIN

(Continued from Saturday).

Jim Lane was having supper with the Jim Lane Juniors, so that Faith and Bob were dining alone, seated very close to each other, grateful for even a few minutes of honeymoon-like privacy, when Cherry returned from her trip to the city to consult Stephen Churchill about her divorce.

"Hello, darlings!" she sang out joyously from the living room as soon as she had let herself into the house. "Bet you wish I'd stayed away until you'd finished dinner. But I've got news—big news. Bob, get ready to give the little girl a big hand! I've gone and done it!"

"Done what Cherry?" Faith rose automatically, a hand upon her heart, her face, which had been rose-tinted ivory a moment before, going very white. "Made up with Chris?"

"Don't make me laugh!" Cherry retorted mockingly. "And don't look like a tragedy queen. You're no Jane Cowl, darling, even if you do look like her. All I've done is to get a job! I'll pay for my own divorce!"

"A job?" Faith echoed blankly, then relief and hope leaped in her eyes.

"A job?" Bob laid down his fork and began to clap his hands together, noiselessly, in a mock gesture of applause. "Is that what I'm supposed to give the little girl a big hand for? It will be more fun working and leaving Faith to care for the baby all day as well as all night, than staying at home where you haven't anyone to flirt with. A noble scheme, I must say!" His voice was bitter and there was an ugly twist to his boyish mouth which caused Faith's heart to leap with fear.

Cherry's cheeks flushed as red as if they had been soundly slapped. "I think you're mean, Bob Hathaway!" she cried shrilly. "Don't you think I've got some pride? You didn't suppose I didn't know what you were thinking of me, did you? You sicked Faith on to me to nag me about spending a few paltry dollars of yours and Dad's—"

"And Junior's," Bob interrupted sternly, his narrowed eyes watching her grimly. "Don't forget the ten a week you jimmied out of your brother's pockets—"

"Bob!" Faith protested in a strangled voice.

"Well, what if I did?" Cherry demanded, blazing. "I couldn't live without money, could I? But don't worry about me any more, Mr. Hathaway! I told you I've got a job and I'll look after myself from now on. I'm sick of taking charity—"

"How much salary are you going to make?" Bob interrupted her sarcastically.

"Mr. Churchill is going to pay me thirty dollars a week," Cherry informed him, her little pointed chin uplifted haughtily.

"Churchill?" Bob echoed, amazement succeeding his anger. "Now listen to me, Cherry, you're not going to work for Churchill! Not after all the messes you've been in! What little reputation you've got left in this town would be shattered the minute the news got out that you were working for Churchill. You know he's a woman-chaser, that his wife is just looking for a good excuse to divorce him."

"I'm going to work for somebody!" Cherry shrilled, on the verge of angry tears. "I'm sick and tired of staying at home and having to beg for money—"

"Then you can be my secretary," Bob threw his bombshell sullenly, his eyes dropping to his plate. "Miss Bennet is leaving Saturday to get married."

HOROSCOPE

The Stars Incline, but do not Compel.

Tuesday, July 19, 1927.

(Copyright, McClure Newspaper Syndicate.)

After many threatening days this is one of great promise, according to the reading of the stars. Astrologers advise the pushing forward of all important matters.

There is a benefic aspect that is believed to give assurance to all who carry heavy responsibilities, making them clear of vision and able to make quick decisions.

This should be an auspicious rule for all who seek political favor or financial support.

Bankers and all who make big investments are subject to the best direction of the stars while this configuration prevails, the seers declare.

Whatever pertains to agriculture should benefit from certain world conditions in which financiers necessarily must play an important part.

Farmers and all who deal in foodstuffs will profit greatly, while consumers will find fault, it is forecast.

Legislators as well as federal officials may suffer loss of popularity under this sway of the stars.

The rule appears to foreshadow for merchants and manufacturers great gains, but there will be victims to the quickly made fortunes.

New leaders certainly will be recognized before many months have passed, it is foretold, for there will be great opportunities to prove personal power.

The stars that encourage dictators abroad will have an influence that places power within the reach of certain men and women, too, in America, the seers announce.

Increased armies and serious strife again appear to be foreshadowed for Great Britain.

Persons whose birthdate it is may find this year a turning point that leads upward.

Children born on this day probably will have qualities that win respect and confidence. Many boys born under this sign become prominent in politics.

HINTS ON ETIQUETTE.

1. If illness or death occur, how many invitations to a party be recalled?

2. Does a bride who backs out of her wedding the last minute return the presents sent her?

3. How does she explain things?

The Answers.

1. By phone for informal affairs. For formal functions a card is hurriedly printed and mailed which states the facts.

2. Yes.

3. Usually such news is broadcast by the press. However, a bride can merely state that the wedding was called off.

DRESS

By MARY MARSHALL

Two yellow flowers with a rose one between are used to ornament the shoulder strap at the back in the sketch above. An arrangement of two pink roses at the center fastening of a beige lace frock is shown in the center and below the new buttonhole for the tailored jacket. The jacket is of navy blue and the gardenias are of pique—two of white with a light blue one between.

Tit-tat-toe, three in a row, seems to be the game most popular with the purveyors of artificial flowers at present, and not only is this rather formal arrangement liked for the buttonniere of the tailored suit or frock but for the afternoon or evening frock as well. For the summer evening frock an attractive device is to arrange three medium-sized roses one above the other on the left shoulder strap. They may be all of the same color, in three shading hues, or two of one sort at top and bottom with one of another color in between.

There are large two-colored flowers that are said to be extremely popular in Paris at present. Of course, flowers of this sort never were seen in garden or greenhouse but the flower makers do not insist on too much realism. White pique gardenias with black patent leather leaves are still favored for the summer tailor-made costume. Rag flowers, so called, made from the frayed strips of the material of the frock are still with us, but the careful woman avoids wearing these ornaments when they show the least sign of wear or mussiness. And frocks that were originally ornamented with fabric flowers now appear sans the original decoration with an attractive new silk or chiffon nosegay to take its place.

The darker the shade of the stocking the thinner the mesh—and the only time that any well-dressed women seem willing to wear the darker shades of stockings is when they are of cobwebby fineness to show flesh tints beneath. There are very thin gunmetal stockings, brown stockings of a deep bois de rose tone, and even black stockings—but all of the thinnest silk.

For summer sports wear some women are choosing a somewhat heavier silk stocking or a new sort of stocking made from lisle thread and silk. But lest the effect of these somewhat substantial stockings should be one of density, they are best chosen in the light shades only.

(Copyright, McClure Newspaper Syndicate.)

Safer Summer Hygiene

While Wearing

Filmy, Thin Frocks

By ELLEN J. BUCKLAND
Registered Nurse

INSTEAD of risking old-time "sanitary pads," 8 in 10 better-class women employ a NEW way called "Kotex." Filled with *Cellucotton* wadding, the world's super-absorbent, *it is 5 times more absorbent.*

Kotex also deodorizes. It discards easily as tissue—no laundry. Thus, in three important ways, it solves a serious summer problem for women.

More than a mere sanitary pad, Kotex offers safe and certain scientific protection.

Obtain Kotex. For peace-of-mind's sake, accept no other. See that box is marked "Kotex." If it isn't, it is not genuine Kotex.

KOTEX
No laundry—discard like tissue

Uncle Wiggily

To-day's Bedtime Story

By Howard R. Garis

UNCLE WIGGILY AND JINGLE'S JUMPER

(Copyright, 1927, McClure Syndicate.)

"Now it's my turn, Daddicums!" exclaimed Jingle, the little rabbit girl, as Uncle Wiggily hopped out of his bungalow one Friday morning. "It's my turn and I hope you don't mind!"

"Oh, please don't! I can't stand any more! Really I can't!" and the rabbit gentleman held his paws close to his sides and started to run. At the same time he was laughing so hard the tears were rolling down his cheeks. "Please don't!" begged Mr. Longears of his little bunny girl Jingle.

"Don't what?" asked Jingle in surprise.

"Don't take your turn! Don't tickle me!" pleaded Uncle Wiggily. "I've had all I can stand this morning! First Nurse Jane tickled me and then Baby Bunty and now, as soon as I come out you say it is your turn and—Oh, dear! Whoop!" and Mr. Longears laughed again.

"Why, Daddicums!" exclaimed Jingle, "I wasn't going to tickle you at all."

"No? What were you going to do then, when you said it was your turn?" Mr. Longears wanted to know.

"I meant it was my turn to have you fix some of my toys," went on Jingle. "You mended Scooter's roller skates yesterday and now it's my turn. Only I hope no fox comes to bother you while you're doing it, Daddicums dear."

"The fox isn't likely to come, he's in jail for a while," said Uncle Wiggily. "But what do you want me to do for you?"

"Fix my jumper, if you please," and Jingle held out a piece of wild grape vine, very much frayed, frazzled and worn in the middle.

"Oh, it's your jumping rope, isn't it?" asked Uncle Wiggily.

"Yes, if you please," answered Jingle. "It got all worn out while you were away visiting Boppy, Um and the Wogglejigs in their bungleump, and I didn't have time to go to the woods and get me a new vine rope."

"I'll do it for you," kindly offered Uncle Wiggily. "You skip along to school, my dear, and let the Lady Mouse teacher hear how nicely you can say your lessons. When you come home I'll have a new jumper for you, Jingle."

So Jingle skipped along to school where she said her lessons very well. She came running home, all excited and out of breath and as soon as she saw Nurse Jane Fuzzy Wuzzy in the kitchen Jingle cried:

"Did Daddicums make me a new jumper?"

"A new jumper? What in the world are you talking about" squeaked the muskrat lady housekeeper. "I haven't seen Uncle Wiggily since morning, when he hopped off to have an adventure I suppose."

"He hopped to the woods to get me a new wild grape wine jumping rope," spoke Jingle. "And—oh, dear! If he hasn't come home it must be that something has happened to him! Perhaps some of the bad chaps have caught him."

"Caught who?" asked Mrs. Longears; who came down stairs after making forty leven beds for the little bunny children. "Who's caught?"

"I'm afraid Daddicums is," whispered Jingle. "He went to get me a new jumper and here it is afternoon and he isn't home yet and—"

"Something has happened!" cried Mrs. Longears. "Oh, your poor father! I knew the Fox or Wolf would get him some day!"

"The Fox is in jail since yesterday," said Jingle. "But it may be the Bob Cat or the Bear. Oh, what shall we do?"

"Call Mr. Twistytail, the pig! Get Uncle Butter the goat!" screamed Mrs. Longears. "They'll go to the woods and search for Wiggy."

"Call the Police Dog too!" advised Nurse Jane.

Soon a large searching party was on the way to the woods to look for Uncle Wiggily. Every one thought surely the bad chaps had caught him while he was cutting a new grapevine rope for Jingle's jumper.

"But I'll make the bad chaps let him go!" barked the Police Dog.

All of a sudden in the middle of the woods Uncle Wiggily's voice was heard singing: "Swing high! Swing low! Up and up and up I go!"

"That doesn't sound like trouble!" grunted Mr. Twistytail. And a moment later they saw the rabbit sitting in the hanging loop of a wild grapevine swinging to his heart's content.

"Oh, hello, everybody!" cried Uncle Wiggily when he saw the rescue party. "Where's the fire?"

"Fire," cried his wife! "We came to save you from the bad chaps!"

"Ha! Ha!" laughed Mr. Longears. "There aren't any bad chaps. I didn't know it was so late. After I cut Jingle's jumper I saw this vine swing so I thought I'd enjoy myself for a time. I don't get much chance to swing."

"Well, the next time I wish you'd send word when you turn childish," said his wife with a smile. "But I'll forgive you."

So everything was all right and Jingle got a new jumper.

HUSBANDS LEAVE HOME

Woman Court Official Lists Reasons, Doesn't Think Much of Any of 'Em.

BY ROY J. GIBBONS.

CHICAGO, July 15.—If you want to know why husbands occasionally walk out on their lawfully wedded wives and break the connubial bonds without the assistance of a divorce court, listen to Miss Irene Inderrieden, who has been studying this interesting subject for twelve years.

Miss Inderrieden is director of the city's Social Service Bureau, a branch of the Court of Domestic Relations. This bureau handles on an average some 50,000 cases yearly—cases where husbands have fled and must be coaxed or forced into resuming the marital bonds. So she knows her subject.

Lists Twelve Reasons

There are, she says, approximately twelve reasons for wife-desertion. She doesn't think much of any of them, and says:

"To date, no husband has given me a first-class excuse, forthright and capable of standing on its hind legs and looking the world square in the eye."

She adds, however, that in a good 50 per cent of the cases friend wife is pretty much to blame when the husband departs.

She has prepared a little table, setting forth her conclusions as to wife desertion. She has it all worked out on a percentage basis, and it reads as follows:

Another woman—41 per cent.
Financial troubles 12 per cent.
"Tired of her"—6 per cent.
Too many children—8 per cent.
Bad cooking—2 per cent.
Nagging—8 per cent.
Wife's untidiness—½ of 1 per cent.
Disillusionment—3 per cent.
Extravagance—4 per cent.
Wife's infidelity—10 per cent.
Too much "in law"—7 per cent.
Wife's unworthiness—¼ of 1 per cent.

She has found out other little things about wandering husbands, too.

More husbands leave home in the summer than at any other time, she says.

Furthermore, a husband is more apt to desert on a holiday, when he is at home and pressed by annoying little home problems, than he is on any other day when work keeps him away from the house.

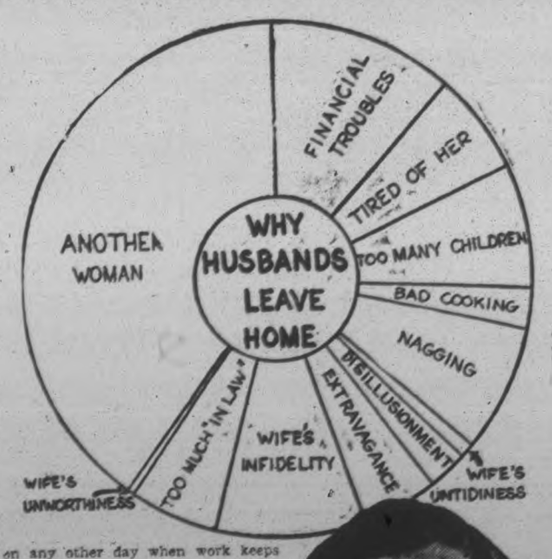
Wives with temperamental husbands would do well to keep an eye on them when early spring comes. That is a very bad season for husbands. Spring makes them touchy; nerves that have been put on edge by a long winter spent in close contact with the family are apt to lead to thoughts of escape. Unless the husband is thoroughly domesticated, he is likely to get the wanderlust in the springtime.

Yet, for all her close acquaintance with marital debacles, Miss Inderrieden is thoroughly in favor of marriage as an institution. She recommends it heartily to anyone "with nerve and common sense enough to try it." She does not say which of these qualities is most desirable.

Calls for Tact

"Marriage is and always will be a going concern," she says. "It will always pay big dividends to those who are willing to enter it with the ideals of fair play and the determination to make a go of it.

"Marriage takes plenty of diplomacy, a good deal of charity and considerable tact if it is to succeed. If more married people would be a bit more willing to turn the other cheek instead of demanding an eye for an eye in their disagreements, things would be a lot more pleasant—"And fewer husbands would leave home."



Miss Irene Inderrieden and the chart that she has drawn up to explain the vexing question, "Why do husbands leave home?"

ON WAY TO WED DING IN ENGLAND.

Miss Constance Davies, of Toronto, and her mother, Mrs. M. L. Davies, caught by the photographer just before sailing on S. S. Montcalm. Miss Davies is on h r way to England to marry Mr. Rudolph Muspratt, only son of Sir Max Muspratt, British chemical and industrial magnate. Until the middle of September when the marriage will take place, Mrs. Davies and Miss Davies will be guests at "The Grange," Fulwood Park, Liverpool, home of Sir Max Muspratt.—(C.P.O.S. Photo).

Keeping Bathtubs Clean

is a matter of no difficulty whatever when you use Gillex. Sprinkle a very small quantity of Gillex on a wet cloth and rub over the tub. Dirt and grease just roll off. Then rinse. That's all! No grit to scratch. No odor to annoy. No sediment to clog pipes. Cleaning bathtubs, sinks and toilet bowls with Gillex is the easiest thing in the world and it also helps to keep the waste pipes clear of scummy accumulations.

Removes Dirt Without Rubbing

GILLEX FOR ALL CLEANING

Softens Water. Odorless Gritless

MADE BY E. W. GILLETT CO. LTD.—MAKERS OF MAGIC BAKING POWDER

THE HALL STORE

TRENT RIVER NEWS.

TRENT RIVER, July 18.—Myron Orton and the Four Ortons, vaudeville performers, playing the Keith-Albee Circuit from New York City, have been enjoying camp life here. One of the party caught a 17 pound lunge, the first fish ever caught by any of the party in the Trent waters. The fish was taken to Peterborough to be mounted and presented to the National Vaudeville Artists' Club in New York city. This will be a big boost for the Trent. The Four Ortons are re-engaged with the Ned Weyburn variety show which will open its new season in the Temple Theatre, Detroit, week of August 28, for a tour over the Orpheum circuit to California and return.

MAKE IT A "SAVE A DAY" JOURNEY AND SEE IT ALL BESIDES.

Number Nine, the Trans-Canada, leaves Union Station, Toronto, every night at eleven. It is the longest distance, all-sleeping car train in the world, and it saves a day each way between Toronto and Vancouver.

On shorter trips, such as Toronto-Winnipeg, Winnipeg-Calgary, and Calgary - Vancouver, its schedule means only one business day on the road. While it is Canada's most distinctive and luxurious train, there is no extra fare. It goes through the world famous resorts, Banff and Lake Louise, by day—is Canadian Pacific super-standard all the way. Any Canadian Pacific Agent can make reservations for you. 12,13

WEDDING BELLS.

CAIRNS—GREER.

CAMPBELLFORD, July 13. — A very pretty wedding was solemnized on Saturday afternoon at the home of the bride's sister, Mrs. H. Bakes, Kent Street, when Reta, daughter of Johnston H. Greer and the late Mrs. Greer, of Peterorough was united in marriage to Kenneth Cairns, son of Mrs Cairns and the late James Cairns of Campbellford. The ceremony was conducted by Rev. Ernest Hacston, L. L. B., amid ferns and palms and a profusion of flowers. The bride, who entered on the arm of her father to the strains of the bridal chorus played by Miss Margaret McClennan, of Toronto, was dressed in beaded peach georgette with hat to match and carried a shower bouquet of Ophelia roses and lily of the valley. The witnesses were Miss Alma Greer of Oshawa, and Mr. Orvil Martin of Peterborough. A dainty buffet luncheon was served to the guests, numbering among them many from Peterboro and Toronto, as well as others from Manitoba and the U. S. A. Mr. and Mrs. Cairns left by motor for Hastings to take the Kawartha Lakes trip. On their return, they will take up residence in Campbellford. The bride's travelling costume was a smart suit of sand crepe with a casa coat and felt hat and shoes to match.

EXPLOSION CUT CITY AQUEDUCT

Los Angeles' Main Water Supply Shut Off as Result.

ELEVEN IN TWO YEARS.

LOS ANGELES, July 16.—(Canadian Press.)—Two dynamite explosions in close succession late last night and early to-day wrecked a section of the Los Angeles aqueduct and caused the shutting off of the flow which gives the city its main water supply.

The latest explosions increase to eleven the number which has been reported in the last two years.

CORNS

Ends pain at once

No waiting—one minute after you apply Dr. Scholl's Zino-pads the pain is gone. After the corn is healed it never comes back. If new shoes irritate the spot again, a Zino-pad fixes it overnight. Old methods of paring corns, or using caustic acids, are dangerous.

Dr Scholl's Zino-pads are safe, antiseptic, protective, healing. They stop the cause of corns—rubbing and pressing of shoes. At all druggist's and shoe dealer's. Cost but a trifle.

Dr Scholl's Zino-pads

Put one on—the pain is gone!

STARTING 800 MILE FLIGH T.

Lake Constance, Germany.—Captain F. T. Courtney at the controls of his "Flying Whale," starting out from Lake Constance with Mrs. Courtney for the flight of 800 miles across the continent to England, where he plans to take off for New York in his Dornier seaplane, and return to London by the same route.

MAYORS EXCHANGE GREETINGS

Mayor R. H. Webb, of Winnipeg, received from Mayor Foster, of Toronto, the felicitations of the Ontario city upon the inauguration of the new across Canada train "The Confederation." Mayor Webb (right) is seen here receiving the congratulatory message from the hand of William Wallis, Toronto newspaper editor, upon the arrival of the train at Winnipeg on its initial trip. The City of Winnipeg, in turn, forwarded by the new train, its felicitations to Regina, Brandon, Vancouver and other cities on the route. Mayor Foster in his greeting to the City of Winnipeg said: "The inauguration of this very fine additional service by the Canadian National Railways is evidence of increased growth of trade and travel between Toronto and the Pacific Coast, which I sincerely trust will continue, to the mutual advantage of both our cities."

WHEN CANADA REACHED DOWN TO LOUISIANA

Those who have studied botany may have noticed certain plants described as "Canadensis" or "Canadense" which are not found in Canada at all. This is explained by the fact that when botanical terminology was fixed, Canada included practically all the territory east of the Mississippi down as far as Louisiana. Both before and since Confederation the territorial boundaries of Canada have experienced remarkable changes, and there is no more fascinating phase of the evolution of Canada from a colony into the present vast self-governing Dominion than the history of that invisible border-line within which is enclosed the territorial heritage of the Canadian people.

As a contribution to the celebration of the Diamond Jubilee of Confederation, therefore, a brochure dealing with this aspect of Canadian history which has been issued by the Bank of Montreal should be both timely and welcome to students, adult and junior, and to the general public. With much of this history the bank is itself directly associated, for it was founded when Canada territorially centred solely around the St. Lawrence system and rivers formed its chief highways. In those days railways and ocean steamships were unknown, and the bank itself provided the colony's first organized system of finance and its first domestic currency.

"The Birth and Growth of Canada" is the title of the booklet. The story begins in the 14th century, when, after Spain had claimed parts of North and South America, the French and English came to claim their share in the vast new world which till then had been hidden from the knowledge of the peoples of western civilization. The explorations, colonizations and conflicts of these two great nations as affecting the spheres of influence of both on this continent are sketched, from the time when the representatives of each roamed at will in the mysterious unknown of a country whose limits neither knew, until the interest of each was centred in a portion which became crystallized under the name of Canada. The latter, as has been mentioned, reached westward to the centre of the continent and southward to Louisiana. For this prize the two great nations ultimately became locked in deadly conflict, and to the daring adventurers and heroic pioneers of both, the new nation which now claims as its homeland practically the whole of the northern half of this continent owes its heritage. This fact is recognized in the booklet by two chapters, headed respectively "Our Heritage from France" and "Our Heritage from Britain."

How, from the vast territory originally claimed, Canada shrank to a small colony in the St. Lawrence Valley, and then expanded east and west and north into a unit larger than the original, is a story that is told graphically and succinctly in the booklet, and each stage in the process of Canada's changing borderline is illustrated by maps that form an interesting and valuable series.

Few realize how vast have been the changes in this borderline within the memory of people still living. For instance, sixty years ago the four original Provinces of the Canadian Confederacy contained 350,188 square miles of land and inland waters, whereas now the land and water area of Canada is estimated at a grand total of 3,697,123 square miles. Even within the present year the borderline of Canada has undergone a further change following the Privy Council's judgment on the Labrador boundary. The history of each change is given.

Summing up the territorial heritage of Canadians, the booklet says, "Rich in every form of material wealth, in fertile soil, in minerals, in forest, fish and fur, in water-power and coal, in railways, roadways and waterways, it is rich above all in the quality of its human population, drawn chiefly from the kindred stocks of Britain and of France. It is a land peculiarly fitted by its bracing northern climate to breed one of the strongest races in the human family. Already, the energy of its nine millions, a handful of humanity spread over so vast an expanse, has lifted Canada to third place among the exporting nations of the world. With the great human reinforcements which may now confidently be expected, the Canadian people look forward to a growth and prosperity far exceeding the wonderful progress of these sixty years."

WILSON'S FLY PADS

Will kill many times more flies for the money than any other fly killer. Each pad will kill flies all day, every day, for three weeks. At all Grocers, Druggists and General Stores — 10c and 25c per package.

Advertising Then And Now

It was the custom back in 1850 when farm animals were lost for the owner to have notice sheets printed, such as the one exhibited in The Examiner's window, in order to bring them back into the fold.

Nowadays, however, a small advertisement in the newspapers is not only cheaper, but reaches more people.

Examiner Classified Ads bring results.

NEXT---A PALACE OF THE CLOUDS

This composite picture, prepared by the Goodyear Zeppelin Corporation, shows how the United States navy's new $6,500,000 airship will compare in size with one of its $50,000,000 battleships, the U. S. Arkansas.

By ALLENE SUMNER.
(Copyright, 1927, NEA Service, Inc.)

AKRON, July 16.—Most any humble layman who has the price can cross the ocean a la Lindbergh before very long now, if he'll go airship rather than airplane, and won't mind a few dozen high-powered machine guns and cannons taken along with his swimming pools and gymnasiums and smoking rooms and other palatial delights of his ship of the air.

Regular transoceanic transportation became almost a fact a day or so ago when the Navy Department awarded a $50,000 prize to the Goodyear Zeppelin Corporation for the best design of a navy dirigible to replace the ill-fated Shenandoah, which fell two years ago.

The design submitted by Dr. Karl Arnstein of the Goodyear company provides for a ship nearly three times the size of the Los Angeles, a huge bag of air which will carry a total of 75 to 80 passengers.

The maximum capacity of any former airship has been 30.

Can Carry Own Airplanes.

The ship can be used for commercial or war purposes.

It can carry from four to six airplanes, which can be drawn up into the ship and released as required.

It will have a speed of 90 miles an hour, meaning that it would cross the Atlantic in 33 hours, or less than a day and a half.

It can fly from 5,000 to 8,000 miles with its full military load without refueling.

And, most important of all, it is guaranteed as 100 per cent. safe—so safe that Dr. Arnstein and all his assistants plan as a matter of course to go on the first voyage in the ship.

"It is safeguarded by multiple safety devices," explained Dr. Arnstein, its creator. "It has at least a dozen emergency devices to fall back upon. Most important of all, everything is inside the bag itself. The control car, which, in the Shenandoah, was suspended by struts from the body of the ship, will be built into this new ship.

"The power cars, which were suspended outside in the former great airships, are also housed within the framework of this ship."

Dr. Arnstein reminds everyone that the only men lost in the Shenandoah disaster were those not within the body of the ship itself, but those in the outside attachments.

The new ship will not only be great in time of war, but equally great in time of peace. It will be a veritable palace of the air.

"There is no limit to what the airship could contain, except the limit of money," says Dr. Arnstein. "Swimming pools, gymnasiums, smoking rooms, several dining rooms, commodious staterooms and lobbies will be installed as soon as the public is ready to pay for them."

The dining rooms, smoking rooms and staterooms will be included in the forthcoming ship at any rate, and the price of an ocean voyage on such a ship will not exceed that of crossing on a regular liner.

The new ship will have a cubic capacity of 6,500,000 feet. That of the Shenandoah was 2,115,000 feet. The new ship will be 780 feet long in contrast to the Shenandoah, which was 680 feet long.

Size Means Safety.

The increased size of the new ship is its greatest guarantee of safety, according to Dr. Arnstein, who argues that too slim airships are no healthier than too-slim flappers.

The ship will cost around $6,500,000 which, contrasted with the $50,000,000 cost of the average battleship, is another reason why the navy is looking fondly on dirigibles.

The Pacific can be crossed as safely with this ship as the Atlantic, and an ample gasoline reserve will be left at the end of the voyage.

The Goodyear Zeppelin Co. has refused the navy's prize award of $50,000 for the winning design, preferring to retain ownership of the design.

It is expected that the navy will authorize construction immediately of two ships from this design, to be ready by 1930.

Dr. Arnstein has no doubt of a full passenger list the minute the boat is ready.

"The very nature of the airship eliminates fear," he says. "The passenger mounts a carpeted stairs, just as he would enter a luxurious hotel. He is seated in a comfortable chair and doesn't even know he is in the air for some time. There is none of the jumping and hopping and jarring of a plane taking off."

CAMPBELLFORD NEWS.

CAMPBELLFORD, July 18—Master James and Miss Irene Haffey of Toronto are on a visit to their aunt, Mrs. P. J. Sarginson, of town.

Controller-General and Mrs. Hurst of Winnipeg are holidaying with Mr. Hurst's mother, Mrs. Drummond. At both the morning and evening services in St. Andrew's Church, Mrs. Hurst, who is soloist in Knox Church choir, Winnipeg, was delightfully heard.

The out-of-town guests at the Cairns-Greer nuptials were: J. H. Greer, Mrs. R. J. Martin, Mr. Orvil and Miss Viola Martin, all of Peterborough; Mr. and Mrs. George Greer of Cobourg, Mrs. G. H. Ash and Miss Muriel Herckmer of Manitoba, Miss Myrtle Greer, Mrs. R. J. McClennan, and Miss Margaret and Master Bud McClennan, Mrs. A. Greer, Miss Isobel and Miss Margaret Greer, all of Toronto; Miss Jean Graham of Washington, D.C.; Mrs. R. Goheen of Palmerston, and Miss Alma Greer of Oshawa.

Mr. and Mrs. George Kelly, of Warkworth were the week-end guests of Mrs. Charles Hay, Richard Street.

Mrs. B. W. Kemp of Ottawa was in town on Saturday attending the funeral of her father, the late Mr. Green.

Miss Clyta Sargison's host of friends will be glad to know that she has obtained her first-class teaching certificate. Last year the young lady was successful in securing a second-class certificate, and has been in charge of S.S. No. 5, Chandos.

OBITUARY.

MRS. WILSON VANCE.

CAMPBELLFORD, July 18.—Mrs. Wilson Vance, widow of Wilson Vance of Seymour West, passed away at 9 o'clock on Saturday night at the home of her son, George Vance, 11th Concession, Seymour West.

The late Mrs. Vance, who was a daughter of the late James Thompson, was born in the 12th Concession of Seymour West 70 years ago, and has ever been active in all that tended for the betterment of the home and community in which she lived. She is survived by two sons, George, on the homestead, and Ernest of Niagara Falls. Two brothers and a sister also survive: John Thompson of Seymour West, George and Miss Thompson of Trent River.

The funeral takes place this afternoon at 2 o'clock from her late home on the 11th Concession, Seymour West, to Central Church Cemetery. Rev. Mr. Hie of Hastings will be the officiating clergyman.

COLOR PSYCHOLOGY.

Spring and summer are the times when housewives, appreciating how the gayness of outdoors livens up spirits, should look to their color schemes indoors. These are the psychological times to refurnish and refurbish the home.

The ten leading industries in Saskatchewan produced goods to the value of $36,048,000 in 1924, an increase of $3,000,000 over 1923.

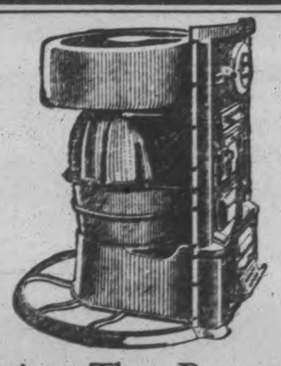
HEALTH IMPROVES.

Clemenceau Will Leave For Summer Home at Vendee on July 24.

PARIS, July 18. — (Canadian Press.)—M. Clemenceau, France's war-time premier, will leave for his summer home at Vendee on July 24, despite the fact that his health has not been good recently. A bulletin issued by his physician last night declared that his condition "was as satisfactory as could be expected."

LONDON, July 18 (Canadian Press). — Bidding was high when the first portion of the Holford collection of Italian paintings went on sale at Christie's. Eighty-two pictures brought approximately $500,000.

The "Portrait of Lucresia," by Lorenzo Lotto, was purchased in behalf of the British Government for 22,300 guineas ($110,000). Botticelli's "Portrait of Saint Thomas Aquinas" sold for 9,800 guineas, and a painting of "The Virgin and Child, with Six Saints," by Pesillion, was sold for 16,000 guineas ($80,000).



9 Points That Recommend The Treasure Furnace

THE Happy Thought "Treasure" Furnace owes its remarkable long life, its heating ability and its ease of looking after to its 9 well-conceived points of construction. You'll appreciate the value of these 9 features—all in the one furnace—

ALL CAST FURNACE—non-rusting. Developes no leaks in years of use. Remains efficient for a lifetime.

EXTRA HEAVY FIRE POT—in two pieces with room for expansion. Its straight sides eliminate ashes.

EXTRA LARGE COMBUSTION CHAMBER—provides for complete combustion of the gases—more heat from fuel.

BURNS ANY FUEL—any kind of coal, coke or wood. Wood grates are easily installed.

RADIATOR—is fully guaranteed—made by our improved moulding method which insures even thickness of metal.

ASH PIT—is cast in one piece—it is extra large and deep, with straight sides.

BASE BOTTOM—is made in one piece.

FEED DOOR—is double style, equipped with gas-tight flanges. Air is admitted through small perforations which aids combustion and saves fuel.

LARGE BELL CUP JOINTS—make an absolutely gas-tight joint.

Let us show you this furnace. No obligation.

PETES DEFEAT DELORO IN ELEVEN INNINGS

OVERTIME EXHIBITION GAME WON BY HOME TEAM WHEN HARDILL HITS TWO BAGGER

Petes' Young Hurler Wins Own Game After Repelling Deloro Attack.

FINAL SCORE 2-1.

First Seven Innings of Saturday's Game Scoreless—Pitching is Good.

For seven innings Peterborough and Deloro battled without scoring and four more innings were needed before the Petes scored the winning run of Saturday's game. The final score was 2-1.

Jeff Hardill won his own game when, with one out in the eleventh, he crashed a double to centre field to send Jack Hall home with the winning run. The young pitcher hurled nice ball all the way. He was in difficulty several times but managed to get out of the holes until the ninth, when a clever hit and run enabled Deloro to tie the score. He struck out seven batters and kept the visitors' hits well scattered.

Carl Woods, ex-Peterborough player, was on the hill for the visitors and pitched cleverly. He was in danger oftener than Hardill but got out by clever pitching. Several times his wildness gave the Petes an opening but when they did get runs it was on hits.

Both teams gave the moundsmen good support. Brown provided the feature play of the game when he went away back for a long drive from Heckman's bat. He made a lunge for the ball as it passed by and rolled over in the long grass but came up clutching the sphere. A fast double play on a grounder by Hall getting Heckman at second and the batter at first also helped turn back the Petes.

Jimmy Hall's catch on Quinn in the fourth was the most spectacular play on the Petes' side. Twice, however, good throws from the outfield curbed the Deloro tendency to stretch hits for extra bases.

Trouble for the Umps.

The Deloro team brought an umpire along, Kerr by name, and he had a couple of funny plays to decide, both being against his fellow townsmen.

The first came in the ninth with Batten on first and one out. Holyman hit a hot liner at Hughes who could have completed a double play by catching it and touching first. He dropped the ball, however, and snatching it up quickly again, threw to second for the forceout. Jack took the ball on the run and stepped over second. He stood idly a few feet away and watched Batten amble in, thinking he had touched the bag. When the decision of safe was given, the Umps came in for some hot criticism.

The second play occurred in the eleventh, Batten figuring again. He was on first and Jack Hall laid down a sacrifice. Woods thought he could get Batten and threw to second, but just too late. The bag slid away leaving the runner sitting on the place where it should be. As he was not touching the bag the umpire reversed his decision of safe and called Batten out. When the Petes kicked, Kerr consulted Kay and changed his decision again.

How the Runs Came.

As both teams had missed chances before, the first counter of the game, scored by the Petes in the eighth, looked enough to win. Rose scored it. He singled over second and advanced on Johnston's sacrifice. Swanston and Heckman sent him home with successive singles. The manager was caught off second and Jim Hall struck out, ending the innings.

The lead was short-lived. Keegan singled and advanced on a passed ball. A. Quinn's infield out put him on third and Boudreau walked. When Boudreau started to steal Holyman moved up for a play at third and Jack cut a single through short. Reegan scored, but Boudreau, trying to take third, was out, Hall to Johnston. Johnston threw badly to first to catch Jack, who had a big lead and let him take second. Hughes lifted to Rose.

The Petes had chances in the ninth and tenth with men on but Woods was equal to the occasion. Deloro had a chance in the tenth when Woods was safe on Heckman's error with two out and Bond singled to right but Woods tried to go to third and was caught. In the eleventh they got runners on second and third with two out but Jim Hall garnered Hughes' fly.

Batten led off in the Petes' half with a single. He moved up on Jack Hall's sacrifice which Woods played to second. Holyman bunted a pop fly which Woods trapped and played to third for a force-out, but Hardill slammed to centre for two bases, Hall galloping home with the winning run.

HOME RUN KINGS

Here are shown Babe Ruth and his star pupil, Columbia Lou Gehrig, whose recent appearance at Toronto in an exhibition game excited unusual interest. Never before in baseball history have two men on the same team raced neck and neck for batting honors as have the two Yanks. Gehrig, the pupil, and Ruth have each 30 homers to their credit.

ST. LOUIS WINS OVER BROOKLYN

Stages Ninth Inning Rally To Win By Two Runs.

BROOKLYN, N. Y., July 18.—(Canadian Press).— St. Louis staged a three run rally in the ninth to overhaul Brooklyn yesterday and won out by 5 to 3. Dazzy Vance had held the champions to four hits in eight innings but in the ninth the speed ball king weakened and singles by Blades and Douthit, Schulte's triple and another base drive by pinch-hitter Clark decided the issue. Vance struck out nine batters.

QUAKERS LOSE TO THE "JAGS" IN GORDON CUP

An Early Scoring Lead of Three Goals Gave Thistle the Decision.

SCORE 3 TO 0.

Quakers' Re-arranged Team Had Better of Play in Second Half.

An early goal lead of three goals to nothing in favor of the Thistle over the Quakers gained the right of the former to meet the Masseys in the final of the Gordon soccer cup, before a good crowd of spectators on Saturday afternoon at King Edward Park.

Opening Fast.

The Thistle took advantage of the sun at their backs through winning the toss while the Quakers faced it for the first period. Quick as a flash both forward lines visited the respective defense area, in fact, the Quaker full backs getting more to do but they punted clear to their forwards. Mitchell swung the ball out to the right wing, and terminated in Griffine saving the situation. Scott headed clear and slipped a nice pass across to the left wing which finally landed a perfect centre into goal where vacant uprights awaited the ball, as the players missed connecting.

Cameron's Individual Goal.

The Quakers defence recovered the ball quickly to send Foster along the wing. He outwitted his opponents in close tactics but shot aimlessly. From the goal-kick, Bromley and Alf Maker tackled, as the former centred to Cameron who completed his solo effort with a low grounder, far out of the reach of Curtis. Play thereafter was very keen, with both elevens showing clever tactics in mid-field play.

Added to Their Lead.

Hard checking, dribbling and well timed shouldering coming into prominence as the play progressed. From a throw-in Burgess slipped the ball forward to Lang who gained the advantage over his opponent and swung the ball across the goal. McPhate sent it back again to Miller who let "Tommy" do the needful. Twice in succession the losers paid visits to the Thistle custodian but failed to register. On a nice piece of foot work on the wing Alf Wilson beat along the line to make Griffine save a rocket drive up in the corner of the uprights, and conceding a flag-kick that Carmichael ripped over the bar. Then the Thistle forwards had W. Curtis in difficulties for a while until the halves cleared. In a moment the play was at the other end with the Quakers hammering at Griffine's citadel in which Foster was the leading light with his lightning crosses that found Mitchell ready to divert the sphere into the net with his head and the custodian saving smartly. Just before half time the Thistle gained a flag-kick through Lang who placed accurately to McPhate's foot to make it three goals to nothing at the interval.

HALF TIME.

The second forty-five minutes opened up with a complete re-arrangement of the Quaker team that proved a great stimulant to them, more particularly the half-back line coming into the picture by affecting movements that held the Thistle front line five in check, in fact, Griffine was kept busy saving shots from all distances. As time rolled on Mitchell tried hard to register with first-time shots that had the Thistle defence in a quandry. On one occasion he went right through towards goal to find Griffine picking up the grounder from his foot, he threw the ball to Rae who relieved the pressure.

Quakers Had Hard Luck.

Without doubt the team arrangement of the Quakers made it look an entirely new eleven. Flag-kicks in favor of them came fast to cause no disaster. Even foul kicks in their favor failed to find the hole in the uprights while they shot past when inside shooting range. Even exchanges were next in order for a time. Before full time the Quakers did their utmost to gain a goal but the Thistle defence was impregnable. Thistle 3, Quakers 0.

Goal-scorers— Cameron, T. McPhate and Ian McPhate.

Thistle—Griffine, goal; Rae and McLeod, backs; Burgess, Scott and Bromley, halves; Lang, Millar, I. McPhate, Cameron and T. McPhate, forwards.

Quakers—W. Curtis, goal; A. Maker and S. Maker, backs; Horn, T. Wilson and T. Williams, halves; Alf Wilson, Carmichael, Mitchell, H. Curtis and Foster, forwards.

Referee—John Warde.

Linesmen — Alex McKinley and George Low.

GAME WAS CLOSE.

Cogs Stage Rally in Seventh To Almost Tie Game.

A blow up in the sixth innings by Vannest when he walked three men and Delahaye made a wild throw to first base gave the Raybestos the game over the Cognawagas in an East Peterborough baseball fixture on Saturday afternoon at the Exhibition Park. The final score was 8 to 7.

The Cogs came near tieing the game up in the first of the seventh when two runs were scored and the tieing run was on third base with two out. Maudsley tightened down and struck the Mackness out.

No runs were scored until the fourth innings though the Raybestos had a wonderful opportunity in the first with three men on bases and only one out but both Beavis and Holland, the next two batters up, struck out.

In the fourth, the Cogs ran in three runs on five hits. Up until this innings, Maudsley had kept the Cogs to one hit and he was getting air tight support in the field. The Cogs scored two in the sixth when Crary singled and Delahaye doubled and Mackness made first when Rogers threw wild to third. Maudsley made a wild throw to second allowing two runs to come in.

In the fourth, the Raybestos scored one. Beavis, the first man up drew a pass, Holland singled and H. Nichols sacrificed, scoring Beavis. They got another in the fifth when Maudsley, the first up, singled, and O. Nichols got a double with two men out, scoring Maudsley.

Fateful Innings.

The sixth was a fateful innings for the Cogs. Beavis, the first man up walked. Holland popped one to Mackness. H. Nichols walked. Rogers made first when Delahaye threw wild to Mackness, filling the bases. Beavis scored, Maudsley walked, Hillier singled scoring Nichols and Rogers. Baird got on when they tried to catch Maudsley at the plate, O. Nichols struck out, Corin got a double, scoring Hillier and Beavis hit one to Crary. Six runs, two hits, and one error.

In the seventh, for the Cogs, Smith drew a pass, Vannest struck out, Williams singled to middle field but Smith was caught coming home on a perfect throw by Beavis. Crary double and stole third. Williams scored. Cripps singled, scoring Crary, and stole second and third but Mackness struck out.

Crary on second base for the Cogs in four times to bat got a double, two singles and scored two runs. He accepted seven chances in the field and made two put outs.

The Cogs outhit the winners but the hitting was well scattered. Each pitcher struck out 4 but Vannest issued 4 passes to Maudsley's one.

Summary—Two base hits— Hillier, O. Nichols, H. Corin, Crary, Wilson and Delahaye.

First on Balls off Vannest—4, off Maudsley—1.

Struck out by Vannest—4, by Maudsley—4.

Left on bases, Cagnawagas—2, Raybestos—8.

Double plays—Vannest to Crary to Mackness.

Hit by pitcher—Baird.

Umpires—Rishor and Neary.

WINS BICYCLE RACE.

Rides 4,000 Mile Road Race in 198 Hours.

PARIS, July 18 (Canadian Press). —Nicolas Frantz, of the Grand Duchy of Luxembourg, yesterday won the annual longest bicycle road race of the world, covering nearly 4,000 miles, and which started June 19. The race is called "Tour de France," and skirts the entire frontier and coast boundaries of the country.

One hundred and forty-three riders started, of whom thirty-nine finished. The winner's actual riding time was 198 hours 16 minutes, 42 seconds.

ORIOLES WIN AT SYRACUSE

Dick Porter is Hitting Star of the Game With a Home Run.

NEW YORK, July 18. — Jack Ogden, mainstay of Jack Dunn's Baltimore club, pitched the Orioles to a 9 to 2 victory at Syracuse yesterday afternoon, allowing only five scattered hits. Dick Porter, Baltimore's burly centerfielder, got a home run, a triple, and two singles in five trips to the plate.

Reading Takes Two.

The Reading Keys won both games of a double-header at Rochester by scores of 10 to 7 and 12 to 1. In the first game the Keys came from behind in the ninth inning to score four runs for their victory. The second game was a walk-away, with Horne, Rochester pitcher, being knocked out of the box in the second inning.

The Bisons Trounced.

The Bisons' winning streak of fourteen straight games foundered with a sickening crash at Buffalo when the Newark Bears trounced the locals in both ends of a double bill by scores of 7 to 4 and 7 to 3. Billy Kelly, former Bison, struck a dramatic blow of retribution at his old mates when he lashed a home run in the ninth inning with the bases loaded as a climax to a six-run rally which brought victory to the Bears. Buffalo had three homers in this game, with the bases empty.

MANDELL WINS LIGHTWEIGHT CHAMPIONSHIP

Defeats Detroit Challenger Before 11,000 Boxing Fans.

TIRES McGRAW.

Pace Set By Champion Was Too Much For McGraw.

DETROIT, Mich., July 18 (Canadian Press). — Sammy Mandell, without a scratch on him, emerged from his ten-round battle with Phil. McGraw, of Detroit, here on Saturday night, still world's lightweight champion. He was awarded the decision after the one-sided contest, while the crowd of 11,000 roared approval.

Mandell, the boxer, was completely master of McGraw from start to finish. The champion took the lead in the very first round, and never was in danger of even getting his hair mussed. Twice Mandell came within an ace of stopping the Detroit challenger, once in the first round and again in the seventh. But McGraw, beaten and slugged furiously with short rights to the chin, gamely stuck to his feet, although his knees sagged a half-dozen times.

McGraw was no match for the champion. His punches were wild.

He swung them instead of shooting accuately, and the pace set by Mandell tired him quickly. Mandell blocked skilfully and boxed in masterful fashion. He either ducked McGraw's wild swings or backed away from them, stepping in with jolting right crosses. He excelled in long range boxing, continually keeping McGraw off balance by popping long lefts into the face.

In the semi-final, Harry Forbes, of Columbus, Ohio, weighing 118 pounds, defeated Clarence Rosen, of Detroit, in eight rounds of wild slugging.

GIANTS PURCHASE BILLIE WALKER

Price is Said To Be $25,000 For Left-handed Hurler.

NEW YORK, N.Y., July 18 (Canadian Press). — Bill Walker, a left-handed pitcher from the Denver Club of the Western League, has been purchased by the New York Giants for $25,000 in a straight cash transaction, Secretary James Tierney has announced. Walker will report to New York at the close of the Western League season. Representatives of the Pirates and Yanks had also been angling for the pitcher.

CANADIANS WIN IN DINGHY RACE

First Sailing For Emerson Trophy Taken By Toronto Men.

CONTINUES TO-DAY.

ROCHESTER, N. Y., July 18. — (Canadian Press). — Canada drew first blood in the series for the international Dinghy team challenge cup, the Emerson trophy, by taking both first and second places in the first sailing here on Saturday. Walter Windeyer, Jr., was first for the Royal Canadian Yacht Club of Toronto in his Ackroyd boat and Charles Bourke second in his own design fourteen footer. Glen Poyser in the Goblin was third for the Rochester Yacht Club and Henry Brayer in the Gloriette fourth. The series will be resumed to-day.

ATHLETIC STARS GOOD SCHOLARS

Successes of Cambridge Men Refute Tradition of "Dumbness."

MANY HIGH MARKS.

CAMBRIDGE, Eng., July 18.—(Canadian Press.)—There was an interesting aspect to the Cambridge examination results this year. It is traditional to say that men who have gained their colors by prowess in sports are "dumbells" so far as the universities are concerned. The lists of "passes" refutes this in striking fashion.

The two outstanding successes were O. D. S. Pendelbury, the Athletic Blue, who gained highest possible honors in the second part of the Classical Tripos, and J. R. Morris, the Association Blue, who gained a first class in the second part of the Historical Tripos.

The two rowing Blues, S. K. Tubbs (president of the C.U.B.C.) and the Hon. J. S. Maclay, gained second and third class honours respectively in the second part of the Economics Tripos.

Blues who secured second-class honours in the Historical Tripos part (one) were: E. C. Arnold (athletics), E. F. Longrigg (cricket), and M. J. Turbull (cricket). In the second part three Bleus obtained third-class honours. C. D. Aarvold and E. A. McIlwaine, the Rugby Blues, obtained second class honours in the first part of Law.

The successful in modern and mediaeval languages were W. K. Harbinson and K. W. Y. Fison, the hockey Blues, and C. B. Molony, the athletic Blue.

BIG GAME FOR TO-MORROW NIGHT

Lockworks Will Meet Belmonts at Riverside Park at 6.15.

The Belmonts and Lock Works will battle on Tuesday night at Riverside Park in a post season series fixture. This will be the first meeting of these two teams in the post season games and a great battle can be expected. The Belmonts won out from the Lock Works in Group 1 of the Softball League, but only by the narrowest possible margin, an extra game being necessary to decide a winner.

Both teams have strengthened considerably for the post season games. The Belmonts have added Fred Ash to their lineup, and have strengthened the infield with Jake Hall at third. The Lock Works have added Jones and Ranger to their line up. Both teams are well staffed with pitchers, the Belmonts having Harrison, Carruthers and McLean, while the Lockmakers have Waddell, Dunkerley and Galbraith. The first pitcher mentioned on each team will likely be the starter.

This game has been transferred to Riverside Park on account of the Chautaqua occupying Confederation Square. There will be no admission to this game and a big crowd should turn out to see the teams battle. The game is called for 6.15 sharp with Alex Kay and Lew LeBarr in charge.

GAME TO-NIGHT.

Bethany Will Meet Crescents at the Exhibition Park.

Bethany will play Crescents to-night at the Exhibition Grounds. Both teams are playing good ball, and a good tussle is looked for. The game starts at 6 o'clock sharp.

SHARKEY FAVORITE IN BIG BOXING BOUT

Heavyweights to Meet on Thursday Night in New York.

NEW YORK, July 18 (Canadian Press).— Jack Dempsey's short, heavy hooks fire with either hand will be pitted against Jack Sharkey's famous left jab when the rivals for the heavyweight runner-up job meet here on Thursday night. On the basis of what the two big men have shown during the past year, Sharkey is established as favourite.

Yet there is considerable mystery about Dempsey, as to whether he is the man of Toledo or the man of Philadelphia. He has stopped his heavy work and won't do any more boxing until he boxes Sharkey. To-day he played golf and turned in a card on well over 100.

Sharkey did not tear savagely into his sparring partners to-day. Fifteen thousand persons crowded the Madison Square Garden Gymnasium to see him work, but were unthrilled by five rounds of boxing in which nobody was knocked out. Sharkey's handlers seemed well satisfied.

NO PRACTICE TO-MORROW

Petes Will Have Day Off While Softballers Use the Park.

There will be no practice for the Peterborough seniors to-morrow night Belmonts and Lockworks have had to transfer their play-off game to James Stevenson Park because of the Chautauqua and the Petes have given up the date.

Theaters

AT THE REGENT.

AT THE REGENT.

GRIMM HOME CAREFULLY ERECTED.

Great Care Taken at Fox Studios to Have Film Home True to Life.

Peter Grimm's home — the house of three generations—was one of the most carefully planned structures ever designed by Fox Films at the West Coast Studio. In this home Alec B. Francis, at Peter, lives, moves and has his celluloid being as can be seen on the screen this week at the Regent. Here innumerable "ghost" sequences were "shot."

Comfort, apparent in every nook and cranny, was the keynote of this quaint home. In a plain, spacious living-room, there were easy chairs, comfortable leather lounges, broad window-seats and other useful odds and ends which make for the home-like appearance of an old Dutch estate.

Due to the painstaking application of designers and studio workmen, the walls of living-rooms and hallways have every semblance of age. The enduring impression is that this is a home which has been peopled by real humans. Even the stairway, used so often by the kindly Peter, shows marked evidence of long usage. The steps are foot-worn, the carpets are frayed and the practical newel-post is begrimed and battered. An ancient clock, to the left of the stairway, was not only practical in every essential, but was wound each day by Alec Francis. This added to the sum total of actuality.

Books, on shelves made rough by consistent service, were volumes that a man of Peter Grimm's type would be most apt to read. The list included those by Bulwer-Lytton and the more widely read writings of Thackeray.

MOVIE STARS HONEYMOON IN CANADA.

Rod La Rocque and his bride, Miss Vilma Banky, honeymooning at Chateau Lake Louise in the Canadian Rockies, following their sensational "surprise" marriage recently at Los Angeles.

BETHANY PLAYS HERE TO-NIGHT

Walloping Durhamites, With Staples Pitching, Meet Crescents in Important Game.

THIRD PLACE AT STAKE.

Bethany will be here this evening for an important game with Crescents, this contest having been postponed in the first series. Crescents dropped to third place when Raybestos defeated the Cogs on Saturday afternoon, and a win for Bethany this evening will take the Durhamites out of the cellar and send the local team into last place. With so much at stake, there is bound to be a lot of excitement at Exhibition Park.

The following players have been signed by the four clubs in the East Peterborough League:

Cognawagas—Albert E. Delahaye, Walter Crary, W. A. Prest, W. Graham, A. J. Mackness, George Williams, Harvey Smith, Fred. Cripps, A. R. Rooke, Percy Vannest, Dorsey L. Davis, J. Wilson, W. R. Weese, William Howden, Grant Miller.

Raybestos—John Conners, C. Holland, John Baird, Vernon Davis, C. Shaughnessy, James Coursey, Harry Corrin, D. C. Moore, W. Rogers, Leo Masterson, E. Maudsley, D. Hillier, James H. Johnston, O. Nicholls, Harold Nicholls.

Bethany—J. J. Hamilton, R. Johnston, A. B. Ryley, Keith Thorndyke, Wilson Heaslip, Everett Stinson, Rex. A. Dawe, H. L. Jackson, C. McGill, W. Reynolds, R. Staples, Walter Price, G. Staples, Tom Staples.

Crescents—L. Rishea, Archie Weir, A. Brioux, John McDonough, Frank Scully, Wilfred Ranger, J. Billingsley, A. Armstrong, Fred Jones, Jack LeBarr, Al. Griffin, C. A. Corbett, Joe Jones, Keith Mein, M. Frost, Charles Kenneally, J. Barry, W. Mahood.

SCHOOL REPORT.

S. S. No. 7, ASPHODEL.

Primer.—Hazel McGee, Elmer Stevenson, Audry McKay, Alex. Baptie, Keith Lewis, Fred Blackburn.

Sr. I.—Carl McMillan, Greta McGee.

Jr. II.—Keith Thompson, Rita Buck, Norma Buck, Jean Stevenson, Erlin Buck, Percy Buck, Carl Stevenson, Lyle Lewis.

Sr. II.—Percy Lewis.

Jr. III.—Charlie McNeely, Viola McGee, Sydney Blackburn, Garnet Baptie, Helen McKay (on trial).

Sr. III.—Marion Buck, Russel Stevenson, Gordon Stevenson, Arnold Stevenson, Ernest Blackburn.

Jr. IV.—Howard Baptie, Evelyn McGee, Elva Buck, Robert McDonald.

Sr. IV.—Pearl Humphries, Clifford Buck, Gerald Morton (on trial).

—Mr. Scott Wildman, Teacher.

S. S. No. 1, DUMMER.

Sr. III.—Thomas Webster, Elmer Bell, Elroyd Barr.

Jr. III.—Sylvia Clysdale, Ronald McDonald, George Webster, David Barr, Merle Bell.

Sr. II.—Joseph Kelly, Margaret McDonald, Eva Hendren, Armand Webster.

Jr. II.—Bernard Kelly, Gordon Hendren, Morrison Barr, Walter Moore.

Primer.—Alice Moore, Anna Barr.

—Gertrude Blakley, Teacher.

S. S. No. 9, DUMMER.

Sr. Pr.—Clifford Miles.

Jr. I.—Annie Armstrong, Ernie Ivey, Doris Lloyd, Leslie Crowe, Goldie McIlmoyle.

Sr. I.—Percy Ivey, Agnes Hall, Edna McIlmoyle.

Jr. II.—Norma Crowe, Edwin Miles, Archie Miles.

Sr. II.—Tom Hull.

Jr. III.—Fanny Armstrong, Stella McIlmoyle, Amy Hull.

Sr. III.—Iona Whetung, Leonard Whetung, Emma Armstrong, Clarence McIlmoyle.

Jr. IV.—Bob Armstrong, Roy Whetung, Helen McIlmoyle.

—Edna Cross, Teacher.

ENNISMORE NEWS.

ENNISMORE, July 18.—On Monday about thirty-five men helped Mr W. D. Cavenagh to raise an addition to his barn, consisting of a mow and threshing floor. In the evening a lunch was served by the ladies. Mr. L. Bell, of Peterborough, was the carpenter.

Miss Esther Murphy, of Calgary is spending a few holidays with her parents, Mr. and Mrs. T. Murphy.

Mr. B. Sullivan of St. Paul, Minnesota is visiting friends here.

Mrs. J. Kylie and family, of Medicine Hat are spending the holidays at her home here.

Mrs. J. Hoar and children are visiting friends in Detroit.

Mr. and Mrs. Malone and babe of Windsor are spending a few holidays with friends here.

A violent thunderstorm swept over this district on Wednesday afternoon, striking the barn of Mr. Charles Harrington. The blaze started in the stable; was noticed at once and extinguished, and very little damage was done.

Mr. Edward Crough's house was also struck. The lightning came through the window, burning the window shade.

SOUTHPAWS ONLY.

A golf tournament for left-handed players only was held recently at Lima, O.

IS MAKING NEW MOVIE.

Johnny Mack Brown, former Alabama football star, is in New York now working on a movie entitled "The Co-Ed."

SONG BIRDS AT THE PARTING

Lucien Muratore, operatic tenor, and his wife, the former Lina Cavalieri, famed both as a singer and a beauty, have applied to the Paris courts for divorce. They were married in 1914. Mme. Cavalieri was first married in 1910 to Sheriff Bob Chanler, who was said to have turned over a large part of his fortune to the singer when they were divorced two years later.

SWIMMING SIMPLIFIED

CORRECT BODY BALANCE IMPORTANT IN CRAWL STROKE SWIMMING

By James A. Lee.

To perfect the arm and leg action of the crawl, correct body balance is very necessary. Get the needed poise by learning to use the head and shoulders correctly.

The body should be flat, the head straight and the shoulders square during one-half of the stroke. Throughout the recovery of the under arm, the body should be a trifle on its side, the head twisted, the shoulders at a slight angle during the other half, throughout the recovery of the top arm.

At first, try to make the roll definite ,aising the mouth well above the surface to inhale. When skill is gained, decrease it gradually until it is no greater than it is necessary to permit breathing.

Work arms independently of shoulders. Start drive of under arm before turning the head to inhale; start the drive of the top arm before turning back the head or rolling down.

Don't move the head up or down, nor bend to either side, carry it erect and merely twist it in the act of breathing. Remember also to arch the back a trifle in swimming the crawl, so that the feet will be well up, the heels alternately touching in the leg thrash.

Modern coaches and instructors of swimming have all stressed the point that distance swimming is the most efficient method of mastering the art. Get a good stroke first, practice it at every opportunity and before long you will reap the results.

GEHRIG TIES RUTH'S RECORD

Pounds Out Thirtieth Home Run of Season at St. Louis.

YANKEES WIN.

NEW YORK, July 18.—(Canadian Press. — Gehrig pounded out his thirtieth home run of the season at St. Louis yesterday, tying Babe Ruth's circuit clout record for the year, and enabling the New York Yankess to win the second game of the series from the Brown 5 to 4. Meusel, following Gehrig to the plate, also slammed out a homer. Caston was the pitcher. The Yankees' victory was the ninth straight over the Browns this year.

Washington Wins.

Washington at Chicago drove Ted Lyons from the box yesterday in the fourth inning and defeated Chicago 7 to 4. The visitors collected six hits. Tris Speaker leading the attack with two doubles and two singles. Walter Johnson pitched in fine form, holding the sox safe in the pinches although he was touched frequently for safeties.

Athletics Lose.

McManus' triple and Dykes' fumble in the ninth inning gave Detroit a 5 to 4 victory over the Athletics in the second game of the series at Detroit, with McManus on third and one out, Rube Walberg walked Woodall purposely. Deviveros was sent to bat for Holloway. He swung at the first two balls pitched and missed. Then he caught the Philadelphia defence off guard by bunting with two strikes on him. Dykes raced in to field the ball and when he fumbled McManus scored the winning run.

ENTERS TOURNAMENT.

Dr. Ham Will Play in National Clay Court Tennis Championships.

DETROIT, Mich., July 18 (Canadian Press). — Dr. G. A. Ham, of Toronto, a member of the Canadian Davis Cup team of last year, is among the foreign entrants in the National Clay Court tennis championships, which begin here to-day. In this tournament in which William T. Tilden will defend his title, Dr. Ham, like other non-native contenders, has been given a special place in the brackets to prevent a meeting with seeded players until the finals approach.

BUYS NEW INFIELDER.

Connie Mack has purchased Joe Mellano, Virginia League infielder, who will report at the end of the season.

WHAT ABOUT WALKING CLUBS

Those of you who have been reading this column for some time know how much I believe in the benefits to be derived from taking long walks. I have often thought of suggesting to my readers the idea of forming walking clubs in each city. Now comes a letter from an enthusiast who has the same idea. Here is an extract from the letter:

"I greatly enjoy your articles on health and diet and derive much benefit from same. I would like to suggest forming a walking club. You advocate that exercise to such an extent that I am sure more persons would follow it if they did not have to walk alone. Many times I am free to walk from seven until eight or nine, but most of my friends are too old or too busy.

Suppose you write an article making the suggestion of forming walking clubs in different districts and see what the public's idea would be. And when I say WALK I don't mean stroll—I mean a good mile or more in less than twenty minutes unless it is all up hill.

No shieks or flappers but an honest to goodness crowd who is seeking health with your aid. We would have at least one common interest—your articles to discuss.

Hoping that you will take this matter into consideration and wishing you success in your good work."

I think this is a fine letter, and I believe that it will encourage a good response. Accordingly, I am going to ask everyone who would be interested to write me personally, address your letters to The Examiner. I shall keep a special file for these letters from you on this subject. When I get enough letters, I will have some announcement to make and explain just how you can go about organizing this club.

I will help you in every way that I can by my suggestions and will be very glad if the walking club is a means of bringing together my readers in this city, so that they can be of mutual help to each other.

During the walk you can compare experiences with regard to diet, etc., and be of real help to each other.

I am eagerly waiting to hear from you and will be ready to start something as soon as you show your willingness to co-operate. Send in your letters at once.

QUESTIONS AND ANSWERS

QUESTION: Mrs. G. Writes: "My mother is 66 years old, and is hardly able to walk or talk. The doctor told her it was hardened arteries. Would any of the diets in your book be of benefit to her, or what would you recommend?"

ANSWER: If you possess my book "THE FAST WAY TO HEALTH" I would advise you to have your mother follow the treatment as outlined under "High Blood Pressure." Have her take the fasting and diet treatment the same as the patients did in the cases which I describe in the book.

QUESTION: Mrs. B. M. writes: "I think your health advice is wonderful, and I haven't missed one item as yet. Maybe you can help me in my special trouble: I am nearly crazy at times with headache. I have been operated on seven times, five times through the nose and twice through the cheek, as the doctor says some pus is causing my trouble. I have not received any results. Is there any hope except through the knife?"

ANSWER: The best you can do with surgery in such cases is to drain out the pus. You must remove the cause of this pus formation, and this cannot be done by the knife—you must correct the habits which produce it. Send me your full name and address so I can send you a treatise on sinus and antrum trouble.

VILMA'S WEDDING IS BIG SOCIAL EVENT

The wedding of Vilma Banky and Rod LaRocque at Beverley Hills, Calif., was movieland's biggest social event. The ceremony was held in the Church of the Good Shepherd, from which Rudolph Valentino was buried. The wedding party is shown above. In the picture, left to right, are Mrs. Harold Lloyd, Mrs. Sam Goldwyn, Diana Kane, Mrs. Abraham Lehr, Vilma Banky, Rod LaRocque, Bebe Daniels, Constance Talmadge and Monique LaRocque.

Lyrics Of Life

(By Douglas Malloch.)

HOW FINE LIFE IS

Green grass here,
And green grass there,
And blue sky nearly
Everywhere,
And yet we sit,
We sit and sigh,
Don't see a bit
Of grass or sky.

Fine folks east,
And fine folks west,
Doctor and priest
And host and guest,
Fine folks met
Both near and far,
Yet folks forget
How fine they are.

Grand old earth,
And grand old life,
And well, well worth
The toil and strife.
We talk of "me"
And "mine" and "his,"
And just don't see
How fine life is!

Jungle Breath

© 1927 by NEA Service

by Ben Lucien Burman

(Continued from Saturday).

THIS HAS HAPPENED

Attempts have been made on the life of ELISE MARBERRY, an American girl owning considerable property near the little town of PORTO VERDE, in west central Brazil. She has escaped harm due to the shrewdness of her cousin and protector, VILAK, who with his friend, LINCOLN NUNNALLY an elderly American chemist, is trying to learn the reason for the strange enmity for Elise.

Living near Porto Verde is one GAYLORD PRENTISS, a strange and forbidding character, who has evinced a hatred for Elise.

TINKY, Elise's two-year-old orphaned nephew, is kidnapped. A native reports Prentiss has been seen with the baby. The trail leads into the jungle.

Calamity overtakes the expedition Vilak organizes in pursuit. Native trackers are injured or desert. Treachery breaks out. Their white friends are ever victims and are left with a friendly tribe.

Elise, Vilak and Nunnally finally emerge from the jungle. Presently they come to the outskirts of a strange city, resembling the old Inca civilization. Here they are made prisoners. They discover they are in the power of CARLOS D'ALBENTARA, whom they had known as an engineer back in Porto Verde.

The ruler of the city decides to marry Elise and to put Vilak and Nunnally to death. They are to be tortured at the feast of Raymi. The feast arrives. Vilak is compelled to witness the tortures of other victims. He has succeeded in cutting half way through his bonds when a friendly Indian slips him a dagger.

NOW BEGIN THE STORY

CHAPTER XLIV.

The Indian thrust a copper dagger into Vilak's hand. "Take," he whispered. "White man good Mabimi. Keep Mabimi from die. Mamimi white man's slave. Try see white man before. Many times—wait outside window. But always soldiers come. Mabimi have to run away. White man take dagger. Good dagger. Sharp. Kill. Kill bad peoples hurt white man. Soldier come again now. Mabimi go." He crawled off into the red-silhouetted obscurity.

With the dagger Vilak quickly completed the cut in his thongs. "Wish this thing could have gotten to us a week ago," he grunted. "Doesn't help us much now. Would have been through in a few minutes anyway."

His body was now free. But he made no attempt to disengage the loosened cords around his limbs, only moved his arms slightly to place the dagger in Nunnally's eager hands. "Cut yourself loose, but don't stir. Lie just as you are. We won't be moving for a while. I've got something of a plan. Not a marvelous plan or a sure one by any means. Quite doubtful, really. I've been racking my brain all day, and can't get it to function. But since the plan's all we've got it's worth a try. At dawn Batalagos will go into the temple to receive the first rays of the sun alone. He'll do it every day of the festival. This dawn we'll try to be there with him."

The old man severed the fetters at his wrist. Furtively he tried to return the dagger to his friend.

Vilak pushed his hand away. "Keep it," he whispered. "I've got a better weapon." He began twisting one of the two rings on his finger, a seal ring of conventional pattern. The top screwed off. A large black stone was exposed, half human, half bird, like the grotesque idol with three minute claws protruding. The claws glistened brightly in the fire-light.

"It's D'Albentara's ring. I put the stone in this new mounting and used the time-worn trick of hiding it by wearing it in the most conspicuous place I could: on my finger. He looked everywhere for it but there."

Fifteen minutes passed; half an hour; an hour. Vilak made no move to go. The child on the stone a few yards away began to cry lustily.

Its lamentations subsided to a whimper, then died away. A troop of yellow spotted moths floated gracefully over the crackling fire, then wheeled off as if in sudden fright. Two black beetles began crawling over Nunnally's body. With a scarcely perceptible movement of his hand, he brushed them away. "Isn't it a good . . . er . . . time to escape now?" he whispered, his eyes constantly on the sentinel gloomily pacing to and fro some twenty yards away. "The place is almost . . . er . . . deserted."

"Just the time not to escape. We'd be missed in a few minutes and caught. We'll wait till the courtyard fills with people again and their interest is concentrated on something else. Then whatever we do won't be noticed. That's an axiom."

The moths fluttered back to the fire; one by one they dropped into the flame. A few floated gracefully away. The crowd commenced to drift slowly into the court once more and Batalagos reappeared in the pavilion. There was another dance. Then D'Albentara, beside the chief, clapped his hands. As they had done the day before, the multitude fell to the ground and lay there groveling, their eyes fixed on the east. Batalagos began waddling toward the temple.

"Now's our chance," Vilak whispered. He crawled out of his thongs and slipping noiselessly to the ground, crept to the shadows along the outer edges of the court away from the fire and the altar where the prostrate writhe of savages was concentrated.

The old man followed. They reached the ruined stone gallery bounding the court on all sides without being detected, then began skirting slowly its broken pillars toward the temple.

The chief slowly climbed the great steps in the center; they climbed quickly, at one of the sides where the gallery protected them from the eyes of the worshipers. Batalagos entered. They followed. They were in a long unroofed hall. On all sides rose ghostly shapes of great ruined stone figures, some with shadowy broken arms upraised, some with fat squat bodies lacking heads. At one end was a broad, elevated stone. Toward this Batalagos made his way. The two others stealthily came after him.

He clambered awkwardly upon the tone and fell to his knees. A streak of crimson appeared atop the red mountain which the temple faced. Batalagos began a monotonous chant, flinging out his arms and striking his head against the stone. In a few moments the entire eastern horizon was flooded with red. The chief arose and clambered down from the stone. His heavy foot touched the floor; he began his waddling return to the court. Vilak was waiting behind a scowling idol. He took a noiseless step forward; caught the chief's arm. Batalagos turned, swiftly recognized his captor and then saw the old man with drawn dagger approaching from behind another idol a few feet away. He was about to scream for help, but the quick descent of Vilak's free hand checked him.

"Do not call out, Batalagos," Vilak grunted. "Do not call out. Or I will kill. Quick, this way." He slowly released the hand which was over the other's mouth and turned it so that the captive's eyes rested on the ring glistening on his finger in the brightening light.

Batalagos paled. His great pulpy body began to quiver. "No kill," he whimpered. "White man no kill. Batalagos no call out. Batalagos do whatever white man say."

"Will Batalagos let the white man and the white girl go?" He held the ring close to the other's shaking breast.

The chief nodded quickly.

"Will Batalagos let the white baby go also?"

The half-breed hesitated. Vilak brought the ring within half an inch of his quivering flesh. The half-breed moaned in terror. "Yes. Let baby go too," he whined. "Do anything white man say. Only no kill Batalagos."

"That which Batalagos speaks is good." Vilak drew the ring away a little. "Batalagos is wise. Batalagos is very wise. But let Batalagos well remember. If Batalagos breaks his word, quick as the fery lightning will the white man kill."

Slowly they moved between rows of sullen-visaged idols to the central door. They reached it; halted. "This is the moment I'm afraid of," Vilak whispered to the old man. "It's here that the plan's weak. We can't tell what's going to happen when the people outside first see us. Certainly we can't trust this chap. From now on we've got to hope for luck."

The chief waddled through the doorway. A shout of joy went up from the worshipers, changing to a murmur of astonishment and dismay as the two white men emerged from the temple and took places beside him.

Vilak pressed the ring close to him once more. "Speak to them, Batalagos," he muttered. "Tell them the sun-god has spoken to Batalagos and told him that the white men are good. Tell them many things like this, Batalagos. And say no things of evil against them, for I shall hear. And the lightning shall strike."

The chief began to speak, unwillingly, plaintively, like a child forced to apologize to some indignant relative whose tidbit it had filched at dinner. His captor watched him closely, the ring at his shoulder.

Suddenly Vilak saw Nunnally wheel round with the dagger in his hand and take a position of defense. He wheeled also; saw racing across the steps from the gallery opposite him the stunted Indian of the enormous nose. The old man struck; the half-breed leaped past and hurled himself upon Vilak. He snatched at the white man's hand which bore the ring. There was a struggle; his wrist scratched against it. He toppled and began rolling lifelessly down the steps.

The attack ended as suddenly as it had begun; yet brief as it was it had afforded Batalagos an opportunity to waddle frantically down the steps to safety. Here behind a triple row of his spear-armed soldiers, he halted, and still quivering with fright, gaped up at the two Americans, who had retreated to the doorway of the temple, ready to dart behind its shelter should a spear be hurled or an arrow shot.

D'Albentara, who had dispatched the stunted half-breed on his fatal errand, came forward to join Batalagos. They began to talk and argue excitedly.

Vilak stooped and coolly laced one of his boots which had come untied. "Failed," he said. "Afraid it would. Still two facts in our favor, though. They're afraid of hand-to-hand fighting as long as I've got this ring, and it would be sacrilege to send spears or arrows as long as we're in the temple. Otherwise I'd say we're in a damned deep hole. I'm going to smoke. First chance I've had for a week."

He started to put his hand to his pocket. Halfway his arm became rigid. His face took on once more a pronounced Mongolian cast; once more his eyes became the sharp slanted eyes of some dreaming Pekinese philosopher. But it was only for an instant. Quickly his countenance became normal. He smiled.

"I'm an idiot," he murmured. "Just as I was about the ants and about the lakes above Prentiss' house. Cudgeling my brain to invent some mechanical means of escape when all the time there's been a natural force just crying to be used. Most certainly I'm losing my imagination."

His hand continued on its way to his pocket. Quickly he drew out two boxes of safety matches, examined them, thrust them back. "Give me any matches you have," he said to Nunnally. "Look in the lining of your clothes, too."

The old man searched diligently. In a moment he pulled out a smudged them, thrust them back. "Give me box, then another. These he extended to Vilak. "What . . . what are you going to do?"

Vilak put these matches with the others. "You'll see."

CAR TIPS OVER; TWO MEN DEAD

Two Others Badly Hurt in Accident Near Hamilton.

AUTOMOBILE SKIDS.

HAMILTON, July 18.— Two men were killed and two injured when their automobile skidded and overturned on the Niagara Highway east of Stony Creek, about 1 o'clock Saturday morning.

Harold Schreieber, aged 23, of Midland, was killed almost outright, and George Office, aged 17, of Chippawa, died in St. Joseph's Hospital five hours later.

Roy Cooper of Chippawa and Ulysses Benware, of Niagara Falls, N.Y., were both rendered unconscious in the accident. They also were removed to St. Joseph's Hospital and will recover, it is believed.

The four men left Chippawa about 11 o'clock Friday night en route to Midland, where they were going to spend the week-end. Cooper was driving.

As the car approached a point near the Terrace on the highway it swerved out to avoid striking a car said to have been parked without lights on the concrete. Cooper said his car skidded, left the road evidently and turned over. Neither he nor Benware could remember what happened after that. They are positive, however, that their car was not speeding.

Mrs. Langley McCarthy Teaches Bisotty New and Beautiful Work in CHINA PAINTING

BAILLAS GETS THREE MONTHS FOR CAR THEFT

Local Taxi Driver Sentenced For Taking Employer's Automobile.

CAUGHT AT BRIDGEBURG.

Companion Allowed To Go, But Must Leave City Immediately.

Three months imprisonment in jail was the price which Kenneth Baillas was called upon to pay this morning for a trip to the United States border in a car belonging to his employers, The Fontaine Livery of this city.

Baillas who was arrested at Bridgeburg, appeared before Magistrate O A. Langley, last Wednesday, when he was remanded until this morning for sentence. Chief Newhall stated in court, this morning, that along with another man, Baillas appeared at the boundary with the car and was turned back by the Immigration authorities. Later the pair made a second attempt to cross the border, this time in a street car, they having concealed the automobile in the neighbourhood.

Baillas on being asked by the Magistrate if he had anything to say for himself declared that he had not meant to keep the car.

The mother of the accused, who was in the body of the court, on being given an opportunity to speak on behalf of her son said that she believed that he was trying to shield someone else.

In passing sentence, His Worship, said it was a pity that a young man living in a country like Canada where every opportunity for advancement was open to him should choose to take the wrong path. The rights of property had to be respected.

It was clear that accused had intended to get into the States, even if he had to leave the car behind. The car might never have been discovered at all or only at a very great expense.

Joseph Ellis, of Toronto, who was in the car with Baillas when arrested, pleaded not guilty and the case against him was withdrawn, the police on making some investigations, coming to the conclusion that they could not prove a case against him. Chief Newhall said that inquiries showed that Eddis was picked up by Baillas outside Oshawa. Investigations showed that Ellis had not a very good record. Baillas had refused to speak concerning Ellis' connection with the crime.

Under the circumstanec, the Chief suggested that Ellis be given a very short time to get out of the city.

"Your more lucky than honest," said His Worship, addressing Ellis, who replied that he did not know the car was stolen.

Under the circumstances the Chief home," advised His Worship and Ellis left the box with a slight grin lurking on his face.

BOYS AND GIRLS IN HEIFER CLUB

Will Buy and Raise Ayrshire Heifers Under Club Plan.

FINE PRIZES OFFERED.

A Boys and Girls Ayrshire Heifer Club, under a policy put forward by the Federal Department of Agriculture, is being organized in the Peterborough district at the present time.

Each boy and girl agrees to purchase a pure-bred two year old heifer of approved breeding and type; to feed and manage the heifer after the purchase; to keep records of her milk production; and to show the heifer and her progeny in the club classes at the Peterborough Exhibition, in which classes excellent prizes are donated by the Department of Agriculture.

The organization is being carried on by by F. C. McKenzie, Dominion Live stock promoter, who is in charge of this work in the Province of Ontario and F. K. Hay, fieldman for the Ayrshire breed in this district with the co-operation of J. B. Nelson, of the local office of the Ontario Department.

The object of these clubs is to encourage among the young folks on the farms, a deeper interest in livestock of the better type. All animals placed with the club members will be of superior quality and it is hoped will be the foundation of superior herds in the years to come.

Though the Peterborough Ayrshire Heifer Club is practically organized now, there is no limit to the members and anyone in this district who is interested in the proposition should get in touch with Mr. Nelson either personally or by phone, at once, so that as many as possible of the cattle may be purchased at one time. All information regarding the organization may be obtained at the local office, 387 George Street.

Detective's Memory Credited to Accident

NEW YORK, N.Y., July 18. — (United Press). — The amazing memory of "Eagle Eye Gus," the detective recently promoted from patrolman for spotting and arresting the drivers of 85 stolen autos while stationed on Queensborough Bridge, resulted from a skull fracture he received when struck by a car two years ago.

"Before that," said Detective August Schalkman, "I had an awful time learning the general orders while I was in the army. Now I can't forget anything and automobile numbers are pie for me."

"Yes ... it's washable but use LUX"

How often a sales clerk has cautioned you thus in showing something extra delicate in texture and color. Experience with thousands of customers has taught them the safety of Lux . . . that there is no substitute.

PARK STREET S.S. HOLDS EXCURSION

Rain Interferes Somewhat With Attendance at Annual Outing.

The annual excursion of the Park street Baptist Sunday school was held on Friday last to Gore's Landing and Wallace's Point. Unfortunately it rained nearly all day, stopping no doubt many who patronize this excursion.

When the boat arrived back at Wallace's Point, the rain stopped and the sports were run off, and were keenly contested.

The results follow:

Boys, 5 and under: E. Byers, J. Sands and L. Smith.

Girls, 5 and under: H. Palmer, R. Campbell, Jean Matchett, B. Sands.

Boys, 8 and under: Lionel Campbell, Harold Saunders, M. Byers.

Girls, 10 and under: Winnie Snowden, Lola McKee, Gladys Rutherford.

Boys 10 and under: Maurice Dunkley, M. Garside, Lionel Campbell.

Girls, 14 and under: Marjory White, Margaret Snowden.

Boys, 14 and under: Bruce Harton, Roy McKee.

Young ladies' race: Miss Grace Irwin, Miss Elva Bundy.

Young men's class: William Saunders, D. Miller.

Married ladies' race: Mrs. Lorne Campbell, Mrs. Boyler.

Married men's race: M. Dunkley, P. Bullied.

Three legged race, girls: Grace Irwin and Annie Irwin; Ena Batley and Elva Bundy.

Three-legged race, boys: W. Saunders and P. Bullied; B. H. Smith and C. Chapman.

Biscuit eating contest, girls: Winnie Snowden, Marjory White.

Biscuit eating contest, boys: Earl Beattie, George Masters, and Roy McCabe.

Fat ladies' race: Mrs. Boyler, Mrs. E. White.

Potato race, open: Miss Grace Irwin, Mr. B. H. Smith.

Wheelbarrow race: 1 Mr. P. Bullied and Miss Elva Bundy; 2nd Mr. K. Goheen and Miss M. Thomas.

Two mixed teams captained by W. Saunders and B. H. Smith, then played baseball, resulting in a win for Mr. Smith's team.

After supper a delightful finish to a wet day was the nice sail home.

A lady's blue coat left on the boat can be secured from O. S. Matchett, 108 Gladstone avenue.

Banns Are Published Of Unique Wedding

LAKEVIEW, July 18.—An interesting forthcoming marriage was announced at yesterday evening's service in St. Nicholas Anglican Church. Rev. J. H. Colclough published the banns of the marriages of two brothers and two sisters who are next-door neighbors on Haig Boulevard.

This interesting double wedding will be between George Henry Wren and Sarah Ann Hutchinson, and Albert Thomas Wren and Henrietta Hutchinson. The wedding will take place on August 6.

The two sisters reside with their parents on Haig Boulevard, next door to the house where the two brothers live with their parents. Not the least interesting part of the arrangements is that they plan, after the wedding, to take up residence on either side of their parents' homes.

ADVERTISE IN THE EXAMINER

GIRL BANDIT, 19 CAUGHT IN BANK

Teller Fails To Obey Her Command To Hand Over $5,000.

NEEDED MONEY.

SAGINAW, Mich., July 18. — The Saginaw Police were endeavoring today to identify a blond, bobbed-haired girl bandit who yesterday attempted without success to get $5,000 from the paying teller of the Peoples Savings Bank just before the bank was to close for the day.

The girls said her name was Viola Harris and her age was 19. Two Flint addresses she gave proved on investigation to be purely imaginative. The Flint police could not place the girl from her description. Miss Harris said she had lived in Flint three months, coming from Detroit, but this could not be verified.

Authorities here believe the girl had a male accomplice who waited for her in an automobile, but the gray-eyed girl, who cooly shoved a decrepit revolver into the face of E. E. Speckhardt, the bank's paying teller, with the command "Give me $5,000, and make it snappy," refused to confirm the police in their suspicions.

The girl's boldness was thwarted when Speckhardt, with the revolver uncomfortably close to his head, dropped to his knees behind the cage and pressed the burglar alarm. Within a few seconds Patrolman Leo Forsythe with several hundred pedestrians flocking at his heels, rushed into the bank and disarmed the girl as she attempted to escape through the front entrance.

"I need the money to pay off notes and a mortgage, and thought that would be an easy way to get it," she told detectives.

The girl presented a check at the bank window which was drawn on the Industrial Savings Bank of Flint. The check was signed "Make It Snappy." and "8 $500 bills and 10 $100 bills" was written on it.

LIONS ESCAPE FROM CIRCUS

Maul Trainer Before Being Recaptured—Get Out During Performance.

AT KINGSTON, ONT.

KINGSTON, July 16.—(Canadian Press.)—Two of the large Nubian lions escaped at the evening performance of the Sells-Floto Circus here Friday night, and before they were recaptured Harry Mencken, one of the animal trainers, was badly mauled.

The accident happened as the lions were being returned to their cage after their exhibition in the big tent. By some means the end of the runway connecting with the animal's cage had become disconnected, and before they could be stopped two of the group of twelve had slipped out.

One was captured before it got very far, but the other one ran back into the main ... and under the seats, but was ...ed by only a few persons, and ...e was no panic. It got outside again, and circus employees, assisted by local police, endeavored to corner it.

Huge searchlights were used, and several of the trainers armed with guns gradually got the lion into a corner and captured it.

When the lions first made their dash for liberty they rushed past the spot where the elephants were waiting to be taken into the main tent for their act. There was an uproar in that section of the tent, and the elephant handlers had difficulty in quieting down their charges. As a precautionary measure they were all snubbed before they were taken in, since the management was anxious to avoid a repetition of what took place in Vancouver last year, when one of the elephants was missing for 45 days.

WANTED

Special representative, Lady or Gentleman, unusual opportunity. Education—reputation and address must be above average. Live at home—arrange your own time to call on present customers and others. A steady position—dignified— pleasant and remunerative—previous shoe experience not essential. Interview will be arranged.

GOOD LECTURE ON FIRST NIGHT

(Continued from Page 1)

of India to-night," he said "its people would find themselves relaxing into a condition of chaos and confusion and bloodshed, far worse than conditions prevailing before Great Britain went in." Egypt, he went on to say, enjoys under the mild rule of the British protectorate, a status analagous to that of Cuba under the Stars and Stripes. Mr. Imrie closed with an eloquent plea for a better understanding and comprehension of some of the problems in self-government confronting rulers in Great Britain and America alike.

Musical Program.

The Arcadia Novelty Company, forming the musical portion of the afternoon and evening entertainments, comprised a quartet of exceedingly talented and versatile lady musicians, who gave a sparkling and attractive program in the afternoon, and opened the evening entertainment with several loudly-applauded numbers. The enthusiasm which greeted their efforts of the afternoon was an earnest of the interest with which their delightful music was received. In song and dance, in quartet and solo numbers and in readings, they amused and entertained a pleased audience.

The quartet, composed of a piano, xylophone, violin and slide trombone, all of lady musicians, played the "Poet and Peasant" overature, and a medley of popular airs at the evening performance, and in the afternoon opened with the overture from "Orpheus," following later with a medley of old and new songs and selections from "Faust." A piano rendition of a popular number "My Little Girl," as played by the composer, by a nickleodeon pianiste and by a steam calliope, was a clever bit, and a hand-saw interpretation of the "Volga Boat Song" and "Aloha," was loudly applauded. Spanish and Dutch and Japanese songs were given, in costume, and the silver piano accordeon was played with songs by a Neapolitan street singer. Readings included "A Matrimonial Storm," and a mixed account of a radio broadcast of a wedding and an auction sale. Xylophone numbers included Kreisler's "Leibestrude," and a trombone solo was "At Dawning." Dances in costume, in graceful and dainty effect, were "In Arcady," interpreted to the strains of "Roses of Picardy," and a cunning doll dance, while wooden soldiers from a toy shop were represented in the concluding offering of a varied and delightful program, the four young ladies, dressed in the blue, white and red of soldier marionettes, doing a pantomine dance, and singing "Katherina" in unison.

The programs as announced by the manager, John R. Osborne include the Metropolitan Singers, in "Chimes of Brittany" for this evening's entertainment, a ventroloquist and a magician for to-morrow afternoon, and "The Patsy," the New York comedy triumph, for to-morrow evening.

The programs are given in the big Chautauqua tent, pitched on Confederation Square (Central Park.)

ST. PETER'S CATHEDRAL.

The observance on Sunday and its sanctification was considered at St. Peter's Cathedral yesterday morning by Rev. W. P. Meagher, in continuance of the series of sermons on the Ten Commandments. "Six days shalt thou work and the seventh day shalt thou rest from thy labuors" was the commandment given by God to Moses. Under the Jewish dispensation, the Pharisees thought so highly of the Sabbath that they considered it a sin to commit even a good action on that day.

The Church sets Sunday aside as a day of worship of the Lord and for meditation the immortal soul. Attendance at Mass is compulsory under pain of mortal sin, and the balance of the day should be spent in worthy ways. Rev. Father Meagher alluded to the practice of our forefathers, in reading chapters of Holy Writ or of the Imitation of Christ, on Sunday, and recommended strongly in Catholic homes the patronage and reading of Catholic papers.

ARGOS WILL COME LATER THIS WEEK

Regina Team Delayed By Arrangements Made in Montreal.

The Argos team, which was to play here this evening, will not come to the city until the week-end. The following telegram from the manager, is self-explanatory:

"Montreal, July 16, 1927.

"On our arrival here this afternoon we were faced with an extremely difficult proposition. Montreal wants the boys here on Monday. On their own initiative, Montreal have organised the thing on a huge scale, and have had Premier Taschereau bring his influence to bear. Valuating the affair as a national incident of high national import, both he and Mederic Martin argue that Peterborough would gladly retard the fixture in deference to the undoubted significance of Montreal, in this year of Hudson Bay Railway, showing particular kindliness towards the Canadian West.

"I leave the matter in your hands, but do plead that if our Peterborough game could be postponed to the 20th, 23rd, or 24th, together with the indeed opportune and kindly programme of the Rotary Club, it would be in the best interest of a united Canada. A wire will find me in Quebec City to-morrow morning, care of Dr. Philippe Hamel.

"Athol Murray."

A firm of motion picture producers in England recently advertised for six thousand bald-headed men to appear as "supers" in one of its productions.

RETURN FROM JUNGLES.

Mr. and Mrs. J. F. Clarke (Aileen Hughes) Back From Honeymoon.

TORONTO, July 18 (Canadian Press). — Following successful hunting trips in the jungles and forests of Indo-China, which constituted part of their honeymoon programme, Mr. and Mrs. James F. Clarke, Boston, arrived here to-day. Mrs. Clarke was formerly Miss Aileen Hughes, of Lindsay, Ont., daughter of the late Sir Sam Hughes, former Minister of Militia in the Canadian Government.

OBITUARY.

ST. THOMAS, Ont., July 18 (Canadian Press). — Daniel Lang, 86, a pioneer in the grain, lumbering, and fishing industry in Elgin County, died here to-day. He formerly lived at Eagle, Ontario, and for a number of years was engaged in mining and fishing at Haileybury. Four sons and three daughters survive.

MRS. ROGER TORPEY.

The death occurred this afternoon at 2.30 of Mrs. Roger Torpey, at her residence, 585 Elm Street.

Funeral announcements will be made later.

MRS. JOHN HARPER.

There died in Peterborough on Monday, July 18th, Fannie Harper, wife of John Harper, in her 97th year.

She leaves to mourn her loss a sorrowing husband, two sons, Percy Rubidge of Chicago, Stanley Rubidge of the Northwest.

The funeral will be held on Wednesday, July 20, from the family residence, 558 Romaine street, at 2 p.m. and proceed to the Little Lake cemetery.

MRS. CHARLES GUNSOLUS.

The death occurred this morning of Eliza Gunsolus, aged seventy-four, after a lengthy illness. The deceased has been a resident in this city for nearly forty years, coming here from Napanee. She was a member of George Street United Church.

She leaves to mourn her loss her sorrowing husband, Charles Gunsolus, one son, Harry, and one daughter, Mrs. Fred Matschke, all of this city.

The funeral will take place from the family residence, 544 Water street, on Wednesday afternoon at three o'clock. Interment will be made at the Little Lake cemetery, with the Rev. Mr. Brown officiating.

D. HUGHES CHARLES.

PORT HOPE, July 18.—Word was received here by cablegram Saturday morning, that D. Hughes Charles, one of Port Hope's most prominent citizens, had passed away in London, England. Deceased was born in Ireland and had gone over to Great Britain some weeks ago for a visit, having undergone a serious operation some six months ago. While Mr. Charles had somewhat recovered, he was not hale and hearty as he was formerly.

Mr. Charles had been living retired, but had been manager of branches of the Bank of Commerce in Galt, Woodstock, and Peterborough. A lover of horses, he was known the length and breadth of Canada as a horseman of repute and his services were greatly in demand as a judge at the various shows. An Irishman by birth, he had a strong penchant for Irish hunters and brought many of these animals to this country.

He was a staunch Conservative in politics and took an active interest in organization work, at the time of his death occupying the position of auditor of the local Conservative Association. In religion, he was an Anglican.

Mr. Charles died at the home of his brother, Havelock Charles, who was physician to King George when he as Prince of Wales took his memorable trip to India. Besides his widow, three sons survive: Major Allan, Montreal; Hal. of Pasadena, Calif., and David of Port Hope.

GOOD FISHING.

Three Fine 'Lunge Caught at Chemong Over the Week-end.

During the week-end several large lunge were caught at Chemong.

Charlie Forsythe landed two, which weighed eleven pounds each, and R Wilson caught one weighing eighteen pounds.

YOUTH FAINTS IN SHOW TENT

Excitement Causes Collapse of Young Man Watching Bout.

HAS RECOVERED.

Overcome by excitement while watching a wrestling bout in the athletic tent of the Miller Bros.' shows Vernon Nelson, a young man in his twenties, employed as a hired man with a farmer in Smith, fainted on Saturday night and was removed to the Nicholls Hospital where he was attended by Dr. G. Raymore Scott.

His condition was much improved yesterday. According to Dr. Scott Mr. Nelson will be ready for discharge either to-night or to-morrow.

OPERATORS NOW SAY "THANK YOU"

Change Made in Response of 'Phone Girls To Numbers.

Telephone users having occasion to make a call to-day have noticed a significant change in the response of the operator when the number is given to her. "Thank You," she says instead of repeating the number, and there is a note of genuine cordiality in her voice indicating a real purpose behind her words.

"Yes," said Manager Northgrave to a representative of the Examiner this morning, "the operators are saying "Thank You" to-day and we believe that already the practice has had a distinct appeal to our subscribers. You will remember that some time ago, instead of the more or less peremptory "Number?" that used to greet you when you lifted your receiver you were greeted by 'Number, please,' and that practice has been continued ever since. Now the "Thank You" following the announcement of your number is a logical follow-up, and we believe our patrons will appreciate it. It will mean a slight speeding up of their service, but mainly, it will emphasize the idea of a personal, courteous service.

"As you know," continued Mr. Northgrave, "We are laying great stress these days, like many other organizations, on the subject of Courtesy! Our constant appeal to our employees is that they should put the emphasis on the friendly, helpful attitude to our patrons. I believe we have never been unduly remiss in this regard, but certainly we wish to leave nothing undone to foster this friendly relationship. All that we feel is necessary to make this new step an unqualified success is that our patrons should give the number slowly and distinctly, speaking directly into the telephone mouthpiece.

"We believe that we can count on their co-operation in this respect."

MURDER SUSPECTS REMANDED AGAIN

George Plunkett and Nine Others Charged With O'Higgins Murder.

DUBLIN, July 18.— (Canadian Press.) — George Plunkett, son of Count George Plunkett, and nine others charged with conspiracy to murder Kevin O'Higgins, vice-president of the Irish Free State Council, appeared in police court today on remand. A further remand of one week was granted on the request of the police.

Bathing Suit Garb For Cycling In City

Clad only in a green bathing suit, a cyclist pedalled nonchalantly in front of the Canadian Packing Company's plant on Saturday forenoon. Dismounting at the Government Wharf he had a swim in the Otonabee for a few minutes. On emerging, he returned on his wheel and in the same garb.

Toronto Market Dull, Brazilian Only Feature

TORONTO, July 18. Canadian Press. — Brazilian Traction provided the only feature in a light and uninteresting market on the Toronto Stock Exchange to-day, with sales reaching 600 shares, this stock opening at 162¼ advanced rapidly to the high of 165½ and the close at this figure representing a gain of 3½ points. Massey Harris was prominent in the trading and moved forward 1-8 to 36½.

Seagram and Walker featured the liquor stocks the former gaining ⅛ to 22½ while the latter moved up 1 point to 49¼. British American oil was strong at 24¼ a gain of 5-8. International Nickel, was a soft spot at 61¼, a decline of one point. Page Hersey and Canadian General Electeral Eelectre were firm at 69 7-8 and 58½ respectively.

Drop In Trading Accompanies Rise

NEW YORK, July 18 (Canadian Press). — Resumption of the upward movement in to-day's stock market was accompanied by a falling off in the volume of trading. Profit-taking sales were rather heavy, due to the cautionary advices sent out by some of the larger commission houses, but they were generally well absorbed.

Operators for the advance were impressed by the continuance of easy credit conditions and the fact that the recent decline in industrial activity proved to be largely seasonal, with the autumnal outlook promising in most lines. Cabled reports that order had been restored in Vienna also had a bullish effect on the sentiment.

Pools were again active in a number of specialties, the current earnings of which appear to justify the special dividend distributions in the near future. New peak prices were registered by more than a score of issues, including Bayuk Cigars, Coty Inc., Manhattan Electrical Supply, and Bosch Magneto.

Amulet Features Active Mine Market

TORONTO, July 18. — (Canadian Press) — Amulet featured moderately active market on the Standard mining exchange to-day. With sales totalling more than 92,000 shares, it moved up five points to 295. Liquidation in McIntyre resulted in this stock dropping 325 points to 22.35, over 2,000 shares changed hands. Lake Shore was the firmest feature of the dividend paying gold stocks, advancing 170 points to 20.25. Wright Hargreaves was up three to 5.85. Noranda was stronger at 22.40 a gain of 15 cents. Central Manitoba Gold was prominent at 1.60 ,up three cents. Towamagac developed weakness and dropped 20 cents to 3.15. Vipond sold up three cents to 79 while Tough Oakes gained 1½ to 29.

Favorable Weather Brings Drop In Wheat

CHICAGO, July 18. — (Canadian Press). — Favorable weather northwest tended early to ease wheat values down to-day. It was generally admitted that unless hot, muggy conditions became wide spread no great damage from black rust would develop. Opening unchanged ½ cent lower, the wheat market later showed a material set back all round. Corn was relatively firm, starting at ⅜ cent decline to ½ cent advance and subsequently scoring general gains. Oats were inclined to sag. Provisions slanted upward.

Opening prices were: wheat, July, 1.42⅝; Sept. 1.40¼. Corn July 97⅜; September 1.02¾; Oats July 44; September 44¼.

HOPE APPEARS AT CONFERENCE

Three Powers Agree on Discussions of Auxiliary Surface Craft.

NEW LIMIT MENTIONED.

GENEVA, July 18 (Canadian Press).—An official communique which indicated that the tripartite naval conference has taken a favorable turn was issued to-day at the end of a meeting of representatives of Great Britain, the United States and Japan.

The communique read: "Following discussions in plenary meeting (last Thursday) and acting on a suggestion there made that one of the chief difficulties was to reconcile the views of the British and Japanese delegations, conversations have been proceeding between the three powers with respect to auxiliary surface craft with the purpose of bridging these differences. Progress has been sufficiently encouraging to warrant further examination of the matter in detail."

A ray of hope appeared through the dark clouds that have been hovering over the tripartite naval conference when it became known that Great Britain and Japan had agreed to take half a million tons roughly as a basis for discussion of the surface craft total for the United States and Great Britain.

FIRE GUTS POOL ROOM.

Fixtures and Tobacco Destroyed in Blaze at Brockville To-day.

BROCKVILLE, Ont., July 18 (Canadian Press). — Fire early to-day gutted the poolroom and tobacco shop owned by Charles Giroux, destroying all the stock and fixtures. Neighbouring properties were damaged by smoke. The cause of the fire is unknown.

CONDEMNED MEN ON HUNGER STRIKE

Sacco and Vanzetti Have Refused Food Since Saturday.

BOSTON, July 18.— (Canadian Press.)—Evidence that Nicolo Sacco and Bartolomeo Vanzetti were hunger striking in earnest was seen at the State prison to-day when Vanzetti refused anything except coffee at breakfast, while Sacco declined all food. The condemned men started their fast on Saturday when Vanzetti declared he would rather starve to death than "be killed on false evidence."

POLICE DOGS ATTACK GIRL

Tear Clothing From Body of Child Who Approached Home.

LITTLE ONE BADLY HURT.

TORONTO, July 18 Canadian Press. — Becoming lost when she went to look for her two sisters while out on a picnic at Port Credit yesterday, Aileen Smith the seven-year old daughter of Mr and Mrs. Harry Smith of this city, went to a nearby house seeking information as her whereabouts. She was viciously attacked by two police dogs, and every stitch of clothing, including her boots, was torn from her body, and to-day she lies in bed swathed in bandages.

CANADIANS HOLD MILLIONS IN CASH

Nearly Two Hundred Million Dollars in Circulation on June 30.

OTTAWA July 19. — (Canadian Press.) — Money in circulation on June 30 in Canada totalled $177,005,914.97, the Finance Department statement announces. Gold held by the Minister of Finance in June against notes in circulation totalled $105,700,181.54. Dominion notes outstanding against deposits of approved securities were $15,950,000. Dominion notes outstanding against the authority of the Dominion Notes Act were twenty-six million dollars.

ROTARY HEARS READING FROM SHAKESPEARE

Lester Stern, Chatauqua Entertainer, Gives Orations From "Julius Caesar."

SPLENDIDLY RENDERED.

Great Deal of Dramatic Force in Presentation of Great Speeches.

Something differing widely from the usual run of after-dinner speeches was heard to-day by the members of the Rotary Club at the weekly luncheon held in the Empress Hotel. Deputizing at very short notice for Father Murray, who with his famous boys' baseball club, the Argos of Regina, was unexpectedly prevented from coming to the city. Lester Stern, visiting Peterboro under Chatauqua auspices entertained the club with a dramatic monologue given the speeches of Brutus and Mark Antony from the Julius Caesar of Shakespeare.

Prefacing his recital with a short address of explanation, Mr. Stern described the scene as an example of selling worthy to be copied by anyone desirous to develop his powers of interesting the public. Mark Antony's speech, he said, was an illustration of the effectiveness of reserve; he "sold" the will of Caesar to his audience; playing on their emotions and withholding the reading of the document until the mob clamoured for a declaration of its contents.

Briefly, Mr. Stern sketched before the minds of his audience, the scene in Rome following the assassination of Caesar on that far off day in the year 44 B. C.; the dead body of the great Roman in the background, the proud, implacable Brutus with his fellow conspirator Cassius endeavoring to justify the murder of Caesar as an enemy to Roman liberty; the motley crowd of citizens and soldiers swaying to and fro like the corn in the field as their sympathies were captured by one after the other of the contending factions. Mr. Stern's voice rose and fell in the sonorous lines in which Brutus told of his stifling of the voice of love and friendship at the bidding of what he conceived to be the call of country; then followed the magnificent speech of Mark Antony over the bier of the fallen Caesar, delivered with passion and dramatic fire which thrilled the audience.

It was a splendid representation of the dramatic art of the great poet who has plumbed the heights and depths of the human heart.

R. H. Osborne, superintendent of the Chatauqua, made a brief address in which he eulogized the aims of the Rotary Club.

Two fine sextette pieces, a negro spiritual by Burleigh entitled "Heaven, Heaven," and a waltz song "Carmina," by Wilson, were sung oy the Metropolitan Singers, also on the Chautauqua programme today and were enthusiastically applauded by the members present.

The president of the club, A. L. Killaly, informed the members that on behalf of the organization he had written a letter of condolence to the family and associates of Rotarian Ralph Darrison of Lockport, N. Y., who died as the result of an automobile accident in George Street, three weeks ago.

TRAIN RUNS INTO REAR END OF 'BUS

Cooney and Jopling Vehicle Damaged at C.N.R. Crossing.

What might have resulted in a serious accident occurred this morning about nine o'clock at the corner of McDonnell and Bethune streets, when the yellow bus of the Cooney and Jopling Company was struck by the north-bound passenger train en route to Lakefield.

The driver of the bus had just taken the children to the summer camp at Jackson Park and was on his way back to the barn. At the time of the accident the bus was empty save for the driver, who escaped unscathed as the bus was struck in the rear end.

The bus was coming east on McDonnell street, and the driver apparently failed to see the approaching train before it was right on top of the vehicle. The back part was smashed off by the impact, carrying the rear seats into the road, but not damaging any of the lower part of the bus.

RUNNER BEHIND TIME.

Marathoner Passes St. Catharines on Detroit-New York Run.

S. CATHARINES, July 18.—(Canadian Press.) — Hugh Thompson, marathon runner, on a run between Detroit and New York, passed through here to-day, nine hours behind schedule. When he passed through the city Thompson was running easily.

IN POLICE COURT.

Four local men were fined ten dollars and costs each this morning, being intoxicated in a public place.

One of the quartette still slightly under the influence of liquor, was asked by Magistrate Langley if he had anything to say, shouted "Gurgosh, you had better let me go, service here."

A visitor to the city was charged with driving a car south on George street on Saturday night at a speed greater than twenty miles an hour, for which he was fined fifteen dollars and costs.

BRANDY FLASK HOLDS MESSAGE FROM AVIATORS

Boy Finds Bottle Containing Message in Mike's Cove, Newfoundland.

ON JULY 6TH.

Thought To Have Been Thrown Out By Nungesser and Coli.

ST. JOHN'F, Nfld., July 19 (Canadian Press). — "Nungesser Coli au secours." These words, believed to have been an appeal from the ill-fated French aviators, written in pencil, in a bold but shaky hand, were found on a piece of paper, inside a corked brandy flask, at Mike's Cove, Point May, Newfoundland, on July 6.

The discovered, Patrick Cousins, a boy of fourteen years, found the flask floating in the land wash. He had to smash the bottle in order to get the paper. The paper, about three and a half inches square, was evidently hastily torn off a large sheet. It was of a discoloured white.

Inspector J. H. Small, of the Postal Telegraphs, who, upon learning of the find, visited Mike's Cove, states that it is genuine. The inspector brought so far as the boy's story is concerned the paper to this city.

INSUFFICIENT EVIDENCE.

QUEBEC., Que., July 19 (Canadian Press). — The Quebec Government, according to an official of the Department of Lands and Forests, has decided there are not enough grounds in the rumours that Nungesser and Coli's plane might be in Labrador, to justify it in sending search parties northward.

This decision was reached following a message from Rev. J .T. Richards, stationed at Flower's Cove, Nfld., who, in response to an inquiry from Premier Taschereau of Quebec, wired that he had met a man called Johnstone, of Henley Harbor, Nfld., who claimed he had seen an aeroplane pass over Henley Harbour on Monday, May 9. The missionary stated he had conducted a search of the region, but although several weeks had been spent on this expedition, no trace of the White Bird or the missing airmen had been found.

VIENNA STRIKE COMES TO END

Parliament and Courts Will Clear Up Questions Arising From Riots.

COMMUNICATON RESTORED.

PARIS, July. 19.— (Canadian Press.)— The strike in Vienna has ended and all communication services have been resumed, the French Minister of Austria to-day notified the Foreign Office in Paris by telephone.

The Minister said that various political questions arising out of the disturbances of last week will be regulated by Parliament and the judicial questions of damages and the punishment of those who instigated the riots will be taken up in the courts in regular course.

The Market Place of the Com-

Thinking Guest Drowned, Woman Shoots Self; Despondent For Swimmer, Who Soon Appears

NEW ORLEANS, July 19. — Despondent over her mistaken belief that a friend whom she had invited upon a swimming party had been drowned, was believed to be the reason for an attempt to commit suicide yesterday by Mrs. Melville Charles Settoon, 25.

Mrs .Settoon was found in her bathroom with a bullet wound over her heart.

Physicians last night said Mr. Settoon discovered his wife when he was attracted by the sound of a shot as he returned from the garage to which he had driven his automobile. The two, accompanied by a woman friend, had just returned from the swimming party, believing that Jack Wood, 25, a Marine Corps private, attached to the local naval station, who had also been with him, had been drowned.

Wood, who they later found was safe, had become separated from the party when he swam some distance from shore. After calling and searching, Mr. Settoon said, they decided he had been drowned. Mrs. Settoon was much depressed, since she had invited Wood to accompany them. Police ascribed the shooting to Mrs. Settoon's highly nervous condition, brought on by belief that Wood had lost his life.

S. A. OFFICER IS PROMOTED

Adjutant Frank Ham Receives Rank of Commandant in Army.

OFFICER 17 YEARS.

Intimation of promotion to the rank of Commandant yesterday reached Adjutant Frank Ham from Commissioner Maxwell, Territorial Commander of the Salvation Army.

Commandant Ham was commissioned as an officer of the Salvation Army in 1910. One year later he was raised to the rank of Captain. In 1917 he became Ensign and in 1920 Adjutant. He has commanded some of the leading corps in Eastern Canada, particularly St. John and Moncton, New Brunswick, and London, Windsor and Toronto (Danforth), in Ontario, coming to Peterborough more than a year ago.

During his stay in the Maritime provinces Commandant Ham earned a widespread reputation for his fine social work, especially through his organization of the distribution of coal to the distressed populace of Halifax following the great disaster arising from the terrible explosion of the ammunition ship in 1916. The Salvation Army officer in response to an appeal from the Mayor of Moncton went to the succor of the stricken city, being one of the first to reach Halifax with assistance from outside. In the adoption of relief measures Commandant Ham was asked to take charge of the distribution of coal, a task which he fulfilled with his usual thoroughness and despatch.

The new honor has fallen to Commandant Ham shortly after a visit to the Old Country. In the spring of the present year he spent six weeks in England as a delegate to the International Young Peoples' Council, with representative Salvationists from practically every important section of the globe.

Like his predecesssors in office here, Commandant Ham is a member of the Rotary Club and has been prominently identified with every movement for the betterment of the social and spiritual life of the community.

FEAR EPIDEMIC AFTER BATTLE

Authorities Cleaning Up Ocotal, Where 300 Men Died.

BOMBS KILLED MOST.

MANAGUA, Nicaragua, July 19. — (Canadian Press).—Fearful of an epidemic, the authorities at Ocotal, scene of Sunday's seventeen-hour engagement between the forces of General Sandino, rebel leader, and a joint body of United States marines and Nicaraguan constabulary, are cleaning up the city, which has the appearance of a big graveyard. Flocks of great vultures descended upon the battlefield, over which the bodies of about three hundred of General Sandino's men lay scattered, most of the killed meeting death from bombs dropped by five airplanes.

OFFICIALS REPORT THIRTY-NINE CASES

Four Typhoid Deaths During the Past Week in Montreal.

MONTREAL, July 19 (Canadian Press).—Typhoid figures in Montreal for the whole of last week were 39 new cases and 4 deaths. On Friday five cases were reported; Saturday, three cases, and up to noon yesterday there were three cases. The Health Offices were closed on Sunday.

PROMOTED.

COMMANDANT FRANK HAM
Officer in charge of the local corps of the Salvation Army, who has been promoted to his new rank from that of Adjutant.

HUNGER STRIKE STILL GOING ON

Sacco and Vanzetti Have Refused Food For Three Days.

CONSULATE BOMBED.

BOSTON July 19.—Voluntary abstinence from food of Nicola Sacco and Bartolomeon Vanzetti, has entered its third day with Charlestown prison officials still inclined to attribute their fast to the hot weather rather than to admit the condemned men were actually on a hunger strike. Vanzetti continues to sip coffee and to refuse other food, while Sacco has declined everything.

The two men were to have been executed last week but executive respite was granted until the week of August 10th

Consulate Bombed.

NICE France, July 19. Canadian Press. — A bomb was exploded today in front of the building in which the American consulate is located. No one was hurt and only slight damage was done. The police have started immediate investigation.

(Since the conviction by the Massachusetts courts on charges of murder of Nicola Vacco and Bartolomeon Vanzetti the United States diplomatic missions in Paris, Sofia, Lisbon, Buenos Aires and Montevideo, have been bombed or threatened by sympathizers of the condemned men)

OFFICIAL REPORTS 'QUAKE DEAD 200

More Than Seven Hundred Hurt More or Less in Palestine.

LONDON, July 19. Canadian Press. —The Colonial Office has received a telegram from the acting High Commissioner in Palestine, dated yesterday, reporting the casualties in the recent earthquake as two hundred killed, 356 seriously injured and 375 slightly hurt.

KING NAMES PROFESSOR.

Nephew of Thomas Macaulay Gets Cambridge Chair in History.

LONDON, July 19. Canadian Press — George Macaulay Trevelyan has been appointed by the King Regius Professor of Cambridge University. He is a noted historian and a grand nephew of Thomas Macaulay.

FURTHER DISORDER AVERTED IN AUSTRIA WHEN PARTIES SURRENDER TO GOVERNMENT

Settlement Follows All Day Parleys Between Chancellor Seipel and Leaders.

PARLIAMENT ARBITOR.

Social Democrats Have Lost Prestige in Past Week By Obstructions.

VIENNA, July 19 (A.P.).—Danger of further disorders and bloodshed in Austria was averted last night by the unconditional surrender of the Socialist party and the Labor Federation. The settlement of the three days' bitter strife, which shook Austria to its foundations, followed all-day parleys between Chancellor Seipel and the Socialist burgomaster Seitz, the Socialist leader Otto Bauer, and the Labor chieftain Tomschisch. The entire dispute will be submitted on Thursday to Parliament, which the Chancellor insisted should be the final arbitor.

The United Government parties have greatly enhanced their political prestige at the expense of the Social Democrats, who have been carrying on obstructions against the Seipel Government for weeks past.

City Patrolled

The state of emergency continues in Vienna, and although conditions appear to be almost normal, the city is strongly patrolled day and night by regular volunteer police with rifles slung over their shoulders.

In behalf of Chancellor Seipel, Herr Kienbeck, Minister of Finance, announced the termination of the strike.

"The government," he declared, "has achieved a great success. Parliament will probably be convoked Thursday, and all the recent deplorable events discussed.

Rebuild Palace

"The Palace of Justice will be rebuilt. Fortunately all real estate records were saved from the flames. The Government appeals to the British and United States press to support it in its aims of securing indispensable foreign credits for Austria."

A public funeral for the victims of the riots has been set for Wednesday. The death toll in the vicinity of the Palace of Justice, the Parliament and other Government buildings is placed at 84, with fully 500 seriously wounded in the city hospitals.

No Complaints

Tourists are taking the situation philosophically. Early yesterday the women promptly set out on shopping expeditions when they learned that trains were not yet moving. The hotel managers announce that they have received no complaints from foreign guests of molestation. The reported intervention of foreign diplomats is branded as fantastic and unfounded by The Neue Freie Presse, which, with other bourgeois newspapers, resumed publication yesterday.

Army Loya!

From the office of the Chancellor a statement was issued asserting that the army remains absolutely loyal to the Government and condemning the Socialists for their attack on the police, who, it is contended, should not have been indicted before an unbiased hearing was had by parliament.

At noon yesterday the Seipel government was still deadlocked with the Socialists and Labor leaders in a desperate effort to bring about an agreement. Both factions apparently are seeking a strategic attack from the dilemma arising out of Friday's disorders. To this extent the Socialists are holding a general strike in abeyance as a club calculated to force concessions from Chancellor Seipel.

"I will not bow to the will of the mob," Chancellor Seipel is quoted as having said, while virtually a prisoner in the hands of the rebels. Siepel, with his back to the wall and threatened by visible and invisible opposition weapons, declared, "Perhaps the reconstitution of the cabinet is imperative, but it is not so imperative that one should be forced into it."

Work Resumed

LONDON, July 19 (A.P.).—Reuter's Vienna correspondent reports that all factories there resumed work yesterday morning and that the non-Socialist newspapers reappeared at noon. The police have arrested many Communists, including Herr Pierck, chief of the German Communists.

Bolshevist Blamed

The non-Socialist press regards the riots as due to a Bolshevist plot, and charge that emissaries from Moscow started the attacks on the police and thwarted the fire brigade.

In Styria an anti-Socialist citizens guard has delivered an ultimatum to the trade unions, demanding the immediate resumption of railroad services; otherwise the guard threatens to march on Gratz, the capital.

At Innisbruck the citizens' guard compelled many railwaymen to resume work, while throughout the Tyrol the railway stations are occupied by troops and student volunteers, who expelled the strikers' pickets, without meeting with opposition, and have started to run emergency services.

PRIVY COUNCIL HAS DISMISSED FUEL OIL CASE

Attorney General of British Columbia Loses in Suit With C.P.R.

IMPOSED TAX.

Defendants Were Upheld in All Courts—Beyond Powers of Government.

VICTORIA, B. C., July 19. Canadian Press. — Dismissal yesterday by the Privy Council of the case of the Attorney-General of British Columbia against the Canadian Pacific Railway over a claim to taxes on oil consumed by the company, makes invalid the provincial law, which sought to impose a tax of half a cent per gallon on all fuel oil consumed in British Columbia.

It is estimated that as a result of the decision the government will have to forego a revenue estimated by the provincial treasurer at $400,000 a year.

Some $200,000 had been collected before the constitutionality of the act had been questioned.

The defendants took the position that the imposition o. the tax was beyond the powers of the provincial government in that it amounted to indirect taxation, and were upheld in all the courts.

Argument before the Privy Council took place at the beginning of the month and judgment was reserved. E. P. Davis, K. C., and J. E. McMullen represented the Canadian Pacific Railway and the Union Steamship Company, also among those named in the case. W. H. D. Deb Farris represented the provincial government.

Pending the decision of the provincial government the tax has not been collected.

TWO CANADIANS IN GINGER GROUP

Col. Gault and Capt. Holt, British M.P.'s, Support Baldwin.

OPPOSE COMMUNISM.

LONDON, July 19 (United Press). —Two Canadian members of the House of Commons, Col. Gault and Captain Holt, have joined the new ginger group who style themselves as the "Young Apostles of undiluted Toryism." The groups are limited to twelve members, all of whom are opposed to the Socialist tinge in recent Tory legislation.

They call themselves the O.T.C., as opposed to the Y.M.C.A. Tories, who are young members with a weakness for progressive measures. The ginger group have declared loyalty for Premier Baldwin.

Besides the two aforementioned Canadians, the following are members: A. C. N. Dixey, J. G. Rice, Capt. W. D'Arcy, Capt. Arthur Evans, Col. Crookshank, Col. McInnis Shaw, Sir Cooper Rawson, Capt. Peter Macdonald, N. W. Smith, and Carrington W. Leverard.

Col. A. Hamilton Gault, D.S.O., O.B.E, a former Montrealer, has a distinguished war record, having been organizer and Commanding Officer of the famous Princess Patricia Regiment Capt. H. P. Holt, also a former Montrealer, is the son of Sir Herbert Holt, prominent Canadian financier.

OWEN SOUND, Ont., July 19. — (Canadian Press). — Alderman D. A. Christie, was chosen mayor of Owen Sound to fill the office left vacant by the death of Mayor James Leslie. His appointment to the position was made by unanimous vote of the City Council at a special session.

Survivor of "Pats" Held At Ellis Island

NEW YORK, July 19.—(Canadian Press.)—Daniel Farrell, 38, one of the survivors of the Princess Pats of Canada, is being held at Ellis Island, it became known to-day, awaiting disposition of charges that he is a resident of this country illegally. He is also waiting for friends to post the required five hundred dollars bond so that he may obtain his liberty while the case is under consideration.

Famed Rum Ship Bound For Davey Jones' Locker Captured By Prohibition Agents With Ale Cargo

DETROIT, July 19. — The Anna A., one-time flagship of the rum fleet plying between liquor warehouses on the Canadian side of the eDtroit River, and the rendezvous of the bootleggers on the American shore, has made her last voyage and hauled her last cargo of liquor.

She is to be blown up by prohibition agents at Cleveland to prevent her getting into the hands of liquor smugglers again. The battered hull of the 40-foot cabin cruiser, hauler of thousands of dollars' worth of illicit liquor during the four years her owners engaged in the cross-river traffic between Canada and the United States, will find a last resting-place at the bottom of Lake Erie.

The Anna A. was seized by United States agents on Wednesday when she docked bodly at a wharf in Cleveland with 2,000 cases of Canadian ale aboard. The crew escaped by jumping overboard. The cargo was destroyed by the agents.

Once considered speedy, the cruiser, in the evolution of the liquor traffic on the Detroit River, had outlived her usefulness a year or so ago, because she lacked the speed of the newer craft. They make from 30 to 40 miles an hour. The Anna A. in her prime never did better than 20. Her recent activities have been confined to the Lake Erie trade.

Lead from prohibition agents' pistols has dented and scarred her hull in many places; more than once she was seized, confiscated and ordered sold at auction. But she always found her way back to the business. Agents of the runners purchased her again each time she was sold at auction.

Her next port of call is "Davey Jones' Locker."

Children Interrupt Praise For Quietness

To the Scriptural saying, "Put not your trust in princes", Lester M. Stearns today probably feels inclined to add "or tiny children." Yesterday afternoon, during the course of his absorbingly interesting lecture on "Shakespeare and Life" just as Mr. Stearns paused to compliment the juvenile section of the audience on their excellent behaviour, two fair haired little rogues locked together in a Lilliputian due. Rights and lefts from hands and feet were exchanged with surprising frequency, until both contestants got in simultaneous counters, to the accompaniment of childish cries of pain and rage. At Mr. Stearns request, the two tearful, combatants were led out of the tent, one taking advantage of an opportunity to deliver a lusty smack at his quondom playfellow on the way to the exit.

Sounds of distress outside the tent, and later proceeding from the Murray street side indicated that hostilities were being continued on the way home.

BODY OF MAN FOUND IN DITCH

Unidentified Remains Found By Young Butcher's Driver Near Huntingdon.

MURDER MYSTERY.

MONTREAL, Que., July 19 (Canadian Press).—A murder mystery of first proportions is engaging the Montreal police as the result of the discovery by Willie Helm, young butcher's driver, of the body of a man in a ditch on the Malone-Caughnawaga highway, about three miles from Huntingdon, yesterday. A gaping bullet wound in the right side of the neck told how the man, as yet unidentified, had met his death. The mystery became further complicated by the finding, a few miles from the scene of the tragedy, of a woman's shoes and stockings, her dress and bloodstained undergarments. The authorities fear that this indicates a second victim.

What marks there were on the clothing of the murdered man were indecipherable. A short distance from the body, a .38 calibre cartridge was found and a short distance down the road some empty shells of the same calibre were picked up.

Late yesterday afternoon District Inspector Robie of Trout River, N.Y., about 10 miles south of Huntingdon, informed the police here that late Monday night a motor car containing a man, a woman and their chauffeur had approached the border and requested entry into the United States, but this was rejected following some false information.

The blood stained clothing found on the side of the road, near where the body of Adelard Bouchard, the taxi driver of Lachine, was found, and at first believed to have been worn by a woman, who had also fallen a victim to the taxi driver's killers, is now believed by the police to have been worn by an accomplice in the crime.

It is thought that the woman, who accompanied the two men who hired Bouchard to drive them across the border, and who was dressed as a bride, changed her clothes in the car, throwing the garments out on the side of the road.

A thorough search of the surrounding territory failed to reveal any signs of the woman, which led the police to accept the above theory.

PRODUCERS ASK IMPROVED MILK

Want Board of Health To Insure Good Supply to City.

FAVOR PASTEURIZATION.

G. P. Griffin, representative of the Ontario Milk and Cream Association to-day advocated to the local Board of Health steps to have better milk coming into the city of Peterborough. In an addrses to the Board, Mr. Griffin stated that many persons had the idea that his association was organized with the aim of enhancing the price of milk. "Of course," remarked Mr. Griffin, "we have to consider the price of milk for the manufacturing purposes, but our real object is to better the quality of milk; to make it safe for drinking, and no milk is really safe unless it is pasteurized.

"We have printed a paper that is wholly devoted to the milk producing industry—a paper advocating everything to advance the dairy industry—for we are trying to educate the producer in putting first class milk on the market, for they will be eventually paid back for their efforts, for milk is in demand, both in this contry and in the United States, more and more every day.

"We are asking co-operation from the Boards of Health in the different cities and towns to see that the premises from which milk is brought into your city and other places is in perfect sanitary condition and that the barns in which the cattle are housed, are in perfect condition also."

Mayor Holloway then stated that in his estimation it was a splendid forward movement, but owing to the absence of both medical health officers, it was impossible to vouch for complete co-operation at the present time.

A meeting will be held at an early date, at which a definite decision will be given on this matter. An exhibit showing perfect conditions "from the farm to the table," will in all probability be shown at the Peterborough Exhibition this Fall.

W. J. Seymour, president of the Peterborough Milk Producers' Association, and .. Hunter, vice-president, were also present at the meeting this morning.

DELEGATES OPTIMISTIC

Hugh Gibson Says Conference Discussions Continue Friendly.

SOME LIGHT AHEAD.

GENEVA, July. 19. — (Canadian Press.) — "We are more optimistic now than we have been for some days." Hugh S. Gibson, chief United States' delegate to the Tripartite Naval Conference declared after a conference this morning between the six principal delegates.

"Discussions are continuing in a most cheerful and friendly atmosphere," Mr. Gibson added. "We are beginning to see some light ahead."

U. S. Considers Proposal.

All phases of the new joint Anglo-Japanese proposals for limiting combined cruiser and destroyer tonnage to something like half a million tons were gone into by the United States' delegation to the three power naval conference at a meeting that lasted far into the night, but they finally separated without passing definite judgment.

GODFREY READY TO VISIT LOCAL SEWAGE PLANT

Promises Mayor Holloway That Advice and Assistance Will Be Given.

IMMEDIATE ACTION.

Experts Will Help City Find Way of Making Plant Run Properly.

Immediate action on the local sewage problem was yesterday promised to Mayor W. T. Holloway who accompanied by W. H. Bradburn, M.L.A., journeyed to Toronto and waited on Hon. Dr. Forbes Godfrey, Minister of Health in the Ontario Government.

Dr. Godfrey entered fully into the matter from every angle and at the close of the interview iprofessed himself to be entirely conversant with the nature of the difficulties preventing the working to the satisfaction of the city and neighbouring residents.

The Minister stated that if necessary, he would personally visit the plant and declared that all the expert advice and assistance of the department would be placed at the disposal of the Peterborough authorities to aid in finding the way out of the present impasse.

SECOND VICTIM IS BEING SOUGHT

Police Believe Slayers of Taxi Man Killed Woman, Too.

CLOTHING FOUND.

MONTREAL, July 19 (Canadian Press). — Police and citizens were scouring the territory near Huntingdon today in search of the body of a second victim believed to have been left in the trail of two men who murdered Adelard Bouchard, taxi service owner of Lachine, who was found dead in a ditch near Huntingdon yesterday. Near Bouchard's body was found clothing believed to have belonged to a woman who was with the two men.

ONE KILLED IN CAR ACCIDENT

Another Man Hurt When Automobile Upsets in Shallow Ditch.

NEAR CHATHAM.

CHATHAM, Ont. July 18.— Chas. Scott of the Pierce Scott Motor Co. Detroit, is dead, and Stuart Knott, also of Detroit, is in the Public General Hospital here, suffering from concussion of the brain and possibly a fractured skull, as a result of an auto accident, which occurred on the fourth concession of Harwich leading to Erieau about 6:30 last night.

Scott and Knott in company with Dexter and Herbert Goodison, of Erie Beach, were returning from a trip to Erieau. When about 300 yards below the Bisnett side road the driver lost control of the car and it turned over in a shallow ditch, pinning the occupants beneath it. No one knows what happened. No other car was near the scene at the time, but both Goodison boys escaped with a few minor injuries.

Dr. McPherson of Blenheim was called and removed Knott to the hospital here, where he is reported to be resting easier and is conscious at times. His condition is serious.

BUSINESS BOOMS FOR PLANE FIRMS

Imperial Airways Plans To Extend England-France Service.

LONDON, July 19 (Canadian Press). — Cross Channel flying is booming this year. The Imperial Airways report that since the last accident, in December, 1924, their planes have flown two million miles and carried 36,500 passengers in safety. A new air liner, carrying thirty passengers, is to be put into service shortly by the Air Union. The same company is planning a London-Marseilles service by night. Each plane will carry sixty passengers and will be navigated in the darkness by directional wireless.

MONTREAL MAN IS ARRESTED ON MURDER CHARGE

Antonio Grandolfo Will Be Arraigned For Shooting Woman in Apartment House.

KILLED IN HALL.

Arrested in Boarding House Five Hours After Murder Was Committed.

MONTREAL, July 19 (Canadian Press). — Antonio Grandolfo will be arraigned here today and charged with the murder of Mrs. Herve Menard, who was shot in an east-end apartment house late Monday night. Grandolfo was arrested about five hours after the murder at his rooming house on St. Dominique Street. Mrs. Menard was shot when, aroused by a scuffle in the hallway of her home, she emerged to intervene, and received a bullet from a pistol alleged to have been fired by Grandolfo.

Grandolfo was identified by his having been at the Menard house earlier in the evening and information was given to the police that it was he who had committed the murder, pursuers after the murder recognizing his "brick-brown suit." The names of some of Grandolfo's friends were known to the police and, on being seen by detectives, they described Grandolfo and gave his address. The arrest followed.

POST'S BED BUG POISON.

Post's Bed Bug Poison is composed of carbolic acid, Methyl Hydrate and Corrosive sublimate. When this preparation is used according to directions, it is sure death to bed bugs, cockroaches and insects of all descriptions. Two or three applications are all that is necessary, but as it is very poisonous, this preparation should be kept out of reach of children.

Sold at Lynch's Drug Store, 168 Hunter street.

15d-12, 15, 19, 22, 26, 29, 2, 5, 9, 12, 16, 19, 23, 26, 30-1957

HORSE KICKS SMALL CHILD

Little Hope For Recovery of Baby Brown of Bethany.

SKULL FRACTURED.

BETHANY, July 19.—The baby son of Mr. Dalton Brown, aged about three years, received serious injuries on Thursday when a horse running loose in the yard kicked him in the forehead fracturing his skull. Dr. Hamilton was called and deemed it wise to remove the small patient to Nicholls' Hospital, Peterboro. Very little hope is held out for the child's recovery.

THANKS EXPRESSED BY IRISH PRESIDENT

Premier King Receives Message From President Cosgrave of Ireland.

OTTAWA, Ont., July 19 (Canadian Press). — The Irish Free State, in a cable received yesterday by Premier W. L. Mackenzie King from William T. Cosgrave, President of the State Cabinet, expressed his sincere thanks for the Prime Minister's message of condolence respecting the death of Kevin O'Higgins.

Mr. Cosgrave's cable read:

"My colleagues and I desire to convey our sincere thanks for your kind message of sympathy, which we deeply appreciate."

Premier King's message of condolence was as follows:

"We have learned with deepest regret of the assassination of the Vice-President of the Council. We desire to convey to you our heartfelt sympathy in the irreparable loss suffered not only by the Irish Free State, but by al lthe sister nations of the Commonwealth."

CARD OF THANKS

Mr. and Mrs. James Carnite and family of Trent River, Ont., wish to express their deep appreciation and sincere gratitude for the many acts of kindness of their friends and neighbors since the loss of their home and contents through fire.

SCHOOL BOARDS ASK FOR $8,200

Lakefield High School Needs $2,900 and Public School $5,300.

ACCOUNTS PASSED.

LAKEFIELD, July 19.—The regular meeting of the Lakefield High School Board was held in the Council Chamber on Friday. There were present: J. W. Ridpath in the chair, and Trustees Rev. W. J. Creighton, H. R. Wagar and Dr. J. C. Smith.

Trustee Wagar presented the report of the Finance Committee and recommended payment of the following accounts:

G. M. Hendry, $25.50; E. H. Northey 75c; Richard Lees, $6; Kents, Ltd., $3.65; R. G. Lawlor, $75.65; Kents, Ltd., $4.95—total, $126.50.

The report was, on motion of Trustees Wagar and Creighton, received and adopted.

A communication was received from the Educational Department re examination results and certificates.

The Principal's report for the months of May and June was presented.

The treasurer's abstract of accounts for the first six months of 1927 was tabled.

Moved by Trustees Smith and Wagar: "That the Lakefield High School Board require the sum of $2,900.00 to meet the estimated expenditure for the current calendar year." Carried.

Moved by Trustees Creighton and Smith: "That the Board re-engage the present staff at existing salaries." Carried.

Public School Board.

The regular meeting of the Lakefield Public School Board was held in the Council Chamber on Monday evening.

There were present: J. W. Ridpath in the chair and Trustees G. H. Spence and B. Q. Dench. No quorum.

The minutes of the last meeting were read and, on motion, confirmed.

The Finance Committee presented a report and recommended the payment of the following account: The Lakefield News, $22.95.

On motion of Trustees Spence and Dench, the report was received and adopted.

The following correspondence was received: E. N. Moyer Co., re fountain; Richard Lees, re appointment of a male teacher; G. Hendren, re selling of lot; G. Simpson, re resignation from school staff; Miss Duff, Principal's report; Miss Sutton, application for position on staff.

On motion of Trustees Dench and Spence, the reports and communications were received. Carried.

The treasurer's abstract of accounts for the first six months of 1927 was tabled.

Estimates for the year were considered. Moved by Trustees Spence and Dench: "That the Lakefield Public School Board require from the village of Lakefield the sum of $5,300.00 to meet the estimated expenditure for the calendar year 1927. Nine per cent. from Douro and 91 per cent from Lake field." Carried.

Moved by Trustees Wagar and Ridpath: "That the Board accept the resignation of Miss G. Simpson and hope that her success as a teacher will continue in her new sphere." Carried.

Moved by Trustees Dench and Spence: "That Harry Wannamaker be appointed to the staff of the public school at a salary of $900.00. Carried.

BILLIARD PLAYER COMMITS SUICIDE

Former "Cue Magician" Believed To Be Man Who Died From Asphyxiation.

MONTREAL, Que., July 19 (Canadian Press).—J. L. Malone, described as having been a native of Virginia, and famous in his day as a champion billiard player and "cue magician," is the man who, police believe, committed suicide by gas asphyxiation here in a rooming house on St. Antoine Street. Malone is thought to have been recently in the employ of H. Wagner and Adler Company, 44 East 14th Street, New York City, as a travelling salesman. Malone, it was established, had left two pieces of baggage in a Windsor Street hotel, and through them the authorities identified him.

Newspaper clippings that filled a large scrapbook and three copper coins were all he left. The clippings, taken from the journals of 16 countries, described him and his uncanny control over the billiard balls, his trick shots and championship games. In all he is referred to as "former billiard champion," and in some "said to be a former champion of the world in billiards."

Letters to him bore addresses from Richmond, Va., Covington, Va., Knoxville, Tenn., and New York.

JURY RETURNS SUICIDE VERDICT

Woman Pointed Rifle at Her Head and Pulled Trigger With Foot.

LONDON, July 19. — (Canadian Press Cable).—At the inquest held into her death yesterday, it was brought out that Mrs. Sibella Wilson, who was found dead in the home of her sister at Charing, Kent, on Monday, had committed suicide by pointing a rifle at her head and pulling the trigger with her foot.

The evidence showed that her husband is a solicitor who went to Canada when he was unemployed three years ago to find work. Witnesses said there was no unhappiness between the husband and wife, and that arrangements had been made for the woman to join her husband when he had succeeded in making a home for them. A verdict of suicide while of unsound mind was returned.

ROYAL VISITOR WILL EMBARK ON SATURDAY

Prince of Wales Will Sail For Canada on Empress of Australia.

FROM SOUTHAMPTON.

Premier Baldwin and Party Will Accompany Heir to Throne.

LONDON, July 19 (Associated Press3.—The Prince of Wales, Premier Baldwin and party will embark at Southampton Saturday aboard the steamer Empress of Australia for Canada. The party numbers about twenty, including Prince George and Mrs. Baldwin.

The Prime Minister will also be accompanied by his son-in-law and daughter, Captain and Mrs. Gordon Munro, his son Windham Baldwin, and representatives of the Colonial and Foreign Offices.

The Prince of Wales is expected to stay in Western Canada for an indefinite period, but his itinerary is still incomplete, being largely in the hands of the Canadian Government. It is understood, however, that Mr. Baldwin will not accompany the Prince to his ranch near Calgary, Alberta.

HARVESTING TO COMMENCE

Rye Ready To Be Cut in Southern Alberta—Wheat Is Headed.

GREAT GROWTH.

LETHBRIDGE, Alta., July 19 (Canadian Press). — Rye harvest will start in parts of Southern Alberta this week, while wheat is rapidly approaching the ripening stage, and harvest will start about the middle of August. Spring wheat is more than 50 per cent. headed out, and shows a very heavy stand. The first crop of alfalfa is half harvested.

The past week has been a combination of heavy rain and warm weather, with the result that growth has been phenomenal. The heaviest rains for the week were received at Cowley and Stirling, with over three and two inches respectively. Hail losses so far are small.

CHURCH PARADE.

L.O.L. 442 Attends Divine Service at Bonar Law Sunday Evening.

MARMORA, July 19.—The largest congregation seen in some months was present at St. Mark's, Bonarlaw, on Sunday evening, it being the occasion of the annual church parade of Springbrook L.O.L. 442. The service was in charge of the Rev. J. B. Creegan. The lessons were read by Rev. A. B. Caldwell who also preached to an attentive congregation on the subject of Religion and Patriotism, choosing as his text, "Fear God, honor all men, love the brotherhood, honor the King." Rev. J. B. Creegan, J. F. Baker and A. McComb sang "Art thou weary, art thou languid." The choir and congregation combined most heartily in the singing of appropriate hymns.

GOOD NAME IS DISPUTED

For quite a long time the white man has taken it for granted that the word "Muskoka" was derived from the name of the famous Indian doctor or conjurer Misquedoh; but one who takes as his authority the "Atlas" written by W. E. Hamilton Esq., has disputed this through the columns of the Press and claims that "as Amerigo filched the honor of sponsorship of this continent from Columbus, so the crafty conqueror Misquedoh (Clear Sky) has been chronicled as the god-father of Muskoka, in place of the undaunted chief tain Mesqua Ukee."

To those who know it, however, the Muskoka district will always be the land of "clear skies" and sparkling waters, and to these as to others who would this year make their first acquaintance with this most glorious and convenient holiday resort district, the Canadian Pacific Railway offers a very complete service. Write W. Fulton, District Passenger Agent in Toronto or ask any Agent for particulars and handsomely illustrated booklets and folders.

13-19-30

DYSENTERY IS DANGEROUS CHECK IT AT ONCE

is the remedy you should use.

It is not an experiment, but a tried and proven preparation that has been used in Canada for the past eighty years for all bowel complaints.

Price, 50c. a bottle at all druggists or dealers; put up only by The T. Milburn Co., Limited, Toronto, Ont.

BIG HAIL STONES FALL AT APSLEY

Some Two Inches Across Picked Up During Storm on Wednesday.

APSLEY NEWS.

APSLEY, July 19.—During the thunderstorm last Wednesday afternoon, the largest hailstones ever seen in this vicinity fell, some by actual measurement being 5 inches in circumference, many measuring 2 by 1¾ inches. Stanley Windsor could hold just six in his hand at one time.

A quantity of hay has been cut in the neighborhood but the heavy rains during the week have retarded operations somewhat.

Fishing is reported good in all lakes, and some fine salmon have been caught in Loon Lake, these fish biting more freely than last year. All the cottages on Jack's Lake are occupied by tourists, while more accomodation is needed both here and on Loon Lake.

A dental clinic was held at the Red Cross Hospital last week when no less than forty-nine children were given free treatment. These all came from north and east of the village. Those in the southern part of the district will receive treatment later.

Trout and Long Lake News.

Trout and bass are reported plentiful in Trout and Long lakes, several good catches having been made by the following visitors at Trout Cottage: G. Mitchell, B. Fetch, T. Johnston W. B. Mitchell, H. May, H. Thornton, all of Toronto; T. Leslie, Georgetown; J. C. Cook, Glenwilliam; George B. Mitchell, Toronto; A. Gelinas, Rochseter; Mr. and Mrs. Holmes, Toronto; James Redpath, Dr. Renwick, M. Crawford, and W. Stabler, Lakefield.

HAY CROP HEAVY; HARVESTING SLOW

Rains Delay Work of Cutting in Burnbrae District.

BURNBRAE, July 19. — Though handicapped by frequent showers and much cloudy weather, the local farmers are getting a good deal of hay into the barns. The warm weather of the last few weeks has given the later hay crops a big boost and one of the heaviest crops on record is being handled.

Fall wheat and rye are ripening fast and promise good yields. The early barley is also ripening and oats are in head with fine prospects following the many warm showers.

The strawberry season is about over after a very heavy crop. A fine crop of raspberries is almost assured now and the wild varieties are already ripening.

Mr. Kendrick of Pennsylvania State and Mr. Foster of Prince Edward County, were recently in this district buying purebred Holsteins. A few high class grades were also purchased to fill the car if enough purebreds could not be obtained.

Among those selling were Messrs. E. C. Pollock, Charles Hutcheson and H. Stolts. Good prices were paid, ranging up to $200 a head for pure breds.

The necessity of having all cattle going out of the country tested for T. B., raises the question again of a speedy entry into the proposed restricted area for the United Counties. This would be a great boon to the Campbellford district, which is already noted as the home of many of the finest dairy cattle in the province. A much better market could be secured if buyers had a guarantee of cattle being free from T. B.

Personal.

A number from Burnbrae, Hoard's and the English Line, went to Rochester last Wednesday on the Bay of Quinte Young People's excursion. Among them were Mr. and Mrs. F. Heagle, Mr. and Mrs. O. Grills, Misses V. Dunk and M. Milne, Messrs. Fry, W. Stollery, K. Oddie, R. Oddie.

Mrs. Arthur Blue, Senior, and daughter, Mrs. T. L. Tartar and family of Welland, spent some days recently with Mrs. Robert Millar.

Messrs. Orland and Everett Bertrand of Rochester also visited Mrs. Millar last week.

Mrs. Charles Nelson of West Sevmour, is visiting relatives in the community.

VOTE ON BY-LAW ON AUGUST 8

Officials For Election Are Appointed By Havelock Council.

HAVELOCK, July 19.—A special meeting of the Town Council was held on Thursday evening with the Reeve and Councillors Leeson and Gordon present.

Monday, August 8th, was the date set for taking the vote on the by-law for the drainage scheme. T. Easterbrooke was appointed deputy returning officer and W. J. Holcombe, poll clerk.

INVITES PRINCE.

Kingston Asks Royal Visitor to Come to Regatta in August.

KINGSTON, Ont., July 19.—(Canadian Press.)—An invitation is being extended to the Prince of Wales and Premier Stanley Baldwin to attend the Lyra Regatta on August 6th. It is expected that between eighty and a hundred boats will be here, and between 600 and 700 sailors.

Thieves Take Tires Off Havelock Car

HAVELOCK, July 19.—William Davidson's garage was broken into on Tuesday night and two practically new tires were stolen off his car.

FARMER DROWNED WHILE FISHING

Slips From Sand Bar Into Deep Water Near North Bay.

NORTH BAY, Ont., July 19 (Canadian Press). — Slipping from a sand bar into deep water at the junction of the North and Mattawa Rivers, about fifteen miles from here, Lawrence Vaillancourt, 40, a French-Canadian farmer at Redbridge, was drowned on Sunday morning at 9.30 o'clock.

Vaillancourt had left his home on Saturday night on a fishing trip in company with his thirteen-year-old son and a sixteen-year-old neighbour. While fishing from the sand bar, Vaillancourt lost his balance ,tumbling into the deep eddy hole at the junction of the two rivers.

The boys were unable to render aid.

The body was recovered about four o'clock in the afternoon when neighbours were summoned and fished the body out with pike poles. Vaillancourt leaves a wife and three small children.

OBITUARY.

MRS. T. B. STAPLES.

The funeral of Elizabeth Keegan, wife of Thomas B. Staples, Hamilton, took place from the home of Mr. William Tinney, Cavan, on Friday. Interment was in the Ninth Line cemetery. The Rev. J. O. Totten was the minister in charge.

Mrs. Staples came to Peterborough to attend the funeral of the late Mrs. Edgar Burnham. She became ill and died in a few hours.

She leaves to mourn her loss, her husband, one daughter, Mrs. Cunningham and 2 granddaughters of Hamilton, two sisters, Mrs. Casey, Valentia, Mrs. Margaret Staples, Cavan, also two brothers, James and Edward Keegan of Cavan.

DANIEL LANG

ST. THOMAS, Ont., July 19 (Canadian Press).—Daniel Lang, pioneer in the grain, lumbering and fishing industry in Elgin County, died at his home here yesterday, aged 86. He formerly lived at Eagle, Ontario, and for a number of years was engaged in mining and fishing at Haileybury. He had a long record of municipal service. Colonel Malcolm Lang, M.P., of Haileybury, is a son. Three other sons and three daughters survive.

CAMPBELLFORD BOWLING.

AT CAMPBELLFORD

CAMPBELLFORD, July 19.—The following rinks had possession of the Campbellford Bowling Green last night:

Gillespie (skip), Mrs. E. Burks and V. M. Marks versus T. S. Tait (skip), Mrs. A. J. Jenkins, and Tom Varcoe. Gillespie 20, Tait 15. In the 15th end, Gillespie scored 6.

Mrs. Glover, Mrs. Wiggins and Mrs. Fred Tait versus Mrs. Stewart, Mrs. Birmingham, and Mrs. Smith. Wiggins (skip) 9; Birmingham (skip) 14.

Tait, Archer and Wragg versus Wilkinson, R. W. Rider and W. J. Armstrong. Tait (skip) 17; Wilkinson (skip) 22.

LEGISLATION NOT TO BE INTRODUCED

British Government Will Postpone Amending Franchise Act Until Next Year.

LONDON, July 19 (Canadian Press) —Premier Stanley Baldwin stated in the House of Commons yesterday that the Government does not intend to introduce at the coming autumn session the projected legislation extending the franchise to women on the same terms as men.

This means that the initiation of this legislation, which has been strongly demanded by numerous women's organizations, will be postponed until next year at least.

Following a long and strenuous campaign by the women of Great Britain for equal suffrage, the Prime Minister in April announced that the Government had decided to introduce legislation granting women of twenty-one the right to vote. It was further stated that the women enfranchised under the Bill probably would be able to vote in the next general elections, which normally would occur about November, 1929. It was understood in April that the Government planned to introduce the Bill this autumn.

WEDDING BELLS.

ALFORD—McKEE.

LAKEFIELD, July 19.—A marriage which has a considerable amount of local interest took place quietly in Rochester, N.Y., on Wednesday, July 6th, when Jean Blair McKee, youngest daughter of the late Mrs. and David McKee of Co. Antrim, Ireland, became the bride of Donald Hamley Alford of Rochester, elder son of Mr. and Mrs. R. H. Alford of Lakefield. The bride looked charming in a white sports costume, with hat and shoes to match. She was attended by Miss Rhoda Alford of Belleville, sister of the groom, while Mr. C. Proctor of Rochester acted as best man. After a short motor trip they will reside in Rochester.

FLOOD—CARLIN.

ENNISMORE, July 15.— A pretty June wedding was solemnized on Tuesday morning, June 5th, at St. Mary's church, Lindsay, when Margaret Irene, eldest daughter of Mr. and Mrs. Peter Carlin, became the bride of Mr. John Flood, of Detroit, son of Mr. and Mrs. T. Flood, of Ennismore.

The bride, who was given in marriage by her brother, Joe, wore a lovely gown of white satin with overskirt of Chantilly lace. A veil was worn, caught with a bandeau of orange blossoms, white kid slippers, white silk hose and a bouquet of ophelia roses and lily of the valley completed the bride's costume.

The bride was assisted by her youngest sister, Armeda, who wore a gown of tea rose flat crepe with white mohair hat and carried a bouquet of sweetheart roses and fern. The groom was supported by his brother Hubert, of Ennismore.

After the ceremony a wedding breakfast and reception was held at the home of the bride's parents.

Mr. and Mrs. Flood left later for Niagara and Detroit. The bride travelled in a navy blue georgette dress, rosewood coat and hat, shoes and stockings to match.

Those from a distance were: Mr. and Mrs. A. Downey, Messrs. C. and H. Downey, Mr. Leo Flood and Mr. B. Lyons, of Detroit, Mrs. N. Dare of Buffalo, Mr. andd Mrs. N. Wilkinson, London, Miss K. Gibbons, Yingham, Mr. and Mrs. H. Flood, Mr. Fergus Crowley, Mr. and Mrs. B. Flood, Ennismore, Mr. T. Hutton, of Tonawanda, Mr. O. Downey of Detroit, Mr. and Mrs. J. Flood, Miss Mary Flood, Ennismore, Mrs. H. McKale, Mt. Clemens, Mr. Joe Carlin, Pontiac, Miss Marion Carlin, Ann Arbor.

BLACK KNIGHTS HONOR BROTHER

Addison McDonald is Guest of Honor on 81st Birthday.

52 YEARS IN ORDER.

CAMPBELLFORD, July 19.— The perplexities, troubles, cares and irritations of this work-a-day world were not in possession of the password to admit them to Ackerman's lunch parlours last night, where tre Royal Black Knights Preceptory were doing honour to one of their oldest and most highly esteemed fellow members. Addison McDonald, who yesterday celebrated the 81st anniversary of his birth, and the 52nd anniversary of his connection with the Campbellford lodge.

It was at the close of the regular meeting of the Order that the members betook themselves to the restaurant and with feasting and the re-calling of the days that are gone, the 81st anniversary of the birth of their guest of honor was fittingly celebrated.

Sir Knight J. I. Adams proposed the toast to the guest of honor and this was responded to by Sir Knight James McDowell, who played "For he's a jolly good fellow."

After extending the heartiest congratulations to Mr. McDonald upon reaching the 81st milestone on life's highway and the unanimous expression of the hope that many more milestones would be reached, the singing of the national anthem concluded the pleasant affair.

HEAVY TRAFFIC ACROSS OCEAN

About 25,000 Canadians Are Abroad This Year, Mostly in Europe.

OTTAWA, July 19.—(Canadian Press).—Frequent surveys are made of the American tourist trade to Canada, but there are no estimates of the value of the Canadian tourist trade to Europe. This year the passports branch of the Department of External Affairs has issued over 18,600 new passports and renewed 1,800 passports previously issued. Many persons hold passports issued during the past five years and these are not checked by the department when the individual goes abroad.

It is conservatively estimated that nearly 2,500 Canadian are abroad this year, mostly in Europe. The passport office has two busy seasons in the year. In the spring when people are planning their summer travels and before Christmas when many old country people are planning to leave for the home land. Including the probable Christmas travel of this year this migratory element in the population of the Dominion may reach 30,000 persons.

THE TOUR OF CONTRASTS — A NEW THRILL, JULY 25TH-AUGUST 15TH, 1927.

Would you like to have some new conversation? To tell about Banff and Lake Louise, to have your circle shrug with jealous mien at the wonder tales? Then come along with Sinclair Laird and his band of adventurers, Over the Great Divide. Enjoy the shivers of a motor trip clinging to the Windermere Road. All the petty details of reservations, hotels, drives, sight seeing arranged beforehand by the Director under the auspices of the Canadian Pacific World's Greatest Travel System. The Luxury Tour of Confederation Year. And the cost just what you expect. Ask J. Skinner for Tour Literature now.

Casford Concert Company Here at Chautauqua

A distinctive concert company will be an interesting attraction of the Dominion Chautauqua here this season. This notable organization, the Casford Concert Company, presents a program of rare charm and genuine musical excellence.

Violin, piano and harp form the instrumentation of the company. Many beautiful selections are given with varied combinations of these instruments. Instrumental solos form an important part of the program and are splendidly rendered.

Fern L. Casford, the pianist of the company, is well known to Chautauqua audiences, having spent several years in Lyceum and Chautauqua giving complete programs alone. She is one of the best readers and impersonators in the entire Chautauqua field, and the group of readings, many of them humorous, which she will present here, is a striking feature of the program.

Winifred Casford, a sister, is a violinist and soprano of unusual merit. The third member of the company is Byrne Smith, well-known harpist. Miss Smith's solo numbers on this stately instrument have a never-to-be-forgotten loveliness.

MOSQUITOES — prize wreckers of sleep! Kill them at once, with Flit.

Flit spray clears the house in a few minutes of disease-bearing flies, mosquitoes, bed bugs, roaches, ants and fleas. It searches out the cracks where insects hide and breed, destroying their eggs.

Flit kills moths and their larvae which eat holes. It will save your clothing, furs and rugs. Clean and easy to use. Will not stain.

Flit is the result of exhaustive laboratory research. It has replaced old ineffective methods. Fatal to insects but harmless to mankind. Recommended by Health Officials. Buy Flit and Flit sprayer today. For sale everywhere.

CASTLETON NEWS.

CASTLETON, July 19.—Mrs. James A. Arkils and Velma motored to Detroit on Saturday where they will spend a week with their friends, Mr. and Mrs. Ernest A. Spencer.

Mr. Claude C. Arkils has returned to Detroit after spending a couple of weeks with his mother.

Mr. Charles Quinn is having a new house erected.

Miss Alva Bowen, who was successful in getting her second class certificate, has been engaged as teacher at the Waite school.

The meeting of the Women's Institute was held at the home of Mrs. Hiram Moore on Thursday. A large number of members were present and a good program was given.

Miss Laurel Arkils has returned after visiting her sister, Mrs. H. A. Harrison, Latta.

Twelve months ago the first lilac colored lobster was captured off the Sussex coast. Recently another of the same delicate shade was caught.

AIRPLANE RACE END OF MONTH

King's Cup Prize in 510 Mile Contest in England.

KEEN COMPETITION.

LONDON, July 19.—(Canadian Press).—The air race for the King's Cup this year is expected to be the best of the series. It will take place on July 30, over a distance of about 510 miles, and will probably be flown over circuits of 170 miles each around Nottinghamshire, near the Hucknall Aerodrome. This will bring the race into an area of England which has shown considerable enthusiasm for flying. Nine light airplane clubs are now associated with the Royal Aero Club—Halton, Hampshire, Lancashire, London, Midland, Newcastle, Norwich, and Norwich-and-Suffolk.

SCHOOL REPORT

Millbrook Public school June report:

Senior Room.

THE CHAUTAUQUA.

Peterborough's Chautauqua season is under way with a more than excellent programme offered local patrons, the various features being chosen not only because of their individual merit but because combined they comprise a varied and always interesting menu.

The Chautauqua plan supplies an opportunity for many communities to hear well-known orators, listen to music by clever artists and enjoy a theatrical performance of much merit, the whole supplied at comparatively low prices because of the method of organization and the season of the year at which the Chautauqua is held.

Ordinarily many of these features would not be available, but the Chautauqua method makes the visit of well-known attractions possible, and the result is a delightful series of entertainments.

This year's session of the Chautauqua offers much that is novel and interesting, and the patronage should be on a par with the merit of the programme.

WHERE THE FISHING IS.

Good fishing is reported from the lakes of the north where United States tourists, striking further into the woods with their motor cars, are reaching waters that a few years ago were only infrequently visited by anglers.

The cars with the license numbers of many States passing through Peterborough these days do not always stop at the well-known resorts; in fact, a large percentage of motorists go well north where they find fishing at its best.

As a matter of fact, these visitors have the edge on local anglers, who for some reason or other have as yet failed to realize the fishing opportunities that await the man who will seek them out.

While local car-owners confine their expeditions to well-known district points or follow the better roads, our tourist friends boldly sally northward and brave somewhat indifferent roads for the good catches they are sure are awaiting them at the end of the journey.

INFANT MORTALITY.

The figures issued by the Dominion Bureau of Statistics as to the infant mortality records of the various Provinces should give those who doubt the value of public health service something to think about.

Taking care of the public health pays.

That cannot be doubted when it is realized that two infants less than one year of age die each year in Quebec, while one dies in Ontario.

The infant mortality in the Province which leads the Dominion in its attention to public health matters is the lowest in the country, while in Quebec where efforts to protect the health of the community are weakest 142 infants out of every 1,000 born last year died before they reached the age of one year.

The mortality rate in Ontario, low as it is in comparison with that of Quebec, can be further reduced, and the efforts of every community should be devoted toward that end.

Here in Peterborough there is still room for improvement, in spite of the progress that has been made.

MR. OLIVER'S RETIREMENT.

A picturesque figure is retiring from public life in this country in the dropping out of office of Hon. John Oliver of British Columbia, who except for one brief interval has been a member of the Legislature of that Province for twenty-seven years.

Mr. Oliver's career stands as a shining example of what Canada offers to a man who is willing to work.

He came to Canada as a boy with no capital but with plenty of energy, brains and the desire to get on, found employment on a farm, worked in the quarries and in the woods when there were slack times on the farm, and finally at the age of twenty-one years left his home in Ontario and established a farm for himself in British Columbia, winning through to success.

He has had a notable public life in the Legislature, and his efforts on behalf of British Columbia on the transportation issue and in other matters has meant much to that Province.

The fact that a painful illness is causing his retirement will win sympathy for Mr. Oliver over the whole Dominion.

THE WISDOM OF TAFT.

(From The Hamilton Spectator.)

Among all the American friends of Canada there is no one who is more at home among us than Hon. William Taft, Chief Justice of the Supreme Court and an ex-President of the United States. He has just taken up his residence anew at Murray Bay, on the St. Lawrence, for the summer, where he is comfortable and quite at home among friends. Mr. Taft has been able to solve for himself the problem of how to best employ himself at what he finds congenial and at what he finds himself most adapted for doing. This is an unsolved problem with men and the experience of any other man like Mr. Taft should be encouraging.

There were numerous messages of congratulations for Canada on the occasion of the Diamond Jubilee, but there were none which indicated genuine appreciation in the same manner as was shown by the message sent over by Mr. Taft. The message of the ex-President read: "The example you gave in the world war of national and world spirit of sacrifice established you forever as a nation whose part in international councils must always be reckoned with. You have assumed great burdens growing out of the war, and have most difficult problems in carrying that burden, including your railroad obligation. But you have the resiliency of youth, the resources of a rich, imperial domain, and you have in your people the spirit that makes for national advancement toward higher and better civilization. I am glad thus to testify to my deep and affectionate interest in the Dominion and its people."

In those words Mr. Taft sees a bright outlook for Canada, based upon the record and example in war, the assumption of post-war burdens, the wealth in the material resources of Canada, and, finally and most important, the resiliency of national youth and the spirited people who make national advancement and higher civilization possible. If we Canadians would only keep in mind when there is conflict of interests that there is a reserve of influential Americans like William H. Taft who regard the highest things of life as the best, there need be slight concern about the remarks of idle and superficial talkers.

CRITICS OF GOVERNMENT.

The Rev. Dr. W. Russell Bowie, a New York rector, comes out strongly against heedless and cynical critics of the government. There is no more hurtful thing in public life, he says, than the tendency to think cheaply and speak cynically on the whole matter of government, using the words "politics" and "politicians" with a sneer. If politics has become mean and degraded, Dr. Bowie believes, it is because the people have indifferently allowed it to become so. It is because they have forgotten or disbelieved the great meaning of the nation and that fact that those who share its creation are fellow-workers with the dignity of the plans of God.

Dr. Bowie's criticism is well-founded and thoroughly justified. The men who sneer loudest and speak most critically of politics and politicians are the men who, in most cases, do the least toward improving the very conditions of which they complain. They will not attend political meetings. They will not take a hand in endeavoring to secure the best possible men for public offices. In many instances, they will not even bother to vote. How, then, can they have the nerve to criticize the result of their own carelessness and indifference?

How often one hears the remark: "All politicians are crooked?" Could anything be more unfair, more unjust, than this? It is not even partially true. As a matter of fact, very few politicians are crooked. There are bad men in politics just as there are bad men in every line of human activity, but one should not condemn politics because of the failure of the few. Most of the men occupying public office or taking an active part in the work of directing the business of the nation, the Province or the municipality, are honest and well-intentioned. They deserve praise and encouragement instead of sneers and insults.

As has been said on more than one occasion, Governments of all kinds are invariably a true reflection of the people who place them in office. If a Government is weak, this is so because of the weakness of its electors. If a Government is careless and indifferent, one may put it down for a fact that the electorate is careless and indifferent. The way to secure the best in government—be it Federal, Provincial or municipal—is not difficult. It consists, merely, in the great mass of the people taking an active and intelligent interest in the choosing of the men who are to represent them.—Border Cities Star.

PUBLICATION OF ELECTION EXPENSES.

An interesting situation has developed in the Western Ontario riding of Oxford South as the result of the commencement of legal proceedings by an Ingersoll man against the sitting member, Thomas M. Cayley, for failure to make the statutory returns to the returning officer of his election expenses. The plaintiff in the suit, which may or may not come to trial, asks the sum of $25,000 from Mr. Cayley in consequence of his alleged neglect to file such returns, that sum being made up of $500 for every one of the fifty days in which the member occupied his seat in the House of Commons.

Section 79 of the Dominion Elections Act very clearly stipulates that within two months after the candidate returned has been declared elected, the official agent of every candidate shall transmit to the returning officer "a true signed statement" setting forth the amount of the expenses of both the official agent and the candidate. It is further provided that within ten days after the receipt of this statement the returning officer shall publish at the expense of the candidate a summary thereof with the signature of the official agent "in one and the same newspaper published or circulated in the electoral district wherein the election is held."

The penalty for the member failing to make such a return is set forth in these words: "If the said return and declarations are not transmitted before the expiration of the time limited for the purpose, the candidate shall not after the expiration of such time, sit or vote in the House of Commons as member until either such return and declarations have been transmitted or until the date of the allowance of such an authorized excuse for the failure to transmit the same, as in this Act mentioned, and if he sits or votes in contravention of this enactment, he shall forfeit five hundred dollars with costs for every day on which he so sits or votes to any person who sues therefor." It is in compliance with these paragraphs of the Act that action has been taken against Mr. Cayley. This is believed to be the first case of the kind which has arisen since the adoption of the new Act in the year 1920, and the result will be awaited with much interest.—Brockville Recorder and Times.

EDITORIAL NOTES AND COMMENT.

The Conservative convention will share honours with the wheat crop this year as a publicity-gainer for the West.

The services of a swimming instructor are available without charge to the citizens of Peterborough. The opportunity should not be missed.

Membership in the Peterborough Industrial Exhibition helps you and helps the Exhibition. You will join eventually, why not now?

Several cars flying only the Stars and Stripes were seen here last week. Friends of those responsible should give them a warning.

Apparently nothing shrinks so much in water as the field of entries in a swimming marathon.

Adam was told to earn his living by the sweat of his brow, but these days it is done with regard to the whole anatomy.—Brantford Expositor.

A Wisconsin girl killed a bear with a rolling pin, but we doubt that the feat will bring her a single offer of marriage.—Columbus Dispatch.

The pedestrian who allows the grass to grow under his feet soon finds it growing over his head.—Detroit News.

Five American railroads intend to add airplanes to their passenger equipment. Is this a harbinger of level crossings in the sky?—Border Cities Star.

Mrs. E. A. B. remarks: "Gardens and husbands both need raking over occasionally to develop the best that is in them."—Boston Transcript.

Members of the younger generation are alike in many disrespects.—Arkansas Gazette.

Trouble with present-day marriage crops is that they are too divorcified.—Wall Street Journal.

TORONTO LIVE STOCK.

TORONTO, July 19.—Market opened with a good active demand for choice heavy cattle for the export beef trade. Extra quality steers sold up to $9.25. Good to choice quality butcher steers and heifers were moving freely from $8.25 to 8.75. All other grades in fair active demand, considering the rather heavy run of over 4,000 cattle. Prices on all top grades a shdae firmer than last week.

Choice butcher steers quoting firm at $8.50 to $9, and heifers $8 to $8.50. Good steers and heifers steady from $7.50 to $7.75, and medium to common from $6.50 to $7; choice baby beeves, $11 to $12.

Bulls steady from $5.25 to $5.75, for choice quality light weights.

Stocker trade continues quiet.

Calves were in a strong market.

Hogs firm at $10.15 selects, off cars.

Lambs strong to a dollar higher at $15 to $15.50.

Hogs, off cars, selects	10.15	....
Hogs, selects, f.o.b.	9.25	....

MONTREAL GRAIN AND PRODUCE.

MONTREAL, Que., July 19 (Canadian Press). — There was a general improvement in the inquiry from foreign buyers for grain in the Montreal market yesterday, and although the volume of business in Canadian spring wheat was only of a moderate character, exporters stated that the prospects were more encouraging. The demand for rye was fair and quite a few sales were made for prompt and nearby shipment, while the trade in oats and barley was quiet.

In the domestic market sales of No. 6 grade Manitoba spring wheat were made to local exporters at 38c to 38½c per bushel under the Winnipeg July option, c.i.f., Montreal.

Owing to the reduction in the premiums for oats in the Western market, a weaker feeling developed here yesterday, and prices for Canadian Western grades were reduced 1½c to 3c per bushel.

With the exception of a sale of a few odd lots of low grade flour to English importers over the week-end, the local market was dull, but prices were unchanged.

Owing to the good demand from United States sources for all lines of millfeed, the undertone to the local market was firm, and indication are that values will be revised in the near future. The trade in standard grades of rolled oats was quiet but firm.

The trade in butter continued of a limited character, but the undertone was steady. The receipts were 932 packages.

The feature of the cheese trade was the sale of 2,000 boxes of Western No. 1 cheese to United States operators at 18½c per pound waxed. The trade on spot was quiet and prices were firm. The receipts were 9,653 boxes.

The egg market was quiet but firm. The receipts were 1,454 boxes.

Grain Quotations

Oats, Canadian Westerns, No. 2, 73c.
Oats, Canadian Westerns No. 3, 70c.

STERLING EXCHANGE

MONTREAL, Que., July 19 (Canadian Press). — Sterling exchange rates were quoted here yesterday as follows:

Sterling demand—$4.85 13-16.
Sterling cables—$4.86¼.

WINNIPEG GRAIN.

WINNIPEG, Man., July 19 (Canadian Press). — Wheat values underwent a mild decline on the Winnipeg grain market yesterday, prices fluctuating with a narrow range throughout the dull session to close ⅝c to 1⅜ below Saturday's finish.

Export demand was lacking, the small volume of business being confined to local interests. Conflicting reports of crop damage in storm-swept grain-producing areas and cereal rust scares, made trades very cautious.

There was some spreading in the oats market, and holders of barley were unloading.

CHICAGO CATTLE.

CHICAGO, July 19 (Canadian Press). — Clear, cool, breezy weather allayed fear of black rust yesterday, and the wheat market underwent a decided setback. Closing quotations on wheat were heavy, 2⅛c to 2⅜c net lower. Corn unchanged to ⅜c up and oats ¼c to 1¼c down, and provisions varying from 12c decline to a rise of 2c.

Corn future deliveries displayed firmness throughout the day owing largely to 1,526,000 bushels decrease in the corn visible supply, and as a result of mixed reports about progress of the corn crop. There was much simultaneous purchasing of corn against selling of wheat. Oats ruled easy, influenced by wheat. In the main provisions reflected the upward trend of hog values and of corn.

CHICAGO GRAIN.

CHICAGO, July 19 (Canadian Press). — Cattle, 26,000; best fed steers, $14.40; few loads, $14.00 to $14.35; yearlings, $13.25; yearling heifers, $12.35; most vealers to big packers, $12.00 to $12.50; outsiders, $13.00 to $13.50.

Hogs, 40,000; best 170 to 190 pounds weight, $10.65; 160 to 200 pounds, $10.50 to $10.60; bulk desirable 210 to 250 pounds, $9.35 to $10.35; most packing sows, $7.50 to $8.40; pigs $8.50 to $9.00.

Sheep, 14,000; choice Idahos, $14.45; top Westerns to city butchers, $14.25; bulk good natives, $13.50; fat ewes, $6.00 to $7.00.

VOICE OF THE PEOPLE.

ABOUT MIDWAYS.

Dear Editor:

Would you please spare me a space in your paper to express my views on midways, also to hear the public opinion of having these midways in our cuty, such as the last.

It is a shame that they are allowed to cross the border at all to take away good Canadian money by fraud and misrepresentation of their side shows.

While some of the side shows are all right and some games of chance give the player a chance of winning the majority are by far from honest. Monte Carlo is known the world over as a gambling place; there people have a chance to win but with most of the games on the midway here their chances are slim as many know to their sorrow (writer not included).

I have watched many being swindled out of dollars and dollars without a chance to win, then some of the touts who travel with the shows come up and make a big winning to egg the poor deluded player to try again. All this going on supposed to be within the law.

I should say that before these midways are allowed to open that the proper authorities investigate and see that everything is on the square and that the sideshows are as represented not fakes and that they be under observation during their stay here.

Thanking you, Editor, and hoping to hear the views of others in this matter, I remain,

Yours for
FAIRPLAY.

ENTRANCE EXAMINATIONS

MILLBROOK, July 19.—Successful candidates who wrote on the recent entrance examinations at Millbrook and Bailieboro include the following, the letter H after a name indicating honors. Candidates will receive their certificates in the immediate future, those failing to pass having a statement of their marks mailed within a few days' time:

MILLBROOK CENTRE.

Brown, Newton; Carveth, Langton (H); Challice, Alita; Clarke, George; Dawson, Bessie; Delong, Gordon; Doak, Albert; Duncan, Donald (H); Franklin, Eileen; Hard, Ted; Hawkins, Harold; Henry, Donald; Henry, Grant; Hootan, Roy; Howson, Eva (H); Huggins, Orlando; Ingram, Carmen; Ingram, Vaneta; Kennedy, Helen; Lamb, Eloise; McBain, Malcolm; McMahon, Annie; Mitchell, Lila May; Morton, Hazel; Olan, Stella; Rowland, Raymond; Russell, Garnett (H); Russell Margaret; Skitch, William F.; Smith, Ruth; Todd, Gerald; Todd, William (H).

BAILIEBORO CENTRE.

Anderson, Jean (H); Atchison, Raymond; Bateman, Arthur (H); Brackenridge, Ernest (H); Carl, Pearl; Cruse, Viola; Cunningham, Ruby (H); Dawson, Dorothy (H); Dawson, Mildred; Dawson, Robert; Dean, George; Gilmour, Florence; Harper, Clifton (H); Henry, Gordon; Hoskin, Percy; Howson, William; Martin, Oswald; McArthur, Arvilla; Mercer, Leta; Smith, Wilbert.

J. W. Odell, I.P.S.,
Northumberland and Durham.

LAKEFIELD CENTRE.

LAKEFIELD, July 19.—The results of the entrance examinations in the Lakefield Public School showed that the record of past years was fully upheld in every particular, and congratulations are being given to Miss Duff, who has for so many years worked so faithfully and in such a whole-hearted manner for the success of her classes. Five of the pupils who passed only spent one year in the fourth book, as they passed into the Junior Fourth just one year ago, and of these five, one, Robert R. Spence, took the coveted county prize and Dorothy Sutton and Ruby Tedford took honors, and the other two, Roger Davis and Betty Montgomery, passed.

The following is the list of the pupils of the Lakefield School who passed:

Honors: Ethel Blakeley, Ione Sanderson, Robert Spence, Dorothy Sutton, Ruby Tedford, Marion Wagar.

Pass: Patrick Allen, Eileen Brown, Janet Charlton, Roger Davis, Mary Dever, Hector Edwards, Marion Miles, Betty Montgomery, Bregetta McManus, George Stenner, Herman Wilson, Harry Wingett, Pearl Young.

Out of a class of twenty-one, nineteen passed and six with honors, which is creditable to both teacher and pupils.

BETHANY CENTRE.

BETHANY, July 19.—The result of the entrance examination which was held here is as follows:

Out of 23 candidates writing the following were successful:

Leone Dawe (H), Fenton Fallis (H), Muriel Fallis (H), Edna Beer, Wilma Beer, Helen Crerar, F. Cardwell, Frances Fallis, B. Fallis, C. McCullough, P. McMahon, N. Neals, R. Richardson, G. Strong, Robert Sisson, L. Simpson, L. Staples, Etta Whiteside, L. Wright.

BOY'S HEROISM IS UNAVAILING

Elder Brother Dies of Burns Received on Electric Light Wires.

AT TOP OF HIGH POLE.

TORONTO, July 19. — How a 9-year old boy made a brave attempt to save his brother's life became known yesterday, with the death of Percy Veitch, aged 11, of 4 Louvain avenue, at the Hospital for Sick Children. The lad died of burns received when he climbed forty feet up an electric power pole in the country on July 12th last, and became entangled in some charged wires. The boy was so badly burned about the upper part of his body that he failed to rally from the shock and injuries.

Young Veitch and his nine year old brother were playing out in the country, when the elder lad foolishly climbed the pole. The younger boy stayed behind. The climber had scarcely reached the top of the pole, forty feet above the ground, when his body came in contact with the wires. The shock which ran through him caused him to struggle to free himself. This resulted in his becoming entangled in the wires. The charged wires ignited his clothes.

Seeing his peril the younger boy courageously ascended the pole.

There hanging high above the ground he beat out with his puny hands the flames, not letting up until the last spark was extinguished, and he had released his brother from the ensnaring wires.

This done, the younger boy descended the pole to the ground. Accosting a man who happened to be close by he told him what had occurred and asked assistance. Accordingly the man climbed up the pole and brought the injured boy to the ground.

Young Veitch was nursed at home for a while, then his condition becoming worse, he was removed to the hospital, where he died.

CAMPBELLFORD NEWS.

CAMPBELLFORD, July 19.—Misses A. G. Locke and H. L. Haig are holidaying in New York and Atlantic City.

Mrs. George Dickson and Mrs. MacLaren are the hostesses at the regular weekly bridge at the Campbellford Bowling Club this afternoon.

Mr. and Mrs. Drummond of Winnipeg, are on a visit to Mrs. Drummond's mother, Mrs. Hurst, of town.

Mr. and Mrs. C. W. Bates, Miss May E. Bates, R.N., and Mr. and Mrs. Earl Williams motored to Peterborough on Sunday evening. Mrs. Bates is remaining in Peterborough, where she will undergo an operation at the Nicholls Hospital.

Lloyd Copperwaite, of Hamilton, is here on a visit to his mother, Mrs. Copperwaite, Grand Road.

Attorney and Mrs. Payne spent the week end at their summer cottage at Bradley's Bay.

Mr. and Mrs. Frank Bewick and Miss Aileen, of Toronto, are the guests of Mr. and Mrs. Earl Williams.

Miss Clemena Ivey, captain of St. Andrew's Girl Guides, who left town last week as a delegate to the Presbyterian Sunday school convention at Toronto was persuaded upon while in Toronto to go to Normandale Lake for a few weeks in an advisory capacity in connection with religious work for girls.

Messrs. Frank and William Blue, of Newark, N.J., motored over on a visit to their parents, Mr. and Mrs. James Blue.

Mr. and Mrs. C. A. Roe and children, of Cornwall, are visiting Mr. and Mrs. Henry Abernethy and Mrs. Frank Hart.

St. John's United church annual school picnic takes place on Friday.

Lightning killed many sheep and cattle in this district on Sunday. Among those suffering loss of sheep was Alex. Pirie, of the 9th concession of Seymour, who had three killed. Mr. Willis, on the boundary is reported to have lost three cows.

WORK STARTS ON NEW SCHOOL

Chariman Arnott Turns First Sod on Monaghan Structure.

DONE BY DAY WORK.

Carrying out the work with local help laboring by the day instead of formally letting out the job by contract, School Section No. 2 of North Monaghan commenced this morning the erection of the new building on Park Street. A. J. Arnott, chairman of the Board of Trustees, turned the first sod. Fred Finnie is exercising supervision over the work.

The new school will be built of red brick, will contain four rooms, and will be a duplicate of May's School except for the fact that it will have a flat roof.

There were two teams and three men on the job this morning—a force which, it is anticipated, will be considerably augmented in the near future.

RECTOR APPOINTED.

Rev. Stanley E. Morton Goes To St. Luke's Church, Kingston.

KINGSTON, July 19.—Rev. Stanley E. Morton, rector of Leeds Rear, with residence at Lyndhurt, has been appointed to St. Luke's church here, in succession to Rev. J. Depencier Wright, who has been appointed to Kemptville.

Rev. Mr. Morton has been at Lyndhurt for six years, and prior to that served at Wolfe sland, Maynooth and Rorder and was in the Chaplain service during the war, serving at Calgary.

GOVERNMENT BUYS ADDITIONAL LANDS

Patients To Be Removed From Hamilton To Rockwood Hospital, Kingston.

KINGSTON, July 19.— (Canadian Press.)— The Ontario Government purchased fifty acres of land adjoining Mowat sanitorium at Portsmouth and will develop this land for farm and produce purposes in connection with the institution, which is now a part of Rockwood Hosptial for the Insane. At the same time it was announced that to relieve the overcrowding at Hamilton, forty-four patients have been removed from Hamilton Hospital to Rockwood, thus bringing the number of patients here up to approximately six hundred.

CAR ROLLS OVER TURNING CORNER

Six Young Men Have Narrow Escape From Serious Injuries.

GUELPH, July 19.— When their large sedan turned turtle twice, finally landing in the ditch with the wheels uppermost, six Fergus young men had a miraculous escape from serious injury and possible death on the road between Guelph and Eden Mills. As the youths were turning a corner about a mile from that village their car swung completely around and rolled over, throwing the passengers out. Reginad Manly, of Fergus, the driver, was the most seriously hurt, sustaining painful cuts and bruises about the head. He is at present in the Royal Alexandria Hospital, at Fergus. The others, among whom were Frank Ball and Messrs. Mason and Warnock, received a number of bad bruises and were all suffering considerably from shock. The car, owned by S. Fardella, of Fergus, is a total wreck.

The injured young men were brought to Guelph by passing motorists, who took them to local doctors, from whom they received medical attention. They were afterwards taken to Fergus.

RAILWAY DISPUTE NEARS SETTLEMENT

C. N. R. Executive Reaches General Agreement With Employees.

MONTREAL, Quebec, July 19. — Canadian Press. — The dispute between the Canadian National Railways executives, and the dining, sleeping and parlour car employees of the company, is near settlement. A general agreement has been reached between the company and the officials of the Canadian Brotherhood of railway employees through the board of conciliation it was stated to-day. Details have yet to be settled before the board's report can be submitted to the Minister of Labor but it is understood the report will be unanimous along the lines of the former majority report.

In the former report a majority of the board recommended increases in wages acceptable to the employees, while a minority advised a lower scale of increase, which the company insisted on and put into effect. A strike vote was taken the ballots of which are now tabulated. The result of the vote is being withheld from the public by the brotherhood executives, pending the outcome of the present negotiations.

LIMIT ON WOMEN IS UNNECESSARY

Enrolment at Oxford Has Not Justified Recent Ruling.

OXFORD, Eng., July 19.—(Canadian Press).—Since the congregation of Oxford University decided to limit the enrollment of women to one for every four male students, much comment, derisive or humorous, has been indulged in. One thing would seem certain, and that is that the "female peril" is by no means so great as to "justify the action for some time to come.

Women are hardly stronger at Oxford than Cambridge. At Cambridge, in the recent examinations, their most ardent advocate could hardly say they were shining lights. The time when women could beat the men would seem to have passed. Even in modern and medieval languages, in which the women used to do better than men so far as numbers were concerned, the women this year were left far behind.

The only Tripos in which the fair sex even held their own, was recently introduced Geographical Tripos. In the second part of this Tripos one woman and one man share premier honors, while the first part first-class honors are divided between five men and three women. Among the three women was Miss C. P. Smuts, daughter of General Jan C. Smuts.

However, the co-eds, as they would be called in Canada, may take heart from the remarkable success of Miss Gertrude E. Trevelyan, who is the first woman to win the Newdigate prize for English Verse at Oxford. Miss Trevelyan declares she sent in the prize poem "for a joke" and that she had written very little verse before she attempted to win the prize. The winning effort was 250 lines of blank verse on the prescribe subject, "Julia, daughter of Claudius." Miss Newdigate is at Lady Margaret College, and her fellow students were extremely gratified at her success.

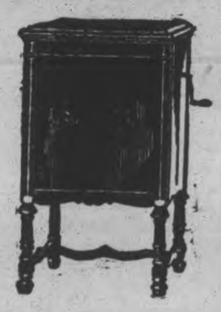
Williams Piano
New Scale
ENDORSED BY GREAT MUSICIANS



Brunswick
Panatrope

Who We Are!

TO THOSE WHOM WE DO NOT MEET
ON OUR STREETS EVERY DAY,—

For a quarter of a century the name of Greene Music Company has been associated with the business life of Peterborough. It has always been the desire and wish of the Company to transact its business with its various customers on the same basis as it would like to be treated and dealt with, in other words, good values, with proper and fair treatment to all.

We invite the citizens of our County and Townships to visit our Display Rooms at any time. Come to rest or leave your parcels. In fact, make it your central depot and enjoy music's re-creation on some of our splendid instruments.

J. M. Greene Music Company
Charlotte Street

Williams New Scale Pianos are made in Canada, by one of our oldest manufacturers. They are worthy of your confidence, and we ask you to consider their merits when purchasing. They are very moderately priced.

The new Brunswick Panatropes have been selected by His Majesty King George V., H.R.H. the Prince of Wales, and H.R.H. the Duke of York for their own private apartments. What greater recommendation would be desired.

R. NEILL Limited

350-354 GEORGE STREET

SINGERS DELIGHT LARGE AUDIENCE

Musical Programme Last Night Entitled "Chimes of Britanny."

"The Chimes of Brittany" presented at the Chatauqua tent last evening, was greeted by a large sized audience which appeared very appreciative of the programme offered by a sexteete of vocalists and a clever pianist. Judging by the applause from the crowd, this was a very popular entertainment. It comprised a variety of music, from the sacred numbers of the first section, when a choir setting was afforded by the cathedral windows in the background and the cassocks and white surplices of the singers, to the concert hall atmosphere of the second portion, with its draperies of gold silk, the singers garbed in evening dress.

This mixed sexette of 3 ladies and three gentlemen make a very fine ensemble. Their voices, of varing calibre, blend harmoniously at all times, and they sing with effective ease and extremely fine technical ability. Their repertoire is of a wide range and every number presented last evening was greeted with appreciative applause.

In the section devoted to music of religious type, with organ and chimes accompaniment, one of the soprano soloists opened with excerpts from "The Messiah," singing also the "Ninety and Nine." In unison, the sextette gave "The Lost Chord," Kipling's "Recessional," and "Beautiful Isle of Somewhere."

The second, secular portion of the programme opened with the swinging strains in unison, of "The Blue Danube Waltzes," and a charming arrangement of a darky lullaby, set to Dvorak's "Humoresque." The popular "Valencia" followed, with a soprano solo, "Somewhere, Somebody's Waiting for Me," and an encore in "Grandma." Friml's "Alice's Holiday" was another attractive selection the sexette, with "By the Waters of Minnetonka," "Ma Lindy Lou," "Kiss Me Again," "Mary Lou" and "Uncle Moon."

The trio of lady singers sang very effectively "Love's Old Sweet Song" and "I Passed by Your Window," and a conclusion to the program was the ensemble rendition of the famous Sextette from "Lucia Di Lammermoor."

An outstanding feature of the evening's entertainment was the playing of the pianist, who gave from memory, by request of the audience, lengthy excerpts from various operas. He played from "Lohengrin," with the wedding music as an opening, from "Faust" with the swinging "Soldiers' Chorus," from "The Student Prince," emphasizing the 'stein" song, from the "Habanera," and "Toreador Song" of "Carmen," from 'Aida" and from 'Il Trovatore," the 'Home to Our Mountains" and "Ah che le mtoer" selections wining him renewed applause, for his wonderful memory and clean-cut executions.

In the afternoon, preceding the lecture, the Metropolitan Singers gave a short musical programme, the numbers including a sextette rendition of a negro spiritual, "Heaven, Heaven," a waltz song, and a pianoforte number, in Chopin's Etude in E Minor.

This evening, the big play, "The Patsy" will be presented, and to-morrow's programme includes an entertainment for children in the morning, a grand concert by the Casford Concert Company in the afternoon and evening, also a lecture-entertainment, "Songs and Stories of the South Seas," by Wherahiko Rawei in the evening.

Lecture on Shakespeare

Answering the question, "What is the use of poetry?" Lester M. Stearns, lecturing on "Shakespeare and Life" on the afternoon programme of the Chautauqua, made a convincing plea for the study of the great masters of art and literature as an aid to higher living and finer culture.

Character, said Mr. Stearns, was formed by the desires of the individual. If the desires were of a lower order ,the resultant character would be low; if the desires were lofty and fine, the character would be correspondingly fine. This lesson of life was well brought out in the works of the world's greatest genius, William Shakespeare. All Shakespcare's plays in their plots depended upon the characters rather than upon situations. The motivation of the plots was found in the desires of the characters. This was the case in every one of the plays. The only cne in which this fact was not strongly marked was "Love's Labor Lost," the first of Shakespeare's plays and written in his early youth and even here las presence could be discerned

Acquaintance with the writings of Shakespeare and the great dramatists would increase one's knowledge of history, elevate one's desires, develop the powers of expression, enlargc the culture and raise the moral tone. This was a sufficient answer to the queries which were often raised by pupils at high school as to why they should be expected to read the writings of an author who died more than three hundred years ago. It was a mistake to think that children could not be taught to interest themselves in the works of writers like Shakespeare, said Mr. Stearns, who pointed to the attention given by the very large juvenile portion of the audience as a proof of his contention. Mr. Stearns also deprecated the belittling of the study of classical English authors by parents on the ground that such study was only for "highbrows."

Shakespeare would be read and would continue to be appreciated long after many of the popular authors of today would have been forgotten. At the close of his lecture, Mr. Stern gave a splendid dramatic rendering of the borrowing scene between Shylock and Antonio in "The Merchant of Venice."

FIRE DAMAGES DE MILLE STUDIO

CULVER CITY, July 19.— (Canadian Press.)— The fire which broke out for the second time last night in the Cecil B. DeMille motion picture studio here, caused loss estimated at nearly two hundred thousand dollars. The cause was not determined.

CUBA APPOINTS COMMISSIONER

HAVANA, July 19 (United Press). —Rogelia Alfert, former Congressman, today was appointed Commissioner to Canada. The post is in the same category as Minister Plenipotentiary.

AMERICANS LEARN OF PETERBOROUGH

Find That It Is Important City and Centre of Fine Holiday District.

Apparently literature distributed by the local Chamber of Commerce to different parts of the United States concerning the City of Peterborough and district has gone a long way in showing the Americans that this city is one from which all branches of fine vacation resorts stretch, and that the cittiy itself is one worthy of a visit by them.

The following is a letter received by the secretary of the local Chamber of Commerce in regard to the preceding paragraph:

"I am in receipt of your letter of July 6th, enclosing a quantity of literature and also a list of cottage owners with their addresses, with whom my party may get in touch direct.

"I take pleasure in reading your letter, and wish to thank you for the information contained therein.

"These Americans always thought Peterbrough just a little village, but after reading and seeing your booklets on the same, they now think it is quite an important place with more than just the ordinary post-office and corner grocery store.

"Thanking you again for all your trouble in this matter, and you may sufely look forward to seeing my friends at your office sometime in August."

This letter was written by the secretary of G. R. Watson, assistant treasurer to the Indian Splint Chair Manufacturers, of Rochester, New York.

ST. GEORGE'S S.S. PICNIC AT PARK

Young People and Parents Enjoy Outing—Many Races.

Scholars and teachers of St. George's church Sunday school, together with parents and friends, held a very enjoyable picnic in Jackson Park on Saturday last, the party being conveyed from the church to the park in busses.

The swimming pool was the great attraction for the young people during the afternoon, while the more mature enjoyed the cool shade of the beautiful pine trees.

A booth of candies, ice cream and sofe drinks, in charge of Misses M. Huxley, E. Parkes and Mr. Tucker was well patronized.

After supper the usual sports were held, the races and prize winners being as follows:

Babies race (under 4 years)— 1 Vivian Carter, 2 Aileen Hughes.

Primary Dept.—

Beginners (4 and 5 years)—1 Beryl Carter, 2 Lawrence Johnson, 3 Ethel Sim.

Girls (6-8 years)—1 Theodora Johnson, 2 Mary Parkes.

Boys (6-8 years)—1 Alfred Johnson, 2 Steve Curtis.

Junior girls— 1 Hilda Curtis, 2 Doris Dossett.

Senior girls—1 Beatrice Curtis, 2 Marjory Sim.

Junior boys—1 Clinton Warren, 2 John McCall.

Senior Boys—1 Clarence Hopkins, Three Legged Races—

Girls — Marjory McCormick and Beatrice Curtis.

Boys—Clinton Warren and J. McCall.

Thread and needle race—Clarence Hopkins and Marjory McCormick.

Boys' consolation race — Tommy Monk.

Girls' high jump—1 Beatrice Curtis, 2 Gladys Arnott.

Mothers' race— 1 Mrs. Carter 2 Mrs. Curtis.

Fathers' race—1 Rev. J. L. Hughes, 2 Mr. Monk.

The arrangements for the event had been well made by Mrs. Andrews, the school treasurer, assisted by the teachers.

Japanese grow seaweed specially for food purposes, cultivating it with as much care as any other crop.

QUINTE LEAGUE HOLDS EXCURSION

Many From Bailieboro Take Trip on Ferry to Rochester.

BAILIEBORO, July 19.—Many from Bailieboro attended the excursion to Rochester, under the auspices of the Young People's leagues of the Bay of Quinte Conference, on Wednesday last. Ferry No. 2 left Cobourg docks at 8 a.m., arriving at Genesee docks at one in the afternoon. Eleven motor buses were waiting at Rochester station to take the excursioners around the city. After visiting all places of importance, such as the parks and water reservoirs, the Canadian leaguers held a fraternal gathering with their American cousins in one of the large Methodist churches.

After spending a time shopping, the crowd were taken back to the ferry, and set sail for Cobourg. Most of the time spent in returning was taken up by an impromtu concert in the large sitting room. The program consisted of speeches, stunts and community singing. The singing was led by Rev. R. Richard. Rev. Daniels was chairman for the evening.

The excursion arrived back in Cobourg about midnight.

Among those present from Bailieboro were:—Mr. and Mrs. Ira Dawson, Aylmer; Dorothy and Kenneth Dawson; Mrs. Wesley Hutchison of Millbrook; Mrs. Wilbur Barnard. Misses Loretta Barnard and Edna Wallace, Messrs. Charlie and Joe Barnard, George Dean, John Holt, Stanley Johnston, Wm. and Carl Lang, Wilfred Johnston, Meredith Perrin and Claude Ballantyne.

The Misses Francis Helen and Etta Harcourt of Fort Hope are visiting Miss Ruth Dawson.

Mrs. Leonard Falls and three daughters of London, Ont. are visiting friends in Bailieboro.

Mr. Byron Woods has purchased a new Whippet car.

The Misses Evelyn and Grace Johnston are holidaying in Toronto.

Miss Jeanne Stinson, of Millbrook, is visiting Miss Iva Campbell.

Mr. Elwood Brown, of Port Hope, attended the strawberry festival in Bailieboro on Thursday evening.

Miss Mae Graham, of Peterborough is visiting Mrs. Archie Cole.

Messrs. Jack Byam, Reg. Willis and Nelles Rowland, of Millbrook attended the strawberry festival in Bailieboro on Thursday.

Mr. Wilbur Barnard received word stating that his sister, Mrs. Joseph Graham, 173 Lenore street, Winnipeg, had passed away at her home, on Thursday morning, July 14th. She leaves to mourn her loss two daughters, Mrs. A. Wharton and Mrs. C. Storer, both of Winnipeg, also her granddaughter, Miss Erma Storer, one sister, Mrs. N. H. Elgar of Vancouver, B.C., and two brothers, Messrs. Wilbur and Walker Barnard of Bailieboro.

FINAL FESTIVAL.

Bailieboro Strawberry Social is a Great Success.

BAILIEBORO, July 19.—The strawberry festival held under the auspices of the Anglican church guild at Bailieboro on Thursday evening was a great success. The evening was all that could be desired, and a large crowd gathered to take advantage of the last strawberry festival in the district.

Supper was served on the church grounds and the waiters were kept busy serving until nearly nine o'clock. The booth on the grounds, did a good business and was completely sold out.

The entertainment was put on by friends from All Saints' church, Peterboro. The program consisted of solos, readings, selections by the Sunday school orchestra.

In spite of the warm evening, the church was well filled, and the entertainment was greatly enjoyed.

BRETHREN MEET.

Hold Services at Holloway and Baptism at Oak Lake.

HOLLOWAY, July 19.—A large number of brethren attended the meetings at Holloway on Sunday, July 10. The morning service was held in the Gospel Hall. A basket lunch was served after the meeting.

At half past two all gathered at Oak Lake when a baptism was held. Messrs. Richard Irving and Brooks were principal speakers at the morning service and Mr. Caverly ably proclaimed the old, old story in the afternoon. Mr. McKenzie also spoke. Those that were baptized were: Miss Wannamaker, George Elliott, Daisy Chatterton, Charley Heath, Vera Fitchet.

LAKEFIELD NEWS

LAKEFIELD, July 19.—Miss Laura Blackstock, of Detroit, is the guest of Mrs. John Northcott.

Miss Margaret Charlton has returned to St. Joseph's hospital, Peterborough, after spending her holidays in Lakefield and in Buffalo, and Scottsville, N.Y.

Mr. and Mrs. A. B. Burrows were at McCracken's Landing on Sunday.

Mr. Roy Everett, of Peterborough spent the week end at his home in the village.

Miss Lucy Stiles, of Toronto, is the guest of Mr. and Mrs. Charles Robinson in Smith.

Miss Elizabeth Thomson is the guest of friends in Toronto.

Mr. and Mrs. Lorne Thompson and two children of Flint, Mich., and Mrs. Haynes of Marmora, were guests of Mrs. Robert Bullock, last week.

Mrs. T. McManus and children, of Toronto, are guests of Mr. and Mrs. A. Redpath.

Miss Mildred Bailey, who has been attending the Ontario College, of Education is at her home in the village.

Miss Georgina Everett, of Timmins is spending the vacation at her home in the village.

Mr. and Mrs. Harry Magee and children of Omemee were guests of Mr. and Mrs. T. Z. Webster, on Sunday last.

Misses Lilian and Constance Stuart and Alice and Barbara Dench are camping near Juniper.

Mr. and Mrs. J. A. Creaser spent Sunday at Stoney Lake.

Mr. Ralph Payne, of Point Anne spent the week end with his parents, Mr. and Mrs. Nathan Payne.

Mrs. Andrew Wilson, of Young's Point was in the village on Saturday.

Mr. A. C. Conway, of Toronto, was in the village on business on Friday.

Miss Marion Wagar was the guest of Miss Merle Crawford at McCracken's Landing for the week end.

Miss M. Stenner, of Toronto, is visiting Mr. and Mrs. C. C. Stenner.

Mr. and Mrs. Nathan Payne, Mr. and Mrs. George, Mrs. McMillen and Mr. Ralph Payne spent Sunday at McCracken's landing.

Mr. and Mrs. Walker, of Toronto, spent a few days last week in the village, and are now at Mr. Millage's cottage for a holiday.

Mrs. Howard Wideman and daughter, Barbara, of Windsor, are guests of Mr. and Mrs. T. Junkin.

Miss Marion Payne was the guest of Miss Beatrice Charlton at Kawartha Park for the week end.

DUNSFORD NEWS

A number attended the meeting of the W.M.S. held at Mrs. Nelson Thurston's, on Tuesday.

Mr. and Mrs. George Burgess and their daughter, Anna, spent Sunday with Mr. and Mrs. Rob Robertson of Lindsay.

NORWOOD NEWS

NORWOOD, July 19.—Mr. Herb. Stephenson, of Chicago, Ill. is spending a few days in the village.

Mrs. F. McAdam and little grandson of Havelock, spent Tuesday with Mr. and Mrs. A. J. Nixon.

Mrs. William Roxburgh, of Toronto, visited friends in the village on Monday.

Mrs. Belleghem and Miss Edith Belleghem, of Peterborough, are spending a holiday at "Lowlands," the home of Mr. and Mrs. A. B. Greenbank.

Mrs. Watson and daughter, Miss Watson, of Toronto, spent the week-end with Misses Cora and Jennie Clysdale.

Mrs. Charlie Miller, of Spragg, is spending a holiday with her mother, Mrs. M. Nicol.

Mr. and Mrs. Archie Richardson, of Tilsonburg, Miss Cecelia Richardson, of Brantford, and Mr. Alex Richardson, of Toronto, are spending a holiday with friends in the village.

Mr. John F. Elliott and family left on Monday to spend the summer at their cottage at Stoney Lake.

Miss Pearl Campbell, of Detroit, Mich., is the guest of her aunt and uncle, Mr. and Mrs. Thomas Watson.

Mrs. J. O'Keefe, of Carleton Place, is visiting at the home of Mr. and Mrs. W. J. McLaughlin.

Mr. and Mrs. Earl B. Laing and children, of Rochester, N.Y., are holidaying with the former's parents, Mr. and Mrs. E. J. Laing, Peterborough street.

Rice constitutes the principal item in the diet of at least one-third of the world's inhabitants.

Top-o'-the-morn pep!

GOOD feelings and good breakfasts go hand in hand! Let Kellogg's Pep begin your breakfast. Pep is the peppiest food you know! Gives every day a peppy, zestful start!

Pep is power! Rich whole wheat—flaked to delicious crispness! With the vitamins and healthful mineral elements of nature's most favored food grain. Peps you up! Builds you up!

Pep contains bran—just enough to be mildly laxative. Wonderfully good for children. Pep is rich in vital nourishment growing kiddies need. It's really "health in a package!"

Serve Pep often. Give all the family Pep! With milk or cream. Extra delicious with fresh or canned fruits, or honey, added. Comes ready to eat. Your grocer has Pep!

Kellogg's PEP

the peppy cereal food

DOWNEYVILLE NEWS

DOWNEYVILLE, July 19.—Mr. Joseph Clancy, who lives just south of the village, raised his barn Tuesday. It is a fine barn built on a cement wall. There was a large crowd present and afterwards a lunch was served by the ladies in charge.

The strawberry season is now on and the berries are plentiful, but still the price remains at 18c per box.

Mr. and Mrs. Wm. F. Carroll, Messrs. Lorne and Philip Carroll, all of Rochester, N.Y., are at present the guests of their brother, Martin Carroll.

Mr. Denny Garvey, of Oshawa, is spending a few days the guest of his parents, Mr. and Mrs. Michael Garvey.

Mr. Patrick Clancy of Oshawa was a week end visitor with friends here.

Mr. and Mrs. Frank Cavanagh of Ennismore, spent Sunday the guests of the latter's parents, Mr. and Mrs. Ed. Herlihey.

Mrs. Joseph Ellore, of Tweed, is spending a few days the guest of her parents, Mr. and Mrs. Charles Downey.

Dr. Joseph Carroll, of Cleveland, Ohio is at present the guest of his mother, Mrs. Celia Carroll.

Mr. Albert Carroll has returned home from an extended visit with friends in Cleveland, Ohio.

The Misses Leone and Edna Scully, of Rochester, N.Y., are at present the guests of their parents, Mr. and Mrs. John Scully.

OFFICER REVIVES CHOKING INFANT

Breathes in Baby's Mouth After Dislodging Piece of Banana.

BROOKLYN, N. Y., July 18.—(United Press.)—The breath of Policeman Francis Ryan saved the life yesterday of 14 months old Ruth Galfas, choking to death on a bite of banana given her by her doting father, Hyman.

The policeman saw the father running with the child to a drug store. He snatched the infant from the parent, improvised an operating table with two chairs and dislodged the lump of banana.

Baby Ruth seemed dead, so the officer placed a handkerchief over her mother and blew for 20 minutes. She revived.

In the south of France, sea-anemones as delicacies. Having been dried and stewed in wine they appear on the menu as "Violets of the Sea."

WOMEN'S PAGE

SOCIETY

Miss Edna Wood of Rochester, N.Y., is spending her vacation with her parents on Smith Street.

• • •

Rev. and Mrs. W. H. Johnston and two small sons, Arthur and Richard, have arrived from Philadelphia, to spend some time with the former's parents, Mr. and Mrs. A. J. Johnston, Dennistoun Avenue, prior to their departure in August for the mission fields of Colombia, South America.

• • •

Mrs. J. Murray of Hamilton is the guest of Mrs. John Scott, Maria Street.

• • •

Mrs. Arthur Belleghem and daughter Jean, of Trenton, are visiting Mrs. Belleghem's parents, Mr. and Mrs. W. J. Byers.

• • •

Mr. W. G. Menzies, of the staff of the Quaker Oats Company, has returned home after spending an enjoyable fortnight's vacation at Belmont Lake.

• • •

Miss Muriel McGinnis, "Miss Peterborough," has returned from Toronto. Miss McGinnis met the winner of the Paramount Theatre contest on the same evening that the latter was acclaimed as "Miss Ontario." The winner of the automobile and trip to Hollywood, among about twenty-four competitors from all parts of the province, is Miss Leon McCauley, who, according to report, was defeated in her home town of London by Miss Peggy Ellis. Miss McCauley then entered as "Miss Woodstock," representing the latter city, and, in the final contest at Toronto, defeated "Miss London."

• • •

Mrs. A. A. Perrin has returned from an extended visit with relatives and friends in Philadelphia. During her absence, she did considerable broadcasting from Atlantic City. Mr. Perrin motored to Philadelphia to meet Mrs. Perrin, accompanied by Mr. J. A. LeBlanc.

• • •

Mr. John Campbell, son of Senator Campbell of Kingston, was a guest over the week-end of Cadet Jack Stratton.

• • •

Mr. A. E. Copeland of Toronto, past president of the O.H.A., was in the city to-day, visiting his hockey friends, and also on business for the organization.

• • •

The Misses Jean and Catharine Menzies are the guests of Mr. and Mrs. L. J. LeClair at their cottage at Belmont Lake.

• • •

Mr. H. E. Moffat of Bobcaygeon was a visitor to the city yesterday on business.

• • •

Miss Thelma Disney of Philadelphia, Pa., is the guest of Mrs. Gray Copping, at Ping Point, Stoney Lake.

• • •

Miss Loretta Finn of Enterprise, sister of Mrs. P. Devlin, East City, is visiting her aunt, Mrs. C. Walker, in Detroit.

• • •

Miss Evelyn Bentley of Toronto, is visiting her mother, Mrs. A. Bentley, Homewood avenue.

Mrs. A. McTaggart, who has been in the city, left yesterday for Oshawa.

Mr. and Mrs. W. J. Stacey, are spending their holidays at Catchacomc.

Miss Alida Stinson of Toronto, is spending two weeks with her parents, Brock street

Mr E. H. D. Hall has opened his summer cottage at Juniper Island.

Mr. Percival Beatty of Detroit, is home, visiting his parents, Mr. and Mrs. Robert Beatty, Perry street.

The many frineds of Miss Jean Kelly will be glad to learn of her good fortune in achieving first prize in a recent Macleanagram contest, conducted by Maclean's Magazine. This makes the third prize which has come to residents of Peterboro, amounting to almost $150, during a period of two or three months.

Mr. and Mrs. John D. McTaggart, of Montreal, were in the city over the week end, and were guests of Mrs. A. McTaggart.

The Canadian "Gazette" of Saturday last announces the appointment of John R. Heron to be lieutenant of the 4th Battalion Canadian Machine Gun Corps.

Mr. R. P. Watt of Renfrew was a visitor to the city over the week-end.

Mrs. Harry Wickenden and daughter Beara, are visiting friends in Toronto.

Mrs. W. G. Harris, Rubidge St., is is the guest of Mr. and Mrs. J. H. Renwick, at their summer home at Stoney Lake.

Mrs. W. A. Sanderson has opened her summer home at Juniper Island.

Mr. Ernest Elliott, of Detroit, Michigan, is the guest of his parents, Mr. and Mrs. E. Elliott, Chamberlain street.

The Misses Enid and Richard Carveth of Toronto, were week-end visitors to the city.

Mr. and Mrs. Charles D. Cook have returned from a pleasant motor trip through the Catskill Mountains.

Mr. and Mrs. John Smith of Fort William are the guests of Mr. Smith's sister, Mrs. Thomas Duncan, 114 Dublin street.

Miss Margaret Cruise of Toronto, is the guest of her cousin, John Londerville, 338 Reid street.

Mr. J. A. Paquette of Detroit, is visiting his mother, Mrs. J. E. B. Paquette, at her cottage on Lovesick Lake.

Mr. and Mrs. William Muir and family of Toronto, en route from a holiday in Barrie and vicinity, spent the week end in the city with friends.

Mr. Lorne Bell of Detroit, is spending his holidays with his parents, Mr. and Mrs. Joseph Bell.

Mrs. E. Lockhart and Miss Irene Lockhart, Maude street, left yesterday for Edmonton, Alberta, to visit the former's brother.

Mr. William Duggan of Windsor, is visiting relatives in the city.

Mr. Norman Wood left this morning for Rochester, N. Y., after spending his vacation in the city.

Mr. and Mrs. Fred R. Roy are absent on a fortnight's motor trip to New York City, where Mr. Roy will attend the annual convention of the Photographers' Association of America.

Mr. Art Costello, Grand Knight of the local council, Knights of Columbus, will attend the convention of the Supreme Council of the Knights of Columbus, as local delegate. This convention will be held in Portland, Oregon, during the first week in August

HOROSCOPE

The Stars Incline, but do not Compel.

(Copyright, 1927, McClure Syndicate.)

WEDNESDAY, JULY 20, 1927

Good appears to be presaged by the stars today, according to astrology, which finds the dominating aspects benefic.

Business is well directed and should be pushed early in the day when there should be ready co-operation.

Bankers and financiers again are subject to the most stimulating and propelling influences, making for tremendous ventures of international scope.

Lawyers should benefit today and so should educators, for there will be a demand on the part of the public for direction in important national policies.

Under this rule there may be intense individualism or egotism, for the stars may encourage selfishness.

Greed and envy will be strongly manifested at this time, if the aspects are wisely interpreted.

An aspect of Uranus is read as exceedingly ominous, for it may affect persons of high station who have large followings.

All the kindly attributes of character should be cultivated sedulously at this time when the mind will be often assailed.

While sinister aspects may appear to threaten the seers read for America a period of supreme development and growth.

Many great artists are to develop in this country, which will produce men and women foremost in music, painting and literature.

Culture is to make strides greater than ever previously attained, it is prognosticated, and a race of physical beauty as well as fine intelligence will develop.

Persons whose birthdate it is should be careful to avoid mistakes in a year that may bring severe tests.

Children born on this day may have eventful lives in which they overcome many drawbacks. Jealousy may be an attribute that should be changed by wise instruction.

DRESS

By MARY MARSHALL

7-15

There is nothing to suggest the washable frock about this dress of washable satin trimmed with fagoting. It may be developed in navy blue or any of the light shades favored for summer.

The high cost of dry cleaning brings increasingly before us the desirability of frocks that may be cleaned by the simple process of washing in water.

There are cotton frocks and linen frocks and frocks of tub silks—all of which serve their purpose in the particular woman's wardrobe. The little morning frock made of striped wash silk has many uses. There are white pique or linen frocks for tennis and other sports wear. Frocks of plain or colored linen for daytime resort or country wear may be washed without difficulty. Pongee, rajah and similar silks come up with particularly good results after the home laundry process.

But there is something unmistakably washable about these materials and there are occasions when you want a frock that is not so palpably of the washable sort. Then it is that you must consider the possibilities of crepe de chine and other heavy crepes. Many crepe de chines show marks of water spots but show no ill effects from thorough washing. Washable satin of a good quality is washable—though certain precautions must be taken if the results are to be good. Remember that the smooth effect of the satin depends on the smoothness of the satin side. So in washing, drying and ironing care should be taken to keep the material as flat as possible. It should not be wrung or twisted in the drying process.

No matter how perfectly the material of your frock may wash—the frock is not a satisfactory wash frock if it shows any trimming, such as pleating, that is affected by laundry processes. Preferably the frock should be self trimmed—the addition of banding or embroidery, of materials that might run or streak in the wash should be avoided.

Among the graduates at Massachusetts Institute of Technology this June were six young women who have chosen careers in the field of engineering.

SAINT and SINNER

By ANNE AUSTIN

(Continued from yesterday.)

Amazement spread over Cherry's expressive little face, then was succeeded by a dimpling, colorful wave of delight. She rushed to the table, her quarrel with Bob forgotten, and flung her bare arms about his neck.

"Oh, Bob! Will you really let me work for you? Honestly? You darling old fuss-budget!" she crowed. "And Bob, honey, you were right about Churchill! The old sheik tried to date me up for dinner to-night—at a roadhouse. Oh, Bob, I'll adore working for you!" And she kissed him hard on the lips.

Faith sank into her chair. In spite of the heavy, throbbing summer heat she felt cold all over. She could not speak, could not turn her staring, fascinating eyes from the face of her husband. The ugly thought squirmed through her mind that Bob looked silly—fatuous—as he allowed Cherry to caress him. She told herself with sudden bitter distaste, that he looked like a Tom cat that is about to begin to purr.

In spite of his preoccupation with Cherry something of Faith's misery and disgust must have penetrated Bob's consciousness, for he fleetly glanced at her set, staring-eyed face, then brusquely pushed Cherry away.

"This is a fine way to accept a business man's offer of a position," he told her, making a rather too obvious effort to joke about her ardor. "Go get your chop. It's keeping warm in the oven. And bring in the shortcake while you're about it. This sister of yours has outdone herself on raspberrt shortcake, and I'm raring to get my teeth into it."

Cherry laughed gaily, rumpled his hair with a quick gesture, then sped to the kitchen. Still pretending that nothing was wrong, Bob helped himself to more of the fluffy mashed potatoes, remarking in a casual, cheerful voice:

"I suppose if Cherry's made up her mind to work she'll be better off in my office than anywhere else. And Churchill is certainly out of the question. Be a good thing to have her where I can keep an eye on her, not half as much danger of her getting into mischief." Still he did not look at Faith, whose eyes had never wavered in their terrible, sick, probing stare.

She could not answer. Her body was gripped in that deadly cold, a sort of paralysis of fear. She knew that if she opened her mouth to speak that she would scream at him that Cherry must not work for him, that she—his wife—would not permit it. Bob—and Cherry. Bob, her husband, and Cherry, her sister, the adorable little girl whom she had mothered, for whom she had always sacrificed her own comfort and pleasure! Bob and Cherry! The names wove their way through her mind like poisonous snakes, but somehow she could not feel anything yet—just that' iciness that gripped her flesh.

Cherry returned from the kitchen, bearing aloft a loaded tray, pretending to stagger under its weight, in an instinctive effort to emphasize her tininess.

"The midget asleep?" she remembered tardily to demand, when she had settled herself at the table. "She's such a little angel! I suppose she's been asleep all afternoon?"

"No," Faith's lips moved stiffly. It seemed odd to her that she could speak at all. "She was ill with colic. Cried for more than an hour. Bob got her quiet after I had ruined half the dinner trying to attend to her and the cooking at the same time."

"Oh, what a pity!" Cherry clucked sympathetically. Then she turned her bright, animated face toward Bob. "How much are you going to pay me, old sweetness? Remember, I'm an expert stenographer—two years' experience. I have a wide circle of employer friends," she giggled. "To employ me is to love me, as they'll say when I die. Come on, brother-in-law! How much do you bid for my invaluable

(To be continued.)

WHO WROTE THIS?

(Copyright, 1927, by The McClure Syndicate, Inc.)

1. "O, call back yesterday, bid time return."
2. "For his heart was in his work, and the heart giveth grace to every art."
3. "The hell within him."
4. "Generally nature hangs out a sign of simplicity in the face of a fool."
5. "Those oft are stratagems which errors seem,
   Nor is it Homer nods, but we that dream."
6. "Drink to me only with thine eyes, And I will pledge with mine."
7. "I will chide no breather in the world but myself, against whom I know most faults."
8. "Cervantes smiled Spain's chivalry away."

Canadians Defeat Cubans in Davis Cup Match

CRESCENTS COME FROM BEHIND TO DEFEAT BETHANY BALL TEAM

Losers Were Leading By Two Runs at the End of the Third.

CRESCENT RALLY.

When Dawe, on First Base, Drops Billingsley's Foul Fly.

Crescents saved themselves a trip to the cellar of the East Peterborough League by coming from behind to beat Bethany at Exhibition Park last evening, the count being 8 to 3. Crescents were trailing at the third frame and prospects for a Bethany win looked bright. In the fourth, with two gone and two runners on Firstbaseman Rex Dawe of the visitors dropped a foul fly from Billingsley and on top of that piece of good luck, Crescents proceeded to score four runs on a pass to Billingsley, a single by Jack LeBarr and a double by Joe Jones. The rally took a lot of starch out of Bethany and put a lot of pep into Jack Billingsley, who sailed through the remainder of the battle without running into serious danger.

The walloping Durhamites showed their stuff in the first frame when G. Staples and Reynolds singled. A force at third and a double play started by Mein killed off the visitors without a run. They continued their larruping in the second and scored all three runs. LeBarr missed Ryley's long fly to right, Heaslip singled over short, Tom Staples fanned, but McGill's drive through third scored Ryley and Heaslip.

Bethany failed to do anything with Billingsley thereafter, McGill getting the only safety, a single through second.

Crescents opened their scoring in the third. Billingsley was safe when his grounder went through Dawe. He stole, second, only to be thrown out at third when LeBarr lined to G. Staples. LeBarr stole second. Joe Jones whiffed, but Kenneally scored LeBarr with a single to right.

In the fourth, Corbett popped to G. Staples and Mein walked. Barry beat out a short tap for a scratch hit and F. Jones fanned. Billingsley gave Staples a battle, and then fouled over first. Dawe got the ball but dropped it. Then Billingsley walked, filling the bags. Jack LeBarr singled through short to score Mein and Barry, and J. Jones doubled to left, scoring Billingsley and LeBarr. The pitcher threw out Kenneally.

Another run came in the fifth on Ranger's long double over the centre-fielder, and Barry's single through short. Two more came in the sixth, after two were gone, on singles by Kenneally, Ranger and Corbett.

The secondbasemen did some nice work around the middle bag, with the feature play of the game going to Ranger who went back to make a smart running catch of Heaslip's crack in the fourth.

Crescents and Raybestos are now tied for second place each team having won three games and lost three. The next game will be on Thursday evening between Cognawagas and Crescents.

The box score:

Bethany:	AB	R	H	PO	A	E
G. Staples, ss	4	0	1	1	2	0
Reynolds, c	4	0	1	6	0	0
Price, cf	3	0	0	0	0	0

Crescents	0	0	1	4	1	2	x		8

Two base hit—J. Jones 2, Ranger. Double play—Mein to Ranger. Struck out—by Billingsley 10, by Staples 6. Base on balls—off Billingsley 1, off Staples2. Left on bases—Bethany 5, Crescents 6. Umpires—Kay and LeBarr.

LINDSAY PLAYS HERE TOMORROW

Intermediate Team From Lindsay to Play Kiwanis Juniors.

AT RIVERSIDE.

Kiwanis Juniors being disappointed that the Regina Argos didn't come last night, have managed to bring Lindsay Intermediates here to-morrow night (Wednesday) at Riverside Park at 5.30. The locals defeated the Scugog team in Lindsay last Thursday, but the losers are confident of evening matters up here. They are not well satisfied that a junior team should beat them.

Hardill will most likely pitch with Guiry as relief.

This should be a good game. There is no admission charge to the grounds but a silver collection will be taken.

May Sell Bears At Public Auction

NEWARK, N.J., July 19.—The Newark baseball club of the International league may be sold at public auction under the court order signed Monday by Federal Judge William N. Runyon.

The order directed interested parties to show cause at a hearing July 26 why the business properties, assets and good will of the Greater Newark baseball club, Inc., owners of the team, should not be sold.

LEAFS LOSE IN OVERTIME TO JERSEY CITY

Cats Shut Out Toronto Team at the Maple Leaf Stadium.

BISONS WIN.

Stars Come From Behind To Defeat Orioles By One Run.

TORONTO, July 19.—Jersey City shut out Toronto in the opening game of the series here yesterday afternoon 3 to 0 in the tenth inning. The Leafs could not hit Brame and were limited to three safeties in the regulation nine innings, but added two in the tenth, all to no result in runs. Satterfield, batting for Sorrell in the tenth, made a brave effort at a home run with two on to tie it up, but Neitzke made a fine running catch and it was all over.

Bisons Win.

The Bisons took an ample toll of revenge on the Newark Bears at Buffalo when they fell on a trio of pitchers for twenty hits and captured the third game of the series 14 to 4.

Bissonette's eighteenth homer of the season and his powerful hitting throughout the game featured.

The Tribe won the third game of the series from the Reading Keys at Rochester by 11 to 2. The Rochester team hit Rouprich hard in three innings and drove him from the game in the fifth inning with five runs.

Baltimore Loses.

The Stars evened the Syracuse series with Baltimore yesterday, coming from behind to win 6 to 5. Schelberg fanned Porter for the third out in the ninth with the bases loaded.

In New York City the old elevated railways will become a thing of the past in a few more years, their functions being taken over by the new subways.

GEHRIG HITS THIRTY-FIRST CIRCUIT BLOW

Gets Homer When Two Men Are on the Bases.

TAKES LEAD.

Washington Defeats White Sox on Their Home Diamond.

NEW YORK, July 19.—(Canadian Press).— George Pipgras held the Browns in check at St. Louis yesterday and the Yankees won the third game of the series by ten to six. It was the tenth victory of the season for the league leaders over the Browns who have not yet won a game from them.

In the eighth Gehrig made his 31st home run of the year off Nevers with two men on base and again took the lead over Babe Ruth. A homer by George Sisler with the bases filled featured a ninth run rally by the Browns.

Washington Wins.

Irving Hadley, Birmingham, Ala., rookie pitcher of the Senators held Chicago to six hits while Washington bunched its hits off Ted Blakenship to defeat the White Sox in their own bailiwick 5 to 1.

Sam Gibson, with better fielding support beat Lefty Grove in a pitcher's battle at Detroit the Tigers winning from Philadelphia 5 to 3.

The game was decided in the first inning. With one down Gehringer beat out a single to short. Manush hit to Bishop had had a double play in front of him but he failed to touch second with his foot and Gehringer was safe. Fothergill got a home run when his drive to right field bounded past Dobb and rolled to the fence. Gehringer scored ahead of Fothergill. Heilman then doubled and scored on Blue's single.

Break Even.

Boston and Cleveland broke even at Cleveland, Boston taking the first 14 to 5 and losing the second 4 to 0 when Buckeye kept the hits so well scattered that the Red Sox were shut out. Weird relief pitching by Grant, Shaute and Smith gave Boston eight runs in the sixth inning of the first game, which was featured by Summa making four singles and a double in five times at bat. Summa also gathered a double and a single in three times up in the second game.

SHARKEY CONFIDENT OF WINNING FIGHT

Dempsey is Reported to Have Injured Left Arm in Training.

NEW YORK, July 19.—(Canadian Press).—Confident talk from Jack Sharkey and a hint of staleness in Jack Dempsey's razor edge condition furnished the high lights in the shadow of the coming heavyweight runner-up bout set for the Yankee stadium Thursday night.

Sharkey radiated a sort of careless certainty which, was looked upon with both approval and suspicion. "Dempsey", quoth the Boston sailor, "will be trying to pick me out of a dozen Sharkeys after he samples my wallop." Sharkey put a lot of pep but not much punch into five rounds of sparring.

Dempsey worked seven rounds against the bags yesterday. He was slow to work up a sweat after two days idleness, but once warmed up he worked with a vim driving short right hooks to the body region and working a straight right smash intended for the heart.

DEMPSEY INJURED.

WHITE SULPHUR SPRINGS, Saratoga Lake, N.Y., July 19.—(Canadian Press).—Jack Dempsey has slightly injured his left arm in training, Leo P. Flynn, temporary manager of the former champion, admitted last night. The arm was hurt several days ago blocking bunches of sparring partners, Flynn said.

CHALLENGE CUP CAPTURED BY HAVOLINE OIL

Defeat Chemong Park Team By Eleven Runs to Five.

EIGHT IN NINTH.

Losing Team Gives Pitcher Carruthers Very Poor Support.

Fresh from a 7-3 win over Omemee on Saturday the Havoline Oil softball team stepped into Chemong Park and walloped the Park team 11-5. It was a great battle, and was hard fought all the way. Going into the ninth innings with the score 5-3 against them the Havoline team shoved over eight runs to give them possession of the Challenge Cup.

Manager Petereson sent "Polly" Powell in to subdue the Chemong Park aggregation and he made a good job of it. Powell used a fast breaking hook, mixing it effectively with a slow ball and had the Park boys at his mercy. Three of the runs scored against him were made on errors by his teammates. Carruthers was Manager Jopling's choice for mound duty. He hurled effective ball right through and in the ninth inning only errors by his teammates lost the game for him.

The Park counted one in the first. A hit by Hall and three passed balls while Helson, Holyman and Johnston fanned, counting. In the third they scored two more on hits by Carruthers and Helson, Kelly's drop of Holyman's fly and a wild peg. They scored their last run in the fifth by a walk, two sacrifices and an overthrow by Powell.

The Havoline counted first in the fifth on a single by Powell, a triple by Kelly, and a sacrifice by Dugan. They counted one more in the eighth when Ramdsen doubled and scored on Crary's double. In the ninth, eight runs were registered when the Park infield blew up, successive errors by Holyman, Baker and Johnston, combined with some good hitting accounting for eight runs.

Helson, Hall and Carruthers supplied the fielding features of the game, while Ramsden, Bradshaw, Holland and Powell were best for the Havoline.

The line ups follow:

Havoline Oil—Dugan, c; Bradshaw, 3b; Maudsley, 1b; Holland, rf; Ramsden, lf; Crary, 2b; Baird, ss; Kelly, cf; Powell, p.

Chemong Park—Hall, cf; Helson, 3b; Holyman, ss; Johnson, 1b; Baker, 2b; Dobson, c; Forsyth, lf; Gillespie, lf; Carruthers, p.

Umpires—Nixon and Braund.

ADVERTISE IN THE EXAMINER

CUBAN TEAM LOSE IN DOUBLES TO CANADIANS

Crocker and Wright Defeat Cuban Pair in Three Straight Sets.

FOR DAVIS CUP.

Losers Are Strictly on Defense Throughout the Whole Game.

TORONTO TENNIS CLUB, July 19.—Canada's Davis Cup double team, Will Crocker and Jack Wright, yesterday afternoon literally drove and smashed their way to victory over the representatives from Cuba, Rogelio Paris and Raul Cachon, in straight sets—6-0, 6-3, 6-0.

With the two singles victories on Saturday, this qualifies the Canadian team for the next round when they will meet the winner of the Japan-Mexico game for the right to play the European champions. It took the Canadian stars just 48 minutes to extinguish their opponents, and while the match could not be termed thrilling, it yet produced some splendid tennis, both Crocker and Wright being in great fettle. From the start the Cubans were strictly on the defence.

Sam Hardy as referee was still in charge of the proceedings and Lindley Murray of Niagara Falls, one time national singles champion of the United States, took the umpire's chair and introduced the players to the gallery.

Following the Davis Cup doubles match Gilbert Nunns, Toronto's young star, and Brian Doherty were matched against M. Avellanal and Lindley Murray former American champion in an exhibition doubles which had the interest of the elated spectators.

Avellanal and Murray carried the first set with a score of six to three. The Toronto players opened the second set by a brisk rally which gave them the first game, but their opponents broke through Nunns service for two games. Nunns and Doherty made a vigorous attack and tied the score three to three. The visitors cut in with two games. Nunns and Doherty took one more but were wiped out when Murray made good his serve. The visitors carried the second set six to four giving them two sets and the match.

The draw for tomorrow's singles puts Gilbert Nunns against Dr. Banet and Wright against Paris.

Fearing that the birds would become a menace to crops, Australian officials sent a party of armed men, with orders to shoot to kill, in search of several English sparrows reported to have escaped from the steamer Carinthia.

PIRATES WIN COSTS CHICAGO LEADERSHIP

Pittsburgh Takes Both Ends of Double Header in Philadelphia.

CUBS BREAK EVEN.

Reds Defeat Boston 3 to 2 in a Ten Innings Fixture.

NEW YORK, July 19.—(Canadian Press).—An even break in a double header with the New York Giants yesterday cost the Chicago Cubs the leadership of the National League, Pittsburgh nosing them out by a single percentage point by winning two games.

Chicago won the first game here by 6 to 4 on Hartnett's homer with Grimm on a base in the tenth, after the Giants had failed to score in the ninth with the bases filled and none out.

The New Yorkers won the second half by 3 to 2, after taking the lead on a homer by George Harper.

Pittsburgh Wins.

The Pittsburgh Pirates avenged their double defeat at the hands of the Philadelphia Nationals last Saturday by taking both ends of yesterday's twin bill at Philadelphia, winning the first game 9-7 and the second 6-5.

The Pirates won the opener by breaking a 5-5 deadlock in the fifth inning and scoring three runs that drove Tony Kaufmann off the hill.

Lee Meadows only gave up five hits in the first eight innings, of the last game and had things well in hand until the ninth when he blew and the home team drew within one run of tying the score. Carmen Hill held the Phillies.

Boston Loses.

Hugh Critz accounted for all of Cincinnati's runs when Reds won at Boston, 3 to 2, in ten innings. After Ford had singled in the fourth, Critz made a home run on a long drive that bounded over Welsh's head. In the tenth his single to right field, in conjunction with Gibson's muff of Richbourg's throw to the plate, scored Pipp from second base.

St. Louis at Brooklyn game was postponed on account of rain.

PICNIC ENJOYED AT SANDY POINT

Big Programme of Races Run Off at Sunday School Outing.

LAKEFIELD, July 19. — The annual Sunday school picnic of St. John's church, was held on Thursday afternoon last under ideal weather conditions. The party left the Sunday school at one o'clock in trucks and motors for Sandy Point where the afternoon was spent. The children had a delightful time, the unexcelled advantages for bathing provided plenty of amusement, and the adult members of the party spent the time pleasantly but rather strenuously. A bountiful tea was served, and the hearty appetites satisfied with the good things provided.

The following were winners in the programme of races which was run off during the afternoon:

Boys, 9 years old and under: 1 Roy Cripp; 2 Donald Dawson.

Girls, 9 years and under: 1 Patricia Wannamaker; 2 Jean Blewett.

Boys 9 to 12 years: 1 Kenneth Dawson; 2 Joe Blewett.

Girls, 9 to 12 years: 1 Kathleen Wannamaker; 2 Coleen Junkin.

Boys, 12 to 16 years: 1 Rolfe Kennedy; 2 Kenneth Dawson.

Girls 12 to 16 years: 1 Alice Dench, 2 Constance Stuart.

Boys' three-legged race: Kenneth Dawson and Joe Blewett.

Girls' three legged race: Alice Dench and Lilian Stuart.

Mr. Creighton's class: 1 Helen, Everett; 2 Dell Watson.

Teachers' race: 1 Miss Winifred Payne; 2 Miss Hamilton.

Rev. W. J. Creighton and the teachers deserve great credit for the great success the picnic was in point of numbers and enjoyment, and also financially.

CLEGHORN CAPTURES 'SPAN.' GOLF TROPHY

MONTREAL July 19. — Canadian Press — Odie Cleghorn, former professional hockey player and now manager of the Pittsburgh Pirates in the United States section of the National Hockey League, won the Forum challenge cup and "Span" trophy yesterday, when he led the field in the first annual golf tournament staged by the National Hockey League.

Soccer Notes

The game for Saturday is the final of the Gordon Cup, between the Masseys and the Thistle, to be played at King Edward Park. Kick-off at 3 o'clock. Referee, John Warde.

On Tuesday evening, all Thistle players are requested to turn out for practice at King Edward Park, at 6 o'clock.

An important league fixture is scheduled for the following Saturday when the Quaker Oats meet the Masseys in the most important match in soccer annals for many seasons.

League Standing

	P	W	L	D	F	A	Pts.
Masseys	3	2	1	0	6	4	4
Thistle	4	2	2	0	7	6	4
Quakers	3	1	2	0	2	5	2

Two points for a win and one for a draw.

All Massey players, please appear at the practice game on Wednesday evening at 6 o'clock, at King Edward Park.

Laidler was the goal-scorer for the Masseys in winning the Holloway Injured Players' Cup.

In every cup-tie draw this season the Masseys have been fortunate in receiving a bye into the final game and again, last night, they were alloted the same honor when the Peck Cup draw came out, as Quakers versus Thistle, and Masseys a bye.

Gordon Cup Scorers

	Goals.
I. McPhate, Thistle	1
T. McPhate, Thistle	1
Cameron, Thistle	1

Thursday evening is the schedule night for the Quaker Oats practice game at 6.30 prompt. Players please attend King Edward Park.

LACOSTE PLANS TO QUIT TENNIS

Champion of France and U.S.A. Will Retire if France Wins Cup.

ANNOUNCED BY FRIENDS.

PARIS, July 18. — (Canadian Press). — Rene Lacoste, Tennis champion of France and the United States, intends to abandon his active tennis career next October, it is announced by friends close to the Taciturn Rene. These friends add that Lacoste's retirement is conditional upon France winning the Davis Cup in 1927.

BLIND SWIMMER MAKES GOOD TIME

Michael Hambourg Will Use Prize For Operation on Eyes If He Wins.

TORONTO, Ont., July 18 (Canadian Press). — Michael Harbourg, the blind Toronto swimmer, who is entered in the Lake Ontario $50,000 swimming Marathon to be held here in August, swam two miles yesterday in 50 minutes, and to-day was to have attempted a ten-mile trial, but inability to secure a boat to accompany him, forced postponement of this part of his training programme. He says that if successful in annexing the major portion of the prize, he will journey to Vienna, where his eyesight can be restored.

Only the youngest and tenderest poultry should be roasted or boiled, the older birds are better boiled, stewede or fricaseed.

REGINA ARGOS HERE SATURDAY

The Regina Argos, famous Western junior ball team, will be here on Saturday afternoon for a game with the Kiwanis Juniors, local city champions, the shift from yesterday until the end of the week being necessary. The interest in the battle between the two junior teams is keen, and a big crowd will be out to see the Western cracks do battle with the local kids. The Argos have a great reputation, but the Kiwanis team has been playing fine ball and will give a good account of themselves.

GOLF NEWS.

HALL TROPHY.

The following is the draw for the second round of the Hall Cup.

To ascertain the handicap take three-quarters of the difference between the respective handicaps, and the card will show where these strokes are to be taken. The various ditches are no longer ground under repair except that a ball driven from the fourth tee to the ditch between the posts may be thrown back without penalty. This round is to be completed on or before Wednesday, July 27, 1927:

F. M. Dela Fosse vs. P. Bond.
B. D. Hall vs. L. Killaly.
A. Donnelly vs. G. Lyons.
W. G. Morrow vs. J. Green.
R. Abbott vs. L. Potvin.
G. McClellan vs. Dr. Howson.
M. E. Shaver vs. G. Monkman.
A. H. Stratton vs. H. Bradburn.
F. Green vs. G. MacDonald.
H. T. Cranford vs. G. A. Wood.
W. Fraser vs. Dr. N. H. Sutton.
J. Wearing vs. C. Webber.
O. A. DeGraw vs. W. Sangster.
Dr. Cameron vs. F. Stinson.
W. C. Ackerman vs. Dr. Ed. Wood.
J. P. Strickland vs. W. F. Huycke.

BASEBALL.

Assemblers defeated the Polishers by 5 runs to 3 on Saturday in the Lock Works Inter-Shop League. Good ball was played by both teams. The next game will be played on Friday night, July 22, at 6.15 p.m., at James Stevenson Park. The Polishers meet the Lock Fitters.

ATTENTION TOURISTS

Massey Harris Active; Leads Toronto Trading

TORONTO, July 19. —(Canadian Press). — Massey Harris featured an active and broad market on the Toronto Stock Exchange to-day, with transactions amounting to over 1700, this stock gained 1⅝. International Nickel was second in activity and in Nickel with the general trend moved forward 1⅛ to 62¼.

Abitibi scored widest gain on the list when it advanced three points to 98 in light trading. Brazilian was prominent and stronger at 167⅝, up ⅝. Page Hersey common gained 1⅛ to 71 while the P. F. D. advanced two points to 143. Twin City moved up 1⅝ to 54⅝. Canada Bread was a weak feature, dropping three points to 115.

The liquor stocks generally firmer. Walker gained ⅞ to 49⅞ and Industrial Alcohol ½ to 32.

Imperial Oil strengthened ⅜ to 44¼, while British American Oil was active and firm at 24⅛.

Mine Trading Moderate In Narrow Limits To-day

TORONTO, July 19.—(Canadian Press.)—Trading was moderate and the market inclined to narrowness on the standard mining exchange to-day. Towagmac was the strongest feature to appear on the board. It sold up eighty cents to 3.95. Amulet continued as leader in activity but weakened two points to 2.84. Wright Hargreaves was the strong spot amongst the dividend paying gold stocks advancing 17 cents to 5.97. Teck Hughes was strong, selling up 10 cents to 8.40, while McIntyre gained five to 25.35 as did Dome Mines to 7.50. Lake Shore was weak, declining 30 cents to 19.95. Hollinger eased five cents to 18.20. Area was active and weak at 48, down two points. Central Manitoba Gold declined one cent to 1.60.

Firmness at Liverpool Sends Wheat Prices Up

Chicago, July 19. Canadian Press. —Influenced by the relative firmness of Liverpool quotations, the wheat market here averaged higher early to-day. Reports at hand told of lateness and uncertainty of crops in Canada, Europe, Argentina, and Australia. Opening at ¼c off to ¼c up, Chicago wheat later showed a moderate general advance. Corn and oats were also firmer, corn starting at 1-c decline to 3-8c advance, and subsequently rallying well from downturns. Provisions tended to sag.

Opening prices were: Wheat July 1.40 5-8; September 1.47 7-8; corn July 97⅝; September 1.02¾; oats July 43 5-8; September 43¾.

New Leaders Continue Advance in New York

NEW YORK, July 19. —(Canadian Press). — Responding to the growing expectations of favorable fall business, the stock market to-day resumed its march to higher ground, with new leaders brought forward as some of the old favorites showed signs of wavering on profit taking. The credit outlook continues favorable. The declaration of 100 per cent. stock dividend by Commercial Solvents Corporation and the publication of the quarterly report o fthe Hudson Motor car company, showing $3.62 a share as against $2.52 in the preceding quarter, had a bullish effect on sentiment.

Public participation, however, continues on a relativel ysmall scale. Motor and public utilities issues presented several points of strength in to-day's trading. General Motors crossed 208 to a new high record. Buying of some of the minor motors was said to be for the account of a new investment trust which eventually planned a merger of those properties Abitibi Power crossed 99 to a new peak and good buying developed in Consolidated Gas and Peoples Gas.

Electric Stocks moved into a new high ground under the leadership of General Electric, Westinghouse Air Brake, and Manhattan Electrical Supply.

MEN!

The 4 Suburban Days Sale this week will give you an opportunity to leave your Order with us, or buy from our Complete Stock, a pair of Custom Made Fine Shoes or Work Boots.

BOWLERS BEGIN BIG TOURNAMENT

Annual Open Event of Peterborough Club Starts To-morrow.

To-morrow promises to be a red letter day for bowlers and bowling enthusiasts of the city, if the weather man will only smile down on the Brock street greens for the next two days. The annual tournament of the Peterboro Bowling Club starts to-morrow.

Entries for the tournament have been received from Toronto, Lindsay, Port Hope, Cobourg and practically all the surrounding districts. The draw will be made to-morrow morning at 9.30 sharp, and it is expected that a large crowd of spectators will be present throughout the duration of the tournament.

Theaters

AT THE REGENT.

THE RETURN OF PETER GRIMM

Back from the "Never, Never Land" came the spirit of Oom Peter, to right the wrong he had tried to do on earth. And when he went away again, he took with him the little lad who loved him. "Is it a nice place we're going to?" said little William to the old man. "If folks only knew how wonderful it is," said his friend, "they would not grieve for us as they do." So the two shadowy figures slipped through the door and the faithful dog watched their passing, his head up for the final wave of the hand of the old man.

Presented under the auspices of the Catholic Women's League, "The Return of Peter Grimm tells a poignant story, perhaps just a little over the heads of most who will watch its unfolding. The dominant but kindly old man who "tried to play God" during his lifetime realized in another world just what his plans meant for the loved ones he had left behind, bound by a promise that they considered sacred. So he came back to the old house and pursued them with ineffective energy, while they went about their several ways. The wraith of the white-haired Oom Peter was aware of all that concerned his family, but they could not see him or hearken to his frantic appeals. Only the little boy, close to death, knew that his patron had come back, and it was through the childish mind that Peter Grimm was able at last to undo the wrong he had willed upon earth.

To New York, long ago, came the Grimms of Holland, bringing with them the rare art of raising beautiful flowers. Here, at Quassick Creek, dwelt their descendant, Peter Grimm, the "Father Peter" of the village, kindly, dominant, nervous, with a weak heart and a strong will. Frederik, his dissolute nephew, and Katie, his niece, are bound by a promise to marry, and this promise is in a fair way to be implemented after the old man's death, until his shadowy spirit intervenes to save the girl who is in love with the bright-faced Jimmy.

It is a picture that carries with it a rather tiring atmosphere of high tension, particularly in the scenes where the old man tries so hard to make his earth friends hear his message, but it rises to outstanding heights in the final episodes and has a distinct and pointed moral.

With this interesting feature is an added attraction in the very graphic pictures of the flight across the Atlantic of "The Spirit of St. Louis," piloted by the intrepid Lindberg. The tall youth, with his keen eyes and cleft chin, is shown at work on his beloved plane, during the take-off, and later on, after his triumphal progress across the sea.

"The kid of twenty-five, who took the 'Spirit of St. Louis' across the ocean," brings a thrill with him as he stands quietly in the forefront of the various scenes, and these pictures are wonderfully interesting in their delineation of one of the most courageous exploits of all history.—Jeanette.

RED ROSE TEA "is good tea"

Your grocer knows when you order RED ROSE ORANGE PEKOE you are a judge of fine tea.

Jhungle Breath

© 1927 by NEA Service — by Ben Lucien Burman

(Continued from yesterday.)

THIS HAS HAPPENED

Attempts have been made on the life of ELISE MARBERRY, an American girl owning considerable property near the little town of PORTO VERDE, in west central Brazil. She has escaped harm due to the shrewdness of her cousin and protector, VILAK, who with his friend, LINCOLN NUNNALLY, an elderly American chemist, is trying to learn the reason for the strange enmity for Elise.

Living near Porto Verde is one BAYLORD PRENTISS, a strange and forbidding character, who has evinced a hatred for Elise.

TINKY, Elise's two-year-old orphaned nephew, is kidnapped. A native reports Prentiss has been seen with the baby. The trail leads into the jungle.

Calamity overtakes the expedition Vilak organizes in pursuit. Native trackers are injured or desert. Treachery breaks out.

Elise, Vilak and Nunnally finally emerge from the jungle. Presently they come to the outskirts of a strange city, resembling the old Inca civilization. Here they are made prisoners. They discover they are in the power of CARLOS D'ALBENTARA, whom they had known as an engineer back in Porto Verde.

The ruler of the city decides to marry Elise and to put Vilak and Nunnally to death. They are to be tortured at the feast of Raymi, as are Elise's nephew and Prentiss. The feast day arrives and a friendly Indian slips a dagger to Vilak, who breaks away and with Nunnally stands at bay as the astonished natives press slowly toward him.

NOW BEGIN THE STORY

CHAPTER XLV.

The child near the altar began to cry lustily once more. Vilak's smile faded. He grew silent. D'Albentara and Batalagos continued to hold their excited parley. Then the soldiers in front of the chief began moving toward the steps in a wide semi-circle, their spears out-stretched.

Batalagos followed at a safe distance, D'Albentara at his side. Vilak grew tense. Slowly he descended the steps toward them. "Halt!" he shouted.

The soldiers gave no sign of hearing, impassively continued their advance. "Halt!" he cried again.

Again they gave no heed. He descended two more steps. They were now only twenty feet away. "Halt!" he called again. At the same instant he whipped a box of matches from his pocket and struck a match upon the sandy paper along its edge. It lighted. He tossed the flaming match over his head. In quick succession he lighted all the matches the box contained and tossed them dexterously in a circle over him, so that at moments his head appeared to be surrounded by a fiery halo.

This time the soldiers halted. While they did not flee in panic as had done the Indians in the camp of Bagarundi, and though the expression of their gloomy faces indicated that this was not the first time they had seen fire thus artifically produced, yet they were undoubtedly impressed. A few prostrated themselves. The face of Batalagos was that of a puzzled, dull-witted child.

Vilak continued to light the matches until all but one of the boxes was exhausted. Then he drew himself up regally. "Listen, O people. Listen O soldiers. Listen, O Batalagos," he roared in a voice of thunder. Batalagos backed farther away. A fat Indian prostrated himself.

"Listen, O people. Listen, O soldiers. Listen, O chief. It is the voice of the fire who speaks to you. For I am the on of the fire. I and those, who came with me to this land, all all are children of the fire, sons and daughters of the fire. Harm us and the fire shall sweep down from the heavens and slay you swift as the eagle slays the dove. For we are the children of the fire. Yes, more, we are the masters of the fire. In our land of the gods where we dwell far, far away, there fire paddles our canoes swifter than the arrow and fire drives our ox-carts faster than the wind. These are true things, O people. Those of you who have wandered to the land of the gods have seen. The nature of the fire is two. It is good, it is evil. Harm us, and the fire shall wither and destroy you; obey us, and the fire shall bless you." He paused a moment.

The savages stirred restlessly. The chief's bewilderment increased. He turned to the Portuguese and gazed at him questioningly. D'Albentara smiled affably. "Batalagos is wise," he said. "Batalagos has before seen the little sticks which flash into fire. These have I brought to Batalagos when I first come to his city. Batalagos knows the true from the false. Batalagos knows that this is not a god, but a man. A man full of evil."

Batalagos took off his feathered helmet and scratched his kinky head. "Batalagos wise," he muttered. "Yes. Batalagos wise. Batalagos see before. little sticks make flame. See iron stick too which high priest have. Iron stick which make flame, kill bird far, far off. All fire sticks magic sticks. Yes, Batalagos wise. Batalagos think man not god. But how Batalagos know? Man got little firestick, maybe man got big fire, iron stick. Maybe man god, too. Got high priest's ring; stand in temple of sun . . . sun not strike. If man god, then . . . at heppen to Batalagos?"

D'Albentara was about to reply. He checked himself to listen as Vilak on the steps above went on with his oration.

The American stretched out his arms. "Listen, O people. Listen, O soldiers. Listen, O Batalagos!" he repeated in deep, powerful tones. "The voice of the sun speaks again, the child of the fire speaks again."

He lighted a few more matches and tossed them about his head. "I hear murmurings; I see faces. There are doubts. 'He is not a god,' say those who think they are wise. 'He is but a man. But a man.' Let those who so speak beware. Now let there be no more murmurings—let there be no more doubting. For I, the son of the fire, will show that I am the son of the fire. . As you sit around your fires when the nights grow cool, your wise men tell of the gods who when the world was young walked through the fire.

"Behold, I, this second day of the feast of Raymi, now when the world is old, will walk through the fire as did the gods my brothers in the days when the world was young. For I am the son of the fire, and the fire which destroys man, will only bless and caress me; its son."

A gasp of awe went up from the multitude. Batalagos paled. "White man god," he muttered to D'Albentara. "If white man do this, he god. Batalagos know. Batalagos wise. Only god walk through fire."

D'Albentara coolly twisted the ends of his mustache. "He is a man, Batalagos. He will not walk."

Vilak slowly resumed his descent of the stairs, the old man close behind him. The black figures below began to press back against their fellows.

D'Albentara took a few steps forward. He smiled at Vilak affably. "You are clever, amigos," he said in his perfect Portuguese, taking care to keep well out of reach in case Vilak should make a sudden lunge toward him. "Very clever. But this you cannot do. At once could I kill you. With my revolver, or your own that I have taken from you. But this will I let you try. For when you fail, your death will be even more interesting than I had planned. Interesting and most helpful to me, amigos. Most helpful." He stepped back into the crowd.

Vilak reached the stone pavement at the foot of the steps. Here he halted a moment. The old man peered at him anxiously. "You can't . . . er . . . do it, Vilak. You can't," he murmured. "I know you can do many things. Yes, many. But not this. This is . . . er . . . magic . . . magic. It's impossible. D'Albentara was right. It'll only make things worse. Worse." He shook his head, then added hesitantly as though half ashamed of his lack of confidence. "You can't do it, can you? You?"

"Don't you worry, Nanny. I can do it. I told you it's a trick. And I happen to know how this trick is worked. I've never done it before, but that's no reason why I can't begin."

They made their way to the one-armed idol. Batalagos, who had followed at a distance, pointed to the sacred fire, burning in its enclosure of trinagular stone. "White man, white god, walk through that?" he grunted.

Vilak scowled. "This fire is as nothing in the sight of the son of the fire. He will walk through a fire as long as the bodies of five men stretched head to foot and foot to head upon the ground. Nay, the bodies of fifteen men."

Another gasp of awe arose from the spectators. In a few moments he gave a few commands to the soldiers near the bulky chief. A number of rude, shovel-like implements were brought. The stone flags forming the pavement of the court were pried out and a swarm of excited chattering natives were soon digging a trench a foot in depth, eight or ten feet in width, and eighty feet in length extending from the base of the altar toward the temple.

The nos of the workers frightened the child on the stone; it began to cry. Vilak spoke briskly to Batalagos After a brief argument with D'Albentara the child was released and put in the arms of a somberly tattooed black woman. Elise was brought out once more in a litter and took a seat in the pavilion. The wives of the chief who were to officiate at her marriage at sunset grouped themselves about her. She saw Tinky, but perceiving that he was not being injured, made no attempt to reach him, but concentrated her gaze upon her cousin, stalking up and down between the ranks of busy laborers.

The ditch was completed; Vilak ordered it to be filled with great heaps of brush. This done, he mumbled a meaningless ritual and struck a match to the wood. It flamed quickly, then became a mass of glowing embers.

On top of this he carefully supervised the placing of several layers of the lava rock with which the region abounded. Soon this, too, was a glowing expanse of vermillion from which leaped here and there tiny blue flames as some metal in the lava was consumed in the intense heat, or great crackling bursts of fire as some branch of harder texture than the others ignited.

It was now almost midday, the time set for the sacrifice of Prentiss and the child. The priests made their gloomy preparations. One of them took Tinky from its black, feminine guardian and brought it to the altar-stone under the shadow of the idol's extended arm. Here he waited.

(To be continued.)

The Aquitania burns 33,000 barrels of oil a day on her transatlantic voyages.

SWEATER FOUND IN HAMILTON BAY

Identified As Owned By Frank Ryan, Drowned on Tuesday.

HAMILTON, July 18. — A sweater known to have been owned by Frank Ryan, one of the ivictims of the drowning tragedy which occurred on the bay last Tuesday night, was recovered Sunday morning by persons grappling for the three bodies, as Chief Taplin of the Beach reported last night.

The sweater was recovered by Fred Hall and a companion, who grappled in a line from the plant of the Grasselli Chemical Company, Ltd., to Station 10, the Beach. They did not know they had found the garment until they examined their irons at the Beach.

Chief Taplin said the sweater had been identified as Mr. Ryan's. One sleeve was turned inside out, but the Chief said he did not attach any significance to that, as Mr. Ryan was said to have not been wearing the sweater when the tragedy occurred. It is believed the sweater was lying on the deck of the boat when it turned over.

A large number of friends of the victims volunteered their services on Saturday and grappled with again until sundown. They set out again this morning, but were compelled to desist owing to bad weather.

HOW'S THAT?

The installment salesman was visiting the railroad shops. "This man you fellows call 'Slim' Johnson wants a suit of clothes on time payments. Is he honest?"

"Mister," answered the foreman, "Slim is one of the squarest men in the roundhouse."—Good Hardware.

GARDEN PARTY HELD.

Social Event Was a Great Success at Wooler.

WOOLER, July 19—On Thursday the garden party, under auspices of the Ladies' Aid was a grand success. After partaking of the ice cream and cake, the programme, in the auditorium, was as follows: Mr. C. A. Cooke, famous Indian entertainer, Ottawa, in his humorous manner, told a Scotch story and sang "Annie Laurie."

Recitation.—A Candidate for Parliament.

Solo.—"The Bass Violin."

Solo.—"Tom, Tim, Tim Tom."

Recitation—Military.

Recitation.—Lulu McColl.

Solo—"Trumpeter."

Solo.—"Molly."

Recitation—Let Me Live in a House on the Side of the Road.

Instrumental—Mandolin, by John Hunt.

Solo—Cornish Floor Dance.

Solo—"Poor Married Men."

Recitation — "An Aged Minister with an Impediment in His Speech."

Solo—"Billy Boy." Douglas Steinburg.

Solo—"I Came to the Garden Alone."

Recitation—'Frien'd of Mine."

A large number of girls have gone to camp at Presqu'ile Point.

Mr. Simms and daughter, and Mrs. Hinchcliffe of Rochester are the guests of Mr. and Mrs. Sam. Palmer.

Mrs. Garnet Nelson entertained a number of ladies to a quilting on Friday.

Roy Watson of Peterborough, was in town on Thursday evening.

Mr. and Mrs. John Shaw and family of Bloomfield spent Thursday afternoon and evening with Mr. and Mrs. Aaron Clarke.

Gordon Chase, who has been very ill, threatened with lock-jaw, is out of danger and improving.

MANITOBA'S MINERAL DEVELOPMENT.

Current activities in the mineralized areas in southeastern and northwestern Manitoba indicate that the province will soon become a steady producer of gold and possibly an important source of copper and zinc.

WEATHER HALTS ATLANTIC FLIGHT

Day of Hop-off Marked By Heavy Wind and Rain.

VALENTIA, Ireland, July 19. — (Canadian Press) — Weather unfavorable for the hop off by Capt. T. P. Courtney, British airman, on his projected flight to America, developed to-day after ten cloudless days. A storm sprang up, rain falling heavily and a strong south-west wind lashing the harbour.

BRITISH DELEGATES LEAVING FOR HOME

Cecil and Bridgeman To Explain Conference Position To Cabinet.

GENEVA, July 19. — (Canadian Press.) — A sensation was caused late to-day by the official announcement that Earl Cecil, member of the British delegation to the Tripartite Naval Conference, will return to London to-night and W. C. Bridgeman, head of the British delegation, to-morrow, for the purpose of consulting with the British Cabinet and elucidating the British position at the naval conference.

NEED FOR FLY-TOX

The Panama Canal Was Impossible Until Mosquitoes Were Killed.

Enough mosquitoes to infest a whole neighborhood can breed in one ordinary tin can. Mosquitoes spread disease. They must be killed. Health authorities advocate Fly-Tox. Fly-Tox is the scientific insecticide developed at Mellon Institute of Industrial Research by Rex Fellowship. Insist on Fly-Tox. It is safe, stainless, fragrant, sure. Simple instructions on each bottle (blue label) for killing ALL household insects. Easy to use.

Carriage Smashed; Baby Not Injured

TORONTO, July 19.—William J. Lewis, aged 30, of 982 Bathurst street, was injured, while his wife and infant son, Bobby, escaped injury, when an automobile ran up over the sidewalk at Christie street and Benson avenue, and crashed into a perambulator Mr. Lewis was wheeling. Mr. Lewis was run over by one of the wheels of the car. His wife suffered from shock. The infant rolled from the carriage, which was reduced to kindling.

A police ambulance was summoned and the family rushed to Grace Hospital. Mr. Lewis was found to have a badly injured leg. Mrs. Lewis and the baby were not hurt. The mother suffered from fright.

The Lewises were walking on Benson avenue when an automobile, reported driven by William Long, 7 Bramley Grove, Fairbank, crashed over the sidewalk and struck them. Long told police he was driving east on Benson avenue when a motor car travelling on Christie street was heading for his auto. To avoid a collision he swerved his car too much and it went up on the sidewalk before he could right it.

Prince Won't Talk; Lets Premier Do It

LONDON, July 19 (Canadian Press).—The Prince of Wales wants to leave most of the speech making to Premier Baldwin when they go to Canada this summer in connection with the Dominion's Diamond Jubilee. The Prince does not like public speaking and, according to close friends, has indicated that he will do only a small part of the talking.

OBITUARY.

MRS. ROGER TORPEY.

The funeral of the late Mrs. Roger Torpey will be held from her home on Elm Street to-morrow morning at 8.45 to St. Peter's Cathedral. The remains will be interred in St. Martin's Cemetery, Ennismore.

The late Mrs. Torpey, who was born in Ennismore, but came to Peterboro some 20 years ago, won the love and admiration of all who knew her by her kind disposition, and pleasing manner. Her dead mother, to whom she gave such tender care predeceased her just five weeks ago.

She leaves to mourn her loss besides her sorrowing husband, two sisters, Mrs. James Kearney and Miss Annie Cavanagh of Peterboro, and one brother, William F. Cavanagh of Ennismore.

ALEXANDER B. ROSS.

There passed away this morning at 10.25, at his residence, 195 Sherbrooke street, Alexander Bell Ross.

Deceased, who has been in failing health for almost a year, was born near Innerkip, Ont., moving to Woodstock, prior to coming to Peterborough seventeen years ago.

Surviving him are his wife, two daughters, Mrs. John Anderson and Miss Bessie, and a brother and sister.

Funeral (private) on Thursday afternoon. Rev. W. Allan will officiate.

JOHN CAREW

LINDSAY, Ont., July 19 (Special to The Examiner).—The flags on several public buildings fly at half-mast today because of the death of John Carew, Lindsay's lumber king and most prominent citizen.

Although but 65 years of age, John Carew's life was crammed full to the top with successful business achievements. He was closely identified with and instrumental in bringing many industrial concerns to Lindsay, and the John Carew Lumber Co., of which he was president, grew from a small beginning, through two bad fires, to one of the largest of its kind in the Dominion.

Mr. Carew was successful and generous beyond measure, with donations to the Ross Memorial Hospital here and to the unfortunate of the town, his benefactions were many.

He was a lover of clean, wholesome sport ,and frowned upon commercialized sport. He was for fifteen years patron of the curling club, a shareholder of the golf club, and past president of the hockey club. He gave much to the Conservative party as a president of the local association, and as member for five years. One of his greatest pieces of work was as president of the Lindsay Fair Board for sixteen years, when he built up that institution from a small fair to one of the largest in Ontario.

Lindsay deeply mourns the loss of a pioneer business man and fine public-spirited citizen. The funeral takes place on Thursday under Masonic auspices.

MRS. JOHN HARPER.

Died in Peterborough, on Monday, July 18th, Fannie Harper, wife of John Harper, in her 79th year.

She leaves to mourn her loss a sorrowing husband, two sons, Percy Rubidge of Chicago and Charles Rubidge of the North-West.

The funeral will be held on Wednesday, July 20th, from the family residence, 558 Romaine Street, at 2 p.m., and proceed to the Little Lake Cemetery.

DIED

CAREW.—In Lindsay, on Tuesday, July 19, 1927, John Carew, Esq., ex-M.P.P. The funeral will leave the family residence, William Street North, on Thursday, at 2.30 p.m. Service half an hour earlier. Interment at Riverside Cemetery.

IN MEMORIAM.

BARTON: In loving memory of our late Guard Leader Mrs. Barton.
In God's acre softly sleeping,
Lies our leader cold and still,
God took her home two years ago,
It was His blessed will.
But we do not wish her back again,
To this world of pain and woe;
We only hope that we some day
Shall meet her round the throne.

MAXWELL TO PILOT PLANE IN BIG FLIGHT

Head of Ontario Government Service To Have Charge of Venture.

TULLY NAVIGATOR.

Both are Eager To Show What Canada Can Do in Atlantic Flying.

LONDON, July 20. — (Canadian Press).—Captain W. R. Maxwell and Captain T. B. Tully, both of the Ontario air service, with headquarters at Sault Ste. Marie, were yesterday chosen as pilot and navigator respectively of the London-to-London nonstop airplane flight, which will be undertaken in a few weeks. The two fliers arrived in the city yesterday morning and final articles have not been signed, but they were closeted with Charles Burns, sponsor of the $25,000 flight and his flight manager, and final details will all be cleared up within an hour.

As runners-up for the honor of piloting the London plane, Captain Dave Harding of Camp Borden and James D. Vance, Toronto, are also in the city. They possessed unusual qualities and will probably be named as understudies to train as substitutes in case of accident or illness to either of the previously named airmen.

Out of the scores of applicants at least seven high-class flying men were picked and from these the final choice was made. They were all nearly of equal merit.

The most important factor in Capt. Maxwell's favor was that he was familiar with the most important instrument that the London plane will use on its long journey. This is the earth inductor compass. He was at the American factory a few weeks ago where the earth inductor compass from Commander Byrd's "America" was overhauled, and he learned thoroughly how to use it. He is also familiar with the other instruments.

Captain Maxwell is director, and Tully is an instructor of the Ontario Air Force, one of the most efficient air organizations on forest patrol work in the world.

Fliers not Free

TORONTO, July 20. Canadian Press. — Captain W. Roy Maxwell, and Captain Terry Tully, the two aviators chosen for the London to London non stop flight, have not yet received official sanction from the Hon. W. F. Finlayson, Minister of Lands and Forests, to attempt the flight, it became known to-day.

It is understood that the Hon. Mr. Finlayson has gone to Manitoulin Island, where Maxwell and Tully will see him on their return to S. S. Marie.

"We do not like to stand in their way but Ontario's forests and fire hazards are far more important than any transatlantic flight. However, if we can take care of the service and at the same time spare them, they will be at liberty to go ahead with the venture; otherwise they won't" said Mr. Finlayson in discussing the appointment of the two aviators, both of whom are engaged in the Ontario government air service work.

FREIGHT OFFICE TO MOVE SOON

Rollers To Be Used, as Long Wagon Raises House Too High.

WIRES ARE IN WAY.

The freight office that is at present resting on Charlotte Street will in all probability be well on the way to its last resting place tomorrow. Contractors have been trying to move this "house" for over a week by various methods, but all of these have failed. The building was at first placed on four wagons, but it was then found impossible to move the structure on to the main street, for all the wagons could not be turned at the same time.

The last move was to place the office on a large timber. This would have been satisfactory, but for one trouble. Evidently the movers did not think that they might run up against such obstacles as electric wires strung across various parts of Charlotte Street. This they learned only lately, and the Hydro refuses to cut these wires unless a high price is paid for the trouble.

The building is now at a standstill as the contractors are waiting for rollers to come from Port Hope, and by this new means will endeavor to move the office "home."

KIWANIS CLUB PLANNING FAIR

First Meeting of Executive To Arrange Produced in Canada Exhibition.

CHAIRMEN NAMED.

A meeting was held last night of the Executive of the Produced-in-Canada Exhibition of Kiwanis Club, which was an outstanding success last year and plans were laid that show promise of an even better show for 1927. It will be called this year "The Confederation Year Produced-in-Canada Exhibition," and that the directors are flying high in their plans is evidenced by the fact that the Prince of Wales has already been invited to officially open the exhibition. Past President John J. Craig is chairman of the executive.

New ideas for the ticket selling contest were proposed, and will be further considered at a later meeting. It is planned to have this more interesting and remunerative for the contestants.

Chairmen of committees were appointed as follows: Harry Boyle, Exhibitors; Harry Dickin, Bond Selling; President Isaac P. McNabb, Ladies' Booths; E. Vernon Morphet, Programme; Harry C. Huffman, Booths; C. Saunders, Decorations; H. Gilgour, Dancing; John R. Heron, Publicity, and Carl S. Browne, Games. Charles D. Cook was appointed secretary and Charles Elliott, treasurer.

The committees will be drafted by the chairmen and executive, and the next meeting will be held on August 9.

BALDWIN HOPES TO HAVE HOLIDAY

Expects, However, To Be Kept Fairly Busy While in Canada.

LONDON, July 20.—(United Press) —Premier Baldwin, despite the plea that his forthcoming visit is to be in the nature of a holiday, is anticipating a busy time in the Dominion, British United Press learns, although naturally his trip will not be so strenuous as Lloyd George's visit several years ago.

Conservative supoprters are anxious that the Prime Minister should accomodate Canadian wishes as far as possible. However, it is understood that Mr. Baldwin's chief wish is to see the Dominion and take note of her progress and development. Interest in the visit is steadily increasing and the London newspapers are giving much space to it.

FERDINAND OF RUMANIA DIES; GRANDSON KING

Rumanian Monarch Succumbs To Congestion of Lungs. Ill Long Time.

NO TROUBLE EXPECTED.

Regency Council Begins to Act In Name of 6-Year Old Michael.

BUCHAREST, Rumania, July 20.—(Canadian Press).—King Ferdinand is dead. The monarch died during the night at his summer residence at Sinaia. The Regency Council has begun to function. King Ferdinand's family was at the bedside. Order was not disturbed when the news became known.

Advices received in Vienna, Austria, said that troops had been concentrated in barracks at Bucharest and measures taken by the Government in the event of the return to Rumania of former Crown Prince Carol.

Carol left his home at Neuilly, France, early to-day with a party of friends, and obviously had not received the news of his father's death. Attaches at the residence seemed greatly upset over the news of Ferdinand's death. They said no despatches had been received to indicate it was imminent.

Congestion Causes Death.

PARIS, July 20 (Canadian Press).—The immediate cause of King Ferdinand's death was congestion of the lungs, developing from a cold that manifested itself a few days ago, says a Havas despatch from Bucharest.

The despatch adds that the King will be succeeded by Crown Prince Michael, six-year-old son of former Crown Prince Carol, assisted by a regency council, made up of Prince Nicolas, the patriarch of Rumania, and the Chief Justice of the Supreme Court.

Michael Proclaimed King.

BUCHAREST, July 20 (Canadian Press).—Prince Michael, young son of former Crown Prince Carol, will be proclaimed King of Rumania, to succeed his grandfather, this afternoon, it was learned to-day.

King Since 1915.

Ferdinand succeeded to the throne during the critical times shortly after the outbreak of the World War when his country was divided as to the position Rumania was to take in the conflict. During the first two months of the war Rumania, under the rule of the late King Charles, it was charged, had been secretly aiding the Central Powers. Ferdinand became King on the death of his uncle in October, 1914, and immediately announced that Rumania would remain neutral unless attacked.

During a speech from the throne in November, 1915, King Ferdinand was shouted down with cries of "Down with Hungary", "Down with Germany", "Down with the Hohenzollerns". This demonstration was taken as an indication of the government's sympathy in the conflict, Ferdinand and his predecessor having been princes of the house of Hohenzollern.

In August, 1915, the former German kaiser sent a letter to King Ferdinand informing him that it was his intention to send a special mission to Bucharest relative to Rumania's position. The king replied that such an act would be inopportune and since he was a constitutional monarch, he would be obliged to refer the envoy to his ministers. A few days later Rumania entered the conflict on the side of the Allies by declaring war against Austria. This action was believed to have resulted from the influence of Queen Marie, who was a princess royal of Great Britain and Ireland. The declaration by Rumania was followed almost immediately by Germany declaring war against Rumania.

With his troops at the front King Ferdinand's throne began to totter from intrigue charged against Rumanian politicians and German agents, who planned to dethrone the ruler and install a German prince in his place. There were even plots against the life of the king.

Rumania's position in the war was a difficult one and after nearly two years' fighting two-thirds of the country was overrun by the enemy. The Rumanians, isolated and without outside support, were obliged to accept drastic peace terms sent by Germany with an ultimatum that they be accepted in 24 hours. The collapse of the German army on the western front and the armistice, however, rendered the enforced treaty between Germany and Rumania ineffective.

Ferdinand Victor Albert Mainrad was born at Sigmaringan, August 24, 1865, the son of Prince Leopold of Hohenzollern and Antonia, Infanta of Portugal. He was educated in Germany and was an officer in the Germany army. He was created a prince of Rumania by royal decree in 1889 and the path was cleared for his ascension to the throne by a series of renunciations. The heir presumptive of King Charles was his elder brother, Prince Leopold of Hohenzollern-Sigmaringen, who renounced his rights in favor of his son, Prince Wilhelm. The latter in turn resigned his rights in favor of his younger brother, Ferdinand.

(Turn to Page 6, Please)

Time Passes Anyhow and Chimes Spoil Sleep Refrain of Ottawa Folks Seeking Silent Night

OTTAWA, July 20 —(Canadian Press).—Request that the chimes connected with the clock in the Victory Tower, Parliament Buildings, which ring out the quarter hours, be silenced during the night has launched considerable discussion here. A correspondent writing to a newspaper argued that the chimes ringing out every quarter hour throughout the night was senseless. It told the hearers that another fifteen minutes had rolled on but did not tell them what time it was.

Other letters have followed, the general trend being that all the quarter hour chimes did during the night was to tell those within hearing of the bells that time was passing and the writers were prepared to admit that. Furthermore the bells disturbed their sleep.

27 RINKS ENTER TOURNAMENT OF PETERBOROUGH BOWLERS

Annual Open Event Gets Away To Good Start To-Day.

FIFTEEN OUTSIDE RINKS.

Visitors Come From Many Points Between Toronto And Warkworth.

Twenty seven rinks were represented this morning at the opening of the annual tournament of the Peterborough Lawn Bowling Club.

Twelve local clubs are entered in the competitions and fifteen visiting combinations from points as far apart as Toronto and Warkworth.

The visitors to the city were welcomed by the President of the club, J. Sedgwick, and the official greetings of the city were conveyed by Alderman Roland Denne, in the absence from Peterborough of Mayor W. T. Holloway.

Ald. Denne, expressing the gratification of the city at the return of the competing bowlers to the local green, said that he would like to see a bigger club, with a club house of its own and excellent playing facilities—all as part of the greater Peterborough that is yet to be. The Parks Committee, said Alderman Denne, was studying the laying out of James Stevenson Park as a playing field for the accomodation of the leading sports of the city. He thought that if the bowlers came forward with any reasonable request the committee would be prepared to cooperate with them and a portion of the field would be laid out as a bowling green. He was hopeful that when next year's tournament is held the competition will take place in the James Stevenson Park.

The draw for the Primary Competition—the Stratton trophy was made by Messrs. Ford of Toronto and St. John of Sunderland. The Bowmanville club is the present holder of the Stratton Trophy.

The following is the result of the first round for the Stratton primary trophy:

WESTERN UNION PLANNING CABLE

Negotiations For Line Across Pacific Are Still Proceeding.

TERMINI UNKNOWN.

LONDON, July 19 (United Press).—Confirmation has been obtained by the British United Press that the Western Union is contemplating laying a cable across the Pacific and that negotiations in this connection are now proceeding, but where and when the cable actually will be laid or what points it will serve has not yet been revealed.

WASHINGTON, July 20.—Lowering waters of the flooded Mississippi district left millions of fish marooned in shallow pools, and the U. S. Bureau of Fisheries is planning to rescue them. Squads of men with nets will work through the territory and restore the fish to the rivers and creeks.

MEDOMAK, Ore., July 20.—Mary Anne McCarty, "who went out to gather clams," probably never approached the record of Elnwood B. Castner, who says he's the world's champ. Castner recently beat his own record by digging 22 bushels in one day.

Judge Ejects Woman 'Improperly Dressed'

ELKINS, W. Va., July 20 (Associated Press). — Federal Judge William E. Baker yesterday halted court proceedings to order a woman witness, held by the Judge to be improperly dressed, removed from the room.

After remarking that women coming into his court must dress properly, Judge Baker told court attaches to escort the witness to an anteroom.

The woman there adjusted her rolled stockings and returned to court.

CITY MAN AND FARMERS OUGHT TO BRIDGE GAP

Sequel of Denmark's Success Lies in Co-operation Movement.

BATTLE OF WHEAT.

1,041,000 Canadians Are Engaged in Agriculture, Says Experimental Farm Chief.

OTTAWA, Ont., July 20 (Canadian Press).—"Agriculture is the greatest thing in Canada today and we should all get behind the greatest thing in the country," declared F. S. Nunnick, Chief of the Division of Extension and Publicity of the Dominion Experimental farms in addressing a local service club yesterday. He stated that the gap between the city man and the farmer ought to be better bridged in this counry. The rapid strides made by Denmark and Swedenwith agriculture were due he said, to the nation recognizing the necessity of agriculture being more adequately fostered to enable it to assume the position that was its due. Mussolini in Italy had caught the vision too, and had embarked on a programme that would take ten years to consummate, and which was known as the battle of the wheat. This fight was to grow better and more wheat.

Canada had no need to encourage the growing so much as the city man's interest in the growing. He stated that 1,041,000 people in Canada were engaged in agriculture, while 999,000 were in secondary industries, and 1,011,000 in clerical work of all kinds.

Figures revealed the comparative importance of agriculture, he said. Field crops were valued at $1,153,000,000 for the last year figures could be completed, while dairying was worth $253,000,000, poultry $69,000,000, minerals $226,000,000, forests $213,000,000, and fisheries $47,000,000. Agriculture was as great as the next three together. As a matter of face, the barley crop alone, which was away down on the last, was equal to all the fisheries.

HAMILTON MAN DROWNED IN U. S.

Joseph Johnson Had Been Visiting Friends at Detroit.

DIES ON PICNIC.

WINDSOR, Ont., July 20. —Joseph Johnson, 41 years old, a resident of Hamilton, lost his life by drowning at Orchard Lake 25 miles outside Detroit shortly after 6 o'clock yesterday evening when he was seized with cramps and went down in 22 feet of water. Johnson who had been visiting with friends in Detroit, accompanied them to Orchard Lake on a picnic. The party after supper decided to go in swimming. They had been in the water but a few minutes when Johnson gave a cry for help and immediately sank. The body did not again come to the surface. Authorities are dragging the lake but have not yet succeeded in locating the body.

NEW YORK TRIP IS POSTPONED TO THURSDAY

Trouble With Wireless Makes Further Delay In Flight Necessary.

OTHER ADJUSTMENTS.

Trial Flight This Morning Reveals Several Minor Defects In Plane.

SOUTHAMPTON, England, July 20, Canadian Press — Captain F. T. Courtney, who was to start a flight to New York to-day, postponed the trip for a day when a trial flight proved that the wireless apparatus was working unsatisfactorily.

In addition to the wireless Captain Courtney decided that several other minor adjustments would have to be made.

It was his intention to fly to Valentia, Ireland, this morning, a distance of about 400 miles. The plane was to be refueled there, and again take the air this afternoon for the westward journey across the ocean toward Newfoundland.

Capt. Courtney announced that he intends to take off at seven o'clock to-morrow morning. The radio signal of the plane is "GEBQO" and this lettering is painted under the wings and beneath body.

Plans Return Flight.

The latest information on Capt. Courtney's plans for a return flight is that he will come back over the route of his westward flight. He intends after reaching New York to overhaul his engine and rest not more than two days. Then he will re-fuel and fly back to Calshot landing enroute in Newfoundland and at Valentia.

There was feverish last minute activity at Calshot Camp, where the "Whale" was being got ready. The machinery was fairly covered with mechanics and experts who were making a microscopic examination to see that every possible precaution had been taken and that she was in perfect fighting trim for the battle against the Atlantic elements.

Conditions Good

Captain Courtney made the momentous decision to start today after studying weather conditions all day. Yesterday evening he received from the British Air Ministry a bulletin indicating that by today the weather at Valentia would be good. At the same time a cable was received from New York saying that conditions there and off Newfoundland were all that could be expected for his flight.

A hitch in the radio during the final test to-day was said to be the only thing likely to delay the flight. A new compass has been fitted for the "Whale," Navigator Downer having discovered during Monday's test flight that the compass which was fitted to the flying boat when Raoul Amundsen, the explorer, had it, was one point out.

Pilot Courtney, Engineer R. F Little and Downer, who is both navigator and radio officer, have been holding numerous conferences. One of the last things that Courtney did last night was to test the rubber collapsible boat which is built on the same lines as that used by Commander Byrd during the latter's recent trans-Atlantic flight. The boat held up well with Courtney and three others in her.

Captain Courtney's plans provide that after leaving Valentia he would land at Topsail, nine miles from St. John's, Newfoundland, where the boat would be refueled for the flight to New York.

Weighs Seven Tons

The "Whale," which is constructed of duralumin, weighs nearly seven tons when completely loaded. She has a span of 72 feet, a length of 55 feet and a height of 15 feet. The wing area is 1,000 square feet. The "Whale's normal speed is 100 miles an hour and her maximum speed is 125 miles. The maximum load which she can carry is 8,000 pounds.

If Captain Courtney succeeds in spanning the 1,900 miles of open Atlantic from Ireland to Newfoundland, he will be the first to have accomplished the feat of flying over this westward course in a heavier than air machine.

There was great excitement around Calshot last night as the final preparations for the flight were being made. Many officers and men of the Royal Air Force have asked for leave in order to be present as the "Whale" slips along Southampton waters and starts for America.

Bit Alderman's Nose; Cobalt Man On Trial

COBALT, Ont., July 19. — George Robitaille, accused of wounding with intent to disfigure Joseph Nadeau, a member of Cobalt Town Council, part of whose nose he is alleged to have bitten off during a fracas on June 12, was committed for trial when he appeared before Magistrate Atkinson in the Police Court on Saturday.

Robitaille is out on substantial bail, and Nadeau is to return to a Toronto hospital next month to have a grafting operation performed.

Tombstone Erected To Faithful Dogs

NEPTUNE CITY, N.J., July 20. —Under a marble tombstone inscribed with the legend "Faithful to the End," Lucky and Rags will soon be buried in the front yard of their master's home.

It was they who a few weeks ago set up such a furious barking that neighbors of Jack Kendrick rushed to his house on Sylvania Avenue to investigate and arrived just in time to rescue the nine-months-old baby Treavoria, from a fire which swept through the building.

BIG HAILSTONES CAUSE DAMAGE

Rip Holes in Car Tops and Cut Down Telephone Wires In Alberta.

FALL STRAIGHT DOWN.

CALGARY, July 20 (Canadian Press).—Hailstones the size of baseballs, dropping straight down, cut a swath a mile wide west of Cochrane, Alta., last night, broke down telephone lines by snapping them off at the poles, tore holes through tops of cars, and piled up from a foot and a half to two feet high by the side of the road when they rolled down the banks. The hail dropped straight down, else all the windows in the vicinity would have been destroyed.

Samples of the stones brought here four hours after the storm were still large enough to kill a man if hit by them. According to reports received at the local offices of the Alberta Government telephones, hailstones measuring four inches fell at Ghost River when the storm hit there. A closed car arrived in Cochrane with the top completely riddled.

HARRY BOYLE IN WHOLESALE

Buys Adams' Warehouse as a Supply Base For His Own Stores.

OPENS NEW ONE.

Harry Boyle, well known retail merchant in Peterborough, has opened a new warehouse from which he will supply his local stores and a new store in Lindsay just recently opened. The new premises of Mr. Boyle are on Bethune street, between Simcoe and Charlotte streets, the building previously occupied by the Adams wholesale company, and formerly erected by Louis Florence, junk dealer.

In an interview with The Examiner yesterday, Mr. Boyle stated that as yet he would not try to sell to stores other than his own branches at the present time.

RAIN FLATTENS WARSAW GRAIN

Crops Are Heavy But Cutting is Somewhat Delayed.

WARSAW NEWS.

WARSAW, July 20—One of the most severe rain storms that has visited Warsaw in years came on Sunday afternoon. For about one half hour the downpour was torrential. It was accompanied by quite a high wind. A little to north it was not so bad.

When it was over water was lying on the ground, as it does in the spring. Uncut hay and some of the grain is somewhat flattened. However no actual damage was done, or is reported done, except that there is more work with the hay, and it naturally deteriorates somewhat in quality.

Mr. and Mrs. Wesley Stark (nee Alice Payne) who have spent their holidays with Mr. and Mrs. David Payne, returned to their home in Toronto on Sunday.

Mr. Drain has put up a iron fence in front of the place rented by George Lonsberry. Mr. Lonsberry has made the lawn and garden have a well cared for appearance.

HORSE DROPS DEAD

Harry Garber, Two Year Old Racer, Dies During Workout.

WINDSOR, Ont., July 20 (Canadian Press).—Harry Garber, two-year-old horse owned by L. Bellew, while being worked out on the Windsor Jockey Club track to-day, suddenly threw its rider and dropped dead. The jockey was uninjured.

In Great Britain the man who earns ten dollars a week has to pay out seven weeks' wages every year in taxation.

CHEMONG ROAD IS CONDEMNED BY TRAVELLERS

Roughest Road In Ontario Is Verdict Of Many Who Use It.

PROVINCE BLAMED.

Part Taken Over This Spring Worse Than Suburban Area's Section.

If there is a worse road of its king than Chemong road on this continent local motorists have yet to discover it. City people who travel to the summer colony in the park return to Peterborough in the state of mind of rebels. Not a few of them, following Gilbert's method of making the punishment fit the crime, would like to sentence the Hon. G. S. Henry, Minister of Highways, to a life term of driving a high powered car over certain stretches of the execrable roadway which connects Peterborough with its nearest summer resort.

If the minister contemplates coming here to make a personal inspection, more than one of the exasperated residents of the cottages on the shores of the lake is ready to act as a guide in order to lead him into some charming pot-holey tracks which will convince the legislator that Chemong road, like the old grey mare, isn't what she used to be—not even when it was chiefly the responsibility of the local authorities.

Public indignation is thoroughly aroused over the present condition of the road. Peterborough people living in the park and others whose business or misfortune compel them to journey along the main artery of Smith township are bitter in their condemnation of the ironical fact that the highway, admittedly far from perfect at any time, should fall on its worst days when under the wing of the provincial Ministry of Highways.

A Contrast.

Municipal authorities who have in the past been under fire regarding the condition of this much used and abused line of communication can take considerable comfort from a comparison of those portions which are under the control of the Government with the stretch from the Fourth line to the floating bridge, for the maintenance of which the Suburban Area Commission is responsible.

For the past six weeks construction work has been carried on by the latter body in the neighborhood of the park, which has had the effect of converting the narrow path bounded by swamps into a tolerably passable thoroughfare along which cars can travel at the maximum speed.

On the other hand the road from the Lindsay turn right into Peterborough, for which the Government is now solely responsible, resembles nothing so much as the bed of a dried up torrent. The gravel pounded into infinitesimal fragments by the hundreds of cars which every day travel to or from the city is blown into the fields to the detriment of the crops, leaving only a rocky surface studded with numerous ruts into which even the lightest vehicle plunges with a momentum which threatens the stoutest axle. Equally bad are the large boulders, many of them right in the centre of the road, the effect of which is to lend to a motor trip on Chemong road the sensations that properly belong to switchback riding.

Numbers Falls Off.

On Sunday last, despite the inclement weather, no less than 900 cars travelled along Chemong road. By actual count it has been demonstrated the numbers have fallen off to a greater extent than usual during the intervening days. At the same time the numbers of cars travelling by way of the centre and rear lines of Smith have increased immensely—in other words motorists who can possibly avoid travelling by Chemong road are journeying by alternative routes. These roads are much narrower than Chemong road and the least departure from the track is likely to be followed by a partial sinking in the soft soil, despite these inconveniences motorists choose the less frequented pathways to escape the [illegible] and bumping which is the concomitant of a ride on Chemong road.

"One cannot say too many harsh things about the state of the road at present", said G. A. Gillespie, president of the Chamber of Commerce yesterday, when interviewed by The Examiner on the subject.

"I know something about the road for I am a frequent traveller on it and we have two trucks constantly passing out in that direction. On my last trip out there I came home by way of the Centre line, in much greater comfort than I would have experienced had I returned by the route I went out. Something ought to be done about it for the whole thing is simply a disgrace. Nothing has been done on the road to the Fourth line since last summer. We ought to go after the Department until steps are taken to remedy an intolerable situation. Chemong road in its present state is not the best kind of advertisement for the pro-

GOVERNMENT TO PROSECUTE RIOT LEADERS

Proceedings Were Started Against Seventy-five—Examine Two Hundred.

FUNERALS PRIVATE.

Anti-Strike And Riot Legislation Will Be Demanded When House Meets.

VIENNA, July 20 (A.P.).—Criminal proceedings were instituted yesterday afternoon against seventy-five of those involved in Friday's riots. More than 200 persons are still awaiting examination as to their complicity.

The charges against those who will go on trial include participation in an uprising resulting in the death of 87 persons and the wounding of 400, arson and destruction of public and private property valued at millions of dollars. All face heavy penal sentences.

Funeral Private.

To avoid public demonstrations the government has decreed that the funeral of the riot victims today must be private. With peace and public security well secured, the government yesterday withdrew the troops from the streets and public buildings.

Parliament will convene next Monday. It is already confronted with hundreds of petitions from the provincial governments demanding the enactment of anti-strike and anti-riot legislation, with a provision that the instigators of public disturbances shall be held criminally responsible for the loss of life and property.

There is also an insistent demand in anti-Socialist quarters that the police force through Austria shall be organized upon a non-political basis.

With the resumption of railroad service in all parts of the country the exodus of tourists reached its peak yesterday afternoon.

TRACTOR OVERTURNS CRUSHING FARMER

Body is Crushed Against Disc Which is Attached to Machine.

CAMROSE, Alta., July 20.— Emile Neuens, 22, was found dead yesterday on the seat of a tractor, grasping the steering wheel. His body had been crushed against a disc attached to the machine. Apparently the hind wheels of the engine had sunk in the mud and the tractor turned over backwards, crushing the man against the disc before he could escape.

RYE HARVESTING HAS COMMENCED

First Rye is Cut in the Maple Creek District in Saskatchewan.

WINNIPEG, Man., July 20. —(Canadian Press). — The first cutting of the 1927 rye crop of the west has started in the Maple Creek district, Saskatchewan, according to reports reaching Winnipeg yesterday. Cutting will be general next Monday, according to the advices.

ONTARIO

Exterminate Weeds

Many million dollars worth of farm products are ruined annually by weeds. The loss in rental and sale value incurred by weed-infested farms is incalculable. The weed pestilence has become intolerable.

Exterminate weeds on every square foot of land on your own property, on unoccupied lots and farm lands, on every highway and lane, in city, town or country.

WARNING

Under the provisions of The Weed Control Act 1927, now in force, the destruction of noxious weeds is no longer optional. The destruction of noxious weeds is now compulsory.

Every occupant of land and every owner of unoccupied land is required to destroy all noxious weeds before their seeds ripen. Municipal councils are required to destroy all noxious weeds growing upon the highways. Let everyone co-operate to end the weed nuisance.

Ticket Scalpers Cannot Get Pasteboards; Operations Included Funeral Admissions

NEW YORK (A.P.).—Ticket scalping known for years as one of the best "rackets" along Broadway, has become, in the parlance of the Rialto, "Tought, very tough."

This scalping, or selling of tickets by speculators at increased charges, extended not alone to theatre tickets, an investigation has revealed, but also to prize fights, to the reception to Col. Charles A. Lindbergh and in one case at least to a funeral.

Now, with the Dempsey-Sharkey fight coming Thursday, scalpers are reported bemoaning their inability to get any coveted pasteboards, while heretofore they are said to have been able to get as many ringside tickets as they could handle.

The treasurer of a theatre housing a Broadway "hit" is reported to have sent out word that no more tickets would be given the agencies. In the past, it was said, his theatre consistently sold all is choice seats to speculators for $1 each above box office prices as "ice." Another theatre is reported to have called in all tickets sold to speculators at a profit to the producer of thousands of dollars.

The wide extent of the scalpers' operations has been told by one of the ilk known only as "Mr. Broadway."

This man told a story of the speculation in funeral tickets. It was at the obsequies of Jacob H. Schiff, banker and philanthropist, he said, that speculators succeeded in getting from $20 to $25 each for tickets of admission to Temple Emanuel. The temple has a seating capacity of but 2,000 so invitations were issued, but many of these, he said, found their way to the scalpers.

Chamberlin Likes Milk, Not Beer

NEW YORK, July 19. — Canadian Press. — Clarence D. Chamberlin's favorite beverage is milk, and when in Germany he drank beer merely because it was the drink of the country. To emphatically deny the statement attributed to him before his flight that his one desire on reaching Germany was a glass of beer appeared to be Chamberlin's chief concern upon his return yesterday.

"That story got me the finest beer that was ever brewed, I suppose, but it was more or less wasted on me," he lamented.

PRISONERS WILL REMAIN IN JAIL

French Deputies Fail To Get Release From La Sante Prison.

PARIS, July 20 (Canadian Press).—Marcel Cachin, member of the French Parliament and leader of the Communist party in France, and Jacques Doriot, another deputy, now behind the bars of the La Sante Prison in Paris for twenty-four hours, have failed to obtain their release through legal channels. The two deputies were sentenced to imprisonment on charges of inciting soldiers to disobedience.

"Above all," said M. Doriot when entering the prison, "Mister Jailer, don't let us go free on mere telephone authority."

This had reference to the release from the same prison of Leon Daudet, the Royalist leader, and two other men, on a fake telephone message alleged to have been sent by the Ministry of the Interior.

"We will take good care of you," responded the jailer.

THIEVES BUSY.

Steal Battery and Tools From Garage at Killarney Corners.

NORWOOD, July 20.—Sneak thieves entered Ross McNaughton's garage at Killarney Corners on Friday night and removed the battery and tools from his automobile.

OTTAWA SHOPS ARE TO REMAIN

Must Concentrate the Repairs of Large Engines in Two or Three Centers.

FORCE AUGMENTED.

OTTAWA, Ont., July 20. —(Canadian Press). — It is not the intention of the Canadian National Railways to discontinue its shops in Ottawa and in the last analysis there will be as many men employed in the shops as was formerly the case. Of the 78 men affected by the change in policy regarding the repairs to heavy engines, 27 have gone to Stratford, 35 to Montreal and the other 16 will retain their seniority and will take positions elsewhere or will be given other work in Ottawa.
